Therefore, Mr. President, in the event that the going rate on a ton of commodities—be it wheat, corn, or fuel—is $1 during the fiscal year ended September 30, 1986, the American-flag vessels could charge up to $1.75—in other words, 75 percent more than the lowest foreign-flag commercial rate. In the following fiscal year, it would be 60 percent more. This is so that our commercial fleet could begin to be at least somewhat competitive with the international transportation of similar cargo.

We understand that the American-flag vessel has some expenses. The Senator from Alaska pointed out that some of those additional expenses have to do with environmental considerations, health considerations, and so forth.

Nevertheless, "fair and reasonable" should have some form of definition. Certainly, a rate three times or four times as high as the international rate should not be considered, under any stretch of reasonable imagination, to be fair and reasonable. We would define "fair and reasonable" to be 175 percent of the international rate.

Mr. President, I am joined in this amendment by the Senator from Oklahoma [Mr. NICKLES] and the Senator from Missouri [Mr. DANFORTH].

Mr. DIXON. Mr. President, will the Senator from Minnesota yield?

Mr. BOSCHWITZ. I yield.

Mr. DIXON. First, I ask whether my colleague from Minnesota would honor me by permitting me to cosponsor this amendment.

Mr. BOSCHWITZ. With pleasure.

Mr. President, I ask unanimous consent that the name of the Senator from Illinois [Mr. DIXON] be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. Let me see whether, by asking the Senator questions about his amendment, he might clarify for the Senate, for the American public, for shippers in this country, for farmers, and for taxpayers what is occurring.

The Senator from Minnesota is saying that in the first year of this proposal, it would be recognized that the cost on American vessels is a lot more than on foreign vessels, but the Senator is saying that it cannot be more than 75 percent more.

So if it costs you $1 on a foreign vessel, it cannot cost you more than $1.75 on an American vessel?

Mr. BOSCHWITZ. That is correct.

Mr. DIXON. The Senator is saying in the year after that he recognizes it is going to cost a lot more to ship on the American vessel but he is saying it ought not to cost more than 60 percent more?

Mr. BOSCHWITZ. That is correct.

Mr. DIXON. And in the third year what was the Senator's figure then?

Mr. BOSCHWITZ. Forty percent.

Mr. DIXON. So he is not doing anything more than putting some kind of fiscal constraints on what the Senate has just done in its adoption of the first amendment to this bill.

Mr. BOSCHWITZ. That is correct.

I am glad that the Senator from Illinois recognizes that I am a reasonable man.

Mr. DIXON. I thank my colleague from Minnesota and I support the amendment.

The PRESIDING OFFICER. Who yields time?

Mr. DIXON. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. COCHRAN. Mr. President, I hope that Senators will recognize that we have voted by a very substantial majority in support of the compromise that has been worked out after hours and hours of effort by representatives of the maritime agricultural industries as a way to settle the cargo preference controversy.

It is my hope that Senators will reject all efforts to modify that compromise. I am afraid if we do make modification we are going to cause the compromise to fail.

The parliamentary situation is awkward and it is unfortunate that we have the situation as we do where we do not have a straight up-or-down vote on the compromise. We have had to construct a situation here to try to keep the compromise from being modified so it will not fail so we will permit the Senate to work its will in the adoption of the compromise as it has been drafted and presented to the Senate.

If the Senate now votes for the amendment suggested by the Senator from Minnesota we are going to torpedo the compromise.

I am hoping that Senators will realize what is happening here and what is being attempted.

There are some who are very sincere in their opposition and very effective in their arguments against the compromise. I understand their position. It is unfortunate that this compromise could not have been crafted to satisfy the concerns of the Great Lakes ports. That is what we are considering here. The Senator is urging that this compromise be rejected.

We cannot today legislate a greater depth to the St. Lawrence Seaway on the floor of the Senate. That is the real problem. Because the St. Lawrence Seaway has a limited depth, the large, modern U.S.-constructed vessels cannot make calls at all of these Great Lakes ports, and that is the problem.

We cannot cure that with this amendment. We cannot cure that with an eloquent argument from the Senator from Illinois, although he has made one and I congratulate him.

I wish we could change the facts so that we could have everyone supporting the compromise today. I would like nothing better, but we just cannot somehow overcome the realities that we confront, and that is one of them, and it is a serious problem.

I am hoping, in spite of that, we can continue to work to ensure that there is fairness and equity in the shipment of U.S. agricultural commodities from the United States.

Senators will know that there is created in this compromise a 16-person commission, a group to study ways to improve competitiveness of our U.S. export program. One objective of the Commission is to help assure fairness among the four regions, the east coast, the west coast, the gulf coast, and the Great Lakes, in the shipment of goods overseas.

Senators should know that an effort is being made to solve this problem. But I admit it is not solved in this compromise and I wish it could have been. Efforts were made to work it out, but they were not successful.

I am saying Senators should reject this amendment. It does not help the compromise. It would torpedo it. It would cause it to fail. I am hoping that the amendment of the Senator from Minnesota could be rejected.

Mr. NICKLES. Mr. President, will the Senator from Mississippi yield for a quick question?

Mr. COCHRAN. Mr. President, the Senator from Mississippi yields the floor. I will be happy to try to respond to any questions Senators make.

Mr. NICKLES. Will the Senator yield for a question?

Mr. COCHRAN. I am happy to try to respond to any questions Senators have.

Mr. NICKLES. I would like to ask the Senator from Mississippi a question.

Mr. COCHRAN. The Senator could just address the Chair, seek recognition, and I will be happy to try to respond to his questions.

Mr. NICKLES. Mr. President, I ask the Senator from Mississippi if he could respond to this question. As I understand, the amendment of the Senator from Minnesota basically says it has to be within the first year 175 percent of the world market rates. Are most of the contracts now that we are having with U.S. shippers more than 175 percent of the world market rates?

Mr. COCHRAN. Could the Senator repeat his question? Others were asking questions, and I did not hear all the Senator's question.

Mr. NICKLES. I believe, as I understand the Senator from Minnesota, the first year end of fiscal year 1986 it says that contracts will have to be within 175 percent of world market rates. Are most of the domestic contracts in excess of 175 percent of world market rates or less than that?

Mr. COCHRAN. I do not know the answer to the Senator's question, I might say to the President.

Mr. NICKLES. I thank the Senator.

Mr. DIXON. Mr. President, I think that we are all indebted to the Senator from Minnesota who has made it pretty clear now what we are doing here, because for every Member of the majority who came to this floor and voted to adopt the first amendment to the so-called compromise, they are now making a real simple vote. I want them to understand how simple this is. When a Senator goes back home to his State they are going to say, "Senator, does that cargo preference cost anything extra?" So he is going to say that is arguable. At this point, the Senator was OK. He was OK on amendment 1. He could say that is arguable, could he not, I say to my friend from North Carolina, the chairman of the Agriculture Committee? He could say that is arguable; we do not know.

Maybe the American bottom can ship just as cheaply as the foreign bottom. The Senator can get by with that.

Now on this amendment the Senator has to say that 175 percent of what it had cost on an American bottom is OK with him. When he casts this vote do not the Senator dare forget that. He is voting on something that everyone can understand. When the Senator goes to that Grange back home or that local meeting of the Farm Bureau in Mizpah do not forget some farmer in the back of the room with patches on his breeches is going to get up and say "How come you voted that they can charge way more than 175 percent more? I want you to explain that vote to me."

I know the Senator is not going to have any trouble. It will not be any problem at all to explain that.

I am not going to have to explain it because I am voting for the amendment. This amendment puts in black and white that everyone of you who steps up to the well knows that the cost on this thing is off the table. This amendment says that the U.S. taxpayers and the shippers are forced to pay more than 175 percent of what it had cost, and you said yes. Now you are not voting for smoke now.

You are not voting for something you can explain now. You are bellying up to the bar and buying a double shot of more added to the budget deficits. You are stepping up to the bar and you are buying a double shot of more cost to the American shipper.

The amendment by my friend from Minnesota is aptly put. I would accept an amendment up to 200 percent and I think you would still vote against it.

But this puts, in simplistic terms that every American can understand, the price of this bill. OK, you bought amendment one, step up to the bar now on amendment two and pay for it.

Mr. LONG addressed the Chair.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. LONG. Mr. President, these figures keep changing as to how much we are going to pay to subsidize American farmers to keep them in business. For my purpose, I do not need to know the exact amount to state my brief point here.

One of the figures mentioned which I am willing to accept for the purposes of argument is that this farm bill is subsidizing farmers to the tune of $18 billion in a year. Now, I am willing to vote, Mr. President, for whatever it takes to help the farmers, enough so that they can stay out there and work on the farm and make a profit and survive. I want to see them do well, just as I would like to see everybody do well in this great country of ours. I hope I can vote for a bill that the Senate puts together.

Mr. President, I just cannot understand the pontificial outrage that somebody else is going to get a little help other than the farmer. The amount that has been mentioned for the subsidy for the maritime industry, I am told, is about $60 million. So the help for those who sail the high seas and those who build ships and the maritime industry in general would work out to be about $1 for every $300 that we are doing for the farmer.

Now, if I were out here leading the case to help the farmer and I could get the maritime people aboard, and all I had to do for them was just to give them a share in the program to the extent of one-third of 1 percent, I think I would have made a very good deal, indeed.

But, no, sir; all this is about is that it is great to subsidize the farmer and just an outrage to do anything for anybody else, I find difficult to understand. Frankly, I am not worried about defending my position. I would be in very great difficulty if I were running for office and trying to defend the position to say that we cut down and take away from the people who sail the high seas—a vital part of our defense, in my judgment—just to help to get a little more, a teeny bit more, one-third of 1 percent more for the farmers.

I am willing to vote for the $18 billion or more if need be for the farmer.

The attitude taken by those who just seem to be against the maritime industry, but for the farmer, is like the prayer that the farmers used to say and say that same prayer every day: "God bless me and my wife, my son John and his wife; Just four, and no more. No more." [Laughter.]

And in this amendment that is being offered here, for example, no one tells us how that world rate is arrived at, but they say that anyone with more than a certain percentage of the international world rate is too high. I do not know how they arrive at that. I assume the rate that they are talking about has to do with what you can build a ship for with Korean labor—and, by the way, they build very good, high quality ships. But their wage rate is about $1.65, only half of our minimum wage, and our workers hope to make a little more than the minimum wage here. Then you talk about what you pay the seamen. Our seamen are well paid insofar as there are jobs for them.

What is the international rate? I do not know, but I assume you could hire them for $1.65 if they are Korean. I think you could hire them for 50 cents if you are hiring from some other points in the world, which is a very small fraction of what we have here.

I hope people are not mislead by what this amendment would do. All it would do is totally kill what those of us who would like to see the maritime industry survive would provide for the maritime industry.

Here is a compromise that 70 Senators have voted for. I hope the Senators will be consistent and stay with what they elected to do when they voted on the previous vote, to simply stay with the compromise and vote down this amendment.

Mr. BOSCHWITZ addressed the Chair.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. BOSCHWITZ. Mr. President, I appreciate the comments of the senior Senator from Louisiana and I respect him. In fact, I hold him in considerable awe.

I might point out that the rates that are allowed by the Maritime Administration allow not only for the cost of doing business and for the cost of building ships and so forth, but they also allow for a reasonable profit. Now, if we could get that same treatment for our farmers in this farm bill, if we would allow them a reasonable

profit, too, in all their transactions, we would certainly not be hearing the hue and cry from the farm community that we have been hearing.

In the event that we gave the farmers business, went out and sought business for them, rather than embargoing their principal customers on frequent occasions, then perhaps the Senator from Louisiana would be correct and the analogy could be made.

This is not much to give if you relate it only to the cost of the farm bill. But, of course, the maritime industry receives much in other parts of the budget as well.

I would tell my colleague from Louisiana that recently there was a shipment made in September to the Sudan on a Korean—and that is the example that the distinguished Senator gave—on a Korean-flag vessel. The rate was $20.35 per metric ton. On a U.S.-flag ship it was $63, just a little over three times the rate.

Mr. LONG. Will the Senator yield for a question at that point?

Mr. BOSCHWITZ. Yes.

Mr. LONG. What was the Korean wage rate? What were they paying their labor?

Mr. BOSCHWITZ. The Senator knows that I do not know what they were paying their labor. I am ready to concede that they were paying their labor a good deal less than we pay.

Mr. LONG. I went through an automobile factory in Korea, where they are doing fine work and doing a good job. May I say to the Senator, the best labor rate there was about $1.65 an hour. Does he recommend that for American automobile workers?

Mr. BOSCHWITZ. Well, certainly the distinguished senior Senator from Louisiana is not saying that we should embargo or in some way raise a barrier against all shipments of any type from Korea because their wage rates are not at the same level as ours. Perhaps the Senator is saying that. Is that what the Senator is implying?

Mr. LONG. Well, I suggest that I do not see the reasonableness of tying what an American seaman should make to the wage of a Korean seaman or a Hong Kong seaman.

Mr. BOSCHWITZ. No Senator is more understanding and has a greater perception of the free enterprise system than my friend from Louisiana and no Senator has a greater feeling for the scope of the world economy. I certainly will admit that wage rates differ here than in Korea.

I might give another example in that case. A shipment of wheat to Egypt in September under a Liberian flag vessel was $17.60 per metric ton. Under the U.S. flag vessel, it was $52.50. I am prepared to admit that the Liberians undoubtedly pay a lower wage rate and, as my friend from Alaska pointed out, we put a doctor on the ship, we have certain standards with respect to the environment, and so forth, that they may not. I recognize that.

However, I would say to my good friend from Mississippi that on this so-called compromise, as he called it, I remind him that there has not been a minute of hearings on this so-called compromise. It was never presented to the Agriculture Committee. It was not even introduced here in the Senate in bill form. It has just been introduced on this agriculture bill and it is introduced as an amendment, skillfully so, and within the rules and within the rights of the Senator from Mississippi.

I point out that my amendment says, fine, we will give 75 percent of the cargo to American bottoms but in return we should do so at reasonable rates, and I have set these rates at 75 percent over the world price for fiscal year 1986 and 60 percent in fiscal year 1987 and 40 percent in fiscal year 1988.

I yield the floor.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I wonder if the distinguished Senator, the sponsor of the amendment, will yield for a question. Before I do that, however, I wonder if I might ask the sponsors of the underlying amendment if they would consider—I will give this to them for their observation—an amendment which will make the borrowing provisions of this amendment comply with the Budget Act in that the borrowing authority is not made subject to appropriations.

When I am through, I would like to ask the Senator if he will consider that as an amendment. It is—with a few exceptions—a Budget Act requirement for all new budget authority. It was probably left out as an oversight. In any event, if the Senator is not interested in accepting it, I will offer it after we finish this.

Did I understand that the distinguished Senator from Louisiana was saying—to see if I understood the Senator's reasoning—since we are subsidizing farmers, we ought to subsidize under this shipping act those who man the ships, and let them charge whatever rate a commission in this country determines is fair for the owners? Is that what I understood the Senator to say?

Mr. BOSCHWITZ. I really probably should have let the distinguished Senator from Louisiana speak for himself. But the Senator seemed to say that, yes.

Mr. DOMENICI. The Senator gave the example that he went to Korea and saw people working in an automobile factory making Korean cars, and they are earning less than our automobile workers. The Senator asked if you would like to see our automobile workers paid the same? You said, of course not. But I have not seen anybody offer an amendment here saying we should raise the price of Korean cars because their workers are making less money than ours.

It seems to me the only rationalization for the argument that the maritime owners and workers get a piece of this particular shipping, even though they are not competitive is because we are subsidizing the farmers, and but for the subsidy we would not be shipping the goods; so we should spread the subsidy around, and give it to the maritime workers. If I did not hear the Senator right, I stand corrected. But it seems to me that this is what my friend, whom I agree is a staunch advocate of the free enterprise system, is saying.

Is the argument that because we are subsidizing farming which is having a tough time, we should say to them, "We have to give you money in the loan program and the target price program. You are producing more than we can use. We want you to ship it overseas but since we are doing that, we ought to spread a little bit of that subsidy to the maritime workers." Did I hear it right?

Mr. LONG. Mr. President, will the Senator yield at that point?

Mr. DOMENICI. I yield.

Mr. LONG. I do not see the Senator proposing we should say the American farmer gets a certain price based on what it costs to produce something in China, or India, or what some working man is making over there.

Mr. DOMENICI. That is correct. We are saying good luck to you. Even if it costs you more, you may not be able to sell it, but we are not saying we should subsidize to compensate for the 49-cent an hour wage rate in China. I have never heard it mentioned.

Mr. LONG. Compared to the agriculture, as far as this Senator can recall, agriculture and the merchant marine have been subsidized as far as I can recall since I have been a Member of this body. We subsidize them in different ways. But I have yet to hear one say, well, the amount of subsidy that it requires for the American industry to be on the high seas is determined by a certain percentage of foreign costs. I do not know how the Senator would go about arriving at the foreign costs.

To me it is rather irrelevant because I would think if you are saying how much subsidy do you have to have in order to have the merchant marine on the high seas, you could probably expect to use the existing wage contracts that exist between labor and management in that area. If the Senator has some other way he would like to arrive at it, more power to him. I would like to hear what it might be. But to simply say for foreign shipping it can be higher at a certain percent,

so the fairest thing would be to say 175 percent of what the foreigner would charge is the right amount. I do not think you would want to say that for the wage. The foreigner might be getting 30 or 50 cents an hour. Even if it is a dollar, I would not say $1.75 would be ample because foreigners are working for $1. The idea of what is a fair and equitable amount arrived at depending on what the American wage scale is I do not see anything wrong with.

Mr. DOMENICI. I say to my friend from Louisiana, I am on the floor for the purpose of suggesting the amendment making the borrowing authority subject to appropriations, but I heard the Senator's argument. If we are not going to let the marketplace establish what people charge, then one way to do it is to subsidize first. Then we have a justification for subsidizing anybody that is ancillary to the subsidized industry. We can say, well, since we are giving a subsidy to an industry, then all those ancillary to it ought to share in that.

But for those American industries which are free and competitive, we are not saying that. We are not saying let us subsidizes because foreign wage costs are too low. I do not know the remedies. But we are not saying we are going to set a price based on completion with cheap foreign labor. That is the only thing that struck me in the argument. That is why I raised the issue. I think that is really what some are saying.

Mr. COCHRAN. Mr. President, if the Senator will yield, I am prepared to now say we are reviewing the amendment which the Senator has handed to the managers of the bill. I am not able to say at this point whether we can accept it as part of the underlying amendment or not. We are working on that. It looks to me as though it is something we would want to include in the amendment. I am not able to give a final answer at this point.

Mr. DOMENICI. I thank my friend. With that, I will leave.

Mr. BOSCHWITZ and Mr. COCHRAN addressed the Chair.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. COCHRAN addressed the Chair.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, it would be my intention after Senators who desire to speak on this amendment have had an opportunity to do so to move to table the amendment of the Senator from Minnesota, and to ask for the yeas and nays.

It is my understanding that the yeas and nays have been ordered on the amendment of the Senator from Minnesota. But in spite of that, it would be my intention to move to table that amendment at such time as other Senators have had an opportunity to speak who really want to speak.

Mr. ANDREWS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. ANDREWS. Mr. President, maybe somebody has missed what we are really talking about here today. Certainly, there are no seaports in North Dakota. But my State produces a lot of grain that has to be exported. My State, as the other 49 States are, is intentionally interested in the defense of this Nation. I always thought that the reason we shipped our Public Law 480 shipments in American bottoms is so those ships and those seamen would be there in time of emergency. That is the only reason.

We found when we went into World War II we did not have any vessels or any crews in enough numbers to support the movement of our defense forces overseas. I am getting a little tired of listening to subsidy this and subsidy that. Anytime somebody does not know how to address an issue, he points his finger and says somebody is subsidizing somebody. We maintain, or we are moving toward a target of 600 vessels in our Navy to protect our freedom. Those vessels are important. But equally important are the ancillary vessels that carry the cargo to take care of that Navy or our Army or whatever other forces are over there.

What do we do in peacetime? Mr. President, in peacetime, we have our naval vessels cruise—it is called cruising time, and it is training. They are moving back and forth to keep those crews alert and to keep those vessels ready so that when we need them in an emergency, we have them. I have also looked on the concept of shipped in American bottoms as a way of getting 15 or 20 or 25 or 30 ships flying the American flags, manned with American crews, ready to go when they are needed for the defense of this country, but in the meantime, moving American cargoes so they are not just steaming empty.

I think if we would take a look, Mr. President, at the need for this issue, not from the standpoint of somebody's subsidy, what we have had in the past has not worked, because what we have tried to do is take it off the back of the American farmers and that has overpriced our merchandise in foreign ports.

As a result, there are no sales for our farmers and there are no cargoes for our merchant marine and our merchant marine has been decimated.

Let us be frank about what we need: we need a number of American vessels crewed by American sailors ready to go in time of war or emergency. In the meantime, instead of keeping them cruising around empty as naval vessels do, let us use them for something. That is why we need this kind of activity. That is why it ought to be funded out of the Department of Transportation, which now handles merchant marine. I think probably more fitting would be to fund it out of the Department of Defense, but I hope down the line, we can move to that. But let us not talk about subsidy. Let us treat it for what it is, maintenance in the best way possible of a sizable fleet to be ready for emergency, and in the meantime, carry the cargoes we have to carry and let us make sure that we do not overprice our cargoes because nothing times something is still nothing.

That is what has been happening. We have had no cargoes because our grains have been overpriced and our farmers have been disadvantaged and we have not gotten the merchant marine we need. This is a step in the right direction.

I hope we can go on with what the Senator from Mississippi is suggesting and fund this out of the Department of Transportation or the Department of Defense and maintain a group of American vessels and American seamen.

Let me add one thing before I close, Mr. President. I am a little proud of what we can do in agriculture. I think we ought to be debating on this floor not the farm problem but the agricultural advantage. The Soviet Union could blow the world up 10 times over, and so could we. We can put a man on the Moon and so can they. But they cannot feed the world and we can. That is something no single nation has been able to do before in the history of the world. When we move our peacetime shipments into those undeveloped nations, somehow or other, maybe I am getting a little overpatriotic, and maybe we need to be a little more patriotic, but I think it makes sense to see those ships steaming into those foreign ports and emptying American grains and say, "This came from the United States."

Some of us listened to a lecture from the French equivalent of the CIA. He talked about how we have been taken advantage of and how, when he was a youth growing up in a port city of France, he saw a ship coming with American wheat. When it steamed into the harbor, in the dark, some of the Communists came out and put a huge banner across it which said, "A gift from the Communist people." But it was not. It was from the United States.

Let us counter that. Let us move our food, the abundance that is uniquely America's, the strength that is uniquely our country's, in our own vessels, flying our own flag proudly. At the same time, let us get these vessels that our Navy uses and treat them as a Department of Transportation or Department of Defense fund. That is what we ought to be doing.

Mr. BOSCHWITZ. Mr. President, will the Senator yield?

Mr. ANDREWS. I am glad to yield to my neighbor and friend.

Mr. BOSCHWITZ. From what he says, I think he feels as I do that the American fleet should be a strong one. Would he mind in that case if the elements of that fleet were manufactured abroad? Because it was part of the window given maritime that allowed them to include in its total number of American flag ships those that were built abroad. That, I may say, did a good turn for the American maritime fleet because it gave them some new and more modern vessels. It used to be they were a bunch of tubs.

My question of the Senator is, would he be agreeable to having ships that were built abroad flying the American flag that could serve our Nation in time of difficulty?

Mr. ANDREWS. As long as they are controlled by Americans and flying an American flag, that is not so bad. But I do not think they have to be built abroad. Let me point out to my friend and neighbor that a couple of years ago, I was interested in this whole shipping thing. I went up to Maine, the Bath Iron Works. I found they could produce ships in competition with the best shipyards in Japan now and make a credible passenger vessel and have it so we know it is dependable. It has built into it the American safety features that we require. I do not think you need to build them overseas to be dependable anymore.

Mr. BOSCHWITZ. I agree with my friend from North Dakota. If what he says is the fact, I do not think this debate would be held today on the floor of the Senate and I do not think the American maritime fleet would have any problem coming within the boundaries we have established in this particular amendment.

Mr. ANDREWS. Might I point out to my friend that the reason this debate is being held on the floor of the Senate is that we are not talking about building new ships that come up to safety standards that would be able to ship American needs in time of emergency or wartime. We are talking about shipping American grain in a bunch of overaged tubs that are not safe and could not be used under combat situations and you could not get an American crew to sail them. That is what our grain has been moving in.

We need an upgraded merchant marine with high quality ships, good safety features and high speed, really.

Mr. BOSCHWITZ. We got some upgrade of our fleet when we allowed ships to be put under the American flag that were built abroad. That window has now been closed. I wish those ships could be built in the Bath Iron Works. I remember as he does that in the Second World War, we could turn those ships out in a few days. Unfortunately, that is no longer the case.

Mr. LEVIN of Michigan. Mr. President, I intend to vote to table the amendment offered by Senator BOSCHWITZ because it would undermine the entire Cargo Preference Program. I have supported the requirement that at least 50 percent of our Public Law 480 cargoes move on U.S. bottoms. I agree that the Cargo Preference Program is necessary to maintain a U.S. fleet which can meet our economic and defense needs. The Boschwitz amendment would place arbitrary constraints on the existing law.

Even though I support the concept of cargo preference, I voted against the compromise amendment on cargo preference offered by Senator COCHRAN because it expanded the Cargo Preference Program beyond existing law without ensuring equitable distributing of Public Law 480 cargoes to the Great Lakes ports. The amendment offered by Senator BOSCHWITZ attacks the concept of subsidizing the U.S. merchant marine through the Cargo Preference Program and thereby undermines the current law. As I have just stated, I do not object to the existing requirement that 50 percent of our Public Law 480 cargoes move on U.S. bottoms. What I object to is increasing the cargo preference requirements by 25 percent without guaranteeing fair distribution of Public Law 480 cargo shipments to Great Lakes ports. As a Senator who represents one of the Great Lakes States, I simply cannot support a compromise which will harm the Great Lakes ports.

As the Senator from Illinois so forcefully stated during the debate on Senator COCHRAN'S compromise amendment, the Great Lakes ports already operate at a disadvantage because of the way the U.S. Department of Agriculture has applied the cargo preference requirements under the Food for Peace Program. Currently, the law requires that at 50 percent of the food for peace cargo move on American ships. Unfortunately, the Great Lakes ports are rarely served by U.S.-flag ships. Additionally, our shipping season is short because the St. Lawrence Seaway is closed during the winter months. As a result, in order to get our equitable share of Public Law 480 shipped out of Great Lakes ports, we need to have a higher percentage of the 50 percent which is permitted to be shipped on foreign flags move from Great Lakes ports.

Under the current law, the Great Lakes ports have already suffered as a result of USDA diversion of Public Law 480 cargo. Millions of pounds of grain grown in the Midwest which is distributed under the Food for Peace Program and which logically should be shipped from Great Lakes ports, has been diverted to ports in other regions of the country at a higher cost to the U.S. taxpayer. A Wall Street Journal article dated May 15, 1984, further explains the inequity in the administration of the cargo preference requirements and the importance of food for peace shipments to the Great Lakes ports. According to the article:

> Last year, for the first time in the 29-year history of the Food for Peace Program, the total shipments fell short of the 50 percent benchmark. When the cargo tonnage was tallied at year end, only 48.5 percent had moved in U.S.-flag freighters. This modest violation of the cargo-preference law set off bells at the Agriculture Department. To ensure that it doesn't happen again, officials decided to enforce the 50-percent rule each month, rather than waiting until late in the year to adjust any imbalance.
>
> So in late March, when the department made its first 1984 monthly food shipment assignments affecting Great Lakes ports (because of ice, the St. Lawrence Seaway, which connects the Great Lakes and the Atlantic Ocean, is closed to shipping from roughly mid-December to April 1), the government modified its "cheapest possible transportation" rule.
>
> Lacking enough U.S.-registered vessels in the Great Lakes in April, the department looked elsewhere for ships. The result: 20,000 tons of processed grain for India and Peru were sent to Mississippi River ports and 12,000 tons of corn for Somalia were directed to docks on the Gulf Coast. An Agriculture Department official admits costs were higher than if Great Lakes ports had been used.

The article goes on to state:

> The port of Duluth, Minn., says about two-thirds of the 62,000 hours worked by port personnel last year were devoted to humanitarian food cargo. Admiral Hoffman says food for peace cargo was the "basic inducement" for 56 of the 62 freighters that called at Milwaukee in 1983.

Mr. President, between 1980 and 1983, approximately 25 percent of the Public Law 480 cargo was shipped from Great Lakes ports. In 1984, Great Lakes shipments dropped to approximately 16 percent. Under the compromise amendment which was approved by the Senate which increases the U.S.-flag requirement from 50 percent to 75 percent, the Great Lakes ports will see their fair share of the cargo eroded even further.

Mr. President, I had hoped that the compromise could be amended to protect the interests of the Great Lakes ports by ensuring equitable distribution of Public Law 480 cargoes. Unfortunately, the sponsors of the compromise decided to preclude the opportunity to offer such an amendment by parliamentary maneuvering. As a result, I reluctantly voted against it.

Mr. ANDREWS. Mr. President, I think all of us have made our point. I yield back my time.

Mr. COCHRAN. Mr. President, I move to lay on the table the amendment of the Senator from Minnesota and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficent second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Mississippi. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

The PRESIDING OFFICER (Mr. DURENBERGER). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 66, nays 34—as follows:

[Rollcall Vote No. 260 Leg.]

YEAS—66

Andrews	Gore	Metzenbaum
Baucus	Gorton	Mitchell
Bentsen	Harkin	Moynihan
Biden	Hart	Murkowski
Bingaman	Hatfield	Nunn
Bradley	Hecht	Packwood
Burdick	Heflin	Pell
Byrd	Heinz	Pryor
Chiles	Hollings	Riegle
Cochran	Inouye	Rockefeller
Cohen	Johnston	Sarbanes
Cranston	Kennedy	Sasser
D'Amato	Kerry	Simon
DeConcini	Lautenberg	Specter
Denton	Laxalt	Stafford
Dodd	Leahy	Stennis
Eagleton	Levin	Stevens
Evans	Long	Trible
Exon	Mathias	Warner
Ford	Matsunaga	Weicker
Glenn	Mattingly	Wilson
Goldwater	Melcher	Zorinsky

NAYS—34

Abdnor	Garn	Nickles
Armstrong	Gramm	Pressler
Boren	Grassley	Proxmire
Boschwitz	Hatch	Quayle
Bumpers	Hawkins	Roth
Chafee	Helms	Rudman
Danforth	Humphrey	Simpson
Dixon	Kassebaum	Symms
Dole	Kasten	Thurmond
Domenici	Lugar	Wallop
Durenberger	McClure	
East	McConnell	

So the motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

SCHEDULE

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, I seek recognition at this time in order to ask the distinguished majority leader to give us a rundown on the rest of the day's schedule, perhaps for tomorrow, and as far down through the week as he may be able to.

Mr. DOLE. Mr. President, I hope we can still have one vote by 5:30 or thereabouts. I think there are at least two additional amendments pending.

I ask the distinguished Senator from Mississippi if there are further amendments to his amendment.

Mr. COCHRAN. Mr. President, there are actually three amendments pending, but they all represent a compromise of the cargo preference issue, and they could be disposed of on a voice vote, as far as I am concerned.

There may be other amendments to those amendments that could be offered. I know that the distinguished Senator from Ohio has mentioned that he may have an amendment. The distinguished Senator from Illinois has two amendments. So apparently we are growing in number as we stand here and talk. I will sit down.

Mr. DOLE. These are all amendments that require rollcall votes?

Mr. DIXON. Mr. President, I say to the distinguished majority leader that I have two amendments that are important in the view of those of us on the other side of this issue. The Senator from Iowa has an excellent amendment that might be adopted. So there are some other amendments of great import around here.

Mr. DOLE. I am certain there are other amendments of great import. I just want to get some estimation so that I can give the distinguished minority leader at least a guess.

I do not want to stay too late this evening. I want to get everybody to stay late tomorrow night and Thursday night. So I guess there will be at least two or three more votes this evening, and we would like to do it rather quickly. This issue has been around all afternoon. I should think we ought to be able to dispose of those amendments fairly quickly.

Mr. BYRD. I thank the majority leader.

Mr. DOLE. Tomorrow we will be back on the farm bill, starting at 9.

Mr. BYRD. Is the distinguished majority leader able at this point—it may be early in the week—to inform the Senate as to a Friday session and whether there will be a Saturday session?

Mr. DOLE. There will be no Saturday session. I do not see how we can avoid a Friday session.

I have discussed this with the chairman and both managers of the bill. I understand there are 69 amendments. There were 70. There should be 69—probably more. Some of those may not be offered.

I think we are making progress. We are voting now, and it is my hope once the pattern is established it might eliminate some of the amendments. I think a pattern has pretty well been established in this area but maybe after a couple more votes we can move on to some other title.

So, Friday we will be in. Hopefully we could be able to leave by 4 p.m. in the afternoon.

I hope Members will be here on Friday.

I have advised my colleagues at the luncheon today that we are going to have votes on Monday and Friday.

I cannot help it if Senators do not like it. But others are pushing to get out of here this year. So we will do what we have to do.

Mr. BYRD. Mr. President, I thank the Senator.

Several Senators addressed the Chair.

Mr. METZENBAUM. Mr. President, will the Senator yield for another question?

Mr. DOLE. I yield.

Mr. METZENBAUM. Mr. President, does the majority leader have any intention of setting the farm bill aside at any point in order to go back to any other legislation and if so what are his plans?

Mr. DOLE. Mr. President, let me indicate there will be a very important agriculture hearing on Thursday and Friday of this week on farm credit. The managers of the bill and every other member of the Agriculture Committee will want to be there.

So I am hoping that on those two mornings we can take up and complete appropriations bills, State Department, Justice, Interior, if we can work it out, and, yes, plus we have said earlier if reconciliation can be resolved we would interrupt the farm bill for that purpose.

Mr. METZENBAUM. I certainly respect the majority leader's response and appreciate it. I do hope he will give us all adequate notice so we can anticipate whatever floor action may be.

Mr. DOLE. That is a good suggestion.

Let me indicate that on Thursday and Friday morning we will not be on the farm bill and we will attempt to notify Members as soon as we can what will be up at that time.

Mr. METZENBAUM. I thank the Senator.

AMENDMENT NO. 923

(Purpose: To transfer from the Department of Agriculture to the Department of Defense certain costs incurred in the shipment of certain agriculture commodities in United States flag vessels)

Mr. HARKIN. Mr. President, I have an amendment along with Mr. GRASSLEY, Mr. BOSCHWITZ, Mr. BOREN, Mr. ZORINSKY, Mr. DIXON, Mr. SIMON, Mr. MELCHER, Mr. EXON, and Mr. NICKLES that I send to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Iowa [Mr. HARKIN] for himself, Mr. GRASSLEY, Mr. BOSCHWITZ, Mr. BOREN, Mr. ZORINSKY, Mr. DIXON, Mr. SIMON, Mr. MELCHER, Mr. EXON, and Mr. NICKLES proposes an amendment numbered 923.

Mr. HARKIN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

Mr. STENNIS. Mr. President, may we have the amendment read?

The PRESIDING OFFICER. The clerk will state the amendment.

The legislative clerk resumed and concluded the reading of the amendment.

The amendment is as follows:

At the end of the pending amendment, add the following:

TRANSFER OF RESPONSIBILITY FOR THE PAYMENT OF CERTAIN TRANSPORTATION COSTS

SEC. . (a) Section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)) is amended to read as follows:

"(f) Export or cause to be exported, or aid in the development of foreign markets for, agricultural commodities, except that no funds or assets of the Corporation may be used to pay for, or otherwise finance, the ocean freight charges for any such export to the extent that such charges are higher than would otherwise be the case by reason of a requirement that the commodities be transported in United States-flag vessels.".

(b)(1) Notwithstanding any other provision of law, the Secretary of Defense shall pay the ocean freight charges for the export of agricultural commodities arranged by or through the Commodity Credit Corporation under section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)), or under any other law, to the extent that such charges are in excess of what they would otherwise be because of a requirement that the commodities be transported in United States-flag vessels.

(2) There are authorized to be appropriated to the Secretary of Defense, for each fiscal year after fiscal year 1985, such sums as may be necessary to pay the ocean freight charges the Secretary is required to pay under paragraph (1) in such year.

(c) The amendment made by subsection (a) shall apply to shipments of agricultural commodities made after enactment of the Agriculture, Food, Trade, and Conservation Act of 1985."

Mr. HARKIN. Mr. President, this amendment is a very simple amendment. All day long I have been listening to the debate on cargo preference and Senator after Senator has risen to talk about the need for the maritime industry as part of our national defense network.

Mr. President, I have only been in this body for 10 months, but I served in the other body for 10 years, and it seems like every time an agriculture bill was considered, we always had this long, involved debate on cargo preference, and for the life of me I never could understand why the funding for it was coming out of Commodity Credit Corporation funds, why it was coming out of the Department of Agriculture.

I have listened to the arguments made on the need for a strong maritime industry for the defense of this country, and I am persuaded by those arguments. I think they are right and so in the past I basically have been one of those who has supported the concept of cargo preference only as a way to enhance our national defense posture. But I never could really understand why it had to come out of Department of Agriculture funds.

So after listening to the debate today in this Chamber, it occurred to me that perhaps now is the time for the Senate to take decisive action and to shift the funding for cargo preference from the Department of Agriculture to the Department of Defense, and that is simply what my amendment does.

It does not reduce cargo preference. It does not say anything about the rates or how much above the world cargo rates. I leave that up to the judgment of other Senators and the specific votes that are coming up.

But what my amendment does is it simply says that any commodities that are shipped under the concessional sales programs of the USDA such as Public Law 480, title I, or title II, or section 416, any difference in the rates that are charged has to be paid for by the Secretary of Defense and not the Secretary of Agriculture.

Again, I listened to the arguments today. I heard the arguments about how when we went to Grenada we were going to rely on great Britain to supply us with some ships to transport our men.

Again we have to ask ourselves whether or not we really do want to have a strong maritime industry.

I think the consensus is clearly by the last few votes that we do want a strong maritime industry. But it should be paid for out of the legitimate defense funds of this Nation.

That is really what my amendment does. It just says that from now on after the enactment of this bill any funds used would come from the Secretary of Defense and not from the Secretary of Agriculture.

As I said, Mr. President, many Senators today have risen to talk about how we need the maritime industry, how this is a legitimate defense function. Well I agree. I do not agree, however, that it should come out of CCC funds. I am just hopeful that we can have a vote on this, and I think that the merits of the situation demand that, if we are going to have cargo preference—and it seems like most of the Senators here want a cargo preference bill which that is fine—as a matter of fact, I do, too—I want a strong maritime industry, but I do believe that the funds should come from the Department of Defense.

That is all that my amendment does.

Mr. NICKLES. Mr. President, will the Senator from Iowa yield?

Mr. HARKIN. I am delighted to yield to the Senator from Oklahoma.

Mr. NICKLES. Mr. President, so as I understand his amendment, he wants the cost of the Cargo Preference Program to be coming out of the Department of Defense instead of the CCC or the Department of Transportation as is provided in the Cochran amendment?

Mr. HARKIN. That is right.

Mr. NICKLES. I commend the Senator for his amendment.

Mr. HARKIN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. DIXON. Mr. President, I wish to congratulate my distinguished friend from Iowa for offering this amendment. This amendment makes perfect sense. Under the existing cargo preference law and under this so-called compromise, if it is adopted, the first 50-percent cargo preference is borne by the Department of Agriculture. This year, that will cost over $100 million.

But the Department of Agriculture does not want cargo preference. They are not in favor of cargo preference. The agricultural people in the country do not want cargo preference. They are not in favor of cargo preference. The farmers in America do not want cargo preference. They are against cargo preference.

So I ask my friends: Why should the Department of Agriculture pay over $100 million for a law it does not want? In the compromise that was made, my friends who were involved in the compromise recognized that, so they did not charge the Department of Agriculture more. They said, "Look, you do not have to pay any more. Just keep on paying the same amount you always paid, $100 million-plus. We will make the Department of Transportation pay the extra $50 million."

That is about what it will involve. But the Department of Transportation does not want this.

My people in my State want roads and bridges and viaducts and the things that money in the Department of Transportation pays for, not a cargo preference law.

So both the Department of Agriculture and the Department of Transportation have imposed upon them by this compromise the need to pay some money to support a law they do not want. But, as my friend from Iowa says, those who advocate this law say, "It is good for the national defense. We need a maritime industry."

All right. Assuming that to be the case, why should not the Department of Defense pay for it? While $150-some million is not chicken feed, if there is one place in the world where they regard it as chicken feed, it is in the Department of Defense. If there is anyplace in the American system where $150 million is spilled on the floor like chicken feed, it is the Department of Defense.

Mr. CHAFEE. May I ask a question of the Senator from Illinois?

Mr. DIXON. Yes.

Mr. CHAFEE. Was the Defense Department for that cargo preference measure?

Mr. DIXON. I have no idea, may I say to the Senator, one way or the other.

Mr. CHAFEE. They were not.

Mr. DIXON. Well, that makes it unanimous, then. Nobody is for it. Why are we passing a law nobody is for?

Mr. CHAFEE. Well, I voted against it.

Mr. DIXON. Well, the Senator is to be congratulated. His judgment is excellent.

Mr. CHAFEE. Ask those who are for it. All the agriculture people voted for it, now they do not want to pay for it. Kind of an unusual situation.

Mr. DIXON. Let me say to my friend from Rhode Island that his point has some validity. I cannot find anybody for it. The people that crafted the compromise must be for it.

Mr. STEVENS. Will the Senator yield?

Mr. DIXON. Yes.

Mr. STEVENS. Anytime the Senator wants an answer, he can address the question to this Senator and he will be glad to respond.

Mr. DIXON. Well, my distinguished friend from Alaska will respond in a moment and I admire him greatly and I know his words will be of great value to us.

But let me make this point. I understand the House is now prepared to pass the Defense authorization bill. That is $302 billion. Now that does not count the money appropriated in the Department of Energy for nuclear weaponry. I understand that is a great many billions more. The farm bill that we are debating, even if you pass the bill in its present form, is down for the American farmer this year, down this year if you do not change a word in it, down $4.5 billion for the next year under this year. It is not even a freeze, it is cut now.

So you are cutting agriculture at least $4.5 billion in the next year—not a freeze, a cut—and we are going to cut it more because we are going to do some things on the floor on this bill that cut it.

We got rid of one gun this year, the Divad gun, that could pay for cargo preference for the rest of this century and well into the next one. One gun.

We could cut the price of toilet seats 10 percent and pay for cargo preference under this bill. You could do away with the ashtrays and pay for cargo preference for 10 years. You could quit buying the coffee urns and buy all the ships and own them.

So I am going to tell you something. Why do we not put it where it belongs? Everybody that made a speech here saluted the flag and ran it up real high and said it is a great country. I love this country. It is a great country. No country like it. They want to have a great merchant marine. I am for having the finest merchant marine in the world.

Let us pay for it where it belongs—in the Department of Defense. Why do you want to make agriculture—you are cutting us already—pay for cargo preference? Why do you want to pay for it out of transportation when you need a road in Kansas or a road in Louisiana or a road in Oregon or a poor little bridge in southern Illinois? Why do we not pay for it where they got the money? You are freezing everything. You are cutting agriculture. But you are increasing Defense every year even under this austerity program. So let us pay for it where they will not even miss it.

Mr. STEVENS. Will the Senator yield?

Mr. DIXON. I am ready to conclude. I would like to hear from the Senator from Alaska. I think it is a wonderful amendment and it ought to receive 100 votes here.

Mr. STEVENS. Will the Senator yield for a question?

Mr. STEVENS addressed the Chair.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. I am sorry the Senator did not want to have an exchange. I would be happy to have an exchange with the Senator.

The first charge imposed on the farmer for hauling grain is the railroad charge. Do you know where the railroad charges come from? The same fund. Most of the grain is hauled via the railroads through Chicago. As a matter of fact, the railroad charges are not much less than the charges on the cargo preference. So why do we not put that under the Department of Defense?

My question to the Senator would be: Shall we get down to an accounting based upon commodities? I think the Department of Defense is the largest purchaser of agriculture products in the United States. Why do we not shift that over to the Agriculture budget?

I handle the defense budget. Senator COCHRAN handles the Agriculture budget. Why does he not pay for the food that we buy from farmers in order to feed the people in the Department of Defense?

That is what the Senator is saying. It makes no sense to me to now change a policy that has worked. The only international shipping done by American flag ships which makes sense today involves this program.

All of you state that you support a U.S.-flag fleet. We were appalled to hear the remarks of the Senator from Hawaii that all American mail going across the Atlantic is in Polish vessels. If we have anything to say about that, we will change that.

Mr. BOSCHWITZ. Will the Senator from Alaska yield?

Mr. STEVENS. I am happy to yield.

Mr. BOSCHWITZ. We were really just talking about the overage. We are not talking about the rail freight. The rail freight is shipped on a competitive basis and there is not a larger rate for rail on Public Law 480 shipments than there is on normal commercial shipments. The differences do not exist there.

Mr. STEVENS. None of them are shipped on Conrail? None of them are shipped on subsidized trains?

Mr. BOSCHWITZ. They are not shipped at rates that exceed other shipments. We are just talking about the excess. If the Senator would agree to put the excess—I am not quite sure how this amendment is worded—but if the Senator would put the excess over the world rate into the Defense Department, I think that the Senator from Iowa and the Senator from Illinois and I certainly would be agreeable to that.

I kind of lost the Senator from Alaska.

Mr. STEVENS. You will find him easily, I will tell you.

Mr. BOSCHWITZ. If he is around, everybody can find the Senator from Alaska. There is no question about that.

But, we just are talking about the excess costs. If the Senator from Alaska would say to us that the excess costs would go into the Defense Department and that normal world shipping costs would be assessed against the agricultural departments, that would be a different matter. We really are not complaining about the freight costs that are at the world rate. We are not complaining about the freight costs such as the rail costs that are shipped at rates similar to all other commodities. However, we are indeed upset about the surplus, or the differential we pay.

If the Senator would agree that those excess costs should go to the Department of Transportation, rather than the Department of Agriculture, or even better, into the Department of Defense, because the main motivation for these cargo preference rules is to see that we have a strong merchant marine in the event of hostilities, then we could all support him.

I have heard many times stated on the floor the problems that we had in Vietnam. But if those surplus costs could flow to the Department of Defense, I would venture to say my friends from Iowa, Illinois, and Oklahoma would be satisfied. Would the Senator be willing to do that?

Mr. STEVENS. Mr. President, that is an interesting question. Let me again remind the Senator where I come from. I come from Alaska. All shipments of Alaskan farm products

are shipping on American-built, American-manned, American flagships. I have never had any Alaska farmer argue with me about that requirement. The costs are staggering compared to the costs of the international subsidized shipping.

Again, the Senator is comparing apples and oranges. The Senator compares the average charges under the cargo preference law with the charges of the subsidized foreign vessels going one way. When they take our grain over to a foreign port, they pick up the foreign cargo and go somewhere else. When our ships go into those ports, we do not get a backload because those countries are not going to pay to subsidize the United States shipment. We are lucky to pick up any cargo when we come back with American flag vessels. As a consequence, the charges are higher. There is no question about that.

If the Senator is serious about this subsidy, I will give the Senator a chance later on this year to talk about the restoration of an Eisenhower program known as the Mariner Program. This is a program to build American vessels under the Department of Defense, which would then lease the vessels to domestic operators so that they would in fact be operated during the period of their useful lives. That kept a whole series of American industries going. The net result to the farmers, would be a lower cost. But this is not the same problem we are talking about now. We are talking about an arrangement made back at the time we agreed to use taxpayers' money to export surplus crops abroad.

Again, I am not going to get into the rhetoric that was repeated in another body here in Washington. But we have to remember that this is not farmers' money we are talking about. The farmers are not paying this bill. It is the taxpayers that are paying the bill. I do not hear any taxpayers arguing about the fact that we need a merchant marine as well as we need a farming industry. The next thing we will hear after this amendment is we should shift the whole cost of surplus food donation to the Department of Defense because it is being done for foreign policy reasons. We are certainly not doing it, I hope, for the purpose of just keeping up overproduction in the United States.

I think people are losing sight of the issue. We are hearing a lot of amendments which attack the basic soundness of Senator COCHRAN's compromise approach. The compromise has been worked out. It is acceptable to reasonable people on both sides of this issue. That approach says, "Look, 50 percent of the cargo preference cost will come out of the budget where it was in the past. The additional amount required for cargo preference will be taken care of, by a new fund in the Department of Transportation" in order to meet the problems caused by the recent district court opinion dealing with cargo preference.

The beauty of Senator COCHRAN's approach is it is going to increase the exports of farm products. It is going to decrease the total percentage cost to the taxpayer of that increased amount of exports. Senator COCHRAN's compromise was a smart arrangement. Instead of being congratulated, there are some people from the farm community that asset that this compromise is going to increase the costs to the farmer.

In the first place I do not agree that there is any cost to the farmer under the existing arrangements, let alone under Senator COCHRAN's approach. I would urge my friends to settle down and recognize a good compromise. This deal was only reluctantly agreed to by the merchant marine interests for good reason. Even if the money is not in the Department of Transportation funds to pay the cost of the cargo preference for the additional exports, exports will not be held up pending an appropriation to pay for the cargo preference.

That puts a great burden on those of us who support the cargo preference to assure the funding requirements of the Department of Transportation are met, and it leaves the compromise vulnerable to the kind of attacks I am hearing today. These types of attacks on Senator COCHRAN's amendment are really not warranted.

Mr. BOSCHWITZ. Mr. President, if the Senator will yield for another question, that was a long answer——

Mr. STEVENS. Mr. President, I had the floor. I have yielded the floor.

Mr. BOSCHWITZ. Mr. President, let me ask the Senator from Alaska. I know the Senator takes a great interest in Alaskan farming. As a matter of fact, I know the Senator from Alaska has done many good things for his farmers in Alaska. I have an awareness of that. In fact, you could argue that the Senator has almost singlehandedly created agriculture in Alaska. But would the Senator from Alaska, as a reasonable approach, take the world rate going and the world rate coming back empty, and we will assess that to the agricultural budget, and the balance can go somewhere else—the Department of Transportation? We are as interested in the merchant marine as the next guy. We think it should be a good one. I was going to introduce an amendment here that would allow ships built in foreign countries to wave the Amercian flag, and be included in our merchant marine. But, I do not want to continue this debate incessantly. That is not our purpose.

Mr. STEVENS. Mr. President, can I answer that question?

Mr. BOSCHWITZ. Sure.

Mr. STEVENS. I will answer it with a question. I spent last Saturday visiting with Swiss parliamentarians who were telling me they were worried about the increased surpluses of cheese and milk products in their country. They pointed out to me the cost of those products compared to the cost of the same products here at home. Will the Senator agree that, if we are to accept his approach, the Department of Defense bill should permit purchases of cheese in the world wherever it is cheapest, or any other commodity for that matter? Would he agree with that? Or even permit the Defense Department to purchase these products at the average world price, as whether they be automobiles, tanks, or anything else?

Mr. BOSCHWITZ. The Senator is not going to now make an analogy between tanks, milk, and other things.

Mr. STEVENS. I make an analogy between American shipping, and other American industies. We buy American first in terms of the Department of Defense. Everybody knows that. What is wrong with that for the merchant marine? We could buy tanks a lot cheaper abroad. We could buy cheese a lot cheaper abroad, I can tell you that. There are a lot of agricultural products we could buy abroad that would be a lot cheaper. If you want to push this thing to the extent of saying that the taxpayers somehow or other are harmed by maintaining the merchant marine, you had better look in your backyard because the constitutents of every one of the Members of this Senate sell things to the Department of Defense which could be purchased a lot cheaper. There are some people arguing we should begin to do that now. I say, let us maintain the domestic merchant marine; let us maintain your domestic cheese industry and the agriculture industry. Let us remember that the concept or defense purchasing ought to be totally directed toward American products.

Mr. HARKIN. Will the Senator yield?

Mr. STEVENS. I yield the floor.

Mr. BOSCHWITZ. I have the floor. We, of course, are not talking about acquiring the Defense produce. I am very aware that the Senator from Alaska has been quite insistent and quite successful in seeing that various items for the Defense Department are bought from America including, in his State, agricultural products. I am just not sure that there is an analogy between sending agricultural products to the hungry of the world and tanks.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I ask unanimous consent that the pending amendment be laid aside temporarily so that the distinguished Senator from Oklahoma [Mr. NICKLES] can offer his amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 924 TO AMENDMENT NO. 916, AS AMENDED

(Purpose: To limit the applicability of the cargo preference laws to vessels certified as necessary to carry out the defense of the United States and its allies)

Mr. NICKLES. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Oklahoma [Mr. NICKLES], for himself, Mr. HARKIN, and Mr. BOSCHWITZ, proposes an amendment numbered 924 to Amendment No. 916.

Mr. NICKLES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of amendment No. 916, insert the following:

"AVAILABILITY OF VESSELS

"SEC. . Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) is amended by inserting the following after the first sentence in subsection (b):

No United States-flag commercial vessel shall be deemed to be available for the transportation of cargoes subject to Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) and the Joint Resolution of March 26, 1934 (48 Stat. 500, 46 U.S.C. 1241-1) unless such vessel has been certified by the Secretary of the Navy, upon the recommendation of the Chief of Naval Operations, as being necessary to carry out the defense of the United States and its allies.".

Mr. NICKELS. Mr. President, the amendment that I offer today, on behalf of myself, Senator HARKIN, and Senator BOSCHWITZ, is to clarify the purpose of enacting the cargo preference statutes by providing that the Secretary of the Navy, upon the recommendation of the Chief of Naval Operations, shall be required to certify that any vessel eligible to receive cargo preference subsidies is necessary to carry out the defense of the United States and its allies.

When the Cargo Preference Act was signed into law, the United States maintained the world's largest merchant fleet. The cargo preference statues were intended to keep our fleet a mighty economic force in times of peace and a strong and modern part of our defense capability in times of war or national emergency by reserving half of all Government-generated cargo to U.S. owned and operated ships.

Currently over 50 percent of all Public Law 480 Food-for-Peace Program shipments are transported on U.S.-flag vessels under cargo preference. This is significant tonnage and is over and above all the shipments that are generated by the Department of Defense and all the nonfood tonnage of the Agency for International Development.

This amendment is not an effort to alter the fundamental application of the cargo preference provisions to the export of commodities under Public Law 480. It simply limits the applicability of cargo preference to those U.S.-owned and operated vessels certified by the Secretary of the Navy as necessary to carry out the defense of the United States and its allies.

It was certainly not the intention of drafters of the cargo preference laws to preserve a fleet of ships that would be of little use in the event of hostilities. Cargo preference requirements were designed to provide the United States with a modern merchant marine capable of meeting commercial needs and supporting a war effort, should the need arise. My amendment assures that will continue.

In spite of high costs, the cargo preference laws do not assure a strong U.S. merchant fleet. Maintaining vessels which do not operate at a competitive level is an unreasonable and unnecessary burden on the American taxpayers. Yet, the cargo preference fleet continues to operate under the supposition that the United States must maintain such a fleet for national defense purposes.

If these ships are indeed necessary, and sufficiently operational for service to the U.S. Navy, there should be no problem in having each of these vessels certified by the Secretary of the Navy as being necessary to carry out the defense of the United States and its allies.

Should a particular vessel be unfit for transporting our military or military supplies, surely that vessel should not receive a subsidy aimed at promoting the national defense. We simply must have a system of separating the wheat from the chaff and Congress ought to assign that responsibility to the officials who would ultimately make use of merchant vessels for national security reasons.

In addition should it be necessary to secure a merchant fleet during wartime, the President can requisition the foreign-registered U.S. effective control fleet under section 902 of the Merchant Marine Act of 1936. These ships, which are owned by U.S. citizens or U.S. corporations, are registered under foreign flags for convenience. These available ships have an average age of 12 years.

This amendment would merely clarify that cargo preference ocean freight differential subsidies would be extended only to those vessels that are certified as necessary for our national defense.

According to the Department of Transportation, steps are being taken to update the American merchant marine so that we are not throwing money into a hole in the water, but indeed, are preserving something that would be useful in a defense effort. Since defense utilization is the original purpose for the cargo preference laws, it should be the responsibility of the Navy to establish which vessels would qualify for service under those conditions.

Under this amendment any vessel that is certified by the Secretary of the Navy as being necessary for defense purposes would automatically quality for transporting cargos that are subject to the cargo preference laws.

A number of bulk merchant marine ships now receiving cargo preference subsidies are risky liabilities. The loss of the SS *Poet* and the SS *Marine Electric* are cases in point that some vintage ships are simply unable to fulfill a defense mission. Indeed it seems unwise to utilize any vessel that is unsafe, simply because it has been guaranteed business under cargo preference laws. For this reason, I believe this amendment will encourage the modernization of the U.S. merchant fleet and strengthen the U.S. maritime and ship building industries.

Passage of this amendment would provide orderly management in designating those U.S. vessels which could be utilized for defense purposes and national emergencies. I ask its adoption.

Again to clarify for all of my colleagues, this amendment is very simple. I would hope that it would be adopted. A voice vote is certainly fine with this Senator.

I have heard repeatedly today many people justifying the fact that cargo preference is necessary to maintain a viable merchant marine for defense purposes. Basically, all this amendment says is that the Secretary of the Navy, upon a recommendation of the Chief of Naval Operations, would certify that, yes, these vessels are for the defense of the United States or our allies.

I would hope that the amendment would be agreed to.

Mr. STEVENS. Mr. President, I am compelled to oppose this amendment also.

Let me point out we are talking about the cost of sending grain abroad. I think my friend from Oklahoma would agree to that.

I would suggest that, if my friend wants to pursue this course of action, the Secretary of Agriculture should be required to certify that grain was produced on a farm totally in compliance with the limitations set by the Secretary of Agriculture before any grain is purchased. This is an issue of foreign policy. We are using farm surpluses the production in excess of U.S. requirements, to assist unfortunate people abroad.

I am told, for instance, that we could buy wheat in Argentina for $115 a ton, $31 a ton less than the cost to the Federal Government in purchasing U.S. wheat surpluses.

If we are really talking about saving the taxpayers money, then maybe we should start buying Argentina wheat and ship it to India or Ethiopia.

The direction of this discussion suggests that supporters of the merchant marine community should accept a requirement that my friend would never accept if imposed on the agricultural community. Would my friend from Oklahoma suggest a limitation that no agricultural product could be purchased from any farmer if it exceeded the limitations set by the Secretary of Agriculture in the previous year? I ask that without being facetious. Would he accept the concept that if we could purchase the same product abroad for less money, we should do so in order to save the taxpayers money while carrying out a foreign policy? As I mentioned, the Swiss say they are anxious to sell us some cheese. We can buy the cheese there, I am sure. The European Community also has a great many surpluses too.

Is the Senator trying to set a precedent with this amendment?

Is he willing for this new principle to apply across the board to the Federal Government? That is the question. I am not trying to be facetious and I am not trying to be argumentative to my friend.

The policies that the Senator from Oklahoma seeks to impose upon those who support the merchant marine would not be acceptable to him if imposed on agriculture. I do not believe we should have to go to the Secretary of the Navy and say that he should certify that every vessel is necessary for the national defense. It is a national defense requirement to maintain our merchant marine for our national security. We need to make an additional statement indicating the total requirements of the Department of Defense.

Incidentally, we do have the certification about the total sealift required. He will tell you that we do not have it right now. I can assure him that we don't have that capability. This amendment would require certification of every existing vessel.

Shall we do the same thing for the Department of Agriculture?

Mr. NICKLES. Does the Senator want me to respond to the question? I will.

My argument basically is as the Senator from Hawaii mentioned, that we have 409 ships. We have had Senators mention that a lot of these ships are probably obsolete. A lot probably have a questionable value. I do not know.

Again, if we are going to use the argument or the justification for cargo preference that it is in our national interest, that we need it for national defense, possibly it would make sense for those in charge of national defense to say, "Yes, we do need these vessels. These individual vessels would be an asset to us in time of emergency. Therefore, we should be giving them some subsidy for operation."

On the question, "Do we want the same thing to apply to agriculture?" I will be happy to answer that.

I am troubled by the deficits that we are looking at. We talk about cost. I have lost that argument so I did not bring it up this time. But this program that we have right now, Public Law 480, as it applies to agriculture, cost, in 1984, $129 million. This year it is estimated to cost $155 million. Under this amendment, the so-called compromise, it will cost over $200 million.

Mr. STEVENS. Is that cargo preference?

Mr. NICKLES. I am talking about cargo preference.

Mr. STEVENS. How much does it cost for the agricultural portion of the program? Do you have these figures?

Mr. NICKLES. Yes, I do.

Mr. STEVENS. I will be happy to hear them.

Mr. NICKLES. In agriculture, we are talking about wheat farmers, we are talking about a flat wheat price for the next 4 years. We are talking about wheat farmers who are going broke. We are talking about in the House-passed bill a $4.38 wheat price for the next 4 years. In the Senate, we have a two-tier price but it is basically the same price for the next 4 years.

Under the cargo provisions that we are talking about, the Senator from North Carolina knows that we are looking at this going from $129 million last year, to $155 million in 1985, and over $200 million in the upcoming year.

So we are talking about a tremendous increase. I am not seeking tremendous increases. I do not know if anybody has any amendment that says we are going to be increasing target prices substantially. We are talking about the same target prices that they have had for the last couple of years.

Yes, the total amount of CCC payments, the record was $18 billion. This year, I think it is $15 billion. Under the committee proposal, I am not sure. I would guess it is an average of $15 billion per year. That is the same thing they received last year. That is the same amount they received last year.

This time, we are talking about a few companies, just a few companies. I am not sure whether these companies fall in the Senator's State or wherever. I do not have these companies in my State.

Mr. STEVENS. Let me assure the Senator, none of those shipping companies do business in my State.

Mr. NICKLES. I appreciate that, Mr. President.

Mr. HARKIN. Will the Senator yield?

Mr. NICKLES. In just a moment, I shall be happy to yield.

The point I am trying to make is yes, we have seen a tremendous outflow of revenues and increase in the subsidies under the guise of Public Law 480. I have heard some say estimates of $60 million a year, others are saying up to $100 million a year. The people who were not represented at this so-called compromise were the taxpayers.

If you look at the dramatic increase in the growth of this program, it is enormous. And the justification for it that we have heard over and over again is that we need a strong, viable merchant marine to assist us in some type of emergency. I have heard that. The majority of the Senate has voted for it. I am not going to debate it any longer, but I say if we are going to fall back on that justification, we ought to have the Secretary of the Navy certify that, yes indeed, these vessels are necessary for the defense of the United States and our allies.

Yes, I yield.

Mr. HARKIN. Mr. President, I wanted to be sure in this debate that is going on, what the thrust is of the Senator's amendment. As I understand it, all he is saying in his amendment is that to qualify for this subsidy, the Secretary of the Navy would have to certify that that vessel could be used in our national defense effort. Is that correct?

Mr. NICKLES. The Senator is exactly correct.

Mr. HARKIN. Actually, Mr. President, I think it is a great amendment.

As I understand it, the amendment is not speaking to what level of subsidy or anything like that. It is simply saying again that if indeed this is a national defense necessity, we ought to make sure that the ships could be used, can indeed be used if we need them for national defense purposes. Again, I say to the Senator from Oklahoma, it is a great amendment. I support it. I hope that the Senate adopts it.

Just thinking out loud, Mr. President, it seems to me that in terms of this whole idea of cargo preference and subsidies for American vessels, those who are in charge of the De-

fense authorizing committees and the Defense appropriations committees would take due are and concern that such moneys are available to meet the legitimate defense needs of this country in terms of keeping a strong maritime fleet. I think if there is one way to dispose of this as an issue that keeps coming up year after year, they ought to adopt the amendment of the Senator from Oklahoma and my amendment, and I doubt that it woud ever come up again.

I thank the Senator for yielding.

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. BOREN. Mr. President, I wonder if the Senator would yield to me briefly to make a statement on the pending amendment.

Mr. HELMS. Certainly, Mr. President.

Mr. BOREN. Mr. President, I commend my colleague for offering this amendment. It is an amendment that I intend to support. As the Senator from Iowa has just said, I think all of us are concerned about national defense. We want to have sufficient capability to move cargo on American ships in time of national emergency.

That does not mean that it follows that the farmers of this country should bear the full burden of paying for this contribution to our national defense.

In addition, there is the point that if the farmers are going to be saddled with this burden, they should not be required to subsidize more ships than are necessary to meet the military and national strategic need. I think this amendment is a step in the right direction. It is an amendment which I intend to support enthusiastically, as I also intend to support the proposal that will be offered by the Senator from Iowa [Mr. HARKIN] a little later on. I commend my colleague for offering the amendment.

Mr. HELMS. Mr. President, aside from all the discussion about equity and fairness and that sort of thing, I think it might be relevant and certainly important to look at the history of the Cargo Preference Act. I am going to pose a question to my friend from Oklahoma [Mr. NICKLES].

I know the Senator has done great research on the history of cargo preference because he and I have discussed it. But at the time that the law first was enacted and signed into law, the United States maintained the world's largest merchant fleet. Is that the Senator's understanding?

Mr. NICKLES. The Senator is correct.

Mr. HELMS. The cargo preference standards were intended to do what? As I understand it, to keep our fleet a mighty economic force in time of peace and a strong and effective defense capability in time of war. Is that the Senator's understanding?

Mr. NICKLES. That is correct, Mr. President.

Mr. HELMS. Mr. President, the point is this: I guess I am in a position of the fellow back home with some of my friends on one side and some of my friends on the other and I always like to stand with my friends. But facts are facts and we should not lose sight of the history of what we are talking about.

Currently, I say to the Senator from Oklahoma—both Senators from Oklahoma—that over 50 percent of all Public Law 480 food for peace shipments are transported on U.S.-flag vessels under cargo preference. Is that the Senator's understanding?

Mr. NICKLES. The Senator is correct.

Mr. HELMS. This to me is significant tonnage and over and above all of the shipments that are generated by the Department of Defense and all of the nonfood tonnage of the Agency for International Development. So I do not believe that the maritime union needs to have any fear about economic disaster hitting them under the present, existing situation.

Let me ask the Senator this: Am I correct that his amendment is not an effort to alter the fundamental application of the cargo preference provisions to the export of commodities under Public Law 480?

Mr. NICKLES. The Senator is correct. That amendment has already been offered. It did not pass. The Senator from Minnesota had an amendment. I supported the amendment but it did not pass. The basic thrust of this amendment is to have the Secretary of the Navy say that he needs those ships for defense purposes.

Mr. HELMS. It simply limits the applicability to those vessels owned and operated by commercial companies that are certified by the Secretary of the Navy as necessary to carry out the defense of the United States and our allies. Is that correct?

Mr. NICKLES. The Senator is correct.

Mr. HELMS. Mr. President, I say further that it was not the intention of the drafters of the original cargo preference laws to preserve a fleet of ships that would be of little use in the event of hostilities. I think that is what the Senator is focusing on with his amendment. Cargo preference requirements were designed to provide the United States with a modern merchant marine capable of meeting commercial needs and supporting a war effort should the need arise. The amendment of the Senator from Oklahoma assures that that will continue.

Mr. President, before we walk in and vote blindly on what I consider to be a perfectly reasonable amendment, I think that the Senators would be well advised to think a little about the original intent of the cargo preference statute and to consider what is best for the American farmers, best for national defense, and certainly best for the taxpayers.

Mr. President, if these ships are indeed necessary, and sufficiently operational for service to the U.S. Navy, there should be no problem in having each of these vessels certified by the Secretary of the Navy as being necessary to carry out the defense of the United States and its allies.

Should a particular vessel be unfit for transporting our military or military supplies, surely that vessel should not receive a subsidy aimed at promoting the national defense. We simply must have a system of separating the wheat from the chaff and Congress ought to assign that responsibility to the officials who would ultimately make use of merchant vessels for national security reasons.

In addition should it be necessary to secure a merchant fleet during wartime, the President can requisition the foreign-registered U.S. Effective Control Fleet under section 902 of the Merchant Marine Act of 1936. These ships, which are owned by U.S. citizens or U.S. corporations, are registered under foreign flags for convenience. These available ships have an average age of 12 years.

This amendment would merely clarify that cargo preference ocean freight differential subsidies would be extended only to those vessels that are certified as necessary for our national defense.

According to the Department of Transportation, steps are being taken to update the American merchant marine so that we are not throwing money into a hole in the water, but indeed, are preserving something that would be useful in a defense effort. Since defense utilization is the original purpose for the cargo preference laws, it should be the responsibility of the Navy to establish which vessels would qualify for service under those conditions.

Under this amendment any vessel that is certified by the Secretary of the Navy as being necessary for defense purposes would automatically qualify for transporting cargos that are subject to the cargo preference laws.

A number of bulk merchant marine ships now receiving cargo preference subsidies are risky liabilities. The loss of the S.S. *Poet* and the S.S. *Marine Electric* are cases in point that some vintage ships are simply unable to fulfill a defense mission. Indeed it seems unwise to utilize any vessel that is unsafe, simply because it has been guaranteed business under cargo preference laws. For this reason, I believe this amendment will encourage the

modernization of the U.S. merchant fleet and strengthen the U.S. maritime and ship building industries.

Passage of this amendment would provide orderly management in designating those U.S. vessels which could be utilized for defense purposes and national emergencies, as I ask its adoption.

Mr. DIXON. Mr. President, will my friend from Oklahoma yield for a question?

Mr. NICKLES. I will be happy to yield.

Mr. DIXON. First of all, I wonder if he would honor me by letting me join him in cosponsoring the amendment?

Mr. NICKLES. I am most appreciative of the Senator's request.

Mr. DIXON. Has my colleague asked for the yeas and nays?

Mr. NICKLES. I have not. I will withhold because I am hoping that the Senator from Alaska would agree to the amendment. I think that is still a possibility.

Mr. DIXON. At the appropriate time, if he does not, I presume he will ask for the yeas and nays?

Mr. NICKLES. That is correct.

Mr. STEVENS. Mr. President, while I might argue with the Senator from Oklahoma about the way it is written, we can make adjustments to the language when we get to conference so that the Secretary of the Navy is not put in the position of having to go out and inspect every vessel that is going to carry Public Law 480 cargo. I have been conferring with people, in regard to the certification concept. I think that we are not that far apart with the Senator from Oklahoma.

Does my friend from Mississippi have any problem if we agree to take that amendment with the understanding that I may want to rarefy it a little bit when we get into conference?

Mr. COCHRAN. Mr. President, if the Senator will yield, I certainly agree that we should include in the compromise language such as that recommended by the Senator from Oklahoma. I have no problem with accepting the amendment and would recommend to the Senate that it be included in the package. I thank the Senator for bringing this up and suggesting it as a part of the language, and I thank the Senator from Alaska for his contribution.

The PRESIDING OFFICER (Mr. TRIBLE). Is there further debate?

Mr. NICKLES. Mr. President, I wish to thank my good friends, both the Senator from Alaska and the Senator from Mississippi, for their cooperation. As I stated at the outset, I had hoped that this would be an amendment the Senate would find acceptable. I think it would help alleviate some of the concerns that many have been raised concerning cargo preference. I am hopeful the Senate will adopt it. It is not necessary on this Senator's behalf to have a rollcall vote.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment of the Senator from Oklahoma.

The amendment (No. 924) was agreed to.

Mr. HELMS. I move to reconsider the vote by which the amendment was agreed to.

Mr. NICKLES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. NICKLES. Mr. President, I ask unanimous consent that my colleague, Senator Boren, be added as a cosponsor.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. HELMS. Mr. President, as one of the managers of this bill, I want to thank my friend from Mississippi and my friend from Alaska. I think the process has been improved, and I think the Senator's amendment is certainly more palatable insofar as this Senator is concerned, but I thank him for his reasonableness.

I suggest the absence of a quorum, Mr. President.

The PRESIDING OFFICER. The clerk will call the roll to ascertain the presence of a quorum.

The bill clerk proceeded to call the roll.

Mr. DIXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The pending business before the Senate is the amendment of the Senator from Iowa [Mr. HARKIN].

Mr. DIXON. Mr. President, I ask unanimous consent that the consideration of that amendment be temporarily set aside in view of the circumstances here; that we are waiting for Senators.

Mr. HELMS. Mr. President, reserving the right to object, and I shall not object, I believe the Senator from Mississippi may want to reserve the right to object.

Mr. COCHRAN. Mr. President, I reserve the right to object. It was my understanding that there were Senators who wanted to be heard on the subject of the Harkin amendment. I am hoping that at about 6:30 we will be able to make a motion to table the amendment of the Senator from Iowa, and the yeas and nays can be obtained and we will have a vote on a motion to table that amendment. Since that is the situation, those who want to speak on that amendment could use this opportunity to express themselves on the Harkin amendment. I know the distinguished Senator from Arizona, the chairman of the Armed Service Committee, has come to the floor because of his concern about the impact of that amendment. So I would suggest that it may be inappropriate to lay this amendment aside now. We could complete debate on the Harkin amendment and then go to a motion to table at about 6:30.

Mr. DIXON. May I say to my friend from Mississippi I thought we had no other business and we were consuming some time. I was going to accommodate the Senate by going to my amendment which would be the next amendment in order, but I have no objection to withdrawing my request and yielding to my distinguished friend, the chairman of the Armed Services Committee.

Mr. COCHRAN. I thank the Senator.

Mr. HELMS. The Senator from Illinois is considerate, as always, and we will proceed in that direction.

Mr. GOLDWATER. Mr. President, unfortunately, I have been detained with Senator NUNN for the last hour discussing with our friends from England some of our joint problems. I did not learn of the Harkin amendment until just a few moments ago. I would like to have it explained to me so I could speak against it.

Mr. COCHRAN. Mr. President, if the Senator will yield, although I am not the author of the amendment, I do recall the Senator's explanation of it as basically a requirement that the expense of cargo preference be paid by the Department of Defense, since it was an important element of our Nation's security that we maintain a merchant marine, and have the capability of shipping goods overseas in emergencies, and we have an active merchant marine fleet. I think that is the import of the Senator's amendment, although he is, I am sure, capable of explaining it better than I.

Mr. GOLDWATER. I thank the Senator. I am sorry that I had to ask for that explanation, but we did not have the amendment available.

Mr. President, I think it is rather unusual to ask that this amount of money be spent by a committee that has had no opportunity to have hearings on the subject. We have never even heard of it before. It is rather unusual for that to happen. I want to call attention to my colleagues that the House is voting today and tomorrow on the subject of money for defense and they want to knock our defense down a little further. They might wind up with $10 billion less than we had cut. We cut $20 billion out of our defense bill.

Mr. President, we cannot continue to attack defense in this country and expect to have a defense that is worthy of its name. I would oppose an amendment like this very vehemently because it should come before the

Armed Services Committee for any decisions, yes or no. We might decide it is a good idea. On the other hand, from what I have heard of it in the few seconds I have been on the floor, I think it is a very bad idea. It is procedurally bad to try to go around the committee. It is legislatively bad to attempt it the way it is being attempted.

This whole matter of whose bottoms are going to carry our grain, and so forth, comes up every year, and I know that the measures usually have the full support of the labor unions. Coming from a State that is not too worried about shipping anything on bottoms, I am far more interested in the defense of my country than who carries what.

The committee would be very happy to have hearings on this matter as soon as we possibly can, so that we can come to some decision relative to whether or not it is wise to do this.

I am just opposed to spending any more of our money that we have for defense purposes for nondefense matters.

I rest my case, Mr. President. I think the amendment is very badly conceived. I do not think it has any place to be considered on this floor at this time, and at the proper time I hope we can move to table it.

Mr. HARKIN. Mr. President, in response to the distinguished Senator from Arizona, I find the argument used by the Senator very interesting, in that he said that he did not want any more money spent for nondefense purposes. Yet, every argument I have heard today—in fact, every argument I have heard for 10 years on behalf of cargo preference—has been that we need this subsidy for the defense of this country, to keep a merchant fleet, a maritime fleet, that is up to date, modern, and can be called upon in the defense of this country if the need should ever arise.

It seems that the distinguished Senator from Arizona is saying that this is not a defense issue. It seems that everybody else who has debated it today and for years has said that it really is part of our national defense.

So what I have sought to do in this amendment is simply to put the burden where it should be—not on agriculture, but on the Defense Department. I think they are better able to decide how much is needed for a merchant fleet.

I notice that the amendment offered by the Senator from Oklahoma was accepted. I thought that was a good amendment. But the amendment I have offered simply seeks to transfer the funding for the subsidy. I have not said what the subsidy should be. I have not attacked the subsidy. In fact, in the past I have supported cargo preference on the basis that it was needed for a merchant fleet.

I think the time has come to take it out of the realm of agricultural politics, and agricultural economics, and put it in the Department of Defense, where I think it should have been a long time ago, and probably where the maritime industry and the merchant fleet would have fared a lot better than they have heretofore, being under the Department of Agriculture.

So I take exception to the remarks of the distinguished Senator from Arizona that this is nondefense. I believe it is very much defense oriented.

I repeat that I think that those Senators and Members of the other body who are on the defense appropriations or authorizing committees should take due care and concern to see that the merchant fleet is kept modernized through the use of this kind of subsidy.

So it is really a defense-related matter, and that is where these funds would go. They would go for the defense of this country, and they really should come from the Department of Defense and not from the Department of Agriculture.

Mr. GOLDWATER. Mr. President, in answer to the Senator from Iowa, I will be very glad to hold hearings on this matter before the Armed Services Committee. But I absolutely am opposed to the usurpation of my committee's prerogative by anybody on the floor of the Senate or in another committee until we have had a chance to hear it.

The Senator is asking that my Committee on Armed Services give up $150 million. We do not know where we are going to find $150 million. We do not know where we are going to find $150 million even if this body votes it.

So I will be very happy to call a meeting as soon as I can, but I will oppose anybody trying to operate around my committee with the committee's money.

Mr. INOUYE. Mr. President, earlier this day, I had the opportunity to discuss this amendment with the author, my distinguished friend from Iowa. I am certain that the Senator from Iowa will be the first to suggest that this is quite a departure from what has been the practice.

The Cochran compromise calls for the creation of a 16-member study commission to study transportation problems relating to cargo preference.

I would think that when this Cochran amendment is adopted and the Commission is appointed, one of the first things the Commission would do would be to study the proposal submitted by my dear friend. So I hope that, instead of bringing this matter to a vote, it be, first, referred to the Armed Services Committee for its consideration. Second, I can assure the Senator that when the Cochran amendment is adopted and becomes law and the Commission is formed, I will join the Senator from Iowa in asking the Commission to study this proposal.

I am afraid that if this matter is brough to a vote, the Senator's proposal will be defeated and I do not think he wants that to happen.

The PRESIDING OFFICER. Is there further debate?

Mr. STEVENS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, it has come to my attention, with respect to this compromise that is being debated now regarding cargo preference, which is going to cost money from the Department of Transportation and from the Department of Agriculture, that no hearings were held in the Commerce Committee on it, either. They did not have any hearings as to whether or not any of this money should come from the Department of Transportation, and we did not have any hearings in the Agriculture Committee, either, as to whether or not we should have this increase in the amount of the subsidy for cargo preference.

So, we never had any hearings on this compromise at all, in response to the distinguished Senator from Arizona.

Maybe they would just like to hold up the whole thing until we have adequate hearings on it in Agriculture, Transportation, and the defense authorization committee.

We could just hold up the whole thing until such time as that takes place.

Again, I do not think that is really necessary. We are just asking again that the proper allocation of funds be made from the Department of Defense for that.

I just wanted to take this time to point out again that no hearings were held, either in the Commerce Committee or the Agriculture Committee, on this so-called compromise.

Mr. President, I ask unanimous consent that Senator PRYOR be added as a cosponsor to the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, just to clarify the record, the Commerce Committee did hold hearings on cargo preference on several occasions.

I quite agree with my friend from Iowa that the Cochran compromise was not the subject of the hearing, but we have discussed cargo preference, the role of the Department of Trans-

portation and the role of the Department of Agriculture.

So this matter has been amply considered and covered by the members of the Commerce Committee.

Mr. HARKIN.

Mr. President, will the Senator yield?

Mr. INOUYE. I am happy to yield.

Mr. HARKIN. Mr. President, I thank the Senator for clarifying that.

I hope my remarks were not misunderstood. I meant to say the compromise did not have hearings. Actually the Commerce Committee has had hearings on cargo preference, but not on this compromise.

Mr. INOUYE. Not on the Cochran compromise.

Mr. GOLDWATER. Mr. President, in answer to the Senator from Iowa, I might point out that many amendments are offered on this floor that have never had a hearing. It is one of the chief problems of the budget process that we so wholeheartedly adopted a number of years ago. I will daresay—I will not go over 75 percent—but 75 percent of the amendments that have been offered on this floor today, tomorrow, the next day, and the day after have never had any hearings.

I do not like the idea that they have not had hearings on this before Agriculture. We have had hearings on this subject not once but several times before the Commerce Committee.

I am not speaking only from the Armed Services Committee. But I think it is wrong to go legislatively around any committee, and when you get into a hurry-up situation like we have here on a farm bill with some 70 amendments still pending, many of them having no bearing at all upon agriculture or the plight of the American farmer, I think this is all wrong, and I think the Senator from Iowa has made a very good point that there have not been hearings held on this and because $150 million, while it does not sound like a lot of money when we are talking about a $300 billion defense budget, it is a lot of money when we are worrying about whether we can buy this kind of equipment or that kind of equipment or enough equipment to satisfy the needs of our troops in the field.

So, I sincerely hope that possibly the Senator from Iowa would reconsider and offer this amendment in the form of a bill, and I can assure him that the Armed Services Committee will have hearings. Whether Agriculture has it or not is up to them.

The PRESIDING OFFICER. The question is on the amendment.

Mr. STEVENS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, have the yeas and nays been ordered?

The PRESIDING OFFICER. The pending amendment is that of the Senator from Iowa [Mr. HARKIN], and the yeas and nays have been ordered.

Mr. HELMS. Let us vote.

Mr. COCHRAN. Mr. President, it is my intention to move to table the amendment of the Senator from Iowa and ask for the yeas and nays. It was my intention to make that motion at 6:30 p.m. because of a request of the majority leader and because of the absence of some Senators for a meeting that includes the President of the United States and others.

So unless there be any——

Mr. JOHNSTON. Let us hold the vote.

Mr. COCHRAN. I hope that we would refrain from going into a vote before 6:30 p.m.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I move to table the amendment of the Senator from Iowa [Mr. HARKIN] and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Mississippi [Mr. COCHRAN] to table the amendment of the Senator from Iowa [Mr. HARKIN]. The yeas and nays have been ordered and the clerk will call the roll.

The bill clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Wyoming, [Mr. WALLOP], is necessarily absent.

Mr. CRANSTON. I announce that the Senator from Mississippi, [Mr. STENNIS], is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 62, nays 36, as follows:

[Rollcall Vote No. 261 Leg.]

YEAS—62

Armstrong	Cohen	Eagleton
Bentsen	Cranston	East
Bingaman	D'Amato	Evans
Byrd	Denton	Garn
Chafee	Dodd	Glenn
Chiles	Dole	Goldwater
Cochran	Domenici	Gorton
Gramm	Laxalt	Rockefeller
Hatch	Levin	Roth
Hatfield	Long	Rudman
Hecht	Mathias	Sarbanes
Heflin	Matsunaga	Specter
Heinz	Mattingly	Stafford
Helms	McConnell	Stevens
Hollings	Mitchell	Symms
Humphrey	Moynihan	Thurmond
Inouye	Murkowski	Trible
Johnston	Nunn	Warner
Kassebaum	Packwood	Weicker
Kennedy	Pell	Wilson
Lautenberg	Quayle	

NAYS—36

Abdnor	Durenberger	McClure
Andrews	Exon	Melcher
Baucus	Ford	Metzenbaum
Biden	Gore	Nickles
Boren	Grassley	Pressler
Boschwitz	Harkin	Proxmire
Bradley	Hart	Pryor
Bumpers	Hawkins	Riegle
Burdick	Kasten	Sasser
Danforth	Kerry	Simon
DeConcini	Leahy	Simpson
Dixon	Lugar	Zorinsky

NOT VOTING—2

Stennis	Wallop

So the motion to lay on the table amendment No. 923 was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BOSCHWITZ. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, could I have the attention of my colleagues?

The PRESIDING OFFICER. The majority leader.

Mr. DOLE. Mr. President, I understand the Senator from Illinois has an amendment. I would like to ask unanimous consent that there be 20 minutes on the amendment, equally divided, and that we vote on it at 7:15. I ask that it be an up-or-down vote.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DOLE. That will be the last vote.

Mr. ZORINSKY. No later than 7:15.

Mr. DOLE. No later than 7:15. If we can do it earlier, fine.

AMENDMENT NO. 925 TO AMENDMENT NO. 916

Mr. DIXON. Mr. President, I have an amendment at the desk. I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Illinois [Mr. DIXON] proposes an amendment numbered 925.

Mr. DIXON. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In the pending amendment, strike all after "Sec. 131." and insert in lieu thereof the following:

"(a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL COMMODITIES FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1), shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultrual commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing world market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made available to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned, controlled, or held as loan security by the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions refered to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

EXPANSION OF CARGO PREFERENCE APPLICATION

SEC. 133. (a)(1) In addition to any quantity of agricultural commodities and the products thereof required under section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), to be transported in United States-flag vessels, a volume equal to 25 percent of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs specified in subsection (b) of this section shall be transported on United States-flag vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) a quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) a quantity equal to 20 percent of such gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) a quantity equal to 25 percent of such gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(P) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned, controlled, or held as loan security by the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in subsection (d).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretaries of Agriculture and Transportation shall administer the cargo preference laws in such a way that they preserve the mean historic port range share of cargoes subject to the cargo preference requirements for those processed, fortified or bagged agricultural commodities which are exported as assistance or a donation pursuant to Title II of the Agricultural Trade Development Act of 1954 from all four port ranges. For the purposes of this paragraph, the term, "mean historic port range share," is defined as the average of the annual per centum of any such processed, fortified or bagged agricultural commodities, which are exported as assistance or as a donation pursuant to Title II of the Agricultural Trade Development and Assistance Act of 1954, shipped over the four-year period from calendar year 1980 through calendar year 1983.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) the National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean freight and ocean freight differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of the Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight changes resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transportatation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 16 members.

(2) Eight members of the commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Subcommittee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4) (A) Four of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining four members appointed by the President shall be representatives of the United States-flag maritime industry, two of whom shall represent labor and two of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendation to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC. 138. (a) Each department, agency, and instrumentality of the United States,

including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b)(8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code.

Mr. DIXON. Mr. President, I rise to offer an amendment which would require the Secretary of Agriculture and the Secretary of Transportation to act together to preserve the "mean historic port range share" of allocated title 11, Public Law 480 cargoes to be shipped out of the four coastal ranges. This figure is based on the annual percentage of title 11, Public Law 480 cargoes shipped from the four coastal ranges averaged over the 4-year period from calendar year 1980 through calendar year 1983.

The Cargo Preference Act directs that it shall be implemented "in such a manner as will insure a fair and reasonable participation of the U.S.-flag commercial vessels in such cargoes by geographic areas." I am forced to conclude, however, that this has never been the case. In an effort to meet its 50 percent U.S.-flag mandate, the Department of Agriculture [USDA] allocated only 18 percent of all national title 11. Public Law 480 cargoes to the Great Lakes in 1984. Indeed, this year's shipping on the Great Lakes is running even lower than this slim percentage, approximately 16 percent through September.

In the last several months, USDA has diverted two relief shipments—originally allocated to the Great Lakes—to the Port of Seattle. The cost of just one of these diversions to the U.S. taxpayer amounts to $220,000. In fact, the U.S. Department of Agriculture recently diverted a shipment which had already reached the port of Milwaukee. This grain was put on a train and shipped from Milwaukee to Seattle. I repeat, Mr. President, the title 11, Public Law 480 cargo had already reached the Port of Milwaukee when it was suddenly diverted to the Port of Seattle at the expense of the Milwaukee port, the entire Great Lakes system, and the American taxpayer.

These diversions of cargo fly in the face of the agreement made last year between USDA and the Agency for International Development [AID] on the question of cargo allocation. We understood the agreement to be that no cargoes would be diverted from Great Lakes ports to another coast in order to satisfy the 50-percent requirement. However, I have learned from the Department of Agriculture's Agricultural Stabilization and Conservation Service, however, that the Department does not take cargo preference requirements into account when accepting bids for the shipments of grain. One must assume, then, that due to the administrative burdens, that this type of diversion will continue unless steps are taken now. My amendment is needed to fulfill the clear intent of the original cargo preference legislation, which requires that Government-generated cargoes should be equitably allocated to all four coasts. It is now time for Congress to act on this situation.

This amendment is desperately needed to offset the recent diversions. This diversion of cargoes out of the lakes has been disastrous for the economics of the Northeast and Midwest. This amendment comes at a time when shipping on the lakes is at a low ebb. Figures recently released by the Lake Carriers Association indicate that the shipments of grain, iron ore and coal are down 23 percent—to 13,265,558 net tons from last August. For the entire shipping season, bulk movements on the lakes are down 20 percent from last year—to 67,896,478 net tons. In August, grain shipments fell 56 percent from the same month last year. Yet, at the same time, we face a tremendous surplus in our agricultural sector. In the past year, shipments under title II of Public Law 480 have more than doubled. And so it goes.

This amendment is simply one step toward reforming the management of the Food for Peace Program. The General Accounting Office [GAO] has already conducted one study which suggests that USDA can take steps to reduce transportation costs. For example, GAO found that USDA needs to revise its regulations to ensure that when U.S.-flag vessels are involved, the United States pays for commodities and transportation on the basis of lowest landed cost. This would ensure lower costs overall and eliminate confusion over the purchases of commodities and ocean transportation.

In this day of escalating Federal deficits, it makes no sense not to reorder a program which requires that 50 percent of Government cargoes be shipped on U.S.-flag vessels, which can cost up to two to four times as much as foreign-flag vessels. Let me state here that I am a supporter of the concept of cargo preference. I happen to believe it serves a good and worthy purpose in strengthening our defense posture overseas. But I do believe that certain, specific steps must be taken to trim the transportation costs. To redress the wrongs that have been committed against the Great Lakes and to guarantee some consistent Federal policy in the allocation of Government cargo.

Presently, GAO is conducting a study on USDA's management of the program through the lakes. We would hope that many more of the problems arising out of the methods used to handle cargo through the lakes will be addressed through that investigation. Clearly, there is room for reform. This amendment simply places a floor of protection under all the four seacoasts.

In closing, I think it important for my colleagues to understand that the matter I raise here today does more than grant a little equity to the fourth seacoast. This amendment takes a large step toward reinstating the true transportation savings realized by shippers using the all-water Great Lakes alternative. We on the lakes have long realized the fact that lower rates on the Great Lakes act to keep all shipping rates lower. Sadly enough, even though a large percentage of this cargo is grown or manufactured in the Great Lakes region, it is often diverted, at greater Government expense, to other coastal ranges for overseas transportation. Traditionally, freight rates from other ports increase by $40 to $50 per ton when the Great Lakes shipping season ends. Farmers, shippers and taxpayers—we can all benefit from these reductions in rates. The point is, the Great Lakes ports and the seaway system serve as a source of competitive balance during the length of its shipping season. Today we are asking to retain that balance and to take a first step in reforming a system sorely in need of reform.

Mr. President, I ask unanimous consent that my distinguished colleague from Illinois, Senator SIMON, be added as a cosponsor of this amend-

ment, and the distinguished Senator from Minnesota [Mr. BOSCHWITZ]. Others may care to join.

This is the Great Lakes amendment.

The PRESIDING OFFICER. Without objection, the Senators' names will be added as cosponsors.

Mr. DIXON. To oversimplify what the amendment does in the cargo preference language, it provides that in the respective four port areas of the country, the East, the West, the South and the Great Lakes port areas, each port area is allowed to receive its mean historic port range share."

This is a very significant piece of language that has permitted the Great Lakes to receive a fair share of the shipments under the title of this bill, notwithstanding the provisions of the cargo preference law.

In the compromise that took place, our interest in those States was not taken into consideration.

What we do in this amendment is simply to say that, so far as the words "mean historic port range share" are concerned, the Act means the shipment of goods under this act over the 4-year period beginning with calendar year 1980 through calendar year 1983.

So all we are attempting to do in this amendment, under the provisions of this act and everything that has ensued as a consequence of the act, and in view of the compromise that has taken place, is to say that we will continue to enjoy our historic share, no more and no less, in consideration of what is allowed to the respective ports in the country.

I consider it to be an eminently fair amendment in every particular. It is an amendment that I believe will enhance the probabilities of fair consideration of this amendment in due time in the conference.

I think my distinguished friend from Minnesota will want to share with us some remarks concerning his support for this particular amendment.

Mr. BOSCHWITZ. Mr. President, this is the compromise that we have been trying to amend and improve. We have gone to great lengths concerning this amendment. Some may call this a compromise, Mr. President, but we are actually still losers. We were not involved in the negotiations. Indeed, there is no way that we can gain one iota from this compromise. As a matter of fact, we can only lose.

If this is a compromise, Mr. President, I would point out that not a single bill has been introduced in this body. This is the first time that this compromise has been brought to the attention of the Senate. It has not had 1 minute of hearing in any of the committees. It is a compromise worked out by the maritime interests together with some others, to be sure. It is a compromise that means that all are in some way to be served. The Great Lakes have no part of it, no part of it and no gain. Everything is taken.

The present law, Mr. President, says that 50 percent of the cargoes generated by the Federal Government shall be shipped in American bottoms and the other 50 percent is available to foreign bottoms, where the rates are indeed cheaper.

This compromise says that 75 percent of the shipments shall be in American bottoms.

The Great Lakes, Mr. President, has been served not from American vessels but from foreign vessels. As a result, we have not received shipments from that half but we have gotten it from the half where the foreign shippers come into the Great Lakes.

Now, if only 25 percent of the shippers are going to be allowed to be in foreign vessels, we expect to get little or nothing. The Port of Green Bay may indeed close. They are talking about closing a portion of the Port of Duluth. The Great Lakes will be hit very, very hard.

This amendment asks for simple equity. That is that we will continue to enjoy our historic share.

We were not part of these negotiations, Mr. President. We are total losers in this matter. We want to continue to enjoy our historic share. The ports on the Great Lakes are suffering. We ask the consideration of our colleagues on this amendment. We really deserve their support.

The PRESIDING OFFICER. Is there further debate?

Mr. DIXON. Mr. President, I ask unanimous consent that my distinguished colleague from Michigan [Mr. LEVIN], at his request, be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. Let me say in conclusion, as my distinguished friend from Minnesota said, this is a compromise that adversely in a dramatic way affects major ports in the country, the ports on the Great Lakes. They were not a party to it.

The passage of the compromise without this language would be to very, very sharply reduce the amount of shipping on the Great Lakes to the disadvantage of all of the ports on the lakes and all of the Great Lakes States.

We are only asking not for an increase but that we be entitled to continue our historic port range share.

The language has not been changed in the bill. But as my friend from Mississippi and others know, when you shrink the pie and take 75 percent and leave only 25 percent, you are dramatically reducing the amount of the share that can be pro rata shared in the country so you do adversely affect the Great Lakes.

As a matter of fairness, since we did not participate in the accommodations or the compromise, I ask my colleagues to give us the same kind of fair consideration we would give them and permit us to continue to enjoy our share of the shipping that has occurred in the past.

Mr. WILSON. Will the Senator yield?

Mr. DIXON. Yes.

The PRESIDING OFFICER. Who yields time?

Mr. WILSON. Mr. President, will the Senator yield for a question?

Mr. DIXON. Yes, I will yield.

Mr. WILSON. I thank the Senator from Illinois.

Do I understand that the amendment the Senator from Illinois is offering will require that 25 percent of Public Law 480 donations shipments be shipped from Great Lakes ports?

Mr. DIXON. May I say to my friend from California that we do not provide any percentage. All we are saying is that the terminology "mean historic port range share," which has always existed in the bill and been honored, will continue to be honored on the basis of the method with which it was treated in the last 4 years of the life of this particular law. That is all we are saying. We are not saying any percentage, we are saying give us the same as we have always received historically.

Mr. WILSON. Mr. President, perhaps the Senator from Illinois can clarify what, then, is the effect of that amendment. How would he translate that into a percentage of total share?

Mr. DIXON. It can be done by simple mathematics on the basis of the shares that have been received by the various ports of the country over the last 4-year life of the law. All we are saying is that it is quite apparent that when you enter into this accommodation, you do shrink the amount of the pie that has been ordinarily distributed. We are only saying that we want our means historic share as has been true in the last 4 years of the life of this law. We do not say percentage.

Mr. BOSCHWITZ. If the Senator will yield, this only applies to title II of Public Law 480, which is the grant portion of Public Law 480. It applies to the aggregate of the 4 years. It is about 21 percent. It has been as high as 26.1 percent and as low as 14.8 percent. So about 21.8 percent of this would be Public Law 480.

Mr. CHAFEE. Mr. President, I would like to ask a question, if I may, of the Senator from Illinois.

Mr. COCHRAN. May I inquire how much time remains under the agreement?

The PRESIDING OFFICER. The Senator from Illinois has 1 minute remaining. The Senator from North Carolina has 12 minutes remaining.

Who yields time?

Mr. HELMS. Mr. President, I yield to the distinguished Senator from Rhode Island 2 minutes.

Mr. CHAFEE. If the Senator from Illinois could give me a brief answer, I understood one of the problems with the Great Lakes participating in the Public Law 480 program was that American bottoms do not come into the Great Lakes. So how is he going to get a portion of the increased percentage, namely, the 75 percent, when American ships do not go into the Great Lakes, which was his original argument?

Mr. DIXON. There are less than two. One of the problems with the Great Lakes is that there are fewer American bottoms. We also ship cheaper there but we have been given a historic percentage over the years. When we change this law, we reduce our historic percentage unless we say we should maintain the historic percentage we have had for the last 4 years.

Mr. BOSCHWITZ. Mr. President, I might say to the Senator that we do not get the shipments under the——

Mr. DIXON. I thought that was understood.

Mr. CHAFEE. Is the Senator then saying that if this amendment goes through, if they maintain their historic percentage, the provision that has been voted—though I did not vote for it—to go to 75 percent thus would be reduced what, back to 50?

Mr. DIXON. No, but I would concede that we would probably have a modification of the amendment to give us our historic share, because we do not have that many American bottoms.

Mr. CHAFEE. But if we reduce it, we would thus reduce their 75 percent. Is that correct?

Mr. DIXON. Yes.

Mr. BOSCHWITZ. No.

Mr. CHAFEE. Mr. President, one Senator says yes, one Senator says no. Who is answering for the team? I would say there is confusion about this amendment.

Mr. BOSCHWITZ. Will the Senator yield to me?

Mr. HELMS. I yield to the Senator from Minnesota as much time as he desires.

Mr. BOSCHWITZ. It is my understanding that our historic share for the Great Lakes, which has been about 20 percent of the 100 percent, would be retained; not that there would be any reduction or diminution of the share that goes in American bottoms or that goes on foreign bottoms, simply that the historic share of the Great Lakes would be maintained.

Mr. DIXON. My colleague is correct.

Mr. BOSCHWITZ. The Senator from Illinois also made a very interesting statement earlier. That is when the Great Lakes are not available to ship, all freight rates around the country rise. All freight rates, not on rails but ocean freight rates, rise when Great Lakes shipments are cut off due to the weather.

Mr. CHAFEE. So as I understand the explanation, since you get 20 percent of the total and no American ships come into the Great Lakes, you therefore are getting all but 5 percent of the nonsubsidized portion.

Mr. BOSCHWITZ. Not quite.

Mr. CHAFEE. Well, all but 5 percent.

Mr. BOSCHWITZ. Some American ships do come into the Great Lakes. One shipping line does serves the Great Lakes so that some, but not very much would be the nonsubsidized portion.

Mr. STEVENS. Mr. President, will the Senator yield me 1 minute?

Mr. HELMS. Certainly.

Mr. STEVENS. Mr. President, in the amendment of the Senator from Mississippi [Mr. COCHRAN], there is a provision for a study of this very problem because we have had the issue raised before. Under this amendment, we will now get some facts to deal with this issue rather than deal with it on the basis of regional preference or assumption. I suggest that it is premature to have this amendment considered until we get the result of the study which would be mandated by the basic amendment before the Senate.

Mr. WILSON addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. HELMS. Mr. President, I yield such time as the Senator from California may desire.

Mr. WILSON. I thank the distinguished manager.

Mr. President, I shall await with eagerness the results of the study just described by my friend, the Senator from Alaska, but until such time as that or some other bit of evidence not now available makes a persuasive case, it seems to me the effect of this amendment is inevitably to distort the market. In fact, as the Senator from Rhode Island has pointed out, if there is but a single shipment on an American-flag carrier operating within the Great Lakes, it seems to me the great beneficiary of this amendment will not be American carriers but, in fact, foreign-flag carriers.

I also wonder if, during those months the Great Lakes are frozen, we will not suffer needlessly a reduction to those other remaining American carriers operating out of other ports. It seems to me that is true. So reluctantly and with sympathy for the concerns that have prompted my friend from Illinois to offer this amendment, I urge that it be opposed because it seems to me that inevitably, it is going to prejudice the interests of American employees of American carriers. It will not benefit American-flag carriers. To the contrary, it seems obvious on the face of it that this is going to reduce their share and only be to the benefit of the foreign-flag carrier. With regret, if this is to be tabled, I urge a vote in support of that motion.

Mr. HELMS. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from North Carolina has 6 minutes remaining.

Mr. HELMS. I yield 2½ minutes to the Senator from Mississippi.

Mr. COCHRAN. Mr. President, this compromise that is before the Senate tonight reflects a great deal of hard work to arrive at an agreement to end the cargo preference controversy that has existed and continues to come up, from time to time, as we take up legislation that affects the Public Law 490 program and other efforts to export our U.S. grown commodities. It is difficult to satisfy all of the interests involved and there are many interests involved—different commodity groups, different maritime industry groups and organizations. But this compromise that has been crafted reflects the agreement of most of them. I hope we can continue to work within the framework of the compromise that provides for this advisory commission to work on unsolved problems such as the Great Lakes diversion problem so that we can have a fair and equitable arrangement that satisfies all interests.

But for the moment, this is the best that we can do. I hope Senators will reject the amendment and continue to support the compromise.

Mr. DIXON. Mr. President, I have 1 minute remaining, and I yield it to my distinguished friend and colleague from Illinois [Mr. SIMON].

The PRESIDING OFFICER. The Senator is recognized.

Mr. SIMON. Mr. President, I thank my colleague from Illinois. I join in behalf of this amendment. Frankly, I was tied up on other matters when the major amendment was being debated. I was not aware that this adversely impacts on the Great Lakes States. I think there are others who may want to take a good, hard look at this whole amendment and the full implications of it, but particularly those of us from the Midwest States ought to be voting in support of the Dixon amendment. I am pleased to support it. I hope it can receive a majority of this body.

The PRESIDING OFFICER. The Senator from North Carolina has 4 minutes remaining.

Mr. HELMS. Mr. President, in a moment, I am going to yield back what time I have remaining.

Let me call the Chair's attention to the fact that a technical error was made by the Senator from Oklahoma [Mr. NICKLES]. I ask unanimous consent that the language of amendment No. 924, adopted by the Senate unani-

mously as an amendment to amendment No. 916, be added to the end of amendment No. 915.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. HELMS. I thank the Chair. I yield back the remainder of my time.

Mr. COCHRAN. Mr. President, I move to table the amendment of the Senator from Illinois and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion to table the amendment (No. 925). The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from South Dakota [Mr. ABDNOR], the Senator from North Carolina [Mr. EAST], the Senator from Arizona [Mr. GOLDWATER], the Senator from Pennsylvania [Mr. SPECTER], and the Senator from Wyoming [Mr. WALLOP] are absent on official business.

I further announce that, if present and voting the Senator from Wyoming [Mr. WALLOP] would vote "nay."

Mr. CRANSTON. I announce that the Senator from New York [Mr. MOYNIHAN] and the Senator from Mississippi [Mr. STENNIS] are necessarily absent.

I further announce that if present and voting, the Senator from New York [Mr. MOYNIHAN] would vote "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 71, nays 22, as follows:

[Rollcall Vote No. 262 Leg.]

YEAS—71

Andrews	Garn	Mattingly
Armstrong	Gore	McClure
Baucus	Gorton	McConnell
Bentsen	Gramm	Melcher
Biden	Hart	Mitchell
Bingaman	Hatch	Murkowski
Boren	Hatfield	Nunn
Bradley	Hawkins	Packwood
Bumpers	Hecht	Pell
Burdick	Heflin	Pryor
Byrd	Heinz	Rockefeller
Chafee	Hollings	Rudman
Chiles	Humphrey	Sarbanes
Cochran	Inouye	Sasser
Cohen	Johnston	Stafford
Cranston	Kassebaum	Stevens
D'Amato	Kennedy	Symms
DeConcini	Kerry	Thurmond
Denton	Lautenberg	Trible
Dodd	Laxalt	Warner
Domenici	Leahy	Weicker
Evans	Long	Wilson
Exon	Mathias	Zorinsky
Ford	Matsunaga	

NAYS—22

Boschwitz	Durenberger	Harkin
Danforth	Eagleton	Helms
Dixon	Glenn	Kasten
Dole	Grassley	Levin
Lugar	Proxmire	Simon
Metzenbaum	Quayle	Simpson
Nickles	Riegle	
Pressler	Roth	

NOT VOTING—7

Abdnor	Moynihan	Wallop
East	Specter	
Goldwater	Stennis	

So the motion to lay on the table the amendment (No. 925) was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote by which the motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, as I have indicated, this will be the last vote. I assume there will be a few more exciting amendments, and then there are things coming up.

But there are two or three amendments, I guess, on cargo preference. Is that correct?

Mr. COCHRAN. Mr. President, if the distinguished majority leader will yield, I am advised that the Senator from Illinois [Mr. DIXON] has two or three amendments and Senator BOSCHWITZ, from Minnesota, may have one. I know of no other amendments to the cargo preference compromise.

I hope we can dispose of those amendments quickly, maybe with voice votes.

I do not know what the intention of the Senators would be, but I hope we can wind up this part of the bill very quickly in the morning.

Mr. HELMS. Mr. President, if the majority leader will yield, I might inquire of the Senator from Mississippi can he be here by 9:45 a.m. in the morning so we can get into the business?

Mr. COCHRAN. Mr. President, if the Senator will yeild, I will be happy to be here at that time and be willing to work with the chairman to move this along as quickly as we can.

Mr. HELMS. I appreciate it. I thank the Senator very much.

ANIMAL WELFARE AMENDMENT OFFERED BY SENATOR DOLE

Mr. WILSON. Mr. President, I rise in support of the animal welfare amendment offered by Senator DOLE, of which I am pleased to be a cosponsor.

I wish to commend the distinguished Senator from Kansas, as well as my two colleagues from Utah and Montana, for succeeding in working out a compromise on this sensitive issue of animal welfare. I believe my colleagues have found a solution which achieves the delicate balance between public concern over the care of laboratory animals and the need to continue to achieve medical advances.

We all know that the ability of the scientific community to enhance the quality of lives for both humans and animals rests upon the advancement of knowledge.

This is made possible by conducting research, much of which involves the use of laboratory animals. While this use of animals may need to continue until alternative methodologies which do not use animals or which reduce the number of animals used can be developed, I believe that Congress must ensure that the entire scientific community exercise its responsibility to provide humane care for experimental animals.

I would hope for the most part, Mr. President, that the research community is indeed exercising this ethical responsibility. However, as we have seen in recent instances, such as the University of Pennsylvania Head Injury Clinic, this is not the case. As a consequence, Congress must act to help alleviate the unnecessary suffering and pain of laboratory animals to the extent possible without jeopardizing much-needed research.

I believe that the Dole animal welfare amendment represents an effective and reasonable approach to the problems of experimental animal abuse. It will ensure proper animal care through strengthening existing law, the Animal Welfare Act, and will increase penalties for violations of this act. I commend my colleagues for finding a good compromise which I feel both the public and the scientific community can support, and I applaud its adoption on Monday.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that there now be a period for the transaction of routine morning business not to exceed beyond 7:45 p.m. with statements limited therein to 3 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

"U.S.-EEC TRADE: AN UPDATE ON THE CITRUS-PASTA WAR"

Mr. WILSON. Mr. President, I rise today to alert my colleagues to a rapidly approaching deadline which cannot be allowed to pass unnoticed. This Thursday, October 31, our Government's truce with the European Community in the so-called citrus-pasta war will expire. If the European Community fails to live up to the conditions of the truce which require it to take satisfactory action in the pending citrus section 301 case, the United States must exercise its right, under the terms of the truce, to retaliate against the EC's discriminatory tariff treatment on U.S. citrus exports.

My colleagues may recall the regrettable escalation of events which triggered the citrus-pasta war this past summer. The causes of this dispute, however, go back 15 years. Since 1969, the EEC has granted preferential tariff treatment and market access to citrus and citrus products from Mediterranean countries, costing U.S. exporters of oranges and lemons in excess of $48 million in lost sales annually.

Throughout the past decade, the EEC has rebuffed extensive U.S. efforts to resolve the matter: First in 1972 under section 252 of the Trade Expansion Act of 1962; again in 1976 under section 301 of the Trade Act of 1974; in the Tokyo round of multilateral trade negotiations which concluded in 1979; and finally in November 1982, when after 6 years of frustrated discussions, the United States had no choice but to invoke the dispute settlement procedures of the GATT as the only remaining means of seeking redress for American citrus growers.

After 2 years of study, the GATT panel found unanimously that the EEC tariff preferences on fresh oranges and lemons from Mediterranean countries nullify and impair the most favored nation [MFN] rights of the United States. The GATT recommended that the EEC reduce its MFN tariff rate on U.S. oranges and lemons.

Despite the favorable panel findings, the GATT has been unable to adopt the report and implement the recommendations because the EEC has effectively prevented a vote from occurring during several GATT meetings held earlier this year. A unanimous vote to adopt the GATT panel report must occur before any compensation by the guilty party is required.

Therefore, on May 1 of this year, our Government disappointedly, but in my opinion, realistically, had to conclude that the GATT dispute settlement process was terminated, and pursuant to section 301, had to consider a subsequent course of action to redress the injury to U.S. citrus exporters.

On June 20, 1985, President Reagan announced that a reasonable and appropriate course of action in response to the unwillingness of the EEC to implement the unanimous finding of the GATT panel or to negotiate a mutually acceptable resolution of this issue was to withdraw an amount of concessions from imported EEC pasta products equivalent to the U.S. citrus trade which had been adversely affected. The EEC promptly announced counterretaliation against U.S. exports of lemons and walnuts by imposing a prohibitively high tariff increase.

This unjustifiable response by the EEC prompted me to introduce the "Fair Access to Foreign Markets Act" which requires the President to take all steps necessary and appropriate to end unfair EEC trade practices, including resolution of section 301 complaints filed by U.S. agricultural exporters which are currently pending before the GATT.

EEC officials obviously realized the implications which a provision in my bill, which would require the President to rebalance the level of concessions in U.S.-EEC trade, could have on European wine exports because the Community quickly rescinded the retaliatory walnut and lemon tariffs and, in a further action, decided to reduce subsidies on EC pasta exports by 45 percent, thereby resolving the longstanding pasta 301 case. In exchange, the United States agreed to suspend our increase in pasta duties.

Central to this agreement, however, was the commitment which EEC officials gave to the U.S. Trade Representative to take steps to increase access to the EC market for U.S. citrus exports. As Ambassador Yeutter said in his July 19, statement announcing this agreement, "If the EC fails to take satisfactory action on citrus by October 31, 1985, both sides acknowledge that the United States reserves the right to retaliate against the EC's discriminatory tariff treatment on U.S. citrus exports."

October 31 is only days away and it has become apparent to me that the EC does not intend to live up to either the letter or the spirit of its commitment. European trade officials have had nearly 4 months to generate proposals to improve American access to the EC citrus market.

Rather than using this opportunity to their advantage, they whiled away the summer and waited until the middle of October to obtain even the bureaucratic mandate needed to begin negotiations on the preferential citrus agreements with Mediterranean countries. Any agreement with the United States, according to the EC, must be approved by individual members of the Community and made within the large context of these Mediterranean accords, and those negotiations themselves are stalled.

As a member of the Senate Agriculture Committee, I have experienced firsthand the range of conflicting agricultural interests inherent among 50 individual States. So I do not deny that achieving consensus among 10, and soon to be 12, different European countries on a tariff reduction and improved market access for imported products may be difficult, both economically and politically. However, internal EC politics are Europe's problem. My concern is directed at the economic harm these preferential agreements cause U.S. exporters, a fact which the EC refuses to admit. The United States intends to rectify this economic imbalance. This is why we no longer have time to give freely.

So what do I expect from the EEC on October 31? Unfortunately, nothing except another plea for more time—more time to renegotiate the Mediterranean tariff agreements, more time to renegotiate improved market access for U.S. citrus exports, and more time to continue 15 years of discriminatory trade practices against U.S. citrus exports.

Time, however, is no longer available free of charge. Unlimited patience has cost our citrus industry millions of dollars in lost sales every year since the U.S. citrus industry filed its first unfair trade case in 1970. If the European Community nevertheless insists that it needs more time to live up to its commitment to resolve the citrus dispute, we can give it more time—but only at a price.

In conversations with the U.S. Trade Representative and with the U.S. Ambassador to the EC, I have become aware of the EC's feeble proposals to buy time that should embarrass EC negotiators as much as such proposals infuriate me. Specifically, the EC should realize that a slight reduction in grapefruit tariffs or a definitional change limiting equal market access opportunities to only lemons and grapefruit, to the continued discriminatory exclusion of oranges, do not constitute satisfactory action as agreed to in our truce.

For these reasons, I urge the U.S. Trade Representative to stand by his words of July 19: "If the EC fails to take satisfactory action on citrus by October 31, 1985, both sides acknowledge that the United States reserves the right to retaliate against the EC's discriminatory tariff treatment on U.S. citrus exports."

First, we must reinstitute the pasta tariff which was suspended by our summertime truce. But if necessary, we must be prepared to retaliate further. As I said earlier, if the EC needs more time to resolve the citrus case, time can be made available—but not for free. The time we have already given away has cost U.S. exporters $48 million annually, a price we are no longer willing to pay. Until the EC becomes serious about resolving the citrus case, we must rebalance trade concessions granted to the European Community by an equivalent amount and consider for retaliation any appropriate agricultural commodity, including the EC's largest agricultural export to our country—wine.

If the EC does not wish to repeat the regrettable events in the pasta war, it must not counterretaliate against our pasta tariff increase. Both the United States and Europe acknowledged in the pasta war truce that the United States reserves the right to retaliate absent satisfactory action by the EC on citrus by October 31. Should the EC, in spite of this

agreement, decide to counterretaliate, we will have no choice but to take prompt and vigorous counteractions.

Unless we stand firm until this case is resolved in an equitable manner, the ultimate loser will be every American farmer who is attempting to compete in worldwide markets, every U.S. business that depends upon a fair opportunity to deal across the globe, and in the end, the U.S. Government's trade policy—struggling to reinvigorate itself in the face of a growing balance of trade deficit.

In the interests of fair international trade, I hope that the European Community will make every effort in the short time remaining to offer constructive market access proposals to U.S. citrus negotiators. It is to the advantage of both sides finally to resolve this case, not to ignite another battle in the pasta war.

Mr. President, I yield the floor.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Saunders, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

PRESIDENTIAL APPROVALS

A message from the President of the United States announced that he had approved and signed the following bill and joint resolutions:

October 22, 1985:

S.J. Res. 158. Joint resolution designating February 1986 as "National Community College Month."

October 28, 1985:

S. 1349. An act to provide for the use and distribution of funds awarded in docket 363 to the Mdewakanton and Wahpekute Eastern or Mississippi Sioux before the U.S. Court of Claims and Claims Court.

S.J. Res. 92. Joint resolution to designate October 1985 as "National Foster Grandparent Month."

S.J. Res. 104. Joint resolution to proclaim October 23, 1985, as "A Time of Remembrance" for all victims of terrorism throughout the world.

MESSAGES FROM THE HOUSE

AT 11:13 a.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the bill (H.R. 1210) to authorize appropriations to the National Science Foundation for the fiscal year 1986, and for other purposes, with an amendment, in which it requests the concurrence of the Senate.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3500. An act to provide for reconciliation pursuant to section 2 of the First Concurrent Resolution on the Budget for the fiscal year 1986.

ENROLLED BILL AND JOINT RESOLUTIONS SIGNED

At 2:09 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker has signed the following enrolled bill and joint resolutions:

H.R. 3605. An act to provide that the authority to establish and administer flexible and compressed work schedules for Federal Government employees be extended through December 31, 1985;

H.J. Res. 308. Joint resolution designating the week beginning on October 20, 1985, as "Benign Essential Blepharospasm Awareness Week"; and

H.J. Res. 322. Joint resolution to provide for the designation of October 1985, as "National Sudden Infant Death Syndrome Awareness Month."

The enrolled bill and joint resolutions were subsequently signed by the President pro tempore [Mr. THURMOND].

At 5:24 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2942) making appropriations for the legislative branch for the fiscal year ending September 30, 1986, and for other purposes; it recedes from its disagreement to the amendments of the Senate numbered 1, 11, 13, 14, and 22 to the bill, and agrees thereto; and it recedes from its disagreement to the amendments of the Senate numbered 12 and 26 to the bill, and agrees thereto, each with an amendment, in which it requests the concurrence of the Senate.

The message also announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes.

The message further announced that the House has passed the following bill, with amendments, in which it requests the concurrence of the Senate:

S. 1570. An act to amend the Fair Labor Standards Act of 1938 to provide rules for overtime compensatory time off for certain public agency employees, to clarify the application of that act to volunteers, and for other purposes.

The message also announced that the House has passed the following joint resolution without amendment:

S.J. Res. 227. Joint resolution to commend the people and the sovereign confederation of the neutral nation of Switzerland for their contributions to freedom, international peace, and understanding on the occasion of the meeting between the leaders of the United States and the Soviet Union on November 19–20, 1985, in Geneva, Switzerland.

The message further announced that the House has agreed to the following concurrent resolution, without amendment:

S. Con. Res. 71. Concurrent resolution to commemorate the accomplishments of Public Law 94-142, the Education for All Handicapped Children Act, on the 10th anniversary of its enactment.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2050. An act to give to the Board of Parole for the District of Columbia exclusive power and authority to make parole determinations concerning prisoners convicted of violating any law of the District of Columbia, or any law of the United States applicable exclusively to the District.

H.R. 2946. An act to establish an independent jury system for the Superior Court of the District of Columbia.

H.R. 3235. An act to authorize the Administrator of the National Aeronautics and Space Administration to accept title to the Mississippi Technology Transfer Center to be constructed by the State of Mississippi at the National Space Technologies Laboratories in Hancock County, MS.

H.R. 3447. An act to amend and extend the Congressional Award Act.

H.R. 3578. An act to provide permanent authority for hearing commissioners in the D.C. courts, to modify certain procedures of the D.C. Judicial Nomination Commission and the D.C. Commission on Judicial Disabilities and Tenure, and for other purposes.

MEASURES REFERRED

The following bills were read the first and second times by unanimous consent, and referred as indicated:

H.R. 2050. An act to give to the Board of Parole for the District of Columbia exclusive power and authority to make parole determinations concerning prisoners convicted of violating any law of the District of Columbia, or any law of the United States applicable exclusively to the District; to the Committee on Governmental Affairs.

H.R. 2946. An act to establish an independent jury system for the Superior Court of the District of Columbia; to the Committee on Governmental Affairs.

H.R. 3235. An act to authorize the Administrator of the National Aeronautics and Space Administration to accept title to the Mississippi Technology Transfer Center to be constructed by the State of Mississippi at the National Space Technologies Laboratories in Hancock County, MS; to the Committee on Commerce, Science, and Transportation.

H.R. 3447. An act to amend and extend the Congressional Award Act; to the Committee on Governmental Affairs.

H.R. 3578. An act to provide permanent authority for hearing commissioners in the District of Columbia courts, to modify certain procedures of the District of Columbia Judicial Nomination Commission and the District of Columbia Commission on Judicial Disabilities and Tenure, and for other purposes; to the Committee on Governmental Affairs.

MEASURE PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, placed on the calendar:

H.R. 3500. An act to provide for reconciliation pursuant to section 2 of the first concurrent resolution on the budget for the fiscal year 1986.

ENROLLED BILL SIGNED

The Vice President reported that on today, October 29, 1985, he had signed the following enrolled bill, which had previously been signed by the Speaker of the House of Representatives.

H.R. 2409. An act to amend the Public Health Service Act to revise and extend the authorities under that act relating to the National Institutes of Health and National Research Institutes, and for other purposes.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred to lie on the table as indicated:

POM-482. A joint resolution adopted by the Legislature of the State of California; to the Committee on Agriculture, Nutrition, and Forestry.

"ASSEMBLY JOINT RESOLUTION No. 75

"Whereas, The California bee industry provides vital pollenization to a wide variety of agricultural crops which annually contribute four billion dollars towards the overall 14 billion dollars worth of California agriculture; and

"Whereas, California is home to one of the leading honey producing industries in the nation, having a cash value exceeding 21 million dollars; and

"Whereas, The bee industry, which is vital to the State of California and the nation, is being jeopardized by the anticipated invasion of Africanized bees from Central America; and

"Whereas, The Africanized bees have already destroyed the honey industry of Venezuela by reducing its production of honey from 13 million pounds of honey per year in 1975 to 200,000 pounds of honey produced per year by 1981; and

"Whereas, The Africanized bees are an extreme financial hazard to California's bee industry due to their inefficient pollenization, and, because they carry the varroa mite, a parasite that kills 90 to 95 percent of the honey bees, they are a health risk to European honey bee colonies; and

"Whereas, Due to their aggressive behavioral traits, they are an imminent threat to the well-being of the human and animal populations; and

"Whereas, It has been documented that over 100 people and 1,000 animals have already been killed by these bees in South America; and

"Whereas, The California Legislature believes that a genetic dilution program may be successful in breeding out much of the Africanized bees' nonproductive, hostile traits; and

"Whereas, The Animal Plant Health and Quarantine Service of the United States Department of Agriculture has an ongoing program to curb the Mediterranean fly with a sterile rearing and release program in Mexico which has reduced the threat of the devastating Medfly to this country; and

"Whereas, Building on the successes of the sterile Medfly program, there is an opportunity within the next five to seven years, before the Africanized bees are permanently in the United States, to minimize their detrimental impact on California's healthy bee industry, prosperous agriculture, and overall economy; and

"Whereas, The damage caused by the Africanized bees cannot be minimized without adequate funding and technical support from the United States Department of Agriculture; now, therefore, be it

"Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Secretary of Agriculture and the United States Department of Agriculture, to establish a research and pest control program in Mexico for the minimization and neutralization of the Africanized bees; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Agriculture, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-483. A joint resolution adopted by the Legislature of the State of California; to the Committee on Armed Services.

"ASSEMBLY JOINT RESOLUTION No. 76

"Whereas, General Dynamics has been virtually the sole supplier of fighter aircraft to the Pentagon under the "sole source" noncompetitive contract of the Defense Department; and

"Whereas, General Dynamics has, as a result, been able to offer its F-16C Falcon to the Pentagon at an inflated noncompetitive price of approximately $19.5 million; and

"Whereas, In response to Northrop Corporation's offer to sell to the Pentagon its comparable F-20 Tigershark, which was developed at no cost to the taxpayers, at a cost savings of approximately $4.5 million per plane, General Dynamics then countered with an offer of $2 million per plane less than Northrop Corporation's offer for a scaled-down version of the F-16 and contingent on the purchase of a specified number of F-16s at the regular price; and

"Whereas, The advantages of competition in military procurement become immediately evident in the competitive bidding process between General Dynamics and Northrop Corporation, such as:

"(1) Improved quality products;

"(2) The incentive to continually improve the product for efficiency and cost-effectiveness;

"(3) Resultant benefits to the provider in improved management of its operations and manufacture of its product at economically efficient levels;

"(4) The benefit to the government in having a choice of alternative comparable products, to select that which best suits particular military needs at the lowest price; and

"Whereas, The benefits of competition will flow to the nation in the form of reduced spending in the defense budget; and

"Whereas, Taxpayers benefit from the knowledge that their tax dollars earmarked for defense are spent in the most efficient manner; now, therefore, be it

"Resolved, by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to direct the Secretary of Defense and the Pentagon to consider the advantages of competition and to utilize competitive bidding procedures, before awarding defense contracts to defense contractors for the procurement of military hardware, software, and related services, as, for example, in deciding whether to select General Dynamics' F-16 Falcon or Northrop Corporation's F-20 Tigershark, or both, as the tactical fighter; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Defense, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress."

POM-484. A joint resolution adopted by the Legislature of the State of California; to the Committee on Commerce, Science, and Transportation.

"ASSEMBLY JOINT RESOLUTION No. 66

"Whereas, The federal Surface Transportation Assistance Act of 1982 (P.L. 97-424) provides a four-year authorization for federal programs of assistance to states for transportation projects; and

"Whereas, The present act is due to expire at the end of the 1986 federal fiscal year, and it is anticipated that a new multiyear authorization will be considered in Congress over the next several months; and

"Whereas, Several elements of the new assistance bill are anticipated to be of critical interest to California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to be guided by the following considerations in formulating a new multiyear transportation assistance authorization:

"(1) The federal funding commitment to the interstate highway system as presently defined should be extended beyond the current 1990 interstate completion deadline. This federal funding should be assured together with additional funding made available for other high priority noninterstate completion projects.

"(2) The new multiyear transportation assistance act should provide for the continuation of the 85 percent minimum funding to each state based on its contributions to the federal highway trust fund;

"(3) The number of transportation assistance program categories should be reduced or consolidated in order to provide the states with a maximum of flexibility in the use of federal funds and an increased ability to transfer funds between programs with fewer categorical restraints so that the states may address their own unique transportation requirements;

"(4) Any changes or adjustments in apportionment formulas should show a close correlation to highway usage criteria rather than other, less relevant factors;

"(5) Federal obligation ceilings for the highway program should be increased or adjusted in order to allow states to spend apportionments that have been made available to them; and

"(6) Key interstate highway system completion projects should have access to interstate highway discretionary funding without regard to the status of a state's unobligated balance of federal funds and without impairing the state's existing level of obligational authority; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-485. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Environment and Public Works.

"RESOLUTIONS MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO ENACT LEGISLATION REDUCING THE EFFECTS OF ACID RAIN ON THE ENVIRONMENT

"Whereas, acid rain is a serious danger to the environment, health and economy of Massachusetts; and

"Whereas, acidity levels in Massachusetts ponds and lakes are fifteen to twenty times what they should be; and

"Whereas, the acidity of the rainfall in Massachusetts is abnormally high; and

"Whereas, a national resolution of the acid rain problem is necessary; Therefore be it

"Resolved, That the Massachusetts General Court respectfully urges the Congress of the United States to take such action as may be necessary to solve the acid rain problem, recognizing that individual States also have the responsibility to act to alleviate the causes and effects of acidic deposition, this shall include, but not be limited to, tax incentives to businesses which reduce emissions of sulfur dioxide and nitrogen oxide waste products; and be it further

"Resolved, That copies of these resolutions be forwarded by the Clerk of the House of Representatives to the President of the United States, the Presiding Officer of each branch of Congress and to the Members thereof from this Commonwealth."

POM-486. A resolution adopted by the Association of State Dam Safety Officials relating to the removal of economic barriers to safe dams; to the Committee on Environment and Public Works.

POM-487. Joint resolution adopted by the Legislature of the State of California; to the Committee on Environment and Public Works.

"ASSEMBLY JOINT RESOLUTION No. 70

"Whereas, The greatest flooding threat in the State of California, and possibly in the United States, is the Santa Ana River in San Bernardino, Riverside, and Orange Counties; and

"Whereas, The United States Army Corps of Engineers has been studying plans for reducing Santa Ana River potential flood damages since 1964; and

"Whereas, The United States Army Corps of Engineers has estimated that, with existing flood control facilities, a flood like that which occurred in 1862 could harm two million people and cause damages and economic losses estimated at over $12,000,000,000 (in 1983 dollars); and

"Whereas, There is agreement among the three involved counties and the State of California that the All-River Protection Plan is the preferred plan for reduction of flood damages due to overflowing of the Santa Ana River; and

"Whereas, The remaining major question regarding that plan is the configuration of the certain upper basin flood storage facilities; and

"Whereas, Most of the hazard to people and property exists in Orange County below Prado Dam; and

"Whereas, The configuration of facilities needed at and below Prado Dam are agreed to by all parties concerned; and

"Whereas, The logical start of construction should occur at and below Prado Dam; and

"Whereas, Further delay in authorization and funding of initial construction increases the jeopardy of up to two million people; and

"Whereas, Since the minimum period of time required to construct the entire project is 10 years and more likely will extend beyond the year 2000, it is essential that the Legislative express to the federal government the Legislature's policy for flood control in the Santa Ana River Basin; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to authorize construction of the All-River Protection Plan alternative of the Santa Ana River Main Stem Flood Control Project during the 99th Session of Congress and to appropriate the funds needed to start construction during fiscal year 1987; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Chief of the United States Army Corps of Engineers, to the Speaker of the House of Representatives, and to each Senator and Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-488. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Finance.

"RESOLUTIONS MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO ENACT LEGISLATION TO CORRECT THE SOCIAL SECURITY BENEFITS DISPARITY KNOWN AS THE NOTCH ACT

"Whereas, the changes effected by Congress in 1977 in the Social Security retirement benefit formula affected all those born in the Notch years: 1917, 1918, 1919, 1920, and 1921, whose work records are otherwise identical to work records of those born in 1916 or after 1921, but are penalized by receiving lower Social Security benefits; and

"Whereas, this disparity in benefit amounts is unjust and unfair and has caused great hardship; therefore be it

"Resolved, That the General Court of Massachusetts urges the Congress of the United States to enact legislation to correct this unfair disparity in Social Security benefits; and be it further

"Resolved, that copies of these resolutions be transmitted by the Clerk of the House of Representatives to the President of the United States, the Presiding Officer of each branch of Congress and to the Members thereof from this Commonwealth."

POM-489. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Finance.

"RESOLUTIONS MEMORIALIZING THE PRESIDENT AND CONGRESS OF THE UNITED STATES TO CREATE A NATIONAL HEALTH CARE SERVICE

"Whereas, the United States is one of the few nations in the industrialized world that does not have a National Health Care Program; and

"Whereas, the health care system at present is characterized by unequal access to care, uncontrollable costs, and uneven distribution of resources; now therefore be it

"Resolved, That the Massachusetts General Court calls upon the President and the Congress of the United States to enact a National Health Care Service to provide on a sliding scale a full range of medical, dental and mental health services to be funded by a progressively-structured health service tax on individual and corporate income; and be it further

"Resolved, That copies of these resolutions be transmitted forthwith by the Clerk of the House of Represenatives to the President of the United States, the Presiding Officer of each branch of Congress and to the Members thereof from this Commonwealth."

POM-490. A resolution adopted by the Mono County California Board of Supervisors urging Congress to retain the deductability of State and local taxes in any revision federal income tax law which is enacted; to the Committee on Finance.

POM-491. A resolution adopted by the Council of the City of Seal Beach, California relating to federal income taxation; to the Committee on Finance.

POM-492. A resolution adopted by the Council of the City of Tulare, California relating to federal income taxation and deductibility of state and local taxes; to the Committee on Finance.

POM-493. A joint resolution adopted by the Legislature of the State of California; to the Committee on Finance.

"ASSEMBLY JOINT RESOLUTION No. 64

"Whereas, Over the last few years, the California timber industry, long one of the most productive segments of the state's economy, has experienced a substantial decline leading to the closing of many mills and the loss of 7,000 timber jobs, further depressing the economy of rural California and creating much hardship for timber and wood workers; and

"Whereas, The decline of the timber industry has been caused by a number of problems beyond the control of the industry, including high interest rates, a decline

in the housing market, and urban encroachment into forest lands; and

"Whereas, A major impediment to the revitalization of the timber industry is the encroachment of subsidized Canadian softwood into the American timber market, now at 32 percent, caused by the Canadian government's practice of pricing stumpage at substantially lower amounts than fair market price in the United States, creating an unfair price subsidy for Canadian timber; and

"Whereas, This subsidy is not only disruptive to the California timber industry, but may cause Canada to suffer long-term environmental and economic damage through its practices of rapidly mowing down its forests for United States dollars; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation aimed at ending Canada's unfair advantage over the domestic timber industry, preferably through a negotiated and amicable settlement between our two nations, or, failing that, through the imposition of a tariff as is the practice with government subsidized products of many other nations, or through a quota system to limit the size of Canada's American timber market; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-494. A joint resolution adopted by the Legislature of the State of California; to the Committee on Finance.

"ASSEMBLY JOINT RESOLUTION NO. 44

"Whereas, The American tuna industry contributes significantly to the economy of California by the employment of over 1,200 persons and an annual payroll of over 14 million dollars; and

"Whereas, The tuna industry in California and its employees contribute over two million dollars annually in tax revenues to the federal, state, and local governments; and

"Whereas, The existence of the American tuna industry reduces expenditures from the Unemployment Insurance Fund by an estimated two million four hundred thousand dollars annually, because persons employed in the tuna industry do not draw unemployment compensation benefits; and

"Whereas, The loss or destruction of the domestic tuna industry would increase welfare costs by an estimated three million four hundred thousand dollars annually and Medi-Cal costs by an estimated two million two hundred thousand dollars annually, since a significant number of employees, if displaced, would require public assistance and medical care the costs of which would be borne by the federal, state, and local governments; and

"Whereas, The tuna industry also benefits the tourist business in San Diego, which designates one week each year as "Tuna Week," and many visitors come to view the fishing fleet; and

"Whereas, In addition to food for human consumption, many products are derived from tuna, including pet food, fish meal, and commercial agricultural fertilizes; and

"Whereas, In recent years, the American tuna industry has been experiencing severe setbacks and reductions in operations, and in the continental United States only one major tuna cannery remains in operation; and

"Whereas, The loss or destruction of the American tuna industry, in addition to causing great personal and community hardships, would worsen the international trade imbalance currently being experienced by the United States and make this nation even more dependent upon imports; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of California respectfully memorializes the President and Congress of the United States and the International Trade Commission to review those trade practices which adversely affect the American tuna industry and do everything in their power to strengthen and support this vital segment of the economy; and be it further

"Resolved, That the Legislature encourages Californians and all Americans to buy tuna in support of this essential American industry; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the International Trade Commission."

POM-495. A joint resolution adopted by the Legislature of the State of California; to the Committee on Finance.

"ASSEMBLY JOINT RESOLUTION NO. 48

"Whereas, The structural steel fabrication industry in California employs thousands of persons in the fabrication and erection of structural steel for seismically safe high rise buildings; and

"Whereas, During the years 1983 and 1984, imports of foreign fabricated structural steel to the West Coast of the United States increased from 3,000 tons per year to nearly 100,000 tons per year; and

"Whereas, The majority of those imports coming into California were from the Republic of Korea (60,000 tons in 1984) and were the result of unfair trade practices including price discrimination on raw steel products; and

"Whereas, During 1984, the Office of the United States Trade Representative recognized the unfair nature of this import surge, and the United States International Trade Commission recommended a quota on steel imports to remedy this situation; and

"Whereas, The United States Trade Representative has recently concluded negotiations which resulted in an agreement limiting imports of fabricated structural steel from the Republic of Korea to no more than 60,000 tons per year for the entire United States; now, therefore, be it

"Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California commends the Office of the United States Trade Representative for its efforts in assuring free, fair trade in steel products by negotiating the voluntary import agreement with the Republic of Korea; and be it further

"Resolved, That the Legislature respectfully urges the United States Trade Representative and other United States Government officials to closely monitor the agreement to achieve compliance with provisions limiting imports of fabricated structural steel to the West Coast to approximately 20,000 tons per year for the next five years; and be it further

"Resolved, That the Legislature respectfully urges the United States Trade Representative to make all necessary efforts to include fabricated structural steel in those steel products covered in the European Community Steel Arrangement as it is renewed; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the United States Trade Representative."

POM-496. A joint resolution adopted by the Legislature of the State of California; to the Committee on Finance.

"ASSEMBLY JOINT RESOLUTION NO. 41

"Whereas, There is a general concern about the size and continued growth of the national debt; and

"Whereas, There is some thought that scaling back the annual cost-of-living increase due under social security would help relieve that debt; and

"Whereas, There was proposed in the Congress of the United States a debt relief package that would make provision for such a scale back in the annual cost-of-living adjustment for social security recipients as well as an increase in Medicare patient costs; and

"Whereas, More than three million Californians who are aged or disabled, or who are survivors or dependents of persons eligible for social security benefits, depend for their economic security on social security keeping up with cost-of-living increases;

"Whereas, Over the past several years prior to the proposed Medicare cost increase, older Americans have borne the burden of reduction in benefits; in the last five years the Medicare hospital deduction has doubled, the physician deductible almost doubled, coinsurance for physicians' care doubled and excess charges from physicians tripled; and

"Whereas, Past changes in social security in 1981 and 1983 have already resulted in reductions of $100 billion in social security expenditures through delays in cost-of-living adjustments, elimination of the minimum benefits, the lump-sum death benefit, and the initiation of taxation of benefits; and

"Whereas, A freeze was imposed on social security recipients for six months in 1983 and it had no effect on the deficit then and would have little effect now; and

"Whereas, It is now recognized that older Americans will by 1989 have lost as much as 40 billion dollars in social security benefits as a result of the previous 1983 six-month cost-of-living freeze; and

"Whereas, It is known that any savings resulting from a scaling back of cost-of-living adjustments would have no effect on the deficit since social security benefits are paid out of separate trust funds with money received from payroll contributions, and not from general revenues; and

"Whereas, A new scaling back of social security cost-of-living adjustments would cause the average beneficiary in 1986 alone to suffer a benefit loss of five hundred ninety-three dollars ($593) per individual over the next three years and force another one-half million more senior persons,

mainly elderly women 72 years of age and older, below the poverty line; and

"Whereas, A scale back in benefits at the 1985 level would cause a multibillion dollar income loss to recipients for the next three years and a decrease in all future benefit levels; and

"Whereas, Any further cuts in social security, coupled as proposed with a simultaneous one hundred twenty-five dollars ($125) per year Medicare cost increase in the next three years, would be most difficult for many elderly to cope with; now, therefore, be it

"Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to not attempt to scale back the cost-of-living increases due under social security; and be it further

"Resolved, That, as the President has suggested, the Congress be urged to immediately split Social Security from the federal budget, so as to remove, the temptation to use the Social Security Pension Fund as an offset to the federal deficit; and be it further

"Resolved, That the President and the Congress of the United States be urged to assure the senior citizens of this state and the country that no efforts will be made to lower the social security cost-of-living increases; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-497. A joint resolution adopted by the Legislature of the Commonwealth of Pennsylvania; to the

"RESOLUTION COMMITTEE ON FINANCE

"Whereas, The deduction for State and local property, income and sales taxes has been an essential part of the Federal income tax system since 1913; and

"Whereas, The repeal of this deduction would result in reversing the historical separation of Federal, State and local taxing authority and in forcing double taxation on individual citizens; and

"Whereas, The repeal of this deduction could make it difficult for State and local governments to keep revenues at a level necessary to provide services and solve problems which the Federal Government is transferring to State and local govenments; and

"Whereas, The repeal of this deduction could jeopardize the financial health of State and local government, causing possible curtailment of essential services; and

"Whereas, Since most of the revenues used for the support of elementary and secondary schools are derived from deductible taxes, education could suffer adversely from repeal of this deduction; and

"Whereas, The repeal of this deduction could place great financial strain on State and local governments, resulting in lower credit ratings and higher interest rates for State and local governments raising money for capital projects; and

"Whereas, The repeal of this deduction could mean a shift away from the taxes that are now deductible, resulting in a heavier tax burden on businesses which may cause many businesses to leave high tax areas, further shrinking the tax base in those areas; and

"Whereas, The deduction for State and local taxes is taken by more Americans than any other deduction, by individuals across a wide range of income levels, including a majority of taxpayers in the middle income brackets; and

"Whereas, State and local tax payments are not voluntary, making their deduction a legitimate deduction provided to avoid a tax on a tax; and

"Whereas, The repeal of this deduction would result in individuals paying Federal tax on money they were forced to spend paying State and local property, income and sales taxes; and

"Whereas, The repeal of this deduction could be especially harmful to homeowners, many of whom might have difficulty affording a home without the Federal deduction for property taxes; therefore be it

"Resolved, That the Senate of the Commonwealth of Pennsylvania memorialize the Congress of the United States not to repeal the Federal income tax deduction for State and local taxes; and be it further

"Resolved, That copies of this resolution be transmitted to the President of the United States, to the presiding officers of each house of Congress and to each member of Congress from Pennsylvania."

POM-498. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Foreign Relations.

RESOLUTIONS URGING THE PRESIDENT OF THE UNITED STATES AND THE UNITED STATES STATE DEPARTMENT TO USE THE FULL WEIGHT AND POWER OF THEIR OFFICES IN IMPLORING GREAT BRITAIN TO REMOVE ITS TROOPS FROM OCCUPIED IRELAND AND TO ONCE AGAIN GRANT POLITICAL STATUS TO IRISH REPUBLICAN PRISONERS OF WAR

"Whereas, It is the natural right of every Nation to govern itself; and

"Whereas, The artificial division of Ireland by England has resulted in injustice and oppression; and

"Whereas, The struggle for a United Ireland is a legitimate struggle for political self-determination; and

"Whereas, The British propaganda machine has succeeded in depicting the age-old Irish struggle for freedom as an eruption of bigotry based on ancient and petty grudges; and

"Whereas, Certain persons in the United States Government have fallen prey to such propaganda and have involved themselves on the side of the British oppressors: Now therefore be it

"Resolved, That the Massachusetts General Court hereby urges the President of the United States, the Congress of the United States, and the United States State Department to use the full weight and power of their offices in imploring Great Britain to once again grant political status to Irish Republican prisoners of war in Ireland and to implore Britain to withdraw all British troops from the streets of northeast Ireland and further to request the British Government to declare an intent to withdraw all military personnel from occupied Ireland; and be it further

"Resolved, That a copy of these resolutions be transmitted forthwith by the clerk of the House of Representatives to the President of the United States, the United States State Department, the Presiding Officer of each Branch of the Congress and to each Member thereof from the commonwealth."

POM-499. A resolution adopted by the National Council of Knights of Peter Claver relating to South Africa; to the Committee on Foreign Relations.

POM-500. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Foreign Relations.

"RESOLUTIONS BESEECHING THE GOVERNMENT OF THE SOVIET UNION TO REFRAIN FROM FURTHER HINDERING THE ATTEMPTS OF IDA NUDEL AND OTHER JEWISH "REFUSENIKS" FROM EMIGRATING TO ISRAEL

"Whereas, Ida Nudel, a Jewish citizen of the Soviet Union has attempted to emigrate to Israel for the past 15 years and has been repeatedly suppressed; and

"Whereas, Ms. Nudel has been singled out by Soviet authorities and she has consistently received more severe and hostile punishments from the Soviet Union than others who have taken part in the same activities that she has engaged in; and

"Whereas, she has suffered through 4 harsh years in Siberia and upon her release was displaced 3,000 kilometers from the home she purchased in Moscow; and

"Whereas, she has, recently become seriously ill, suffering from stomach and heart ailments, and has repeatedly been denied medical treatment by the Soviet Union; and

"Whereas, she has only 1 living relative, a sister who emigrated to Israel in 1972, and she would like to spend the remainder of her life with her sister: Therefore be it

"Resolved, That the Massachusetts House of Representatives urges the Government of the Union of Soviet Socialist Republics to allow Ida Nudel and other Jewish refuseniks to emigrate to Israel; and be it further

"Resolved, That copies of these resolutions be forwarded by the clerk of the House of Representatives to the President, Vice President, Secretary of State, the Speaker of the House of Representatives, to each Senator and Representative from the Commonwealth of Massachusetts in the Congress of the United States, to the Ambassador to the United States from the Union of Soviet Socialist Republics, and to the General Counsel of the Union of Soviet Socialist Republics headquartered in San Francisco, CA."

POM-501. A joint resolution adopted by the Legislature of the State of California; to the Committee on Foreign Relations.

"ASSEMBLY JOINT RESOLUTION No. 46

"Whereas, It has come to the attention of the Legislature of the State of California that the Union of Soviet Socialist Republics has denied permission to emigrate to Leonid Bialy and Judit Ratner, Benjamin Bogomolny, Dr. Victor Brailovsky, Ilya Essas, Grigory and Isai Goldshtein, Dr. Aleksandr and Rosa Ioffe, Gennady and Natalia Khassin, Yuli Kosharovsky, Prof. Alexander Lerner, Arkady and Helena Mai, Gregory and Natalia Rozenshtein, Elizaveta and Lev Shapiro, and Alexsandr Yampolsky, who are all Jewish citizens of the Soviet Union; and

"Whereas, Leonid Bialy and Judit Ratner and their two sons applied for an exit visa in 1977, but they were denied permission to emigrate because they allegedly possessed "secrets"; Judit has never had access to classified information, and Leonid, an electronics engineer, has had no such access for more than seven years; and

"Whereas, Benjamin Bogomolny originally applied for permission to emigrate to Israel in 1966, and he has been waiting for that permission ever since; and

"Whereas, Dr. Victor Brailovsky applied for permission to emigrate in 1973 and has been under constant KGB surveillance since then; in 1980, he was arrested, charged with 'anti-Soviet agitation', and subsequently served seven months in prison and over three years in internal exile; and

"Whereas, Ilya Essas is the son of a couple who waited 20 years to receive permission to emigrate, and he has waited 11 years for permission to join his parents in Israel; when he attempted to organize an event commemorating the Holocaust, he was threatened with arrest and the irrevocable rejection of his emigration application, and the event was canceled; and

"Whereas, Although little is known about Semyon Frumkin, recent documents from the Soviet Union indicate that he is one of the leaders of the Jewish emigration movement; and

"Whereas, Grigory and Isia Goldshtein, who are brothers, applied for permission to emigrate in 1971; their request was denied because of their alleged knowledge of 'technical secrets' owing to their employment as physicists at a meteorological institute, but they subsequently lost their jobs and were declared 'parasites'; and

"Whereas, Dr. Aleksandr Ioffe is a prominent mathematician who decided to apply for permission to emigrate in 1967 and voluntarily resigned his job at that time to avoid exposure to classified information; nevertheless, the application of Dr. Ioffe and his family was denied on the grounds of 'secrecy', he was further demoted, and the family was told that their case would not be reconsidered until their son reached draft age; and

"Whereas, The applications of Gennady and Natalia Khassin for exit visas have been denied on the pretext that Gennady, a methematician and physicist, and Natalia, a computer programmer, have been privy to 'secrets'—despite the fact that, for several years, neither of them has held a position which would expose them to sensitive material; and

"Whereas, The Khassins have been harassed and threatened by agents of the Soviet government because of their desire to study and teach Hebrew, their applications for permission to leave the Soviet Union, and their attempts to bring their plight to the attention of the responsible authorities and other Soviet citizens; and

"Whereas, Yuli Kosharovsky applied for permission to emigrate in 1971, subsequently lost his job as an electrical engineer, and he has been forced to turn to odd jobs to support his family; his phone has been disconnected, his apartment repeatedly searched, and he has been imprisoned for 15-day periods on trumped-up charges; and

"Whereas, Since 1971, Professor Alexander Lerner and his son have been waiting to emigrate to Israel to join his daughter; Professor Lerner's wife died in 1981 after 10 years of waiting for an exit visa; and

"Whereas, Arkady Mai is an invalid World War II veteran who is in failing health, and he and his family have been repeatedly refused permission to emigrate since 1974; until recently, the Mais had conducted seminars on Jewish culture and history, but Soviet authorities ordered an end to the seminars and even stationed a police officer outside the Mais' home in order to turn away any visitors; and

"Whereas, Ida Nudel is known as the 'Guardian Angel' for her role in supplying political prisoners with warm clothing and other essential goods, and she was recently released after serving a three-year sentence for 'malicious hooliganism'; and

"Whereas, Colonel Lev Ovsicher, a decorated World War II veteran and hero of the battle of Stalingrad, was deprived of his colonel's pension after applying for emigration to Israel and now receives a private's pension; and

"Whereas, Gregory and Natalia Rozenshtein first applied for permission to leave the Soviet Union in 1973; the Rozenshteins, who attempt to maintain an Orthodox household, have been harassed, interrogated, and arrested; and

"Whereas, Lev and Elizaveta Shapiro applied for an exit visa in 1977 and were turned down on grounds of 'secrecy' even though Lev, an electronic engineer, has never worked with any classified material; and

"Whereas, Vladimir Slepak, one of the most prominent leaders in the Jewish emigration movement, was recently released from a labor camp; and

"Whereas, Aleksandr Yampolsky applied for permission to emigrate in 1973; and although he is trained as an electronics engineer, he now works as a janitor to avoid a "parasite" charge; and

"Whereas, The right to travel freely is a fundamental human right, and these Soviet citizens are entitled to fair consideration of their visa applications and freedom from harassment and threats for seeking to exercise that right; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California urges the government of the Union of Soviet Socialist Republics to allow Leonid Bialy and Judit Ratner, Benjamin Bogomolny, Dr. Victor Brailovsky, Ilya Essas, Semyon Frumkin, Grigory and Isai Goldshtein, Dr. Aleksandr and Rosa Ioffe, Gennady and Natalia Khassin, Yuli Kosharovsky, Prof. Alexander Lerner, Arkady and Helena Mai, Ida Nudel, Lev Ovsicher, Gregory and Natalia Rozenshtein, Elizaveta and Lev Shapiro, Vladimir Slepak, and Aleksandr Yampolsky to emigrate to Israel; and be it further

"Resolved, That the Legislature urges the President of the United States and other federal officials to use all appropriate diplomatic channels to attempt to persuade Soviet authorities to allow the emigration of the Soviet citizens named herein; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President, Vice President, and Secretary of State of the United States, the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Ambassador to the United States from the Union of Soviet Socialist Republics, and to the Consul General of the Union of Soviet Socialist Republics headquartered in San Francisco."

POM-502. A joint resolution adopted by the Legislature of the State of California; to the Committee on Foreign Relations.

"ASSEMBLY JOINT RESOLUTION No. 32

"Whereas, The right to free speech and the right to organize are cherished principles of democracy; and

"Whereas, Under the system of apartheid, the basic rights to every human being that democracy proclaims are suppressed with brute force and racist conviction; and

"Whereas, Political leaders demanding justice and freedom from apartheid have been banned, imprisoned, or in the case of Steven Biko, killed; and

"Whereas, Since 1962, Nelson Mandela has been imprisoned, spending over 20 years in the notorious Robben Island Prison, allowed only a half an hour visit each month, through a Perspex screen with his wife Winnie Mandela; and

"Whereas, Over half a million signatures from 35 countries were presented to the United Nations Secretary-General calling for the immediate and unconditional release of Nelson Mandela; and

"Whereas, Despite the brutal hostility of his imprisonment, Nelson Mandela has maintained a spirit of dignity and humanity, issuing a statement of purpose which reads 'During my lifetime I have dedicated myself to the struggle of the African people. I have fought against white domination, and I have fought against Black domination. I have cherished the ideal of a democratic and free society in which all persons live together in harmony and with equal opportunities. It is an ideal which I hope to live for and achieve. But if need be, it is an ideal for which I am prepared to die.'; and

"Whereas, No real and meaningful political solution can occur without the participation of black political leadership as embodied by Nelson Mandela; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to call for the immediate and unconditional release of Nelson Mandela and all other political prisoners in the Republic of South Africa and full amnesty for all South African political exiles; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-503. A joint resolution adopted by the Legislature of the State of California; to the Committee on Governmental Affairs.

"Whereas, Large numbers of registered Californians are highly mobile and are changing residence frequently; and

"Whereas, These changes in residency require some affirmative act by the voter or election official to continue the voter registration of registered voters at the new address; and

"Whereas, Voters, who have recently moved attach a low priority to reregistering to vote; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memoralizes the Congress of the United States to enact legislation requiring the United States Postal Service to transmit a copy of a change of address order to elections officials in order to continue a voter's registration at his or her new residence; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the

United States, and to the Postmaster General."

POM-504. A resolution adopted by the General Court of the Commonwealth of Massachusetts; to the Committee on Labor and Human Resources.

"RESOLUTIONS MEMORIALIZING THE CONGRESS TO ENACT LEGISLATION TO PERMIT THE RESPECTIVE STATES TO REGULATE EMPLOYEE BENEFIT PLANS

"Whereas, The Commonwealth of Massachusetts has acted to promote the health and welfare of the people of the State by providing strong insurance equality laws; and

"Whereas, The State has passed into law freedom-of-choice statutes enabling our citizens to have the opportunity to select the health care provider of their choice; and

"Whereas, The health and welfare of our citizens are being jeopardized by the Federal Employee Retirement Income Security Act [ERISA] by preempting these aforementioned State statutes thus allowing no protection to our citizens: Now therefore be it

"*Resolved*, That the Massachusetts General Court hereby request the Congress to enact legislation amending the Employees Retirement Income Security Act [ERISA] to permit the respective States to regulate employee health benefit plans in order to assure that beneficiaries of such plans have the right to receive health care from the providers of their choice pursuant to State law, to prevent plans from discriminating against legally qualified health care providers and to assure the solvency of such plans; and be it further

"*Resolved*, That copies of these resolutions be transmitted forthwith sent by the clerk of the house of representatives to the President of the United States, the Presiding Officer of each branch of Congress and to the Members thereof from this Commonwealth."

POM-505. A resolution adopted by the Montague County Commissioner's Court of Montague Texas relating to the Federal wage and hour law; to the Committee on Labor and Human Resources.

POM-506. A resolution adopted by the Council of the City of Eureka, California urging Congress to retain the deductibility of State and local taxes in any revision of Federal income tax law which is enacted; to the Committee on Finance.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. THURMOND, from the committee on the Judiciary, with an amendment:

S.J. Res. 2: Joint resolution proposing an amendment to the Constitution of the United States relating to voluntary silent prayer or reflection (with additional and minority views) (Rept. No. 99-165).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. HATCH, from the Committee on Labor and Human Resources:

C. Everett Koop, of Pennsylvania, to be Surgeon General of the Public Health Service for a term of 4 years.

(The above nomination was reported from the Committee on Labor and Human Resources with the recommendation that it be confirmed, subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. HART (for himself, Mr. NUNN, and Mr. INOUYE):

S. 1797. A bill to call for a multilateral conference, under the auspices of the International Monetary Fund, to seek a new international monetary regime within a flexible exchange rate structure; to assist the development of the private sectors of Less Developed Countries and increase demand for United States exports; to strengthen the General Agreement on Tariffs and Trade and reform United States trade laws; to assist American industries in improving their competitive posture in international markets; and to provide transition assistance to workers and firms in response to changing global economic conditions; to the Committee on Finance.

By Mr. BRADLEY (for himself, Mr. ROTH, Mr. DODD, and Mr. WEICKER):

S. 1798. A bill to grant the consent of the Senate to the Northeast Interstate Low-Level Radioactive Waste Management Compact; to the Committee on the Judiciary.

By Mr. DANFORTH (for himself and Mr. BENTSEN):

S. 1799. A bill to amend the Internal Revenue Code of 1954 to exclude from inclusion in personal holding company income computer software royalties received by businesses actively engaged in developing, manufacturing, and producing computer software, and for other purposes; to the Committee on Finance.

By Mr. MATHIAS:

S. 1800. A bill to amend title 5, United States Code, to provide Civil Service retirement credit for certain employees and former employees of nonappropriated fund instrumentalities under the jurisdiction of the Armed Forces, and for other purposes; to the Committee on Governmental Affairs.

By Mr. EAST (for himself, Mr. HELMS, Mr. THURMOND, Mr. HOLLINGS, Mr. HEFLIN, Mr. TRIBLE, Mr. COCHRAN, Mr. PRYOR, Mr. BUMPERS, Mr. WARNER, Mr. SASSER, and Mr. DENTON):

S. 1801. A bill to amend the Trade Act of 1974 to promote expansion of international trade in furniture with Canada, and for other purposes; to the Committee on Finance.

By Mr. BENTSEN:

S. 1802. A bill to establish an acreage base and program yield system for wheat, feed grain, upland cotton, and rice programs; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. PACKWOOD:

S. 1803. A bill to designate certain lands in and near the Hells Canyon National Recreation Area as additions to the Hells Canyon Wilderness, Oregon, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. HATCH (for himself, Mr. ABDNOR, and Mr. INOUYE):

S. 1804. A bill to provide for Federal incentive grants to encourage State health care professional liability reform; to the Committee on Labor and Human Resources.

By Mr. TRIBLE:

S. 1805. A bill to amend title 5, United States Code, to increase the opportunity to provide a survivor annuity under subchapter III of chapter 83 of such title; and to improve retirement counseling for Federal Government employees; to the Committee on Governmental Affairs.

By Mr. BOREN (for himself, Mr. GOLDWATER, Mr. HART, Mr. LEVIN, Mrs. KASSEBAUM, and Mr. RUDMAN):

S. 1806. A bill to amend the Federal Election Campaign Act of 1971 to change certain contribution limits for congressional elections and to amend the Communications Act of 1934 regarding the broadcasting of certain material regarding candidates for Federal elective office, and for other purposes; to the Committee on Rules and Administration.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HART (for himself, Mr. NUNN, and Mr. INOUYE):

S. 1797. A bill to call for a multilateral conference, under the auspices of the International Monetary Fund, to seek a new international monetary regime within a flexible exchange rate structure; to assist the development of the private sectors of less developed countries and increase demand for U.S. exports; to strengthen the General Agreement on Tariffs and Trade and reform U.S. trade laws; to assist American industries in improving their competitive posture in international markets; and to provide transition assistance to workers and firms in response to changing global economic conditions; to the Committee on Finance.

COMPETITIVE AMERICA TRADE REFORM ACT

● Mr. HART. Mr. President, a few weeks ago, I described the outlines of a bill to attack the causes of America's trade crisis and build America's competitiveness in world markets. Today I am introducing that legislation: The Competitive America Trade Reform Act of 1985.

When I first described the outlines of this legislation in September, the debate over trade was polarized between two old and discredited positions.

On one side was the laissez-faire dogmatism of the administration and its consistent refusal to remedy our record trade deficits or assist America's millions of trade-displaced workers.

On the other side were well-meaning legislators from both parties who recognized the need for action, but recommended protectionist quotas, tariffs, and import barriers that would renew inflation, reduce our prosperity, and invite foreign retaliation, while

doing nothing about the root causes of the trade crisis.

Both of these old approaches to trade were irrelevant to the current crisis back in September, and they remain irrelevant now. Any successful attack against the trade deficit must include reduction of our overvalued dollar, modernization of American industries, broader and stronger international trade rules, a strategy to boost demand for American products in developing nations, and programs to help American workers adjust to changes in the global economy.

A month later, much has happened but little has changed.

The administration has finally adopted a trade policy—but it is a policy of minimalism. It has decided to take the least action possible to deflect substantive criticism and regain political support.

Their minimalist policy has three pieces. The administration launched a 1-day effort at intervention in world currency markets. The President announced he would invoke his existing authority in four trade cases. And the Treasury Secretary proposed $20 billion in new private lending to nations whose foreign debt burden has prevented them from consuming American goods.

All these are welcome steps. But taken together they constitute an insufficient response to a crisis of historic proportion. The administration has failed to unveil any comprehensive strategy that would offer real hope of lasting trade competitiveness for our Nation.

Many protectionists have also tried to alter their tone without changing their tune. Some have privately admitted that massive import tariffs might send good signals at the cost of bad policy. Others have acknowledged that unfair foreign practices are only one trade obstacle among many—they have recognized that protectionism will not reduce the value of our dollar, regain our lost markets, or modernize our aging factories.

In short, the need for a comprehensive, constructive, future-oriented trade bill remains as acute as when I first outlined this legislation several weeks ago. I am now introducing my legislation with the hope that it will offer a third alternative to those who would do nothing or those who would settle for anything.

What is most important is that we directly address the true causes of our trade crisis in a constructive manner. What is less important is that we adopt the language of any one bill. I offer this legislation hoping that my colleagues will contribute suggestions, improvements, and, yes, even amendments to make the approach I've recommended more effective and more viable.

Mr. President, it has never been in the American character to hide from the challenges of our future. That is why neither the administration's economic indifference nor the protectionists' economic isolationism will suffice. I invite my colleagues to join in designing a better approach—a trade policy that will reduce our trade deficit and boost American competitiveness for decades to come.●

By Mr. BRADLEY (for himself, Mr. ROTH, Mr. BIDEN, Mr. DODD, and Mr. WEICKER):

S. 1798. A bill to grant the consent of the Senate of the Northeast Interstate Low-Level Radioactive Waste Management Compact; to the Committee on the Judiciary.

CONSENT OF THE SENATE TO THE NORTHEAST INTERSTATE LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT COMPACT

Mr. BRADLEY. Mr. President, it is with great pleasure that I send the following bill to the desk on behalf of myself and the distinguished Senators from Delaware and Connecticut. The purpose of the legislation is to allow the formation of a Northeast Interstate Low-Level Radioactive Waste Management Compact.

Mr. President, South Carolina, Washington, and Nevada contain the only active disposal sites for civilian low-level radioactive wastes. The wastes include rags, paper, protective clothing, and other trash from industry; radiopharmaceuticals and lab equipment from hospitals; and used filters and reactor parts with relatively low levels of radioactivity. These operations mostly escaped public attention until 1979, when the Governors of Washington and Nevada temporarily shut down the sites in their States. About the same time, the Barnwell, SC, disposal area began to limit the amount and type of waste it would accept. Hospitals, medical research facilities, universities, and industries were severely affected by the shutdowns. These institutions have the physical ability and legal authority to store only small amounts of radioactive waste and would have to halt all work in nuclear medicine and nuclear related research and industry. The crisis eased when the Western States were persuaded to reopen their disposal sites. But those States have served notice that they will not continue to be the country's dumping grounds indefinitely.

In response Congress passed the Low-Level Radioactive Waste Policy Act of 1980. This legislation made each State responsible for providing for the disposal of low-level waste generated within its borders. The act was designed to encourage States to form regional compacts that would cooperatively plan and operate low-level waste disposal sites, thereby more equitably allocating the economic and political costs now borne alone by the States of Nevada, Washington, and South Carolina.

Mr. President, the Northeast compact legislation I am introducing today establishes an organization and describes procedures under which New Jersey, Connecticut, Maryland, and Delaware can develop new disposal capacity for low-level radioactive waste generated within the region. The compact has been ratified in identical form by the four State legislatures. It is crucial that we begin to work together to solve our low-level radioactive waste problem. Passage of the Northeast compact is an important first step in establishing a cooperative regional low-level waste disposal site. It is imperative that we act quickly so that the low-level waste can be safely disposed of in the future thereby assuming the health and safety of the citizens of our States.

Mr. WEICKER. Mr. President, I am pleased to cosponsor the Northeast Interstate Low-Level Radioactive Waste Management Compact bill. The need to adequately dispose of low-level radioactive wastes is apparent and the compact being introduced today is a significant step toward addressing this issue.

The legislatures of Connecticut, New Jersey, Maryland, and Delaware have ratified the compact and now congressional action is needed to allow these States to meet the goals set out in the Low-Level Radioactive Waste Policy Act of 1980. Presently, only three States, South Carolina, Nevada, and Washington host active waste sites. These States have put the Nation on notice that the costs of dealing with these wastes must be shared throughout the country. The member States of this compact have demonstrated their willingness to face the issue and I am committed along with Senators BRADLEY, DODD, BIDEN, ROTH, and MOYNIHAN to aid these States and the entire Nation in resolving the waste disposal problem.

By Mr. DANFORTH (for himself and Mr. BENTSEN):

S. 1799. A bill to amend the Internal Revenue Code of 1954 to exclude from inclusion in personal holding company income computer software royalties received by businesses actively engaged in developing, manufacturing, and producing computer software, and for other purposes; to the Committee on Finance.

COMPUTER SOFTWARE ROYALTIES

● Mr. DANFORTH. Mr. President, I am pleased to join with Senator BENTSEN in introducing a bill to modify the personal holding company provisions of the Internal Revenue Code. The bill would rectify the unintended application of the personal holding company tax to corporations actively engaged in

the production, manufacture, or development of computer software.

The Internal Revenue Code imposes a 50-percent excise tax on the personal holding company income of every personal holding company. For these purposes, a corporation is a personal holding company if 50 percent of its stock is owned by five or fewer persons and at least 60 percent of its income is personal holding company income. Generally speaking, personal holding company income is passive income such as dividends, interest, royalties, annuities, and rents.

The personal holding company provisions of the code were enacted during a time when the maximum tax rate on individuals was substantially greater than the maximum tax rate on corporations. These provisions were designed to discourage taxpayers from transferring passive investments to controlled corporations in order to reduce their Federal taxes on the income generated by such investments. The personal holding company rules are specifically not intended to apply to corporations which earn a substantial portion of their gross income from the conduct of a trade or b· iness.

Under certain circumstances, however, the personal holding company tax might be imposed on corporations actively carrying on the trade or business of developing, manufacturing, or producing computer software. The reason for this is quite simple. The computer software industry does not sell its products; instead, it transfers computer software by means of licenses which allow purchasers to use, but not own, the software. The Internal Revenue Service has taken the position that the income generated from licensing computer software constitutes royalty income. As a result, if 50 percent of the stock of a computer software company is owned by five or fewer individuals, the computer software company may be considered a personal holding company and subject to a 50-percent excise tax in addition to the regular corporate income tax it must pay.

Computer software companies actively developing, producing, and manufacturing computer software should not be subject to the personal holding company tax merely because the income earned from transferring use of computer software is characterized as royalty income. Our bill solves this problem by providing that royalty income earned by a company from licensing computer software that is developed, manufactured, produced or, in limited circumstances, distributed by the corporation shall not be treated as personal holding company income.

I believe the proposed legislation is appropriate relief to a pressing problem currently faced by many closely held computer software companies. Our bill creates an exception to the definition of personal holding company income which follows the pattern and approach of several other exceptions already in the Internal Revenue Code. This approach is fair and reasonable, and I hope that the bill will prove to be noncontroversial.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1799

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. COMPUTER SOFTWARE ROYALTIES DERIVED BY ACTIVE BUSINESSES EXCLUDED FROM PERSONAL HOLDING COMPANY INCOME.

(a) IN GENERAL.—Paragraph (1) of section 543(a) of the Internal Revenue Code of 1954 (defining personal holding company income) is amended—

(1) by striking out "and" at the end of subparagraph (A),

(2) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof ", and", and

(3) by adding at the end thereof the following new subparagraph:

"(C) active business computer software royalties (within the meaning of subsection (d)).".

(b) ACTIVE BUSINESS COMPUTER SOFTWARE ROYALTIES DEFINED.—Section 543 of the Internal Revenue Code of 1954 is amended by adding at the end thereof the following new subsection:

"(d) ACTIVE BUSINESS COMPUTER SOFTWARE ROYALTIES.—

"(1) IN GENERAL.—For purposes of this section, the term 'active business computer software royalties' means any royalties—

"(A) received by any corporation during the taxable year in connection with the licensing of computer software, and

"(B) with respect to which the requirements of paragraphs (2), (3), and (4) are met.

"(2) ROYALTIES MUST BE RECEIVED BY CORPORATION ACTIVELY ENGAGED IN COMPUTER SOFTWARE BUSINESS.—The requirements of this paragraph are met if the royalties described in paragraph (1)—

"(A) are received by a corporation engaged in the active conduct of the trade or business of developing, manufacturing, or producing computer software, and

"(B) are attributable to computer software which—

"(i) is developed, manufactured, or produced by such corporation (or its predecessor) in connection with the trade or business described in subparagraph (A), or

"(ii) is directly related to such trade or business.

"(3) DEDUCTIONS UNDER SECTIONS 162 AND 174 RELATING TO ROYALTIES MUST EQUAL OR EXCEED 25 PERCENT OF ORDINARY GROSS INCOME.—

"(A) IN GENERAL.—The requirements of this paragraph are met if—

"(i) the sum of the deductions allowable to the corporation under sections 162 and 174 for the taxable year which are properly allocable to the trade or business described in paragraph (2) equals or exceeds 25 percent of the ordinary gross income of such corporation for such taxable year, or

"(ii) the average of such deductions for the 5-taxable year period ending with such taxable year equals or exceeds 25 percent of the average ordinary gross income of such corporation for such period.

If a corporation has not been in existence during the 5-taxable year period described in clause (ii), then the period of existence of such corporation shall be substituted for such 5-taxable year period.

"(B) DEDUCTION ALLOWABLE UNDER SECTION 162.—For purposes of subparagraph (A)—

"(i) IN GENERAL.—Except as provided in clause (ii), a deduction shall not be treated as allowable under section 162 if it is specifically allowable under another section.

"(ii) SPECIAL RULE FOR START-UP EXPENDITURES.—Clause (i) shall not apply to any deduction which would be allowable under section 162 if section 195 were not applicable, and such deduction shall be treated as allowable under section 162.

"(C) LIMITATION ON ALLOWABLE DEDUCTIONS.—For purposes of subparagraph (A), no deduction shall be taken into account with respect to compensation for personal services rendered by the fewest number of individual shareholders among those described in section 542(a)(2) whose combined ownership interest exceeds 50 percent in value of the outstanding stock of the corporation. For purposes of the preceding sentence, stock deemed to be owned by a shareholder solely by attribution from a partner under section 544(a)(2) shall be disregarded.

"(4) DIVIDENDS MUST EQUAL OR EXCEED EXCESS OF PERSONAL HOLDING COMPANY INCOME OVER 10 PERCENT OF ORDINARY GROSS INCOME.—

"(A) IN GENERAL.—The requirements of this paragraph are met if the sum of—

"(i) the dividends paid during the taxable year (determined under section 562),

"(ii) the dividends considered as paid on the last day of the taxable year under section 563(c) (as limited by the second sentence of section 563(b)), and

"(iii) the consent dividends for the taxable year (determined under section 565),

equals or exceeds the amount, if any, by which the personal holding company income for the taxable year exceeds 10 percent of the ordinary gross income of such corporation for such taxable year.

"(B) COMPUTATION OF PERSONAL HOLDING COMPANY INCOME.—For purposes of this paragraph, personal holding company income shall be computed—

"(i) without regard to amounts described in subsection (a)(1)(C),

"(ii) without regard to interest income during any taxable year in which such corporation is subject to the provisions of section 195 and otherwise meets the requirements of paragraphs (2) and (3),

"(iii) without regard to dividends from any corporation in which the taxpayer owns at least 50 percent of all classes of stock entitled to vote and at least 50 percent of the total value of all classes of stock and which meets the requirements of paragraphs (2) and (3), and

"(iv) by including adjusted income from rents and adjusted income from mineral, oil, and gas royalties (within the meaning of paragraphs (2) and (3) of subsection (a)).

"(5) SPECIAL RULES FOR AFFILIATED GROUP MEMBERS.—

"(A) IN GENERAL.—In any case in which—

"(i) the taxpayer receives royalties in connection with the licensing of computer software, and

"(ii) another corporation which is a member of the same affiliated group as the taxpayer meets the requirements of paragraphs (2) and (3) with respect to such computer software, the taxpayer shall be treated as having met such requirements.

"(B) AFFILIATED GROUP.—For purposes of this paragraph, the term 'affiliated group' has the meaning given such term by section 1504(a) without regard to section 1504(b)(3).".

(c) FOREIGN PERSONAL HOLDING COMPANY INCOME.—Paragraph (1) of section 553(a) of the Internal Revenue Code of 1954 (defining foreign personal holding company income) is amended by inserting "(other than active business computer software royalties as defined in section 543(d))," after "royalties".

(d) CONFORMING AMENDMENTS.—

(1) Section 543(a)(4) of the Internal Revenue Code of 1954 (relating to copyright royalties) is amended by adding at the end thereof the following new sentence: "This paragraph shall not apply to active business computer software royalties.".

(2) Section 543(b)(3) of such Code (relating to adjusted income from rents) is amended—

(A) by striking out "or" at the end of subparagraph (C),

(B) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof ", or", and

(C) by adding at the end thereof the following new subparagraph:

(E) active business computer software royalties (as defined in subsection (d)).".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to royalties received in taxable years ending after the date of enactment of this Act.●

● Mr. BENTSEN. Mr. President, I am pleased to join with my distinguished Finance Committee colleague from Missouri in introducing this bill. A similar bill has been introduced in the House by Representatives STARK and GREGG. Our bill seeks to correct an unintended problem caused by the personal holding company provisions of the Internal Revenue Code.

The personal holding company provisions were enacted to prevent individuals from forming "incorporated pocketbooks." An incorporated pocketbook refers to a corporation organized by an individual to hold passive investments and to earn passive investment income. Such an arrangement is attractive to investors because the corporate income tax rates are lower than the individual tax rates (and, prior to 1981, were substantially lower). The personal holding company provisions are designed to preclude these arrangements. The provisions impose a penalty tax on passive investment income earned by a closely held corporation, unless the income is distributed to the shareholders.

Although the personal holding company provisions serve a worthwhile purpose, Mr. President, it has come to our attention that they can have unintended adverse effects on certain businesses—specifically, computer software companies. The problem arises when a software company develops software and sells it to a customer. Although such a transaction resembles an ordinary sale in most respects, The Internal Revenue Service takes the position that, technically, the transaction is a license and the price paid is a royalty. This means that the revenues received by a software company may be considered passive investment income and may be subject to the personal holding company tax. That is clearly a result nobody intended.

The purpose of the bill we introduce today is merely to correct this result. The bill provides that if a company is actively engaged in the business of developing software, the personal holding company tax will not apply to the income derived from the software. This merely puts software businesses on the same footing as all other businesses. The bill is narrowly drawn; it would not apply to a company that merely was in the business of buying software produced by other companies and licensing that software to customers; such a company could be a true incorporated pocketbook.

Mr. President, I believe this bill is a fair solution to the problem, and I think the bill should be noncontroversial. I join with Senator DANFORTH in urging the Senate to enact the bill promptly.●

By Mr. MATHIAS:

S. 1800. A bill to amend title 5, United States Code, to provide Civil Service retirement credit for certain employees and former employees of nonappropriated fund instrumentalities under the jurisdiction of the Armed Forces, and for other purposes; to the Committee on Government Affairs.

NONAPPROPRIATED FUND INSTRUMENTALITIES CIVIL SERVICE RETIREMENT CREDIT ACT OF 1985

● Mr. MATHIAS. Mr. President, 2 years ago I introduced a bill designed to help a hardworking group of men and women who have, in effect, been deceived by their Government. Today, I reintroduce this legislation to push for a solution to the problem these men and women are facing.

In the decade following World War II, a dedicated group of young Americans made a commitment to helping their nation by joining the special services branch of the Armed Forces. They were a team of Government employees working to "enhance the morale, welfare and recreation of active and retired military and Coast Guard personnel and their dependents." These people, primarily women, took advantage of a rewarding, long-term career opportunity, maintaining libraries, recreation centers and sports programs which improved the quality of life of U.S. forces at home and overseas.

The literature which encouraged these workers to consider special services positions advised them to submit Federal employment forms to the U.S. Civil Service Commission, and led them to believe that they were joining the civil service. And, as members of the civil service, they had no reason to think that they would not be entitled to the benefits enjoyed by other Federal workers.

However, in 1952, the Congress enacted a law which exempted special services employees from civil service laws, including retirement, disability and death compensation provisions. This change came in response to a Department of defense request to exempt from the civil service short-term employees involved in commercial work and paid by nonappropriated funds. The exemption that was enacted included all positions "conducted for the comfort, pleasure, contentment, and mental and physical improvement of personnel of the Armed Forces."

It is clear from the legislative history of the 1952 statute that it was designed to cover short-term employees who were involved in commercial work. Presumably, these commercial operations would have been hindered by the employees' inclusion under civil service laws, counteracting the inherently short term and uncomplicated nature of the work.

One side effect of the statute, however, was the exclusion from civil service of the long-term career employees of the special services. In retrospect, it is easy to see how this inadvertent exclusion was made. First, there was little job distinction between the long- and short-term workers. In addition, special services employees were paid either with appropriated funds or, like their short-term counterparts, with nonappropriated funds. The source of their pay depended entirely on the source of money available at any particular time.

As a consequence, special services employees who are now close to retiring from the Federal Government have found that they are unable to credit those years with special services toward their civil service retirement. The bill I introduce today will allow them to try to qualify for this credit. Briefly, Federal employees or retirees who believe themselves eligible for the retirement credit will be able to apply to the Secretary of their military department (or his designee). The Secretary/designee is authorized to establish guidelines for the submission of information to prove eligibility, and once the Secretary/designee determines that an applicant is eligible, the Office of Personnel Management will accept this certification as valid. All eligible applicants will be required to make a redeposit plus interest to the civil service retirement and disability fund for their uncredited time. In addition, the nonappropriated fund instrumentality [NAFI] by which the

applicant was employed will be required to make a matching deposit.

I have tried to balance the natural concerns of OPM about the integrity of the civil service retirement fund by requiring redeposits not only from eligible applicants, but also from their employing agency. As for NAFI's, the bill gives them considerable control over the application process so that they will be able to weed out unwarranted or fraudulent claims. My bill represents a fair solution to the problem, and I urge my colleagues to join me in my efforts to correct it.

Mr. President, I ask unanimous consent that the text of my bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1800

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Nonappropriated Fund Instrumentalities Employees' Civil Service Retirement Credit Act of 1985".

SEC. 2. (a) Section 2105(c)(1) of title 5, United States Code, is amended by inserting ", subchapter III of chapter 83 to the extent provided in section 8332(b)(15)," after "chapter 53".

(b) Section 8332(b) of such title is amended—

(1) by striking out "and" at the end of paragraph (12);

(2) by striking out the period at the end of the first paragraph (13) and inserting in lieu thereof a semicolon;

(3) by redesignating the second paragraph (13) as paragraph (14) and striking out the period at the end of that paragraph and inserting in lieu thereof "; and";

(4) by adding after paragraph (14), as so redesignated, the following new paragraph:

"(15) service performed after June 18, 1952, as an employee described in section 2105(c) of this title if such service involved conducting an arts and crafts, drama, music, library, service club, youth activities, sports, or recreation program (including any outdoor recreation program) for personnel of the armed forces; but credit shall be allowed for such service only to the extent that such service is not taken into account in computing benefits under a retirement system for employees of the nonappropriated fund instrumentality.";

(5) by striking out "(13)" in the third sentence and inserting in lieu thereof "(14)"; and

(6) by adding at the end thereof the following: The Office of Personnel Management shall accept, for the purposes of this subchapter, the certification of the Secretary of a military department named in section 102 of this title or his designee concerning service of the type described in paragraph (15) of this subsection which was performed for a nonappropriated fund instrumentality under the jurisdiction of such Secretary. This certification may be based on evidence which is furnished by the person claiming credit for such service for the pruposes of this subchapter and is considered sufficient by such Secretary or designee.".

(c) Section 8334 of such title is amended by adding at the end thereof the following new subsection:

"(k) Each nonappropriated fund instrumentality of the United States referred to or described in section 2105(c) of this title that employed an individual who receives credit under this subchapter for service described in section 8332(b)(15) of this title shall pay to the Fund an amount equal to the amount that would have been deducted from the pay of the individual if such service had been covered under this subchapter when such service was performed, plus interest computed in the same manner as is prescribed in subsection (e) of this section. The nonappropriated fund instrumentality shall furnish the Office such information as the Office determines is necessary to administer this subsection and section 8332(b)(15) of this title, and shall make the payment required by the first sentence of this subsection upon receiving from the Office a notificator of the amount due. Such payment may not be considered a deposit by the individual under subsection (c) of this section for any purpose, including for the purpose of section 8339(i) of this title as in effect before, on, or after September 8, 1982.".

SEC. 3. (a) The amendments made by section 2 of this Act shall apply to—

(1) any individual who retires under subchapter III of chapter 83 of title 5, United States Code, on or after the date of enactment of this Act or who is entitled to a deferred annuity under such subchapter commencing on or after such date; and

(2) any individual who, on the date of enactment of this Act, is entitled to an annuity under subchapter III of chapter 83 of title 5, United States Code, and who, in accordance with regulations prescribed by the Office, applies with regulations prescribed by the Office, applies to the Office within two years after such date for a redetermination of the amount of his or her annuity on the basis of such amendments.

(b) A redetermination of the amount of an annuity under subsection (a)(2) upon receipt of an application as provided in such subsection shall take effect with respect to payments of such annuity made on or after the first day of the second month commencing after such application is received by the office.●

By Mr. EAST (for himself, Mr. HELMS, Mr. THURMOND, Mr. HOLLINGS, Mr. HEFLIN, Mr. TRIBLE, Mr. COCHRAN, Mr. PRYOR, Mr. BUMPERS, Mr. WARNER, Mr. SASSER, and Mr. DENTON):

S. 1801. A bill to amend the Trade Act of 1974 to promote expansion of international trade in furniture with Canada, and for other purposes; to the Committee on Finance.

FAIR FURNITURE ACT

● Mr. EAST. Mr. President, I am pleased to introduce today S. 1801, the Fair Furniture Trade Act of 1985. I am convinced that it will place furniture trade between the United States and Canada on a more equitable basis. Joining with me as cosponsors are my distinguished colleagues Senators HELMS, BUMPERS, PRYOR, THURMOND, HOLLINGS, TRIBLE, WARNER, COCHRAN, HEFLIN, SASSER, and DENTON.

The American furniture industry has faced unusually severe foreign competition in recent years. Imports of wood and upholstered furniture increased by 284 percent between 1979 and 1984, from a total of $312 million to $1.198 billion. Exports of the same items by the United States declined during that period from $312 to $210 million.

Perhaps the most significant factor contributing to our Nation's overall furniture trade deficit is a major tariff disparity between the United States and Canada involving similar furniture products. Nonmetal residential furniture exported by the United States to Canada, for example, faces a 16.3-percent Canadian duty. The same kind of furniture entering the United States from Canada, by comparison, is levied an American duty as low as 3.1 percent.

This large tariff disparity is a major trade barrier that operates effectively to keep American furniture products out of the Canadian market. It gives Canadian furniture manufacturers a decisive and unfair advantage over their American counterparts. This is clearly reflected in U.S. Department of Commerce statistics demonstrating a growth rate of 38 percent for Canadian manufacturers in the American furniture market from 1983 to 1984. In the same period, the level of American exports of furniture to Canada remained almost unchanged.

It should be noted at this point, Mr. President, that the Canadian furniture industry is substantially similar to our own. A comprehensive study issued by the U.S. International Trade Commission in 1984 documents strong similarities between the American and Canadian industries in overall structures and in the areas of capital investment, technological development, and worker compensation.

Let me emphasize that S. 1801 is not an anticompetitive measure. On the contrary, the Fair Furniture Trade Act promotes equitable competition between the Canadian and American furniture industries by moving to end the crippling tariff disparity that I have cited.

If enacted, S. 1801 would foster trade negotiations between Canada and the United States to end the furniture tariff disparity. In the event that an agreement ending the disparity were not reached within 2 years, S. 1801 would set American tariffs on Canadian furniture imports at a level equal to Canadian tariffs on American furniture exports.

Mr. President, as one who is concerned seriously about our Nation's trade deficit, I believe that it is time to act. S. 1801 would do that by allowing American furniture manufacturers to compete on a fair and equitable basis with their Canadian counterparts. I urge expeditious consideration and enactment of this measure by the Senate.●

● Mr. HELMS. Mr. President, I join my distinguished colleague from North Carolina in sponsoring the Fair Furniture Trade Act. The purpose of this legislation is to address a serious inequity that exists in furniture trade between the United States and Canada.

The problem is simple, Mr. President. Wood and upholstered furniture manufactured in the United States and shipped to Canada faces a 16.3-percent duty. In contrast, most Canadian furniture entering the United States faces duties of only 3.1 percent.

This unfair tariff differential contributed to a $250 million furniture trade deficit with Canada in 1984. Canadian furniture imports to the United States have increased 125 percent since 1980.

The overall furniture trade picture is not encouraging. According to the U.S. Department of Commerce, wood and upholstered furniture imports increased 284 percent between 1979 and 1984—from $312 million to $1.198 billion. This trend continues this year, as furniture imports are up 35 percent in the first half of 1985 over the same period in 1984. The rate of growth of wood furniture imports alone is approaching 42 percent.

The influx of imports is the result of many factors. To be sure, the strength of the dollar in international exchanges helps exacerbate the problem all U.S. products face in international competition. Furniture has special problems, however. For example, the United States grants duty-free or low-duty treatment to furniture imports from countries previously in a developing stage, but now with furniture manufacturing technology as advanced as any used in the United States.

United States furniture manufacturers also face inequitable tariff treatment. While this is acceptable from developing countries with infant industries to protect, it is not acceptable from major world economic powers.

The purpose of the legislation we are introducing today is to put furniture trade between the United States and Canada on a reciprocal basis in terms of tariffs. It authorizes negotiations between the United States and Canada seeking a fair trade agreement on furniture with reciprocal tariff rates. If such an agreement is not reached within 2 years of the date of enactment of this legislation, United States tariffs on Canadian furniture imports would be gradually increased until they become equal to the Canadian tariffs on United States furniture imported by Canada.

We do not seek necessarily to raise United States tariffs on Canadian furniture. I would hope that this legislation would produce lower Canadian tariffs on United States furniture. In any event, at no time would United States tariffs ever exceed Canadian tariffs. Anytime Canadian tariffs are reduced, ours would be reduced accordingly.

The purpose of this legislation is clear and simple, Mr. President: fair furniture trade between the United States and Canada. The negotiators will be given a chance to work out the differences, but failing that reciprocal tariffs would be implemented as a matter of law.●

● Mr. PRYOR. Mr. President, I am pleased to join my colleagues from North Carolina and other States in cosponsoring the Fair Furniture Trade Act.

This legislation seeks to remedy a tariff inequity that exists between the United States and Canada on furniture products. Currently, most United States furniture products shipped into Canada pay a 16.3 percent tariff, compared with United States tariffs on similar Canadian products at 3.1 percent. In fact, Canada's tariffs on furniture products are much higher than those of the European Economic Community, which typically fall in the 5.6 to 6.3 percent range. These high-tariff barriers have significantly inhibited United States trade to Canada in furniture products with Canada.

The Fair Furniture Trade Act would require the United States and Canadian Governments to negotiate a free trade agreement on furniture products, a step that the United States manufacturers have been urging for some time now. In previous years, however, the Canadians have refused to entertain such an agreement.

This legislation contains some incentives for the Canadians to come to the table for negotiations. If, over a 2-year period, no free trade agreement on furniture products were negotiated, United States tariffs on Canadian furniture would gradually—in a series of specific steps—increase until they were at the Canadian level.

At no time would they ever exceed the Canadian level, and if Canadian tariffs ever come down, ours would as well. The goal of this bill is free trade on furniture products with Canada, a step that would benefit manufacturers, retailers, and consumers across the country.

The U.S. furniture industry employs over 10,000 individuals in Arkansas directly in furniture manufacturing, not to mention others engaged in furniture supply, furniture retailing, and other related activities.

The Canadian Government has shown an encouraging willingness to negotiate away some of the existing trade barriers between our two countries. I hope that this legislation will convince the Canadians that we are serious about solving this problem, which is so critical for United States jobs.●

● Mr. BUMPERS. Mr. President, I am pleased to join a number of my colleagues in cosponsoring the Fair Furniture Trade Act of 1985. The furniture industry has historically been an important one in Arkansas, in several ways. First, furniture manufacturing plants in the State directly employ over 10,000 persons in the production of wood, metal, and upholstered furniture. Second, both in- and out-of-State furniture manufacturers utilize locally grown hardwood and softwood as raw materials for furniture products. Finally, the people of Arkansas (myself included) support a thriving wholesale and retail community through their purchases of furniture.

This legislation would remedy an increasingly significant problem the furniture industry has with Canada. As of January 1, 1985, nonmetal residential furniture shipped from the United States into Canada is levied a 16.3-percent duty. The bulk of Canadian furniture shipped into the United States is levied duties of 3.1 percent. Therefore, furniture imports are given a clear advantage over exports in the United States. In fact, according to Department of Commerce statistics, imports of furniture from Canada rose 125 percent between 1979 and 1984, while exports from the United States into Canada remained relatively static, rising only slightly in 1984.

In 1984, Canadian wood and upholstered household furniture exports into the United States totaled $343.8 million. This represents a growth of 38 percent from the previous year's total of $249 million. United States furniture exports into Canada totaled $93.4 million for 1984 as compared to $91.1 million in 1983.

These numbers reflect the extent to which the tariff inequity puts competition on a most unfair and uneven basis. Competition is an essential element of the furniture business. This industry is not, nor has it ever been, dominated by a few large companies. Instead it is an extraordinarily competitive industry comprised of 4,500 plants, the vast majority of which employ fewer than 100 workers. No individual company holds more than 4 percent of total sales, and profit margins are slim (since 1978, after-tax profits have averaged below 3 percent).

Last year the International Trade Commission completed a study, entitled, Competitive Assessment of the U.S. Wood and Upholstered Household Furniture Industry. This study offered a most comprehensive and well-documented overview of the industry's current domestic and international trade position.

The competitive assessment pointed out that the United States and Canada are major furniture trading partners. Unlike many other furniture exporting countries, Canada does offer a viable export market for United States

furniture. In fact, Canada is the leading exporter of furniture into the United States and the second highest importer of United States furniture.

Furthermore, the Canadian furniture industry is very similar to the United States industry in structure, wages, level of technology and access to capital. Much like the United States, worker health and safety and pollution control are deemed essential in Canada, and thus regulated by government. The ITC study of the furniture industry documented the similarities between the United States and Canadian industries in the description of "Major Foreign Competitors," (Competitive Assessment of the Wood and Upholstered Household Furniture Industry, U.S. International Trade Commission, publication 1543, pp. 21-11).

In view of these similarities between our countries and the extent of furniture trade between the United States and Canada I view the current duty differential as unnecessary and disruptive. Canadian furniture in many cases offers serious competition to United States manufactures. The same is true of United States furniture in Canada. But, given a sound basis for that competition, neither country's furniture industry should be threatened by a removal of all duties. Further, it is obvious that consumers in both countries would be well served by a reduction in duties and resulting reduction in furniture prices. This free trade initiative has the support of the furniture retailing community.

U.S. furniture manufactureres have enjoyed no special protection under current conditions. Canadian manufacturers, on the other hand, have been shielded from United States exports by a high duty rate as well as favorable exchange rates eliminating any price advantage of United States produced furniture. (Competitive Assessment, U.S. ITC, page 8.) Further, many Canadian manufacturers have the advantage of actually being closer to the major United States population centers than many major United States manufacturers. (Competitive Assessment, U.S. ITC, page 21.)

I believe the time has come to allow United States furniture manufacturers to compete with Canadian manufacturer on the same or similar basis as our domestic manufacturers compete with each other. This legislation would require the United States and Canada to negotiate a free-trade agreement on furniture products. Previous efforts at negotiation, however, have proven useless. This legislation contains a mechanism whose sole purpose is to force the Canadians to step forward and negotiate for free trade. If, over a 2-year period the United States and Canada were unable to achieve free trade on furniture products, United States tariffs on Canadian furniture products would be gradually increased until they were even with the Canadians.

Let me emphasize that point: This is not protectionist legislation. At no time would our tariffs ever exceed the Canadian tariff levels, and if they were to be reduced, so would ours. In short, we want free trade.●

● Mr. TRIBLE. Mr. President, on behalf of the 22,300 Virginians employed in furniture manufacturing, I am pleased to join Senator EAST as an original cosponsor of The Fair Furniture Trade Act of 1985.

Our domestic furniture industry considers Canada as a major, natural market for its products. But our furniture trade with Canada is seriously imbalanced, and the problem is getting worse. Last year we imported nearly one quarter of a billion dollars more furniture from Canada than we sold to Canada. Imports from Canada are rising rapidly; they have increased over 125 percent since 1980. As a result, jobs in the furniture industry are at risk.

A decisive factor contributing to this imbalance is the tariff inequity existing between the two countries. United States furniture shipped to Canada faces duties of 16.3 percent whereas imports from Canada face United States tariffs which are much lower—as low as 3.1 percent. This tariff disparity makes our furniture relatively more expensive in Canada, and hinders our exports.

The Fair Furniture Trade Act, will help spur U.S. exports of furniture and preserve U.S. jobs. Under the bill, the United States and Canada would have a period of time to negotiate the mutual elimination of furniture tariffs, that is, free trade in furniture. If negotiations fail, United States tariffs on Canadian furniture imports would be gradually raised to Canadian levels.

Mr. President, this bill goes in the right direction. It recognizes that the best way to reduce trade deficits is by the reduction of foreign import barriers. Lower foreign tariffs will permit an expansion of U.S. exports. The bill also creates a strong and credible incentive for the Canadian Government to reduce its import tariff on our furniture, because failure to do so would result in certain retaliation against their exports. Since they sell far more furniture to us than we currently sell to them, this is a credible threat and a strong negotiating incentive.

I urge my colleagues to support this important initiative.●

By Mr. BENTSEN:

S. 1802. A bill to establish an acreage base and program yield system for wheat, feed grain, upland cotton, and rice programs; to the Committee on Agriculture, Nutrition, and Forestry.

AGRICULTURE EFFICIENCY AND EQUITY ACT

● Mr. BENTSEN. Mr. President, I am today again introducing legislation to provide farmers with a dependable, rational system of determining their base acreages for participation in our farm programs. This legislation is identical to the language which was passed by the House as part of H.R. 2100, the 1985 farm bill. The House language was authored by my distinguished friend and fellow Texan, Congressman, CHARLES STENHOLM.

Congressman STENHOLM comes from a farm background also, and his firsthand knowledge of the day-to-day problems of farmers has made him a very effective spokesman for the farmers of Texas and the Nation. This legislation is the result of an extensive survey of problems that farmers have with our farm programs. In this survey, problems with bases and yields were common to almost all farmers. This legislation is the response to those complaints.

This bill will write into permanent law a standard method of determining base acreages and yields for wheat, feed grains, upland cotton, and rice. This would supplant the outdated provisions of the permanent law, but would not affect the price support programs of permanent law. If ever used, the price supports of permanent law then be applied to the current cropping patterns instead of to the cropping patterns that existed a decade or more ago.

Under our current system, farmers are continually but needlessly subjected to erratic changes in the method of determining bases and yields. This makes it impossible to plan with any certainty even 1 year ahead for a crop rotation, even though farmers need to be able to plan ahead for several years in many cases to develop the most efficient farm plan.

It will introduce badly needed equity, flexibility, and predictability into our farm programs. It will create a system of bases and yields that will be consistent for all program crops and will meet the needs of all production regions. It will allow farmers to change cropping patterns to meet conservation needs or follow market signals. And writing this system into permanent law will permit long-range planning and remove the uncertainties caused by the current system of making major changes every 4 years.

Under this bill, a crop acreage base would be established for each crop grown on the farm. This would be set by the county ASCS committee based on the farm's production history. The guidelines would be the same as the ones contained in S. 1714, the farm bill reported from the Senate Agriculture Committee, and in H.R. 2100, the farm bill passed by the House of Representatives.

This bill would also establish a farm acreage base for each farm. This farm acreage base would be the total of all

the crop acreage bases. However, the farm acreage base could not be larger than the total amount of arable land in the farm.

Flexibility is allowed by permitting the farmer to switch up to 10 percent of his total farm acreage base from one crop to another each year, and in 1986 up to 20 percent can be switched. The farmer can make this switch in his bases simply by notifying the county ASCS office no later than 60 days before the announcement deadline of the farm program for that commodity.

Farm program yields would be set by a 5-year moving average of actual yields. Needed protection against catastrophic failures, such as drought or floods, would be provided by limiting cuts in the farm program yield to no more than 10-percent per year.

All programs to reduce production must start from an established base of some kind. Almost all farmers have had problems at one time or another with the Government in determining their crop base. A major part of the problem is that the method of computation of this base can and does change with each farm bill and even with individual years' farm programs during the 4 years of a farm bill. Some individuals are invariably trapped and caused hardship whenever a change is made.

They and their neighbors have learned from those bitter experiences, and now they are very careful to build as much base as possible and to avoid losing old bases. As a result of these efforts, which are aided by the policies established by the Secretary of Agriculture under the 1981 farm bill, many farms have acreage bases for commodities which exceed the amount of land they normally plant to that crop. For example, the 1985 wheat acreage base is about 94 million acres while the largest wheat acreage actually planted in recent years was only 88 million acres. In addition, many of these bases, when added together, exceed the actual amount of land in the farm. These inflated bases and phantom acres undercut efforts to reduce production and add to farm program costs.

This legislation will provide farmers with the certainty that they can plan ahead for changes in their cropping patterns without risking the loss of their eligibility to participate in Federal farm programs. Farmers do not have to participate in these farm programs, and if they do not they can still plant anything they want to. However, this bill will, for the first time, guarantee farmers that they can change crops and still retain farm program eligibility by following a simple and unchanging set of guidelines.

This bill needs to be enacted into law so that our farmers can plan ahead. The vagaries of the weather and marketplace are more than enough for farmers to contend with already. I urge my colleagues to join me in support of this legislation to bring needed equity, flexibility, and predictability to our farm programs.●

By Mr. PACKWOOD:

S. 1803. A bill to designate certain lands in and near the Hells Canyon National Recreation Area as additions to the Hells Canyon Wilderness, Oregon, and for other purposes; to the Committee on Energy and Natural Resources.

ADDITIONS TO HELLS CANYON WILDERNESS

Mr. PACKWOOD. Mr. President, I am introducing legislation today to further the ideals of the Hells Canyon National Recreation Area Act. Through this legislation I hope to strengthen and clarify the management principles we fought for with creation of the area almost a decade ago.

Hells Canyon, the deepest river gorge on earth, straddles the Snake River in both Oregon and Idaho. Hells Canyon is truly a wild place. It is a majestic and serene natural environment, offering fabulous vistas, steep canyon walls, forested slopes and grassy plateaus.

Yet, more than a decade ago, when the first conservation-minded folks started pushing to save Hells Canyon, this serene setting was a battleground between public and private interests, over who would have the right to construct dams on the Snake River. The turning point in the battle was a Supreme Court decision. It set into motion a preservation movement aimed at what had been considered a lost cause—the preservation of the remaining free flowing section of the Snake River.

The historic Supreme Court decision reads:

> The test is whether the project will be in the public interest. And that determination can be made only after an exploration of all issues relevant to the "public interest" including future power demand and supply, altered sources of power, the public interest in preserving reaches of wild rivers and wilderness areas, the preservation of anadromous fish for commerical and recreational purposes, and the protection of wildlife.
>
> Justice William O. Douglas,
> June 5, 1967,
> U.S. Supreme Court,
> Washington Public Power,
> *System* v. *Northwest Power.*

In August of 1967, less than 2 months after the court decision, the Hells Canyon Preservation Council was incorporated. What started as a local grassroots initiative grew into a nationwide movement. The effort to save the river also grew to include preservation of the spectacular canyon surrounding the river. The preservation effort culminated in 1975 with the passage of the Hells Canyon National Recreation Area Act.

I now want to finish the job we began in 1975. To do this job thoroughly, as it should be done, I am introducing a bill proposing the following:

First, designation of almost 300,000 acres of lands in and adjacent to the Hells Canyon NRA as Wilderness;

Second, designation of the lower 33 miles of the Snake River from the national forest boundary downstream to just above the town of Asotin as part of the Snake Wild and Scenic River; and

Third, establishment of a limitation on the amount of timber that may be logged within the Oregon portion of the NRA, and a clear definition of the harvest methods that may be used.

The timber from the Hells Canyon NRA represents a relatively small percentage of wood for the area mills. Management prescriptions in the Hells Canyon comprehensive management plan have reduced the cut which can be taken from these sensitive lands. Based on current management guidelines, it has been estimated that proposed Wilderness designation would result in a reduction of approximately 5.36 million board feet of the total timber available for harvest.

The proposal to extend the Wild and Scenic designation on the Snake River is designed to ensure protection of the Snake River. Dams and other objectionable development projects would not be permitted. Water quality and the natural riparian habitat would be protected to stop further degradation.

It is important to resolve these remaining issues.

This year marks the tenth anniversary of the creation of the Hells Canyon National Recreation Area. It is gratifying to look back and know a wise decision was made. Time has given us a better perspective on the protection we provided through the national recreation area. We can now assess more accurately the pressures that result from the uses of the area and determine if the protections are sufficient. It is time to clarify and reassess how we would like to see the lands in Hells Canyon preserved.

I feel as strongly today as I did 10 years ago about this priceless treasure. But we know more today than we did then about how fragile this unique canyon is. More people have had the opportunity to experience first hand the wildness of this place called Hells Canyon. There is no more suitable protection for areas which we want to be kept in a natural state.

I was recently reminded of a statement I made many years ago that is as true today as it was then. My comment was:

> I became convinced that beyond anything I have seen in this country, let alone in the State of Oregon, this was the place to save. All of them don't hold a candle to the jewel that is Hells Canyon.

By Mr. HATCH (for himself, Mr. ABDNOR, and Mr. INOUYE):

S. 1804. A bill to provide for Federal incentive grants to encourage State health care professional liability reform; to the Committee on Labor and Human Resources.

FEDERAL INCENTIVES FOR STATE HEALTH CARE PROFESSIONAL LIABILITY REFORM ACT

Mr. HATCH. Mr. President, I send to the desk the "Federal Incentives for State Health Care Professional Liability Reform Act of 1985." This bill addresses a growing problem in maintaining a wide range of affordable health care services for the American people. I am talking about the problem of soaring medical malpractice costs and the resulting increased expense, and sometime unavailability, of medical professional liability insurance.

Last year, the Labor and Human Resources Committee held hearings which revealed the extent of this problem and the threat it poses to our health care system. In many areas, premiums for professional liability insurance for physicians continue to rise 20, 30, 40 percent a year and more.

The crisis is particularly acute for those rendering obstetrical care. In Florida, 20 percent of obstetricians have reportedly stopped delivering babies and now limit their practice to surgery. In North Carolina, family physicians' malpractice coverage for obstetrics just increased 400 percent, and the majority are reported to be stopping delivering babies.

Nor is the problem confined to physicians. Nurse-midwives, though traditionally at considerable lower risk of suit than physicians, are sometimes categorized with them by insurance companies for premium purposes. In many States, nurse-midwives have recently been unable to obtain insurance, or can obtain it only at exorbitant rates which put it beyond the reach of their incomes. The consequences of such trends among health professionals are obvious—access to health care may be seriously jeopardized unless a prescription is written to treat this malpractice fever.

State governments shoulder the responsibility of defining the judicial or administrative system governing recovery for malpractice injuries, and they are not blind to the medical professional liability insurance crisis. All but one have at least begun reform of their negligence or tort law systems, and many of them are considering further steps. Among these are submission of claims to arbitration panels, limitations on attorney's contingency fees, modification of the collateral source rule, limits on recoverable damages, the establishment of a patient compensation fund, the requirement of periodic payment of large awards, the establishment of pretrial screening panels, and shortening the statute of limitations.

Many of these represent worthwhile improvements. By and large, they respond to perceived failings in the current tort law system, such as the ability of skillful attorneys to obtain exaggerated judgments for pain and suffering, the inducement to unwarranted litigiousness afforded by an escalating contingency fee schedule for attorneys, and the slowness of the legal system in delivering compensation to the injured. Studies have shown that different reforms have different abilities to achieve the overall goals of reducing the total costs of medical malpractice litigation, and thus of liability insurance, and more efficiently delivering compensation.

The legislation I am introducing today sets up monetary incentives to encourage States to adopt further administrative improvements and four tort law reforms, three of which have been found to be among the most effective in holding down litigation costs. This represents a refined version of a proposal drafted by the American Medical Association, and will serve to move the debate on malpractice insurance forward into the consideration of specific legislative solutions.

Briefly, this proposal would fund development grants by which States would design and implement a strategy leading to adoption of these reforms. Additionally, it would grant $2 million the first year and $1 million per year for the next 2 years to any State which adopts all the recommended measures. This money could be used for a broad variety of public health programs, or to conduct studies of the professional liability problem specific to that State.

The reforms named in the bill are: First, periodic payment of damage awards over $100,000; second, elimination of the collateral source rule, thus providing for the reduction of awards by amounts received from other sources for the same injury; third, limitation of non-economic damages (pain and suffering) to $250,000; fourth, limitation of attorney's contingency fees; fifth, allocation of an amount equivalent to that collected from physician licensing fees to the State agency responsible for disciplinary actions; sixth, requirement that hospitals develop risk management programs and require physician participation as a condition to receipt of insurance; seventh, requirement that insurance companies make certain data available to State agencies; and eighth, provision for increased peer review by State medical societies of questionable practice patterns.

I note that some of these proposals strengthen the ability and resources of State boards entrusted with the duty of weeding out incompetent health practitioners. I am encouraged that this is part of the AMA's program. The AMA forthrightly admits that malpractice does exist. And I am firmly convinced that much can be done to alleviate the current explosion of liability costs if physicians and other health professionals will police their own ranks conscientiously. Healing the sick is a high calling. It is generally very well paid. And the public has a right to expect that State medical boards will force out of the profession alcoholics, drug abusers, the incompetent, and the unprincipled. To the extent the profession has not done so, it has itself to blame for the current situation.

However, claims are also skyrocketing among health professionals who are skilled and conscientious. Part of this may result from the increase in the variety and complexity of medical technology and services; from higher, sometimes unrealistic, public expectations of what medicine can do; from a new readiness of the ordinary citizen to sue; and from a greater number of patients and attorneys willing to file suits that may be marginal or unfounded, hopeful of huge awards or settlements. It is to address some of these factors that the bill I am introducing was drafted. If adopted by States, the bill's reforms would bring down the cost of medical litigation and would result in a higher level of competence among health professionals.

However, I am well aware of the many problems raised by the bill itself. First, I long have doubted in other contexts the wisdom of using Federal dollars to persuade State governments to alter their laws to reflect some grand Federal design. Those doubts persist here. Further, I note again that many of these reforms have already been considered and some adopted by a number of States. The benefit from these reforms is yet to be realized, but when they have gone into effect, the current "crisis" may be less evident.

This leads to another issue: The most recent information available to me indicates that one or another of the listed provisions has been invalidated under State consitutions in five States. Since it would certainly not be our intention to try to preempt State consitutions, there would be at least five States which, from the start, may have no possibility of participating under this proposal. There are pending constitutional challenges in many other States where reforms have been adopted, as well, and the number of invalidations and ineligible States will likely rise. Finally, the individuals tort law reforms raise not only constitutional issues but issues of equity and policy, which we will want to examine as the debate proceeds.

Regardless, the insurance problem is a serious one. The relentless increase

in liability costs and insurance premiums not only threatens access to care in many fields, it leads directly to the practice of defensive medicine, in which health professionals opt for greater frequency of health care testing and services. According to a recent study, costs resulting from professional liability, including premiums and defensive medicine expenses, total an estimated $11 to $13 billion of the $75 billion spent on physician's services in 1984. Expected savings if this bill were fully implemented would, by one estimate, exceed $500 million annually, while the total cost of the bill for 3 years would be $224.9 million.

Through the introduction of this bill, I intend to highlight these problems and begin in earnest the search for the appropriate Federal and State roles in malpractice reform. The American Medical Association has provided us with a thoughtful, useful discussion piece. I challenge the best minds in law, medicine, and public policy to concur or to respond with concrete alternatives.

Mr. President, I ask that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1804

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal Incentives for State Health Care Professional Liability Reform Act of 1985".

FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that—

(1) there are serious problems with current systems for compensating individuals injured by the malpractice of health care professionals and health care providers;

(2) the increasing costs and unavailability of professional liability insurance are causing competent health care professionals to cease or limit practice in high risk specialties or to totally cease the practice of their profession;

(3) current health care malpractice compensation systems cause substantial numbers of health care professionals and health care providers to engage in defensive health care practices, such as the conduct of tests and procedures primarily to provide protection against legal actions, and such practices result in unnecessary health care costs;

(4) the number of professional liability claims against health care professionals and health care providers is increasing at disproportionate rates, beyond any relationship to the quality of the health care provided;

(5) the increase in the number of liability claims and the size of awards and settlements, and the excessive time and expense devoted to the resolution of such claims, pose threats to State systems for compensating individuals injured through negligence and to continued access by all individuals to health care;

(6) the Federal Government has an interest in State health care malpractice compensation systems because the Federal Government pays health care costs through Medicare, Medicaid, and other Federal health care programs;

(7) experience in States which have enacted reforms in their tort and judicial systems indicates that certain reforms can reduce unnecessary expenditures related to health care liability claims while providing more rapid and more efficient compensation for individuals injured by malpractice; and

(8) Federal incentives to encourage States to adopt reforms to improve State health care malpractice compensation and professional disciplinary systems will result in—

(A) the maintenance of access to quality health care;

(B) a more rational health care malpractice compensation system; and

(C) substantial savings by the Federal Government and State governments.

(b) It is the purpose of this Act to establish a system of Federal incentive grants to States to encourage the adoption of reforms in State health care malpractice compensation systems.

DEFINITIONS

SEC. 3. For purposes of this Act—

(1) the term "injury" shall have the meaning given to such term by each State in its State liability reforms, except that in defining such term, each State shall include in such term injuries arising from the negligent delivery of health care services by a health care professional or health care provider;

(2) the term "health care professional" means any individual who provides health care services in a State and who is required by State law to be licensed or certified by the State to provide such services in the State;

(3) the term "health care provider" means any organization or institution which is engaged in the delivery of health care services in a State and which is required by State law to be licensed or certified by the State to engage in the delivery of such services in the State;

(4) the term "malpractice" shall have the meaning given to such term by each State in its State liability reforms, except that in defining such term, each State shall include in such term malpractice or professional negligence by a health care professional or health care provider in the delivery of health care services;

(5) the term "professional liability" shall have the meaning given to such term by each State in its State liability reforms, except that in defining such term, each State shall include in such term liability arising from the negligent delivery of health care services by a health care professional or health care provider;

(6) the term "Secretary" means the Secretary of Health and Human Services;

(7) the term "State" means each of the several States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands; and

(8) the term "State liability reforms" means the reforms described in section 6.

DEVELOPMENT GRANTS

SEC. 4. (a) A State may submit an application to the Secretary for a grant to develop programs to undertake State liability reforms. Any such application shall—

(1) be submitted to the Secretary within 180 days after the date of enactment of this Act;

(2) contain assurances that the State intends to obtain enactment or adoption of the State liability reforms described in section 6 in order to qualify for incentive grants under section 5; and

(3) contain such other information, and be in such form, as the Secretary may prescribe.

(b)(1) If a State submits an acceptable application under subsection (a), the Secretary shall make a grant to such State.

(2) The amount of a grant under paragraph (1) to a State (other than Puerto Rico, Guam, and the Virgin Islands) shall be $250,000, except that if the amount appropriated under section 8(a)(1) is less than $12,000,000, the amount of a grant under paragraph (1) to such a State shall be an amount equal to the quotient obtained by dividing the total amount appropriated under section 8(a)(1) by the number of States (other than Puerto Rico, Guam, and the Virgin Islands) submitting acceptable applications under this section, except that no grant to such a State under this section shall exceed $250,000.

(3) The amount of a grant under paragraph (1) to Puerto Rico, Guam, or the Virgin Islands shall be $125,000, except that if the amount appropriated under section 8(a)(2) is less than $375,000, the amount of a grant under paragraph (1) to Puerto Rico, Guam, or the Virgin Islands shall be an amount equal to the quotient obtained by dividing the total amount appropriated under section 8(a)(2) by 3.

(c) The Secretary may provide technical assistance to States in planning and carrying out activities with grants under this section.

INCENTIVE GRANTS

SEC. 5. (a) A State may submit an application to the Secretary for a grant under subsection (b)(3). Any such application shall—

(1) be submitted to the Secretary within three years after the date of enactment of this Act;

(2) contain a certification by the chief executive officer of the State that, on the date the application is submitted, the State has enacted, adopted, or otherwise has in effect, the State liability reforms described in section 6;

(3) be accompanied by documentation to support the certification required by paragraph (2), including copies of relevant State statutes, rules, procedures, regulations, judicial decisions, and opinions of the State attorney general; and

(4) contain such other information, and be in such form, as the Secretary may prescribe.

(b)(1)(A) Within 60 days after receiving an application under subsection (a), the Secretary shall review the application and determine whether the application demonstrates that the State has enacted, adopted, or otherwise has in effect, the State liability reforms described in section 6. If the Secretary determines that the application makes such a demonstration, the Secretary shall approve the application.

(B) If an application submitted under subsection (a) cites a State statute or other evidence of compliance with the standards for a State liability reform described in section 6, the Secretary shall consider such State to be in conformance with the requirements of such section with respect to such reform if the statute or other evidence of compliance cited in such application is equal to or more stringent than the reform described in such section.

(2) If, after reviewing an application under paragraph (1), the Secretary determines that the application does not make the demonstration required under such paragraph, the Secretary shall, within 15

days after making such determination, provide the State which submitted such application with a written notice which specifies such determination and which contains recommendations for revisions which would bring the State into compliance with this Act.

(3)(A) Within 30 days after approving an application of a State under paragraph (1), the Secretary shall pay to the State a grant in the amount required under subparagraph (B) or (C), as the case may be.

(B) The amount of a grant under subparagraph (A) to a State (other than Puerto Rico, Guam, or the Virgin Islands) shall be $2,000,000, except that if the amount appropriated under section 8(b)(1) is less than $102,000,000, the amount of a grant under subparagraph (A) to such a State shall be an amount equal to the quotient obtained by dividing the total amount appropriated under section 8(b)(1) by 51.

(C) The amount of a grant under subparagraph (A) to Puerto Rico, Guam, or the Virgin Islands shall be $1,000,000, except that if the amount appropriated under section 8(b)(2) is less than $3,000,000, the amount of a grant under subparagraph (A) to Puerto Rico, Guam, or the Virgin Islands shall be an amount equal to the quotient obtained by dividing the total amount appropriated under section 8(b)(2) by 3.

(c)(1)(A) One year after the date on which the Secretary makes payment of a grant to a State (other than Puerto Rico, Guam, or the Virgin Islands) under subsection (b)(3), the Secretary shall pay to such State a grant in an amount equal to $1,000,000, except as provided in paragraph (3)(A) and subsection (d).

(B) One year after the date on which the Secretary makes payment of a grant to Puerto Rico, Guam, or the Virgin Islands under subsection (b)(3), the Secretary shall pay to Puerto Rico, Guam, or the Virgin Islands, as the case may be, a grant in an amount equal to $500,000, except as provided in paragraph (3)(B) and subsection (d).

(2)(A) Two years after the date on which the Secretary makes payment of a grant to a State (other than Puerto Rico, Guam, or the Virgin Islands) under subsection (b)(3), the Secretary shall pay to such State a grant in an amount equal to $1,000,000, except as provided in paragraph (3)(A) and subsection (d).

(B) Two years after the date on which the Secretary makes payment of a grant to Puerto Rico, Guam, or the Virgin Islands under subsection (b)(3), the Secretary shall pay to Puerto Rico, Guam, or the Virgin Islands, as the case may be, a grant in an amount equal to $500,000, except as provided in paragraph (3)(B) and subsection (d).

(3)(A) If the amount appropriated under section 8(c)(1) for grants under paragraph (1)(A) is less than $51,000,000, or if the amount appropriated under section 8(d)(1) for grants under paragraph (2)(A) is less than $51,000,000, the amount of a grant to a State (other than Puerto Rico, Guam, or the Virgin Islands) under paragraph (1)(A) or paragraph (2)(A), as the case may be, shall be an amount equal to the quotient obtained by dividing the amount appropriated under section 8(c)(1) or section 8(d)(1), respectively, by 51.

(B) If the amount appropriated under section 8(c)(2) for grants under paragraph (1)(B) is less than $1,500,000, or if the amount appropriated under section 8(d)(2) for grants under paragraph (2)(B) is less than $1,500,000, the amount of a grant to Puerto Rico, Guam, or the Virgin Islands under paragraph (1)(B) or paragraph (2)(B), as the case may be, shall be an amount equal to the quotient obtained by dividing the amount appropriated under section 8(c)(2) or section 8(d)(2), respectively, by 3.

(d)(1) If, at any time after a State receives a grant under this section, the Secretary determines that the State does not have in effect all of the State liability reforms described in section 6, the Secretary shall provide the State with written notice of such determination. Such notice shall specify—

(A) the reasons for the determination of the Secretary;

(B) that after the date of such determination, the State will not be eligible to receive a grant under paragraph (1) or (2) of subsection (c) unless the State takes such corrective action as may be necessary to ensure that the State liability reforms are in effect in the State, except as provided in paragraph (2) of this subsection; and

(C) that the State may request a hearing before an administrative law judge to appeal the determination of the Secretary.

(2) After making a determination under paragraph (1) of this subsection, the Secretary shall not pay any grant to a State under paragraph (1) or (2) of subsection (c) unless the determination of the Secretary under paragraph (1) of this subsection has been reversed by an administrative or judicial decision.

(e)(1) Any grant received by a State under this section shall be used by the State to—

(A) supplement, and not supplant, funds expended by the State on programs for the provision of health care services, including programs supported with any type of Federal assistance, except as provided in paragraph (2);

(B) support programs of peer review and risk management for health care professionals and health care providers in the State; or

(C) conduct studies of professional liability problems in the State, including studies to determine the impact of the State's malpractice compensation system on health care availability and health care costs in the State.

(2) A grant received by a State under this section may not be used by such State to satisfy any provision of Federal law which requires that, in order to qualify for Federal assistance under such law, the State pay a portion of the costs of the project, program, or activity to be conducted with such Federal assistance.

STATE LIABILITY REFORMS

SEC. 6. (a) The State liability reforms which shall be developed with a grant under section 4, which shall be enacted, adopted, or be in effect in a State in order for the State to receive a grant under section 5(b)(3), and which shall be in effect in a State in order for the State to receive grants under section 5(c), are the reforms specified in subsections (b) through (f) of this section.

(b) A State shall require that, in any legal action for damages for malpractice in which a court of the State awards an individual future damages in excess of $100,000—

(1) the payment of such future damages shall be made on an annual or other periodic basis, in such amounts and at such intervals as may be determined by the court;

(2) the court shall determine a schedule for such payments to ensure that damages are paid over the estimated lifetime of such individual or until the total amount of such award is paid to such individual, whichever occurs first, except that—

(A) in any case in which such individual dies prior to the date on which the final payment is to be made under such schedule to such individual, the party obligated to make payments to such individual shall not be required to make any additional payments to the heirs or assigns of such individual unless, after application by the spouse or child of such individual, the court orders such party to make payments to such spouse or child for the support of such spouse or child; and

(B) in any case in which such individual lives beyond the date on which final payment is to be made to such individual under such schedule, such individual may apply to the court for additional payments for economic damages resulting from such malpractice, which shall be calculated at the annual rate at which such damages were calculated under such schedule; and

(3) the court shall require that such periodic payments be made through the establishment of a trust fund or the purchase of an annuity for the life of such individual or during the continuance of the compensable injury or disability incurred by such individual.

(c)(1) A State shall require that, in any legal action for damages for malpractice in which a court of the State awards damages to an individual, the total amount of such damages shall be reduced by any other payment which has been made or which will be made to such individual to compensate such individual for the injury sustained as a result of such malpractice, including payments under—

(A) Federal or State disability or sickness programs;

(B) Federal, State, or private health insurance programs;

(C) employer wage continuation programs; and

(D) any other source of payment intended to compensate such individual for such injury.

(2) The amount by which an award of damages to an individual for an injury shall be reduced under paragraph (1) shall be an amount equal to the difference between—

(A) the total amount of any payments (other than such award) which have been made or which will be made to such individual to compensate such individual for such injury, minus

(B) the amount paid by such individual (or by the spouse or parent of such individual) to secure the payments described in subparagraph (A).

(d) A State shall require that, in a legal action for damages for malpractice, the amount of any award of damages for noneconomic losses resulting from such malpractice shall not exceed $250,000. For purposes of this subsection, the term "noneconomic losses" means losses for pain, suffering, inconvenience, physical impairment, disfigurement, and other nonpecuniary losses.

(e)(1) Except as provided in paragraph (2), a State shall require that in any legal action for damages for malpractice in which an individual receives a settlement or an award of damages, the amount of payments to such individual's attorney shall be in accordance with the following:

If the total settlement or award is:	The attorney's fee shall not exceed:
Not more than $50,000....	40% of such amount
More than $50,000 but less than $100,000.	$20,000 plus 33⅓% of the excess over $50,000
More than $100,000 but less than $200,000.	$36,667 plus 25% of the excess over $100,000

If the total settlement or award is:	The attorney's fee shall not exceed:
$200,000 or more	$61,667 plus 10% of the excess over $200,000.

(2) A State shall require that in any legal action to which paragraph (1) applies, the court may, after receiving a petition from the attorney representing the individual who receives a settlement or an award of damages, permit such attorney to be paid an amount of fees in excess of the amount specified by paragraph (1) if such court determines the petition has adduced evidence justifying such additional fees.

(f)(1) Each State shall provide for the allocation of the total amount of fees paid to the State in each year for the licensing or certification of each type of health care professional, or an amount of State funds equal to such total amount, to the State agency or agencies responsible for the conduct of disciplinary actions with respect to such type of health care professional.

(2) The State shall require each health care provider to have in effect a risk management program which complies with the laws of the State and which is acceptable to the agency responsible for licensing or certifying such health care provider.

(3) The State shall require each company which provides health care professional liability insurance in the State to—

(A) make available, upon the request of any State board or agency responsible for licensing, certifying, or disciplining health care professionals, information concerning any settlement, judgment, or arbitration award for damages for malpractice against any health care professional over which such board or agency has jurisdiction; and

(B) establish, from the data available to such company, programs of risk management for health care professionals, and require each such professional, as a condition of maintaining insurance, to participate in such programs at least once in each three-year period.

(4)(A) The State shall authorize each State agency responsible for the conduct of disciplinary actions for a type of health care professional to enter into agreements with State or county professional societies of such type of health care professional to permit the review by such societies of any malpractice action, complaint, or other information concerning the practice patterns of any such health care professional. Any such agreement shall comply with subparagraph (B).

(B) Any agreement entered into under subparagraph (A) for the review of any malpractice action, complaint, or other information concerning the practice patterns of a health care professional shall—

(i) provide that the health care professional society conduct such review as expeditiously as possible;

(ii) provide that after the completion of such review, such society shall report its findings to the State agency with which it entered into such agreement and shall take such other action as such society considers appropriate; and

(iii) provide that the conduct of such review and the reporting of such findings be conducted in a manner which assures the preservation of confidentiality of medical information and of the review process.

(C) The State shall provide that any activity conducted pursuant to an agreement under this paragraph shall not be grounds for any civil or criminal action under the antitrust laws of the State or for any other civil action under the laws of the State.

(D) Notwithstanding any other provision of Federal law, any activity conducted pursuant to an agreement under this paragraph shall not be grounds for any civil or criminal action under Federal antitrust laws, as defined in the first section of the Clayton Act and in section 4 of the Federal Trade Commission Act.

REPORTS

SEC. 7. (a) Within two years after the date of enactment of this Act, and every two years thereafter, each State which receives a grant under section 5 during any such two-year period shall prepare and transmit to the Secretary a report which describes—

(1) the State liability reforms enacted, adopted, or in effect in the State;

(2) the activities conducted by the State with any grants received under section 4 or 5 during the preceding two-year period; and

(3) any current problems in the State with respect to health care professional liability or health care professional liability insurance.

(b) Within 30 months after the date of enactment of this Act, and every two years thereafter, the Secretary shall prepare and transmit to the Congress a report which summarizes the information submitted to the Secretary in the most recent reports of the States under subsection (a).

AUTHORIZATION OF APPROPRIATIONS

SEC. 8. (a)(1) For grants under section 4(b)(2), there are authorized to be appropriated $12,500,000 for fiscal year 1987.

(2) For grants under section 4(b)(3), there are authorized to be appropriated $375,000 for fiscal year 1987.

(b)(1) For grants under section 5(b)(3)(B), there are authorized to be appropriated $102,000,000 for fiscal year 1987.

(2) For grants under section 5(b)(3)(C), there are authorized to be appropriated $3,000,000 for fiscal year 1987.

(3) Amounts appropriated under this subsection shall remain available from October 1, 1986, to September 30, 1989.

(c)(1) For grants under section 5(c)(1)(A), there are authorized to be appropriated $51,000,000 for fiscal year 1988.

(2) For grants under section 5(c)(1)(B), there are authorized to be appropriated $1,500,000 for fiscal year 1988.

(3) Amounts appropriated under this subsection shall remain available from October 1, 1987, to September 30, 1990.

(d)(1) For grants under section 5(c)(2)(A), there are authorized to be appropriated $51,000,000 for fiscal year 1989.

(2) For grants under section 5(c)(2)(B), there are authorized to be appropriated $1,500,000 for fiscal year 1989.

(3) Amounts appropriated under this subsection shall remain available from October 1, 1988, to September 30, 1991.

By Mr. TRIBLE:

S. 1805. A bill to amend title 5, United States Code, to increase the opportunity to provide a survivor annuity under subchapter III of chapter 83 of such title; and to improve retirement counseling for Federal Government employees; to the Committee on Governmental Affairs.

ELECTION OF SURVIVOR ANNUITY

Mr. TRIBLE. Mr. President, today I am introducing legislation of critical importance to Federal retirees and their spouses. This legislation would ensure that retired Federal employees are provided with a sufficient opportunity to elect a survivor annuity under civil service retirement. My colleague from Virginia, Representative FRANK WOLF, is introducing similar legislation in the House.

Under current law, Federal employees must make a decision regarding the selection of survivor benefits prior to retirement. Once that decision is made it is irrevocable. If a retiree does not elect to provide a survivor annuity, then there is no opportunity to change that decision.

Far too often, this decision is based upon incorrect or incomplete information and advice provided by the Federal employee's personnel retirement counselor. As a result, and in spite of the retiree's wishes, some survivors of Federal retirees are left unprotected and without any source of income upon the death of their spouse.

Mr. President, my legislation will eliminate this unfortunate situation. It would provide Federal retirees with a second opportunity to elect survivor benefits if they have not already done so, and ensure that agency retirement counselors give Federal employees accurate information and advice about decisions regarding a survivor annuity.

Federal retirees will be provided 18 months during which they may elect a survivor annuity if they have not already made such designation prior to retirement. Should an annuitant elect survivor benefits during this time, they will be required to make the necessary deposits to the retirement fund in order to cover this selection. In addition, agency retirement counselors will be required to complete a training program focusing on changes in civil service retirement law at least once a year. This training program will ensure that retirement counselors understand modifications in retirement law and are able to apply this understanding in counseling future Federal retirees.

Mr. President, I believe that we must ensure that Federal employees are provided with accurate information upon which to make critical decisions affecting the financial security of their spouses. And, I believe that retirees who have not already selected survivor benefits should have the opportunity to make such a designation if they desire after retirement.

I urge my colleagues to support this legislation.

By Mr. BOREN (for himself, Mr. GOLDWATER, Mr. HART, Mr. LEVIN, Mrs. KASSEBAUM, and Mr. RUDMAN):

S. 1806. A bill to amend the Federal Election Campaign Act of 1971 to change certain contribution limits for congressional elections and to amend the Communications Act of 1934 regarding the broadcasting of certain

material regarding candidates for Federal elective office, and for other purposes; to the Committee on Rules and Administration.

CAMPAIGN FINANCE REFORM ACT

● Mr. BOREN. Mr. President, the experiences of this past election cycle dictate that I once again bring up this bill limiting the contributions individual candidates for the U.S. Senate and House of Representatives can receive from political action committees [PAC's].

The implications of a growing tide of PAC influence is phenomenal. The statistics on the growth of PAC's are well known. In 1974, there were just 600 political action committees in existence. The Federal Election Commission has reported that at the end of 1984 the number had grown to 4,009—an increase of 668 percent.

Contributions of these organizations to Senate and House candidates have grown from $8 million in the 1971-72 election to $104.9 million in the 1983-84 election. It is frightening to consider the impact on the political system and the costs of campaigns if PAC contributions continue to more than double every 4 years. By 1992, the contributions would exceed $250 million.

The Senate alone, in 1984, received 23 percent of its campaigns funds from PAC's, compared to 14 percent in 1978.

Mr. President, the most startling statistic in this issue is that in the last election cycle, 163 Members of Congress received over half of their campaign contributions from political action committees. Thirty-six percent of the House Members had over half their campaign funded with money from single-issue PAC's.

This massive influx of funds has helped fuel a mind-boggling trend. In the last 8 years, from 1976 to 1984, the average campaign expenditure in a winning House election has increased by 230 percent. Regrettably, in our own House, Mr. President, the average cost has gone from $609,100 to over $2.9 million—an increase of 385 percent.

The danger to the political process lies in this trend which hastens the day when Members of Congress will no longer depend upon individual contributions from their home States for their election efforts. Instead, they will be primarily dependent upon political action committees, often directed and led by people outside of their home States. This raises questions as to whether the people back home can any longer be said to have representation which gives first priority to their needs and views.

Back in 1978, only 17 percent of all firms with more than $100 million in assets had registered PAC's. In other words, we are just beginning to see the growth of PAC's and the amount of money which they can pump into campaigns. With more money available to spend, there is little doubt that the cost of campaigns will go up even more. Now is the time to place limits on this growth. We should not wait until the problem overwhelms us. We have already reached an alarming point.

The bill which we have introduced will not solve all of the problems. It is a modest step in the right direction, and is not an extreme measure. It does not outlaw all PAC contributions. It does place reasonable limits on total contributions. These limits will help to stop the rapid escalation of campaign costs. They should also help to assure that while PAC's may play a role, they will not provide grossly imbalanced support than individuals from a Member's home State.

This bill does the following:

Limits to $100,000 the amount a House candidate can accept from all political action committees in each election cycle. Raises the PAC limit by $25,000 if two or more candidates qualify for the ballot in the primary and general election.

Limits Senate candidates to an amount varying with the population of their State—with the low of $175,000 ($200,000 if two or more candidates qualify for the ballot in the primary and general election); and an overall cap of $750,000. [Formula: $35,000 times number of congressional districts.]

Allows for an additional $25,000 in PAC money in the event of a House runoff election. Allows for an additional amount in a Senate runoff, the greater of $25,000 or $12,500 times that State's number of congressional districts.

Lowers the current PAC contribution limit from $5,000 to $3,000—raises the individual limit from $1,000 to $1,500.

Closes the current loophole for conduit contributions through PAC's by requiring the candidate to count such contributions toward the limits for PAC's.

Requires a disclaimer for PAC's that make media or material advertisement, not authorized by a candidate in a Federal election, to disclose that such advertisement is "authorized and paid for by" the committee, and that "its presentation is not subject to any campaign law contribution limits."

Allows for a candidate to be provided "equal time" from broadcasting stations when such candidate is subject to negative advertisement through an independent expenditure by a political action committee, and strengthens the definition of "independent expenditure."

Effective date—December 31, 1986—affecting the 1988 election cycle.

I believe, as did James Madison over 200 years ago, that there exists with our democratic process a very grave danger when any faction is permitted to exercise disproportionate influence in pursuit of its own narrow goals. It seems to me that PAC's are exerting just such a disproportionate influence. I urge my colleagues' serious consideration of this trend and this legislation to slow that trend.

Mr. President, I further wish to thank the cosponsors of this bill—Senators GOLDWATER, HART, KASSEBAUM, LEVIN, and RUDMAN. This shows the kind of bipartisan support needed to make the meaningful reforms that are so needed. I ask unanimous consent that the full text of the bill be printed after my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1806

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Campaign Finance Reform Act of 1985."

(a) Section 315(a)(1)(A) of the Federal Election Campaign Act of 1971 is amended by striking out "$1,000" and inserting in lieu thereof "$1,500".

(b) Section 315(a)(2) of the Federal Election Campaign Act of 1971 is amended—

(1) by striking out "or" at the end of subparagraph (B);

(2) striking out "$5,000." in subparagraph (C) and inserting in lieu thereof "$3,000;"; and

(3) by adding at the end the following new subparagraphs:

"(D) to any candidate and his authorized political committees with respect to—

"(i) a general or special election for the office of Representative in, or Delegate or Resident Commissioner to, the Congress (including any primary election, convention, or caucus relating to such general or special election) which exceed $100,000 ($125,000 if at least two candidates qualify for the ballot in the general or special election involved and at least two candidates qualify for the ballot in a primary election relating to such general or special election) when added to the total of contributions previously made by multicandidate political committees to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election); or

"(ii) a runoff election for the office of Representative in, or Delegate or Resident Commissioner to, the Congress which exceed $25,000 when added to the total of contributions previously made by multicandidate political committees to such candidate and his authorized political committees with respect to such runoff election; or

"(E) to any candidate and his authorized political committees with respect to—

"(i) a general or special election for the office of Senator (including any primary election, convention, or caucus relating to such general or special election) which exceed the greater of $175,000 ($200,000 if at least two candidates qualify for the ballot in the general or special election involved and at least two candidates qualify for the ballot in a primary election relating to such general or special election) or the amount equal to $35,000 times involved is entitled, when added to the total of contributions previously made by multicandidate political

committees to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election);

"(ii) a runoff election for the office of Senator which exceed the greater of $25,000 or the amount equal to $12,500 times the number of Representatives to which the State involved is entitled, when added to the total of contributions previously made by multicandidate political committees to such candidate and his authorized political committees with respect to such runoff election; or

"(iii) a general or special election for the office of Senator (including any primary election, runoff election, convention, or caucus relating to such general or special election) which exceed $750,000 when added to the total of contributions previously made by multicandidate political committees to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election).".

(c) Section 315(a)(8) of the Federal Election Campaign Act of 1971 is amended—

(1) by striking out "person" the second place it appears and inserting in lieu thereof "person and also the intermediary or conduit".

(d) Section 315(a)(8) of the Federal Election Campaign Act of 1971 is amended—

"(1) by adding at the end of the paragraph the following subparagraph:

"(A) Notwithstanding any other provision of this Act, each multicandidate political committee which makes an independent expenditure in a federal election in connection with such candidate's campaign, shall not do so in any newspaper, magazine, broadcast or other media advertisement without the following notice placed on, or within such advertisement:

"This message has been authorized and paid for by (name of committee/or any affiliated organization of the committee), (name/title of treasurer and/or president). Its cost of presentation is not subject to any campaign contribution limits."

(e) Section 315 of the Communications Act of 1934 (47 U.S.C. 315) is amended—

(1) by redesignating subsections (b), (c), and (d) as subsections (c), (d), and (e), respectively; and

(2) by inserting immediately after subsection (a) the following:

"(b)(1) If any licensee permits a person to utilize a broadcasting station to broadcast material which either endorses a legally qualified candidate for any Federal elective office or opposes a legally qualified candidate for that office, such licensee shall, within a reasonable period of time, provide to any legally qualified candidate opposing the candidate endorsed (or to an authorized committee of such legally qualified candidate), or to any legally qualified candidate who was so opposed (or to an authorized committee of such legally qualified candidate), the opportunity to utilize, without charge, the same amount of time on such broadcasting station, during the same period of the day, as was utilized by such person.

"(2) For purposes of this subsection, the term 'person' includes an individual, partnership, committee, association, corporation, or any other organization or group of persons, but such term does not include a legally qualified candidate for any Federal elective office or an authorized committee of any such candidate.".

(f) Section 315(a) of the Communications Act of 1934 (47 U.S.C. 315(a)) is amended by striking "section" and inserting in lieu thereof "subsection".

(g) Section 315(e) of the Communications Act of 1934, as so redesignated by subsection (a) of this section, is amended to read as follows:

"(e) For purpose of this section—

"(1) the term 'authorized committee' means, with respect to any candidate for nomination for election, or election, to any Federal elective office, any committee, club, association, or other group of persons which receives contributions or makes expenditures during a calendar year in an aggregate amount exceeding $1,000 and which is authorized by such candidate to accept contributions or make expenditures on behalf of such candidate to further the nomination or election of such candidate;

"(2) the term 'broadcasting station' includes a community antenna television system; and

"(3) the term 'licensee' and 'station licensee' when used with respect to a community antenna system means the operator of such system.".

(h) Section 301(17) of the Federal Election Campaign Act of 1971 is amended to read as follows:

"(17) The term 'independent expenditure' means an expenditure by a person expressly advocating the election or defeat of a clearly identified candidate which is made without cooperation or consultation with any candidate, or any authorized committee or agent of such candidate, and which is not made in concert with, or at the request or suggestion of, any candidate, or any authorized committee or agent of such candidate.

"(A) For the purposes of this subsection, 'cooperation or consultation with any candidate' with respect to an election cycle means, but is not limited to the following—

"(i) the person making the independent expenditure communicates with, advises, or counsels the candidate at any time on the candidate's plans, projects, or needs relating to the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any advice relating to the candidate's decision to seek Federal office;

"(ii) the person making the independent expenditure includes as one of its officers, directors, or other employees an individual who communicated with, advised or counseled the candidate at any time on the candidate's plans, projects, or needs relating to the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any advice relating to the candidate's decision to seek Federal office; and

"(iii) the person making the independent expenditure retains the professional services of any individual or other person also providing those services to the candidate in connection with the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any services relating to the candidate's decision to seek Federal office."

(i) If any provision of this Act or the application of it to any person or circumstance is held invalid, the remainder of the Act and the application of the provision to any other person or circumstance shall not be affected by such invalidation.

(j) The amendments made by such sections (a) through (i) of this section shall apply with respect to general, special, and runoff election occurring after December 31, 1986.●

ADDITIONAL COSPONSORS

S. 9

At the request of Mr. CRANSTON, the name of the Senator from West Virginia [Mr. ROCKEFELLER] was added as a cosponsor of S. 9, a bill to amend title 38, United States Code, to authorize the guaranty of qualified adjustable rate mortgages and to increase the maximum amounts of Veterans' Administration loan guaranties.

S. 177

At the request of Mr. HART, the name of the Senator from New Mexico [Mr. BINGAMAN] was added as a cosponsor of S. 177, a bill to authorize a national program of improving the quality of education.

S. 252

At the request of Mr. ABDNOR, the name of the Senator from South Dakota [Mr. PRESSLER] was added as a cosponsor of S. 252, a bill to authorize the Secretary of the Interior to construct, operate, and maintain the Lake Andes-Wagner Unit, South Dakota Pumping Division, Pick-Sloan Missouri Basin Program, South Dakota.

S. 637

At the request of Mr. ZORINSKY, the name of the Senator from Alabama [Mr. HEFLIN] was added as a cosponsor of S. 637, a bill to amend the Railroad Retirement Act of 1974 to allow a worker to be employed in any nonrailroad employment and still qualify for an annuity, subject to current deductions in the tier 1 benefit on account of work and new deductions in the tier 2 benefit if the employment is for his last nonrailroad employer.

S. 670

At the request of Mr. PELL, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 670, a bill to amend the National Labor Relations Act to give employers and performers in the performing arts rights given by section 8(e) of such act to employers and employees in similarly situated industries, and to give to employers and performers in the performing arts the same rights given by section 8(f) of such act to employers and employees in the construction industry, and for other purposes.

S. 925

At the request of Mr. HUMPHREY, the names of the Senator from Pennsylvania [Mr. SPECTER], the Senator from West Virginia [Mr. ROCKEFELLER], and the Senator from Kansas [Mr. DOLE] were added as cosponsors of S. 925, a bill to deny most-favored-nation trading status to Afghanistan.

S. 1053

At the request of Mr. MATSUNAGA, the name of the Senator from Minnesota [Mr. BOSCHWITZ] was added as a cosponsor of S. 1053, a bill to accept the findings and to implement the recommendations of the Commission on

Wartime Relocation and Internment of Civilians.

S. 1093

At the request of Mr. MATHIAS, the name of the Senator from Nevada [Mr. LAXALT] was added as a cosponsor of S. 1093, a bill to amend the patent law to restore the term of the patent grant in the case of certain products for the time of the regulatory review period preventing the marketing of the product claimed in a patent.

S. 1186

At the request of Mr. SPECTER, the name of the Senator from Ohio [Mr. METZENBAUM] was added as a cosponsor of S. 1186, a bill to promote the public welfare by removing juveniles from adult jails.

S. 1437

At the request of Mr. THURMOND, the name of the Senator from California [Mr. WILSON] was added as a cosponsor of S. 1437, a bill to amend the Controlled Substances Act to create new penalties for the manufacturing with intent to distribute, the possession with intent to distribute, or the distribution of designer drugs, and for other purposes.

S. 1440

At the request of Mr. STEVENS, the name of the Senator from Vermont [Mr. STAFFORD] was added as a cosponsor of S. 1440, a bill to restrict smoking to designated areas in all U.S. Government buildings.

S. 1446

At the request of Mr. ANDREWS, the name of the Senator from Massachusetts [Mr. KERRY] was added as a cosponsor of S. 1446, a bill to amend title 38, United States Code, to improve veterans' benefits for former prisoners of wars.

S. 1574

At the request of Mr. LUGAR, the name of the Senator from New Jersey [Mr. BRADLEY] was added as a cosponsor of S. 1574, a bill to provide for public education concerning the health consequences of using smokeless tobacco products.

S. 1680

At the request of Mr. QUAYLE, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 1680, a bill to phase out the honey price support program.

S. 1685

At the request of Mr. MATSUNAGA, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 1685, a bill to establish a hydrogen research and development program.

S. 1686

At the request of Mr. MATSUNAGA, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 1686, a bill entitled the "Renewable Energy/Fuel Cell Systems Integration Act of 1985."

S. 1687

At the request of Mr. MATSUNAGA, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 1687, a bill to develop a national policy for the utilization of fuel cell technology.

S. 1778

At the request of Mr. BENTSEN, the names of the Senator from Montana [Mr. BAUCUS] and the Senator from Nevada [Mr. LAXALT] were added as cosponsors of S. 1778, a bill to deny most-favored-nation trade treatment to any country that provides support for acts of terrorism.

S. 1795

At the request of Mr. HATCH, the name of the Senator from Iowa [Mr. GRASSLEY] was added as a cosponsor of S. 1795, a bill to provide that in judicial actions against State judges, such judges shall not be held liable for attorney fees.

SENATE JOINT RESOLUTION 74

At the request of Mr. THURMOND, the names of the Senator from Alabama [Mr. DENTON], the Senator from Idaho [Mr. MCCLURE], and the Senator from Arizona [Mr. GOLDWATER] were added as cosponsors of Senate Joint Resolution 74, a joint resolution to provide for the designation of the month of February 1986 as "National Black (Afro-American) History Month."

SENATE JOINT RESOLUTION 213

At the request of Mr. FORD, the name of the Senator from Virginia [Mr. WARNER], was added as a cosponsor of Senate Joint Resolution 213, a joint resolution to designate January 19-25, 1986, "National Jaycee Week."

SENATE JOINT RESOLUTION 224

At the request of Mr. EAGLETON, the names of the Senator from North Dakota [Mr. BURDICK], the Senator from California [Mr. CRANSTON], the Senator from Louisiana [Mr. JOHNSTON], the Senator from New Jersey [Mr. LAUTENBERG], the Senator from Georgia [Mr. NUNN], the Senator from Rhode Island [Mr. PELL], the Senator from Arkansas [Mr. PRYOR], the Senator from Mississippi [Mr. STENNIS], the Senator from Connecticut [Mr. DODD], the Senator from Hawaii [Mr. INOUYE], the Senator from Tennessee [Mr. SASSER], the Senator from Nebraska [Mr. EXON], the Senator from Alabama [Mr. HEFLIN], and the Senator from Hawaii [Mr. MATSUNAGA] were added as cosponsors of Senate Joint Resolution 224, a joint resolution to designate November 30, 1985 as "National Mark Twain Day."

SENATE CONCURRENT RESOLUTION 59

At the request of Mr. TRIBLE, the names of the Senator from Maine [Mr. COHEN] and the Senator from Oregon [Mr. HATFIELD] were added as cosponsors of Senate Concurrent Resolution 59, a concurrent resolution expressing the sense of the Congress that food producers who permit gleaning of their fields and nonprofit organizations which glean fields and distribute the resulting harvest to help alleviate hunger should be commended for their efforts, and for other purposes.

SENATE CONCURRENT RESOLUTION 69

At the request of Mr. DANFORTH, the name of the Senator from Louisiana [Mr. JOHNSTON] was added as a cosponsor of Senate Concurrent Resolution 69, a concurrent resolution to recognize the National Camp Fire Organization for 75 years of service.

SENATE RESOLUTION 28

At the request of Mr. BYRD, the name of the Senator from Arkansas [Mr. BUMPERS] was added as a cosponsor of Senate Resolution 28, a resolution to improve Senate procedures.

AMENDMENTS SUBMITTED

AGRICULTURE, FOOD, TRADE, AND CONSERVATION ACT

STEVENS AMENDMENT NO. 914

Mr. STEVENS proposed an amendment to the bill (S. 1714) to expand export markets for U.S. agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, continue food assistance to low-income households, and for other purposes; as follows:

On page 31, beginning with line 16, strike out all through and including line 10 on page 66 and insert in lieu thereof the following:

"GRANTS FOR INTERNATIONAL-TRADE DEVELOPMENT CENTERS

SEC. 113. (a)(1) The Secretary of Agriculture (hereafter in this section referred to as the "Secretary") may establish and carry out a program to make grants to States for the purpose of paying the costs of construction, employing personnel, acquiring equipment, and taking other action relating to the establishment and operation of international trade development centers, or the expansion of existing international trade development centers, in the United States to enhance the exportation of United States agricultural products and related products.

(2) Such grants shall be based on a matching formula of 50 percent Federal and 50 percent non-Federal funding.

(b) In making grants under subsection (a), the Secretary shall give preference to States that intend to utilize as sites for international trade development centers land-grant colleges and universities (as defined in section 1404(10) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103(10)) that—

(1) operate agricultural programs;

(2) have existing international trade programs that use an interdisciplinary approach and are operated jointly with State and Federal agencies to address international trade problems; and

(3) have a communications system that can be used on an international basis to conduct conferences or trade negotiations.

(c) Such centers may—

(1) through research, establish a permanent data base to address the problems faced by potential exporters, including language barriers, interaction with representatives of foreign governments, transportation of goods and products, insurance and financing within foreign countries, and collecting international marketing data;

(2) be used to locate permanent or temporary exhibits that will stimulate and educate trade delegations from foreign countries with respect to United States agricultural products and related products;

(3) be made available for use by State and regional entities for exhibits, trade seminars, and negotiations involving such products; and

(4) carry out such other activities relating to the exportation of such products, as the Secretary may approve.

(d) There are authorized to be appropriated such sums as are necessary to carry out this section.

Subtitle B—Public Law 480 and Related Programs

AGRICULTURAL TRADE POLICY

SEC. 120. (a) The first sentence of section 2 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691) is amended by inserting "to use foreign currencies accruing under this Act to foster and encourage the development of private enterprise in developing countries; to enhance food security in developing countries through local food production;" after "agricultural production;"

(b) Congress finds that additional steps should be taken to use the agricultural abundance produced by American farmers—

(1) to relieve hunger and promote long-term food security and economic development in developing countries in accordance with the development assistance policy established under section 102 of the Foreign Assistance Act of 1961 (22 U.S.C. 2151-1); and

(2) to promote United States agricultural trade interests.

SALES FOR FOREIGN CURRENCIES

SEC. 121. (a) Section 101 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1701) is amended to read as follows:

"SEC. 101. (a) In order to carry out the policies and accomplish the objectives set forth in section 2, the President is authorized to negotiate and carry out agreements with friendly countries to provide for the sale of agricultural commodities—

"(1) for dollars on credit terms;

"(2) to the extent that sales for dollars under the terms applicable to such sales are not possible, for foreign currencies on credit terms and on terms to permit conversion to dollars at the exchange rate applicable to the sales agreement; or

"(3) for foreign currencies for use under section 108 on terms that permit conversion to dollars.

"(b)(1) Except as provided in paragraph (2), for the fiscal year ending September 30, 1986, and each fiscal year thereafter, sales for foreign currencies for use under section 108 under agreements entered into under this title shall be made at an annual level of—

"(A) not less than the higher of—

"(i) 25 percent of the aggregate value of all sales of agricultural commodities made under this title; or

"(ii) 500,000 metric tons; and

"(B) not more than 50 percent of the aggregate value of all such sales.

"(2)(A) For each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988, except as provided in subparagraph (B), the President may reduce the minimum level of sales for foreign currencies prescribed under paragraph (1)(A) if—

"(i) there is an insufficient number of approved financial intermediaries that have entered into agreements with the Secretary of Agriculture to carry out the program provided for in section 108;

"(ii) there are insufficient requests made by such intermediaries for loan funds to utilize the foreign currencies generated by such sales; or

"(iii) the Secretary requires additional time to implement such program.

"(B) The President may not reduce the minimum level of sales for foreign currencies under subparagraph (A) below an annual level of less than—

"(i) for the fiscal year ending September 30, 1986, 5 percent of the aggregate value of all sales of agricultural commodities made under this title during such fiscal year;

"(ii) for the fiscal year ending September 30, 1987, 10 percent of the aggregate value of all sales of agricultural commodities made under this title during such fiscal year; and

"(iii) for the fiscal year ending September 30, 1988, 15 percent of the aggregate value of all sales of agricultural commodities made under this title during such fiscal year.

"(c) Agreements for sales for foreign currency in a developing country for use under section 108 may not be entered into to the extent that such agreements would generate currency in amounts that cannot be productively used and absorbed in the private sector of such country.

"(d) Sales for foreign currencies for use under section 108 under agreements entered into under this title shall be made on such terms and conditions as are specified in such agreements.".

(b) Section 103 of such Act (7 U.S.C. 1703) is amended—

(1) by inserting ", in section 108," after "section 104" in subsection (b);

(2) by striking out "dollar on credit terms" in the last sentence of subsection (d);

(3) in subsection (m)—

(A) by inserting "except as provided in section 108," after the subsection designation;

(B) by striking out the semicolon and inserting in lieu thereof a period; and

(C) by adding at the end thereof the following: "In carrying out this subsection, the President shall require that foreign currencies to be used under section 108 that are acquired under an agreement for the sale of commodities be converted to dollars during the period beginning 10 years after the date of the last delivery of such commodities and ending 30 years after the date of such delivery. Such agreement for sale shall establish a schedule for such conversion but need not specify the exchange for such conversion;";

(4) by striking out "for dollars on credit terms" and "for cash dollars" in subsection (n);

(5) by striking out "Take" in subsection (o) inserting in lieu thereof "take";

(6) by striking out "Assure convertibility" in subsection (p) and inserting in lieu thereof "except as provided in section 108, assure convertibility"; and

(7) by striking out "Assure convertibility" in subsection (q) and inserting in lieu thereof "except as provided in section 108, assure convertibility".

(c) The first sentence of section 105 of such Act (7 U.S.C. 1705) is amended by striking out "section 104" and inserting in lieu thereof "sections 104 and 108".

(d) Section 106(a) of such Act (7 U.S.C. 1706(a)) is amended by adding at the end thereof the following new paragraph:

"(3) Payment for sales made for foreign currencies that are to be used under section 108 under an agreement entered into under this title shall be made on such terms as are specified in such agreement.".

(e) Such Act is amended by inserting after section 107 (7 U.S.C. 1707) the following new section:

"SEC. 108. Notwithstanding any other provision of law:

"(a) As used in this section:

"(1) The term 'developing country' means a country that is eligible to participate in a sales agreement entered into under this title.

"(2) The term 'financial intermediary' means a bank, financial institution, cooperative, nonprofit voluntary agency, or other organization or entity, as determined by the Secretary, that has the capability of making and servicing a loan in accordance with this section.

"(3) The Term 'Secretary' means the Secretary of Agriculture.

"(b) In order to foster and encourage the development of private enterprise institutions and infrastructure as the base for the expansion, promotion, and improvement of the production of food and other related goods and services within a developing country and pursuant to an agreement for the sale of agricultural commodities entered into under this title, the Secretary may enter into an agreement with a financial intermediary located or operating in such country under which the Secretary shall lend to such financial intermediary foreign currency that accrues as a result of commodity sales to such country under a sales agreement entered into under this title after the date of enactment of the Agriculture, Food, Trade, and Conservation Act of 1985.

"(c) To be eligible to obtain foreign currency under this section, a financial intermediary must enter into an agreement with the Secretary under which the intermediary agrees to use such currency to make loans to private individuals, cooperatives, corporations, or other entities within a developing country, at reasonable rates of interest, for the purpose of financing—

"(1) productive, private enterprise investment within such country, including such investment in projects carried out by cooperatives, nonprofit voluntary organizations, and other entities found to be qualified by the Secretary;

"(2) private enterprise facilities for aiding the utilization and distribution, and increasing the consumption of and markets for, United States agricultural commodities and the products thereof; or

"(3) private enterprise support of self-help measures and projects.

"(d) An agreement entered into under this section shall specify the terms and conditions under which the foreign currency shall be used and subsequently repaid to the Secretary, including the following terms and conditions:

"(1) A financial intermediary shall, to the maximum extent feasible, give preference to the financing of agricultural related private enterprise with the funds provided under this section.

"(2)(A) A financial intermediary shall repay a loan made by the Secretary under this section, plus accrued interest, at such times and in such manner as will permit the Secretary to convert such foreign currency to dollars in accordance with the schedule for such conversion.

"(B) A financial intermediary may repay a loan made under this section prior to the repayment date specified in such agreement.

"(3) To be eligible to receive financing from a financial intermediary under this section, an entity or venture must—

"(A) be owned, directly or indirectly, by citizens of the developing country, except that up to 25 percent of such ownership interest may be held by citizens of the United States; and

"(B) not be owned or controlled, in whole or in part, by the government or any governmental subdivision of the developing country.

"(4)(A) The rate of interest charged on funds loaned by the Secretary to a financial intermediary under this section shall be such rate as is determined by the Secretary and the intermediary.

"(B) In the case of a cooperative or nonprofit voluntary agency that is acting as a financial intermediary, the Secretary may charge a lower rate of interest on funds loaned to such intermediary under this section than is charged to other types of intermediaries to defray the startup costs of becoming a financial intermediary.

"(5) No currency made available under this section may be used to promote the production of agricultural commodities or the products thereof that will compete, as determined by the Secretary, in world markets with similar agricultural commodities or the products thereof produced in the United States.

"(6) The Secretary may not require a developing country to guarantee the repayment of a loan made to a financial intermediary under this section as a condition of receipt of such loan.

"(e)(1) All currencies repaid by financial intermediaries under agreements entered into under this section shall be deposited and accounted for in accordance with section 105.

"(2) Currencies repaid by financial intermediaries shall, as determined by the Secretary—

"(A) be used to finance additional productive, private enterprise investment under agreements with financial intermediaries entered into under this section;

"(B) be used for the development of new markets for United States agricultural commodities;

"(C) be used for the payment of United States obligations (including obligations entered into pursuant to other laws of the United States); or

"(D) be converted to dollars.

"(3) Section 1306 of title 31, United States Code, shall apply to currencies used for the purpose specified in paragraph (2)(C).

"(f)(1) Any agreement entered into under this section shall be subject to periodic audit by the Secretary to determine whether the terms and conditions of the agreement are being fulfilled.

"(2) Not later than 180 days after the close of each fiscal year, the Secretary shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the activities carried out under this section during the preceding fiscal year, including an evaluation of the impact of investment under this section on the development of agricultural related private enterprise in each participating country.

"(g) The Secretary may provide agricultural technical assistance to further the purposes of this section, including the funding of market development activities. To the maximum extent practicable, the Secretary shall use at least 5 percent of the foreign currencies obtained for use under this section from sales of agricultural commodities made under agreements entered into under this title after the date of enactment of the Agriculture, Food, Trade, and Conservation Act of 1985 to carry out such assistance.".

MINIMUM QUANTITY OF AGRICULTURAL COMMODITIES DISTRIBUTED UNDER TITLE II

SEC. 122. Section 201(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721(b)) is amended by striking out clauses (1) through (3) and inserting in lieu thereof the following new clauses:

"(1) for each of the fiscal years ending September 30, 1986, and September 30, 1987, shall be 1,900,000 metric tons, of which not less than 1,425,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies, cooperatives, and the World Food Program; and

"(2) for the fiscal year ending September 30, 1988, and each fiscal year thereafter, shall be 1,700,000 metric tons, of which not less than 1,275,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies, cooperatives, and the World Food Program;".

VALUE-ADDED, PROCESSED, AND PROTEIN-FORTIFIED PRODUCTS

SEC. 123. Section 201 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721) is amended by adding at the end thereof the following new subsection:

"(c) In distributing agricultural commodities under this title, the President shall—

"(1) consider—

"(A) the nutritional assistance to recipients and benefits to the United States that would result from distributing such commodities in the form of processed and protein-fortified products, including processed milk, plant protein products, and fruit, nut, and vegetable products;

"(B) the nutritional needs of the proposed recipients of the commodities;

"(C) the cost effectiveness of providing such commodities, for purposes of selecting commodities for distribution under nonemergency programs; and

"(D) the purposes of this title; and

"(2) ensure that at least 75 percent of the quantity of agricultural commodities required to be distributed each fiscal year under subsection (b) for nonemergency programs be in the form of processed or fortified products or bagged commodities.".

FOOD ASSISTANCE PROGRAMS OF VOLUNTARY AGENCIES

SEC. 124. (a) Title II of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721 et seq.) is amended by adding at the end thereof the following new sections:

"SEC. 207. (a)(1) If requested by a nonprofit voluntary agency or cooperative, an agreement with the agency or cooperative for nonemergency assistance under this title may provide for the use by the agency or cooperative of foreign currency proceeds, generated from the sale of commodities made available under the agreement, for purposes specified in subsection (b).

"(2) Such agreements shall provide, in the aggregate for each fiscal year, for the use of foreign currency proceeds under this subsection in an amount that is not less than 5 percent of the aggregate value of the commodities distributed under nonemergency programs under this title for such fiscal year.

"(3) Section 103(c) shall apply to sales of agricultural commodities to generate foreign currencies under this subsection, unless the Secretary of Agriculture, in consultation with the Administrator of the Agency for International Development, waives the application of this paragraph.

"(b)(1)(A) Foreign currency proceeds generated under subsection (a) shall be used by a nonprofit voluntary agency or cooperative for activities carried out by the agency or cooperative that will enhance the effectiveness of the food assistance program carried out pursuant to the agreement.

"(B) Such activities may include food for work programs, local program management, local agricultural and cooperative development projects, and outreach projects to provide food to people with the greatest nutritional need, if such activities are directly related to the food assistance program of the agency or cooperative.

"(2) Foreign currency proceeds under subsection (a) may not be used—

"(A) to defray personnel or administrative costs incurred by a United States cooperating sponsor, distributing agency, or recipient agency, other than a local cooperative;

"(B) to defray the costs of construction or maintenance of an edifice owned or operated by a church or any other edifice used for sectarian purposes; or

"(C) to replace resources otherwise available to a nonprofit voluntary agency or cooperative, as determined by the President.

"SEC. 208. (a) In the case of an agreement with a nonprofit voluntary agency for nonemergency assistance under this title, subject to subsection (b), the President is encouraged to approve multiyear agreements to make agricultural commodities available for distribution by the agency, if the agency requests a multiyear agreement.

"(b)(1) Such agreements shall be subject to the availability each fiscal year of the necessary appropriations and agricultural commodities.

"(2) Subsection (a) shall not apply to an agreement that the President determines should be limited to a single year because of the past performance of the nonprofit voluntary agency or because the agreement involves a new program of assistance.

"(c) In carrying out a multiyear agreement pursuant to this section, a nonprofit voluntary agency may not be required to obtain annual approval from the United States Government in order to continue its assistance program pursuant to this agreement, unless the President determines that exceptional and unforeseen circumstances have occurred that require such approval.

"SEC. 209. (a) Agreements with nonprofit voluntary agencies under this title may authorize such agencies to establish local food reserves.

"(b) If authorized to establish a local food reserve pursuant to subsection (a), a nonprofit voluntary agency may deposit in such reserve agricultural commodities made available under this title—

"(1) for later use in providing immediate food assistance in case of a famine or other food shortage emergency; or

"(2) if the nonprofit voluntary agency determines that the immediate use of the agri-

cultural commodities for food assistance purposes would be a disincentive to local agricultural production and that the commodities should be held for use at a later time.

"SEC. 210. (a) A nonprofit voluntary agency requesting a nonemergency food assistance agreement under this title shall include in such request a description of the intended uses of any foreign currency proceeds that would be generated with the commodities provided under the agreement.".

"(b)(1) It is the sense of Congress that the President is encouraged to invite representatives of nonprofit voluntary agencies participating in programs under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.) and other concerned nonprofit voluntary agencies, and to designate appropriate executive branch officials to participate in a task force to study the means of providing food assistance under such Act to people with the greatest nutritional need in the recipient countries.

"(2) If a task force is established under paragraph (1), the task force should report to Congress by February 15, 1986, on further steps that could be taken to provide food under such Act to such people.

"(c)(1) Sections 207, 208, and 209 of the Agricultural Trade Development and Assistance Act of 1954 (as added by subsection (a)) shall apply with respect to agreements entered into after September 30, 1985.

"(2) Section 210 of the Agricultural Trade Development and Assistance Act of 1954 (as added by subsection (a)) shall apply with respect to agreements entered into after December 31, 1985.

FOOD FOR DEVELOPMENT PROGRAM

SEC. 125. Section 302(c)(1)(C) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1727a(c)(1)(C)) is amended by striking out "15" and inserting in lieu thereof "10".

EXTENSION OF PROGRAM

SEC. 126. Section 409 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736c) is amended—

(1) by striking out "1985" in the first sentence and inserting in lieu thereof "1989"; and

(2) by striking out "Agriculture and Food Act of 1981" in the second sentence and inserting in lieu thereof "Agriculture, Food, Trade, and Conservation Act of 1985".

COMMODITY DONATIONS ABROAD

SEC. 127. (a) Subsection (b) of section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431(b)) is amended to read as follows:

"(b)(1) As used in this subsection, the term 'elgible commodities' means agricultural commodities and the products thereof acquired by the Commodity Credit Corporation through price support operations that the Secretary determines meet the criteria specified in subsection (a).

"(2) The Secretary may furnish eligible commodities for carrying out title II of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721 et seq.), as approved by the Secretary and for such purposes as are approved by the Secretary.

"(3)(A) Commodities may not be made available for disposition under this subsection in quantities that will reduce the quantities of commodities that traditionally are made available through donations to domestic feeding programs or agencies.

"(B) Subject to paragraph (9)(B)(v), sections 103(c) and 401(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1703(c) and 1731(b)) shall apply with respect to commodities furnished under this subsection.

"(C) The requirement for safeguarding usual marketings of the United States shall not be used to prevent the furnishing under this subsection of any eligible commodity for use in countries that—

"(i) have not traditionally purchased the commodity from the United States; or

"(ii) do not have adequate financial resources to acquire the commodity from the United States through commercial sources or through concessional sales arrangements.

"(4) Section 203 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1723) shall apply to commodities furnished under this subsection.

"(5) Agreements may be entered into under this subsection to provide eligible commodities in installments over an extended period of time.

"(6) As soon as possible after the beginning of each fiscal year, the Secretary shall estimate and announce the types of eligible commodities, and the amounts thereof, that the Secretary anticipates will become available for distribution under this subsection during such fiscal year.

"(7) To the maximum extent practicable, expedited procedures shall be used in implementing this subsection.

"(8) The cost of commodities furnished under this subsection, and expenses incurred under section 203 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1723) in connection with such commodities, shall be in addition to the level of assistance programmed under such Act and may not be considered expenditures for international affairs and finance.

"(9)(A) Eligible commodities furnished under this subsection may be sold or bartered with the approval of the Secretary solely as follows:

"(i) Sales and barter that are incidental to the donation of the commodities.

"(ii) Sales and barter, the proceeds of which are used to finance the distribution, handling, and processing costs of the donated commodities in the importing country or other activities in the importing country that are consistent with providing food assistance to needy people.

"(iii) Sales and barter of commodities donated to intergovernmental organizations, insofar as they are consistent with normal programming procedures in the distribution of commodities by such organizations.

"(iv) Sales and barter of commodities used for payments pursuant to paragraph (4).

"(B)(i) If requested by a nonprofit voluntary agency or cooperative, an agreement with the agency or cooperative for commodities made available under this subsection may provide for the use by the agency or cooperative of foreign currency proceeds, generated from the sale of commodities made available under the agreement, for the purposes specified in clause (ii).

"(ii) The Secretary shall ensure, to the extent practicable, that such agreements provide, in the aggregate for each fiscal year, for the use of foreign currency proceeds under this subsection an amount that is not less than 5 percent of the aggregate value of the eligible commodities furnished to such agencies and cooperatives under this subsection for such fiscal year.

"(iii)(I) Foreign currency generated under this subparagraph shall be used by a nonprofit voluntary agency or cooperative for activities carried out by the agency or cooperative that will enhance the effectiveness of the food assistance program being carried out pursuant to the agreement.

"(II) Such activities may include food for work programs, local program management, local agricultural and cooperative development projects, and outreach projects designed to provide food to people with the greatest nutritional need, if such activities are directly related to the food assistance program of the nonprofit voluntary agency or cooperative.

"(iv) All foreign currency proceeds generated pursuant to an agreement under this subparagraph shall be expended within 1 year after the end of the period of the agreement.

"(v) Section 103(c) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1703(c)) shall apply to sales of agricultural commodities made to generate foreign currencies under this subparagraph, unless the Secretary of Agriculture, in consultation with the Administrator of the Agency for International Development, waives the application of this subparagraph.

"(vi) Foreign currency proceeds gerneratd under this subsection may not be used—

"(I) to defray personnel or administrative costs incurred by a United States cooperating sponsor, distributing agency, or recipient agency, other than a local cooperative;

"(II) to defray the costs of construction or maintenance of an edifice owned or operated by a church or any other edifice used for sectarian purposes; or

"(III) to replace resources otherwise available to a nonprofit voluntary agency or cooperative, as determined by the President.

"(10)(A) In carrying out this subsection, during each fiscal year, the Secretary shall furnish to nonprofit voluntary agencies, cooperatives, and the World Food Program for distribution in developing countries not less than 400,000 metric tons of eligible commodities that are available for distribution under this subsection.

"(B) Subparagraph (A) shall not apply in any fiscal year to the extent that the Secretary determines and reports to Congress (together with the reasons therefor) that—

"(i) there have not been sufficient requests made by nonprofit voluntary agencies, cooperatives, and the World Food Program for commodities under this subsection for uses that would effectively carry out the purposes of title II of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721 et seq.); or

"(ii) a limitation in paragraph (3) prevents the use of commodities pursuant to this paragraph.

"(C) If the quantity of eligible commodities available for distribution under subparagraph (A) for a fiscal year is less than 400,000 metric tons, such subparagraph shall not require the Secretary to purchase additional commodities to satisfy such subparagraph.".

"(b) Section 416(b)(9)(A) of the Agricultural Act of 1949 (as added by subsection (a)) shall become effective on October 1, 1985.

FOOD FOR PROGRESS

SEC. 128. (a) Section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431) is amended by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of law:

"(1)(A) In order to use the food resource of the United States more effectively in support of countries that have made commitments to introduce or expand free enterprise elements in their agricultural economics through changes in commodity pricing,

marketing, input availability, distribution, and private sector involvement, commodities and the products thereof acquired by the Commodity Credit Corporation that the Secretary determines meet the criteria specified in subsection (a), may be furnished by the Secretary to carry out agreements entered into by the President under paragraph (2).

"(B) Not more than 500,000 metric tons of commodities may be furnished under this subsection in each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, and September 30, 1989.

"(C) The Commodity Credit Corporation may purchase agricultural commodities and the products thereof for use under this subsection if—

"(i) the Commodity Credit Corporation does not hold stocks of such commodities and the products thereof; or

"(ii) the Commodity Credit Corporation stocks are insufficient to satisfy commitments made in agreements entered into under this subsection and such commodities and the products thereof are needed to fulfill such commitments.

"(D) No funds of the Commodity Credit Corporation in excess of $30,000,000 (exclusive of the cost of commodities) may be used to carry out this subsection unless authorized in advance in appropriation Acts.

"(2)(A)(i) The President may enter into agreements with developing countries to furnish commodities and the products thereof made available under paragraph (1) to such countries to promote the implementation of private, free enterprise agricultural policies for long-term agricultural development.

"(ii)(I) Such commodities shall be furnished under this subsection on such terms and conditions as the President considers are in the public interest and will promote the objectives of this subsection.

"(II) Agreements may provide for commodities to be furnished on a multiyear basis.

"(B) In determining whether to enter into agreements with countries for the furnishing of commodities under this subsection, the President shall consider whether a potential recipient country—

"(i) is carrying out, or is committed to carry out, policies that promote economic freedom, private, domestic production of food commodities for domestic consumption, and the creation and expansion of efficient domestic markets for the purchase and sale of such commodities, including policies that may provide for—

"(I) access, on the part of farmers in such country, to private, competitive markets for their products;

"(II) market pricing of commodities to foster adequate private sector incentives to individual farmers to produce food on a regular basis for the domestic needs of the country;

"(III) establishment of market-determined foreign exchange rates;

"(IV) timely availability of production inputs, such as seed, fertilizer, or pesticides, to farmers;

"(V) access to technologies appropriate to the level of agricultural development in the country; and

"(VI) construction of facilities and distribution systems necessary to handle perishable products; and

"(ii) is able to use the quantity of commodities being considered for donation without disruption of the internal market of the country for domestically produced agricultural commodities and the products thereof.

"(3) An agreement entered into under this subsection shall prohibit the resale or transshipment of the donated agricultural commodities to other countries.

"(4) In entering into agreements with countries for the donation of agricultural commodities and the products thereof under this subsection, the President shall take reasonable precautions to avoid displacement of any sales of United States agricultural commodities and the products thereof that would otherwise be made to such countries.

"(5)(A) Section 203 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1723) shall apply to agricultural commodities furnished under this subsection.

"(B) The cost of the commodities furnished under this subsection, and the expenses incurred in connection with furnishing such commodities, shall be in addition to the level of assistance programmed under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.) and may not be considered expenditures for international affairs and finance.

"(6)(A) The President shall carry out the duties imposed on the President under this subsection through the National Security Advisor in the Executive Office of the President.

"(B) The National Security Advisor, with the approval of the Secretary, may use personnel of the Department of Agriculture in carrying out this subsection.

"(8) Within 120 days after the close of each fiscal year in which an agreement entered into with a country under this subsection is in effect, the President shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the status of such agreement and the progress being made to implement private, free enterprise agricultural policies for long-term agricultural development in such country.".

(b) The amendment made by this section shall be effective during the period beginning October 1, 1985, and ending September 30, 1989.

SPECIAL ASSISTANT FOR AGRICULTURAL TRADE AND FOOD AID

SEC. 129. (a)(1) The President shall appoint, by and with the advice and consent of the Senate, a Special Assistant to the President for Agricultural Trade and Food Aid (hereinafter in this section referred to as the "Special Assistant").

(2) The Special Assistant shall serve in the Executive Office of the President.

(3) As an exercise of the rulemaking power of the Senate, any nomination to the position of Special Assistant shall be—

(A) submitted to the Senate for confirmation; and

(B) referred to the Committee on Agriculture, Nutrition, and Forestry.

(4) The Special Assistant shall—

(A) serve at the pleasure of the President;

(B) be entitled to receive the same allowances as a chief of mission; and

(C) have the rank of Ambassador Extraordinary and Plenipotentiary.

(b) The Special Assistant shall—

(1) assist and advise the President in order to improve and enhance food assistance programs carried out in the United States and foreign countries;

(2) coordinate and streamline the manner in which food assistance programs are carried out by the Department of Agriculture and the Agency for International Development, in order to improve their overall effectiveness;

(3) make recommendations to the President on measures to be taken to increase use of United States agricultural commodities and the products thereof through food assistance programs;

(4) advise the President on agricultural trade;

(5) serve as a member of the Development Coordination Committee;

(6) serve as Chairman of the Food Aid Subcommittee of such Committee; and

(7) issue to departments and agencies of the Federal Government policy guidelines on basic issues of food assistance policy, to the extent necessary to assure the coordination of food assistance programs, consistent with law, and with the advice of such Subcommittee.

(c) The Special Assistant may—

(1) solicit information and advice from private and governmental sources and recommend a plan to the President and Congress on measures that should be taken—

(A) to promote the export of United States agricultural commodities and the products thereof; and

(B) to expand export markets for United States agricultural commodities and the products thereof;

(2) develop and recommend to the President national agricultural pclicies to foster and promote the United States agricultural industry and to maintain and increase the strength of this vitally important sector of the United States economy; and

(3)(A) appraise the various programs and activities of the Federal Government, as they affect the United States agricultural industry, for the purpose of determining the extent to which such programs and activities are contributing or not contributing to such industry; and

(B) make recommendations to the President and Congress with respect to the effectiveness of such programs and activities in contributing to such industry.

(d) Section 5312 of title 5, United States Code, is amended by adding at the end thereof the following new item:

"Special Assistant for Agricultural Trade and Food Aid.".

Subtitle C—Export Transportation of Agricultural Commodities

FINDINGS AND DECLARATIONS

SEC. 131. (a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of the United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying

capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL EXPORTS FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1) shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultural commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing would market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made availale to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions referred to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

SHIPMENT REQUIREMENTS FOR CERTAIN EXPORTS SPONSORED BY THE DEPARTMENT OF AGRICULTURE

SEC. 133. (a)(1) In addition to the requirement for United States-flag carriage of a percentage of gross tonnage imposed by section 901(b)(1) of the Merchant Marine Act, 1936, was amended (46 U.S.C. 1241(b)(1)), 25 per centum of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs subject to such section and specified in subsection (b) shall be transported on United States-flag commercial vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) an additional quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) an additional quantity equal to 20 percent of the gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) an additional quantity equal to 25 percent of the gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of Transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in section 132(5).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretary of Transportation shall also administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a manner which preserves to the greatest extent practicable the mean historical port range share of cargoes subject to United States-flag transportation requirements under this section exported from the Atlantic, Gulf, Pacific, and Great Lakes port ranges.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price as to agricultural commodities or the products thereof shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any other type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Com-

modity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) The National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean freight and ocean freight differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such costs shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight charges resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transportation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 24 members.

(2) Sixteen members of the Commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Subcommittee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4)(A) Eight of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining eight members appointed by the President shall be representatives of the United States-flag maritime industry, four of whom shall represent labor and four of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendations to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shipload;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments so such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC. 138. (a) Each department, agency, and instrumentality of the United States, including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on

which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b) (8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code."

COCHRAN (AND OTHERS) AMENDMENT NO. 915

Mr. COCHRAN (for himself, Mr. BENTSEN, Mr. STEVENS, Mr. INOUYE, Mr. PRYOR, Mr. HEFLIN, Mr. MATTINGLY, Mr. HART, Mr. LONG, Mr. PACKWOOD, Mr. GORTON, Mr. HOLLINGS, Mr. CRANSTON, Mr. TRIBLE, Mr. EAGLETON, Mr. KENNEDY, Mr. BURDICK, Mr. PELL, Mr. SARBANES, Mr. MURKOWSKI, Mr. D'AMATO, Mr. JOHNSTON, Mr. COHEN, Mr. KERRY, Mr. LAUTENBERG, Mr. LAXALT, Mr. BINGAMAN, Mr. DODD, Mr. ROCKEFELLER, Mr. MOYNIHAN, Mr. HATFIELD, Mr. HEINZ, Mr. BIDEN, Mr. MATHIAS, Mr. MATSUNAGA, Mr. HECHT, and Mr. EVANS) proposed an amendment to amendment No. 914 proposed by Mr. STEVENS to the bill S. 1714, supra; as follows:

Beginning on page, 35 of the amendment, strike line 9 through the end of the amendment and insert the following in lieu thereof:

"SEC. 131. (a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL EXPORTS FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1), shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultural commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing world market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made available to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions referred to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

SHIPMENT REQUIREMENTS FOR CERTAIN EXPORTS SPONSORED BY THE DEPARTMENT OF AGRICULTURE

SEC. 133. (a)(1) In addition to the requirement for United States-flag carriage of a percentage of gross tonnage imposed by section 901(b)(1) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)(1)), 25 per centum of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs subject to such section and specified in subsection (b) shall be transported on United States-flag commercial vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) an additional quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) an additional quantity equal to 20 percent of the gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) an additional quantity equal to 25 percent of the gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of Transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in section 132(5).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretary of Transportation shall also administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a manner which preserves to the greatest extent practicable the mean historical port range share of cargoes subject to United States-flag transportation requirements under this section exported from the Atlantic, Gulf, Pacific, and Great Lakes port ranges.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price as to agricultural commodities or the products thereof shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any other type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) The National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean freight and ocean freight differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such costs shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight charges resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transportation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 24 members.

(2) Sixteen members of the Commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Subcommittee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4)(A) Eight of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining eight members appointed by the President shall be representatives of the United States-flag maritime industry, four of whom shall represent labor and four of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendations to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC. 138. (a) Each department, agency, and instrumentality of the United States, including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b)(8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code."

INOUYE AMENDMENT NO. 916

Mr. INOUYE proposed an amendment to the bill S. 1714, supra; as follows:

On page 31, beginning with line 15, strike all through and including line 11 on page 33 and insert in lieu thereof the following:

"SEC. 131. (a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL EXPORTS FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1), shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultural commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing world market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made available to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions referred to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

SHIPMENT REQUIREMENTS FOR CERTAIN EXPORTS SPONSORED BY THE DEPARTMENT OF AGRICULTURE

SEC. 133. (a)(1) In addition to the requirement for United States-flag carriage of a percentage of gross tonnage imposed by section 901(b)(1) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)(1)), 25 per centum of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs subject to such section and specified in subsection (b) shall be transported on United States-flag commercial vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) an additional quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) an additional quantity equal to 20 percent of the gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) an additional quantity equal to 25 percent of the gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of Transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in section 132(5).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretary of Transportation shall also administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a manner which preserves to the greatest extent practicable the mean historical port range share of cargoes subject to United States-flag transportation requirements under this section exported from the Atlantic, Gulf, Pacific, and Great Lakes port ranges.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price as to agricultural commodities or the products thereof shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any other type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) The National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean freight and ocean freight differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such costs shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight charges resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transportation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 24 members.

(2) Sixteen members of the Commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Sub-

committee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4)(A) Eight of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining eight members appointed by the President shall be representatives of the United States-flag maritime industry, four of whom shall represent labor and four of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendations to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC. 138. (a) Each department, agency, and instrumentality of the United States, including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b)(8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code."

STEVENS AMENDMENT NO. 917

Mr. STEVENS proposed an amendment to amendment No. 916 proposed by Mr. INOUYE to the bill S. 1714, supra; as follows:

On page 1 of the amendment, beginning with line 10, strike all through the end and insert in lieu thereof the following:

"SEC. 131. (a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL EXPORTS FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1), shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultural commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing world market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made available to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time

of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions referred to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

SHIPMENT REQUIREMENTS FOR CERTAIN EXPORTS SPONSORED BY THE DEPARTMENT OF AGRICULTURE

SEC. 133. (a)(1) In addition to the requirement for United States-flag carriage of a percentage of gross tonnage imposed by section 901(b)(1) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1241(b)(1)), 25 per centum of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs subject to such section and specified in subsection (b) shall be transported on United States-flag commercial vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) an additional quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) an additional quantity equal to 20 percent of the gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) an additional quantity equal to 25 percent of the gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of Transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in section 132(5).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretary of Transportation shall also administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a manner which preserves to the greatest extent practicable the mean historical port range share of cargoes subject to United States-flag transportation requirements under this section exported from the Atlantic, Gulf, Pacific, and Great Lakes port ranges.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price as to agricultural commodities or the products thereof shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any other type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) The National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean freight and ocean freight differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month

preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such costs shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight charges resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transportation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 24 members.

(2) Sixteen members of the Commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Subcommittee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4)(A) Eight of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining eight members appointed by the President shall be representatives of the United States-flag maritime industry, four of whom shall represent labor and four of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendations to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC. 138. (a) Each department, agency, and instrumentality of the United States, including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b)(8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code."

ABDNOR AMENDMENT NO. 918

(Ordered to lie on the table.)

Mr. ABDNOR submitted an amendment intended to be proposed by him to the bill S. 1714, supra; as follows:

On page 33, between lines 11 and 12, insert the following new section:

IMPORT TRANSPORTATION OF AGRICULTURAL COMMODITIES

SEC. 113. (a) Not less than 50 percent of the gross tonnage of agricultural commodities produced in a foreign country and imported into the United States must be transported in privately owned United States-flag vessels if the country in which the commodities were produced subsidized the export of such commodities. The foregoing requirement shall be enforced only to the extent that such vessels are available at fair and reasonable rates relative to rates generally charged by privately owned United States-flag vessels for the transportation of the commodities concerned.

(b) In computing the gross tonnage of agricultural commodities exported to the United States by any foreign country, such tonnage shall be computed separately for dry bulk carriers, dry cargo liners, and tankers.

(c) The requirement of subsection (a) shall be administered in such a manner as will, to the maximum extent practicable, ensure the fair and reasonable participation of privately owned United States-flag vessels on a geographic basis.

(d) The term "privately owned United States-flag vessel" shall have the same meaning for purposes of this section as the term "privately owned United States-flag commercial vessel" has for purposes of section 901(b) of the Merchant Marine Act of 1936 (46 U.S.C. 1241(b)).

(e) The President or the Secretary of Defense may temporarily suspend the operation of this section by the issuance of a

proclamation declaring that an emergency exists which necessitates such action.

(f) This section shall not apply to cargo transported in vessels of the Panama Canal Company.

(g) The Secretary of Commerce shall submit a report each year to the Congress reviewing the operation of this section during the preceding year and shall include in such report such recommendations for legislation for improving such operations as he considers appropriate.

(h) The Secretary of Commerce shall prescribe regulations for the implementation of this section.

(i) Nothing in this section shall be construed as modifying or superseding the Act of March 26, 1934 (chapter 90) (46 U.S.C. 1241-1).

Renumber the following sections accordingly.

BUMPERS AMENDMENT NO. 919

(Ordered to lie on the table.)

Mr. BUMPERS submitted an amendment intended to be proposed by him to the bill S. 1714, supra; as follows:

At the appropriate place in the bill, add the following new section:

SEC. . Section 11 of the Act of May 29, 1884 (23 Stat. 31, chapter 60; 21 U.S.C. 114a), is amended—

(1) by designating the first and second sentences as subsections (a) and (c) respectively; and

(2) by inserting after subsection (a) (as designated by clause (1)) the following new subsection:

"(b) If the Secretary, in cooperation with a State or political subdivision thereof, conducts a program to control and eradicate brucellosis of domestic animals and provides money to such State or political subdivision under such program for the payment of claims growing out of the destruction of animals, and of materials, affected by or exposed to brucellosis, upon notification of the Secretary, such State or political subdivision may use such money for any of the following purposes or combination of purposes:

"(1) to test and vaccinate animals for brucellosis; and

"(2) to pay claims growing out of the destruction of female animals affected by or exposed to brucellosis; and

"(3) to pay claims growing out of the destruction of nursing female animal offspring of female animals affected by or exposed to brucellosis, in lieu of claims growing out of the destruction of female animals; and

"(4) to pay claims growing out of the destruction of entire herds of animals.".

BUMPERS (AND PRYOR) AMENDMENT NO. 920

(Ordered to lie on the table.)

Mr. BUMPERS (for himself and Mr. PRYOR) submitted an amendment intended to be proposed by them to the bill S. 1714, supra; as follows:

At the appropriate place in the bill, add the following:

SEC. . Section 1503 of title 7, United States Code, is amended by striking the period at the end of the section and inserting in lieu thereof the following: "; *Provided,* That the Corporation shall establish and maintain in the State of Arkansas a field operations branch office which shall have Arkansas as its sole area of service.".

BOSCHWITZ (AND OTHERS) AMENDMENT NO. 921

Mr. BOSCHWITZ (for himself, Mr. NICKLES, Mr. DANFORTH, Mr. DIXON, and Mr. DURENBERGER) proposed an amendment to amendment No. 916 proposed by Mr. INOUYE to the bill S. 1714, supra; as follows:

At the end of amendment No. 916, insert the following:

"FAIR AND REASONABALE RATE

"SEC. . Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) is amended by inserting the following after the first sentence in subsection (b):

"The rate charged by a United States flag-commercial vessel for transporting cargoes subject to this section and the Joint Resolution of March 26, 1934 (48 Stat. 500, 46 U.S.C. 1241-1) shall be deemed to be fair and reasonable only if such rate—

"(A) for the fiscal year ending September 30, 1986, is no greater than 175 per centum of the rate charged for transporting the same cargo on a foreign-flag commercial vessel;

"(B) for the fiscal year ending September 30, 1987, is no greater than 160 per centum of the rate charged for transporting the same cargo on a foreign-flag commercial vessel, and

"(C) for the fiscal year ending September 30, 1988, and each fiscal year thereafter, is no greater than 140 per centum of the rate charged for transporting the same cargo on a foreign-flag commercial vessel."

MATHIAS AMENDMENT NO. 922

(Ordered to lie on the table.)

Mr. MATHIAS submitted an amendment intended to be proposed by him to the bill S. 1714, supra; as follows:

Beginning on page 295, strike out line 24 and all that follows through line 3 on page 296 and insert in lieu thereof the following:

SEC. 1517. (a) Section 1463(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3311(a)) is amended by striking out "$890,000,000 for the fiscal year ending September 30, 1985" and inserting in lieu thereof "$890,000,000 for each of the fiscal years ending September 30, 1985, through September 30, 1989, of which not less than $500,000 shall be made available each such fiscal year for research to control or eradicate Africanized honey bees".

HARKIN (AND OTHERS) AMENDMENT NO. 923

Mr. HARKIN (for himself, Mr. GRASSLEY, Mr. BOSCHWITZ, Mr. BOREN, Mr. ZORINSKY, Mr. DIXON, Mr. SIMON, Mr. MELCHER, Mr. EXON, Mr. NICKLES, and Mr. PRYOR) proposed an amendment to amendment No. 916 proposed by Mr. INOUYE, as amended, to the bill S. 1714, supra; as follows:

At the end of the pending amendment, add the following.

TRANSFER OF RESPONSIBILITY FOR THE PAYMENT OF CERTAIN TRANSPORTATION COSTS

SEC. . (a) Section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)) is amended to read as follows:

"(f) Export or cause to be exported, or aid in the development of foreign markets for, agricultural commodities, except that no funds or assets of the Corporation may be used to pay for, or otherwise finance, the ocean freight charges for any such export to the extent that such charges are higher than would otherwise be the case by reason of a requirement that the commodities be transported in United States-flag vessels.".

(b)(1) Notwithstanding any other provision of law, the Secretary of Defense shall pay the ocean freight charges for the export of agricultural commodities arranged by or through the Commodity Credit Corporation under section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)), or under any other law, to the extent that such charges are in excess of what they would otherwise be because of a requirement that the commodities be transported in United States-flag vessels.

(2) There are authorized to be appropriated to the Secretary of Defense, for each fiscal year after fiscal year 1985, such sums as may be necessary to pay the ocean freight charges the Secretary is required to pay under paragraph (1) in such year.

(c) The amendment made by subsection (a) shall apply to shipments of agricultural commodities made after enactment of the Agriculture, Food, Trade, and Conservation Act of 1985."

NICKLES AMENDMENT NO. 924

Mr. NICKLES (for himself and Mr. BOREN) proposed an amendment to amendment No. 916 proposed by Mr. INOUYE, as amended, to the bill S. 1714, supra; as follows:

At the end of amendment No. 916, insert the following:

"AVAILABILITY OF VESSELS

"SEC. . Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) is amended by inserting the following after the first sentence in subsection (b):

"No United States-flag commercial vessel shall be deemed to be available for the transportation of cargoes subject to Section 901 of the Merchant Marine Act, 1936 (46 U.S.C. 1241) and the Joint Resolution of March 26, 1934 (48 Stat. 500, 46 U.S.C. 1241-1) unless such vessel has been certified by the Secretary of the Navy, upon the recommendation of the Chief of Naval Operations, as being necessary to carry out the defense of the United States and its allies.".

DIXON (AND OTHERS) AMENDMENT NO. 925

Mr. DIXON (for himself, Mr. SIMON, Mr. BOSCHWITZ, and Mr. LEVIN) proposed an amendment to the amendment No. 916 proposed by Mr. INOUYE, as amended, to the bill S. 1714, supra; as follows:

In the pending amendment, strike all after "Sec. 131." and insert in lieu thereof the following:

"(a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominat-

ed by foreign trade barriers and the subsidization practices of foreign governments;

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in this subtitle—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture; and

(5) to stimulate and promote both the agricultural and maritime cooperative efforts by both industries to address their common problems.

EXEMPTION OF CERTAIN AGRICULTURAL COMMODITIES FROM THE REQUIREMENTS OF THE CARGO PREFERENCE LAWS

SEC. 132. The requirements of section 901(b)(1) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), and the Joint Resolution of March 26, 1934 (46 U.S.C. 1241-1), shall not apply to any export activities of the Secretary of Agriculture or the Commodity Credit Corporation—

(1) under which agricultrual commodities or the products thereof acquired by the Commodity Credit Corporation are made available to United States exporters, users, processors, or foreign purchasers for the purpose of developing, maintaining, or expanding export markets for United States agricultural commodities or the products thereof at prevailing world market prices;

(2) under which payments are made available to United States exporters, users, or processors or, except as provided in section 133(b)(6), cash grants are made available to foreign purchasers, for the purpose described in clause (1);

(3) under which commercial credit guarantees are blended with direct credits from the Commodity Credit Corporation to reduce the effective rate of interest on export sales of United States agricultural commodities or the products thereof;

(4) under which credit or credit guarantees for not to exceed 3 years are extended by the Commodity Credit Corporation to finance or guarantee export sales of United States agricultural commodities or the products thereof; or

(5) under which agricultural commodities or the products thereof owned, controlled, or held as loan security by the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services, but only if such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference previsions refered to in section 132 any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

EXPANSION OF CARGO PREFERENCE APPLICATION

SEC. 133. (a)(1) In addition to any quantity of agricultural commodities and the products thereof required under section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)(1)), to be transported in United States-flag vessels, a volume equal to 25 percent of the gross tonnage of agricultural commodities or the products thereof shipped under the agricultural export programs specified in subsection (b) of this section shall be transported on United States-flag vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) a quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) a quantity equal to 20 percent of such gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) a quantity equal to 25 percent of such gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(3) In implementing the requirements of paragraph (1), the Secretary of transportation shall give due consideration to the availability of United States-flag vessels to transport the commodities referred to in such paragraph.

(b) This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1);

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which cash grants are made available to foreign purchasers for the purpose of enabling such purchasers to acquire United States agricultural commodities or the products thereof if the cash grants are in amounts that result in the purchaser (after receipt of such grants) paying less than the prevailing world market price for such commodities; or

(7) under which agricultural commodities owned, controlled, or held as loan security by the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in subsection (d).

(c)(1) The requirement for United States-flag transportation imposed by subsection (a) shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936 (46 U.S.C. 1241(b)).

(2)(A) In order to carry out effectively the requirements of this subtitle, the Secretary of Transportation shall, to the maximum extent practicable within the requirements of this section and section 901(b) of the Merchant Marine Act, 1936, administer this subtitle and section 901(b) of the Merchant Marine Act, 1936, in a flexible manner, giving due consideration to historical trading patterns and to divisions in United States international shipping trades between bulk and liner service to particular geographic areas.

(B) The Secretaries of Agriculture and Transportation shall administer the cargo preference laws in such a way that they preserve the mean historic port range share of cargoes subject to the cargo preference requirements for those processed, fortified or bagged agricultural commodities which are exported as assistance or a donation pursuant to Title II of the Agricultural Trade Development Act of 1954 from all four port ranges. For the purposes of this paragraph, the term, "mean historic port range share," is defined as the average of the annual per centum of any such processed, fortified or bagged agricultural commodities, which are exported as assistance or as a donation pursuant to Title II of the Agricultural Trade Development and Assistance Act of 1954, shipped over the four-year period from calendar year 1980 through calendar year 1983.

(d) As used in subsection (b), the term "export activity", shall not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e)(1) The prevailing world market price shall be determined under this subtitle in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5, United States Code.

(2) In the event that a determination of the prevailing world market price of any type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7), such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

MINIMUM TONNAGE

SEC. 134. (a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities that may be exported under programs subject to section 133 shall be the average of the tonnage exported under such programs during the base period defined in subsection (b), discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

FINANCING OF SHIPMENT OF AGRICULTURAL COMMODITIES IN UNITED STATES-FLAG VESSELS

SEC. 135. (a) The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 133(a). The amount to be financed by the Secretary shall be an amount of the total freight charges incurred from the application of such section in such fiscal year equal to a fraction of the total ocean freight differential incurred in connection with the export activities specified in such section in such fiscal year, the numerator of such fraction to be equal to the percentage in excess of 50 of the tonnage of agricultural commodities or the products thereof that are shipped on United States-flag vessels, and the denominator of such fraction to be equal to the total percentage of such tonnage so shipped.

(b)(1) If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 133(b) exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 403(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(b)).

(2)(A) the National Advisory Commission on Agricultural Export Transportation Policy established under section 136 shall include in its final report to the President and the Congress recommendations for any changes in the provisions of paragraph (1) that would help assure that the cost of ocean frieght and ocean frieght differential incurred by the Department of Agriculture and the Commodity Credit Corporation on the agricultural export programs specified in section 133(b), is not increased above historical levels as a result of the extra demand for United States-flag vessels caused by this subtitle.

(B) After taking into consideration the recommendations of the Commission referred to in subparagraph (A), the President may, by proclamation, provide requirements for the assumption by the Department of Transportation of a portion of the cost of ocean freight and ocean freight differential that would otherwise be incurred by the Department of Agriculture and the Commodity Credit Corporation on a different basis than that set forth in paragraph (1) in order to accomplish the objectives of subparagraph (A). The provisions of paragraph (1) shall be inapplicable on and after the effective date of the proclamation.

(c) For the purpose of meeting those expenses required to be assumed under subsections (a) and (b), the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, after the date of the enactment of this Act and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight changes resulting from the requirements of subsections (a) and (b) and section 133(a), the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

NATIONAL ADVISORY COMMISSION ON AGRICULTURAL EXPORT TRANSPORTATION POLICY

SEC. 136. (a) There is hereby established an advisory commission to be known as the National Advisory Commission on Agricultural Export Transporatation Policy (hereafter in this subtitle referred to as the "Commission").

(b)(1) The Commission shall be composed of 16 members.

(2) Eight members of the commission shall be appointed by the President.

(3) The chairman and ranking minority members of the Senate Committee on Agriculture, Nutrition, and Forestry, of the Subcommittee on Merchant Marine of the Senate Committee on Commerce, Science, and Transportation, of the House Committee on Agriculture, and of the House Committee on Merchant Marine and Fisheries shall serve as members of the Commission.

(4) (A) Four of the members appointed by the President shall be representatives of agricultural producers, cooperatives, merchandisers, and processors of agricultural commodities.

(B) The remaining four members appointed by the President shall be representatives of the United States-flag maritime industry, two of whom shall represent labor and two of whom shall represent management.

(c)(1) The members of the Commission shall elect a Chairman from among its members.

(2) Any vacancy in the Commission shall not affect its powers but shall be filled in the same manner in which the original appointment was made.

DUTIES OF THE COMMISSION

SEC. 137. (a) It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 132 and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. In carrying out such study and review, the Commission shall consider the extent to which any unfair or discriminatory practices of foreign governments increase the cost to the United States of transporting agricultural commodities subject to such cargo preference laws.

(b)(1) The Commission shall submit an interim report to the President and the Congress not later than one year after the date of the enactment of this subtitle and such other interim reports as the Commission considers advisable.

(2) The Commission shall submit a final report containing its findings and recommendation to the President and the Congress not later than two years after the date of the enactment of this subtitle.

(3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) The Commission shall include in its reports submitted pursuant to subsection (b) recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 132:

(1) Ensuring that the timing of commodity purchase agreements entered into by the United States in connection with the export of such commodities, and the methods of implementing such agreements, are such as to minimize cost to the United States.

(2) Ensuring that shipments of such commodities are made on the most modern and efficient United States-flag vessels available.

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(B) charters for intermediate or long term;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

INFORMATION AND ASSISTANCE TO BE FURNISHED TO THE COMMISSION

SEC.138. (a) Each department, agency, and instrumentality of the United States, including independent agencies, shall furnish to the Commission, upon request made by the Chairman, such statistical data, reports, and other information as the Commission considers necessary to carry out its functions under this subtitle.

(b) The Secretary of Agriculture and the Secretary of Transportation shall make available to the Commission such staff, personnel, and administrative services as may reasonably be required to carry out the Commission's duties.

COMPENSATION AND TRAVEL AND SUBSISTENCE EXPENSES OF COMMISSION MEMBERS

SEC. 139. Members of the Commission shall serve without compensation in addition to compensation they may otherwise be entitled to receive as employees of the United States or as Members of Congress, but shall be reimbursed for travel, subsistence, and other necessary expenses incurred in the performance of duties vested in the Commission.

AUTHORIZATION OF APPROPRIATIONS

SEC. 140. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this subtitle.

TERMINATION OF SUBTITLE

SEC. 141. The operation of this subtitle shall terminate 90 days after the date on which a notification is made pursuant to section 135(e), except with respect to shipments of agricultural commodities and products subject to contracts entered into before the expiration of such 90-day period, unless within such 90-day period the Secretary of Transportation proclaims that funds are available to finance increased freight charges resulting from the requirements of sections 133(a) and 135 (a) and (b).

EFFECT ON OTHER LAWS

SEC. 142. This Act shall not be construed as modifying in any manner the provisions of section 4(b)(8) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(8)) or chapter 5 of title 5, United States Code.

NOTICES OF HEARINGS

COMMITTEE ON RULES AND ADMINISTRATION

Mr. MATHIAS. Mr. President, I wish to announce that the Committee on Rules and Administration will meet at 9:30 a.m., on Tuesday, November 5, 1985, in SR-301, Russell Senate Office Building, to receive testimony on S. 1787, a bill to provide for public financing of Senate general election campaigns. Senators and other interested organizations and individuals who wish to testify or to submit a statement for the hearing record are requested to contact Elaine Milliken at (202) 224-3449.

For further information regarding this hearing, please call Rules Committee staff at (202) 224-3448.

COMMITTEE ON SMALL BUSINESS

Mr. WEICKER. Mr. President, I would like to announce that the Senate Small Business Committee's oversight hearing on the Small Business Administration's Veterans Assistance Programs has been postponed until further notice. For further information, please contact Lisa Linden, of the committee staff at 224-5175.

SUBCOMMITTEE ON WATER AND POWER

Mr. MURKOWSKI. Mr. President, I would like to announce for the information of the Senate and the public that the Subcommittee on Water and Power of the Committee on Energy and Natural Resources has scheduled a public hearing on Tuesday, December 10, 1985, at 10 a.m., in room SD-366 of the Dirksen Senate Office Building, Washington, DC. The subcommittee will receive testimony on S. 1785, a bill to amend the Garrison Diversion project.

Those wishing to testify or who wish to submit written statements for the hearing record should write to the Committee on Energy and Natural Resources, Subcommittee on Water and Power, United States Senate, Washington, DC 20510.

For further information regarding this hearing, please contact Mr. Russell Brown of the subcommittee staff at 202-224-2366.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON RULES AND ADMINISTRATION

Mr. HELMS. Mr. President, I ask unanimous consent that the Committee on Rules and Administration be authorized to meet during the session of the Senate on Tuesday, October 29, to hold a business meeting, to consider pending legislative and administrative items.

The PRESIDING OFFICER. Without objection, it is so ordered.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. HELMS. Mr. President, I ask unanimous consent that the permanent Subcommittee on Investigations, of the Committee on Governmental Affairs be authorized to meet during the session of the Senate on Tuesday, October 29, 1985, in order to conduct a hearing on the Federal Enforcement of the Bank Security Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON PUBLIC LANDS, RESERVED WATER, AND RESOURCE CONSERVATION

Mr. HELMS. Mr. President, I ask unanimous consent that the Subcommittee on Public Lands, Reserved Water and Resource Conservation of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Tuesday, October 29, to hold a hearing on the following pieces of legislation:

S. 1107—To authorize the Society of the Third Infantry Division to erect a memorial in the District of Columbia or its environs;

S. 1223—To authorize the erection of a memorial on Federal land in the District of Columbia or its environs to honor members of the Armed Forces of the U.S. who served in the Korean War;

S. 1379—To authorize the erection of a monument given to the American people as a gift of the Kingdom of Morocco, on public grounds in the District of Columbia;

S.J. Res. 143—To authorize the Black Revolutionary War Patriots Foundation to establish a memorial in the District of Columbia at an appropriate site in Constitution Gardens;

S.J. Res. 184—To authorize the Korean War Memorial, Inc. to erect a memorial in the District of Columbia or its environs.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. HELMS. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Tuesday, October 29, in order to receive testimony on S. 1335, Money Laundering and Related Crimes Act of 1985.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Tuesday, October 29, in order to receive testimony during a closed hearing on the nomination of Stanley Sporkin, of Maryland, to be U.S. district judge for the District of Columbia.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON DEFENSE ACQUISITION POLICY

Mr. HELMS. Mr. President, I ask unanimous consent that the Subcommittee on Defense Acquisition Policy of the Committee on Armed Services be authorized to meet during the session of the Senate on Tuesday, October 29, to receive testimony on the implication of the 1984 defense procurement legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. HELMS. Mr. President, I ask unanimous consent that the Committee on Commerce, Science and Transportation be authorized to meet during the session of the Senate on Tuesday, October 29, to conduct a meeting on the Oversight of Motor Carrier Safety Act of 1984.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

NICARAGUAN ABRIDGMENT OF CIVIL LIBERTIES

● Mr. BENTSEN. Mr. President, over these past months as we have debated the question of what our national policy toward Nicaragua ought to be, many of us have expressed our concern about the direction that the Sandinistas seemed to be taking the government of that country. We expressed the view that as self-avowed Marxist-Leninists, the Sandinistas did not come out of a political tradition that encouraged pluralism and dissent. Indeed, it appeared to many of us that the few signs of political tolerance and respect—even minimal respect—for opposition views in Nicaragua were designed more as a public relation ploy

than as any kind of indication of what would happen if the Sandinistas succeeded in consolidating their power.

Troubling episodes like the continuing intermittent censorship of La Prensa, the one opposition newspaper in Nicaragua, and a refusal to allow the homilies of Cardinal Migual Obando y Bravo to be broadcast without prior submission to the government censor were dismissed by the Sandinistas leadership as merely "excesses of the bureaucracy" or "military necessity." The cynicism of the nine comandantes became quite evident when patterns of censorship were examined: Lesser censorship as congressional votes on aid to the Contras was imminent, followed by a greater imposition of censorship when the votes were done.

Nevertheless, critics of U.S. policy toward Nicaragua could somehow comfort themselves with the belief that things were not as bad there as they might have been, and that overall there was reason to hope that the situation might improve with time. Such hopes recently received a cruel blow when Nicaraguan President Daniel Ortega announced a new and far-ranging state of emergency. An indication of the extent of his actions is evident in the titles to editorials in two of our Nation's leading newspapers: "Nicaragua Bares the Nightstick," was the way the New York Times, October 18, analyzed it, while the Washington Post, October 21, addressed its editorial to "Regression in Nicaragua."

Neither of these newspapers has a history of strong support for the administration's policies toward Nicaragua; the opposite would be closer to the truth. But Ortega's actions were so outrageous that reasonable people all across the political and ideological spectrum have cause to be troubled by what is happening in Nicaragua.

The state of emergency declared by Ortega on October 15 was but the culmination of a month of repressive actions by the Sandinistas, primarily directed against the Roman Catholic Church and its dynamic leader, Cardinal Obando y Bravo. This period began on September 12 when armed Sandinista officials raided the studios of Radio Catolica and stopped the broadcast of the Cardinal's prerecorded homily. A La Prena article reporting the raid was censored. On September 25 armed Sandinista officials again raided the studios of Radio Catolica and again interrupted the broadcast of the Cardinal's homily. On September 26, the Ministry of the Interior informed the church that the mass could not be broadcast without prior censorship.

On October 10 the church was informed that its new newspaper La Iglesia was required to register with the Ministry of the Interior. The church protested that this would result in prior censorship. On October 12 the first issue of La Iglesia was published. Trucks carrying copies of the newspaper to churches were stopped by police and the copies were confiscated. The driver was forced to retrace his route, and previously delivered copies were also confiscated. Armed guards then went to the church offices and took the remaining copies of the newspaper, together with printing equipment, printing plates, and negatives. In response, the church then submitted the application for registering La Iglesia to the Ministry of the Interior. The application was rejected, and authority to publish was denied.

Finally, on October 15, came Ortega's sweeping announcement of new or reinstated measures that could end virtually all of the remaining civil liberties in Nicaragua. Under these new measures, Nicaraguans can no longer form labor unions or go on strike; can no longer hold rallies or demonstrations; and can no longer move freely throughout the country or live where they wish. Ortega's decree also suspended for 1 year the right to a speedy trial; the right to appeal convictions; the right against imprisonment except for cases specified in law; presumption of innocence until proven guilty; right to privacy of mail; and the right to refuse to incriminate oneself.

Apologists for the Sandinistas may well echo the official Nicaraguan line in suggesting that the Government of Nicaragua was driven into these actions by the military activities of the contras. This is ironical in light of the offical Sandinista pronouncement that the contras are on the verge of defeat.

I would suggest instead that they were driven to these actions by the growing expressions of discontent in Nicaragua and the Sandinista realization that the contras are a force which is accumulating the strength needed to mount major military operations against the Soviet-supplied Sandinista army. Resistance to the reimposition of the draft and the growing outspokenness of the token political opposition are strong indications that the Sandinistas are losing their hold on the populace in Nicaragua. Ortega's actions are the traditional response of a totalitarian state confronted with internal opposition, and given the models set for him by his Cuban, East German, Bulgarian, and Soviet advisers, it is unrealistic to have expected him to react in any other way.

Virgilio Godoy, the respected head of the Independent Liberal Party in Nicaragua, announced that Ortega's actions were a "near-fatal blow to the political process in Nicaragua," and I do not see how they can be read any differently. Anyone who had the slightest doubts about the direction the Sandinistas are taking Nicaragua should have had them removed by these latest actions; and anyone who has wondered about what would happen in Nicaragua if the pressure exerted by the Contras were removed should have had their eyes opened. If there is one lesson to come out of this for those of us who will have to make decisions next year on further support for the Contras, it is that we have seen what the future would be, Sandinista style.●

IMPOSITION OF ECONOMIC SANCTIONS AGAINST REPUBLIC OF SOUTH AFRICA

● Mr. GORE. Mr. President, it is an honor for me to include in the CONGRESSIONAL RECORD a resolution by the City Council of Memphis, TN. This resolution urges the U.S. Congress to enact legislation which will impose economic sanctions against the Republic of South Africa, and it urges the President of the United States to act more forcefully to aid in this process. Finally, the Memphis City Council requests companies in Memphis to withdraw their investments from South Africa. On behalf of the city council of Memphis, TN, I am pleased to introduce this statement calling for racial justice and expressing our Nation's aversion to South Africa's apartheid system.

The resolution follows:

RESOLUTION

Whereas, the Republic of South Africa has systematically excluded more than 16 million black people of that country from full and equal citizenship as well as other basic human rights; and

Whereas, this procedure has taken the form of denying black people the ballot, keeping black people in servitude through starvation wages and enforcing blacks to keep "their place" through the use of the club, the whip, and the gun; and

Whereas, such systematic exclusion from full citizenship and denial of basic human liberties have resulted in the unjustified death and displacement of thousands of innocent blacks in South Africa; and

Whereas, this system of apartheid is the epitome of racial bigotry enthroned with power which torments, tortures, and terrifies the black people of that Country; and

Whereas, such atrocities are blatantly offensive to the basic American principles of "life, liberty and the pursuit of happiness"; and

Whereas, it is incumbent on all Americans to join in a united voice of moral indignation at this outrage against humanity.

Now, therefore, be it resolved by the Memphis City Council, that the United States Congress be encouraged to enact legislation which will impose economic sanctions on the Republic of South Africa, that the President of the United States be encouraged to act more forcefully to aid this process, and that companies in Memphis be encouraged to withdraw their investments from South Africa.

Be it further resolved that a copy of this resolution be forwarded to President Ronald Reagan and to the Congress of the United States.●

THREE-YEAR-OLD BURN VICTIM BRINGS HOPE TO FAMILY, FRIENDS

● Mr. DURENBERGER. Mr. President, I would like to share with you and my distinguished colleagues a story about the courage of a young Minnesotan, and the hope he gives those he touches.

Three-year-old Charlie Willette was burned in a tragic fire in his house in Lake Park, MN. Over 95 percent of his body was covered with third-degree burns. His skin was burned off and he had no sweat glands or hair left. Statistically, in a case like Charlie's he should not be alive today.

But Charlie has determination. Behind a clear plastic mask and an elasticized body suit, Charlie braved the physical pain and emotional trauma of his recovery with the courage one would scarcely expect from a 3-year-old.

And as Charlie is struggling along, fighting for a chance to be like "normal" kids, he gives strength and hope to his family—who have struggled right along with him—and those around him.

I ask that a recent article on Charlie Willette from the Minneapolis Star & Tribune of October 6, 1985, be inserted in the RECORD.

The article follows:

He Gives Strength in Family Tragedy

(By Paul Levy, staff writer)

FARGO, ND.—It was months after the fire before Charlie could look at his reflection without frightening himself or breaking into tears.

No longer did he see a fair-skinned, blond-haired boy with a turned-up nose. No longer did he see the spitting image of his older brother, Jimmy.

Now when 3-year-old Charlie Willette gazed into a mirror, he saw a clear plastic mask that hardly hid massive burns and facial scars—or the physical and emotional pain they brought. He saw only a few strands of hair atop a head that was a dark pink. He was a little boy in an elasticized body suit whose right arm, attached to a splint, extended at a 90-degree angle, making him look almost like a living scarecrow.

Others saw something else in Charlie, who was burned along with his mother and brother in a fire in their home near Lake Park, Minn.

Karen Sevigny, the occupational therapist who works with Charlie, called him "one of the most courageous human beings to set foot in St. Luke's Hospital in a long time."

Then there was that day last July when, after five months of hospitalization, Charlie walked into the hospital's day-care center to meet the "normal" children of the medical staff.

Some of the children wanted to touch Charlie—as if to see if he were real. Some were afraid of him. Two children cried.

Charlie told them simply, "You may not like me now, but wait until you get to know me."

A week later, the children were hugging and kissing him.

For Debbi Willette, her son's ordeal was one more chapter in "a lousy life."

At 22, she was the mother of four young children. Her husband, a sheetrock worker, was unemployed. They lived in what was once a granary on her in-laws' farm.

They had few material possessions, and with the exception of some tools, nothing was insured. Insurance? There were more immediate concerns. They'd just spent their last $15 on groceries and laundry, Debbi Willette recalled. That was Feb. 20—Ash Wednesday—the day a wood-stove fire robbed Deb Willette of her home, her possessions and, she said, her faith.

Her husband and two oldest children watched outside in horror as Deb Willette, who had been on crutches since falling down a flight of stairs three days earlier, somehow stumbled out of the blazes with a child in each arm, their bodies afire as they collapsed.

"I remember bouncing on my butt down the stairs, holding my kids and crawling outside," she said recently. "I knew I was on fire, but I couldn't let anything get between me and my kids."

Her son Jeff, then 14 months old, suffered third-degree burns over 65 percent of his body—nearly everywhere but his face. Willette herself had third-degree burns on 35 percent of her body—mostly her back, arms, nose and the back of her head. They were released from the hospital on Good Friday, six weeks after the fire.

"Every time I've turned to God, I've gotten nothing out of it," she said as she sat in a corridor of St. Luke's Hospital in Fargo, about 45 miles west of Lake Park. "I'd like to believe there is a God, but . . . I guess what I could use right now is a miracle or two."

No sooner had she uttered those words than a walking "miracle" turned the corridor corner and approached her. It was Charlie.

"It really is a miracle that Charlie's alive," said Dr. David Todd, the burn specialist who treated Charlie. "He had third-degree burns on 95 percent of his body. That means all the skin was burned off with no sweat glands or hair left. . . . For a case like Charlie's, statistics would indicate 100 percent mortality.

"I feel he lived because a lot of people were praying for him. It was God's will that he lived. There's no other way to explain it."

Added Wayne Allard, the St. Luke's pediatrics social worker who has assisted the entire Willette family: "I think this boy is an incredible testimony to the will-to-live concept. This is a tough kid. How do you measure a heart that big in a body so small?"

Charlie remained in the hospital until August 29, more than six months after the fire; he and Jeff still return to St. Luke's for daily therapy treatments.

Only an area at the rear of Charlie's head and beneath his left arm were not burned. Skin has been taken from these areas and stretched to six times its previous size, Todd said. The skin will grow back there and can be "harvested" again for future grafts.

Charlie's mask applies pressure to scars, preventing tissue buildup that could eventually force his eyes shut or change the shape of his mouth. New masks are made as tissues grow.

The Jobst body suit, worn by all three Willettes, is very tight to prevent scarring. The splint prevents potential webbing under Charlie's arm, Sevigny explained.

Tight gloves prevent cracking and cuts between Charlie's fingers, which no longer bend as they once did. Ointment must be applied to Charlie's skin to keep it moist; itching is a constant problem.

A recent conversation between Charlie and Sevigny exemplified Charlie's resiliency. Sevigny tried to adjust Charlie's arm splint; Charlie, in his loud, raspy whisper, objected.

Charlie: "Ouch! To tight!"

Sevigny: "Where does it hurt, honey?"

Charlie: "Take it off!"

Sevigny: "Do you want to play a game?"

Charlie: "No. Help me. My pinky hurts. I'm trying to bend (it). I can't."

Sevigny: "Is your pinky on vacation today?"

Charlie: "Yes. . . . We watched Popeye the other night."

Sevigny: "Was it fun? (Pause.) Honey, I'm going to have to adjust your new mask."

Charlie: "It itches my neck."

Sevigny: "This is your he-man's mask. And who's a he-man?"

Charlie: "Me!"

"We have to work on self-image," Sevigny explained. "He doesn't mind looking in the mirror, but the way he looks still bothers him. He's coming along. He'll probably be coming for this kind of therapy for another year or two. Any plastic surgery will have to come later."

While the Willettes' physical problems are the family's primary concerns, there are also financial and emotional headaches.

Medical Assistance and Social Security disability have paid the medical expenses. A fund-raiser at Audubon, Minn., last March produced about $50,000 for a new house, food and incidentals, Deb Willette said. Most of that has been spent on the house.

(Contributions are still being accepted, care of State Bank of Lake Park/Willette Fund, Box 449, Lake Park, Minn. 56554.)

Chuck Willette, 22, has not worked since the fire. He said that until he finishes the house he will not have time to look for a job. Meanwhile, the Willettes live in a 10-by-50-foot trailer. The cramped quarters have occasionally frayed the parents' nerves.

"People say it pulls a family closer," said Deb Willette, now 23. "I don't know. It tore our family apart quite a bit.

"I thought about suicide for a while. Everything made me irritable. Taking care of four kids, running back and forth to Fargo every day for treatment, not having Charlie home for so long, my own condition . . . I get on Chuck's nerves and then he asks, 'What am I supposed to do?' So we feud a lot, but it's not his fault or my fault. It's this whole situation."

Even before the fire, the Willettes' situation was difficult, social worker Allard noted: two young adults with four children and little money.

"These people have been together since they were youngsters, through many crises," he said of the parents. "This is not a tender couple. Yet, there is love there. You see the way they interact with the children, how they've taken care of each other.

"By no means is this a typical family. Yet, the way they've handled things is very typical of a strong family meeting a crisis. I wonder often how they do it."

Everyone seems to pitch in. Angela, 6, fetches Jeff's diapers or helps Charlie in and out of the car. Jimmy, 5, does his part by playing with his brothers—as he always did.

But the real key to the Willettes' survival could very well be the little boy behind the plastic mask.

"Every day, I ask myself, 'Why me?' More often, I ask, 'Why Charlie?' " Deb Willette said. "But Charlie will get through this. He's a tough little German, just like his father, and he's gotten this far."

Charlie walked over to his mother, poked at her legs and told her, "My face mask is in my eyes, my back itches, I need a drink of water."

His mother adjusted his mask, placed him on her knee and began to scratch his back. She shook her head and smiled.

"Hey, Charlie," she said. "Want to tell me about Popeye?"●

NATIONAL SCHOOL AGE CHILD CARE AWARENESS WEEK

● Mr. D'AMATO. Mr. President, I rise in support of National School-Age Child Care Awareness Week, Senate Joint Resolution 181. I am pleased to be a cosponsor of this legislation that focuses on safe, quality child care.

Children are our most precious resource, they are the innocent future of this great country. Both children and parents must know that America is a safe place for them. They deserve nothing less. We must increase awareness of the needs of our schoolaged children and their families. Earlier this year, I introduced the National Child Protection Act (S. 142), to prevent the sexual abuse, exploitation, and molestation of our children. This legislation can provide us with the needed information to detect and deter the abuse of our children. Every opportunity that I get, I will make certain that child molesters know that we will not tolerate their abnormal behavior. Our children will be protected.

National School-Age Child Care Awareness Week increases public awareness of the needs of our youth, especially the millions of school-age children between the ages of 6 and 13. Many of these children are often referred to as latchkey children; they may return home to an empty house or in the supervision of a slightly older sibling.

The Congress has begun to focus attention on the issue of child care; in many instances we have been joined by the collaborative effort between families and the private sector. But, as this resolution states, it is crucial that more parents, communities, employers, and agencies serving our youth begin to address the problems facing our children. Therefore, I am pleased that the Congress has taken an active part on behalf of our children by including funding in the Labor-HHS appropriation bill to address the issue concerning latchkey children. We will continue our commitment to the young.

We must maximize our efforts on behalf of the young, innocent, and vulnerable. Mr. President, I firmly believe that this resolution will help toward this effort. It heightens awareness of this critical issue facing our young.

Mr. President, I will continue my fight to save our children. I urge my colleagues to join me in supporting this resolution. It heightens awareness of the need for a national response to the growing demand for child care for school-age children. Children must be our concern during National School-Age Child Care Awareness Week and every other week of the year.●

SALUTE TO ST. THOMAS COLLEGE

● Mr. DURENBERGER. Mr. President, this year marks the 100th anniversary of the founding of one of Minnesota's outstanding postsecondary education institutions—the College of St. Thomas in St. Paul.

Founded as a seminary by Archbishop John Ireland, St. Thomas is now home to more than 6,000 students in subjects ranging from the classics to business administration.

Particularly under the leadership of the college's current president, Monsignor Terrence Murphy, St. Thomas has adopted to the challenges now facing all postsecondary education institutions with a host of new programs and educational opportunities for traditional as well as nontraditional students.

Because of the substantial contributions which the College of St. Thomas has made, to its students and to the community at large, I ask that articles on the college's centennial, its history, and its current leadership be printed at this point in the RECORD.

The articles follow:

ST. THOMAS CELEBRATING ITS CENTENNIAL

(By Lucy Dalglish)

By all accounts, Archbishop John Ireland was a very determined man, a man with big plans for the St. Paul diocese.

On Sept. 8, 1885, less than a year after Ireland became archbishop, he founded the St. Thomas Aquinas Seminary to train priests and teach other young men interested in a classical education.

The aristocratic-looking Ireland probably would be the least surprised at the success of the seminary he founded along the east bank of the Mississippi River at the end of what later became Summit Avenue.

From its rustic beginnings on the old 60-acre Finn family farm to its present position as the largest private liberal arts college in Minnesota, St. Thomas has changed and grown with the community.

In its first decade, St. Thomas Aquinas Seminary was a Roman Catholic high school, college and seminary, and students were enrolled in either classical or theological departments.

When the St. Paul Seminary opened in 1894 on its present campus donated by James J. Hill just southwest of the college, the classical department was incorporated as the College of St. Thomas.

The first four years of the classical program (high school level) were called the academic department and eventually became the St. Thomas Military Academy, which moved to Mendota Heights in 1965.

The enrollment of the three institutions has grown more than a hundredfold in the past 100 years—from 62 students and a faculty of five priests in 1885 to more than 6,200 students and a faculty of about 400 at the college last year.

The enrollment makes St. Thomas the largest private liberal arts college in Minnesota, more than twice as large as its nearest competitor, St. Olaf College in Northfield, which has slightly more than 3,000 students.

The St. Paul Seminary currently enrolls 85 ordination candidates, five non-ordination candidates and about 100 students in evening courses and programs. St. Thomas Academy has 750 students in grades 7 through 12.

The joint centennial celebration for the college, seminary and academy will focus on the college and is being coordinated by college officials.

Archbishop Thomas Grace, Ireland's predecessor, purchased Finn's Farm, the homesite which is now occupied by the college chapel. He built an industrial school for boys there, and a three-story frame structure was in place when the deed to the land was put in Ireland's name in 1880.

Ireland added a wing to that building and opened the seminary, according to a history St. Thomas in "Private Liberal Arts Colleges in Minnesota," a book published by Carleton College scholar Merrill Jarchow. The first class included 24 seminarians and 38 students in the classicals department.

After two years, the enrollment stood at about 90 young men and remained at that level for the next decade. In 1894, the seminary's 65 seminarians moved across Summit Avenue to the seminary's present campus.

About the same time, the old classical department was incorporated into the "College of St. Thomas," with most of the control of the college in Ireland's hands.

Ireland also conveyed five acres of land in his name to the corporation and stipulated that the diocesan college should not be turned over to a religious order, such as the Jesuits, according to information in the St. Thomas archives. That document indicated the structures on the campus had cost $71,700 of which $45,800 had been paid from Ireland's own funds.

At Ireland's insistence in 1903, students were required to participate in uniformed military drill.

By 1906, St. Thomas was one of 18 out of 100 schools inspected by the U.S. Army to be declared a Class A military school. By 1911, the War Department proclaimed the St. Paul school the largest private military academy in the country.

In 1911, the college also began awarding bachelor's of arts degrees, according to Jarchow's history. By the time the United States entered World War I, there were five new buildings on campus.

By the early 1920s, however, St. Thomas was facing a crisis over accreditation and resources. New programs in journalism, law, education and a night school of commerce had been started.

But diocesan officials were pressed into action when they were informed by the University of Minnesota that St. Thomas was likely to lose its accreditation (acceptance of transfer credits) by the university.

WARNINGS UNHEEDED

According to Jarchow's history, among the university's criticisms were the "tangled situation" regarding accreditation of Naza-

reth Hall, a preparatory seminary mostly attended by high school aged boys, the commercial school, inadequate library and laboratory facilities, easy gradings and weaknesses in faculty.

Although warnings had been issued before, they apparently had gone unheeded, Jarchow said. In May 1928, the university's senate dropped St. Thomas' accreditation.

Despite Ireland's stipulation, his successor, Austin Dowling, decided to give the college to a religious order capable of turning it around quickly. In April 1928, he approached the Congregation of the Holy Cross of Notre Dame, Ind.

The college board transferred control of the college to the Holy Cross fathers for five years. When classes convened in the fall of 1928, there were 296 students in the academy and 343 in the college. The faculty was composed of 40 people, only two of whom held doctorates.

Despite the Depression, the Indiana order was successful at St. Thomas, Jarchow wrote. Collegiate enrollment rose from 482 in the fall of 1929 to 695 three years later.

The Holy Cross fathers had innovative ideas. In addition to new programs in physical education and fine arts, they presented drawings for a doomed football stadium.

Despite their success, the new archbishop, John Murray, ruled in 1933 that St. Thomas would remain a diocesan college and the Holy Cross Congregation left, somewhat in a huff.

POST WORLD WAR II

At the start of World War II, enrollment at the college dropped from 841 in 1942 to 351 in 1943. When the war ended, St. Thomas, like most colleges and universities, made up for lost war-time enrollments.

"When the war was over, everybody was happy. Things looked rosy," said Gerald Rauenhorst, a 1948 graduate and a college trustee since 1966. "I started at St. Thomas in July 1945. The war wasn't over yet, but my mother wouldn't let me enlist because I was only 17."

His first semester there were only 90 civilians and 800 Navy personnel enrolled in a special program. Three years later, there were 2,200 students on a campus built for 1,200.

The college built six barracks-style buildings for classroom, dormitory and dining hall space on the site now occupied by the library and O'Shaughnessy Education Center. Enrollment dropped back to 1,228 by 1954.

POST VIETNAM YEARS

Under Bishop James Shannon, president of the college from 1956 to 1966, St. Thomas built new facilities and steadily grew to an enrollment of 2,167 in 1966, when Monsignor Terrence Murphy took over.

Murphy is still at the helm, the senior president among Minnesota's colleges and universities.

"Students have changed a lot from the Vietnam days," Murphy said. "From 1966 to 1968, things were quiet. Then the Vietnam era set in. Our students were concerned, but I think we did a good job of keeping things under control. We had no real demonstrations.

"Now, students are more serious about their educations. They're more interested in business than I'd like them to be. I'd like to see them more in liberal arts, but we're handling that well. We're limiting the number of courses they can take in their major and making them take liberal arts."

Perhaps the most dramatic changes in the college's history have been made in the past 10 years when New College, a community program for non-traditional students, was founded in 1975 and women were admitted as full-fledged students in 1977. Rauenhorst credits much of the success of those changes to Murphy.

"New College . . . is there to serve the public," he said. "Monsignor Murphy is very good at identifying the needs of the community, then he fills the need."

By the time the first class of women was admitted in 1977, women had become a familiar sight around the St. Thomas campus. Women from nearby St. Catherine's had been taking courses at the college for years. Nevertheless, it was time to make the formal change, Murphy said.

"There were a lot of women who wanted a coeducational, Catholic liberal arts education and there was nowhere else for them in the Twin Cities," Murphy said.

"I started out being very opposed to it," Rauenhorst said. "My primary concern was that it would hurt St. Kate's."

But Rauenhorst said he changed his mind after reviewing a similar situation at Notre Dame. When Notre Dame admitted women, its neighboring women's college, St. Mary's, became stronger.

Murphy said the same thing has happened at St. Catherine's "We have just about doubled in our undergraduate size and St. Kate's has grown as well."

THE CLASS OF 1981

Women are enrolled in courses that are traditionally "male" in about the same proportion as men students except in journalism, which has about two women enrolled for every man, mostly in the public relations specialty.

Rachel Wobshall was a member of the Class of 1981, the first to include women. Now a member of Gov. Rudy Perpich's staff, she was the first woman chosen as "Tommy," an honor formerly called "Mr. Tommy" awarded to the college's outstanding graduate.

I remember reading in the newspaper that St. Thomas was opening to women and I thought to myself, "What girl would ever want to go to St. Thomas?' " Wobschall said. But after visiting other liberal arts colleges, Wobschall, a Waseca native, decided on St. Thomas.

"It was interesting," Wobschall said of her first year. "There were 100 women and we were kind of our own island on two floors in the dorm. We all went to the cafeteria together and we got very close. I think the quality of the education I got was excellent. The longer I'm out, the more I appreciate the education I got."

THE NEXT DECADE

Murphy said he plans to stay as president for a few more years until mandatory retirement at age 70. But in the meantime, he said "We'll continue on course. Our primary emphasis will continue to be on liberal arts, then we'll add masters degrees in programs we feel we can serve."

As for meeting the needs of the community, Murphy believes the market will demand programs in areas such as computers, engineering and the hard sciences. "Anything related to productivity," he said. "This country is looking more and more at how to keep up in the world."

ST. THOMAS COLLEGE STARTS A NEW CENTURY OF COMMUNITY SERVICE

(By Leonard Inskip)

College presidents sometimes say that after 10 years it's time to move on. At the College of St. Thomas, President Terrence Murphy is in his 20th year, and it's the college that's moving on—to useful new programs for students of varied ages and to valuable new service to the community.

This weekend, for the 101st year, new students are gathering for orientation. Classes start Wednesday. Next Saturday and Sunday. St. Thomas and two related schools will celebrate a shared centennial.

The campus's late-summer serenity, freshly mown lawns and blooming flowers speak of tradition: a Catholic framework for a liberal-arts focus with practical applications.

But tradition is no barrier to change: new graduate programs planned or begun in manufacturing engineering, software design, business communications, interntional management. Lest those suggest a departure from traditional liberal arts, there will be a new chair in business ethics.

St. Thomas will create new graduate programs to serve St. Paul Seminary students—the result of a partial merger planned by the two institutions. But St. Thomas also will get a Jewish-Christian center this fall headed by a prominent Minneapolis rabbi, Max Shapiro. The college already has several special centers, including business management and religious, economic, community and senior-citizen education.

The college has begun working with Normandale Community College on a program to serve students who complete that school's two-year program. It also has long served nontraditional students—people with fulltime careers, for example—by providing graduate business and education programs.

In recent years, St. Thomas has added an Owatonna conference center and a Chaska classroom building; both were gifts. This summer, it opened a Chaska business incubator that has access to St. Thomas programs and faculty. Last year, it discussed with William Mitchell College of Law the possibility of that school joining St. Thomas, but nothing developed. Some St. Thomas trustees have talked of classes in downtown Minneapolis—not likely soon, but a possibility someday.

With about 6,300 students, St. Thomas is Minnesota's largest private college—big enough to start programs like graduate studies in manufacturing engineering, small enough to experiment and move quickly, as it did in setting up international-management studies after a governor's commission recommended such a program. The college has good rapport with business because it learns business's needs and acts on them.

An example: When Gov. Rudy Perpich began promoting engineering, Murphy met with such chief executives as Lewis Lehr of 3M, Edson Spencer of Honeywell and William Norris of Control Data. Eventually, Perpich recommended the unusual step of state help for a new manufacturing engineering program at St. Thomas. The Senate said yes; the House said no. Murphy expects St. Thomas to decide this month to proceed on its own.

Last year, Murphy described engineering as a "window of opportunity" for St. Thomas. He anticipated that society's future emphasis "will be not so much on social welfare programs, but rather on programs that will increase the productivity of the country and thereby provide employ-

ment, increase the standard of living, combat inflation, and put us in a strong competitive position in the international markets."

St. Thomas looks for programs that others—mainly the University of Minnesota—aren't providing, Murphy says manufacturing engineering is such a niche. But St. Thomas went beyond a niche when it pioneered evening-class management studies in the 1970s. Then the university had a few hundred traditional daytime students working for masters degrees, Murphy recalls. Now St. Thomas has nearly 1,300 nontraditional students in evening and week-end management classes and the university has about 1,200 such students. "They really took our program," Murphy says, but the result is that "the whole community is better off."

The centennial year will see a new relationship between St. Thomas and the Saint Paul Seminary. Both schools and St. Thomas Academy trace roots to a common beginning on Sept. 8, 1885. The seminary became independent in 1894 and the academy, a junior-senior high school, moved away in 1965.

The college and seminary are working out final details. St. Thomas will educate the seminarians, but the seminary will foster religious-character development. St. Thomas will acquire most of the seminary's nearby 35 acres, opening up long-range possibilities for an expanded St. Thomas campus. New religious education can strengthen St. Thomas's ability to train lay people to work as church counselors and administrators as priests become fewer.

St. Thomas is one of the nation's 225 Catholic colleges and universities. Most were started by religious orders. St. Thomas is one of a few started by a diocese. The relationship continues, with Archbishop John Roach chairman of the college's trustees. Seventeen priests from the diocese are among 380 fulltime and parttime faculty members. Murphy has said that St. Thomas wants to "impart a Christian vision and Christian values" to community life "by educating people for various walks of life. If we truly want the Gospel message to be relevant to our society and not something that is relegated to Sunday morning, then we must make it alive in the lives of people who are leaders . . . of our community and our society."

But that does not mean proselytizing students, Murphy says. Rather it means requiring a few religion courses along with more traditional liberal-arts requirements. It means, he says, teachers' appreciation of Judeo-Christian traditions and "scholarly discussion of religious values." At the graduate level, such concern is reflected in a course that emphasizes values and the impact of policy decisions on a community. The new chair in business ethics established by Barbara and David Koch (Graco head and a leader in Twin Cities corporate-responsibility thinking) will strengthen that emphasis.

Catholics constitute about 85 percent of St. Thomas undergraduates, but only 30 percent of the graduate students. That reflects, Murphy says, the abundance and variety of schools serving undergraduates, but the limited graduate-level opportunities to have both classes and careers.

The college is planning what probably will be a $35 million capital drive for endowment, buildings and scholarships. Among scholarship goals: Seek top-flight students who don't qualify for needs-based help but who potentially are society's leaders and who, while in college, can offer leadership in academic achievement.

A campus visitor leaves with two strong impressions: (1) Through its constant search for new ways to serve the community, St. Thomas is a remarkable community asset, (2) Thank goodness that Terrence Murphy, unlike those college presidents who say 10 years in one place is enough, stayed around. The Twin Cities are better for having the school and the man.

ST. THOMAS LEADER BLENDS RELIGION WITH BUSINESS

(By Paul Klauda)

Some of the Twin Cities mightiest business bosses describe him as the chief executive officer of the College of St. Thomas, but Monsignor Terrence Murphy begs to differ.

"I feel like a priest," he said with a laugh, then added, "I don't think there's any conflict."

As St. Thomas president for 19 years, Murphy has racked up the kind of numbers that even unforgiving Wall Street could appreciate.

Enrollment has tripled to more than 6,400 students. Endowments and investments have jumped tenfold to $55 million. Continuing construction has lifted the value of the college's physical plant to $95 million. Through it all, the annual budget, now $39 million, has never run a deficit.

The growth underscores how Murphy has thrust the state's largest private college beyond its 50-acre campus along Summit Av. in St. Paul. In several instances he's led it headlong into the local business community, creating graduate programs, economic and management centers and small-business programs specifically for managers, executives and merchants.

"I've rarely run into an educator so concerned with the relevance of the program to the needs of the business community," said James Renier, vice chairman of Honeywell Inc. and a St. Thomas trustee.

Renier and other business acquaintances also say the 64-year-old priest has worked to solidify the college's liberal arts roots and develop nonbusiness community programs, all without losing sight of the college's religious character.

"His institution has prospered through difficult times," said the Rev. Theodore Hesburgh, president of the University of Notre Dame and a friend of Murphy's. "There are relatively few that have prospered as St. Thomas has and that's a tribute to the leadership."

Murphy, who will preside over the college's 100th anniversary celebration next weekend, said the growth has surprised him.

"I remember when I was first named president and the business manager, Lloyd Rogge, came in and he gave me this awful list of things that had to be done," Murphy recalled. Included were requests for a new faculty office building, new classrooms, dormitories, athletic facilities, endowments "and on and on," he said. "I thought we're never going to get all this stuff.

"Well, it's been done," he added. "Now we're ready to start another go-around."

Based on the first go-around, Murphy seems well prepared.

Without formal business training, the political science professor who never wanted to be president took over a college that was posting budget deficits every other year. Under his guidance, the college went through the Vietnam protest years without serious violence. He implemented long-range planning and steered the college toward seeking out and filling community needs. He reigned over the decision in 1976 to drop the college's all-male status and admit women.

Murphy, the college's 13th president, has held the job longer than any of his predecessors. His term has been "the most eventful in terms of the programs that have been developed," said Joseph Connors, a St. Thomas English professor who is writing a history of the college.

Murphy's peers describe him as a quiet, unassuming administrator with a sense of humor and a relaxed but deliberate style. He's quick to assimilate facts and draws sharp, rarely inaccurate conclusions. He meets monthly with students, but travels frequently. He admitted that he's on campus less than he was during his early days as president. To some on campus, he appears aloof.

He also has a humble side. A colleague recalled, a night last winter when Murphy tried to get into his office building but didn't have the right key. A new security guard, seeing Murphy in street clothes, suspected he was somebody other than the college president. Murphy allowed himself to be escorted to the guard's office, where he explained the situation and got a key.

In decison-making processes, Murphy "likes to make sure that all the ramifications are thought out before taking the plunge," said Provost Charles Keffer. For example, Murphy began discussing the possibility of St. Thomas becoming co-educational three or four years before the decision was made.

Although not inclined to high-profile public appearances, Murphy still is well-known and highly regarded in the Twin Cities' top business circles. That helps make him an effective college fund-raiser, his peers say.

Business people are "kind of curious about him," said the Rev. Jerry O'Leary, his assistant. "They watch how he works."

Thomas Holloran, former chairman of Inter-Regional Financial Group, Inc., who will begin teaching at St. Thomas this fall, called Murphy "one of those leaders who is so understated that the people around him always believed that they did it themselves."

James Thawaits, president of international operations at 3M, described Murphy as "a good bridge between academia and business in many respects. . . . He's very strong in blending in what he regards as responsible moral conduct with the business programs. He's just darned well balanced."

Gerald Rauenhorst, a St. Thomas trustee who's known Murphy 25 years, said "I'm glad he's a CEO of a college and not a competing developer or contractor."

Rauenhorst, chairman and chief executive officer of Opus Corp., recalled informally discussing with Murphy the possibility of starting a law school at the college in the late 1960s. After a year or two, Rauenhorst recalled, Murphy told him that "a bigger need" existed for a master's program in business administration.

"You'd think I should have thought of that—I'm in the business world," Rauenhorst said.

The master's program reflects the eager reception that local businesses have given Murphy and St. Thomas. Started in 1973, its peak enrollment projections ranged from 300 to 900 students, Murphy recalled. Today it has 1,300 students, many of whom are middle managers and executives for major

corporations and small or medium-sized businesses.

Buoyed by its success, St. Thomas recently added master's programs in business communications, international management and software design and development. Another master's program in manufacturing engineering is in the works.

For small businesses, the college offers a development center to provide assistance and a new program to help fledgling businesses get started. St. Thomas also started a center for economic education, which sponsors conferences, seminars and internship teaching programs.

But the college's nucleus is its undergraduate program, which includes one of the state's broadest cores of mandatory liberal arts courses. The leading major field, chosen by about half the students in any given year, is business administration.

That sits well with Murphy, who denied suggestions that the college's heavy ties to business are seemingly at odds with recent papal and bishops' pronouncements examining the role of business and the U.S. economy. His defense is rooted in the belief that business people, like doctors and teachers, perform services.

"I think a young person could easily aspire to a life of service and at the same time want to be in business and be successful," Murphy said. "Obviously, profits are what make the businesses go round." But he added that businesses concerned only with profits—and not service—"are not going to last very long."

Murphy's presidency began after he spent much of his life preparing for a career in the priesthood and teaching.

He was born in Watkins, a small town southwest of St. Cloud, and was raised in a family of seven children. He graduated from Nazareth High School in St. Paul in 1939, attended St. Paul Seminary and was ordained in 1946, serving the next few years in St. Paul parishes.

Three years later, he became a chaplain in the Air Force, which stationed him in England. Murphy said the experience helped him learn about organization, procedures, delegation of authority, and administration.

When he left the Air Force in 1954, Murphy joined St. Thomas as a political science professor. In the next five years he obtained a master's degree in political science from the University of Minnesota and a doctorate from Georgetown University in Washington, D.C.

In 1961, to his surprise, he was named dean of students.

"I had no interest in becoming college president—that was the last thing on my mind—or even getting into college administration," Murphy said.

But a year later he was named executive vice president, assisting then-president Bishop James Shannon. That job gave Murphy a chance to negotiate the purchase of the Catholic Digest for the college. With the help of a group of advisory business people, he improved the magazine. "I learned a lot from those folks," he said.

When Shannon stepped down in 1966, Murphy was named to replace him. Murphy was touted as being the college's first "tailor-made" president by virtue of his administrative experience.

Murphy said he'll probably remain in office for at least five years. At the end of that time, the college will be wrapping up another capital campaign drive. "I would feel an obligation to see that through," he said.

Unlike his business CEO counterparts, Murphy has no responsibility to find his successor. Most college presidents nowadays come from the outside, he said, although he can see reasons why an internal choice still makes sense.

Meanwhile, Murphy plans to work on St. Thomas' public identity, a balancing act his peers say already has etched the quiet leader firmly into the college's history book.●

WHITE HOUSE ROSE GARDEN CEREMONY FOR THE CONGRESSIONAL GRACE CAUCUS

● Mr. HUMPHREY. Mr. President, the President's Private Sector Survey of Cost Control raised over 2,400 specific cost-saving recommendations that contribute realistic solutions to the pressing issue of the day; Federal budget deficit reduction. In so doing, the Grace Commission Report, as it has come to be known, presents a high profile with constituents throughout the country and commands the attention of the Congress as a whole.

In this regard, the congressional Grace caucus has been formed to identify, evaluate, and direct enactment of these meaningful proposals. We recognize that to assure a fair and equitable implementation of these potential Federal budget saving opportunities requires a bipartisan coalition and we are pleased to acknowledge wide support from both sides of the aisle. Today we have some 13 Senate Members and 83 House Members actively promoting the development and implementation of these cost-saving initiatives.

On Monday, the 28th of October, a White House Rose Garden ceremony was held to focus greater attention on these congressional efforts. We were indeed fortunate, being in the company of President Reagan, to have an opportunity to meet and share our common interest in an intelligent and efficient Federal fiscal policy.

Among the groups in attendance were: the Associations United to Cut Federal Spending [AUCFS] and their chairman, Mr. Wayne Smith; Citizens' Against Government Waste [CAGW] and their president, Mr. J.P. Bolduc; and many distinguished dignitaries including Mr. James Miller III, Director of the Office of Management and Budget; Representatives BEAU BOULTER and BUDDY ROEMER, chairman and cochairman of the House Grace caucus; and Mr. J. Peter Grace, chairman of the PPSSCC and cochairman of CAGW. I was pleased as cochairman of the Senate Grace caucus to be in attendance as well.

It was noted with pride that while we have only just begun the efforts of the caucus we are already off to a good start. This is typified by the amendment approved by the Senate last week to reduce Federal vehicle fleet expenditures by $225 million by fiscal year 1988, and the Office of Management and Budget reporting that 1,194 of the PPSSCC recommendations have been agreed for implementation, and that of these 335 have already been fully implemented.

We are encouraged by the support experienced and the progress made to date. We fully intend that the work of this caucus, in conjunction with the administration and the private sector, will substantially contribute toward the efforts to enhance Government efficiency, reduce waste, improve productivity, and make the Federal Government all the more effective in meeting its responsibilities to the American people.●

ERISA AMENDMENTS IN OMNIBUS BUDGET RECONCILIATION ACT OF 1985

● Mr. GARN. Mr. President, I have been advised that the ERISA amendments contained in H.R. 3500 and S. 1730—the Omnibus Budget Reconciliation Act of 1985—may have much more serious implications than had been heretofore recognized. According to the National Bankruptcy Conference, no hearings have been held on the far-ranging effects of these proposed amendments as they relate to bankruptcy procedures.

Therefore, I request that the complete texts of the National Bankruptcy Conference's analysis of these provisions be printed in the RECORD.

The material follows:

NATIONAL BANKRUPTCY CONFERENCE,
October 26, 1985.

Re: ERISA Amendment Provisions of S. 1730 and H.R. 3500—The Budget Reconciliation Act of 1985.

DEAR SENATOR: The National Bankruptcy Conference, a private not for profit organization composed of lawyers, law professors and judges devoted to the improvement of bankruptcy law and practice has just recently obtained copies of H.R. 3500 and S. 1730, the Omnibus Budget Reconciliation Act of 1985.

These bills contain extensive provisions substantively amending ERISA. These amendments, which have no relationship to current-year federal spending have a direct and harmful effect on cases commenced under the Bankruptcy Code by financially distressed business debtors. No hearings have been held and very little opportunity for public discussion of these far-ranging proposals has been available.

The National Bankruptcy Conference has considered the enclosed analysis of these provisions and has adopted the enclosed resolutions in relation to them. It would, of course, have been helpful if these bills had been referred to the Committee on the Judiciary. If hearings had been held on these provisions, these considerations involving the Bankruptcy Code, Title 11, United States Code, could have been aired and the final product could have reflected the needed balancing of interests.

We urge that enactment of the ERISA provisison be deferred until hearings and

public debate on these matters can be conducted.

Very truly yours,

LAWRENCE P. KING,
Charles Seligson Professor of Law,
Chairman, Committee on Legislation,
New York University School of Law.

NATIONAL BANKRUPTCY CONFERENCE DISAPPROVES OF ERISA AMENDMENTS CONTAINED IN BUDGET RECONCILIATION ACT OF 1985

WASHINGTON.—The National Bankruptcy Conference, a non-profit organization of lawyers, professors and judges dedicated to better bankruptcy laws, unanimously adopted resolutions at its annual meeting held in Washington on Saturday, October 26 strongly disapproving of unpublicized amendments to ERISA, the federal pension guaranty statute. The amendments, contained in the budget reconciliation statute, are pending before the Senate and passed the House on Thursday, October 24.

No hearings have been held on the proposed amendments and few interested parties were aware of them until after the House action last week.

In its resolution the Conference formally disapproved of Congress' failure to have the amendments considered by the Committees which normally consider bankruptcy matters. The Conference expressed fear that the amendments could jeopardize the ability of many companies with insufficiently funded pension liabilities to reorganize and continue in business in accordance with the Bankruptcy Code.

The Conference resolution also expressed concern that the proposed changes could "create creditor incentives for liquidation of otherwise salvageable businesses."

The proposed legislation would greatly restrict the right of employers in distress to terminate pension plans which would otherwise be subject to termination with the approval of the Bankruptcy Court and purports to give the Pension Benefit Guaranty Corporation's claims priority over pre-bankruptcy amounts due suppliers, banks and other lenders.

The PBGC is a federal agency which guarantees payment of vested benefits to retirees if an employer terminates a pension plan and assets in the plan are insufficient to pay vested benefits due.

RESOLUTIONS OF THE NATIONAL BANKRUPTCY CONFERENCE WITH RESPECT TO H.R. 3500 AND S. 1730

At a meeting of the full membership held in Washington on October 26, 1985, it was by the full membership of the Conference unanimously RESOLVED:

1. Claims arising from the termination of a plan should be treated as prepetition, unsecured nontax claims. The priority provisions in S. 1730 (p. 578, lines 18-23), should be deleted.

2. The debtor's liability to PBGC should be subject to a Chapter 11 plan and §§ 363, 365 and 1141's fresh start provisions, rather than requiring it to be paid over 10 years post confirmation.

3. The lien given PBGC should be treated the same as a tax lien. The provisions in S. 1730 giving the lien greater protection (p. 578, lines 10-17) should be deleted.

4. The provisions of both bills (H.R. 3500, p. 294; S. 1730, p. 547), permitting distress termination in cases under the Bankruptcy Code are too restrictive in that all members of the control group must be debtors in the same chapter. (A member may be a bank, insurance company or foreign subsidiary that is ineligible for relief.) Only those substantial members who are eligible to file under § 109 of the Bankruptcy Code should be required to file.

5. H.R. 3500 is deficient in that it does not permit a Chapter 11 debtor to seek a distress termination by reason of the Chapter 11 case. See S. 1730, p. 547, line 22.

6. Allowance of a claim based on future pretax profits (H.R. 3500, pp. 310-311, S. 1730, p. 558), is unduly speculative and administratively unworkable. In a Chapter 11 case, it may have to be paid over 6 years or immediately if PBGC is entitled to priority. Liability in bankruptcy cases should be limited to the traditional 30%.

7. Direct liability to participants in a Chapter 11 case under § 997 of S. 1730 (p. 563-4) could result in double allowance of pension-related claims and substantially increase administrative costs and delays in the plan confirmation and claims allowance processes. It should be inapplicable in bankruptcy cases.

8. Can the provision concerning the evasion of liability in H.R. 3500, p. 323 at line 17 apply to workout situations in which lenders obtain collateral to secure their claims in attempts to rehabilitate financially distressed debtors? If so, the provision should be clarified so as not to apply to such lenders and such types of ordinary commercial practices.

9. The above provisions are inimical to reorganization, may inhibit the extension of unsecured credit by lending institutions, and create creditor incentives for liquidation of otherwise salvageable businesses.

10. The National Bankruptcy Conference in concerned that there is an obvious attempt to circumvent the bankruptcy jurisdiction of the respective Judiciary Committees by the failure to refer these bills for review and comment by those Committees and by those familiar with bankruptcy laws and processes.

[October 25, 1985]

NATIONAL BANKRUPTCY CONFERENCE AD HOC SELECT COMMITTEE'S ANALYSIS OF BANKRUPTCY ASPECTS OF PROPOSED OMNIBUS BUDGET RECONCILIATION ACT OF 1985

H.R. 3500

Section 4041(a)(1) of H.R. 3500 (p. 297) states that termination of a single-employer defined benefit plan may be accomplished only in accordance with subsection (c). The House Report at p. 289 states the intention to be that ERISA is the exclusive means for termination and that a plan may not be rejected pursuant to § 365 of the Bankruptcy Code.

H.R. 3500 provides a dual termination procedure: standard termination (pp. 284-290) and distress termination (pp. 290-305).

For a standard termination, all benefits must be fully funded and it must be shown that full payment of benefits can be made (page 284, lines 13-15). Application must be made to the PBGC and an elaborate procedure must be followed.

Distress termination requires further and different procedures but is limited to the few situations set out on pages 293-297. The causes are recent funding waivers, liquidation in bankruptcy or insolvency proceedings, termination required to enable payment of debts while staying in business, and unreasonably burdensome pension costs caused by declining work force.

The cause involving a bankruptcy case is limited to the commencement of a Chapter 7 liquidation case for all members of the control group. Conversion to Chapter 11 revives the terminated plan unless it is impossible to do so (see also p. 305).

In the event of a distress termination the liability is set forth on pages 308-320 and consists of the amount of the plan's funding shortage and total amount of unfunded guaranteed benefits plus interest from the termination date. (Funding shortage is defined at pp. 315-317.) If the unfunded guaranteed benefits exceed 30 percent of the sum of the positive net worths of each member of the control group (see p. 317), the excess is payable out of pretax profits (excluding extraordinary losses) over ten years (page 310). Thus net worth is not considered on a consolidated basis, which represents a major change from current law. Also, the addition of the 10 percent payment from pretax profits is new. Net worth is determined by PBGC and is increased by including transfers of assets determined by the PBGC hypothetically to be inappropriate under the Bankruptcy Code (pp. 317-18). Liability of all members of the control group is joint and several (p. 308). Liability is determined as of the termination date, which attempts to make it a postpetition claim (p. 309).

It may be that the successor liability contained on pp. 324-325 would apply in reorganization cases and override the basic discharge and sale free and clear rules. The consequences of these provisions are not clear.

S. 1730

S. 1730 sets up a system of dual termination similar to H.R. 3500.

In distress terminations, however, a clause is added to include all members of the control group in a Chapter 11 case if the court approves plan termination (pp. 547-48). A possible inconsistency appears on p. 551, line 13, providing for revival of a plan terminated in a Chapter 7 case on conversion to Chapter 11.

As in H.R. 3500 (p. 309), the liability is due and payable as of the termination date, which is a direct attempt to make it a postpetition claim (p. 556, line 8).

The amount of liability appears to be the same as in H.R. 3500.

Major differences in S. 1730 from H.R. 3500 are:

1. A perfected lien of PBGC is treated as an allowed secured claim, similar to a tax lien, subject only to I.R.C. § 6323 and is deemed valid under § 545 of the Bankruptcy Code (p. 578, lines 10-17).

2. If PBGC does not have a lien, a claim under §§ 4062, 4063 and 4064 of ERISA is deemed a Bankruptcy Code § 503(b)(1)(B) claim entitled to administration expense priority under § 507(a)(1), or a § 507(a)(7) tax priority (p. 578, lines 18-23). These provisions appear to require payment in cash in full on confirmation (§ 507(a)(1)) or over six years (§ 507(a)(7)) pursuant to § 1129(a) of the Bankruptcy Code.

3. PBGC may be a member of a creditors' committee and is defined as a "person" by amendment to § 101 of the Bankruptcy Code (p. 553). May PBGC file a Chapter 7 case on its own behalf? May an involuntary petition be filed against it?●

LEGISLATIVE APPROPRIATIONS—CONFERENCE REPORT

Mr. DOLE. Mr. President, I submit a report of the committee of conference on H.R. 2942 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2942) making appropriations for the legislative branch for the fiscal year ended September 30, 1986, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of today, October 29, 1985.)

Mr. D'AMATO. Mr. President, the conference agreement on H.R. 2942, the legislative branch appropriations bill for fiscal year 1986, provides a grand total of $1,598,293,800. This is a reduction of $184,961,200, or more than 10 percent, from the President's request of $1,783,255,000, and is consistent with the conference agreement on the budget resolution. The bill's total is also $1,370,000 below the level passed by the Senate, and is $1,683,338 below amounts enacted for fiscal year 1985. Excluding items pertaining solely to the Senate, the conference agreement is $5,796,000 below the bill as passed by the House. By any measure, I believe this bill exemplifies the fiscal restraint necessary to reduce the Federal budget deficit.

The conference report has been printed as a House document (H. Rept. 99-321) and is printed in the CONGRESSIONAL RECORD of October 23, 1985. So that Senators and other readers of the RECORD may have additional information on the amount provided by the conference agreement on this bill, I ask unanimous consent that a computer table listing those amounts be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. D'AMATO. The bill includes a total of $309,616,800 for the Senate, including $19,163,000 for Senate office buildings. This is an increase of $4,445,800 over fiscal year 1985 levels, and a reducton of $22,815,200 from the President's request. All Senate salary accounts have been held at fiscal year 1985 levels or below. The only increases in Senate items are for computer and telecommunications expenses of the Sergeant at Arms and for the newly created international narcorics control caucus.

The bill provides a total of $469,553,000 for the House of Representatives, including $22,088,000 for House office buildings. As a matter of comity, the Senate makes no independent judgment on matters relating strictly to the other body, and agrees with the amounts enacted by the House.

For joint items, including the Joint Economic Committee, the Joint Committee on Printing, the Joint Committee on Taxation, the attending physician, the Capitol Police, the Capitol Guide Service, official mail costs, and statements of appropriations, the bill provides a total of $110,649,000, of which $100,000,000 is for official mail. The cost of that particular activity continues to escalate at a very rapid rate, and the two Committees on Appropriations have again expressed their strong concern that all necessary steps be taken to restrain these increases.

The conferees agreed on levels for the congressional support agencies that will require great restraint and prudent management, but are necessary for the legislative branch to meet its share of overall Federal spending reductions. For the Office of Technology Assessment, the conferees agreed on a fiscal year 1986 appropriation of $15,300,000, a 10-percent reduction from the request and $392,000 below fiscal year 1985 levels. For the Congressional Budget Office, the agreement provides $16,886,000, a reduction of $1,569,000 below the request and $655,000 below fiscal year 1985 levels. The total of $38,963,000 provided for the Congressional Research Service is a 10-percent reduction from the request and is $1,370,000 below fiscal year 1985 levels. For the congressional printing and binding activities of the Government Printing Office, the agreement provides $69,405,000 for fiscal year 1986, a reduction of $9,495,000 from the request and $11,395,000 from amounts enacted to date for fiscal year 1985. And finally, the conferees agreed on an appropriation of $90,170,000 for the activities of the Architect of the Capitol under title I of the bill, which represents a reduction of $27,468,000 from the request and $457,850 from fiscal year 1985 levels.

For agencies funded under title II of the bill, including the Botanic Gardens, the Library of Congress, except CRS, Library building and grounds, the Copyright Royalty Tribunal, the Government Printing Office, except congressional printing and binding, the General Accounting Office, and the Railroad Accounting Principles Board, a total of $524,519,000 is recommended. This represents a reduction of $68,829,000 from the President's request and $14,168,000 from fiscal year 1985 levels.

Compensation of Senators and Members of the House of Representatives in the amount of $46,609,000 is provided by a permanent indefinite appropriation and is not included in this bill.

I restate my belief, Mr. President, that this bill is tightly drawn and is, by any measure, an example of the fiscal restraint necessary to achieve deficit reduction. I ask for the adoption of the conference agreement and Senate concurrence in the amendments remaining in disagreement.

Mr. BUMPERS. Mr. President, as the chairman has indicated, the conference agreement is: $185 million below the amounts in the President's budget for the legislative branch; and approximately $1.7 million below the level of appropriations enacted for fiscal year 1985.

In effect, the conference agreement on the fiscal year 1986 legislative branch appropriation bill freezes the appropriations for the legislative branch at an aggregate level of about $1.7 million below the current fiscal year 1985 level.

The conference agreement provides for a reduction from the amounts in the President's budget request for the legislative branch of 10.3 percent. For Senate operations, the conference agreement includes a reduction of almost $19 million below the President's budget.

Mr. President, I want to congratulate the distinguished subcommittee chairman, Mr. D'AMATO for his very fine efforts to constrain the total amount in the bill.

The House conferees, under the able leadership of Chairman VIC FAZIO, are also to be commended and were, as usual, cordial and cooperative in our joint effort to restrain the expenditures for the legislative branch.

Again, I congratulate the chairman of the subcommittee, Mr. D'AMATO and thank the staff: Keith Kennedy on the majority side and Terry Sauvain on the minority staff.

I urge the adoption of the conference report.

Mr. DOLE. Mr. President, I ask for the adoption of the conference report.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. DOLE. Mr. President, I ask unanimous consent that the two amendments remaining in disagreement, amendments 12 and 26, be considered en bloc.

The PRESIDING OFFICER. The clerk will state the amendments.

The legislative clerk read as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 12 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum inserted by said amendment, insert: $3,510,000, of which $495,000 shall be available until expended for the procurement and installation of hydraulic security barriers at vehicular entrances to the Capitol grounds, subject to the approval of the design development drawings by the House and Senate Committees on Appropriations.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 26 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum inserted by said amendment, insert:

SEC. 306. (a) Notwithstanding the provisions of this or any other Act, the United States International Narcotics Control Commission, established by section 814 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987, is hereby redesignated and shall hereafter be known as the United States Senate Caucus on International Narcotics Control.

(b) Any reference to the United States International Narcotics Control Commission in any law, regulation, document, record, or other official paper of the United States shall be deemed to be a reference to the United States Senate Caucus on International Narcotics Control.

Mr. DOLE. Mr. President, I move that the Senate concur in the amendments of the House with the amendments of the Senate.

The motion was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

JUDGMENTS AWARDED TO THE CHIPPEWAS OF LAKE SUPERIOR

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now turn to consideration of H.R. 1903 being held at the desk, relating to the Chippewa Indians.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 1903) to provide for the use and distribution of funds appropriated in satisfaction of judgments awarded to the Chippewas of Lake Superior in Dockets Numbered 18-S, 18-U, 18-C, and 18-T before the Indian Claims Commission, and for other purposes.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

There being no objection, the Senate proceeded to consider the bill.

The PRESIDING OFFICER. The bill before the Senate is open to further amendment. If there be no amendment to be offered, the question is on the third reading and the passage of the bill.

The bill (H.R. 1903) was ordered to a third reading, was read the third time, and passed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

BUDGET ACT WAIVER

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now turn to Calendar Order No. 356, Senate Resolution 238, the budget waiver for S. 1706.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 238) waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration S. 1706.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

There being no objection, the Senate proceeded to consider the resolution.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (Senate Resolution 238) was agreed to, as follows:

S. RES. 238

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 402(a) of such Act are waived with respect to the consideration of S. 1706, a bill to authorize the Architect of the Capitol, in cooperation with the Union Station Redevelopment Corporation, to design a building or buildings adjacent to Union Station in Washington, DC.

The waiver of section 402(a) is necessary to permit consideration of provisions authorizing new budget authority of $2,000,000 in fiscal year 1986 to make a report on the design of a new building or buildings to be used by the administrative agencies of the Federal judiciary.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UNION STATION DEVELOPMENT

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now turn to Calendar Order No. 347, S. 1706.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1706) to authorize the Architect of the Capitol, in cooperation with the Union Station Redevelopment Corporation, to design a building or buildings adjacent to Union Station in Washington, DC.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Environment and Public Works, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italics.)

S. 1706

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) notwithstanding the provisions of section 116, subtitle B, of the National Visitors Center Facilities Act of 1968, as amended by Public Law 97-125, the Architect of the Cap-

itol shall, by August 15, 1986, file a report, with recommendations, to the Committees on [Appropriation] *Appropriations* and Environment and Public Works of the Senate and the Committees on Appropriations and Public Works and Transportation of the House of Representatives for the construction on squares 721 and 722 in the District of Columbia of a building or buildings for the use of the administrative office of the United States Courts, the Federal Judicial Center, and other judicial functions (hereinafter referred to as the "administrative agencies of the Federal judiciary").

(b) In the report authorized by this section, the Architect of the Capitol, in cooperation with the Union Station Redevelopment Corporation (hereinafter referred to as the "Corporation"), shall:

(1) study alternatives for the size, design, and estimated cost of constructing a building or buildings on squares 721 and 722 to meet the current and future needs of the administrative agencies of the Federal judiciary, together with such other commercial, governmental, cultural, educational, and recreational activities as may appropriately occupy such building or buildings in a manner that benefits the United States;

(2) seek to utilize squares 721 and 722 in a manner that complements the surrounding area, fulfills the goals of mixed use contained in the Public Building Cooperative Use Act (Public Law 94-541), and is not inconsistent with either the master plan for the United States Capitol or the intent of section 116 of Public Law 97-125; and

(3) make specific recommendations on the most feasible and most economical methods for financing and constructing such building or buildings in the shortest possible time.

(c) As studies warrant, the Architect of the Capitol shall file interim reports under this Act with the committees of the Congress specified in subsection (a) of this section.

SEC. 2. (a) In preparing the report required by section 1 of this Act, the Architect of the Capitol shall, as soon as possible, contract with the Corporation to:

(1) develop a program of space utilization that will accommodate the current and future needs of the administrative agencies of the Federal judiciary and provide for the renting, leasing, or use of any space not needed immediately by the administrative agencies of the Federal judiciary: *Provided,* That no space in the buildings shall be rented or leased to anyone having business before, or whose business would be incompatible with the mission of, the administrative agencies of the Federal judiciary; *and*

(2) develop a plan that will be compatible with the authorized redevelopment of Union Station and with other developments in the vicinity, including residential neighborhoods[; and

[(3) recommend ways that will minimize or eliminate the intial capital investment in such project by the United States through the use, when appropriate, of a public private partnership to finance and construct such project: *Provided, however,* That such property remains in the ownership of the United States.]

(b) In cooperation with the Corporation, the Architect of the Capitol shall devise and undertake a limited and selected competition to choose an architect for such building or buildings, based on the excellence of design.

(c) In cooperation with the Architect of the Capitol, the Corporation shall—

(1) recommend ways that will minimize or eliminate the initial capital investment in such project by the United States through the use, when appropriate, of a public-private partnership to finance and construct such project, and

(2) solicit proposals from nongovernmental sources to finance and construct such a project in accord with paragraph (1) of this subsection: Provided, however, That such property remains in the ownership of the United States.

SEC. 3. For the purposes of this Act, the sum of $2,000,000 is authorized to be appropriated to the Architect of the Capitol in the fiscal year ending September 30, 1986, which sum to remain available until expended.

Mr. DOLE. Mr. President, I move the adoption of the committee amendments.

The PRESIDING OFFICER. The question is on agreeing to the committee amendments.

The committee amendments were agreed to.

Mr. STAFFORD. Mr. President, I urge that the Senate pass S. 1706, as it was reported from the Committee on Environment and Public Works.

This is sound legislation. It is a bill that will meet the needs of the Federal judiciary, as well as sound development on the northern edge of the U.S. Capitol Grounds.

My colleagues know that I rarely urge the construction of a new Federal building. In most cases, I believe we can utilize effectively the buildings we already use, or convert older structures to new uses.

This case is different. This building deserves early action.

It is needed by the judiciary.

And it is needed for the proper and effective development adjacent to Union Station.

For a number of years, the Senate has worked to preserve and renew Union Station. Prior to the creation of Amtrak, Congress passed legislation to convert Union Station into a National Visitors Center. Following cost overruns and other serious problems, the visitors center idea was abandoned and the structure closed.

Congress in 1981 passed the Union Station Redevelopment Act as Public Law 97-125, the purpose of which was to revive Union Station as a station for Amtrak, while attracting new commercial development into this wonderful old structure.

As a part of Public Law 97-125, Congress included a provision that permitted the Department of Transportation, which is responsible for the renewal of Union Station, to obtain from the Architect of the Capitol the use of two squares—721 and 722—located north of Massachusetts Avenue. These two squares are a part of the U.S. Capitol Grounds, and for the past decade have been used as open, ground-level parking for Senate staff.

In considering that 1981 law, Congress took the position, which remains valid, that development on these squares would enhance the revival of Union Station, and must occur in a manner complementary to the station's redevelopment.

But because the Department of Transportation has not requested use of those squares, control over this land remains uncertain. While the land remains a part of the Capitol Grounds, it also remains subject to what is in effect, a DOT option that has not been exercised.

When it became clear that both the Union Station Redevelopment Act and the master plan for the U.S. Capitol recommended construction of a Federal structure on squares 721 and 722, discussion began on use of the site to consolidate the Administrative Office of the U.S. courts, and related activities.

The Administrative Office has serious housing problems. This fiscal year, its 635 employees, plus another 122 persons assigned to the Federal Judicial Center, will be scattered among eight buildings in Washington. Many of these offices are several miles from the Supreme Court, to which these agencies are responsible ultimately.

At a hearing this past July, every witness endorsed in some fashion the use of squares 721 and 722 as a location for the Administrative Office. The key issue was how to finance such development. They suggested alternatives:

Authorize the Architect of the Capitol to spend about $70 million directly to build the project.

Direct the Department of Transportation, through its Union Station Redevelopment Corporation, to exercise its existing authority to develop the site.

Permit a private developer to take over the property, then lease a portion of it back to the Administrative Office.

S. 1706 represents an effort to resolve these alternatives, to move forward in a manner that retains a proper and effective degree of public control.

Specifically, the bill authorizes an appropriation of $2 million to the Architect of the Capitol. The Architect will use that money to conduct a three-stage design process, in concert with the Union Station Redevelopment Corporation, then file a report with Congress by next August 15.

In the initial stage, the Architect and the Redevelopment Corporation will study alternatives for the size, design, and estimated cost of a building or buildings on the site. Such a building will need to meet the current and future needs of the Administrative Office and related judicial agencies, provide offices for retired Justices of the Supreme Court, and include such other commercial, governmental, cultural, and educational activities as might appropriately occupy such a building or buildings.

It is important to point out that this building is expected to contain a variety of uses, in line with the goals of the Public Buildings Cooperative Use Act—Public Law 94-541. This might include offices to be rented or leased to other agencies or non-Federal groups, if that provdes wise economically.

Next, the Architect, in cooperation with DOT's Redevelopment Corporation, will devise and undertake a limited competition to select an architect for the structure. The winner is to be selected on the basis of the excellence of design. Such a competition would probably involve the selection of half a dozen or so leading architects, each of whom would be paid a modest sum—probably $10,000 to $25,000—to develop a basic, preliminary design for the site. If an architectural design contract can be worked out, work would then begin on a detailed building design, using money from the $2 million this bill authorizes.

Finally, and this is most important, the report is expected to include specific recommendations on the most feasible and most economical methods that might be utilized to finance the building. This is expected to include solicitation of proposals for a public-private partnership to develop the building, with nonpublic sources financing all or a portion of the structure.

I should point out that the entire program is set up to assure, as best we can, that whatever plan is developed by the Architect and the Corporation, it will be complementary to the authorized redevelopment of Union Station.

Mr. President, I am convinced that this is sound legislation. I urge its passage by the Senate.

The PRESIDING OFFICER. The bill is open for further amendment. If there be no further amendment to be proposed, the question is on the engrossment and the third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

EXECUTIVE SESSION

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now go into executive session to consider the following nomination on the Executive Calendar: Calendar Order No. 395, Charles O. Sethness.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. There is no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the nomination.

DEPARTMENT OF THE TREASURY

The legislative clerk read the nomination of Charles O. Sethness, of Massachusetts, to be Assistant Secretary.

The PRESIDING OFFICER. Without objection, the nomination is considered and confirmed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the nomination was confirmed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, I ask unanimous consent that the President be immediately notified that the Senate has given its consent to this nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR WEDNESDAY

RECESS UNTIL 9 A.M.

Mr. DOLE. Mr. President, I ask unanimous consent that once the Senate completes its business today it stand in recess until the hour of 9 a.m. on Wednesday, October 30, 1985.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF SENATOR PROXMIRE

Mr. DOLE. Mr. President, I ask unanimous consent that following the recognition of the two leaders under the standing order there be a special order in favor of the Senator from Wisconsin [Mr. PROXMIRE] for not to exceed 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRANSACTION OF ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that, following that there be a period for the transaction of routine morning business not to extend beyond 9:30 a.m. with statements limited therein to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. DOLE. Mr. President, then we will resume consideration of S. 1714 following morning business and rollcall votes will be expected throughout the day and evening.

RECESS UNTIL 9 A.M. TOMORROW

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move that the Senate stand in recess until 9 a.m. on Wednesday, October 30, 1985.

The motion was agreed to; and, at 7:43 p.m., the Senate recessed until Wednesday, October 30, 1985, at 9 a.m.

NOMINATIONS

Executive nominations received by the Senate October 29, 1985:

THE JUDICIARY

Thomas J. McAvoy, of New York, to be U.S. district judge for the northern district of New York vice a new position created by Public Law 98-353, approved July 10, 1984.

Sidney A. Fitzwater, of Texas, to be U.S. district judge for the northern district of Texas vice Robert M. Hill, elevated.

IN THE NAVY

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be Vice Admiral

Rear Adm. Daniel L. Cooper, [redacted] 1120, U.S. Navy.

CONFIRMATION

Executive nomination confirmed by the Senate October 29, 1985:

DEPARTMENT OF THE TREASURY

Charles O. Sethness, of Massachusetts, to be an Assistant Secretary of the Treasury.

The above nomination was approved subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

EXTENSIONS OF REMARKS

SENATOR CHAFEE'S ADVICE ON NATIONAL SECURITY

HON. CHARLES McC. MATHIAS, JR.
OF MARYLAND
IN THE SENATE OF THE UNITED STATES

Tuesday, October 29, 1985

● Mr. MATHIAS. Mr. President, the Senator from Rhode Island [Mr. CHAFEE], has had unusual opportunities to make judgments on national security questions. He came to the Senate after a distinguished career that included service as Secretary of the Navy, an experience that gave him rare insight into defense matters. When he speaks on that subject, we should listen.

On October 16, 1985, Senator CHAFEE spoke in London to a meeting organized by the Council for a Livable World where he offered "A Perspective on the Strategic Defense Initiative."

In his speech Senator CHAFEE warned "Once ASAT systems are developed and deployed, stability is threatened. The time to curb them is now."

I agree with Senator CHAFEE and the reasoning that led him to that conclusion. His speech is thoughtful and rational and will be of special interest and value to Senators at this particular moment in history. I ask that it be printed in the RECORD.

The speech follows:

A PERSPECTIVE ON THE STRATEGIC DEFENSE INITIATIVE

(Speech by Senator John H. Chafee to the Council for a Livable World Education Fund, U.S.A.)

In the final writing of his life—a speech prepared but never delivered—Franklin Roosevelt spoke of the hopes of the Western Allies as World War II forged toward its conclusion in Europe:

"More than an end to war," he wrote, "we want an end to the beginnings of all wars."

Forty years later, we are still struggling with this challenge, still searching for the formula that will give this planet not just the absence of war, but the promise of peace.

With each passing month and year, the search has become more difficult. The arsenals of East and West have grown in such size and complexity that the human mind shrinks from comprehension of the holocaust that would surely engulf this planet should Soviet and American stockpiles of nuclear weapons be fired in some final act of madness, either by calculation or through terrible accident.

There are prophets of doom on both sides whose vision encompasses only a continuing and never-ending confrontation. Fed by mistrust, they have become a nuclear priesthood, embracing the arms race as essential to national survival—be it Soviet or American.

For the rest of us—including those who have gathered here today—the search goes on for "an end to the beginnings of all wars."

That is why I have accepted your invitation today.

As we analyze the situation as it exists a month before the Reagan-Gorbachev summit, we must acknowledge some of the perceptions that exist on both sides.

Some on the left lay all the blame for lack of progress at the doorstep of the Reagan administration and accuse the President of being inflexible. Others, the hard-liners on the right, play just as mischievous a game, insisting that the Soviets will enter into arms control agreements only to mask their determination to achieve nuclear superiority.

It is erroneous and unfair to doubt the sincerity of President Reagan's desire for peace, and especially his conviction that a strategic defense is preferable to the dangerous uncertainty posed by the policy of mutual assured destruction. As the American people have learned over the past five years, Ronald Reagan is an unabashed optimist; he believes that by building an impregnable defense, the world will be spared the danger of nuclear war.

It is also important that we recognize President Reagan has often proved to be far more flexible and pragmatic than he is given credit by his critics. For an example, one need look no farther than his decision this past June to abide by the limits on nuclear launchers mandated by the unratified SALT II Treaty—a decision which has required the United States to dismantle the launch tubes of a Poseidon submarine. Only days before making that decision, all the signals coming from the Reagan administration pointed in the opposite direction, to the President taking actions that could have consigned SALT II to the ashcan of history.

In making his decision, the President both confounded his hard-line supporters and surprised his critics. But his decision should not have come as such a great surprise. This President, throughout his public career, has often changed his mind or compromised in order to achieve a beneficial result.

Thus, I do not doubt President Reagan's ultimate willingness to compromise in seeking a long-lasting agreement with the Soviet Union if he believes it would produce deep and stabilizing reductions in the level of nuclear arms.

With regard to the Soviets, I believe we should respect as genuine their stated desire for an end to the arms race.

Despite Moscow's xenophobia, despite its history of intransigence on certain aspects of arms control, the Soviet Union must recognize that it has more to gain by international stability, including limits on nuclear arms, than it has to lose.

The Soviet Union is saddled with a stagnating economy which drains huge amounts to pay for arms. It is beset by nascent unrest among its many minorities. Its rulers in Moscow are confronted by a population with rising expectations for a higher standard of living. The Soviets cannot begin to solve their many economic and social problems so long as the arms race commands the bulk of the material and financial resources available for national development.

General Secretary Gorbachev epitomizes the rise to leadership and power of a younger generation unencumbered by the past. We have yet to determine whether we can do business with the new Soviet leader. I hope the answer will prove to be "yes."

As a member of the United States Senate charged with giving advice and consent to certain actions of the President, it strikes me that any discussion of the strategic defense initiative must make reference to other related questions affecting arms control, and must be based upon certain accepted facts. There are six that I would like to briefly discuss.

First, there is no question that the Soviets are deeply engaged in their own version of SDI. Work on defense against strategic missiles has been seriously pursued in the Soviet Union since the early 1960's. The Soviets are well advanced in research and development in each of the four major components of an "exotic" strategic missile defense—high energy lasers, particle beam weapons, radio frequency weapons and kinetic energy weapons.

The Soviets have turned a large portion of the Sary Shagan Missile Center into a laboratory for high energy laser research. It is estimated by Western intelligence that over 10,000 scientists and engineers are associated with the development of lasers for weapons. Expenditures have steadily grown in this field in the Soviet Union.

The Soviet program has progressed to the point where ground-based lasers could be used to interfere with low-level satellites, and such lasers could form the basis of a next-generation anti-satellite weapon.

Research into a ground-based laser ballistic missile defense system, probably leading to testing sometime in the next decade, is likewise under progress at the Sary Shagan Center.

The Soviets are also deeply involved in radio frequency weapons research. By the 1990's, they may be prepared to test a ground-based RFW system capable of damaging satellites. Space-based particle beam weapons capable of disrupting satellite electronic equipment may be ready for testing by the year 2000.

In the area of kinetic energy weapons, Soviet research is advanced. This type of program has the potential, in the relatively near term, of being useful for satellite or space station defense, or for attack by a maneuvering satellite.

Second, the radar that the Soviets are currently constructing at Krasnoyarsk is in violation of the Anti-Ballistic Missile (ABM) Treaty.

The Soviets maintain that the radar is a space-tracking facility, yet it appears much better suited as an early-warning radar in violation of the terms of the ABM Treaty. I agree with Gerard Smith, the former American arms control negotiator, that the Krasnoyarsk radar is an "expressed violation" of the treaty.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member of the Senate on the floor.
Boldface type indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Furthermore, by continually increasing the amount of telemetry information that is encrypted while testing ICBM's, the Soviets are in violation of SALT II. Although unratified, both sides have agreed not to undercut the agreement. It is estimated that the Soviets currently encrypt at least 90 percent of telemetry on such tests.

The significance of Soviet actions undercutting or violating existing arms control agreements is not just that they pose military problems for the United States. In addition, by damaging Soviet credibility, they undermine the basis of support for future agreements in America, and especially in the U.S. Senate. There, a certain percentage of Senators will seize upon any alleged Soviet violation of existing agreements, utilizing such transgressions to oppose ratification of new treaties.

Third, in overall strategic balance, a condition of rough parity exists between the United States and the Soviet Union.

The Soviet Union leads the United States in certain categories of arms, most prominently in intercontinental ballistic missiles and ICBM warheads. But by the same token, the United States leads in several other significant categories, including total numbers of strategic warheads, cruise missiles, multiple-targeted (MIRV'd) submarine-launched ballistic missiles and heavy bombers.

Likewise, both sides possess anti-satellite (ASAT) capabilities which are of emerging importance in the overall strategic balance. There are arguments as to which side "leads" this race. The Soviet system is cumbersome and features unsophisticated technology, but is operational. The U.S. system is not yet operational, but features far more sophisticated technology, and is likely to prove more effective. In sum, neither side can be said to have a commanding ASAT lead over the other.

Fourth, the concept of SDI as a total population defense is unattainable, despite the persistent impression left by many of its proponents that there exists the feasibility of a comprehensive defensive system; a shield that can prevent nuclear weapons from reaching their target.

No strategic ballistic defense system now envisioned using exotic components could conceivably forstall the possibility that future generations of Soviet offensive weapons would break through an American shield.

What of an SDI of more limited scope which does not promise total population defense—toward which is the Defense Department really seems to be moving?

Here, too, the problems are overwhelming, both from the standpoint of cost and technology.

What is clear is that one nation which has deployed, or which is viewed as moving toward deployment, of a strategic ballistic missile defense using exotic components would force the other side to increase its offensive capability. Thus, if the Soviets become convinced that the United States were proceeding toward deployment of such defensive weapons, they will proceed to build enough launchers and warheads to overpower it, and thus maintain what they conceive to be parity.

In this regard, it is worth noting that the 27th Soviet Communist Party Congress will take place next February. It is at this Congress that decisions affecting the next Soviet five-year plan will be made, including decisions on new offensive weapons. Time is of the essence if the Soviet Union is not to be placed in a position where it feels compelled to commit resources to new offensive arms.

Fifth, in assessing systems of strategic ballistic missile defensive using exotic components, we must separate the question of research from that of development, testing and deployment in the context of the ABM Treaty. This distinction is inherently imprecise, but it is crucial for the key reason that research cannot be verified by either side by national technical means.

Until very recently, American interpretation of the ABM Treaty was governed by the understanding that there were certain limits placed upon both sides regarding development, as well as testing and, of course, deployment of ABM systems "based on other physical principles" such as lasers, particle beams and other exotic components.

Ambassador Smith, at Senate hearings on ratification of the treaty, summarized the restrictions on development this way:

"The prohibitions on development contained in the ABM Treaty would start at that part of the development process where field testing is initiated on either a prototype or model. It is understood by both sides that the prohibition on development applies to activities involved after a component moves from the laboratory development and testing stage to the field testing stage, whenever performed."

However, since 1983, when the President delivered his original speech on SDI, there has been a growing divergence between Soviet and American interpretations. The Soviets have taken the position that all research, development and testing of exotic strategic missile defense components—as well as deployment—are prohibited, although General Secretary Gorbachev has conceded within the past month that research is not a violation.

Meanwhile, as the White House confirmed only last week, the United States has adopted as official policy a much more permissive reading of the treaty.

The United States now insists that development and testing of exotic antiballistic missile systems such as those planned for SDI are permitted under the ABM Treaty. Such an interpretation, to say the least, flies in the face of the legal interpretations of past administrations. It raises very troubling questions that go to the heart of whether or not the ABM Treaty can survive as an effective accord governing the control of ballistic defense systems.

The importance of the ABM Treaty cannot be underestimated. It is the only accord between the United States and the Soviet Union which, until now, has limited in any true sense the arsenals of either side. Abandoning the treaty would elevate, by several orders of magnitude, the dangers we face.

Sixth, an agreement in Geneva between the Soviets and the Americans that makes significant and stabilizing reductions in offensive nuclear weapons would be a major step forward in arms control. For the first time the superpowers would have agreed to cut back on numbers instead of agreeing not to breach a figure yet unreached. A step toward eventual elimination of nuclear weapons would have been taken.

Among the strong pluses from such an agreement would be a feeling of relief and approval by our Allies. Caught between the nuclear giants with the potential that they might be the first to be an area of nuclear impact, our European Allies have on occasion been skeptical of U.S. seriousness in arms reductions. The NATO Alliance has suffered as a result. Allied confidence in the United States would soar if an agreement embodying stable reductions were reached.

Lack of an agreement at Geneva does not mean maintenance of the status quo. It means an escalating arms race with all the expense and instability that goes therewith. But worst of all, it means that extraordinary new dimensions and difficulties will hobble future attempts to curtail nuclear arms. As we bitterly learned from MIRV's, any new development compounds the problems of tomorrow's arms negotiators and reduces their chances of success.

Therefore, extraordinary opportunities await President Reagan and General Secretary Gorbachev in Geneva. Neither side need be put off by the initial adamant position, or intractable agruments, adopted by the other. Clearly Mr. Gorbachev can not expect us to accept his deep reduction proposal that would leave virtually all the Soviet intermediate range missiles in place while severely cutting every category of U.S. capability. Likewise, how can the Soviets agree to deep offensive cuts by both sides if the U.S. persists in giving the clear impression that, assuming the technology proves feasible, it will proceed with deployment of an SDI system, the ABM Treaty notwithstanding?

Not in at least a decade has each side been so eager for an agreement that would achieve mutual goals—for the Soviets, the curtailment of SDI; for the U.S., a reduction in warheads and missiles, especially the large SS-18's. The time is propitious, the watching world eager that there be success. For the two principal players, a unique combination of circumstances are present that require each be prepared to give in order to get.

What can and should the President be prepared to offer for significant reductions—and what should he not offer?

Let's take the last first. What should he not offer? There should be no cessation of research on SDI by the United States. As noted earlier, this is a field in which the Soviets are vigorously engaged. While the unknowns are enormous, there nonetheless is potential in this area that could make significant differences to future nuclear stability, and neither side can afford to curb its research when there exists no method of verification of the other's activities.

A research level of about two billion dollars per year for the present certainly ought to be adequate, with future funding levels dependent on what is being discovered, what we believe the Soviets are achieving, and possible future negotiations.

In addition, the President cannot overlook the Soviet's continued violation of the ABM Treaty by dint of the ongoing construction of the Krasnoyarsk radar. Such a disregard of an existing agreement undermines confidence that future agreements would be honored and presents a substantial roadblock to ratification by a Senate which has many Members extremely skeptical of all Soviet arms control agreements. Unless the Soviets agree to halt construction of the radar, it would be seen as inadequate compliance.

Should the Soviets raise complaints about U.S. adherence to the ABM Treaty, we likewise must be prepared to go the full distance to resolve differences. The objective must be to start off without rancorous problems from the past dimming prospects for the future.

There is no doubt that the ABM Treaty needs review, given the diverging interpretations in what it covers and what it does not cover. Either on its own or as part of a new arms control agreement with the Soviets, clarification and strengthening of the Treaty must become a priority for both sides.

Here, then, is the heart of the matter: In return for deep and stabilizing cuts in offensive weapons, I believe the President should agree to no testing or deployment of exotic strategic defenses by either side.

What is testing? One try? Two tries? I would ban any testing that can be verified by national technical means.

Some would object, saying that the Soviets have already done some testing and thus are ahead of U.S. efforts. Maybe so, but whatever they have achieved by testing to date is not of such significance that it outweighs the rewards resulting from major reductions.

Soviet tested defensive efforts to date do not present a risk to U.S. capabilities. Even if the Soviets were to "break out" of a limitation on defensive ballistic missile systems, our retaliatory forces are strong enough to overcome whatever they deploy. Should we have legitimate concerns that the Soviets were not adhering to the Treaty, then of course we would be free to abrogate it.

I further believe the President should be prepared to agree to no further testing and deployment of anti-satellite weapons as a first step toward a verifiable agreement calling for the destruction of existing ASAT systems.

The United States stands to gain by such an agreement. As a recent study by the Congressional Office of Technology Assessment (OTA) noted:

"It is apparent that the United States is more dependent on [satellites] to perform important military functions than is the Soviet Union. The United States has global security commitments and force deployments, while the Soviet Union has few forces committed or deployed outside the borders and littoral waters of members of the Warsaw Treaty Organization and Cuba. The United States has corresponding requirements for global and oceanic command and control communications capabilities and relies largely on space systems to provide these requirements. The Soviet Union, on the other hand, can rely on landline communications systems and over-the-horizon radio links for many of its [command and control communications] needs.

Now, it seems, is the time to put a cork in the ASAT bottle. The upside from stopping further ASAT testing and deployment far outweighs any risks. Again we have an analogy in the deployment of MIRV'd weapons. Once ASAT systems are developed and deployed, stability is threatened. The time to curb them is now.

As both leaders proceed to Geneva, each should feel a deep sense of confidence. Despite dire statements about the strength of each of the superpowers vis-a-vis the other, the truth is that rough parity now exists. Neither has to bargain from weakness. Each stands to gain from an accord in which each gives and each gets.

A truly unique opportunity is at hand. If Geneva fails, it will not result in the end of the world. But it will mean—as each nation proceeds with its defensive research, development, testing and deployment and does the same with ASAT's—that there will be far less opportunity for future leaders to achieve that which President Reagan seeks: A genuine lessening of the likelihood of nuclear war.

Truly there is a tide in the affairs of men which, taken at the flood, leads on to fortune.

May that tide be seized in Geneva.

Thank you.●

EXECUTIVE WANTS FAIR TAX PLAN

HON. STEPHEN L. NEAL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. NEAL. Mr. Speaker, for many years I have thought that our Tax Code is a disgrace and largely because of the national Republican economic plan instituted in 1981, it has become much worse, allowing many large corporations and wealthy individuals to escape taxation and placing almost the entire burden on middle income working people. We now have a great opportunity to correct these inequities, and I hope that we will do that.

As we go about that task, however, we are certain to find that the corporations and individuals that are now benefiting from tax loopholes and special tax breaks are going to be against any changes in the code. It is refreshing to observe, however, that not all large corporations take that position. I would cite as an example R.J. Reynolds Industries, Inc., which has annual sales of around $20 billion and is the Nation's largest consumer products company.

In a recent address to the Atlanta Rotary Club, J. Tylee Wilson, chairman and chief executive officer of RJR, discussed the urgent need for tax reform. I would like at this point to share his comments with my colleagues:

TAX REFORM AND COMMON SENSE

(By J. Tylee Wilson)

As always, it's a pleasure to be in Atlanta. Over the years I have spent a lot of time in this great city. And, it often seemed, even more time at your airport. There's an old saying: Whether you go to heaven or hell, you have to change planes in Atlanta. But now, with all the traffic out there, people say you still change planes for heaven . . . But if you're going to the other place, they just leave you at the airport.

The reason the transportation facilities are so busy around here, of course, is that thousands and thousands of people have occasion to do business in Atlanta, the capital of the New South. Most of them are selling something. And I might as well admit it . . . so am I.

Today I am here to sell this influential group of people on doing something about a federal tax code that President Reagan recently described as "a daily mugging that we've learned to live with." I am firmly convinced that tax reform is critical for the prosperity and well-being of this country. Before getting into that, however, I would like to spend a few minutes giving you a little background so that you'll know—as our younger executives might put it—where I'm coming from.

I'm sure you have heard about the recent merger of R.J. Reynolds Industries and Nabisco Brands. With the merger, our corporation has become the nation's largest consumer products company, with annual sales nearing $20 billion. In worldwide ranking, we are No. 2, just behind European-based Unilever and—we believe—gaining ground.

Our acquisition of Nabisco came about because we had prepared ourselves to make such a move, should exactly the right opportunity arise. The chance did come, unexpectedly. As has been reported in the press, the possibility of a merger with Nabisco was first mentioned casually in New York one day, when Ross Johnson and I were meeting at lunch to discuss entirely different matters.

Ross is now the president and chief operating officer of R.J. Reynolds. At the time, he was vice chairman and chief executive of Nabisco. He is an executive of skill and subtlety but as far as I know, he didn't have any previous plan to merge his company with RJR. I forget who mentioned it first that day. We didn't really discuss it. We just thought, "Wouldn't it be interesting?"

Of course, word of the meeting and our follow-up discussions eventually got out, and Wall Street reacted exactly as you might expect. What we thought was an interesting idea became, in the minds of many, practically a sure thing. The price of Nabisco stock was rising sharply. Ross and I scheduled another meeting. Our purpose was to decide whether to go ahead and accelerate our discussions, or just drop them.

There being no possibility of going out to a restaurant without doing more violence to the orderly trading of securities, we had lunch in Ross's office. After considerable deliberation, our decision was to assemble our people and seek a quick resolution. That was a fair-sized project all by itself. When we counted up all the lawyers, accountants, planners and others who would be involved, we realized we would have to rent nearly an entire floor in one of New York's large hotels.

The talks went favorably. But just as we neared agreement, disaster threatened. Believe me, it was just about the worst thing that can happen to a business conference in New York . . . The hotel workers were going on strike. We realized that if we didn't get agreement by midnight, May 31, we would have to carry on without room service.

Whether that made either side more amenable I honestly don't know. But we did sign documents and on Sunday, June 2, we announced a $4.9 billion merger agreement. The union of RJR and Nabisco became official on September 10, with the favorable vote of Nabisco shareholders at a special meeting.

Without a doubt R.J. Reynolds is now poised for perhaps the greatest period of growth in its history. We have countless opportunities and challenges. But in some ways we are still essentially the same company we were . . . a company dedicated to providing quality consumer goods and services on a worldwide scale.

And there's at least one other thing that hasn't changed: In addition to being one of the largest companies in the United States, we are also one of the largest collectors of taxes. Every day we collect and pass on to Uncle Sam over $6 million in federal excise taxes on tobacco and alcoholic beverages.

Being your friendly neighborhood tax collector isn't a role we enjoy, but there's not a lot we can do about it.

I didn't come here to bemoan excise taxes on tobacco and alcoholic beverages. However, I'm not going to lose the opportunity to

say that those excise taxes are unreasonable and punitive.

My real purpose today is to discuss the critical problem of the nation's income tax code for individuals and for corporations in general. Since President Reagan presented his tax reform proposal on May 28, we at R.J. Reynolds have thoughtfully studied it—all 461 pages. Many of you, I'm sure, have done the same.

As I have indicated, we at RJR have concluded that the President's proposal deserves our vigorous support. That doesn't mean we consider it a guide to perfection in a tax code. There will probably never be such a thing. But this set of reforms, if enacted, will be a giant step toward what President Reagan called "fairness, simplicity and growth" in the American economy.

One reason for our support is self-interest. It is true that the plan would save our company a great deal of money by more fairly distributing the tax burden among American industries and corporations.

At present, consumer product companies generally operate at a tax disadvantage. A recent study by a group called Citizens for Tax Justice revealed that over the tax years 1981 through 1984, 50 of the nation's largest and richest corporations paid no federal income tax at all—even though they had combined profits of $56 billion. In fact, 48 of those companies got refunds totaling almost $2.4 billion.

Without pointing the finger at any other group of companies, I must point out that those favored 50 companies were, for the most part, not producers of consumer goods. Naturally, R.J. Reynolds is concerned about this obvious inequity, all the more so now that the addition of Nabisco has greatly increased our presence in the field of consumer products.

Last year we paid an effective world-wide tax rate of 42.9 percent—not far below the maximum U.S. rate of 46 percent. Under President Reagan's proposal, RJR and all corporations would pay no more than a maximum effective U.S. rate of 33 percent. This difference of 10 percent would save our company millions of dollars.

We would also benefit, as would other companies, from the provision that would allow corporations to deduct 10 percent of the amount they pay each year in dividends to shareholders. This would reduce what is, in effect, double taxation. As you know, corporations pay taxes on their earnings, and individual shareholders then pay taxes again on those same earnings, when distributed as dividends. The President's proposal is a step in the right direction toward eliminating this double taxation—and it would save RJR more than $15 million a year.

But not all the provisions of the President's plan will benefit RJR. One of the unfavorable provisions is the elimination of investment tax credits. Another is slower depreciation rates. Still another is a change in the foreign tax credit limitation that would adversely affect all multinational companies. These would cancel out a significant portion of the savings I've mentioned.

We are also particularly concerned about the Treasury Department's last-minute proposal to eliminate the 401(k) section of the Internal Revenue Code. This is the section that allows employees to defer income tax liability on a certain percentage of their pre-tax compensation that they invest in a savings plan—thus lowering their gross income and reducing their taxes.

Elimination of 401(k) would destroy the incentive of millions of Americans to plan sensibly for retirement. We strongly oppose that proposal.

Those reservations aside, on balance, the President's plan would be favorable to R.J. Reynolds. However—and this is important—we would support the overall plan even if the impact on the company were not so positive.

By working toward what the President has called a "level playing field" among both companies and individuals, the plan is good for the economy, good for the people, and good for the country. To me, it's only common sense to support it.

To put this matter in perspective, it is necessary to go back into history for a moment. People have always protested taxes. You may not realize it, but when Lady Godiva took her famous ride through an English marketplace in the eleventh century, she was protesting taxes. In fact, she was demonstrating—if I may use that word in connection with a naked lady on horseback—against taxes imposed by her own husband Leofric.

She won her case, too. Leofric took one look and rescinded all his taxes—except the one on horses. Make of that what you will.

Governments, to do them justice, have long searched for ways to more fairly collect the revenues they think they need. The concept of a tax on income, based on ability to pay, certainly sounds fair, and it was first introduced centuries ago. One of its flaws was pointed out in the fourth century by Plato, who said "When there is an income tax, the just man will pay more and the unjust less on the same amount of income." That does sound familiar.

The idea was first introduced in what was to become Massachusetts as early as 1646. Something called a "faculty tax" was imposed on the income of "every laborer, artificer and handicraftsman."

Taxes played a large role in the American Revolution, of course. We've all heard of "No taxation without representation." But those were British excise taxes on molasses and tea. The new government of the United States raised revenues with excise and various other taxes, but didn't get around to the notion of an income tax until July 1, 1862. On that day—a year into the Civil War with the Union forces largely in retreat—President Lincoln signed a bill creating the first real income tax in the U.S., and also creating the first Internal Revenue Service. You won't be surprised when I tell you that within six months of its creation, the IRS had nearly 3,900 employees. Some of them were paid according to how much they could collect . . . on commission, in other words.

The income tax and that IRS were abolished after the Civil War. Much later, in 1909, Congress passed the first permanent income tax on corporations. And in 1913, the 16th Amendment was passed, stating, "Congress shall have the power to lay and collect taxes on incomes." Losing no time, Congress then passed the first modern income tax, a levy of one percent on income of more than $3,000. Of course not many people made $3,000 in those days, so relatively few had to pay anything—only about 20 percent of the lawyers and bankers, for instance.

I will not burden you with the tedious details of how the American income tax system has grown since 1913 and how it has been encrusted with shelters, preferences and incentives that benefit the few. I will only point out what we all know—that it has become an unwieldy and unworkable hodgepodge. The government didn't plan it that way. The road to that hodgepodge, like the road to hell, was paved with good intentions. But the result is, again to quote President Reagan, a tax system that "in both spirit and substance has come to be un-American."

Today individual taxpayers pay nearly four times more taxes than corporations. In fact, the average American family, according to a recent study, pays taxes at a higher rate than 129 corporations with combined profits of $45 billion. That is not fair.

At the same time, some companies pay 20 times more taxes than other corporations that are equally profitable. And that is not fair.

Many companies are all but forced to run their businesses on the basis of tax considerations, rather than what's best for the growth and development of the company . . . and that is ridiculous!

Only in America is it tax-wise for a profitable company to buy another company's losses to deduct from its tax bill, or to sell the company headquarters building and then lease it back the same day. Only in America does it often make more tax sense to figure out ways to avoid taxes than to develop new products and services.

In recent years, there has been a great deal of debate as to whether the United States should have a National Industrial Policy. In my view, we already have one—and it's called the Internal Revenue Code.

According to an opinion poll, nearly 70 percent of our citizens believe the present tax system is unfair. I'm not sure what the other 30 percent are thinking. But they're probably busy investing in windmills and signing up for educational seminars on a cruise ship.

What are the chances of a tax reform bill coming out of Congress this year or early next year? If you have followed the situation, you know that there are many cross-currents, and that the outlook for passage by both Houses changes almost daily. However, responsible lawmakers realize that reform is desperately needed.

There are many sensitive and controversial issues to be settled, such as elimination of the personal deduction for state and local taxes, employee benefits issues, the difference in the percentage of tax cuts received by people in different income groups, and the effective dates for various provisions of the bill. There is little doubt that some provisions of the President's proposal will change. If I had to guess, I would say that the provision for depreciation recapture is particularly in trouble. Each of these controversial areas will need to be balanced within the context of revenue neutrality—that is, no revenue gain or loss to the Treasury.

But our company's government relations people in Washington say that the prospects now appear reasonably good that the Houses of Representatives will consider a tax reform bill before adjournment.

The outlook in the Senate is more troublesome, partly because the Finance Committee is precluded from conducting deliberations behind closed doors. There are also potential problems involving reelection considerations and the possibility of filibustering. Our government relations people are less optimistic that the Senate will act this year, but still hopeful that final action will occur. Senators will be under strong pressure to act, particularly if President Reagan likes the House bill and is successful in re-igniting grass roots support.

If the bill emerging from the legislative process contains the key administration proposals, I strong believe that it will unlock some of the inherent power of the American economic system. Instead of investing its capital on the basis of potential tax breaks, as invited in many cases by the current law, companies will have incentive to make their investments on the basis of good business . . . and common sense.

And individuals will tote up and pay their income taxes with some confidence that everyone else is also paying their fair share.

As you know, the President has been out on the road speaking in support of tax reform. We are happy to join his grass-roots Tax Reform Campaign, and I hope many of you will do the same.

IN MEMORIUM OF CANTOR DAVID KUSEVITSKY

HON. CHARLES E. SCHUMER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. SCHUMER. Mr. Speaker, Mr. Alan Jay Gerber, an active community leader in my district, wrote a stirring memorial, portions of which are excerpted below, on behalf of his good friend and one of the leading figures in New York—the late David Kusevitsky:

IN MEMORIUM OF CANTOR DAVID KUSEVITSKY

(By Alan Jay Gerber)

We here in our community of Boro Park, Brooklyn, were blessed with the presence for over 37 years of the HAZZAN HADOR, the Cantor of our generation, David Kusevitsky, "The Sweet Singer of Israel." His untimely passing at the age of 74 on July 31, 1985, has come as a shock to all lovers of Jewish music.

Cantor Kusevitsky was first and foremost a SHELIACH TZIBUR, who with deep piety, prayed for our cause. To most of us, this was the picture of our world renowned Cantor that will always be in our minds; garbed in his robe, talis and cap, singing in majestic tones the great liturgical works of the synagogue service.

When World War I broke out, it brought hard times and many difficulties to the Kusevitsky family in Smorgon, a suburb of Vilna. Father, Avigdor Kusevitsky, and mother, Alte, had four sons, the youngest of whom was David. The grandfather and great-grandfather had been B'aale T'fila. Father, Avigdor, was a music lover who played the violin. Mother, Alte, also had a beautiful singing voice. To escape the invaders, the Kusevitsky family fled from Vilna to Minsk, from there to the borders of Siberia, then to Kharkov and finally to Rostov on the Don.

David, at age 6, already a talented violinist, attended the music conservatory. In 1921, after the revolution, David attended the Tarbuth, the Hebrew Gymnasium and the Conservatoire. An accomplished musician at age 14, David dreamed of becoming a conductor of a symphonic orchestra. He wrote many compositions for Hazzanim.

At age 18, at brother Simcha's first Shabbos as Hazzan, it was David who conducted the choir.

Brother Yankel was already established in Kremenitz as a Hazzan and asked for David to conduct his choir. The following year, both Yankel as Hazzan and David as choir leader, jointly signed a contract in the town of Lemberg. David finished his music studies at the Lemberg Conservatoire. Within a year, brother Simcha, who was Hazzan in Rovno, requested Yankel to release David, and Simcha engaged him as choir leader. It was during Simcha's absence from Rovno that David started to officiate as a Cantor.

But, all of this was interrupted in 1931—when David was drafted into the Polish Army. Even in the Army his talents were soon discovered and here David organized a Soldiers' Chorus—a choral group of Polish soldiers whom he trained and conducted.

The story of the choir of 40 non-Jewish Polish soldiers and of the little Jewish choir leader reached the ears of the Polish General who praised him for his fine work before the entire regiment.

After his army experience, David joined his parents in Warsaw. In Warsaw, at this time, brother Moishe was officiating at the Tlomackie Shul. It was in Warsaw that Moishe began to recognize David's vocal talents. Moishe encouraged him to become a Cantor instead of a Conductor.

With the help of Moishe (Dansinger) Ron, David began to appear at various Warsaw functions, singing solo cantorial and popular Jewish songs.

The exposure gained through this experience led to his being engaged for the High Holy Days in Lodz at services conducted in the Philharmonic Hall. Soon thereafter he was offered a position in Bialystock, but the Rovner Shul engaged his services.

David became the Cantor of the Rovner Shul, officiating for the first time on Shabbot Hagadol, 1935.

David left for London in 1937 to accept the post as Cantor of the Hendon Synagogue in a suburb of London.

Over the next decade, David was the much loved Hazzan at Hendon. It was at this post he lived through World War II, when the German Luftwaffe stormed London with fire bombs and weapons of destruction in an effort to force Great Britain to its knees. Members of the Clergy were invited to leave the danger zone, but David chose to remain at this post throughout the *Blitz*—visiting hospitals, singing for the soldiers and even conducting services in the subway air raid shelters during bombing raids.

During these years, David was also instructor at the Jews' College where he taught rabbinical students cantorial skills.

In 1948, an American clothing manufacturer, on a visit to London was thrilled when he heard the glorious voice of David Kusevitsky and he dreamt of bringing Cantor Kusevitsky to his own Temple in the United States of America. This manufacturer was none other than Simon Ackerman, a trustee and a staunch pillar of Temple Emanu-El of Boro Park.

David hesitated to leave Hendon where he made so many friends, but there was no resisting the eloquent salesmanship of Simon Ackerman. Besides, most of his family were already settled in the United States. And so, with many tears and expressions of regret, the Hendon Synagogue bade farewell to its cantor and the Kusevitsky family embarked on the Queen Elizabeth for the new world.

In addition to becoming the Cantor of Temple Emanu-El, David traveled to every part of our nation. He sang throughout most of North America, South America, Europe and Israel. A notable accomplishment was his series of broadcasts from Cleveland where he joined Rabbi Abba Hillel Silver, in monthly radio services. A typical weekend for David during these years was to pray in Temple Emanu-El on Shabbat, fly to Cleveland Saturday night for the early morning broadcast on Sunday—fly back to New York for a Sunday night concert and off to the airport for a trip to Dallas, Texas, for a Monday night concert.

In 1950, he returned to a triumphal tour of England. In 1953—to Paris, Brussels, Antwerp and Lieges. In 1956, the first of a series of tours of South America, where ecstatic Jewish audiences greeted him in Buenos Aires, Montevideo, Rio de Janeiro and many other cities. In the summer of 1956, he was privileged to sing 18 concerts and to preside at six Shabbat services in Israel.

A great moment in the Kusevitsky family occurred in 1953 at Carnegie Hall, when mother Kusevitsky proudly surveyed a packed concert hall attending a joint recital of four world renowned Hazzanim—her boys—the "4 Kusevitsky Brothers."

Every worthy cause found a supporter in David Kusevitsky. His mangificent voice was heard in support of U.J.A., Israel Bonds, Hadassah, Keren Kayemeth, at the Night of Stars at Madison Square Garden, at the Chanukah festivals and pageants where he performed with Leonard Bernstein, Jan Peerce and Richard Tucker. At Ebbets Field, he sang to a capacity house. Abba Eban, Ambassador from Israel, was an attentive listener. He recorded for the Columbia, Folkways and Tikvah labels.

Always the teacher and leader, David accepted and continued to teach for many years the masters' class at the Cantor's Institute at the Jewish Theological Seminary and at the Jewish Teachers Seminary.

His experiences as a lecturer in sacred music at the Jews' College in London had served him in good stead and prepared him for his long and fruitful teaching career in the United States.

The last years saw David travel with greater frequency to the Arbah Kanfot Hagalut—to the four corners of the Diaspora—to Australia, Brazil, Peru, Argentina and Canada. Israel, he visited thirteen times, with Tel-Aviv concerts, sponsored by Mayor Shlomo Lahat, becoming an annual event.

The annual concerts at Temple Emanu-El became a fixture on the Brooklyn cultural scene. Founded by the late Earl Krameisen, these concerts expanded the scope of Jewish musical taste to include Israeli pop, choral variations and especially Klezmer. This widened the musical horizon in an area of New York where live Jewish music, in a concert hall setting, is now almost non-existent.

This last point was recently given recognition by the State of New York through a grant obtained by our own State Senator Martin Solomon. A golden tribute to David Kusevitsky was held in December, 1982. Attended by well over one thousand people, David Kusevitsky was hailed for this half century of service as Cantor to world Jewry. This was to be his last concert in Boro Park.

As always, the services at Temple Emanu-El served as model for dignity and excellence. The repertoire used by Cantor and choir was a vast "Who's Who" in Jewish liturgical music, including Sultzer, Rovner, Lewadowski, Lowe, Dunayevski, Rubin, Bernstein, Surkis, Kaninsky and Novakovski.

It was the added dignity and stature that David Kusevitsky gave to the Cantorate that will forever be his major contribution to Jewish musical and liturgical history.

SOUR MEDICINE, BUT GOOD FOR US

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. HUBBARD. Mr. Speaker, I have read editorials about the Gramm-Rudman-Hollings bill in the Washington Post, the New York Times, Newsweek, Business Week and other major publications.

However, the best editorial comment about the Gramm-Rudman-Hollings legislation I have read yet comes from the Paducah Sun, a newspaper in my district. The Paducah, KY, newspaper's President is Fred Paxton and its editorial writer is Don Pepper.

The following editorial appeared in the October 25, 1985, edition of the Paducah Sun.

SOUR MEDICINE, BUT GOOD FOR US

Even the people who wrote the deficit-cutting bill now tying Congress in knots don't like it much.

We don't either. It would be much better if Congress would simply do what the Constitution tells it to do and adopt responsible budgets. It should simply stop piling up debt for our children and grandchildren to pay.

But since Congress has amply proved that it is unable or unwilling to do this, some version of this bill looks like the best answer available.

Objectors to the bill—called Gramm-Rudman-Hollings after the two Republicans and one Democrat who introduced it in the Senate—are right when they call it a draconian measure.

It sets a schedule for balancing the federal budget, six equal reductions of $35 billion each through fiscal 1991. If Congress and the President fail to produce a budget that meets the schedule, then the president must impose automatic across-the-board cuts. Every program would be slashed except Social Security.

This was passed overwhelmingly by the Senate as an amendment to the bill extending the public debt to the terrifying level of $2 trillion. It is now in conference with the House of Representatives.

The responsible opposition to this is expressed well by Stephen H. Wildstrom, a columnist for Business Week magazine.

"The result," he writes, "could well be a law that not only avoids the real problem but also undercuts one of the basic roles of government: choosing wisely among a host of competing demands for federal spending.

But that's precisely what the Congress has steadfastly refused, or failed, to do. It can't make choices among competing demands. It simply caves in to all of them, like an over-indulgent parent with a brood of spoiled children.

The other main thrust of the opposition is that the bill delivers too much power—possibly even unconstitutional power—to the President.

As we see it neither objection is necessarily valid. In the first place, if we understand the bill's provisions correctly, it doesn't undercut at all the basic duty of government to choose wisely among competing demands. Instead it forces it.

If the Congress wants to avoid the meat-cleaver approach to budget-cutting, as columnist George Will expressed it, it can easily do so. Well, maybe not easily, but simply. All it has to do is what it's supposed to do, choose wisely among competing demands within the restraints of the law. The meat-cleaver only falls if Congress and the President fail to do their duty.

Same thing with the too-much-power-for-the-President argument. If Congress wants to curb the President's power to set spending limits, all it has to do is to do the job itself in a responsible manner. If it does, the President won't come into the process at all.

If the opponents don't like this approach—and really, scarcely anybody does—let them offer something better. What is essential is that this Congress, right now, make a commitment to bring those deficits down.

Gramm-Rudman-Hollings may not be the kind of law we like to pass, but we face a genuine emergency. Anything that is backed by both Sens. Edward Kennedy and Jesse Helms is worth serious consideration. The medicine may not taste good, but it's good for us."

THE DECLINE AND FALL OF THE AMERICAN REPUBLIC

HON. G. WILLIAM WHITEHURST

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. WHITEHURST. Mr. Speaker, I am pleased to share with my colleagues a sobering column written by Charles Horton, editor of Supply House Times, from the August 1985 issue. It is as clear a piece of prose as I have seen in a long time outlining what ails us.

Mr. Horton has a sense of history. His words are timely, and we would do well to heed them.

Thank you, Mr. Speaker.

THE DECLINE AND FALL OF THE AMERICAN REPUBLIC

Last month's editorial dealt with the devastating effect on American agriculture and industry of the strong dollar, overpriced against other major currencies by as much as 50%. I contended that the "service" segment of the economy creates no which, but is actually a parasite of the productive labor of farmers and factory workers, and concluded by saying that "we can't make a national living selling insurance to one another of cutting each other's hair."

At that point I ran out of space. Since I view the decline of American industry and agriculture as by far the biggest problem facing this country today, I ask your indulgence to now continue on that subject. It is more than a problem, it is a crisis, the potential consequences of which will be devastating and permanent. The overvalued dollar is not the whole of it, either.

FRIVOLOUS UNCONCERN

Tragically, our government and media show a frivolous unconcern about this looming catastrophe. We face a trade deficit of $130 billion this year, and nobody cares. We are being buried under an avalanche of imports—sucked in and actually subsidized by the grossly overvalued dollar—and our people are delighted because it makes foreign goods cheap.

Meanwhile, just the week this Editorial is written, AT&T announced that its sole remaining plant that produces residential telephones in the United States (at Shreveport, La.) will be phased out and the production moved to Singapore, where most of it is already. Nine hundred Americans will lose their jobs. How ironic. The country where the telephone was invented, which for a century lead the world in telecommunications technology, can no longer produce them competitively. It will soon be literally impossible to buy a residential telephone made in the United States.

The situation is not much better in commercial telephones. Late last year we installed a new telephone system in our office. Since it was supplied by Lanier, I naturally assumed it was American-made. Recently, I saw a Toshiba ad, and it was instantly apparent that their system is what we have. Lanier is not the manufacturer, only the marketing and service agency. Their entire "value added" consisted of pasting a label on a foreign-made product.

Right now, I am undergoing the frustration of trying to find an American-made office copier with the capacity and features that fit our needs. There aren't any. The only American content of those I have seen so far is the label. The copier was invented here, developed and improved here, and for 25 years we were the leaders in that field, but no more. We didn't keep up in quality, features or productivity. All we can make competitively now is the label.

DEADHEAD MANAGEMENT

The American farmer can justly blame the government for his ruin, because he is efficient, and he did keep up. It was the strong dollar and Carter's idiot grain embargo that did him in. But the American manufacturer must blame himself primarily; not the workers either, but the management. It wasn't the Joe Sixpacks out in the shop who let the products go stale and the quality decline. It was the management. If you have a long head start, the largest domestic market in the world with all the economies of scale, and still let foreign competition pass you; then there is something wrong with you.

Every time I go into our employee parking lot I get mad anew. About 30% of the cars there are foreign-made. I ask myself: How much plumbing, heating and piping is the United States selling in Germany and Japan? Why don't our people have more loyalty to the source of their bread and butter?

But then I have to ask myself: Is it really their fault? The automobile was invented here and for 60 years our auto industry lead the world—in technology, production efficiency, marketing, consumer appeal—everything. A huge head start, an unrivaled know-how. But not enough, as it turned out, to design fuel-efficient small cars of good quality with the features that appeal to younger people.

They knew about the postwar baby boom; they knew that 60 million young buyers were on the way. They knew that this market could not afford and did not want the traditional gas-guzzlers. But they would not, or could not, respond. they never managed to design and build the right products for that market. Many tries, all failures, and they deserved to fail because they were all pieces of tin. For all their celebrated management and marketing smarts, they just couldn't give that market what it wanted. Now, with Japanese partners, they are going to try again, and this time they might make it.

DRONES, PARASITES

"Value added by manufacturing"—that's where real wealth is created. Our decline in major industries is a national tragedy, and the way we have been virtually driven out of some is a national disgrace. What happened?

A failure of management is what happened, and it long predates the special problems caused by the strong dollar. It started with the conglomerate craze of the 1960s. Then came the MBA plague with their strategic plans, their assets redeployment, synergism, interfacing and all that baloney. Now the "takeover" cannibalism that preoccupies corporate management and financial markets. It creates nothing but crushing debt that will hobble the victim company forever after and accomplishes nothing but the destruction of morale and vitality.

The big money today doesn't go to the producers of quality products at competitive prices, but to those who produce nothing. To the investment bankers and takeover artists; to the tax lawyers and tax-shelter promoters; to the lobbyists and political insiders; to the speculators and syndicators. Where the big money is, there also will be the best brains and talent, employed in purely negative activities.

Why do we reward the parasites of society so much better than the producers? How many million drones can what's left of our productive economy continue to support? All those think tanks, consultants and conductors of seminars; all those foundations, researchers, special-interest organizations, marriage counselors, head-shrinkers and innumerable others of the same useless ilk.

Among federal, state and local governments—with all the bureaucrats, social workers, administrators, computer technicians and inspectors—at least a million people are employed full-time at giving money away to 50 million recipients of income they did not earn. They didn't produce any of what they give away. It came as taxes from the productive segments of society. The productive base on which it all feeds is shrinking. What will happen when it can no longer feed 50 million freeloaders? It already can't. That's why we have a $200 billion deficit.

"DECLINE AND FALL"

Currently, I am reading Gibbon's *Decline and Fall of the Roman Empire*—actually rereading it for the fourth time over the past 30 years. I feel right at home in that book, though it was written 200 years ago and what it depicts took place 1,700 years ago. It's all there; the parallels with what is happening in this country today fairly leap off the page.

The debasement of the coinage in Ancient Rome lead to a decline of industry and commerce. Our parallel is inflation and the overpriced dollar. The Roman government consistently ran huge deficits, but they were pantywaists compared with us.

A frivolous Senate was too preoccupied with its own vanity and procedures to be concerned about the economy and barbarian hordes nipping away at the frontiers. A large and ever-growing indolent class demanded "bread and circuses" as the price of social order.

There was a decline of creativity, replaced by a plague of critics and annotators (read consultants). Society was caught up in trivia—gourmet cooking, women's clothes, hair styles, the theater and such. The citizens were no longer willing to serve in the army, so hired barbarian mercenaries to defend them. (We hire the underprivileged.) Farmers were ruined and lost their land because of onerous taxation and imports of cheap grain from Egypt. Landlords were confiscated on the installment plan by rent controls. They didn't maintain their buildings and eventually abandoned them. Sounds familiar, doesn't it? Artisans could not compete with slave labor so lost first their shops and then their skills.

It's all so familiar, and it scares the hell out of me. The Roman Empire in its final century had a death wish. Maybe the American Republic has one also. It sure seems that way. But why? I wish I knew, but it's beyond knowing.

GRENADA: LESSONS FOR TODAY

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. RITTER. Mr. Speaker, Phyllis Schlafly recently wrote a column for Eagle Forum entitled, "Let's Keep the Lessons of Grenada Fresh in Thought." This past week as we observed the lessons of Grenada, I think it's important for my colleagues to take the time to review this material:

LET'S KEEP THE LESSONS OF GRENADA FRESH IN THOUGHT

(By Phyllis Schlafly)

Ronald Reagan's rescue of the island of Grenada two years ago this month was the most anti-communist act our government has taken since the Eisenhower administration rescued Guatemala from the communists in 1954. It was also one of the most popular acts of the Reagan administration despite immediate, universal condemnation by the liberal media.

As the President prepares to go to Geneva, it's good for him and for us to be reminded of the lessons we learned from Grenada. That act was so sudden, so surprising and so dramatic that we are still in awe of its success.

Historians probably will look back on the Grenada invasion of October 1983 as a turning point in official U.S. policy toward communism. Using a minimum of force, the United States was able to prevent the establishment of another communist state in the Western Hemisphere.

The U.S. State Department recently published a selection from the 35,000 pounds of documents captured when our Marines landed in Grenada. They provide important insight into Soviet actions and plans in the Caribbean. ("Grenada Documents," Government Printing Office, $19.)

It's evident from these documents that the Soviet Union was arming Grenada to function as a Soviet base supplied by weapons going through Cuba. The documents clearly show the deceitful behavior that is part and parcel of communist strategy and tactics.

The captured documents prove again (as if anybody needed any proof) that the Soviets consistently mislead us about treaties. In the captured military treaty documents, the Grenadian communists promised the Soviets that they would lie about the existence of secret agreements to ship arms from the U.S.S.R. to Grenada via Cuba.

The captured documents show that Grenada was becoming a major Soviet-aligned military fortress complete with Soviet military personnel. Grenada was being prepared to be an airbase for Soviet military jets, a port for Soviet ships and an "invisible aircraft carrier" for the Soviets in the Caribbean if war ever broke out. The documents show that the Soviet master plan includes exporting revolution by guerrilla movements from every base they can acquire and maintain.

Grenada was a key player in Soviet plans to get other beachheads in the Western Hemisphere. One captured message quotes Soviet military chief Marshal Ogarkov as saying, "Nineteen years ago we had only Cuba. Today we have Cuba, Nicaragua and Grenada, and the battlefield is El Salvador—we are making progress."

The captured documents prove that (to paraphrase Gertrude Stein) a communists is a communist is a communist. The Grenada documents, which include thousands of internal memoranda of a Communist regime in power, detail a police state just like Cuba, Nicaragua, Afghanistan, Angola, Vietnam and every other satellite country. The documents describe how to repress political opponents, the press, the clergy and the private sector.

The captured documents confirm that the communists have not changed their ways; they are still a major threat to the Free World, and that what is at stake in this confrontation is freedom itself. Grenada gives hope to anticommunist freedom fighters all over the world that they, too, may someday defeat communism.

The Grenada invasion broke the mystique of the Brezhnev Doctrine, that once a country goes communist, it must always remain communist. Grenada exposed this for what it really is: just the impudent boast of a bloody dictator.

The Grenada invasion not only proved that communism is reversible, it also legitimized the use of force to liberate the captive peoples. Grenada demolished the notion that it isn't appropriate for a Western democracy to use any but "political" or "negotiated" means to resolve conflicts.

One final lesson of Grenada was to expose the anti-Reagan and pro-appeasement bias of the national media elite. They thought the invasion would enable them to use Ronald Reagan as a whipping boy, but the media got their comeuppance when public opinion overwhelmingly backed President Reagan.

Congressmen Newt Gingrich, R-Ga., and Ike Skelton, D-Mo., have introduced a joint resolution in Congress to authorize the President to proclaim the week of Oct. 20 as "The Lessons of Grenada Week." Such a week would be a good current history lesson for the American people and a good reminder to the President, as he prepares for Geneva, that the communist bloc is indeed, as he has said, "an evil empire." If he trusts his own instincts, he will do what is right successful and popular.

HOLOCAUST SURVIVORS ENCOURAGE TEACHING ABOUT THE HOLOCAUST

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. LANTOS. Mr. Speaker, this year we commemorated the 40th anniversary of the end of World War II, and with it the 40th

anniversary of the liberation of the Nazi death camps. Also, just 2 weeks ago, a number of us here in this House participated in the official groundbreaking for the U.S. Holocaust Memorial Museum. These are important events, these are events that must be commemorated.

As Benjamin Meed, the president of the American Gathering of Jewish Holocaust Survivors, recently said so well: "We are not obsessed with the Holocaust. Rather. we are greatly concerned and afraid that the Holocaust will be denied and possibly repeated. Therefore, we have an obligation to remember."

One of the most important elements in assuring that this blackest hour in the history of mankind is never repeated is knowledge and education—education not only of Jewish children, but of all American children. In the past, Holocaust survivors themselves visited schools and lectured students, they spoke to community groups, they led the effort. But the time that survivors themselves can continue this effort firsthand will soon pass.

The American Gathering of Jewish Holocaust Survivors, in cooperation with the United Federation of Teachers in New York and the Jewish Labor Committee's Educators Chapter, have established an innovative program to perpetuate the knowledge of the Holocaust.

Earlier this summer, 30 teachers—Jews and non-Jews—received scholarships for travel to Israel for an intensive 3-week seminar on the Holocaust. They visited the monument to the victims and survivors of the Holocaust in Jerusalem, Yad Vashem. They talked firsthand with survivors of the Holocaust and with resistance fighters. They have witnessed the incredible phenomenon of survivors who have rebuilt their lives in the United States, Israel, and elsewhere from the ashes of the flames that consumed their families, their health, their homelands, and their dignity as human beings.

These 30 teachers have returned home to the United States and have resumed their teaching responsibilities. Now, however, they are better prepared and equipped to teach about the Holocaust to our country's new generation of Jewish and non-Jewish children. This year, those 30 teachers will instruct some 3,000 students.

Next year, this program will be expanded to include 100 teachers, with the potential to teach 10,000 students throughout our Nation. As this program continues, it will provide an unlimited power for good, the power to educate our young people to assure that the Holocaust can never be repeated.

Mr. Speaker, last week, a reunion was held of the 30 teachers who participated in this innovative program last summer. On that occasion, Vladka Meed, the wife of Benjamin Meed and an outstanding resistance fighter and survivor of the Warsaw Ghetto, spoke with the teachers. I place her thoughtful and sobering remarks in the RECORD. They deserve our attention.

REMARKS MADE BY VLADKA MEED

Normally, a reunion takes place among people who shared something important together and have gone their separate ways. But we are different. We continue to share a collective agenda. And the commitments you made to return to teach—and those we made to come back to plan for another group, for another summer, bind us together in the future.

As you know, those who planned—those who organized and implemented our project—are dedicated people from different groups and all of them deserve the fullest credit: The American Gathering of Jewish Holocaust Survivors; the Educators Chapter of the J.L.C.; the United Federation of Teachers; Ghetto Fighters House, and Haifa University. All of us are now equal partners of a historic, successful project.

I spent only 1 week with you in Israel. I remember the lectures, the sessions led so expertly by Professor Feingold, our seminar leader—the trips under the burning sun to Gamlah, to Beth-Hatfutzoh, to Jerusalem, to the Knesset; the visits to the Kibbutz families to Lochamei Hagheteot; the conversations with their youth; the flavor of the pulsating life in Israel which we tasted together; and the wonderfully dedicated people of the Kibbutz movement, Yehiel, Symeha, Avi, Miriam, Zeev, and others.

Yes, we have experienced history in the lecture rooms and in the streets. We learned of despair, resistance, and redemption. We have been touched by Israel, by the accomplishments of survivors and by each others.

We got to know each other a little bit. We were linked together as partners in a meaningful, intellectual adventure. I think that the experiences we shared forged deep bonds among us, as well as a feeling of mutual understanding and closeness. All this I recall today with deep affection and pride.

Your experience is now being transmitted to the young who must learn about good and evil. They live in a world bombarded by terrorism and murder, by violence and hatred. Who knows what they might face? And what we know, I believe can indeed transform, sensitize, and maybe also improve a little our world.

As a survivor, I am always torn about how the holocaust should be taught. You can only study what we experienced—facts, dates, historical meanings, places, events—what happened before and what happened after. But how can we reveal to you, so that you should be able to transmit to your students, the daily struggle to remain a "mensch" in the ghetto—to reveal the atmosphere, the spirit, the exaltation of the life which was cut down.

And yet, deep inside of me, I know that only you teachers—you who constantly deal with and mold the minds of the young—must be the ones to carry on, to tell the story, to share it with your students so that long after the last survivor is gone, the memory and its lessons will still live.

Now you are carrying it out, and we are seeking to broaden the group that will share your historical burden and privilege. We need each other—and let the partnership continue.

Today, when you are in school again, we would be very much interested to hear how you are putting the experience of an interesting summer in Israel to work in your classrooms.

Yes, after all it is a reunion. But we will have to meet again and again in connection with our work of remembrance, and we shall continue to learn from each other.

THE LEGEND OF THE VALLEY CHURCH

HON. DEAN A. GALLO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GALLO. Mr. Speaker, this year marks the 200th anniversary of the founding of the Rockaway Valley Methodist Church. This anniversary is a profound moment for the members of the congregation and for the entire region, as well.

The event that this anniversary recognizes is important for our own understanding of the very foundation upon which our Nation is built. Just as our Founding Fathers formed a great nation in an answer to a need, so did the fathers of the Rockaway Valley Church found this great church.

I am fortunate to have a firsthand understanding of the church, which is in the heart of my district. Mine is a district that is steeped in American history. My State was the most fought over among the colonies, and much of the action of our Revolution took place in and around the birthplace of the Rockaway Valley Methodist Church.

Mr. Speaker, we can all learn from individual histories. I was recently presented with a history of the founding of the Rockaway Valley Church which I would like to share with my fellow Members. It is important history from which we can all learn just a little more about the human spirit and the American spirit.

THE LEGEND OF THE VALLEY CHURCH

(By Rev. Eugene Foote)

The history of the beginning of the Valley Church is the history of a legend. In legend the important is remembered, the details forgotten. As we consider the many generations that have passed in these two hundred years, we are obliged to consider the significance of the important things remembered, and tease from the scanty records the meaning of the event.

In 1785 the Methodist Society of Rockaway Valley met at the home of Jacob Demondt. Shortly thereafter an attempt was made to build a meeting house, but it was not completed or ever used for worship. The first appearance in a record of the New Jersey Conference is 1801. Jacob Denmouth represented the Society through 1814. Thus legend passes into fact.

Let us consider, then, what this legend, becoming historical fact, tells us about the origins of the Rockaway Valley United Methodist Church.

The year is 1785. New Jersey is one of the sovereign nations of the world, as are the other colonies, recognized by the Treaty of Paris of 1783. Our State was the most fought over in the Revolution: often its inhabitants were forced to support armies, whose presence was the cause of anxiety and loss of property and life. The valley, home of farmers, was a source of supply to Washington's troops, 13,000 of whom descended on Morristown in 1779. Additional-

ly, it was the source of iron and more importantly, of charcoal derived from local forests and used in the smelting of iron necessary for the continuance of war. Although we may think of the Valley as a place of peace, in 1785 it was recovering from a war.

As we consider that the war had ended, we are reminded that such times are also times of economic readjustment and, often, of hardship. Throughout the States there was depression, with a scarcity of money and glutted markets. The Congress established under the Articles of Confederation was unable to deal with the numerous problems, and was itself bankrupt. As farmers, the people of the Valley could support themselves, but they were part of a larger world, and they knew that they had a place in it.

In troubled times people turn to religion for assurance. Our founders were members, or felt themselves to be, of the churches in near-by communities. Some of these churches, the Dutch Reformed and the Presbyterian, were already of considerable age. They had been a part of the establishment of government before the Revolution, and now, for the most part, their clergy sided with other conservative groups in society. Well-to-do property owners, merchants, and lawyers were not disposed to change, and preferred to keep things as they had been, except, of course, for the presence of the British. In the period we are considering, every local Reformed and Presbyterian church was divided over some controversy. Churches of ten are, and for natural reasons, too.

At Christmas, 1784, in Baltimore, the preachers of the Methodist connection gathered, and organized themselves into a church having episcopal government, and two "General Superintendents" one of whom was consecrated by the English clergyman (and Tory) John Wesley, and the other, Francis Asbury, who alone of Methodist preachers from England stayed during the Revolution, was elected by his fellow preachers. This event sent the Methodists into every community, carrying with them a new vision of Church and a new way to express the Christian faith.

Important to our understanding of why 1785 saw the beginning of our church is the peculiar feature of the new Methodist Episcopal Church: Lay people helping each other. The Circuit Rider, the new form of clergy, was seldon present. It was his task to organize people into "societies" or "Bands." With his guidance a course of religious study was undertaken, and a promising lay person put in charge. Such a promising lay person was Jacob Demondt. Once a quarter the Circuit Rider would return. One of the first circuits in New Jersey took the minister on a journey from Perth Amboy to Newburgh in New York State, so you can see that he was not a presence.

And in this, one can see the appeal of the new Methodist Episcopal Church in the wake of the Revolutionary War. Society had been shaken, and its old forms and the religion that went along with it were unsettled. Now persons were encouraged to direct their own religious growth.

But the direction of this growth was regulated by the Circuit Rider, whose Quarterly Conferences were an inquisition into the personal affairs of the local society's leaders and members. Although this inquisition soon proved bothersome, and ceased to be carried through early in the 19th Century, it was a source of unity and uniformity throughout the Methodist Episcopal Church. The society itself was close to being what we now call a "support group." Its members were encouraged to share their deepest personal fears, anxieties, and cares. They also shared in the study of important and uplifting goals. For people in a rural society it was a local source of strength, and it was directly tied to the life experience of the people.

Our Society, now meeting in various homes, started to build a church. It was never completed. I believe that this is significant in two ways. Firstly, it points to the lack of resources available to the people. It is a measure of the hardness of the economic times. Church buildings are expensive to build and to maintain. For the time being, worship and other gatherings could continue in the homes.

Secondly, it suggests that satisfaction with the arrangement of the Society was at a high level. If the spiritual life of a group is well served by present practice there is no felt need to change. Without knowing in detail the social makeup of the Valley community, we may also surmise that the society had grown content and possibly exclusive.

Seen in the perspective of the times, we can see that the end of the Revolutionary War produced economic hardship in the Valley, and the ideas released into common currency by the Revolution created a social upheaval which fostered a spirit of independence in individuals. At the same time, the newly organized Methodist Episcopal Church developed a form of religion which provided individuals with group support, and yet provided a connection with a larger community of faith. In a parallel way, the political world was working to the Federalism of the Constitution adopted in 1787. Our Valley and its people were working with ideas of fundamental importance. In their way, our founders were participants in the most profound movement of historic import and world-wide significance.

But what of today? We are not simply looking to the past for the sake of nostalgia. We are not dealing with an antique found in an attic. The Valley Church was begun in a time of economic and social uncertainty. Those days were hard ones for the individuals and for their church. There was no certainty and no abundant resource, they did not build. Rather, they continued to share their personal hopes, dreams and fears. They remained faithful for years, until, in 1842 they could build. They started our church in what historians call "the critical period." They moved in parallel with the growth of our country, which did not even exist in 1785. They were people of hope.

Our present day also sees society set in the midst of great perplexity and change. Like the founders of the Valley Church we need to turn to sources of spiritual nourishment and growth. This was and is the challenge of our Bicentennial.

Our founders lived in a time in which a vision materialized. The Constitution puts it this way: "in order to form a more perfect union. . . ." They were not isolated in the Valley, those who founded our church; they were touched by the world currents of their day. They rose to the occasion. They found a way to develop and strengthen themselves as individuals. They found a way to join to meet the challenges that life brings. We also, we of today, have joined to do as they did. We help one another to be free, we help one another to be joined in high purpose. Let us so do that at our tercentenary our successors may look back, and be inspired.

ENOUGH IS ENOUGH

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. McEWEN. Mr. Speaker, I rise today to call the attention of my colleagues to an editorial presented by Mr. Dave Walker, general manager of Southwest Ohio Broadcast Service. This editorial, entitled "Enough is Enough," relates Mr. Walker's most recent experiences with his local post office.

I urge my colleague's careful attention to Mr. Walker's profound comments. Enough is, indeed, enough.

ENOUGH IS ENOUGH

(By David Walker)

I don't know about your Post Office, but I know about mine. I have had enough.

My boss calls me on the phone and wants to know where last week's report is. "But sir, we mailed that Tuesday of last week." My boss, "but Dave, that's seven days ago. The Post Office says it only takes 3 or 4 days. So I call the Post Office—their response, "put a tracer on it, by the way, we have been watching your mail and we noticed your posting date is one day off." "OK Mr. Postal employee, I post Tuesday, you read on Wednesday, that's one day. What about the other 9 days?"

That it happened to me is not important, we are not the only ones with problems. Have you ever had to stand in line behind 9 people, one employee waiting on customers while 2 others ignore you, get the impression they are doing nothing?

More on the Post Office. . . .

A birthday card mailed September 24th in front of the Post Office. It's October 9th, it still has yet to arrive, 8 blocks down the street. A call to inquire, the response, "sorry sir, you will have to come down to the Post Office and put a tracer on it." "But Mr. postal employee, why should I have to put a tracer on it, somebody that works with you lost it."

Another problem I am aware of, a yellow slip came in the mailbox, "postage due," the next day, another yellow slip, "postage due." The card was picked up with 22 cents stamped on it, 17 cents additional was paid. Maybe it was slightly over. The individual that mailed the card had no way of knowing that it was slightly over when it was weighted on an office scale, the scale showed it was very close to the limit. Postal service, I can assure you that you spent a lot more then 17 cents to collect 17 cents. I know you have rules—maybe there is a better way.

I know not every employee at my Post Office is bad. There are many good postal employees and I know not all Post Offices are like mine, but a business run like this cannot prosper. Perhaps we should review this Government-sanctioned monopoly! I have shared with you a few examples, some happened to me, some to others. There are many more, most about late or lost mail and of concerned postal employees. "Postmaster, there is no need to call me to try to smooth things over, spend the time getting the mail to where it's supposed to go, when it is supposed to get there. If service and consideration improves, I'll get back on my soapbox." And so I said we have had enough.

A copy of this editorial has been mailed to the United States postal service, to Congressman Bob McEwen, and Senators Glenn and Hobson, it can be improved. Call my paper boy, he is 14 years old and I have only missed one paper in 3 months, rain or shine.

ENVIRONMENTAL AND ENERGY STUDY INSTITUTE REPORT ON INTERNATIONAL DEVELOPMENT

HON. BILL GREEN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GREEN. Mr. Speaker, the recent famine in Africa underscores the importance of addressing one of the causes of that tragedy: the deterioration of a fragile resource base. The destruction of forests, creeping desertification, loss of topsoils, and other environmental problems restrict the ability of many African nations to feed themselves.

Though less dramatic than the African situation, natural resource degradation plagues many other developing countries, undermining their aspirations to grow and prosper.

The U.S. Congress can ill afford to let this cycle continue. Emergency food aid, while essential, does nothing to address long-range development needs. Without a long-range policy, we put at risk the hundreds of billions of dollars owed to the U.S. Government and commercial banks by developing countries.

To help us address these challenges, a blue ribbon task force was established by the study conference's sister groups, the Environmental and Energy Study Institute.

This distinguished bipartisan panel has developed a series of recommendations for congressional action to help the developing world promote long-term, environmentally sustainable growth.

The panel's recommendations emphasize redirected aid policies and better harnessing of existing resources. They also propose modest new investments to help developing countries build their own capacities.

The foreword and introduction to the task force's report follow:

CONGRESSIONAL AGENDA FOR IMPROVED RESOURCE AND ENVIRONMENTAL MANAGEMENT IN THE THIRD WORLD: HELPING DEVELOPING COUNTRIES HELP THEMSELVES

(Prepared by a Task Force of the Environmental and Energy Study Institute, October 1985)

FOREWORD

The Environmental and Energy Study Institute (EESI) convened this task force to address natural resource and development issues in developing countries just as the U.S. Congress was debating two critical items: the need for supplemental appropriations to feed the victims of the African famine and the tragic chemical accident in Bhopal, India. Although the EESI task force was conceived well before these events became front page news, they gave new urgency to our effort to help the developing world meet its long-term resource and development needs.

The EESI task force is non-partisan and includes leaders from U.S. corporations, environmental and development organizations and the Congress. The goal of the task force has been to develop an agenda, on which we could all broadly agree, for congressional action to help developing countries better manage their resources for sustainable development.

Our effort is distinctive for a number of reasons: we sought to develop politically realistic and fiscally restrained recommendations for congressional action; we represent diverse interests and perspectives; and we have concentrated on initiatives to help developing countries "help themselves." The focus on congressional action was particularly appropriate because EESI's sister organization, the Congressional Environmental and Energy Study Conference, represents the legislators who can put our recommendations into effect.

We began our work from the premise that the developing world's long-term growth depends upon sound environmental and natural resource management. We all believe that the United States has a special responsibility and also the capability to provide help in promoting environmentally sustainable development in developing countries that desire such assistance. Furthermore, we believe that there are actions the U.S. Congress could take to help.

We also began with the premise that the long-term environmental, economic and political interests and national security of the United States depend far more than has been generally acknowledged on the success with which developing countries can wisely manage their resources for sustainable development. We believe that the only lasting way to achieve sound environmental and resource management in developing countries is to strengthen the capability of these countries to do so.

The action agenda which follows synthesizes much of the best thinking available on what Congress can do to help developing countries help themselves. It is only a beginning. But our effort itself represents an important step toward the creation of the new ideas, new leadership and new coalitions necessary to help the developing world achieve sustainable development.

We now call on the U.S. Congress to take the next step, to make this proposed agenda for action a reality.

Finally, we would like to express our thanks to Ken Murphy, EESI executive director, and Jon Clark, director of the development country project, for their outstanding work on this report.

THE TASK FORCE

Gus Speth, Task Force Chair; President, World Resources Institute

Robert O. Blake, Senior Fellow, International Institute for Environment and Development

Barbara Blum, Chair, Environmental Policy Institute; President, Women's National Bank

The Honorable Don Bonker, Chair, House Subcommittee on International Economic Policy and Trade

Nan Borten, Executive Director, International Volunteer Services

The Honorable John H. Chafee, Chair, Senate Subcommittee on Environmental Pollution

Harold Corbett, Senior Vice President, Monsanto

The Honorable Benjamin A. Gilman, House Committee on Foreign Affairs

Robert D. Havener, President, Winrock International

Philip Johnston, Executive Director, CARE

Bruce Karrh, Vice President, E.I. du Pont de Nemours & Co.

The Honorable Mickey Leland, Chair, House Select Committee on Hunger; Chair, Congressional Black Caucus

The Honorable Charles McC. Mathias, Jr., Chair, Senate Subcommittee on International Economic Policy

Joan Nicholson, Washington Representative, United Nations Environment Program

Richard L. Ottinger, Chair, Environmental and Energy Study Institute

The Honorable Claiborne Pell, Ranking Minority Member, Senate Committee on Foreign Relations

William D. Ruckelshaus, Member, United Nations World Commission on Environment and Development; former administrator, U.S. Environmental Protection Agency

The Honorable Claudine Schneider, Ranking Minority Member, House Subcommittee on Natural Resources, Agriculture Research and Environment

The Honorable John Seiberling, Chair, House Subcommittee on Public Lands

John Sheehan, Legislative Director, United Steelworkers of America

Ralph Smuckler, Dean, International Studies and Programs, Michigan State University; Chair, Board of Science and Technology for International Development, National Academy of Sciences

Tom Stoel, President, Global Tomorrow Coalition; Director, International Program, Natural Resources Defense Council

Lee Talbot, Fellow, East-West Center, World Resources Institute

The Honorable Howard Wolpe, Chair, House Subcommittee on Africa

The honorable Gus Yatron, Chair, House Subcommittee on Human Rights and International Organizations

INTRODUCTION

Much of the developing world is in the midst of an environmental and natural resources crisis which is undermining its drive for sustained economic growth. Whether one examines the management of dangerous chemicals, dependence on expensive energy imports, pollution levels, the loss of forests and biological diversity, or land deterioration resulting from deforestation and desertification, a similar conclusion emerges: the problems of the poor countries generally make those of the United States and other rich countries pale by comparison. Moreover, because the struggling economies of the developing world generally are closely tied to the use of natural resources, the widespread deterioration of the renewable resources base has serious implications for the future, particularly when viewed together with rapidly expanding populations and the increasingly intricate economic and security interconnections among all nations.

Task Force Chair Gus Speth stated at the outset of our effort that a new environmental agenda is emerging for the United States. He said that issues on this agenda "represent new policy and political challenges for the United States, challenges that are more international and global in scope and implication . . . Today, issues arise from the spread of deserts, the loss of forests, the erosion of soils, the growth of human populations, the exhaustion of ecological communities, the accumulation of wastes, and the alteration of the biogeochemical cycles of the planet. These

newer environmental concerns transcend borders, national laws and local customs. As a result, the politics needed to meet present and future challenges require a new vision and a new diplomacy, new leaders and new coalitions."

The United States has a direct and, as the situation worsens a growing interest in the environmental and natural resource problems of the developing world. The tragic accident in Bhopal, India, and the famine that continues to afflict many of the countries in Africa underscore the fact that the United States must be concerned about resource issues in the Third World. Humanitarian and environmental values are at stake, but so are U.S. economic and security interests. Events like Bhopal can fuel anti-American sentiment and provide support for efforts to unduly restrict the operations of U.S. companies, thus diminishing the prospects for mutually beneficial direct foreign investment.

Less dramatic than the Bhopal accident but inestimably more serious globally is the continuing environmental degradation which reduces the capability of nations to support their people. The starvation throughout Africa illustrates this point all too well, but the problem involves most developing countries to a greater or lesser extent. U.S. political, economic and national security interests are affected when resource challenges are not met. This failure leads first to economic and social stresses and then to political instability or authoritarian measures—developments that undermine free institutions and trigger armed conflict.

Environmental degradation in developing countries affects the United States in many ways. In addition to development assistance from the U.S. government, for example, the U.S. banking community has lent many billions of dollars to developing countries. Continued environmental and resource degradation, coupled with heavy reliance on energy imports, reduces these nations' ability to pay back their outstanding debts.

These issues demand attention by the United States because they are inextricably linked to other pressing international goals: expanding international trade and markets, improving North-South relations, promoting sustainable economic development and ensuring long-term political stability in the Third World.

Increasingly, Third World leaders are showing concern about environmental and resource deterioration. And rightly so. Conservation of the productive resource base—soils, fisheries, forests—is particularly critical in developing countries, which on average are six times more dependent than industrial countries on these natural resources.

Yet, while legislation to protect the environment in developing countries is now virtually universal, implementation, enforcement and monitoring are often grossly deficient. Even where the political commitment is present, lack of information, staffing shortages, poor training, inadequate technical resources and lack of financial resources all create special vulnerability.

Fundamentally, a country's capability for managing its resources and environmental affairs must be its own. Unfortunately, with all too few exceptions, developing countries do not have the needed capability. In light of the seriousness of the global resource situation, and its importance to U.S. interests, a concerted U.S. effort led by the Congress is now urgently needed to help developing countries help themselves manage their resources and environment for sustainable development. The key questions are: What can the United States do to strengthen the capability of officials and other leaders in developing countries to better cope with their environmental and resources challenges? How can we help them achieve agricultural, energy and industrial development that is sustainable?

To begin to answer these questions, the Environmental and Energy Study Institute (EESI) initiated this project, entitled "Helping Developing Countries Help Themselves: Toward a Congressional Agenda for Improved Resource Management in the Third World."

EESI convened a task force made up of U.S. corporate, environmental, development and Congressional leaders to identify actions, outlined in the body of this report, that the U.S. Congress can take to help developing countries better manage their resources for sustainable development. Paralleling this effort, EESI has launched a series of initiatives to increase awareness among Members of Congress, Congressional staff and other decision-makers of the environmental and natural resource needs in the developing world.

A guiding principle behind the task force's work was that the United States should not impose its environmental systems on the developing countries. Instead, the task force started from the premise that the Congress should act to bolster and support institution-building efforts designed to strengthen the ability of developing countries themselves to make informed decisions and carry out effective policies.

To ensure that this principle was addressed, EESI established an advisory group of environmental leaders from throughout the developing world. The group also helped the task force ensure that their recommendations met real needs in the developing world. The comments received from the group of foreign advisors were generally strongly supportive, and many of their suggestions have been incorporated into the recommendations.

SUMMARY OF RECOMMENDATIONS

The recommendations for Congressional action identified by the task force should be viewed as a package of interrelated and mutually supportive actions. The major recommendations are:

Provide Long-term Resource Restoration Assistance to Africa.

Establish New AID Natural Resources Policy and Bureau.

Strengthen Developing Country Environmental Authorities.

Build Indigenous Non-Governmental Organizations.

Improve Environmental and Related Development R&D.

Enhance Environmental and Related Development Training.

Strengthen Peace Corps' Environmental Focus.

Focus Multilateral Development Bank Attention on Resource Issues.

Expand P.L. 480 Program to Include Conservation of Biological Diversity.

Review Options for Using Foreign Debt to Encourage Sustainable Development.

Review International Natural Resource Programs in U.S. Agencies.

Incorporate Natural Resource Assessments Into Project Cost/Benefit Analysis.

Support the United Nations Environment Program.

Many of the recommendations stress the need to take environmental and natural resources factors into account in development activities to ensure their long-term success. Comprehensive assessments of environmental conditions, when carried out, have proven invaluable to officials of developing countries in the planning, execution and management of development efforts.

However, such assessments are seldom used. One reason is that they are mistakenly confused with the U.S. environmental impact statement process, which has a reputation for blocking economic development.

The new approach to environmental assessment and management points out the opportunities for sustainable use of natural resource systems for development, as well as adverse impacts which can undermine the development effort itself. It is this positive approach which the recommendations envision.

To a large extent, these recommendations represent an integration and synthesis of existing analysis, not original research per se. The studies called for in various areas reflect the fact that this is a relatively new field for policy analysis and action.

Since the task force concentrated its effort on Congressional actions to help developing countries help themselves, the recommendations do not address other entities or policy issues. Of course, the private sector, particularly the non-governmental organizations, industry and academia, have much to contribute, and should be involved in carrying out many of the recommendations.

Taken together, the recommendations recognize that there is no one easy way to promote environmentally sustainable development in the developing world. Rather, the recommendations encompass a range of process-oriented actions designed to increase the attention paid to these issues within the U.S. government and to enhance the ability of developing country leaders to better manage their resources for sustainable development.

This package of recommendations comes at a time when massive federal deficits require economies in federal spending. However, most of the recommendations for Congressional action represent very low-cost or no-cost items. Indeed, many are intended to lead to economies in the programs they address. For example, adequate environmental assessments of development assistance projects can avoid expensive and wasteful mistakes in project design and implementation. Therefore, they can lead both to less costly and more effective assistance. Furthermore, programs that build developing country capabilities through training and institution-building generally involve quite low costs.

SIX-MONTH SUSPENSION OF TRADE WITH ROMANIA

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. WOLF. Mr. Speaker, I am pleased to join my colleagues, Representatives CHRIS SMITH of New Jersey and TONY HALL of Ohio, in introducing legislation to place Romania on a 6-month suspension of the coveted most-favored-nation trade status. It

is time we take a hard look at our foreign trade policies and how those policies can influence human rights guarantees.

Earlier this year, I joined Congressmen SMITH and HALL in a factfinding trip to the Socialist Republic of Romania and was deeply disturbed by that experience. Illustrative of the extent to which these people are repressed was the degree to which they were so thrilled to see us—total strangers—but we were Americans and that, to them, promised some hope for their plight. As I walked through the crowds at the churches I visited, many of the townsfolk would press up to me, and as they shook our hands, they would press prices of paper into our palms which were pleas for help to get them out of the country.

The tragedy in those messages was underscored as we met with individuals who had been persecuted and tortured by the Romanian Government because of their religious beliefs and their desire to emigrate. We rejoiced earlier this fall with the release and emigration of Father Gheorghe Calciu who had been imprisoned in Romania for a period totaling more than 21 years because of his Christian belief. But his suffering illustrates the human rights abuses in Romania. During his imprisonment he had been beaten repeatedly and was forced to beat more inmates. This was part of a "reeducation" prison and he was subsequently the only inmate spared death by firing squad.

For refusing to take a factory job and deny his priesthood, he was subjected to periods of 10 days each during which he was given no food, no water, no heat, and no clothes. At the end of those periods when convulsing violently, he would be given 2 days' worth of food and then put back on the 10 days of deprivation. This went on for 100 days. The Romanians wanted to keep him alive to break him. At the end of the 100 days, Calciu countered the Government's efforts by going on a hunger strike of his own. When his death appeared likely, the security forces admitted Calciu to a hospital—again, they needed to keep him alive.

Father Calciu's situation is just one well-publicized example. I have also learned that in the cold of last winter, the Romanian Government turned off the heat in hospitals to save money and infants in incubators died as a result. The Government also refuses to acknowledge newborn children until they are 2 weeks old because the infant mortality rate is so high. In winter, they do not document births for 4 weeks after actual delivery.

While I was in Romania, I visited a church which had been destroyed by Government bulldozers. Since then I have learned that the engineer in charge of construction of the church not only lived through seeing the church demolished, but was arrested and interrogated. During the interrogation, he was put in a body press and squeezed until unconscious. When he came to, he was interrogated further and put in a rubber suit which was then filled with water. In it, he was beaten with a stick. The rubber suit filled with water kept any marks from appearing on his body although he again was beaten until unconscious. He was subsequently dumped by the police in an underground area of Bucharest. He later revived and managed to get home.

An elder at the same church was beaten on the soles of his feet with a rubber stick. Then, with his hands tied together, he was hung from rafters and the Government security forces continued to beat him. He was put into a "torture machine," an electrical black box of sorts where only his head was out. While questioning the elder, this black box would continuously punch different parts of the body.

I point out these examples to graphically and tragically illustrate what type of government we are supporting in allowing most-favored-nation trade status and renewing it year after year without question.

It's time we started to ask questions. I believe the legislation we are introducing today underscores America's commitment to preserving human dignity and the rights of every person in this global family.

In 1979, just before his arrest, Father Calciu told a visitor from the West, "knowing people care makes what I've suffered worthwhile." We should heed the pleas of the Romanian people and demand that the Government of Romania lose MFN status unless the violation of human rights in that country is brought to an end.

I strongly urge support of our bill, H.R. 3599, and urge all Americans interested in human rights and religious freedom to contact their Congressmen and Senators to outline support for a 6-month suspension of MFN trade status for Romania.

DALLAS MAVERICKS—THE HOTTEST TICKET IN TOWN

HON. JOHN BRYANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BRYANT. Mr. Speaker, I would like to bring to the attention of my colleagues a real American success story. It is a story about hard work and true dedication paying off. I am talking about the most successful expansion franchise in National Basketball Association [NBA] history, the Dallas Mavericks.

Just 5 years ago, principal owner Don Carter and vice president and general manager Norm Sonju had the foresight to bring an NBA franchise to Dallas County, TX. That first season there were more doubters than ticket holders. Today, as the Mavericks begin their sixth Dallas season, people are camping out for tickets and the Mavericks have put a ceiling on season ticket purchases in order to make sure that as many Dallasites as possible have an opportunity to see their team play.

Another man who certainly deserves as much credit for our hometown team's success as Mr. Carter and Mr. Sonju is the head coach of the Dallas Mavericks, Dick Motta. Coach Motta has done on the court what Sonju and Carter have done off the court, and that is, fashion a very young team into an outstanding sports organization with widespread community support in a very short period of time.

I would like to call to the attention of my colleagues an article that appeared recently in the Dallas Times Herald entitled "The Hottest Ticket in Town." The article tells the story of this fine NBA franchise, one of which all the people of Dallas County can be proud.

[From the Dallas Times-Herald, Oct. 24, 1985]

THE HOTTEST TICKET IN TOWN

FIVE-YEAR TRIP HAS TAKEN MAVS FROM RAGS TO RAGE

(By Ish Haley)

The first time the Mavericks rookies met for practice last month, a worried woman showed up and recounted the tragic loss of her season tickets in a divorce settlement. The club, she said, was trying to accommodate her, but it was obvious her apprehension would remain until the replacement seats were in hand. "That's why I'm out here tonight," she explained. "I was so afraid I wouldn't get to see the Mavericks."

"So far, we've had two cases like that," Mavericks ticket manager Steve Letson said. "We hear one story and then the other and end up right in the middle. We try to appease the individual parties involved, but if the tickets are in the husband's name, he owns the tickets."

At the Mavericks office at Reunion Arena, a young man told the receptionist he was there to take delivery on season tickets for his company. The Mavericks staffer refused to produce the ticket envelope until the visitor underwent a security check rigid enough for Pentagon admission.

"Everyone picking up tickets at our office is asked for identification," Letson said. "If someone can't prove who he is or who he represents, I call the company. We've had a few problems with company-owned tickets. There have been cases of people trying to get tickets put in their names, after they've left companies or companies have been dissolved."

On Sept. 17, Jimmy Fuller, a Dallas Jeweler, paid $23,000 at a charity auction for two baseline, courtside tickets donated by Mavericks owner Don Carter. The tickets, which normally sell for $31.50, went for $267.44. "A friend of mine has tickets in the same section," Carter said. "As soon as he heard about what happened at the auction, he told his secretary to put his tickets in the company safe."

Twenty-four hours before the Mavericks placed their remaining single-game tickets on sale, a ticket broker alerted arena officials of his plan to put 100 representatives on vigil at the ticket windows. "This was for basketball tickets, not a major concert," a Mavericks staffer said. "People in other cities can't believe what's going on here."

In the franchise's sixth year, Dallas has sold 14,000 season tickets. The club also has a priority waiting list containing another 100 names. Reunion Arena seats 17,007 in the configuration used by the Mavericks. Asked if he thought his team could sell 20,000 season tickets, Carter said, "I wouldn't bet against it. If we had an arena of 20,000 seats, with the sight lines we have at Reunion, I'd love that. Right now, I worry about our fans in the far corners of our building. I'm looking forward to when we can have 20-by-20 laser screens over all

four corners. That way our fans in those seats can reach out and touch Mark Aguirre and Rolando Blackman. I'll feel a lot better then."

On Oct. 7, the Mavericks drew more than 4,000 season-ticket holders to a special practice at Reunion. "This would have looked like a sellout our first year," Dallas coach Dick Motta told the audience. On Oct. 17, the Mavericks drew 16,487 for an exhibition with Philadelphia.

"When Linda (Mrs. Carter) and I pulled into the parking lot and saw all those people there for an exhibition, especially in that misty weather, she told me that the sight of all the people still gave her chill-bumps," Carter said. "To be a part of something that has grown to this magnitude and had become so enjoyable means so much. We're still in awe."

Dallas last year ranked first in the NBA in paid attendance and second in total attendance. The Mavericks sold 12,500 season tickets and averaged 16,594 customers. The club announced 24 sellouts. Fewer than 1,000 tickets remain for the season opener against Seattle Saturday night. The first visit by the world champion Lakers next Tuesday is sold out. Only isolated tickets (no two seats together) remain for 17 other games at Reunion Arena.

"Anyone who says he isn't stunned by all this has got to be a liar," Reunion Arena manager Jack Beckman said. "It's a phenomenon."

"If anyone tells you they could see something like this coming, they are kidding themselves," said Angelo Drossos, president of the San Antonio Spurs, whose ticket sales have decreased substantially.

Prior to the 1973-74 season, the Spurs were the Dallas Chaparrals of the old American Basketball Association. The franchise was known as the Texas Chaparrals in 1970-71, when it appeared in Dallas, Fort Worth and Lubbock. "I rarely had trouble counting the crowd when we played at Moody Coliseum, and I flunked math," said former Chaparrals coach Bill Blakeley. "If I got thrown out of a game, which happened a few times, I never had trouble finding a seat."

"I don't believe the Chaparrals, even if they had won the ABA title, would ever have been accepted here," said former Dallas mayor Bob Folsom, who was among the Chaparral investors. "The people always looked at the team as minor league. As far as I'm concerned, and I think it's a good trait, this city demands the best. If you don't have the best, you're not going to make it."

Mavericks general manager Norm Sonju, then representing Buffalo owners John Y. Brown and Harry Mangurian, recommended Dallas as a new home for that franchise in 1978. Instead, the owners chose San Diego, which since has lost its franchise to the Los Angeles Sports Arena.

"There was no arena then, and basketball was really a low-profile sport," said Sonju, who returned in 1980. "SMU and TCU weren't enjoying the successes in basketball that they're having now. Back then, who would have ever thought that the NBA All-Star Game and the NCAA Final Four would be played in Dallas in the same year."

Pursuing investors for the Mavericks, Sonju was refused by 143 candidates. Most of the refusals, he said, came from people "who thought basketball would never make it here." One was former Chaparrals general manager Max Williams. "I had no desire to own an interest in another sports franchise," Williams said. "Now I wish I'd have gotten involved strictly for the investment. It's the same with the bonds they sold on the arena. When it happened, it looked like the worst investment in the world, which is what everyone first said about those suites at Texas Stadium."

In their first season, Dallas sold 3,900 season tickets and averaged 7,789 customers. By the fourth year, season-ticket sales had climbed to 7,600, with attendance running at 14,223. The 3,780 arena bondholders have first priority on the tickets. Between 50 and 60 percent of the season tickets are corporately owned.

Beckman and Sonju supervised traffic, parking and concession systems that made visits to the arena more attractive. According to Beckman, Reunion's concession menu is the "widest and broadest in the country." Starting with opening night, Sonju made sure enough ushers were present to guarantee ticket security. Most games end in time for patrons to get home in time for the 10 o'clock news.

"It's become a big social thing," Beckman said. "I had a guy tell me that Reunion Arena has become the best singles bar in town. No one goes to a concert just to see the artists involved. They go to have fun. The fans have fun at Mavericks games."

Dallas, qualifying for its first playoff appearance two seasons ago, was 31-10 at home. The Mavericks were 24-17 last season in Reunion. This year Dallas is at home for 13 of its first 16 games.

"I thought last year was the critical year in terms of retaining our acceptance," Motta said. "I worry about that and I think it affects the way we play, too. I think that's one reason why we lost more at home than usual last year. Our fans have supported us so strongly that our players were trying too hard to pay them back."

Aguirre, the Mavericks' first All-Star, said, "I think our fans want us to know what is going on. Their attitude toward us is amazing, but they also know what they are going to get for their money. Dick never is going to let anyone lag. Win or lose, we're going to get better as a team, which we are."

"What's happened here is a helluva phenomenon," Motta said. "I never expected it. I never dreamed Dallas could lead the league in paid attendance, without a world championship being involved. The Mavericks probably are the envy of every general manager and owner in the league."

"Not a day goes by without me warning our staff about never taking any of these for granted," Sonju said. "You've always got to appreciate what you've got. There's never been a law passed that says people have to purchase tickets to sporting events. There are a lot of things people can do with their money. I closed down a franchise in Buffalo. I know what a painful thing that was. I want our fans to know how much we appreciate them."

REGION 2-A OBSERVES AUTO WORKERS ANNIVERSARY

HON. JOSEPH M. GAYDOS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GAYDOS. Mr. Speaker, this year marks the 50th anniversary of one of the Nation's most outstanding labor organizations—the United Auto Workers.

This milestone will be observed by rank and file UAW members across the land and I consider it a privilege to have been invited to the commemoration dinner scheduled by region 2-A for Friday, November 22, at the Howard Johnson Motor Lodge in Monroeville, PA. Region 2-A includes western Pennsylvania and West Virginia and is under the leadership of Director Charles Bowling.

It is appropriate at this time to point out that the UAW has been a pioneer in the struggle to set new standards and attain benefits for its members that have helped shape the lives of all working men and women in the United States.

Through its bargaining efforts, millions of workers now enjoy decent wages and salaries, pensions that allow them a modicum of comfort in retirement, paid life and hospitalization insurance, and protection against periods of inflation.

Certainly, the UAW is no stranger to the Halls of Congress. Time after time, its representatives have appeared before congressional committees to battle on behalf of all workers.

I, personally, have seen them in action. They come well prepared to fight for the rights of workers to enjoy a safe and healthy workplace, a respectable minimum age, protection against unemployment and social injustice, and against a crippling illness or injury that suddenly deprives an individual of the ability to earn a living for himself and his family.

The campaign to upgrade the standard of living for working people has been a trademark of the UAW since its founding on August 26, 1935, by the Reuther brothers—Walter, Victor, and Roy—to the present day under the leadership of Mr. Owen Bieber.

Mr. Speaker, on behalf of my colleagues in the Congress of the United States, I take this opportunity to extend formal congratulations to the UAW on the occasion of its 50th anniversary. I congratulate also the officers and members of region 2-A for they have earned the right to be proud of what their union has contributed to American society.

TELECOMMUNICATIONS POLICY

HON. FERNAND J. ST GERMAIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. ST GERMAIN. Mr. Speaker, every month, by means of our telephone billings, we are reminded of the effects of the breakup of AT&T. Long ago, Chester Barnard, one-time president of the New Jersey Bell Co., told us that when a phone company representative entered your home, he/she did so as an employee of what he maintained was a public utility providing service in the public interest. That was then—nearly 50 years ago. Today, some would appear to believe the telephone system is governed by a totally different set of guidelines. No better evidence would seem to

exist than the rumored forthcoming announcement of AT&T—Ma Bell—that it intends to bypass the local telephone networks by connecting the largest business customers directly to its network. This will give local companies no other choice but to hike their local rates. The net effect to the average consumer would be higher costs for less service.

Mr. Speaker—there is an old proverb about what is obviously best for all that suggests that the "little one is too small—the big one is too big—the medium one is just right, but you can't get it." In essence, it summarizes AT&T's strategy: save your large customers their money by eliminating the fees they pay to local companies—measured, incidentally, in the billions of dollars—thus leaving the smaller companies no other choice than to raise local rates.

Our fellow Member, and the distinguished chairman of the House Energy and Commerce Subcommittee on Telecommunications, Consumer Protection and Finance, TIM WIRTH, is quoted as saying that what is really at stake here is "affordable local telephone service, long-distance competition, and the financial viability of the local Bell operating companies." What that really boils down to is the prospect that despite the court-ordered breakup of Ma Bell, the corporation remains more than able to dominate much of the interstate telephone network and can do so in a manner which could cause great hardship to local users.

Indeed, one specialist in the field of telecommunications policy has gone so far as to state that this could lead to a doubling of local telephone rates for the rest of us within the next 2 years.

AT&T's plans to circumvent local and regional telephone companies implies more than a seeming ability to provide a long-distance link directly with big business across the country—it also implies creation of a communications system able to skim the cream from the telephone business, thus depriving regional companies of important revenue sources, but more specifically, forcing small local customers to make up the losses. In a word, it is not only unbecoming of what we once believed to be the high point of meaning of "public utility operation in the public interest," but also uncalled for by current standards of adjustment being made by the industry to the many legal, political, economic, and technological factors at work in the telecommunications industry.

Probably the damning statement of note is that it could lead to a doubling of local telephone rates within the next 2 years, and while we all recognize the right of Ma Bell to generate new long-distance revenue, it should be noted that the majority also believes such steps, if carried out, must be undertaken fairly and with proper safeguards against local customers ending up being forced to bear the major burden of costs.

Mr. Speaker, we all recognize that the telephone industry presents today's regulatory authorities with problems of greater technological complexity than do most other utilities. For that reason alone, it is understandable that proponents of regulation might conclude that demand for national regulation a la the Communications Act of 1934 is in need of resurrection. Also, the Federal Communications Commission, as the agent most responsible for the administration of that law, should be reminded of the fact that its regulation of the telephone industry must, at all times, be aimed toward protection of the public and the local customer of telephone service, and not, as sometimes seems the case, toward maximizing profits for Ma Bell.

AT&T has a history of being intimately interwoven with the structure of the community in which it has worked, and of being able to draw upon powerful reservoirs of support whenever it has come under attack. On the basis of more recent history, it should be clear to those now most responsible for AT&T's management decisions that public awareness of AT&T's ability to worry the system and to present cost studies in support of its fees and service change proposals was, but is no longer, endless and unchallengeable. That is reason enough for them to ponder the implications of yet another proverb—that it is sometimes better to turn back than to lose one's way.

Mr. Speaker, it is now almost 30 years since the first consent decree was offered whereby Western Electric retained its unity and its allegiance to the Bell System, and by which AT&T had to make most of its patents available to other manufacturers without royalties and Western Electric was directed to disclose its manufacturing costs. The decision made it possible for new competition to develop in the manufacturing of telephone equipment. We all know what has followed that memorable choice.

That decision came about because AT&T chose to disregard the value of competition as a major ingredient in defining the public interest. By publicity—by persuasion—and by prosecution, its public nature was revived, and its need to retain orientation toward local customer needs preserved.

SANDINISTA ATTACK ON CIVIL LIBERTIES AND THE CHURCH

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BROOMFIELD. Mr. Speaker, few of us are surprised anymore by the Sandinistas' callous disregard of the human rights and civil liberties of the Nicaraguan people in that regime's energetic efforts to impose every vestige of a classic totalitarian Marxist-Leninist state on Nicaraguans. But, just how serious the Sandinistas' commitment is to the complete suppression of all peaceful, domestic democratic opposition to their dictatorship was recently given a bold and cynical emphasis by the Sandinista regime's announcement on October 15, 1985, of a state of emergency.

Under that state of emergency, essentially all of the fundamental rights of the people are suspended. As of that date, the Sandinistas extended the suspension of some civil rights, the restrictions on which were about to expire, and suspended other basic rights at least ostensibly still enjoyed by Nicaraguans. Imposition of this state of emergency is a flagrant act of repression without a shred of justification, about which we cannot, in good conscience, remain silent. It is a blatant attempt to dress the Sandinistas regime's growing use of gestapo tactics in more formal attire.

Therefore, I have introduced, in conjunction with my colleagues, Mr. YATRON, Mr. LAGOMARSINO, and Mr. MURTHA, the following concurrent resolution condemning the Sandinistas' frontal assault on the last tattered remnants of freedom in Nicaragua. This legislation also specifically expresses the concern of the Congress over the special official harassment and repression directed against the Catholic Church in Nicaragua. As many of you may be aware, the Sandinistas are insisting on pretransmission censorship of the holy Mass. They have stopped publication of the Church newspaper "La Iglesia" and confiscated printed copies, and they have raided the Church's radio station, Radio Catolica. Apparently in order to further disrupt Church activities, the Sandinistas have occupied Church offices and are carrying out a campaign of drafting seminarians into the swollen Sandinista military forces.

The resolution is self-explanatory. Its preamble and text detail the suspended rights and repressive activities involved.

DON'T DERAIL THE RAILROAD ANTIMONOPOLY ACT OF 1985

HON. MIKE SYNAR

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. SYNAR. Mr. Speaker, on October 9, 1985, my colleague from Pennsylvania [Mr. SHUSTER] proposed certain extraneous amendments to H.R. 1140, the Railroad Antimonopoly Act of 1985. These amendments, intended to apply to electric utilities, risk distracting us from the very real problems in rail transport. I'd like to take a moment to clarify the intent and purpose of H.R. 1140, which I introduced on February 19, 1985 with my colleagues Mr. SEIBERLING and Mr. GLICKMAN.

Historically, the rates railroads could charge for moving coal and other bulk commodities were regulated by the Interstate Commerce Commission. With enactment of the Staggers Rail Act in 1980, Congress removed many of the historical regulatory restraints on railroad ratemaking.

By enacting the Staggers Act, Congress made a conscious choice to move the railroad industry away from regulations and toward a free market. As a result, in the last 5 years the railroad industry has increased its net investment and its net working capital. This industry is now ranked

500th in Forbes magazine's top 1,000 public utilities.

In many parts of the country, shippers of coal and other bulk commodities have only one railroad available to transport goods. These shippers are commonly called captive shippers. Where railroads have monopoly power and have bulk shippers captive, the Staggers Rail Act requires the ICC to maintain regulatory authority and set rates by measuring the revenue needs of the railroad against the captive shipper's need for fair and reasonable rates.

In implementing the Staggers Rail Act, the ICC has failed to ensure fair and reasonable rates for shippers. Where no competition or alternative mode of transportation exists, railroads have charged unreasonably high rates because they know that the captive shipper must transport goods on their tracks. And the ICC has established a regulatory framework which makes it essentially impossible for a shipper to demonstrate that the rates it pays to a railroad are too high. In fact, in testimony before the Judiciary Committee, the Commission did not know if it had ever found a rate to be unreasonable. The ICC has left captive shippers without competition or recourse.

It is clear that neither current antitrust laws nor the ICC is protecting the consumers who ultimately pay for the goods shipped. H.R. 1140 is designed to make sure they do.

This legislation will help solve the captive shipper problem by allowing railroad shippers who are charged unreasonable rates to seek relief in Federal district court under the antitrust laws. Under H.R. 1140, the railroad that serves a captive shipper must either allow the shipper trackage rights or charge a reasonable rate. This set of alternatives will allow the railroad to choose the plan that suits it best. More importantly, this bill preserves railroad competition and ensures fair rates for consumers.

My colleague from Pennsylvania has proposed amending H.R. 1140 to have it apply to the electric utility industry. He argues that if the granting of trackage rights is a remedy to the problems faced by captive shippers then the "wheeling" of electric power should be included in the Railroad Antimonopoly Act of 1985 as a remedy to reduce electric utility rates. By comparing two industries that are not totally analogous, this proposal merely confuses the issues which H.R. 1140 addresses.

Congress made a clear decision in 1980 that railroads are to be deregulated. No such decision has been made either by Congress or by State legislatures regarding electric utilities. While it is true that electric utilities possess a monopoly within their individual service territories, it is a carefully regulated monopoly mandated by Congress under the Federal Power Act and numerous other State and Federal public laws.

In fact, electric utilities face a complicated regulatory matrix. They are regulated on the Federal level by the Department of Energy, the Environmental Protection Agency, the Nuclear Regulatory Commission, the Federal Energy Regulatory Commission, the Department of the Interior, and the Securities and Exchange Commission. On the State level they are regulated by State utility commissions and, in some parts of the country, local authorities also exercise regulatory control. This heavy dose of regulation is not the case with the deregulated railroads which under the Staggers Rail Act have enjoyed growth, increasing revenues, and overall improved economic health.

"Wheeling" is the transmission services provided by a utility on a prearranged basis, to deliver power generated outside its own system, to the system of another utility. It is also referred to as use of essential facilities. This is a complex question that involves conservation, energy supply, and the efficient use of regulated monopolies. The Judiciary Subcommittee on Monopolies and Commercial Law didn't presume to address this question in the context of H.R. 1140. If Congress wishes to debate the deregulation and competition in the electric utility industry, it should do so carefully and on its own merits, not within the context of railroad transportation costs.

In the 3 days of hearing on H.R. 1140, we have focused exclusively on the railroad industry. There is a serious lack of competition.

It is extremely unclear if similar competitive problems exist in the electric utility industry. Cogeneration and increased power from unregulated State and Federal power authorities along with other innovative power sources such as solar, wind, and geothermal power have tremendously increased competition in the electric utility industry. This is probably a healthy occurrence in an industry that has been traditionally and structurally slow in responding to the changing energy needs of the Nation.

The antitrust laws already apply to the electric utilities as a result of the Supreme Court's 1973 decision in *Otter Tail Power* v. *United States,* 40 U.S. 366 (1973), which established the "essential facilities" precedent for that industry. And as a direct result of the Otter Tail Power case, section 211 and 212 of the Federal Power Act were enacted in 1978 to give FERC the authority to order "wheeling rights" for the utility industry. These same essential facilities rights must be applied to the captive shipper situation.

Mr. SHUSTER argues that wheeling will provide rate relief to the electric consumer, and supports this argument by citing statistics indicating that in the 4-year period from 1981 through 1984 the price of fuel—coal, gas, and oil—for electric generation has increased only 5 percent while during the same period the average price of electricity to the consumer has increased 38 percent. Unfortunately, he overlooked one important cost included in the electric utility ratebase: the cost of transporting this fuel, a cost that in most States is passed directly to the consumer.

In the 4-year period from 1981 to 1984, fuel transportation costs have greatly increased. Currently the Oklahoma Corporation Commission allows 100 percent of the transportation costs of fuel to be passed on to the consumer—most States do the same. Since 1976, Oklahoma Gas and Electric customers have paid for a 265-percent increase in rail rates. In fact, consumers in Oklahoma City pay twice as much to transport coal from Wyoming to Oklahoma as they pay for the coal itself.

In another example, each customer of the Western Farmers Electric Cooperative in western Oklahoma has been paying in excess of up to $300 annually because of the captive shipper situation.

States other than Oklahoma have experienced the same frustrations. In Corpus Christi, TX, one captive shipper found that the cost of shipping coal—from Africa to Corpus Christi by boat, train, and truck—a distance of over 7,500 miles—is the same as shipping coal domestically from Wyoming to Corpus Christi by train alone. In Wisconsin, the Wisconsin Power & Light Co. has three coal-fired plants which are fully captive to railroads and three plants that can choose the most economical transportation of coal from barge, barge/truck, and railroad alternatives. The average rate increase from 1979 to 1984 for the railroad-captive plants was 84.3 percent, compared to 15.6 percent for the noncaptive plants. The recently completed hearings in the Monopolies and Commercial Law Subcommittee have documented similar stories throughout the Nation.

The Railroad Antimonopoly Act of 1985 addresses the high cost of transporting bulk commodities such as coal, grain, produce, and ore—costs which are ultimately passed on to the consumer. Electric utility wheeling rights is a very different issue that if addressed by Congress needs careful and thoughtful consideration in its own right.

THE FISCAL YEAR 1985 DEFICIT AND THE GRAMM-RUDMAN "EMERGENCY" DEFICIT CONTROL ACT

HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. OBEY. Mr. Speaker, last Friday, the Treasury closed the books on the worst Federal deficit in history. They announced that the deficit for fiscal year 1985 came to $211.9 billion. This record easily surpassed the old mark of $207 billion set in fiscal year 1983. Adding the fiscal year 1985 record to the other huge deficits chalked up during the Reagan Presidency produces a national debt which has doubled in 5 years to a grand total of over $2 trillion.

These numbers testify to an enormous fiscal problem for the Federal Government and an enormous economic burden on our economy.

In response to this serious problem, the Senate has passed what appears to be an equally serious proposal for deficit reduction.

But in politics, appearances are often deceiving. The Gramm-Rudman amendment bears the serious sounding title of Emergency Deficit Control Act, but in fact contains neither a sense of emergency nor any serious commitment to get control over today's huge deficits.

WHERE'S THE EMERGENCY?

The Gramm-Rudman amendment essentially overturns the existing congressional budget process and shifts power significantly into the hands of the President, on the grounds that the existing budget process has failed to control the deficit.

But the bill contains deficit targets which essentially require no additional deficit reduction for fiscal year 1986, and very minimal cutting for fiscal year 1987. All of the real work on deficit reduction is put off by the Gramm-Rudman bill until after the 1986 election.

Even though its supporters claim the current budget process is a failure, the Gramm-Rudman bill essentially accepts the outcomes of the existing budget process for the current fiscal year. The same budget process which must be overthrown next year is allowed to rack up another $192 billion of deficits this year.

By saying that we cannot tamper with this year's budget in pursuit of deficit reduction, supporters of this proposal are making a sacred cow out of a process they have already consigned to the slaughterhouse.

Supporting this bill lets you have it both ways. You can vote to cut the deficit in the future, while at the same time voting to do no deficit reduction at all for the current fiscal year.

How can we in conscience demand that some future Congress do the work which we lack the courage to do ourselves?

You can't have it both ways. Either the budget process is broke, and we ought to fix it with a process which will force deficit reduction. Or it ain't broke, and we should continue to accept the budgets and the deficits which the current process produces.

If the country truly faces an emergency, as the Gramm-Rudman bill suggests, then we should react with an urgent response. We should vote to cut the deficit now, not wait until some point in the future.

And there are some strong economic arguments for cutting the deficit now. At present, the economy is in a period of modest but sustained growth. The latest Commerce Department figures show GNP growing at 3.1 percent and the Congressional Budget Office continues to forecast a 3.4-percent rate of real GNP growth for the remainder of this fiscal year.

Most economists agree that the time to make real progress on deficit reduction is when the economy is strong. A weak economy could be devastated by drastic deficit reduction.

Prof. Franco Modigliani, the 1985 winner of the Nobel Prize in economics, told the Joint Economic Committee last week that the time to cut the deficit was now, while the economy was reasonably strong, not later, when it could well be weakening. He concluded:

My strong recommendation to you is to cut the deficit now, and cut it deeply.

But time is running out for this strategy. The average postwar peacetime recovery has lasted 34 months. Our current recovery is already 35 months old. This increases the probability of at least a mild recession by 1987.

What happens if you try to undertake serious deficit reduction in the midst of even a mild recession?

The House Budget Committee has used the Data Resources, Inc., model to estimate the consequences of such a scenario by projecting the outcome of Gramm-Rudman if it were to be applied to a weak economy in the 1987–89 period. The results are dramatic: GNP would fall below its 1985 level until after 1991; unemployment would rise precipitously to depression levels of 15 percent, and then decline only slowly; corporate profits would fall to less than half of their 1985 level by 1990.

Postponing deficit reduction until the economy weakens is a recipe for disaster. Faced with an economic crisis of the proportions outlined by the House Budget Committee, it is probable that the Gramm-Rudman deficit reduction process would be abandoned before anything of substance had been done.

If we are going to cut the deficit, let us cut the deficit, not pass some pious pronouncement that other people and future Congresses will have to cut the deficit. It will be better for the economy to start deficit reduction now, and better for the Congress and the administration to accept responsibility for today's deficits, rather than putting that responsibility off onto future Congresses and future Presidents.

THE MORISON MESSAGE—PROTECT THE NATION'S SECRETS

HON. BOB STUMP
OF ARIZONA
IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. STUMP. Mr. Speaker, Samuel Loring Morison, formerly a Federal employee assigned to the Naval Intelligence Support Center, took from a colleague's desk classified satellite photographs of a Soviet nuclear powered aircraft carrier and transmitted them to a British military publication, Jane's Defence Weekly, which published them. Testimony at Morison's trial showed that the photographs revealed sensitive aspects of U.S. satellite reconnaissance capabilities. After a full and fair trial, a jury of 12 unanimously convicted Morison on two counts of violating the Espionage Act and two counts of theft.

Morison's despicable acts of disloyalty deserve universal condemnation, yet some portray him as a constitutional martyr rather than the common criminal a jury has found him to be.

A New York Times editorial of October 19, 1985 decries Morison's conviction because it makes clear that Government employees with access to national security secrets who breach the trust inherent in their positions and disclose those secrets commit crimes. The Times wails that "exchanges of information that have been routine in this society will make criminals of both the officials who provide it and publishers who receive it." If leaks by Government employees of national security secrets are as routine as the Times says they are, then the warning provided by the Morison conviction comes none too soon.

The American Civil Liberties Union also views Morison as a champion of the first amendment. The October 18 New York Times quotes the head of the ACLU Washington office as stating that "the ACLU views this conviction as a threat to the First Amendment * * *." The ACLU has now elevated unauthorized disclosure of national security secrets by faithless Government employees to the status of constitutionally protected and honored activity. The ACLU seems to forget that the foremost civil liberty enjoyed by the American people is liberty from domination by any foreign power, which we owe to a strong and vigilant national defense. Leaks of national security secrets can weaken that defense and imperil our liberty.

The Times and the ACLU appear to believe that a faithless Government employee who provides intelligence secrets to the Soviet Union commits a dastardly criminal deed, but the same Government employee who provides the same secrets to the New York Times for publication commits a constitutionally sacred and honorable act. The judge in the Morison case pointed out quite clearly the illogic of that position in his March 12, 1985 order denying Morison's motion to dismiss his indictment. The judge said:

". . . The danger to the United States is just as great when this information is released to the press as when it is released to an agent of a foreign government. The fear in releasing this type of information is that it gives other nations information concerning the intelligence gathering capabilities of the United States. That fear is realized whether the information is released to the world at large or whether it is released only to specific spies.

I join in the statement of Assistant Attorney General Trott of the Justice Department's Criminal Division who told the New York Times on October 20, in reference to the Morison conviction, that "it is our sincere hope that this reminds people that classified information cannot be leaked." Americans who voluntarily accept positions of high trust in Federal agencies engaged in diplomatic, military, and intelligence activities must protect the national security secrets to which their positions give them access. If they break faith with the American people and reveal those secrets, they will answer at the bar of justice for their crimes.

SOVIET PRISONER OF CONSCIENCE VALERY SENDEROV

HON. ANTHONY C. BEILENSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BEILENSON. Mr. Speaker, as the November summit meeting between President Reagan and Chairman Gorbachev approaches, I would like to draw attention to the plight of Valery Senderov, a Soviet Jewish prisoner of conscience who has been "adopted" by my wife, Dolores, as part of an effort by the Congressional Spouses' Committee of 21.

Valery is a mathematician who was arrested on June 17, 1982, on charges of "anti-Soviet agitation and propaganda." He has been sentenced to 7 years in a labor camp and 5 years of internal exile—merely for expressing his beliefs and trying to emigrate to Israel.

Valery and his wife, Elena, have been struggling valiantly to obtain visas so that they might be reunited with their family in Israel. By releasing Valery from prison and granting the Senderovs permission to emigrate, the Soviet Union would not only demonstrate its respect for the principles of the Helsinki accords, but would also pave the way for improved relations between the United States and the U.S.S.R.

I urge President Reagan and Chairman Gorbachev to include human rights, and particularly the welfare of Soviet Jews, as a major agenda item at their upcoming summit meeting.

FAIR LABOR STANDARDS AMENDMENTS OF 1985

HON. TOM LEWIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. LEWIS of Florida. Mr. Speaker, I am pleased to be a cosponsor of H.R. 3530, the Fair Labor Standards Amendments of 1985, legislation which passed yesterday. Due to the magnitude of the Federal deficit, State and local governments throughout the Nation are beginning to bear an increased amount of the costs required to provide necessary community services. Complying with the Supreme Court Garcia versus San Antonio Metropolitan Transit Authority decision of February 19, 1985, would have caused the reduction of several essential services throughout my 12th Congressional District.

I received calls and letters from every county and many cities in my district explaining the widespread negative financial implications of the Garcia decision. Nationwide response against this decision was so great that members from both political parties were able to work out a sound compromise in order to have it ready for floor action before enforcement of the decision was scheduled to begin.

Enactment of H.R. 3530 will means that State and local governments can at last get down to the business of serving the public and removes financially strapped cities and counties from the looming burden of making unwanted cuts in critical programs.

THE DUNCAN-GREGG SUBSTITUTE FINANCING PACKAGE FOR THE REAUTHORIZATION OF SUPERFUND

HON. JOHN J. DUNCAN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. DUNCAN. Mr. Speaker, the Committee on Rules is expected to meet soon, possibly as early as tomorrow, to formulate a rule for consideration of legislation to finance the reauthorization of the Superfund Program which expired on September 30, 1985. The Committee on Ways and Means, which has jurisdiction over the financing of Superfund, last week reported a financing package totaling approximately $10 billion for 1986–90, containing a highly controversial new tax, similar to a value-added tax, or VAT. The President would, in all likelihood, veto this package because of the VAT component.

The presence of a VAT-like tax in the committee bill by no means indicates that a consensus developed within the committee in support of it. During the course of the markup, the VAT concept was rejected on two close votes before being adopted finally by a vote of 18 to 17. The first attempt to order reported the committee bill with the VAT actually failed on a 16 to 20 vote. The bill subsequently was ordered reported as a result of voice vote both on reconsideration and on ordering it reported. In recognition of the absence of a committee consensus on the VAT, the committee authorized the chairman, Mr. ROSTENKOWSKI, to request that the Rules Committee make in order two amendments providing complete substitutes for the financing package; one to be offered by the gentleman from New York, Mr. DOWNEY, and one to be offered by me.

If the Rules Committee honors the request of the gentleman from Illinois, the House will have the opportunity to choose from three very different alternatives for financing Superfund. The amendment which I would offer on behalf of myself and Mr. GREGG, my committee colleague, is presented following this statement. At this point, I would like to describe in some detail the clear differences I see between the Duncan-Gregg substitute and the other alternatives.

First, the committee bill contains a VAT, which operates much like a sales tax but is hidden from the ultimate consumer, and would be vetoed by the President;

Second, my amendment, the Duncan-Gregg amendment, does not include a VAT but does provide a balanced funding package consistent with programmatic needs as approved by the committees of jurisdiction in those areas;

Third, the Downey amendment, by relying on large increases in taxes on chemical and petroleum feedstock and waste-end taxes, would cripple certain U.S. industries, particularly the chemical industry already handicapped in world competition.

Further with respect to the committee bill's VAT, the fact that it starts out at a low rate and with a limited purpose is no guarantee it will stay that way. Our entire income tax structure began with similar limitations, but nothing stopped its expansion. I fear that coupling this broad new tax with a popular program not only removes considerations of fiscal constraint from our deliberations but guarantees that this tax vehicle will expand by leaps and bounds in the not-too-distant future. The VAT is, by its nature, a hidden tax, invisible to the ultimate consumers who pay the bill.

Also, the cost of administration and supervision of a VAT would be disproportionate to the revenues raised. If properly administered, it may actually cost the Government more to audit than could possibly be collected by the rates included in the committee bill. It is a virtual certainty, therefore, that this levy will not be audited, but honest businesses will expend large sums of money in order to carefully and voluntarily pay the amount statutorily mandated. Conversely, other businesses will either simply not pay or pay only a small portion of the required amount. Such a system is unfair, and our Nation's taxpayers honest taxpayers deserve much better.

My amendment, therefore, does not include a VAT and will not result in adverse economic impact on U.S. industry. The resources that would be provided directly to the Superfund Program in Duncan-Gregg, up to about $10.3 billion, including the catastrophic oil spill provisions, include:

First, a feedstock tax on crude oil and feedstock chemicals. The $1.5 billion feedstock tax on crude oil and chemicals shifts the major financing burden for Superfund to other sources, such as the waste-end tax, as recently released EPA studies say should be done. This shift must occur. We now understand the current feedstock tax for what it is—the most arbitrary impost in the Internal Revenue Code. The burden it imposes has little correlation to Superfund expenditures, either on a retroactive basis, spending required for past environmental practices, or on a prospective basis, expected spending required to clean up for future environmental practices. The Duncan-Gregg amendment includes all of the technical improvements to the current feedstock tax approved by the Committee on Ways and Means.

Second, an import tax on derivative products. The import tax on derivative products included in Duncan-Gregg is the same as that approved by the Committee on Ways and Means. It is a much-needed mechanism to back up the current feedstock tax system. Currently, feedstock taxes are being avoided by foreign producers who, rather than importing the feedstock, import a derivative product. Such tax avoidance gives imports an unfair com-

petitive advantage. This import will correct that problem and provide additional revenue for the Superfund.

Third, a waste-management tax to discourage the most environmentally risky waste management practices. Duncan-Gregg contains a waste-management tax identical to the one in the committee bill, except that instead of raising $2 billion, the Duncan-Gregg version would raise only $1.6 billion. The rates would be adjusted in 1989 and 1990 to effect the reduced revenue level. A properly designed waste-management tax is desirable because large volumes of waste at many toxic sites were contributed by industries which make no contribution to the Superfund. Spreading the burden to many of those industries, through a waste-management tax, is a significant improvement. The tax is desirable also for environmental reasons. Disposal of toxic waste in landfills should be discouraged because of the virtual certainty that the waste, in years to come, will leach into drinking water beneath. The waste-management tax will discourage the use of landfills and will favor treatment processes, such as incineration and waste-water treatment, that greatly reduce risks to the environment and public health. EPA's study of the potential for each type of hazardous waste to leach through a landfill is a long-term project that is not expected to be completed for 5 or 6 years. In the interim, it is sound environmental policy to use a tax to provide an economic incentive for companies to seek alternatives to disposal of toxic waste in the land. However, because of the potential adverse economic impact on certain businesses and because there are serious questions regarding a waste-end tax's reliability as a funding source for Superfund, there are clearly limitations on the extent to which this tax should be used for Superfund. My amendment reflects that limitation by keeping the total revenue below both that of the committee bill and the Downey amendment.

Fourth, recoveries of amounts from responsible parties. Those who are responsible for toxic waste sites, and can be identified, should pay for cleanups. The companies, which have benefitted by past dumping and which can be identified, are forced by EPA to clean up, or EPA does the cleanup and collects up to three times the cost from those responsible parties. My amendment extends the provision to make those recoveries available to Superfund.

Fifth, general revenue contributions. Duncan-Gregg includes $2.3 billion of general revenue contributions over the 5-year reauthorization period, the same amount authorized by the House in last year's Superfund bill. It recognizes that, as our Nation places a greater priority on hazardous waste cleanup, our Federal commitment also must increase.

The components of the Duncan-Gregg amendment described above will provide more than $8.2 billion of resources for the reauthorization of the Superfund Program over the period 1986 through 1990, a fourfold increase in the amount which would be generated from a simple extension of current law. This amount also exceeds what the EPA has indicated will be necessary to fund the programmatic aspects approved by the committees with jurisdiction over those areas.

Nevertheless, the Committee bill provides an additional $2 billion of resources over the same period. It is anticipated that the Downey amendment will provide a similar amount. Those who suggest that these additional amounts are necessary are indicating that EPA's projection of its programmatic needs may be incorrect. While I believe that the agency with closest responsibility for implementing these programs is probably the best judge of the resources necessary to fund the programs, I nevertheless recognize the concerns that some of my colleagues have about the adequacy of funding levels. Therefore, Duncan-Gregg provides a mechanism to produce additional revenues for the programmatic aspects of Superfund, but only if those amounts are needed. These amounts would be available by providing for the triggering of an additional tax at the beginning of the fourth year of the reauthorization period, January 1, 1989.

The triggering mechanism will work as follows. On July 1, 1988, the Secretary of the Treasury, in conjunction with the Administrator of the Environmental Protection Agency, will jointly determine whether the funding mechanisms described above will be sufficient to cover the programmatic needs of the Superfund reauthorization through the end of fiscal year 1990. If the determination is made that these amounts will be sufficient, nothing further occurs. If the Secretary and the EPA Administrator jointly determine that the needs of the program will exceed the resources described above by more than a de minimus amount, greater than $100 million, as of January 1, 1989, an additional broad-based environmental surcharge described below will be activated. The 6-month period between July 1, 1988, and the triggering date, January 1, 1989, will allow Congress time to determine whether it wishes for the broad-based environmental surcharge to take effect or whether it wants some other way to deal with a funding shortfall. The Secretary of the Treasury will determine the rates necessary to cover the funding shortfall determined.

There is no question that we will increase the economic resources committed to the cleanup of hazardous waste. The reauthorization of Superfund is the single most important environmental issue of this Congress. For us to fail to assure that the next generation is protected from the dangers posed by hazardous wastes sites would be unthinkable. We should, and I believe this bill would, fund cleanup of past problems on a fair and efficient basis and encourage prevention of future waste problems.

There is one principle above all others that Congress must respect in the reauthorization process. Business and economic expansion and protection of our environment are not mutually exclusive goals. This bill respects both goals.

I urge Members to support it when it comes before the House.

A TRIBUTE TO SGT. ANTHONY LASALANDRA

HON. DEAN A. GALLO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GALLO. Mr. Speaker, today I rise to pay tribute to a dedicated and unselfish civil servant, Sgt. Anthony Lasalandra, of the Boonton Police Department. Sergeant Lasalandra will be retiring soon, and it is right and proper that this body recognizes his service.

I have known Tony for most of my 49 years.

Almost 20 years ago Tony began his career in law enforcement. Like others in that field, Tony distinguished himself as someone who cares about the quality of life and the future of his community.

Whether it was his service in a patrol car, on a motorcycle, as the lead patrolman, or working in the office, Tony was always committed to his community and to his profession.

The life of a policeman is not an easy one. It involves long, often thankless hours. Often a policeman puts his life on the line for the protection of our citizenry. Police officers are all too often the target of ridicule and all too infrequently the recipients of praise.

Today, Mr. Speaker, I rise in praise. Praise for Tony Lasalandra and the thousands of other police officers who are so critical to our way of life. And, I rise, as a spokesman for this body, to say thanks.

TRIBUTE TO KEN TUCKER

HON. RICHARD C. SHELBY

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. SHELBY. Mr. Speaker, I would like to share with my colleagues in the House of Representatives a story that appeared in the Birmingham News, written by James H. Kennedy.

It is a wonderful account about Ken Tucker of Brewton, AL, and his highly successful company. Following is the enjoyable story as it appeared in the paper:

WITH SOUTHERN INGENUITY, DRAWL AND ALL, BREWTON MAN WINS YANKEE CUSTOMERS

(By James H. Kennedy)

BREWTON.—Ken Tucker knew when starting his "fat lightard" business that to be really successful he'd need to concentrate on people unfamiliar with the product—folks well north of the Mason-Dixon Line, namely, "Yankees."

He did just that, and 10 years later Brewton Enterprises—located in this Escambia County town of just under 7,000—is packaging and shipping 1.5 million pounds annually of fat lightard valued at $500,000.

Tucker hopes to increase that to 3 million pounds and $1 million gross in the near future.

Fat lightard—sometimes called "fat pine," "fat wood," or, simply, pine kindling—has been used for many years by Southerners to start fires in fireplaces, wood-burning stoves and so forth because of its concentration of highly flammable chemicals.

Tucker gets his supply mainly from Virginia pine stumps left in Alabama and Southern forests years ago by timber crews using two-men cross-cut saws, and from abandoned fence posts made of fat lightard wood.

His 15 full-time employees saw the lightard at specified lengths, chop it with hand axes into kindling-size pieces, and package it.

Fat lightard apparently was virtually unknown in the North and Northeast, until Tucker—a 44-year-old Auburn University business graduate—used "Southern ingenuity" to put it across.

He traveled throughout the North and Southeast for several years—Southern drawl and all—pushing his product at gift shops, arts and crafts shows and anywhere else he could get a foot in the door. His stops included New York, Chicago, Atlantic City, Boston, Atlanta and Birmingham.

As part of his sales pitch, Tucker ran his first advertisement ever in *Yankee* magazine, published in Dublin, N.H., and comparable to *Southern Living*.

He got his big break about six years ago when he landed a lucrative contract with L.L. Bean of Freeport, Maine, one of the largest mail-order outfits in the world. Bean carries his product in several of its catalog issues and buys almost two-thirds of his total output.

Much of his remaining sales are made through his own trade name, "Old South Country Kindling."

Perhaps the key to Tucker's success was packaging fat lightard so it appealed to those seeking something different.

Tucker's packages range in size from five to 50 pounds and come in everything from plain cardboard boxes to burlap sacks with draw strings and fancy, handmade pine chests.

One of his big sellers is a round package neatly bound by metal bands and equipped with a handle made of rope and lightard that also can be burned. It comes in five- and eight-pound sizes.

Like most success stories, Tucker's was littered with obstacles. The first year, for example, two floods wiped out his two-employee operation in a small garage in downtown Brewton.

He started over when friend Tom McMillan agreed to come in with him.

Ironically, though, the highest hurdle he had to jump probably was landing the Bean contract.

"People in the South had heard about fat lightard all their lives, so I envisioned selling it up North," said Tucker, an insurance salesman at the time. "But people up North didn't know what it was. I started going to trade shows up North, selling mainly to gift shops—and I began to bug L.L. Bean about handling it. I just bugged them to death, writing them letters and sending them samples for about a year.

"Finally Nancy Wright—a buyer for Bean—wrote and said to send some up, that they would test market it at their gift shop in Freeport."

Tucker sent Bean a 35-pound order in 1976, and waited with nail-biting anticipation . . . and waited . . . and waited. . . .

It was 1979 before Bean ordered any more and, again, it probably was due to Tucker's never-say-die persistence. He'd continued the whole time bombarding the firm with letters and samples and telephone calls.

"They first put me in half of their fall catalogs," recalled Tucker, who recently added baled pine straw and turkey callers to his line of products. "Now they put me in five of their catalogs—fall, Christmas, pre-Christmas, winter and their company catalog.

"The first year I sent them 2,000 units of eight-pound bundles and 11-pound burlap sacks, or about $12,000 worth. This year we'll average sending them 72,000 pounds a month for a total of about 865,000 pounds."

As for his baled "Southern Pine Straw" that he put on the market for the first time in July, Tucker says he's getting more orders than he can fill.

The straw—baled like hay—is sold largely to landscape firms in Birmingham and other larger Alabama cities.

"We're selling three trailer truck loads a week, and would like to get up to maybe five loads a week," he said. "We get $3.25 a bale for it."

He figures his turkey callers can't miss either, since one of this partners is Eddie Salter of Evergreen, the 1985 world champion turkey caller and state champion the past two years.

The callers—designed by Salter—will also be marketed nationwide by retail mail order businesses, he said.

"He (Salter) developed a cedar box caller and a black walnut box caller and five different style diaphragm mouth callers," he added.

"We're trying to make a high-quality, good-sounding caller for a fair price and sell to individual hunters rather than go through large retail stores," Tucker said. "We'd like to get up to 3 million (dollars) in gross sales a year."

Ken's success is the story of the American dream of hard work and dedication. He is a shining example of the backbone of this country's business community which has made America such a great land of opportunity.

I am honored to be able to share this delightful story with my colleagues in the House, and I wish Ken the very best in all of his future endeavors.

WHAT VE-DAY MEANS

HON. NEWT GINGRICH

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GINGRICH. Mr. Speaker, the following editorial in the Economist states clearly why we in the West must recognize that Leninism, like nazism, is the great enemy of freedom. While nazism has disappeared, however, Leninism is still a threat to every one of us.

For those who wonder what is happening in Communist Nicaragua, Angola, Cambodia, Ethiopia, or in Afghanistan and for those who wonder who Gorbachev really is, the attached editorial describes precisely why Leninism is a threat to all of us.

[From the Economist, May 4, 1985]

WHAT VE-DAY MEANS—THE UNFINISHED BUSINESS OF 1945

To avoid any misunderstanding, let it be clear that Britain and America should be thanking heaven this weekend that they had Russia as their ally in the war against Hitler. The war might not have been won without the British and American efforts; it would certainly not have been won, short of using nuclear weapons, without the sacrifices of the Soviet people. Gratitude to Russia, as well as mutual congratulations on beating an abomination, is very much in order next Wednesday, the 40th anniversary of the end of the war in Europe. To avoid a different sort of misunderstanding, however, the west owes Russia an explanation of why, in celebrating what happened in 1945, the victorious ex-allies are only in part celebrating the same thing: which is why they are ex-allies.

The cards which invite non-communist westerners to next week's Soviet celebrations of VE-Day are addressed to fellow-members of the anti-fascist alliance, calling on them to commemorate the victory over fascism 40 years ago. The implication is that, even in 1985, the differences between Russia and the west are less important than the fact that both of them were against Hitler. Soviet politicians do not, of course, really believe this—read their speeches about bourgeois democracy, neo-imperialism and the putative victory of socialism—but their message to the west regularly appeals to the spirit of anti-fascist solidarity. The west can afford to be more honest. There was indeed an anti-fascist alliance and, praise be, it prevailed in 1945. But the victory of 1945 settled only one of the two main political problems of the twentieth century.

To westerners, meaning people who believe in the pluralist idea of politics, the twentieth century has been guilty of two great aberrations. One was nazism, the aberration that divided humanity into "us" and "them". To belong to "us Germans"—or, at the widest stretch, "us Aryans"—was the ground for behaviour that would have shocked a nineteenth-century peasant. What happened in Germany between 1933 and 1945 was a throwback to a primeval sense of belonging-to-one's-tribe, made vastly more dangerous by the Nazis' command of modern technology and the apparatus of the modern nation-state. Nazism may have been created by the economic and political conditions of post-1918 Germany, or by the demonic nature of Hitler himself, or both. Whatever its causes, the destruction it brought down on itself in 1945 was so complete that the world may never again see this sort of throwback in its pure form.

But the other aberration, Leninism, is still going strong. It is in some ways the opposite of Naziism. It says, admirably, that the whole of humanity can eventually be gathered into the category of "us". The sort of world it wants to create would be accepted as desirable by many non-Leninists. It has the merit of good intentions. It is an aberration because its chosen method of putting its good intentions into practice—the one-party system—assumes that those who reckon they know what needs to be done can safely be entrusted with a monopoly of power.

Leninism too is a throwback, to the cheerful insouciance of eighteenth-century rationalists who believed that scientific certainty could be applied to everything, even politics. It cannot. In the event, the one-

party system's concentration of power has multiplied the blunders rather than the achievements. Certainty was not available, after all. The good intentions keep on paving the road to the familiar destination. Where Naziism was the arrogance of the blood, Leninism is the arrogance of the intellect.

A CENTURY FOR HUMILITY?

If the twenty-first century is to do better than its deplorable predecessor, it needs to be spared both those arrogances, the we're-better-than-you kind and the we-know-better-than-you sort alike. But only one of them vanished in 1945. The other has grown much stronger since then, partly because of the self-confident assumption of certainty that is in fact its fatal flaw. The Leninist aberration, unlike the Hitlerite one, is not going to be removed by war. The invention of nuclear weapons makes it too dangerous for either side ever to think of putting the issue to the test of battle. Provided the nuclear balance is preserved, the issue will be settled by the processes of economic and political competition, which the west has a much better chance of winning than it used to think.

This is the unfinished business left over from 1945; and this, rather than whether President Reagan should have gone to Bitburg, is what people need to be arguing about on the 40th anniversary of Hitler's end. The Bitburg cemetery visit was, at worst, a mistake of timing. Sooner or later it should be possible to visit the graves of men who did terrible things—and it is by no means clear that the Bitburg dead fall into that category—in order to recognise, without forgetting what they did, that they too shared in the common experience of suffering and death. That is known as compassion. For some people, 1985 is too early for compassion for the Waffen-SS. It will be a pity if, by the year 2025, compassion has not won the day.

It will be even more of a pity if, by 2025, the politics of certainty are still on the march. If Lenin and Hitler have left a monument behind them, it is a monument to the proposition that politics cannot be conducted on the basis that one lot of people is better, or knows better, than another. The business of arranging men's relations with each other requires humility, hesitation, cautious experiment. "I beseech you, in the bowels of Christ, think it possible you may be mistaken", said Cromwell to the Scottish church in 1650. That is the motto of pluralism, and it should be the motto of the twenty-first cnetury's politics. No room there for the master-race or the master-party.

ATTACK ON LIBERTY

HON. BOB EDGAR

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. EDGAR. Mr. Speaker, freedom of speech and association are the cornerstone of American democracy. Yet by continuing to prosecute the presidents of three Federal employee unions for supposed violations of the Hatch Act, the administration is chopping away at this cornerstone. While we all realize the value and importance of a nonpartisan career civil service, attempts to rob these men and their unions of a political voice does not serve this purpose. In fact, the Hatch Act as it is presently being used might better be named the "Hatchet Act."

I am proud to place in the RECORD an editorial from a local paper in my district, the Delaware County Daily Times, which supports this opinion. I commend it to my colleagues in considering the implications of the present case against Kenneth Blaylock, Moe Biller, and Vincent R. Sombrotto and future reform of the Hatch Act.

The editorial, "Attack on Liberty," follows:

ATTACK ON LIBERTY

It is our proud boast as Americans that we have a government of laws and not of men—that justice is determined by general principle, not individual whim.

But that boast ignores the fact that men must administer the laws. If the laws are in the hands of miscreants and fools, then our liberty is uncertain.

That danger was underscored yesterday by Edward J. Reidy, a federal administrative law judge, who ruled that the presidents of three federal employee unions should be convicted of violating the Hatch Act.

The union presidents had urged their members to vote for Walter Mondale in 1984. Their prosecution was sought by the Reagan Administration.

The Reidy ruling is a spectacularly maladroit application of the law. It ignores the facts of the case, violates the U.S. Constitution and gives future presidents a tool to suppress and punish any comment which does not advance the incumbent's interests.

It would have been difficult to walk 40 feet in the White House or Capitol last fall without encountering a federal employee who was busy violating the Hatch Act, a 1939 law which prohibits federal workers from taking an active part in political campaigns.

Unlike these hordes of aides and seretaries, the three union presidents singled out for punishment—Kenneth Blaylock of the American Federation of Government Employees, Moe Biller of the American Postal Workers Union and Vincent R. Sombrotto of the National Association of Letter Carriers—were not collecting federal salaries while playing politics.

The union presidents weren't on the federal payroll. They'd been on unpaid leaves of absence for years, working full-time for their unions. As part of their duties—while paid by the unions, not the government—they urged their members to vote for labor's candidate, Mondale.

The facts are clear. These men were not federal employees last fall and not subject to the Hatch Act.

This prosecution is a naked attempt to strip federal employee unions and their leaders of the opportunity to comment on political candidates and support them. That's a flagrant violation of their First Amendment rights. If confirmed and extended, the Reidy ruling could be used to silence or punish millions of Americans who dare oppose the men in power.

PHILADELPHIA INQUIRER AND THE SALE OF CONRAIL

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. FLORIO. Mr. Speaker, the Philadelphia Inquirer recently resumed publication after the the settlement of a strike. The Inquirer, through both its news and its editorial pages, has carefully followed the issues relating to the sale of Conrail.

Indeed, the importance of this issue was vividly illustrated when the Inquirer chose to write its first editorial upon resumption of publication on the sale of Conrail.

This editorial follows:

[From the Philadelphia Inquirer, Oct. 23, 1985]

CONRAIL SHOULDN'T BE SOLD TO NORFOLK SOUTHERN

It has become increasingly uncertain in recent weeks whether Congress will act this year on proposals for the sale of Conrail but it now is abundantly clear that, one way or another, Transportation Secretary Elizabeth Hanford Dole's recommendation that it be sold to the Norfolk Southern Corp. should be rejected. That could be done by congressional action if necessary but more appropriately by Mrs. Dole's withdrawing her recommendation or Norfolk Southern's rescinding its purchase offer.

The Norfolk Southern proposal, embraced by Mrs. Dole in February, appeared shaky from the start. It has become a growing embarrassment with each passing month. Testimony at public hearings and authoritative analyses have demonstrated that selling Conrail to Norfolk Southern would be detrimental to the national interest and jeopardize competitive railroad-freight service in the Northeast and Midwest, where Conrail operates.

A particularly devasting blow was dealt last month by the Interstate Commerce Commission in a report to the House public works and transportation subcommittee chaired by Rep. James J. Florio (D. N.J.). The ICC concluded that acquisition of Conrail by Norfolk Southern would place in doubt the long-term viability of smaller railroads serving portions of the same territory.

The ICC's report gives added validity to earlier findings of the U.S. Railway Association (USRA), which monitors Conrail operations for Congress. It reported in July that regional railroads operating in Conrail's territory would lose substantial volumes of traffic if it were acquired by Norfolk Southern, raising questions about their ability to remain in business.

At the outset, the Justice Department ruled that a Norfolk Southern takeover would violate antitrust laws unless significant trackage was divested to smaller railroads. The subsequent ICC and USRA findings suggest that, even with divestiture, the outlook for small lines would be bleak and rail-freight customers in some areas could find themselves at the mercy of a Norfolk Southern monopoly.

Moreover, the basic rationale for selling Conrail to Norfolk Southern—namely, that Conrail could not stand alone—is no longer valid. Conrail, with net income of $500 million in 1984, is now well on its way to a fifth consecutive year of profitability. USRA has

informed Congress that Conrail should remain profitable at least through the remainder of the 1980s.

There also are questions about the adequacy of Norfolk Southern's bid. It could become a government giveaway considering tax benefits that would accrue. But with a sale to Norfolk Southern demonstrated to be unwise because of other factors there is no point in haggling over price.

The proper course for Congress now is to devote its attention to options that would preserve Conrail as an independent railroad. One way to do that would be through a public offering of stock. A consortium headed by Morgan Stanley & Co., a New York investment firm, has proposed to buy Conrail and offer most or all of the stock for sale to the public.

Congress has not yet fully explored Morgan Stanley's proposal and there are many questions to be answered. That should be the focus of congressional attention in weighing Conrail's future.

Norfolk Southern has become a distraction. It received a fair hearing on an offer that was scrutinized and found wanting. It should step aside and let Congress move on to other options.

FAREWELL TO A FRIEND

HON. BEN GARRIDO BLAZ

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BLAZ. Mr. Speaker, I join the people of Guam and the Northern Marianas as well as Catholics throughout the Western Pacific in mourning the passing of an extraordinary religious leader. The tragic death of Archbishop Felixberto C. Flores has saddened all of us who knew and admired him. Although he suffered from kidney and heart problems, Archbishop Flores had exhibited tremendous energy and productivity over the past few years.

Archbishop Flores was 64 and one of the most admired and respected leaders in the Western Pacific. He was a true son of Guam, born and raised in the territory and became the first Guamanian to be appointed bishop (1970) and archbishop (1984) to head the church in our region. He had been ordained a priest April 30, 1949, after studying at San Jose Seminary in the Philippines (1940 to 1944) and St. John's Seminary in Boston, MA (1945 to 1949).

Archbishop Flores had a great vision for our territory and our people and through his perseverance and tenacity, brought it to fruition. He was a man who seemed to know exactly what he wanted out of life.

I first met Archbishop Flores in 1949 while he was visiting the University of Notre Dame where I was studying. Even as a young priest he was very energetic and tenacious, characteristics which were to serve him well throughout his life. To some of us it seemed as though he was trying to accomplish the work of two people in one lifetime. And many of us who knew him well believed that he was motivated and propelled through life by the belief that he had an obligation to shoulder the dedication of his brother who died as a young man shortly after graduating from medical school.

Throughout his 36 years as a priest it was clearly evident he was destined to be one of the great leaders not only of the region but also of the church. His tremendous achievements are best exemplified through his relationship with the Holy Father who, at the then Bishop Flores' personal request, visited Guam in 1981, appointed two additional bishops to Guam and the Commonwealth of the Northern Marianas and designated the Agana Cathedral a Basilica.

Archbishop Flores' crowning achievement took place only a few weeks ago when, with 300 of the faithful of the Marianas, he assisted our Holy Father in celebrating the beatification of the martyred Jesuit Father Luis Diego de San Vitores, who first brought the Catholic faith to Guam 300 years ago. The archbishop had championed San Vitores' cause for sainthood and the beatification was an achievement reflecting his diligence and commitment.

During our visit to Rome for the beatification, the Archbishop was clearly at peace and seemed unusually tranquil. He had the look of a person who had finally accomplished the goal he had set for himself and for which he had fought so hard. Yet, I could not help but get the feeling he knew something he was not telling those of us who were honored to share the memorable occasion of the beatification with him. Having seen him just a few days earlier, last Friday's news of his unexpected passing reminded me of my mother on her deathbed, when she smiled serenely and told us she was ready to join the Lord. "I wish the Lord would take me now for I am ready to meet Him," she had said.

Mr. Speaker, if I could have one prayer answered, it would be that I also be as fortunate and would leave this world so peacefully, confident that I had done the Lord's work. Our church has lost a great leader; our people have lost their spiritual father; and I have lost a close personal friend. Those of us who have shared his life are better for having known him.

END VIOLENCE AND APARTHEID IN SOUTH AFRICA

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BIAGGI. Mr. Speaker, we are all too familiar with the fact that South Africa is a country torn by racial tension and growing violence. The Botha regime is persisting in its policy of legally sanctioned racism and brutal repression of the black majority. The policy of apartheid is an affront to human dignity. Blacks are required to carry hated passbooks wherever they go. They are forced to live in cramped areas such as Soweto and their movement into the much wealthier white areas is strictly regulated. They are treated in an inhuman manner and this treatment continues and, in fact, has intensified in spite of major uprisings by the black majority. More than 730 blacks have been killed in the past 20 months in rioting throughout the country and, recently, the first white solider was killed.

In order to commemorate the victims of violence in South Africa, on October 5, 1985, a National Day of Mourning was held. I attended a memorial prayer service at St. Patrick's Catherdral in New York, coordinated by Mayor Edward Koch's office and the NAACP in conjunction with memorial services throughout the country. Among the 3,000 people in attendance were His Eminence John Cardinal O'Connor, Rev. Benjamin L. Hooks, executive director of the NAACP, and Mayor Koch. We can only hope the violence in South Africa will come to an end. However, the white majority government does not appear to be seeking negotiation.

The Government's method of dealing with these uprisings has been through severe repression. Black citizens have been subjected to a variety of cruel torture tactics, including being forced to assume a sitting position without the benefit of a chair for long periods of time, being forced to walk with small pebbles in one's shoes, and numerous beatings. All forms of verbal protest have been taken away from the black majority, including the banning of trade unions, the jailing of the community's most prominent leaders, such as Nelson Mandela, and the outlawing of the African National Congress which is considered the genuine representative of the black people. Prime Minister Botha has made certain token reforms, but to a large extent he has given in to the conservative elements in South Africa. Not only is the Government engaged in the internal repression of the population, it is conducting a border war with Namibia in an effort to topple its black majority government. South Africa has also refused to sign the Nuclear Non-Proliferation Treaty and is reportedly attempting to build a nuclear arsenal.

The Reagan administration has recently enacted some economic sanctions against South Africa. This represents a positive step forward on the part of our Government. However, these sanctions are not enough. Constructive engagement between the United States and South Africa is a policy failure. The Botha regime has proven that the policy of compromising with it and quietly persuading it to alter its policies will leave the edifice of apartheid intact. What is needed are strong economic sanctions until the white minority government gives the black majority an equal voice in the political process.

It is because of this that I once again call for the enactment of the economic sanction package contained in H.R. 1460—a bill that I cosponsored and which passed the House earlier this year. The measure bans loans to the Government, investment in the country by American firms, ban the sale of Krugerrands, and other gold coins in the United States, and ban all computer sales

to South Africa. These sanctions can only be waived with congressional approval provided certain steps are taken by the South African Government to dismantle apartheid. I believe these sanctions would force the South African Government to reconsider its racist and militaristic policies. Concentrated world pressure could break the ruling minority's stubborn stance. The United States has a moral obligation to take action now in an effort to end legally sanctioned racism in South Africa.

DEBT LIMIT CEILING

HON. THOMAS M. FOGLIETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. FOGLIETTA. Mr. Speaker, yesterday the President warned "the Congress that their unwillingness to deal with the debt ceiling and to take responsible action on the deficit is creating a large and unnecessary problem."

The President went on to accuse the Congress of "inexcusable dithering and delay."

Every Member of the Congress, and the American people, should take strong exception to the President's remarks and in particular, to his suggestion that Congress should take quick action on the Gramm-Rudman balanced budget proposal.

The fact is the issues being raised by the Gramm-Rudman proposal are serious and deserve serious deliberation. I would remind the President that he endorsed the Gramm-Rudman proposal even as his director of the Office of Mangement and Budget conceded that there was no written analysis of the legal and constitutional questions.

I would remind the President, too, of his professed concern for the social safety net. Yet, Gramm-Rudman's budget ax would hack away most deeply at programs like Aid to Families With Dependent Children, Medicaid, Medicare, Social Services Block Grants to the States, and Women, Infant and Children Programs. I would add that since 1981, human resource programs have been cut $56 billion—$34 billion of which came from those programs targeted specifically to the poor.

Finally, I would point out that Gramm-Rudman, assuming neither the Congress nor the President will cut defense readiness funds or the pay of our military men and women, would cut the $172 billion Federal deficit from programs whose total spending is only $176 billion. Simply put, Gramm-Rudman is unworkable.

Mr. Speaker, Gramm-Rudman, as endorsed by the President, is unfair. It is unfair both to the Nation's poor who already have borne the brunt of budget cutting and to those who are serious about balancing the Federal budget. To cast aspersions on those who raise these points does not give us an answer to the problem.

HONORING MAURY ROSAS

HON. ESTEBAN EDWARD TORRES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. TORRES. Mr. Speaker, I rise today before my colleagues in the House to congratulate Mr. Maury Rosas of Pacific Bell Corp. for being named as a recipient of the RAYS Community and Corporate Partners for Progress Award.

RAYS stands for Reaching Adults and Youth by Success. The organization is a nonprofit corporation founded with the idea that education improves communities and business. RAYS emphasizes providing disadvantaged youth with academic and vocational training leading to successful employment opportunities. They have helped thousands of children grow into productive members of the community.

Mr. Maury Rosas has been instrumental in helping RAYS maintain and grow as an organization helping youth. Mr. Rosas is the primary liaison for Pacific Bell in the communities in and around my district. Among his numerous community involvements, he is vice chairman of the United Way Region I board of directors and served as public services campaign chairperson.

A native of Clarkdale, AZ, Mr. Rosas began his education at Pierce and San Fernando Valley State Colleges and received his degree from the University of San Francisco. He has lived in southern California since 1949 and began working for the phone company in 1966.

Mr. Rosas and his wife, Margie, share a number of interests including water skiing, desert motorcycle riding, and travel. they have one son, Maury.

Mr. Speaker, on behalf of my colleagues in the House I commend Mr. Maury Rosas for his outstanding contributions to the well-being of the youth in our community.

AMERICANS HELD HOSTAGE 603 DAYS

HON. GEORGE M. O'BRIEN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. O'BRIEN. Mr. Speaker, today marks the 603d day Americans have been held hostage in Lebanon.

William Buckley, a U.S. Foreign Service officer, was kidnapped in Beirut on March 16, 1984, 603 days ago today.

Today marks the 295th day Father Lawrence Jenco, the head of Catholic Relief Services in Beirut, has been held hostage in Lebanon.

Terry Anderson, the Associated Press Beirut bureau chief, was taken hostage 227 days ago.

The director of the American University Hospital in Beirut, David Jacobsen, was kidnapped 155 days ago, 5 months yesterday.

Thomas Sutherland, the dean of the American University Agriculture School, was taken hostage 142 days ago.

Today also marks the 330th day since the disappearance of Peter Kilburn, the American University librarian.

Mr. Speaker, President Reagan met yesterday with the families of four of the hostages. But the hostage crisis won't be over until all the Americans are returned home safe and sound.

SALUTING THE NEW ENGLAND COUNCIL

HON. SILVIO O. CONTE

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. CONTE. Mr. Speaker, during this fall's heated debate on what U.S. trade policy should be, we should listen for the voice of reason, and when we hear it, we should heed it.

One such voice comes from the New England Council, a regional business association that for 60 years has made it a point to work with its elected public officials in the public policy arena.

Working with the former Senator from Massachusetts Paul E. Tsongas, the council is pushing a proposal that would block the penetration of U.S. domestic markets of illegal foreign goods, and would open up overseas markets to U.S. goods.

Introduced in the House by Congressman BRIAN J. DONNELLY, H.R. 2697, the Fair Foreign Trade Practices Act of 1985, would invest more authority in the Office of the U.S. Trade Representative to respond to unfair trading practices, in accordance with international trading agreements. Problems arising from injurious industrial targeting, intellectual property rights violations, and counterfeiting are specifically addressed by the council-Tsongas proposal.

While the council itself acknowledges that the Fair Foreign Trade Practices Act is not the panacea for all our trade problems, the proposal represents a step that must be taken. It is for these reasons that I am pleased to be a cosponsor of this important legislation.

In closing, Mr. Speaker, I want to commend to the attention of my colleagues a recent editorial endorsement of the council-Tsongas proposal by the Boston Globe, entitled "A Trade Deficit Scalpel."

[From the Boston Sunday Globe, Sept. 1, 1985]

A TRADE-DEFICIT SCALPEL

A towering trade deficit, likely to top $150 billion this year, has prompted a torrent of proposals in Congress that approach the problem with all the finesse of a meat ax. A regional effort, assembled by former Sen. Paul Tsongas and the New England Council, avoids the danger of rampant protectionism by sharpening a more discriminating tool, which would deal with trade grievances on a case-by-case method. It deserves the support of Congress.

The largest single source of the trade deficit is, of course, the overvalued dollar,

which makes American goods less competitive with their counterparts from other countries in both foreign and domestic markets. The problem is compounded by unfair practices by other countries. These practices may make it more difficult for American companies to sell in foreign markets or may give imports an unfair advantage in the open U.S. markets.

The Tsongas-New England Council proposal, filed by Rep. Brian Donnelly (D-Mass.), gives the US trade representative the power to initiate a wide range of actions whenever unfair practices are found in foreign or domestic markets. Under existing law, such an initiative lies only with the president.

Mechanisms of this sort are appropriate to the current trade situation because they avoid across-the-board restrictions that are bound to provoke countermeasures from other countries, running the risk of widespread protectionism among the industrial nations. Their existence should prompt other countries to reevaluate their trade policies; they can be invoked if the countries fail to do so.

The timeliness of the proposal and its moderate approach was emphasized on Friday with the release of the latest U.S. trade figures, showing the best comparative performance so far this year. The reduction of the gap to $10.5 billion during July may have reflected the first effects of a weaker dollar.

If so, it indicates that American goods are regaining their competitiveness even without excessively protectionist measures—and that any heavy-handed efforts by Congress would provoke countermeasures just when Americans are ready to expand their international markets.

The proposal is additionally important because it reaffirms American support of the broad concept of free trade by conforming to the General Agreement on Tariffs and Trade, which continues to form the framework for all world trade.

Many American businesses need no more help to compete than an assurance of fairness. The Tsongas-New England Council proposal would help provide it.

PENNSYLVANIA FEDERATION OF WOMEN'S CLUBS

HON. WILLIAM F. GOODLING

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GOODLING. Mr. Speaker, today I would like to draw the attention of my colleagues to the 90th anniversary of the GFWC Pennsylvania Federation of Women's Clubs. The federation was founded 90 years ago today at the New Century Club in Philadelphia and comprises nearly 700 clubs, with a total membership close to 50,000 making the GFWC the largest service organization of volunteer women in Pennsylvania. With membership in the Pennsylvania Federation of Women's Clubs also comes membership in the General Federation of Women's Clubs, which is the largest organization of volunteer women in the world.

I would like to take this opportunity to share with you some of the projects the GFWC has successfully completed over the years. The following contributions have been made to various institutions and projects: $50,000 for the restoration of Independence Hall; $100,000 to the Woman's Medical College; $55,000 to childhood cancer research and education; $35,000 to diabetes research; and donations of over $5,000 annually for student art scholarships.

In addition, other contributions include establishing a home for women at Laurelton; furnishing two period rooms in the William Penn Memorial Museum valued at over $200,000; founding three-quarters of the libraries in Pennsylvania; cosponsoring television spot announcements on drug abuse; and the commitment of perpetual care of the Pennsylvania acre in the Medal of Honor Grove at Freedom Foundation in Valley Forge. The GFWC also purchased 160 acres of prime forestland and turned it over to the U.S. Forest Service and raised over $85,000 for the learning disabled. These are just a few of the many accomplishments of the Pennsylvania Federation of Women's Clubs.

I congratulate the GFWC Pennsylvania Federation of Women's Clubs on the occasion of its 90th anniversary and wish its members continued success. I am pleased to have the GFWC Pennsylvania Federation of Women's Clubs State headquarters within my congressional district and am proud of the work and services which they provide to the citizens and communities of the Commonwealth of Pennsylvania.

LET'S BE TOUGH, GEORGE, ON THE SOVIET SEAMAN ISSUE!

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BROOMFIELD. Mr. Speaker, I urge the Secretary of State to hang tough on the Soviet seaman issue. While the summit is near, we must not allow the Soviet bear to intimidate us this time.

While all of the facts are not yet available, Mr. Miroslav Medvid twice tried to escape from a Soviet freighter near New Orleans. He was returned to his ship on both occasions by U.S. officials. Although he was interviewed and asked if he was seeking political asylum, he may not have understood. U.S. officials considered him as being in the United States illegally. He was then returned to the Soviet vessel.

U.S. immigration policy is to provide protection for anyone who asks for political asylum. Let us hope that U.S. immigration authorities did not misunderstand Mr. Medvid's request and return him against his will.

Fortunately, U.S. officials have again interviewed him and he is now in a U.S. hospital under observation.

We all know of the famous case of a Lithuanian sailor who tried to stow away on a U.S. Coast Guard vessel. Soviet officials were allowed to come aboard that boat and take Mr. Simas Kudirka back to the Soviet vessel after beating him senseless. He then spent 4 years in a Soviet prison for his actions.

If political asylum is what Mr. Medvid wants, we must give it to him. While the forthcoming summit is important, U.S. national principles come first. Don't sacrifice Mr. Medvid at the altar of summitry. The life of this young man may be at stake. Hang tough, Mr. Secretary.

NEW HAVEN HONORS ARTHUR BARBIERI AND HY KATZ

HON. BRUCE A. MORRISON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. MORRISON of Connecticut. Mr. Speaker, on October 30, 1985, the New Haven Knights of Saint Patrick will hold their 10th annual Friendship Night. Honored that night will be two outstanding citizens of Connecticut's Third District, Arthur T. Barbieri and Hy Katz.

Richard C. Lee, former mayor of the city of New Haven, will present the Distinguished Service Award to Mr. Barbieri for his many years of dedicated service to the community.

Fresh to politics when he entered his first political primary in 1949, Arthur went on to become the chairman of the New Haven Democratic Town Committee and one of Connecticut's premier politicians. Adviser and friend to Senators, Governors, and Congressmen, a leading player in city policymaking, his political achievements are numerous. In 1974, he played a leading role in helping Ella Grasso become Connecticut's first woman Governor.

As a community leader, Arthur Barbieri has always made time for people from all walks of life. From working with government representatives, businessmen, and labor promoting economic expansion in the New Haven area, to helping countless individuals who did not know where else to turn, Arthur has earned the gratitude and respect of many thousands in Greater New Haven.

I am also proud to announce that the Knights of Saint Patrick's Humanitarian Award will be presented to Herman "Hy" Katz, another outstanding New Haven area resident, in recognition of his many contributions to the community.

Mr. Katz is the owner of Hy's Village Restaurant in the Westville section of New Haven, and is well known for his generosity and support of a wide range of civic and humanitarian activities for over 25 years. His restaurant is famous in the New Haven area as the site of many fundraising breakfasts given by Mr. Katz to benefit such causes as muscular dystrophy, the Masonic Home, and pediatric cancer research.

Hy Katz has played an active leadership role in many community charitable organizations. He has been vice president of the New Haven Jaycees, president of the Hamden Probus Club, a group which provides assistance for the mentally retarded,

and president of the Pyramid Temple Klowns, a branch of the International Shriners, which visits children in Crippled Children's Hospitals and Pediatric Burn Units.

Mr. Speaker, I join many other admirers in congratulating Arthur Barbieri and Hy Katz on their outstanding accomplishments, and I sincerely thank them for the years of tireless dedication they have shown to the people of Greater New Haven.

HONORING TRW'S COMMUNITY INVOLVEMENT

HON. ESTEBAN EDWARD TORRES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. TORRES. Mr. Speaker, I ask my colleagues in the House to join with me in recognizing TRW's commitment to improving the well-being of our communities. TRW will be named as a recipient of the RAYS Community and Corporate Partners for Progress Award.

RAYS stands for reaching adults and youth by success. The organization is a nonprofit corporation founded with the idea that education improves communities and business. RAYS emphasizes providing disadvantaged youth with academic and vocational training leading to successful employment opportunities. They have helped thousands of children grow into productive members of the community.

Mr. Speaker, TRW is to be commended for its corporate commitment to conducting business in a manner benefiting customers, employees, and local communities. TRW's stated goals include adherence to the highest professional conduct, achievement of superior economic performance, and participation in a variety of community activities and education programs.

I am pleased to congratulate TRW for their award and want to thank them for their assistance to RAYS and the youth of our communities.

MEDICAL CENTER CELEBRATES SILVER ANNIVERSARY

HON. HOWARD L. BERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BERMAN. Mr. Speaker, I rise today to pay tribute to a fine organization in my community. Lake View Medical Center has been providing excellent medical care to the San Fernando Valley since its inception in 1960. Lake View Medical Center is a truly unique and vital organization with an outstanding record of accomplishments. On November 17, the medical center will hold a reception to celebrate its silver anniversary. As the Representative of California's 26th District I am proud to share some of Lake View Medical Center's accomplishments with my colleagues.

In 1957 a mid-air collision of two planes over a Pacoima Junior High School, resulted in the death of 3 students and 85 more were transported many miles away for medical attention. The local community aroused by the lack of hospital facilities launched a fund drive with a door-to-door "Mother's March" and produced the necessary funding to build the new hospital.

In 1971 the hospital was hit by a 6.8 earthquake and as a result had to be rebuilt. Through community support and determination on the part of the staff the hospital again was providing top-notch, accessible medical care to the area within a short time.

Today, Lake View Medical Center is still providing excellent medical service to the San Fernando Valley and has been responsible for instituting some excellent projects. This hospital pioneered the concept of emergency room contracts for all hospitals with the city and county of Los Angeles. This program makes it possible for an injured person to be taken to the nearest emergency hospital.

It is my distinct pleasure and honor to join with my colleagues to pay tribute to Lake View Medical Center, an invaluable resource to the community.

HAPPY 100TH BIRTHDAY

HON. CARDISS COLLINS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mrs. COLLINS. Mr. Speaker, I would like to recognize a significant milestone achieved by a resident of Chicago, which I am privileged to represent. Today, Mrs. Clara Belle Williams is celebrating her 100th birthday.

The daughter of sharecroppers and granddaughter of black slaves, Mrs. Williams was born October 29, 1885, in LaGrange, TX. Her own parents never attended school, but encouraged their five children to do so. Self-respect and doing one's best was instilled in everyone and is still flowing down through the generations.

In 1905, Mrs. Williams was awarded her teaching certificate and moved on to her first job in Cameron, TX, receiving $30 a month for her services.

After a 10-year courtship, Clara married Jasper Williams, also a teacher, and raised three sons. While they were attending medical school, Mrs. Williams returned to school herself to earn her college degree at the age of 51. The first black graduate of New Mexico State University, Mrs. Williams returned there in 1980 to receive an honorary degree in law. She retired from teaching at the age of 65.

In 1961, Mrs. Williams invested her life savings in a medical clinic for her three sons, Drs. James, Sr., Charles, Sr., and the late Jasper, Sr. The Williams Medical Clinic on the South Side of Chicago is also home for Drs. Jasper, Jr., and Charles, Jr. The clinic may be expanding its physician supply soon—James' son, James II, is in his last year of medical school; and Frank Allen, the youngest son of Charles, Sr., is in his residency.

After moving to Chicago in the early 1950's, Mrs. Williams worked in the clinic until she retired in 1978. Mrs. Williams is now enjoying her retirement keeping busy with daily walks, horticultural projects, and her family which includes besides those already mentioned two granddaughters and a new great-grandson.

I am pleased to acknowledge Mrs. Clara Williams on this great occasion and wish her a very happy birthday.

SUPERFUND MANUFACTURERS EXCISE TAX

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. DOWNEY of New York. Mr. Speaker, in its narrow approval of the Superfund Manufacturers Excise Tax, the Ways and Means Committee has actually pushed the Congress dangerously close to the edge of an insidious and hidden trap for American taxpayers—the value added tax. Not only does this tax undermine the principles of this country's tax policy, it also violates the rationale of the Superfund hazardous waste program by transferring the costs of the program to taxpayers who have played little or no role in the creation of the toxic waste crisis facing us today. I will be offering an amendment to replace the Superfund VAT approved by the committee when we debate this issue on the floor in the coming weeks. I will be joined by my friend and colleague, Representative BILL FRENZEL, who also recognizes the need for fair and appropriate Superfund taxes.

This country has made a decision to raise the revenue needed to promote the general welfare through a progressive tax system. Different tax rates reflect individuals' abilities to pay taxes. This is the fairest and most equitable means of raising the money we need to run our country.

The supporters of this new Superfund tax have called it a manufacturers excise tax. However, this regressive tax should be examined for what it really is—a value added tax. The tax approved by our committee is imposed on manufactured goods. Each manufacturer is taxed on an amount of value added to goods they produce. An excise tax is normally a tax on the full sales price of the goods produced and is traditionally viewed as a tax on narrow categories. The distinction is important because if Americans are going to be railroaded into paying a regressive tax, they ought to know they're not riding a phantom train surreptitiously dubbed an "excise tax."

The Superfund VAT contained in H.R. 2817 will be levied on the sale of manufactured goods at each stage of the production process. The cost of the tax will be transferred to the buyer of those goods. If the buyer happens to be a manufacturer, a

credit will be provided against the amount of tax that has previously been paid by other manufacturers. For example, in the manufacture of an automobile, a credit would be given to the auto manufacturer for the taxes that were paid on the parts of the car—the tires, the glass for the windows or the steel and aluminum—that the auto manufacturer brought from another manufacturer. Each tax is therefore factored into the selling price of a product. But the cost of the tax is hidden in the final sales price which is paid by the consumer.

An invisible tax reflected in higher prices for consumers ignores the principles of tax fairness and equity. Unlike the Tax Code, consumer prices do not reflect taxpayers' economic situations or their ability to pay a certain tax rate. Obviously, lower and middle income people will have a tougher time swallowing higher prices than the wealthy. A VAT is a regressive tax and is patently unfair to the average American.

Proponents of this new Superfund tax claim that the tax is dedicated only to Superfund and that enough safeguards exist in the legislative and political processes to ensure that this tax is not expanded to raise general revenue. However, the history of Federal taxes clearly shows that once a tax is enacted, it inevitably expands. The Investment Tax Credit is one example of a tax allowance with a narrowly defined goal that has grown to a proportion that was never intended when it was designed.

Serious practical concerns have been voiced over the Superfund VAT. The Treasury Department and the Environmental Protection Agency have written about the VAT contained in S. 51, which closely resembles the VAT contained in H.R. 2817, and noted that it:

Is an entirely new method of taxation that would present numerous administrative difficulties for both the Internal Revenue Service and taxpayers. For example, the manufacturers VAT would create valuation problems for tax administrators and taxpayers. This is because manufacturers do not sell exclusively to wholesalers. Some manufacturers engage in wholesale and retail activities, perhaps even selling directly to consumers. In such a case, adjustments must be made to reduce the manufacturer's price to reflect the fact that it is engaged in wholesale and/or retail activity. This involves the need to determine an "arms-length price" for intercompany pricing purposes. Canada, which has a manufacturers VAT, has found it necessary to rely on an extensive set of rules and regulations involving discounts, notional values, and phantom sales to "paper" branches to solve this problem. The Internal Revenue Service has estimated that the cost of implementing the manufacturers VAT would be approximately $5.1 million per year.

If the VAT were passed into law, the EPA would be corralled in the starting blocks as the Treasury Department struggled to deal with a new and complicated Superfund tax at a time when the Agency should be accelerating its efforts to clean up hazardous waste dumps. Who bears the cost of this delay? The people living near toxic waste sites. They will have to endure contaminated groundwater, noxious fumes, and general anxiety about their prolonged exposure to dangerous chemicals for that much longer. And under the VAT, it is important to remember that these same people affected by the toxic waste problem will be paying for the cleanup effort through higher prices. It's bad enough that they must live near toxic waste—they should not be forced to pay for that risk.

Congress designed the Superfund Trust Fund in 1980 to clean up thousands of abandoned and out-of-control hazardous waste dumps through revenue raised from the sale of crude oil and 42 chemical feedstocks. In theory, EPA is supposed to use the CERCLA trust fund to clean up sites and then recover the costs of the cleanup from those parties responsible for the problem. At the time the law was written, we believed that these chemicals and the companies producing the feedstocks were most directly responsible for the toxic waste problem.

Today, the feedstock tax has been widely viewed as meeting the test of tax equity because of the relationship between the companies on which the tax burden falls and the predominance of the kinds of waste found at hazardous waste sites. EPA reports that 93 percent of all hazardous waste generated in the United States is generated by the chemical, petroleum, and metal-related industries, which are the companies that pay the feedstock taxes. In its final report dated Demember 1984 on Feasibility and Desirability of Alternative Tax Systems for Superfund, EPA concluded that:

Because (the chemical, petroleum and metal-processing) industries both produce and use the feedstocks taxed by the current CERCLA tax, it appears that the tax burden is primarily borne by these industries and their customers. This is consistent with the view that equity requires a rough correlation between the industries paying the CERCLA tax and the industries responsible for Fund spendings.

Not only does a connection exist between taxpayers and the problem, but the existing feedstock taxes have proven to be highly reliable and easily administered. If EPA would only spend the money raised by these taxes, we would be facing less pressure to expand the fund to the level which the public now demands.

My amendment will essentially retain the existing tax structure of Superfund but make increases in the tax rates for feedstock chemicals and crude oil. In addition, it will include a waste-end tax, revenue to finance the cleanup of leaking underground storage tanks and general revenues.

The Superfund VAT is unfair and inappropriate. Adopting a complicated regressive tax at a time when we are struggling to reform our Tax Code to made it simpler and fairer is hypocritical. The burden of the VAT will fall on 28,000 companies required to pay the tax and millions of American consumers who have little or no connection to the hazardous waste problem. Superfund's tax base should be expanded to include those who generate waste and this can be done through the waste-end tax. The problem of hazardous waste is serious. But let's not throw away the basic pinnings of our tax system because we are unable to take the time to make tough decisions on how to pay for the problem of hazardous waste. The polluter must pay for the legacy of decades of negligent waste disposal and the program must be supported by stable, reliable and carefully targeted tax revenues. I urge my colleagues to support my amendment when it comes to the floor for a vote.

TRIBUTE TO DR. HYTOLIA R. JAMES

HON. WILLIAM H. GRAY III

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. GRAY of Pennsylvania. Mr. Speaker, today I rise to salute an outstanding American and educator, Dr. Hytolia R. James. Dr. James is retiring after more than two decades in the Philadelphia school system and she is leaving behind a legacy of excellence, caring, and love.

Her achievements in the field of education are numerous. She is well-known for the "I Am Somebody" Project, a program of excellence designed to develop a positive self-image and self-pride in schoolchildren. This program continues to receive wide media coverage because of the excitement that it generates and for the benefits it provides students.

In addition, Dr. James has received countless citations for her sincere and dedicated efforts toward improving the quality of education. She has been cited by the Philadelphia Daily News as one of the top 12 black educators in the city schools, and she has been recognized over the last 20 some years by almost every major radio station in the city for her performance as a master teacher, a principal, and administrator.

She has been named citizen of the month and citizen of the year by various organizations for her outstanding contributions to the community. She is an active participant in Operation PUSH in Philadelphia and serves as a board member. She is also on the board of Timberlake charities and is affiliated with Offender Aid and Restoration.

Dr. James, who currently serves as the executive director of personnel and labor relations for the school district of Philadelphia, will be saluted tomorrow night by her friends, her colleagues and loved ones at a gala retirement celebration.

Mr. Speaker, I know our colleagues will join me now in saluting this fine human being and distinguished public servant.

THE SITUATION OF CYPRUS

HON. ROBERT A. YOUNG

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. YOUNG of Missouri. Mr. Speaker, I rise today to express my concern over the current situation on the Island of Cyprus.

This past weekend, I met with the members of the Justice for Cyprus Committee of Greater St. Louis, MO, on this topic.

First of all, I would like to take this opportunity to applaud the work of the Justice for Cyprus Committee of Greater St. Louis, particularly their efforts on behalf of Cypriot refugee children.

Since the year 6000 B.C., many have invaded the Island of Cyprus. However, no one had ever attempted to change the territorial integrity or cultural heritage of Cyprus until 1974.

July 20, 1974, marked the beginning of the Turkish invasion of Cyprus that resulted in the occupation and colonization of 40 percent of the Republic's territory.

Today, 11 years after the invasion, approximately 30,000 Turkish troops, as well as 50,000 Turkish settlers remain on Cypriot soil, and the island remains partitioned. No government other than Turkey, has formally recognized this Turkish Republic on Cyprus. Consequently, the United Nations has condemned this violation of international law.

The Secretary General of the United Nations has been relentless in his personal attempts to resolve this situation. He has continually called for a summit between the Greek and Turkish leaders. I am sure that both the administration and the Congress would welcome and encourage such a meeting.

In addition, U.N. General Assembly Resolution 7212 and Security Council Resolution 365 have provided a framework for a just and viable solution to the problems in Cyprus. The U.N. proposals include a withdrawal of all foreign troops on the Island and a requirement that there be no change in the demographic composition of Cyprus. This demilitarization would mean that standing armies would be replaced with an enlarged U.N. peacekeeping force. At this point, I am pleased to say that the Greek-Cypriots have agreed to these conditions. We must now apply pressure to the Turks to address these proposals.

With regard to American economic assistance, the administration requested $3 million for Cyprus. However, Congress felt that this was not adequate and increased that amount to $15 million for each of fiscal years 1986 and 1987.

Cyprus has been a valuable ally to the United States. I am sure that all my colleagues recall most vividly that the Government of Cyprus provided the United States with critical assistance throughout the crisis in Lebanon.

In closing, let me add that Congress must continue to work toward an early resolution to the problems in Cyprus that will protect all Cypriots and promote peace and stability in that vital region of the world.

A TRIBUTE TO A FINE AMERICAN, "FOOTS" PARKER

HON. JOHN BRYANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. BRYANT. Mr. Speaker, America has lost a fine American—a gentleman in every sense of the word. Emory Z. "Foots" Parker, who died last Friday at the age of 69, was an athlete, an educator, a loving husband and father, a man who gave to his community and his fellow citizens far more than he received.

Foots Parker was born in Mineola, TX, where he attended public shools, and graduated from Jarvis Christian College in Hawkins with a bachelor's degree in education. After teaching physical education for several years in the Mineola and Alvarado, TX, public schools, he served as principal of Alvarado High School.

But Foots served the young people he cared so much about in other ways. One of those was to entertain and inspire them as an athlete—a member of the old Negro Baseball League, where he played with some of the great names in baseball.

He didn't talk much about himself or his accomplishment, but he played for several teams in the league and traveled throughout the world with the Kansas City Monarchs. He played with Satchel Paige, the trailblazing Jackie Robinson, and baseball's all-time home run king, Hank Aaron.

I think Foots Parker—having experienced the society so segregated that an all black baseball league was the only outlet for talented young athletes like him—must have been pleased to see that division in our Nation end. And I think he would have taken pleasure in seeing another Kansas City team—made up of blacks and whites and Hispanics working together and playing together for the enjoyment of us all—win the World Series.

Yes, I think Foots Parker relished seeing and participating in the progress our Nation has made in securing and guaranteeing human rights for all our people, as he believed we should take a strong stand as a nation for equality and justice throughout the world.

Foots was involved in his community, serving it unselfishly in many ways—among them as one of the most outstanding Democratic precinct chairmen in the Fifth Congressional District, which I am privileged to represent. One could always count on Foots to do what he said and more.

Foots Parker was a dear friend, who will be sorely missed by all of us who were lucky enough to have known him and worked with him for a better world.

COMPENSATING VICTIMS OF THE CYCLAMATE DECISION

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. FAZIO. Mr. Speaker, there are times when our Federal Government makes mistakes which cause injury to citizens. Where it is in our power, we should right those wrongs. We are introducing a bill today to right a wrong to a large class of citizens who were injured severely when, 16 years ago, at hurriedly called Saturday press conference, Health Education and Welfare Secretary Robert Finch announced that he was banning the use of the artificial sweetener called cyclamate.

Acting on a congressional reference case initiated by California's senior Senator ALAN CRANSTON in 1977, a hearing officer for the U.S. Claims Court found last December that one injured party, the 1,098 members of California Canners and Growers, had suffered $8.2 million in losses as a result of the HEW's improper handling of this case in October of 1969. The finding came after 6 months of trial in 1980, which generated 5,000 pages of hearing record, and after 4 full years of deliberation by the court.

The California Canners and Growers case now lies before the review panel of the U.S. Claims Court, its last step under the congressional review process prior to coming back to the Congress as the court's final recommendation. The hearing officer's finding is being formally contested by the Government, on the rather narrow grounds that regardless of fairness and equity the Government is under no legal obligation to right this wrong. We are confident, however, that the panorama of facts laid out in the CalCan hearings will overwhelm this ethically barren argument.

Consequently, we are introducing a bill today which we hope will enable other parties damaged in the same way as CalCan to seek restitution from the Claims Court. We are frankly not sure how many claimants may come to the court; we might get a better idea of their numbers and the amounts of their requests now that the bill is pending in Congress. We anticipate that other agricultural canning organizations will be able to establish that they were harmed. We are confident that Congress will agree that the Government acted wrongly when it reviews the record of the CalCan case. We anticipate that Congress will also conclude that relief is due to any who can legitmately establish damages. We believe Congress will also want to devise a mechanism to extend that relief as expeditiously as possible.

Our bill provides that mechanism. It would first stipulate that the Government acted wrongly, and would then allow any entity with a case one year to go directly to the Claims Court and establish its injury. Provided the claimant has the evidence, it

would qualify directly for relief from the Treasury.

This procedure is a special one, slightly different than the conventional avenues for damages. Normally, claimants against the Government file in the Claims Court on grounds laid out in the Federal Torts Claims Act. Where the torts law does not establish formal legal grounds applicable to a particular case, parties may approach Congress as CalCan did for relief based on plain equity. Normally, in those cases Congress, provides private relief through special legislation. Our bill would have Congress make the determination of Government wrong-doing, but then allow the Claims Court to award damages following its own assessment of the claims with no further action by Congress necessary.

We expect the Congress will understand why the facts of the case warrant our approach. We think Congress will recognize the pointlessness of asking all the claimants to seek separate congressional reference legislation, of requiring each of them to reestablish over again the Government's failure, and of only then allowing them to get to the relevant new issue: How much damage can they document? And after all that, individual claimants would still have to seek private appropriations. Our bill is a means of avoiding the wasted time and effort of prosecuting parallel claims from the beginning.

We introduce the bill now though we do not anticipate its moving until the Claims Court has officially reported back to the Congress its findings in the CalCan case. The sooner the bill is introduced the sooner we will be able to draw Congress' attention to the issue, and the sooner we will be able to move the bill once the court does report. Among other purposes for early introduction, we hope that the field of potential claimants will begin to identify itself, since we anticipate that even though relief is clearly justified Congress will want to know roughly the amount of liability involved.

The facts of the CalCan are simple, but the damage to a thriving industry was devastating. Cyclamates are a nonnutritive sweetener widely used in this country prior to the Government's action in 1969. They are still widely used throughout the world. In 1959 the U.S. Food and Drug Administration had placed cyclamates on the GRAS [generally recognized as safe] list. Many businesses consequently developed product lines heavily dependent on the use of cyclamates, and many consumers relied upon those products, including for medical reasons, because of Government endorsements of its safety. CalCan had developed a thriving low calorie line of canned fruit products known as Diet Delite, sales of which had been rising steadily in the years prior to the cyclamate ban.

In December of 1968, Herbert Ley, Commissioner of the FDA, prepared a brief paper summarizing the research on cyclamate to that point: "From the work that has been reported, there is no evidence that cyclamate proposes a carcinogenic hazard."

Why then did HEW Secretary Finch suddenly call an extraordinary Saturday press conference only 10 months later, at which he announced that new experiments clearly linked cyclamates to cancer, that cyclamates were in fact carcinogenic, that a National Academy of Sciences panel had confirmed this finding, and that he was therefore legally bound to ban cyclamates? He promptly removed them from the GRAS list, which meant that they needed specific approval in order to be used, and he said he would not grant that specific approval.

This press conference received wide newspaper and television coverage across the Nation. The public was told by the Federal Government that it was no longer safe to use cyclamates in any form.

All product containing cyclamate was to be off the shelf in 3 months. This inflicted considerable hardship on businesses which had to prepare product far in advance and to keep the product for marketing over the course of a year. Soon after the original stern announcement, however the Secretary relented a bit. He extended the deadline until September 1, 1970, acknowledging his ruling had precipitated "economic chaos." He allowed canned products to be marketed thereafter with appropriate labels as drugs, to be used by properly informed consumers with medical concerns. Businesses repackaged their products, and submitted the labels to the FDA for approval. All was proceeding routinely within the bureaucracy.

Suddenly, in August of 1970, the FDA announced that products containing cyclamates could not be marketed as drugs either. The reasons for that action have never been clear. However, the FDA and HEW were under intense pressure to ban cyclamates altogether, the pressure having been significantly intensified by the Secretary's own initial exaggerations about its carcinogenicity.

The Secretary of Health, Education, and Welfare does not call a national press conference about as publically volatile an issue as this and anoint a new carcinogen without significant consequences.

The effects of the Government's action on CalCan were absolutely unmistakable. From 3.8 million cases of its Diet Delite brand sold in 1968–69, sales dropped to 1.9 million cases in 1969–70. In November, 1968, 1 year before the ban, CalCan sold 291,000 cases of low calorie fruit; the November immediately after the ban sales plummeted to 27,000 cases.

Further, after going through all the expense of relabeling the 1970 harvests as saleable in the category of drugs, CalCan was caught by the sudden August cutoff with 3 million cases of a once-promising product.

Prior to the ban CalCan had 1,100 members. By the time it went bankrupt 12 years later membership had dwindled to 500. The cyclamate ban contributed heavily to the accumulated difficulties which eventually drove the cooperative under.

Others were damaged as CalCan was, including CalCan's sister cooperative, the Tri-Valley Growers. This bill is for them.

The Claims Court found that the FDA could have conceivably sustained an argument that cyclamate might be associated with cancer and on that basis could have been justifiably subject to a ban. Therefore, the court carefully disallowed CalCan damages for actually having banned cyclamate. Our bill would not allow damages from the Claims Court on that ground either. The court found, however, that the procedures through which the Department should have gone to make such a finding and ruling were simply not followed in this case.

There had been no reliable study linking cyclamate with cancer. The Secretary's press conference rested on preliminary findings of a study showing bladder tumors in rats that had been fed excessive quantities of a combination of cyclamates and saccharin, and in circumstances which themselves were confusing and which confused the results. The FDA itself had not completed its review of this incomplete study.

No National Academy of Sciences panel had confirmed a legitimate link between cyclamate and cancer either, despite the Secretary's flat assertion. Documents uncovered at the trial, in fact, established that HEW officials were well aware of what the NAS had and had not said, which was only that the study which the Secretary used was incomplete and inadequate on a basis for action.

This whole drastic error would have no doubt been avoided had political officials been in touch with career professionals within the FDA. They were not. It was stipulated at the trial that the FDA scientists had not been made aware of the study on which the Secretary based his action. Nor were any FDA officials aware that the Secretary was going to hold a press conference and ban cycylamate October 18. They read it in the news. Only the Commissioner of the Food and Drug Administration Herbert Ley knew what was going to take place that day.

A couple of days previous to the press conference, however, HEW General Counsel Bob Mardian and Assistant HEW Secretary for Health Jesse Steinfeld journied to the White House. There private meetings were held, first with Deputy Counsel to the President Egil Krogh and then with his immediate superior, Domestic Affairs Adviser John Erlichman.

We do not know what was said at those meetings. We do know that a Michael Kahl, Assistant to Secretary Finch for Public Affairs at that time, later testified that the announcement made at the press conference by Secretary Finch, Dr. Steinfeld, and Commissioner Ley came as a complete surprise to him, though his position was such that he routinely reviewed matters of this sort before they got to the Secretary. Instead, Mr. Kahl said at trial, the decision to ban the additive was done in private meetings, very closed door and very hush hush.

One irony of the case is that the FDA later tried to ban saccharin, the companion constituent in the inadequate test of the rats. Congress intervened to stop that

action, which had been proceeding normally.

Another irony is that the NAS concluded this June that cyclamate has no direct link to cancer by itself. The FDA is now considering whether to reinstate it to the GRAS list. This time the FDA is proceeding cautiously, as it should. The National Academy has been commissioned to determine whether cyclamate encourages carcinogenic characteristics of other substances.

We do not ask Congress to determine the carcinogenicity of any substance. We trust that this time the regulatory process will work as it should, and we hope that it can thereby regain some of its bruised credibility. Our bill would simply ask that Congress stipulate to the errors made by the Federal Government, and allow those who were damaged so long ago to seek relief for which they should have had no need at all, much less wait 16 years for it.

H.R. 3583 PUT TEETH INTO OUR EXTRADITION TREATIES

HON. F. JAMES SENSENBRENNER

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. SENSENBRENNER. Mr. Speaker, the *Achille Lauro* incident will have the same impact on our foreign policy as when America remembered Pearl Harbor, the Beirut bombing, the shooting down of the KAL airliner, and other acts of aggression against the United States.

President Reagan dealt the bandits of the *Achille Lauro* a surprise card of justice. Even with the arrest, our international agreements failed us. The release of the terrorist Mohammed Abbas and failure of countries to comply with the United States' requests for extradition has made it painfully clear that our treaties with other nations lack the enforcement teeth necessary to protect our citizens.

That is why I introduced H.R. 3583 to assist the President with enforcement of these obligations. The bill gives the President authority either to immediately withhold economic and military aid or to restrict imports if a country has in its custody a person who has committed a terrorist act against the United States.

I insert in the CONGRESSIONAL RECORD, at this point, two appendixes. Appendix I is a text of the bill. Appendix II is a listing of countries that currently have extradition treaties with the United States.

[Appendix I]

H.R. 3583

A bill to amend chapter 209 of title 18, United States Code, to provide for sanctions against foreign countries that do not extradite terrorists to the United States as required by treaty

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PRESIDENTIAL AUTHORITY TO IMPOSE TRADE AND AID SANCTIONS AGAINST FOREIGN GOVERNMENTS FOR FAILURE TO EXTRADITE TERRORISTS AS REQUIRED BY TREATY.

Chapter 209 of title 18, United States Code, is amended by adding at the end the following new section:

"§ 3196. Sanctions against foreign governments for failure to extradite terrorists as required by treaty

"(a) If the government of a foreign country with which the United States has entered into a treaty of extradition does not (in compliance with a request properly made under that treaty) extradite to the United States a person who commits an act of terrorism against a United States person or United States property, the President shall have authority, notwithstanding any other provision of law, to take any of the following actions: restriction of imports from that country, reduction of military assistance to that country, and reduction of economic assistance to that country.

"(b) Before taking any action authorized under subsection (a) of this section, the President shall provide notice of the intended action to the chairman and the ranking minority party member of each of the following committees of Congress: the Committee on the Judiciary of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, the Committee on the Judiciary of the Senate, and the Committee on Foreign Relations of the Senate.

"(c) As used in this section—

"(1) the term 'treaty of extradition' means a bilateral or multilateral treaty or other international agreement providing for extradition; and

"(2) the term 'act of terrorism', 'United States person', and 'United States property' have the meanings given those terms in section 3077 of this title.".

SEC. 2. TECHNICAL AMENDMENT.

The table of sections for chapter 209 of title 18, United States Code, is amended by adding at the end the following new item:

"3196. Sanctions against foreign governments for failure to extradite terrorists as required by treaty.".

[Appendix II]

EXTRADITION

The following is a listing of countries that currently have extradition treaties with the United States:

Albania, Argentina, Australia, Austria, Bahamas, Barbados, Belgium, Bolivia, Brazil, Bulgaria, Burma, and Canada.

Chile, Colombia, Congo (Brazzaville), Costa Rica, Cuba, Cyprus, Czechoslovakia, Denmark, Dominican Republic, Ecuador, Egypt, El Salvador, Estonia, Fiji, Finland, and France.

Gambia, Federal Republic of Germany, Ghana, Greece, Grenada, Guatemala, Guyana, Haiti, Honduras, Hungary, Iceland, India, Iraq, Ireland, Israel, and Italy.

Jamaica, Japan, Kenya, Latvia, Lesotho, Liberia, Liechtenstein, Lithuania, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mexico, Monaco, Nauru, Netherlands, and New Zealand.

Nicaragua, Nigeria, Norway, Pakistan, Panama, Papua New Guinea, Paraguay, Peru, Poland, Portugal, Romania, San Marino, Seychelles, Sierra Leone, Singapore, Solomon Islands, South Africa, Spain, Sri Lanka, Surinam, Swaziland, Sweden, Switzerland, Tanzania, Thailand, Tonga, Trinidad and Tobago, Turkey, United Arab Republic, United Kingdom, Uruguay, Venezuela, Yugoslavia, and Zambia.

CONVENTION ON EXTRADITION

The United States is a party to the Multilateral Convention on Extradition signed at Montevideo on Dec. 26, 1933, entered into force for the United States on Jan. 25, 1935. 49 Stat. 3111.

Other states which have become parties: Argentina, Chile, Colombia, Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, and Panama.

INCREASED COUNSELING FOR FEDERAL EMPLOYEES RETIREES

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. WOLF. Mr. Speaker, today I am introducing legislation to allow Federal retirees a second chance to opt for a survivor annuity under the civil service retirement system.

During my 5 years in Congress, I have been contacted by numerous retired Federal employees who would like an opportunity to select a survivor annuity for their spouses. Under current law, such a decision must be made at retirement and a second chance to choose is not permissible. I learned through many of those contacts, however, that the retiree had a lack of information when the annuity designation was made. Many people have said that they were given incorrect or incomplete advice by the personnel retirement counselor in their employing agency.

To address these concerns, I have introduced a retiree bill with my Virginia colleague Senator PAUL TRIBLE which will give all annuitants 18 months to choose a survivor annuity if they did not do so before retirement. Retirees would be required to make appropriate deposits to the retirement system to cover such a selection.

The bill also mandates that agency retirement counselors be trained in retirement law changes at least once a year to ensure proficiency on the latest law revisions and competency in counseling prospective retirees. The Office of Personnel Management is also required to establish and publicize a telephone number which annuitants may call to obtain answers to questions relating to retirement benefits and survivor annuity selections provided under the bill.

I have worked with the National Association of Federal Employees' National legislative office in developing this legislation and it is my hope that we can move toward quick passage of this measure. I urge my colleagues to join me in cosponsoring this legislation to assist those who have retired from Federal service.

BILL ANALYSIS

SECTION 1—18 MONTH PERIOD TO ELECT A SURVIVOR ANNUITY

Provides that if an annuitant were married at the time of his or her retirement from the government and elected not to

provide a survivor annuity for his or her spouse, the annuitant will have 18 months to elect for a survivor annuity.

A deposit must be made into the Civil Service Retirement System for the survivor annuity which equals the difference between the amount the retiree has received and the amount which would have been paid if such election had been made at the time of retirement plus interest on that amount as earned at a rate by the fund during the period since retirement.

SECTION 2—RETIREMENT COUNSELING

Mandates that OPM will establish a training program designed to promote fully informed retirement decisions by employees. Retirement counselors in all federal agencies will be required to successfully complete a training session annually. OPM will offer the training program quarterly.

OPM will also establish and publicize a telephone number which annuitants may call to obtain answers to questions relating to retirement benefits and survivor annuity selections provided under the bill.

H.R. 3641

A bill to amend title 5, United States Code, to increase the opportunity to provide a survivor annuity under subchapter III of chapter 83 of such title; and to improve retirement counseling for Federal Government employees

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

18-MONTH PERIOD TO ELECT A SURVIVOR ANNUITY

Section 1. (a) Section 8339 of title 5, United States Code, is amended by adding at the end thereof the following:

"(o)(1)(A) An employee or Member—

"(i) who, at the time of retirement, is married, and

"(ii) who notifies the Office at such time (in accordance with subsection (j)) that a survivor annuity under section 8341(b) of this title is not desired, may, during the 18-month period beginning on the date of the retirement of such employee or Member, elect to have a reduction under subsection (j) made in the annuity of the employee or Member (or in such portion thereof as the employee or Member may designate) in order to provide a survivor annuity for the spouse of such employee or Member.

"(B) An employee or Member—

"(i) who, at the time of retirement, is married, and

"(ii) who at such time designates (in accordance with subsection (j)) that is limited portion of the annuity of such employee or Member is to be used as the base for a survivor annuity under section 8341(b) of this title.

may, during the 18-month period beginning on the date of the retirement of such employee or Member, elect to have a greater portion of the annuity of such employee of Member so used.

"(2)(A) An election under paragraph (A) or (B) of paragraph (1) shall not be considered effective unless—

"(i) the spouse of the employee or Member is provided advance notice of the election in accordance with such regulations as the Office shall prescribe; and

"(ii) the amount specified in subparagraph (B) of this paragraph is deposited into the Fund before the expiration of the application 18-month under paragraph (1).

"(B) The amount to be deposited with respect to an election under this subsection is an amount equal to the sum of—

"(i) the difference (for the period between the date of retirement of the employee or Member and the date of the election) between the amount paid to such employee or Member under this subchapter and the amount which would have been paid if such election had been made at the time of retirement; and

"(ii) interest on the amount of the difference under clause (i) at the average annual interest rate earned during such period by securities held by the Fund.

"(3) An election by an employee or Member under this subsection voids prospectively any election previously made in the case of such employee or Member under subsection (j).

"(4) An annuity which is reduced in connection with an election under this subsection shall be reduced by the same percentage reductions as were in effect at the time of the retirement of the employee or Member whose annuity is so reduced.

"(5) Rights and obligations resulting from the election of a reduced annuity under this subsection shall be the same as the rights and obligations which would have resulted had the employee or Member involved elected such annuity at the time of retiring.

"(6) The Office shall, on an annual basis, inform each employee or Member of the right or election under this subsection, including the procedures and deadlines applicable in making any such election.".

(b)(1) The amendment made by subsection (a) shall take effect 3 months after the date of the enactment of this Act.

(2)(A) Subject to subparagraph (B), the amendment made by subsection (a) shall apply with respect to employees and Members retiring before, on, or after such amendment first takes effect.

(B) For purposes of applying the provisions of paragraph (1) of section 8339(c) of title 5, United States Code (as added by this Act) to employees or Members retiring before the date on which the amendment made by subsection (a) first takes effect—

(i) the period referred to in subparagraph (A) or (B) of such paragraph (as the case may be) shall be considered to begin on the date as of which such amendment first becomes effective; and

(ii) the amount referred to in paragraph (2) of such section 8339(o) shall be computed without regard to the provisions of subparagraph (B)(ii) of such paragraph, relating to interest.

(3) For purposes of this subsection, the terms "employee" and "Member" each has the meaning given that term in sections 8331(1) and 8331(2) of title 5, United States Code, respectively.

RETIREMENT COUNSELING

SEC. 2. (a) Subchapter III of chapter 83, of title 5, United States Code, is amended by adding at the end thereof the following new section:

"§ 8349. Retirement counseling

"(a) For the purposes of this section, the term 'retirement counselor', when used with respect to an agency, means an employee of the agency who is designated by the head of the agency to furnish information on benefits under this subchapter and counseling services relating to such benefits to other employees of the agency.

"(b) The Director of the Office of Personnel Management shall—

"(1) establish a training program for all retirement counselors of agencies of the Federal Government; and

"(2) designate and publicize a telephone number at the Office which annitants may call to obtain answers to questions relating to retirement benefits under this subchapter and which is to be used exclusively for such purpose.

"(c)(1) The training program established under subsection (b)(1) of this section shall provide for comprehensive training on the provisions and administration of this subchapter, shall be designed to promote fully informed retirement decisions by employees, and shall be revised as necessary to assure that the information furnished to retirement counselors of agencies under the program is current.

"(2) The Director shall conduct a training session under the training program once each quarter-year.

"(3) Once each year, each retirement counselor of an agency shall successfully complete a training session conducted under the training program.

"(c) The Director shall assign the responsibility of receiving and responding to calls made to the telephone number designated under subsection (b)(2) of this section of a sufficient number of employees who are knowledgeable about the provisions and administration of this subchapter to assure that prompt and effective assistance is furnished to annuitants.".

(b) The chapter analysis at the beginning of such chapter is amended by inserting after the item relating to section 8348 the following new item:

"8349. Retirement counseling.".

BELLFLOWER, CA, 28 YEARS OLD THIS SATURDAY

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. DYMALLY. Mr. Speaker, it gives me pride to announce to my colleagues the 28th birthday of one of the most pleasant and delightful cities anyone could hope to have in his congressional district. This Saturday, November 2, will mark the 28th year of incorporation of the city of Bellflower, CA.

The people of Bellflower derive much enjoyment from their city, and it is their practice to mark the birthday of this wonderful place with exceeding mirth and festivity. This year a complete week of celebration was planned, and, indeed, is already in progress as we speak. I invite my colleagues to visit this beautiful community and see for themselves its spacious, palmtree lined boulevards and its comfortable, friendly neighborhoods. We call Bellflower the Friendly City. It takes but a short conversation with any of its residents to see how the city has earned its name. You will find the citizens of Bellflower as warm as the California sun.

This year the city is beginning its birthday celebration athletically and is ending it with what amounts to a 4-day party. As you might imagine, I sorely regret that I am missing the athletic events, but I plan to

make up for that absence by my attendance and full participation at the party. The athletic portion of the festivities began with both a 5k and a 10k race on Saturday. For the younger set, a tricycle race was held as well. Sunday was Bellflower Heritage Day which included a variety of historical events including displays at the Carpenter Museum and an historical fashion show, as well as a vintage auto show. Eating is the order of the day today and tomorrow. The mayor will lead attendees in a prayer breakfast tomorrow to thank the Lord for the many good things he has given to the citizens of Bellflower. Today the Soroptimists Club hosted a joint service club luncheon.

Thursday will be the first day of the big carnival and the city will join together to put on a fine halloween program for the young people at all the parks in the city. Friday, in addition to the carnival and the Kiwanis-sponsored spaghetti dinner, there will be a hard fought volleyball tournament. And of course everyone loves a parade. That happens Saturday. And after the parade the birthday party itself starts. Everything else was just prelude, you see. The party will encompass a community fair, skydiving, a release of birthday balloons, a presentation of awards for best floats in the parade, a baby contest and diaper derby, not to mention the chili cookoff awards, the music, the cutting of the birthday cake, and the fireworks show. If that were not enough, we expect the Bellflower Bears to triumph in their football game on that day.

If any of my colleagues are lucky enough to find themselves in our community this weekend, I hope they will come on over to Thompson Park and have a piece of cake to help us celebrate our birthday.

THE DEFICIT AMENDMENT IS JUST A GIMMICK

HON. JIM MOODY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. MOODY. Mr. Speaker, I would like to call attention to an article authored by our colleague DAVE OBEY which outlines the inherent flaws in the Gramm/Rudman deficit reduction proposal.

Mr. OBEY, with his usual clarity and directness, points out the sound economic reasons why Gramm/Rudman is more of an election relief act than a realistic deficit reduction measure.

I commend this article to my colleagues.

[From the Washington Post, Oct. 25, 1985]

Now that the Gramm/Rudman deficit reduction blitz has the attention of Congress and the American people—and since it is likely that momentum spawned by the Senate's quick action will foster passion for similar passage in the House—it is time to examine the sound economic reasons why the effort to trim the deficit should begin now rather than after the 1986 elections.

As the proposal now stands, it is brilliant only for its political strategy. It is blatant election-year gimmickry and attempts to fool the country into thinking that Congress is getting serious about the deficit. It postpones the pain of serious deficit reduction until after the 1986 elections, when 22 Republican Senate seats are exposed.

But I doubt the American public is going to trust any approach to deficit reduction that puts off the real pain until some point in the future—especially if putting things off in this fashion enables some politicians to coast through the next election.

Yet, the Gramm/Rudman amendment boldly claims that it is time to get serious about the deficit. The proposal sets a target of $180 billion for the FY '86 deficit, this at a time when the Congressional Budget Office is forecasting a deficit of $175 billion for the same fiscal year. A $5 billion cushion has been conveniently built into the proposal to prevent any singificant deficit reduction during the coming fiscal year.

Then, to make certain nothing happens this year, the proposal also allows the $180 billion target to be exceeded by 7 percent before any deficit reduction is mandated. This escape clause means that the deficit could be as high as $192 billion before anything would have to be done about the FY '86 budget deficit.

How can it be claimed that Gramm/Rudman is a responsible approach to deficit reduction if it would permit this year's spending levels to be $17 billion higher than the levels specified in this year's budget resolution? Gramm/Rudman claims to balance the budget in a systematic way, but what it really seeks is for somebody else to balance the budget at some point in the future when the political landscape is a little neater.

If we are going to get serious about reducing the budget deficit, then let's get serious by starting now, with the FY '86 budget, because there are sound economic reasons for doing so.

Whatever final proposal is approved by the House-Senate conferees, it is certain agreement will be reached that Congress should not tailor a straitjacket that keeps us from responding to cyclical economic conditions. We will have to fashion an alternative that allows flexibility based on economic growth and on the knowledge that it is much sounder policy to cut the deficit in good growth years than in bad.

The reasons for getting on with the task in FY '86 is this:

CBO is projecting growth of 3.4 percent in FY '86. Although long-range projections are for continued good growth in FY '87, an increasing number of economists aren't so sure. Too, it is much harder to forecast far into the future than it is to see into the next 12 months. Should growth fall off sharply in 1987, budget cuts of the magnitude fashioned in Gramm/Rudman could be disastrous. If nothing is done in 1986 to reduce the deficit—as urged by Gramm/Rudman—and bad economic conditions dictate nothing be done in 1987, we will continue to stretch decision day farther and farther into the future and allow politicians to escape responsibility.

Historically, presidents have created the "political business cycle" by playing with monetary and fiscal policy to influence elections. With Gramm/Rudman, Congress would sign into law the political business cycle by taking the political heat off in 1986.

In discussing the timeliness of deficit reduction, President Reagan has said:

"We've come to a turning point, a moment for hard decision. I have asked the Cabinet and my staff a question, and now I put the same questions to all of you: If not us, who? If not now, when?"

Gramm/Rudman responds, "Not us. Not now."

As the conference committee continues its work, it should tell the American people the time is now, FY '86. Economic considerations are on their side.

THE 100TH BIRTHDAY OF MRS. CLARA BELLE WILLIAMS

HON. CHARLES A. HAYES

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. HAYES. Mr. Speaker, it is with great pleasure that I address this august assembly to note that today is the 100th birthday of Mrs. Clara Belle Williams, a resident of the First Congressional District of Illinois. In living to become a centenarian, Mrs. Williams has consistently demonstrated the highest standards of excellence and achievement in all of her endeavors.

From her humble beginnings as the daughter of ex-slaves in her native Texas, she launched a fervent drive to educate herself and her children. Through the years, she has been a shining example of the tireless commitment to progress and self-improvement that has distinguished the fight for self-determination, equal opportunity, and justice for black people in the United States.

Her loving touch has had a particularly significant impact on the people of the First Congressional District where, with the assistance of her three sons, Jasper, James, and Charles, she was largely responsible for establishing and maintaining the Williams Clinic as one of the major health care resources of our community.

The lives of the people of the First Congressional District, the city of Chicago, the State of Illinois, and the United States of America have been enriched by Mrs. Williams' selfless efforts. I know that my distinguished colleagues in the U.S. House of Representatives will join me in wishing her a happy 100th birthday and many more years of active and productive life.

GRAMM-RUDMAN INEQUITY

HON. CLAUDE PEPPER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. PEPPER. Mr. Speaker, as a conferee on the Gramm-Rudman proposal I am gravely concerned that many of our colleagues of this distinguished body are not aware of the far-reaching consequences Gramm-Rudman would automatically impose on us if it were to pass.

In every area of "controllable" spending cuts would be made affecting those who need help the most and who can least afford to absorb any cuts because they are

already at or below subsistence levels of life.

For the information of our colleagues I would like to insert at this point the following letter I received from the Orange County public school system in Florida, which graphically details the way in which these cuts would be likely to affect this one school system and the children it is supposed to turn into capable and productive citizens of our Nation for the future.

It is unconscionable to suggest that programs that build the future of this country and our people, programs that feed and heal people, programs that keep deserving people on the edge of survival, be cut even by a further percentage. We need to recognize this fact and make government work positively and affirmatively the way it works best. This is what the committees of the House would like to do instead of allowing automatic and unreasoning cuts to be enacted.

ORANGE COUNTY PUBLIC SCHOOLS,
Orlando, FL, October 21, 1985.

Hon. CLAUDE PEPPER,
Rayburn House Office Building,
Washington, DC.

DEAR CONGRESSMAN PEPPER: The Gramm/Rudman Deficit Reduction Proposal is of grave concern to us. While we would welcome a mechanism that would work in a fair manner to eliminate mounting Federal deficits, this proposal does not treat all programs equally.

Because education programs are forward-funded, with the bulk of funds going to school districts a year later than actually appropriated, even modest cuts in education spending for a particular fiscal year equate to enormous cuts in a program's budget authority. For example, a three percent across the board cut in spending translates into a 40 percent cut in the Chapter 1 budget authority or a reduction of $2,934,568 to Orange County; a 67 percent cut in Education for the Handicapped or a reduction of $1,871,642 to our schools; and a 30 percent cut in vocational education or a local reduction of $101,781.

These budget cuts would result in a significant and substantial curtailment in needed educational services for our students. Can we really afford to make such huge reductions in educational programs required for our youth while other federal initiatives remain virtually untouched?

We urge you to consider this matter most carefully. We do not believe such drastic cuts in education support are necessary. If it is impossible to shelter education completely as is proposed for social security, please ensure that educational interests are not unfairly treated in relation to other areas of national public concern.

Sincerely,

JAMES L. SCHOTT,
Superintendent.
RAYMOND H. BASSETT,
Chairman, Orange County School Board.

INTRODUCTION OF HOUSE JOINT RESOLUTION 433 REQUESTING AND AUTHORIZING THE PRESIDENT TO PROCLAIM JUNE 2-8, 1986, AS NATIONAL FISHING WEEK

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 29, 1985

Mr. JONES of North Carolina. Mr. Speaker, today I am introducing House Joint Resolution 433, requesting and authorizing the President to proclaim June 2-8, 1986, as National Fishing Week.

Mr. Speaker, all too often we forget the importance of the fishing industry here in the United States. The resolution I have introduced would merely ask the President to recognize the contribution of our Nation's fishermen and the fishing industry.

Fishing is a tradition deeply rooted in our history. Fishing provided our ancestors, the pioneers, and settlers of our country, with an immediate and steady food supply. These same resources allowed fishing to become a major ceremonial and subsistance activity of native American cultures. This fishing tradition lives on today—only the fishing methods and techniques have changed.

It is estimated that each year over 200,000 commercial fishermen ply the oceans in search of seafood to fill the plates of millions of Americans. It is also estimated that over 54 million Americans are sport fishing enthusiasts. It is often forgotten that in addition to being relaxing, sport fishing is an industry encompassing tackle manufacturers, boat and motor producers, and the service industries such as hotels and motels and bait shops. It is estimated that in 1985, the commercial and sport fishing industries together will employ nearly 1 million Americans and generate over $27 billion in economic activity.

Fishing also provides healthful, protein-rich food. In fact scientific research has recently shown that the consumption of fish can reduce the probability of heart disease. Perhaps this is one of many reasons why fishing will continue to grow as America grows.

Our fishery resources are one of our Nation's important renewable natural resources. Fishing promotes respect and value for these resources and the natural environment. The citizens of this country are committed to the long-term health of these resources as their sport and livelihood are dependent upon the resource itself.

Whether the fishing is family-oriented outdoor recreation, or commercial fishing carried out on the high-seas, the result is a healthier and stronger America. I urge my fellow Members to honor the fishing industry and fishing public of the United States by joining me as a sponsor of House Joint Resolution 433 calling for the President to proclaim June 2-8, 1986, as National Fishing Week.

HOUSE OF REPRESENTATIVES—*Wednesday, October 30, 1985*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

The grass withers, the flower fades; but the Word of our God will stand for-ever.—Isaiah 40:8.

We are thankful, O God, that in a world of change, Your Word is a beacon of truth. We are grateful that Your Word tells us how to live our lives and reminds that we ought to treat each other with dignity and respect. May Your good Word lead and guide that we will be the people You would have us be. Amen

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment a bill of the House of the following title:

H.R. 1903. An act to provide for the use and distribution of funds appropriated in satisfaction of judgments awarded to the Chippewas of Lake Superior in Dockets Numbered 18-S, 18-U, 18-C, and 18-T before the Indian Claims Commission, and for other purposes.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2942) "An act making appropriations for the legislative branch for the fiscal year ending September 30, 1986, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 12 and 26 to the above-entitled bill.

LEGISLATION TO RESTORE DEMOCRACY OF INFORMATION TO FAMILY PLANNING POLICY ABROAD

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, last July the Agency for International Development became the Agency of Informational Dictatorship.

This dramatic transformation came about when AID announced a new policy toward family planning agencies in developing countries. Up to this point, in order to receive U.S. dollars, family planning groups had to give information on all available pregnancy-prevention methods. Now, AID is telling certain "natural family planning" groups that they can ignore those ethical standards that other family planning organizations still abide by.

What does this mean to a woman in a developing country? What does this mean to a poor woman who already has several children and feels that her family is complete? It means that the woman going into a natural family planning clinic will have one—and only one—response dictated to her. No one will tell her that she might have a choice of several different methods. No one will even refer her to another clinic if she seems dissatisfied with the order they give.

Perhaps AID also stands for the Agency of Informational Dictatorship. In this country, where the right to know all one's health options is so greatly prized, we cannot afford to promote a limitation of information abroad. No family planning agency should be allowed the dangerous exemption from informed consent. We must respect the right of the individual woman to make her own choice based on the personal, cultural, and medical needs which no one from the outside can impose.

Mr. Speaker, today with my colleagues NANCY JOHNSON and OLYMPIA SNOWE, I am pleased to announce the introduction of legislation that would restore the democracy of information to family planning policy abroad. Thanks to the leadership of Congresswoman JOHNSON, we may once again have an AID policy that allows for full informed consent for all family planning groups in developing countries.

GRAMM-RUDMAN DEFICIT REDUCTION PLAN

(Mrs. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SMITH of Nebraska. Mr. Speaker, I am getting a message from the people back home in Nebraska and that message grows louder every day: The deficit hurts. Do something about it.

I know this is the same message every Member of this body receives, and I am wondering just how much longer some of my colleagues are going to ignore it.

In Nebraska, for agriculture, the Federal budget deficit and the resulting overvalued dollar and continued high interest rates means our farm products cannot compete in the global market and our farmers must shoulder a back-breaking cost of servicing the farm debt.

Rural America, along with much of the country, is hurting because of an annual Federal deficit that adds billions each year to the mounting public debt. Now finally, after months and months of empty rhetoric, we have the opportunity to do something about the pain, and I say let's get to it.

The Gramm-Rudman-Mack-Cheney deficit reduction plan may not yet be perfected—it means we in Congress will have to finally put together a realistic and responsible budget—it may mean some difficult spending cuts down the road—but it is the only long-range, budget-cutting plan on the table. And it is time this House faces reality and listens to the cry from the taxpayers back home who are demanding a reasonable means of bringing Federal deficits under control and establishing a government we can pay for.

I urge the conferees to bring Gramm-Rudman out of conference, and I urge my colleagues to support it without any further delay.

JOINT CHIEFS OF STAFF REORGANIZATION ACT OF 1985

(Mr. SKELTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SKELTON. Mr. Speaker, yesterday was a very important day regarding the military future of our Nation because the House Armed Services Committee reported out the Joint Chiefs of Staff Reorganization Act of 1985.

It is the most significant change in military organization since the Department of Defense was created in 1947. Until now, the Chairman of the Joint Chiefs has officially been only the spokesman of the corporate views of the four service Chiefs. As a result, the Chairman has been stuck with positions written by a committee, that is, the service Chiefs, that protects the institutional interests of each of the four services. The 1985 Joint Chiefs of Staff bill strengthens the role of the Chairman of the Joint Chiefs by

making him the principal military adviser to the President and to the Secretary of Defense. As the only member of the Joint Chiefs of Staff with no service responsibilities, unlike the four service Chiefs, the Chairman is uniquely positioned to speak for the broader military point of view. This change will undoubtedly strengthen his voice and help check the parochial interests of each of the four services.

In addition, the Joint Staff will now work directly for the Chairman rather than for the Joint Chiefs as a whole. For a third of a century, the Joint Staff has not been working for a national or unified strategy but rather for three separate strategies, those of the Army, the Navy, and the Air Force. Giving the Chairman complete control of the Joint Staff will improve the joint multiservice perspective that has been lacking since 1947.

EL SALVADOR

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, all of us in the House welcome the news of the release in El Salvador of the daughter of President Duarte following lengthy negotiations.

President Duarte has sought to humanize the war in his country and has urged the leftist guerrillas to abandon their senseless attacks on the Salvadoran people. The guerrillas, for their part, demand to share power with the Government before the conflict can be resolved; and until that occurs, they arm themselves through the help of the Sandinista regime in Nicaragua to fight the Duarte government with the apparent intention of bringing it down.

President Duarte, in a speech to the National Assembly in El Salvador, blamed the Nicaraguans for being behind the kidnaping of his daughter. He said, Managua was the center of the operation, kidnaping, and this has to be denounced.

Mr. Speaker, if the guerrillas are honestly seeking peace and justice in El Salvador, they would sit down with President Duarte and continue the dialog that began so hopefully a year ago. Action like the kidnaping of his daughter do not bring peace closer, it only makes it less likely.

SAVE FOR THE U.S.A. YEAR

(Ms. KAPTUR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KAPTUR. Mr. Speaker, over $200 billion of the U.S. debt is owed to foreign interests. This year, for the first time since World War II, the United States became a debtor nation, which means we owe foreign interests more money than they owe us. Thus, today I am introducing a resolution that asks the President to designate 1986 as "Save for the U.S.A. Year." It directs the President to elevate to national prominence a special national savings bond drive next year to help wean America off its growing dependence on foreign sources of credit.

Now, as much as any time in our past, we need to promote individual savings, as well as savings on our public debt. To meet this object, my resolution calls on a tried and true resource, the U.S. savings bond program, which saves taxpayers over $2 billion a year in annual debt costs. Together with the President, let us appeal to the American people to serve their country while they save. Mr. Speaker, this is a start at buying back America.

NATIONAL ARSON AWARENESS WEEK

(Mr. MOAKLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOAKLEY. Mr. Speaker, Monday night a young mother and her 10-month-old son were killed when a fire raced through a shelter for battered women in my congressional district.

Another young mother and her 27-day-old son also remain hospitalized as the result of smoke inhalation. When the fire department arrived, shortly after the fire began, they had a difficult time finding those trapped inside because of the thick black smoke and the way the fire spread so quickly throughout the structure.

According to the Boston Fire Department, the exact cause of the fire has yet to be determined. Although they are listing the fire as suspicious in origin, they believe the fire was deliberately set.

The No. 1 cause of property loss, due to fire, in the United States is arson. Each year billions of dollars in property is lost, hundreds of people are either killed or injured.

Today, along with several dozen of my colleagues I am introducing a resolution to designate the week of May 4, 1986, as National Arson Awareness Week. This campaign was started by the National Association of Arson Investigators and has been endorsed by numerous fire and police organizations.

Mr. Speaker, arson is a terrorist act which kills. National Arson Awareness Week will give an opportunity for fire, police, civic, housing, and community development people to inform the American people to this tragedy. I urge my colleagues to join with us in cosponsoring this legislation.

WHY GET FOOLED AGAIN? VOTE AGAINST NEW CHEMICAL WEAPONS

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, when the House considered chemical weapons funding in the fiscal year 1986 Defense authorization bill, the House included language that prevented the production of chemical weapons until a number of conditions were met. One important one was that:

> The European member nations of NATO where such chemical weapons are to be stored or deployed are willing to accept storage and deployment of binary chemical munitions within their territories.

The conference committee, as I predicted, struck this language and substituted meaningless "consulting" language. Thus, the authorization contained no "fence" on chemical weapons production.

Last week, after a closed and classified markup, the full appropriations committee said "no" to chemical weapons funding.

When the Defense appropriations bill is considered today, an amendment may be offered to restore the funds.

The vote will be one to commit to $20 billion in funding for chemical weapons production with no "fence" around it.

But even if a "fence" were to be resurrected, I would hope no one would be fooled into believing it would last. It would disappear just like it did in the authorizing conference.

An adequate chemical deterrent is needed and we have one: huge in number of projectiles, safe without question and forward deployed in West Germany where any Soviet attack would come.

A commitment of $20 billion for new chemical weapons production is not needed. If you care anything about the huge deficits our country is carrying, please vote "no."

DEFICIT REDUCTION

(Mr. OBEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OBEY. Mr. Speaker, in a column in yesterday's Washington Post newspaper, an author of the Gramm-Rudman proposal tried to justify the fact that the Emergency Deficit Control Act, which has passed the Senate, does not declare an emergency until next fiscal year.

The sponsors of Gramm-Rudman can put any fig leaf they want on their proposal, but the fact is that only last Friday the administration reestimated the 1986 fiscal year estimate for the deficit at $177.8 billion, nearly $15 bil-

lion below the maximum deficit amount allowed under Gramm-Rudman.

The alternative approach which I am supporting would, using current CBO economic assumptions, incur $237 billion less in public debt over the next 5 years than would the Gramm-Rudman plan. Under the administration economic assumptions, my alternative would save over $310 billion.

That column also alluded to past history. Yet history shows that the 1981 Gramm-Latta budget, despite assurances at the time that adoption of that elixir would lead to a balanced budget, has produced huge deficits. History also shows that there was another proposal before the House in 1981, which I sponsored and which was estimated to cut deficits by $215 billion below the levels of Gramm-Latta. It spent less than that plan, and in the first 3 years alone it would have deficits $214 billion below that proposal.

I would be happy to let past history serve as a guide to the question of whose present-day approach would be most effective in reducing deficits.

For those who would rather look at the substance of the two alternatives now before the Congress, I welcome that approach as well.

RECONCILIATION CUTS

(Mr. SCHAEFER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHAEFER. Mr. Speaker, to my fellow colleagues, I say we've done it again. Once again we had a chance to prove to the American people that we are serious about deficit reduction. Once again we failed.

Last Thursday this body was scheduled to vote on an omnibus reconciliation bill. H.R. 3500 was to be a compilation of committee recommendations on how to reduce the Federal deficit. Yet the bill we voted on included authorization of five new housing programs. The bill we voted on calls for a 10-percent increase in salaries for Members of Congress. Worst of all, the bill we voted on passed.

My vote against the Budget Reconciliation Act was one of frustration. We have reached a sad state when a vote in favor of a reconciliation package authorizes $3.5 billion in new spending add-ons. Fellow Members, if we cannot resist adding spending provisions to a bill designed to bring about deficit reduction, how can we expect the American people to take us seriously when we pledge to balance the Federal budget? Or perhaps this, too, is just another empty promise.

□ 1015

OUR COAST GUARD HEROES

(Mr. MOORE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOORE. Mr. Speaker, our President spoke in his first inaugural address about heroes. American heroes; they are all around us, he said, and they make appearances at various times. We in Louisiana have just been struck by a very devastating hurricane. In that hurricane we have seen some of those heroes that he is talking about.

The heroes that I would like to call my colleagues' attention are those members of Group New Orleans, U.S. Coast Guard, under the leadership of Capt. John E. Lindak. During Hurricane Juan, they put out to sea in boats to rescue a number of oil field workers who were on oil rigs and trapped, thrown into the sea, and could not get home safely. One hundred and sixty of them were thrown into the sea, and 160 of them were rescued by the Coast Guard. They also pulled men off sinking boats, and to the best of our knowledge, there was only one life they were not able to save. In going out to sea to rescue these people on offshore rigs in the middle of that hurricane, they certainly exposed themselves to great danger and were heroes to those rescued and their families.

We in Louisiana admire heroes, and we particularly appreciated the heroic efforts of these men of the Coast Guard.

MEDICAL READINESS PLANNING

(Mr. McCLOSKEY asked and was given permission to address the House for 1 minute and revise and extend his remarks.)

Mr. McCLOSKEY. Mr. Speaker, 2 years ago disaster struck American military forces in Lebanon. A second disaster almost occurred in the manner in which the medical evacuation of the wounded marines from Beirut to Europe was handled.

Precious time was lost because of competition between the Air Force and Army over where the Beirut bombing victims were to be flown in Europe.

Participants in that operation criticized the handling of the evacuation as indefensible "medically, morally, or ethically." It is enough to say that this concerned the House Armed Services Subcommittee on Investigations very much. On September 18, the subcommittee, under the able leadership of its distinguished chairman from Alabama [Mr. NICHOLS] heard from the Pentagon's chief medical official, Dr. Alfred Mayer. Under questioning, our concerns about the need to avert another Beirut type medical evacuation near disaster were verified. The subcommittee followed up with a letter to the Secretary of Defense urging the establishment of a U.S. European Command surgeon of sufficient rank and authority to manage future medical evacuations and manage overall medical readiness for the European Command. Despite the acknowledged concern of the services and the Secretary of Defense, this has not happened. In order to correct this, I am today introducing legislation to require the Secretary of Defense to assign a senior medical officer of the Armed Forces as the chief medical officer of the U.S. European Command. I hope that the Pentagon will take this step. I also wish to commend the House Appropriations Committee in this regard with its very specific language about this issue.

Mr. Speaker, we can no longer afford to continue to count on being lucky with respect to medical readiness planning. The Secretary of Defense must make this designation of a fulltime European Command surgeon now, or Congress must act.

WE NEED TO PASS THE GRAMM-MACK PROPOSAL NOW

(Mr. ARMEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ARMEY. Mr. Speaker, with all the budget cutting rhetoric we've heard of late you'd think it would be possible to actually cut some spending. Yet last week, under the guise of deficit reduction, the House did what it does best; it defeated an amendment to the Omnibus Reconciliation Act which would have stopped the addition of $3.5 billion in spending add ons.

In light of our chronic $200 billion deficit, I can't say this action took me by surprise. For too long, Congress has been unwilling to make the tough choices necessary to balance our Federal budgets.

Mr. Speaker, we have before us a measure which will force this Congress to make the tough but necessary decisions which will lead us to a balanced budget. The Balanced Budget and Emergency Deficit Control Act is a straightforward approach to reducing spending. By establishing maximum levels for deficits for the next 5 years, and by empowering the President to enforce such levels, we can stop talking about cutting spending and start actually doing it.

This bill is no panacea. It won't immediately solve our fiscal problems and it won't relieve Congress of its responsibility to put our fiscal house in order. It won't be an easy task, but it's our obligation to those who elected us.

We need to pass the Gramm-Mack proposal and we need to do it now. I urge the House conferees to concur with the other body and send to the House a much needed and long overdue ironclad deficit reduction measure.

SUPPORT URGED FOR THE GRAMM-RUDMAN-MACK PROPOSAL

(Mr. BARTON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BARTON of Texas. Mr. Speaker, as we meet today in this body, the House conference committee with the other body is addressing the Gramm-Rudman-Mack proposal which would bring us to a balanced budget by fiscal year 1991. Mr. Speaker, I urge the conferees to that very important conference committee to adopt Gramm-Rudman, and bring it to this House for our observation so that we can pass it and send it to the President for his signature.

The Federal Government is spending approximately $1 trillion a year. That calculates to $3 billion a day, approximately. Of that $3 billion, a half a billion dollars a day is borrowed money. We need to begin to address this problem. Gramm-Rudman gives us the mechanism between now and 1991 to do so. Hopefully by 1991 we will have a balanced budget amendment to the Constitution which will require for future years that the budget be in balance.

We cannot get that balanced budget amendment for at least 5 years in all probability. In the absence of that, we need Gramm-Rudman. We need to pass it. I urge the conference committee to do so and bring it to this House for our consideration immediately.

JUSTICE DEPARTMENT INVESTIGATION CALLED FOR IN THE CASE OF MIROSLAV MEDVID

(Mr. RITTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RITTER. Mr. Speaker, Miroslav Medvid is going back to the U.S.S.R. After jumping ship twice and being forced back on board twice, he spent 24 hours without any Americans being present. The decision to put him back on board on the ship was made out of a telephone call from New Orleans to New York City to some INS officer who supposedly spoke Russian.

Lord knows what he heard from his ship disciplinarian once back on board. When eventually asked by State Department interviewers why he jumped, he said he did not remember jumping ship. Miroslav spent more than 24 hours back on that Soviet ship after jumping for the second time. Why was that allowed to happen?

Perhaps we have to chalk this fiasco off as a foul-up by some U.S. officials whose understanding of the implications of their actions was negligible. But for Miroslav Medvid the implications of those actions are tragic. He is now a marked man. If the experiences of Simas Kudirka are any guide, he is in for big trouble back in the U.S.S.R.

Mr. Speaker, I am calling today for an investigation by the Justice Department in the hopes that all the facts of this tragic event can be made public, and that we can devise policies to avoid such mistakes in the future.

OLDER VETERANS' HEALTH CARE AMENDMENTS OF 1985

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 505) to amend title 38, United States Code, to improve the delivery of health care services by the Veterans' Administration, and for other purposes, with Senate amendments thereto, concur in the Senate amendment to the title of the bill, and concur in the Senate amendment to the text of the bill with an amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendments and the House amendment to the Senate amendments, as follows:

Senate amendments: Strike out all after the enacting clause and insert:

That (a) this Act may be cited as the "Veterans' Administration Health-Care Programs Improvement Act of 1985".

(b) Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—PILOT PROGRAMS

PILOT PROGRAM OF VIETNAM VETERAN RESOURCE CENTERS

SEC. 101. Section 612A is amended by adding at the end the following new subsection:

"(h)(1) In order to evaluate the effectiveness, feasibility, and desirability of providing veterans eligible for readjustment counseling under this section with additional services described in paragraph (2) of this subsection, through facilities furnishing such counseling, the Administrator, during the period beginning January 1, 1986, and ending December 31, 1988, shall conduct a pilot program to provide and coordinate the provision of such additional services.

"(2) The additional services referred to in paragraph (1) of this subsection that shall be provided and coordinated under such pilot program are—

"(A) counseling with respect to and assistance in applying for all benefits and services under laws administered by the Veterans' Administration for which veterans participating in the pilot program may be eligible;

"(B) employment counseling, training, placement, and related services described in sections 2003 and 2003A of this title or provided under any other laws administered by the Secretary of Labor;

"(C) initial intake and referral services with respect to alcohol or drug dependence or abuse disabilities and followup services for veterans who have received treatment for such dependence or abuse disabilities; and

"(D) coordination assistance for veterans participating in the pilot program with respect to such veterans' receipt of (i) services provided under the pilot program, and (ii) other benefits and services provided under laws administered by the Veterans' Administration, the Secretary of Labor, or any other Federal agency or official.

"(3)(A) In order to carry out the pilot program under this subsection, the Administrator shall—

"(i) designate as demonstration projects ten facilities which, on the date of the enactment of this section are providing readjustment counseling (which projects shall be referred to as Vietnam Veteran Resource Centers (hereinafter in this subsection referred to as 'Centers')),

"(ii) provide such additional staff and other resources as are necessary to enable such Centers to provide the services referred to in paragraph (2) (A), (C), and (D) of this subsection, and

"(iii) notify the Secretary of Labor of the need for the assignment, pursuant to subparagraph (B)(ii) of this paragraph, of personnel to provide the services described in paragraph (2)(B) of this subsection at such Centers.

"(B)(i) The Administrator shall be responsible for coordinating the assignment and use of employees, on full- or part-time bases, as appropriate, in each Center and, shall in carrying out that responsibility, make maximum feasible use of the Veterans' Administration employees who are providing services at each facility on the date it is designated as a Center under this subsection.

"(ii) The Secretary of Labor shall provide for the assignment to each Center, on full- or part-time bases, as appropriate, of disabled veterans' outreach specialists appointed pursuant to section 2003A of this title or employees on the staffs of local employment service offices who are assigned to perform services pursuant to section 2004 of this title.

"(4)(A) In order to ensure appropriate guidance, coordination, implementation, and assessment of the pilot program under this subsection, the Administrator shall establish, and provide appropriate staffing and other resources for, a Vietnam Veteran Resource Center Coordinating Committee (hereinafter in this subsection referred to as the 'Committee').

"(B) The Committee shall be composed of—

"(i) a member or members appointed by and representing the Administrator;

"(ii) a member or members appointed by and representing the Chief Medical Director;

"(iii) a member or members appointed by and representing the Chief Benefits Director; and

"(iv) a member appointed by and representing the Assistant Secretary of Labor for Veterans' Employment.

"(C) Not less frequently than every 6 months, the Committee shall report to the Administrator, the Chief Medical Director, the Chief Benefits Director, and the Assistant Secretary of Labor for Veterans' Employment on the implementation and status of the pilot program. The first such report shall be submitted not later than June 30, 1986.

"(5) After the Committee is established pursuant to paragraph (4) of this subsection, the Administrator may delegate to the Chief Medical Director the responsibility for carrying out the pilot program.

"(6)(A) Not later than April 1, 1987, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the experience under the pilot program during its first 15 months of operation. The report shall include—

"(i) the Administrator's assessment of—

"(I) the effectiveness of the pilot program in providing and coordinating the provision of the services described in paragraph (2) of this subsection and counseling and services furnished under subsections (a) and (b) of this section; and

"(II) the cost-effectiveness of the program;

"(ii) a description of any administrative actions that the Administrator plans to take generally to increase the coordination of the provision of such services to eligible veterans and to other veterans;

"(iii) any recommendations for legislation, relating to the provision of such services to eligible veterans and to other veterans, that the Administrator considers appropriate; and

"(iv) a comparison of such assessment, plans, and recommendations with the evaluation of and the recommendations relating to the readjustment counseling program included in the report required by subsection (g)(2) of this section.

"(B) Not later than April 1, 1989, the Administrator shall submit to such Committees a final report on the program. The report shall include updates of all information provided in the report submitted pursuant to subparagraph (A) of this paragraph, the Administrator's final assessment of the pilot program based on 36 months of operation, and any recommendation for administrative or legislative action that the Administrator considers appropriate to include in the report.".

PILOT PROGRAM OF COMMUNITY-BASED PSYCHIATRIC RESIDENTIAL TREATMENT FOR CHRONICALLY MENTALLY ILL VETERANS

SEC. 102. (a) Subchapter II of chapter 17 is amended by adding at the end the following new section:

"§ 620B. Community-based psychiatric residential treatment for chronically mentally ill veterans; pilot program

"(a)(1) The Administrator, in furnishing hospital, nursing home, and domiciliary care and medical and rehabilitative services under this chapter, may, during the period beginning January 1, 1986, and ending December 31, 1989, conduct a pilot program under which the Administrator may contract for care and treatment and rehabilitative services in halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities (hereinafter in the section referred to as 'contract facilities') for eligible veterans suffering from chronic mental illness disabilities. Such pilot program shall be planned, designed, and conducted by the Chief Medical Director, with the approval of the Administrator, so as to demonstrate (A) any medical advantages and cost-effectiveness that may result from furnishing such care and services to veterans with such disabilities in such contract facilities rather than in inpatient facilities over which the Administrator has direct jurisdiction, and (B) the potential, as a result of the furnishing of such care and services, for enabling such veterans to live in settings other than inpatient facilities.

"(2) Before furnishing such care and services to any veteran through a contract facility, the Administrator shall approve (in accordance with criteria which the Administrator shall prescribe by regulation) the quality and effectiveness of the program operated by such facility for the purpose for which such veteran is to be furnished such care and services.

"(b) In the case of each eligible veteran provided care and services under this section, the Administrator shall designate a Veterans' Administration employee to provide case management services.

"(c) The Administrator may provide in-kind assistance (through the services of Veterans' Administration employees and the sharing of other Veterans' Administration resources) to a contract facility under this section. Any such in-kind assistance shall be provided under a contract between the Veterans' Administration and the contract facility. The Administrator may provide such assistance only for use solely in the furnishing of appropriate services under this section and only if, under such contract, the Veterans' Administration receives reimbursement for the full cost of such assistance, including the cost of services and supplies and normal depreciation and amortization of equipment. Such reimbursement may be made by reduction in the charges to the United States or by payment to the United States. Any funds received through such reimbursement shall be credited to funds allotted to the Veterans' Administration facility that provided the assistance.

"(d) For the purposes of this section—

"(1) The term 'eligible veteran' means a veteran who at the time of referral to a contract facility—

"(i) is being furnished hospital, domiciliary, or nursing home care from the Veterans' Administration for a service-connected chronic mental illness disability, or

"(ii) is being furnished such care from the Veterans' Administration for a chronic mental illness disability and is a veteran described in section 612(f)(2) of this title.

"(2) The term 'case management' includes the coordination and facilitation of all services furnished to a veteran by the Veterans' Administration, either directly or through a contract, including, but not limited to, screening, assessment of needs, planning, referral (including referral for services to be furnished by the Veterans' Administration, either directly or through a contract, or by an entity other than the Veterans' Administration), monitoring, reassessment, and followup.

"(e)(1) Not later than February 1, 1989, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives an interim report on the experience under the pilot program during the first 36 months of the program. The report shall include the Administrator's interim evaluation and findings regarding—

"(A) the quality of care furnished to participating veterans through contract facilities;

"(B) the effectiveness of the pilot program in enabling the participating veterans to live outside of Veterans' Administration inpatient facilities and to achieve independence in living and functioning in their communities; and

"(C) the effect of the pilot program on the average daily census in the Veterans' Administration hospitals, nursing homes, and domiciliary facilities participating in the program (taking into account whether the beds previously occupied by the participating veterans were subsequently occupied by other eligible veterans or remained unoccupied).

"(2) Not later than April 1, 1990, the Administrator shall submit to such Committees a final report on the pilot program. The report shall include updates of all information provided in the interim report submitted pursuant to paragraph (1) of this subsection, the Administrator's final evaluation, findings, and conclusions regarding the program based on 48 months of operation, and any recommendations for administrative or legislative action that the Administrator considers appropriate to include in such report.".

(b) The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 620A the following new item:

"620B. Community-based psychiatric residential treatment for chronically mentally ill veterans; pilot program.".

PILOT PROGRAM OF NONINSTITUTIONAL ALTERNATIVES TO INSTITUTIONAL CARE

SEC. 103. (a) Subchapter II of chapter 17 is further amended by adding at the end the following new section:

"§ 620C. Noninstitutional alternatives to institutional care; pilot programs

"(a)(1) In order to evaluate the effectiveness, feasibility, and desirability of various actions that would obviate the need for furnishing hospital, nursing home, or domiciliary care to veterans eligible under this chapter for and otherwise in need of such care, the Administrator, during the period beginning January 1, 1986, and ending December 31, 1989, and subject to subsection (c) of this section, shall conduct a pilot program under which such veterans will be furnished at ten demonstration project sites medical, rehabilitative, and health-related services in noninstitutional settings. Not less than five of such projects shall involve the use of a geriatric evaluation unit at a Veterans' Administration health-care facility.

"(2) In selecting veterans for participation in the program, the Administrator shall accord priority to veterans who have service-connected disabilities, to veterans who are 65 years of age or older, and to veterans who are totally and permanently disabled.

"(b)(1)(A) In order to avoid duplication of services available from the Veterans' Administration and other sources to veterans participating in the pilot program and to avoid fragmentation of effort under the program, the Administrator shall in the conduct of the program (i) furnish appropriate health-related services solely through contracts with appropriate public and private agencies that provide such services, and (ii) in the case of each veteran furnished services under the program, appoint a Veterans' Administration employee to furnish case management services.

"(B) For the purposes of subparagraph (A) of this paragraph, 'case management' includes the coordination and facilitation of all services furnished to a veteran by the Veterans' Administration, either directly or through a contract, including, but not limited to, screening, assessment of needs, planning, referral (including referral for services to be furnished by the Veterans' Administration, either directly or through a contract, or by an entity other than the Veterans' Ad-

ministration), monitoring, reassessment, and followup.

"(2) In order further to avoid such duplication and fragmentation and in order to evaluate the cost-effectiveness of utilizing certain health services of agencies other than the Veterans' Administration in cases in which no Veterans' Administration facility in the vicinity of a demonstration project provides such services, the Administrator, in not more than two of the projects, may utilize appropriate health services of appropriate public and private agencies that furnish such services.

"(3) The Administrator may provide in-kind assistance (through the services of Veterans' Administration employees and the sharing of other Veterans' Administration resources) to a facility furnishing services to veterans under paragraph (1)(A) of this subsection. Any such in-kind assistance shall be provided under a contract between the Veterans' Administration and the facility concerned. The Administrator may provide such assistance only for use solely in the furnishing of appropriate services under this section and only if, under such contract, the Veterans' Administration receives reimbursement for the full cost of such assistance, including the cost of services and supplies and normal depreciation and amortization of equipment. Such reimbursement may be made by reduction in the charges to the United States or by payment to the United States. Any funds received through such reimbursement shall be credited to funds allotted to the Veterans' Administration facility that provided the assistance.

"(c)(1) The total cost of conducting the pilot program under this section shall not exceed 60 percent of the cost that would have been incurred by the Veterans' Administration during the period of the pilot program if the veterans being furnished services under the pilot program had been furnished, instead, nursing home care under section 610 of this title. In any one fiscal year, the cost of carrying out the pilot program shall not exceed 65 percent of the cost that would have been so incurred for such year under such section 610.

"(2) Expenditures for services furnished to veterans under the pilot program shall be made from appropriated funds that would otherwise have been expended to provide intermediate hospital care to eligible veterans.

"(d)(1) The Administrator shall conduct a study of the pilot program to determine with respect to the participating veterans—

"(A) the feasibility, medical advantages, and cost-effectiveness of the services furnished under the program as an alternative to hospital, nursing home, or domiciliary care; and

"(B) the extent to which such a program can—

"(i) furnish such veterans with more appropriate kinds and levels of care than they would otherwise receive;

"(ii) reduce hospital, nursing home, or domiciliary facility admission rates for such veterans;

"(iii) reduce the number of days that such veterans are institutionalized;

"(iv) reduce mortality rates among such veterans; and

"(v) reduce the cost of long-term care for such veterans under this chapter.

"(2) Not later than February 1, 1989, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives an interim report on the study required by paragraph (1) of this subsection setting forth the Administrator's findings based on the results of the study of the program's first 36 months experience. The report shall include a description of the administration of the program (including a description of the veterans furnished services and of the services furnished under the pilot program), the Administrator's interim evaluation of and findings on the program (including the matters referred to in paragraph (1) of this subsection), and any recommendations for administrative or legislative action that the Administrator considers appropriate to include in the report.

"(3) Not later than April 1, 1990, the Administrator shall submit to such Committees a final report on the study required by paragraph (1) of this subsection. The report shall include updates of all information provided in the interim report submitted pursuant to paragraph (2) of this subsection, the Administrator's final evaluation, findings, and conclusions regarding the program based on 48 months of operation (in the context of an assessment, which the report shall contain, of the needs of older eligible veterans for noninstitutional health and health-related services and of the availability of such services from non-Veterans' Administration sources), and any recommendations for administrative or legislative action that the Administrator considers appropriate to include in the report.".

(b) The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 620B (as added by section 9(b) of the Act) the following new item:

"620C. Noninstitutional alternatives to institutional care; pilot program.".

CHIROPRACTIC SERVICES PILOT PROGRAM

SEC. 104. (a)(1) Subchapter III of chapter 17 is amended by adding at the end the following new section:

"§ 630A. Chiropractic services; pilot program

"(a) The Administrator, subject to the provisions of this section, shall conduct a pilot program consisting of not less than one demonstration project in each of five geographic regions of the United States during the period beginning January 1, 1986, and ending December 31, 1988—

"(1) to furnish certain chiropractic services to veterans eligible for medical services under this chapter; and

"(2) to evaluate the therapeutic benefits and the cost-effectiveness of furnishing such chiropractic services to such veterans.

In developing the pilot program, the Administrator shall consult with the Secretary of Defense regarding the demonstration projects carried out by the Secretary under section 632(b) of the Department of Defense Authorization Act, 1985 (10 U.S.C. 1092 note).

"(b)(1) The Administrator shall, subject to subsection (c) of this section and under regulations which the Administrator shall prescribe, reimburse a veteran eligible for medical services under this chapter for the reasonable charge for chiropractic services furnished to the veteran under the demonstration projects carried out under subsection (a) of this section, for which such veteran has made payment, if—

"(A) such chiropractic services were for the treatment of a service-connected neuromusculoskeletal condition of the spine,

"(B) the veteran is a veteran who has been furnished hospital care by the Veterans' Administration for a neuromusculoskeletal condition of the spine within a 12-month period prior to the furnishing of such chiropractic services, or

"(C) the veteran is a veteran described in section 612(f)(2) of this title who has been furnished hospital care or medical services by the Veterans' Administration for a neuromusculoskeletal condition of the spine,

to the extent that such veteran is not entitled to such chiropractic services or reimbursement for the expenses of such services under an insurance policy or contract, medical or hospital service agreement, membership or subscription contract, or similar arrangement for the purpose of providing, paying for, or reimbursing expenses for such services.

"(2) The Administrator may, in lieu of reimbursing a veteran for a reasonable charge for chiropractic services under paragraph (1) of this subsection, make payment of the reasonable charge for such chiropractic services directly to the chiropractor who furnished such services.

"(c)(1) The Administrator shall, in consultation with appropriate public and nonprofit private organizations and other Federal departments and agencies that provide reimbursement for chiropractic services, establish a schedule of reasonable charges for chiropractic services furnished under the demonstration projects carried out under subsection (a) of this section. Such schedule shall be consistent with the reasonable charges allowed under section 1842 of the Social Security Act (42 U.S.C. 1395u).

"(2) The amount payable by the Administrator for chiropractic services furnished under such demonstration projects shall not exceed $600 in any 12-month period in the case of any veteran.

"(d)(1) Notwithstanding any other provision of this title, total expenditures for chiropractic services reimbursed under this section shall not exceed $2,000,000 in any fiscal year.

"(2) Expenditures for such services shall be made from appropriations that would otherwise have been expended for travel and incidental expenses under section 111 of this title.

"(e) Not later than April 1 of each of the years 1987, 1988, and 1989, the Administrator shall prepare and submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives an annual report on the pilot program carried out under this section during the preceding fiscal year. Each such report shall include for such fiscal year—

"(1) the number of requests made by eligible veterans for reimbursement or payment for chiropractic services under this section and the number of such veterans who made such requests;

"(2) the number of such reimbursements or payments made and the number of veterans to or for whom such reimbursements or payments were made; and

"(3) the total amount of the expenditures for such reimbursements and payments.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 630 the following new item:

"630A. Chiropractic services; pilot program.".

(b) Section 601 is amended by adding at the end the following new paragraph:

"(9) The term 'chiropractic services' means the manual manipulation of the spine performed by a chiropractor (who is licensed as such by the State in which he or

she performs such services and who meets the uniform minimum standards promulgated for chiropractors under section 1861(r)(5) of the Social Security Act (42 U.S.C. 1395x(r)(5))) to correct a subluxation of the spine. For the purposes of this paragraph, such term does not include physical examinations, laboratory tests, radiologic services, or other tests or services determined by the Administrator to be excluded.".

TITLE II—EXTENSIONS OF AUTHORITIES AND ELIGIBILITIES

EXTENSION OF INTERIM HEALTH-CARE ELIGIBILITY BASED ON EXPOSURE TO DIOXIN OR OTHER TOXIC SUBSTANCES IN VIETNAM OR TO NUCLEAR RADIATION

SEC. 201. Paragraph (3) of subsection (e) of section 610 is amended to read as follows:

"(3) Hospital and nursing home care and medical services may not be provided under or by virtue of subsection (a)(5) of this section after September 30, 1989.".

COUNSELING FOR FORMER PRISONERS OF WAR

SEC. 202. (a)(1) Subchapter II of chapter 17 is further amended by adding after section 612A the following new section:

"§ 612B. Eligibility for counseling for former prisoners of war

"The Administrator may establish a program under which, upon the request of a veteran who is a former prisoner of war, the Administrator may, within the limits of Veterans' Administration facilities, furnish counseling to such veteran to assist such veteran in overcoming the psychological effects of such veteran's detention or internment as a prisoner of war.".

(2) The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 612A, the following:

"612B. Eligibility for counseling for former prisoners of war.".

(b) The amendments made by subsection (a) shall take effect on October 1, 1985.

ALCOHOL AND DRUG TREATMENT AND REHABILITATION

SEC. 203. (a) Section 620A is amended—

(1) in subsection (a)(1), by striking out "pilot" both places it appears;

(2) in subsection (e)—

(A) by striking out "fifth" and inserting in lieu thereof "eighth"; and

(B) by striking out "pilot";

(3) by amending subsection (f) to read as follows:

"(f)(1) The Administrator shall monitor the performance of each contract facility furnishing care and services under the program carried out under subsection (a) of this section to determine—

"(A) with respect to the program, the medical advantages and cost-effectiveness that result from furnishing such care and services;

"(B) with respect to the contract facilities generally—

"(i) the level of success under the program, considering—

"(I) the rate of successful rehabilitation for veterans furnished care and services under the program;

"(II) the rate of readmission to contract facilities under the program or to Veterans' Administration health-care facilities by such veterans with respect to disabilities referred to in subsection (a) of this section;

"(III) whether the care and services furnished under the program obviated the need of such veterans for hospitalization for such disabilities;

"(IV) the average duration of the care and services furnished such veterans under the program;

"(V) the ability of the program to aid in the transition of such veterans back into their communities; and

"(VI) any other factors that the Administrator considers appropriate;

"(ii) the total cost for the care and services furnished by each contract facility under the program;

"(iii) the average cost per veteran for the care and services furnished under the program; and

"(iv) the appropriateness of such costs, by comparison to—

"(I) the average charges for the same types of care and services furnished generally by other comparable halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities; and

"(II) the historical costs for such care and services for the period of time that the program carried out under subsection (a) of this section was a pilot program, taking into account economic inflation.

"(2) Not later than February 1, 1988, the Administrator shall transmit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report on the experience under the program during the preceding 4 fiscal years, including, but not limited to (A) a description of the care and services furnished, (B) the matters referred to in paragraph (1) of this subsection, and (C) the Administrator's findings, assessment, and recommendations regarding the program conducted under this section."; and

(4) by amending the catchline to read as follows:

"§ 620A. Treatment and rehabilitation for alcohol or drug dependence or abuse disabilities".

(b) The item relating to such section in the table of sections at the beginning of chapter 17 is amended to read as follows:

"620A. Treatment and rehabilitation for alcohol or drug dependence or abuse disabilities.".

TITLE III—HEALTH-CARE MANAGEMENT

VETERANS' ADMINISTRATION GRADE REDUCTION

SEC. 301. (a) Section 210(b) is amended by adding at the end the following new paragraph:

"(3)(A)(i) The Administrator may not in fiscal year 1986 or any subsequent fiscal year implement a grade reduction described in division (ii) of this subparagraph unless the Administrator first submits to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report containing a detailed plan for such reduction and a detailed justification for the plan, including a determination by the Administrator, together with data supporting such determination, that, in the personnel area concerned, the Veterans' Administration has a disproportionate number of employees at the salary grade or grades selected for reduction in comparison to the number of such employees at the salary levels involved who perform comparable functions in other departments and agencies of the Federal Government and in non-Federal entities. Any such report shall be submitted not later than the beginning of a period of 90 calendar days (not including any day on which either House of Congress is not in session) prior to the implementation of any proposed grade reduction.

"(ii) A grade reduction referred to in division (i) of this subparagraph is a systematic reduction, for the purpose of reducing the average salary cost for Veterans' Administration employees described in division (iii) of this subparagraph, in the number of such Veterans' Administration employees at any specific grade level.

"(iii) The employees referred to in division (ii) of this subparagraph include—

"(I) health-care personnel who are determined by the Administrator to be providing either direct patient-care services or services incident to direct patient-care services; and

"(II) individuals who meet the definition of professional employee as set forth in section 7103(a)(15) of title 5 and are employed in the capacity of engineers or attorneys.

"(B) Not later than the forty-fifth day after the Administrator submits a report pursuant to subparagraph (A) of this paragraph, the Comptroller General of the United States shall submit to such Committees on Veterans' Affairs a report on the Administrator's compliance with such subparagraph and shall include in the report the Comptroller General's opinion as to the accuracy of the Administrator's determination (and of the data supporting such determination) made pursuant to such subparagraph.

"(C) In the case of Veterans' Administration employees not described in division (iii) of subparagraph (A) of this paragraph, the Administrator may not in any fiscal year implement a systematic reduction for the purpose of reducing the average salary cost for such Veterans' Administration employees that will result in a reduction in the number of such Veterans' Administration employees at any specific grade level at a rate greater than the rate of the reductions systematically being made in the numbers of employees at such grade level in all other agencies and departments of the Federal Government combined.".

MEDICAL QUALITY-ASSURANCE RECORDS

SEC. 302. Section 3305 is amended—

(1) in subsection (a), by adding a comma and "other than reports submitted pursuant to section 4152 of this title," after "program"; and

(2) in subsection (b), by adding at the end the following new paragraph:

"(6) Nothing in this section shall be construed as authorizing or requiring withholding from any person or entity the disclosure of statistical information regarding Veterans' Administration health-care programs (including information on aggregate morbidity and mortality rates associated with specific activities at individual Veterans' Administration health-care facilities) that does not implicitly or explicitly identify individual Veterans' Administration patients or employees, or individuals who participated in the conduct of a medical quality-assurance review.".

DISCIPLINARY BOARD ACTION INVOLVING CLINICAL PRIVILEGES

SEC. 303. Section 4110 is amended by adding at the end the following new subsections:

"(f) This section applies in any case in which a reduction or revocation of the clinical privileges of any person employed in a position described in paragraph (1) of section 4104 of this title is proposed by reason of a charge of inaptitude, inefficiency, or misconduct. A disciplinary board may recommend and the Administrator may impose a reduction or revocation of clinical privileges only (1) in a case in which, prior to the hearing under this section, such person has been provided with notice of the proposal to

reduce or revoke such privileges, and (2) on the basis of deficiency in such person's clinical practice.

"(g) Nothing in this section shall limit the Administrator's authority to protect the health and safety of veterans by temporarily reassigning an employee for the purpose of suspending the employee's exercise of clinical privileges, or for the purpose of otherwise restricting the employee's clinical activities, pending the outcome of a proceeding under this section.".

QUALITY ASSURANCE AND CREDENTIALING

SEC. 304. (a) Chapter 73 is amended by adding at the end the following new subchapter:

"Subchapter V—Quality Assurance

"§ 4151. Responsibilities for quality assurance

"(a) The Administrator shall—

"(1) establish and conduct a comprehensive quality-assurance program to monitor and evaluate the quality of health care furnished by the Department of Medicine and Surgery;

"(2) delineate the responsibilities of the Department of Medicine and Surgery with respect to the conduct of the Veterans' Administration quality-assurance program; and

"(3) allocate sufficient resources, and sufficient personnel with the necessary skills and qualifications, to enable the Department of Medicine and Surgery to carry out such delineated quality-assurance responsibilities.

"(b) The Inspector General of the Veterans' Administration shall allocate sufficient resources, and sufficient personnel with the necessary skills and qualifications, to enable the Inspector General to monitor the quality-assurance program conducted by the Department of Medicine and Surgery.

"(c) The Administrator shall, as part of the comprehensive quality-assurance program established and conducted pursuant to subsection (a)(1) of this section, require the Chief Medical Director—

"(1) in consultation with the Assistant Secretary of Defense for Health Affairs and the Surgeons General of the Armed Forces and other appropriate professional bodies, to establish and maintain a compilation of prevailing national mortality and morbidity standards for each type of surgical procedure conducted by the Department of Medicine and Surgery;

"(2)(A) to collect data on mortality and morbidity rates for each surgical procedure, conducted by the Department of Medicine and Surgery; and

"(B) to compile such data for inclusion in the report to be submitted pursuant to section 4152 of this title (i) for each cardiac surgery, heart transplant, and renal transplant program, and (ii) in the aggregate, for each other such surgical procedure;

"(3) to—

"(A) compare the data so compiled to the standards compiled pursuant to clause (1) of this subsection,

"(B) make an analysis of the relationship between such data and the (i) characteristics of the patient population, (ii) the level of risk for the procedure involved, based on patient age, the type and severity of the disease, the effect of any complicating diseases, and the degree of difficulty of the procedure, and (iii) any other factors that the Chief Medical Director considers appropriate,

"(C) evaluate such data in light of the factors described in divisions (i) through (iii) of subclause (B) of this clause in order to determine whether there are any significant deviations from the standards that would indicate deficiencies in the quality of care, and

"(D) explain any such deviations; and

"(4) to make any recommendations based on data compiled and the comparisons, analyses, evaluations, and explanations made pursuant to clause (3) of this subsection.

"§ 4152. Reports

"(a) Not later than January 1 of 1987, 1989, and 1991, the Chief Medical Director shall submit a report to the Administrator on the experience through the end of the prior fiscal year under the quality-assurance program carried out pursuant to section 4151(a) of this title. Each such report shall include the data compiled and the comparisons, analyses, evaluations, and explanations made pursuant to subsection (c)(3) of section 4151 of this title with respect to the period covered by such report and any recommendations made pursuant to subsection (c)(4) of such section. Not later than 60 days after receiving each such report, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a copy of the report, together with any comments concerning the report that the Administrator considers appropriate.

"(b) A report submitted pursuant to subsection (a) of this section shall not be considered a record or document as described in section 3305(a) of this title.".

(b) The table of sections at the beginning of chapter 73 is amended by adding at the end the following:

"SUBCHAPTER V—QUALITY ASSURANCE

"4151. Responsibilities for quality assurance.

"4152. Reports.".

(c)(1) Not later than 90 days after the date of the enactment of this Act, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives a report describing in detail the Veterans' Administration's current efforts and future plans for monitoring the credentials of Veterans' Administration health-care professionals.

(2) The report required to be submitted by paragraph (1) shall include a description of the Veterans' Administration's policies, procedures, and formal arrangements regarding the exchange of relevant information with—

(A) appropriate State medical or other health-professional licensing bodies;

(B) the Federation of State Medical Boards;

(C) the American Medical Association; and

(D) such other public or private entities as the Administrator considers appropriate that are involved with the issuance or monitoring of health-care professional licenses

in order (i) to determine the current and past licensure and clinical privilege status for those health-care professionals who are seeking employment with or who are currently employed by the Veterans' Administration, and (ii) to provide appropriate information to such entities about each health-care professional whose employment with the Veterans' Administration is terminated—

(I) following the completion of a disciplinary action relating to such health-care professional's clinical competence,

(II) voluntarily after having had such health-care professional's clinical privileges restricted or revoked, or

(III) voluntarily after serious concerns about such health-care professional's clinical competence have been raised but not resolved.

(3) With reference to any policies, procedures, or formal arrangements described in paragraph (2) which have not been implemented at the time the report required to be submitted by paragraph (1) is submitted to the Committees, the Administrator shall include in the report a timetable for the implementation of such policies, procedures, and arrangements and shall thereafter report to the Committees on implementation progress every 3 months until full implementation is achieved, at which point a final such report shall be submitted to the Committees.

TITLE IV—MEDICAL FACILITY CONSTRUCTION AND PLANNING

PART A—PERMANENT ANNUAL AUTHORIZATION PROCESS

ANNUAL VETERANS' ADMINISTRATION MEDICAL FACILITY CONSTRUCTION AUTHORIZATIONS

SEC. 401. (a) Section 5004 is amended—

(1) in subsection (a)—

(A) in clause (1), by striking out "unless each committee has first adopted a resolution approving such construction, alteration, or acquisition and setting forth the estimated cost thereof; and" and inserting in lieu thereof "except as authorized by a law based on legislation reported from the committees setting forth the amount that may be appropriated and expended for such construction, alteration, or acquisition;"; and

(B) by redesignating clause (2) as clause (4) and inserting the following new clauses (2) and (3):

"(2) no funds may be expended to construct, remodel, extend, or acquire, or develop preliminary plans (except to the extent necessary to develop project requirements) for, a medical facility for the furnishing of hospital care if the construction, remodeling, extension, or acquisition involves a total expenditure of more than $20,000,000, except as authorized by a law based on legislation reported from the committees;

"(3) no new or replacement medical facility shall be constructed or acquired within excess of 700 hospital beds and no project that involves a total expenditure of more than $20,000,000 for remodeling or extending a medical facility for the furnishing of hospital care shall be undertaken if upon completion of such project the number of hospital beds at the facility would exceed 700; and";

(2) by amending subsection (c) to read as follows:

"(c) The contract price for any construction, alteration, lease, or other acquisition that is approved by a law or resolutions described in subsection (a) of this section may exceed the amount set forth pursuant to such subsection in the pertinent provisions of such law or resolutions by an amount determined by multiplying such amount by the lesser of (1) the percent, if any, as determined by the Administrator, by which construction, alteration, lease, or other acquisition costs, as the case may be, increased from the date of such approval to the date of contract, or (2) 10 percent."; and

(3) in subsection (d) by striking out "for construction, alteration, lease, or other acquisition by each committee under subsection (a) of this section" and inserting in lieu thereof "by each committee under subsection (a) of this section for a lease".

(b)(1) Except as provided in paragraph (2) of this subsection, the amendments made by

subsection (a) shall take effect on October 1, 1986.

(2) The amendments made by subsection (a)(1) shall take effect with respect to appropriations for fiscal year 1987 but shall not apply with respect to appropriations or expenditures for the construction, alteration, or acquisition of a medical facility if such construction, alteration, or acquisition was approved in resolutions adopted by the Committees on Veterans' Affairs of the Senate and the House of Representatives prior to September 30, 1985.

VETERANS' ADMINISTRATION HOSPITAL FACILITY PLANNING

SEC. 402. (a) Subchapter I of chapter 81 is amended by inserting after section 5004 the following new section:

"§ 5004A. Hospital facility planning

"(a) In order to ensure that decisions regarding the need for and size of each proposed new or replacement Veterans' Administration medical facility for the furnishing of hospital care are made taking into account appropriate statutory eligibility and priorities for health care from the Veterans' Administration, the Administrator of Veterans' Affairs and the Comptroller General of the United States, after consultation with the Assistant Secretary of Defense for Health Affairs, veterans' service organizations, and representatives of the private hospital industry, shall jointly develop and submit to the appropriate committees of the Congress a methodology for determining the appropriate types of hospital beds and the appropriate numbers of each type of hospital bed to be provided for in each proposed project for the construction of new or replacement facilities for the furnishing of hospital care by the Veterans' Administration.

"(b) The methodology developed pursuant to subsection (a) of this section shall take into account (1) the projected need for health care of veterans residing in the geographic area to be served by the proposed health-care facility who have service-connected disabilities and veterans residing in such areas who meet the income criteria for the receipt of pension under chapter 15 of this title, and (2) any recent or planned changes in treatment modalities for the furnishing of inpatient and outpatient care which might affect the demand for inpatient bed capacity.

"(c)(1) Not later than October 1, 1986, the Administrator and the Comptroller General shall submit to the appropriate committees of the Congress a joint report on the methodology developed pursuant to subsection (a) of this section.

"(2) Not later than October 1, 1987, the Administrator and the Comptroller General shall submit to such committees a joint report on the implementation of such methodology.

"(3) The Comptroller General shall submit to such committees such further reports as the Comptroller General considers appropriate regarding the implementation of such methodology or regarding the need to revise such methodology.

"(d) No funds may be expended after April 1, 1987, for the development of preliminary plans for a facility described in subsection (a) of this section unless the types of beds and number of each type to be provided in such facility are based on the methodology developed pursuant to subsection (a) of this section.".

(b) The table of sections at the beginning of chapter 81 is amended by inserting after the item relating to section 5004 the following:

"5004A. Hospital facility planning.".

PART B—FISCAL YEAR 1986 CONSTRUCTION AUTHORIZATIONS

VETERANS' ADMINISTRATION MEDICAL FACILITY CONSTRUCTION AUTHORIZATIONS FOR FISCAL YEAR 1986

SEC. 411. (a) For the purposes of the medical facility construction projects referred to in subsection (b) and other construction projects and for other purposes, there are authorized to be appropriated to the Veterans' Administration for fiscal year 1986 (1) $417,200,000 to any appropriations account from which payments for medical facility construction projects estimated to cost $2,000,000 or more are made, and (2) $194,400,000 to any appropriations account from which payments for medical facility construction projects estimated to cost less than $2,000,000 are made.

(b)(1) Except as provided in paragraph (2) and subject to the limitation in subsection (a)(1), the maximum amounts authorized to be appropriated and expended for the following medical facility construction projects are as follows:

(A) Houston, Texas (Replacement and Modernization), $226,800,000.

(B) Mountain Home, Tennessee (Bed Towers and Modernization), $59,000,000.

(C) Philadelphia, Pennsylvania (Clinical Addition, Renovation, Parking, and 240-bed Nursing Home Care Unit), $110,400,000.

(2) Subject to paragraph (3) and to the limitation in subsection (a)(1), the maximum amounts authorized to be appropriated and expended for the following projects are further limited as follows:

(A) Houston, Texas (Replacement and Modernization), $170,400,000.

(B) Mountain Home, Tennessee (Bed Towers and Modernization), $35,800,000.

(C) Philadelphia, Pennsylvania (Clinical Addition, Renovation, Parking, and 240-bed Nursing Home Care Unit), $85,600,000.

(3) The maximum amount set forth in paragraph (2) with respect to each project shall apply to that project unless the Administrator of Veterans' Affairs, not later than 60 days after the date of the enactment of this Act, submits to the appropriate committees of the Congress a certification by the Administrator with respect to the project that a contract for work on the physical structure or structures in which hospital care is to be furnished at a bedsize level consistent with such maximum amounts cannot feasibly be awarded within 180 days after (i) the date on which a contract for such construction work was scheduled as of June 1, 1985, to be awarded for the projects described in paragraphs (2)(A) and (B), and (ii) September 1, 1986, for the project described in paragraph (2)(C). Such certification shall be accompanied by submissions of three architectural/engineering firms (one of which is the firm retained by the Veterans' Administration to complete the plans for the project, one of which is a firm selected by the American Institute of Architects at the Administrator's request, and one of which is a firm selected by the Comptroller General of the United States), at least two of which support the Administrator's certification.

(c) Funds are authorized to be expended in fiscal year 1986 from the working reserve in the Veterans' Administration construction, major projects, account, to the extent consistent with and permitted pursuant to applicable provisions of law in effect on the date of the enactment of this Act, for the redesign of projects identified in paragraph (2) of subsection (b) and for the following projects if the total estimated expenditures involved in the completion of each project as redesigned is no more than the applicable amount specified for such project in such paragraph or as follows:

(1) Augusta, Georgia (Replacement Medical Center), $94,000,000.

(2) Baltimore, Maryland (Replacement Medical Center), $88,800,000.

(3) New York, New York (Outpatient/Clinical Additions and Alterations), $70,600,000.

PART C—ALTERNATIVES TO AND FOR CONSTRUCTION

CONSIDERATION OF PURCHASING OR LEASING MEDICAL FACILITIES

SEC. 421. (a) Section 5002 is amended by adding at the end the following new subsection:

"(d)(1) In connection with the assessment of the health-care needs of veterans in a particular area for the purpose of planning how best to meet such needs, the Administrator shall develop criteria for determining whether to proceed with planning for the construction or acquisition of a new or replacement medical facility and, if it is determined to proceed, for choosing among the alternatives of constructing the facility, leasing an existing medical facility that satisfies the requirements of paragraph (3) of this subsection, or purchasing an existing medical facility that satisfies such requirements.

"(2) After January 1, 1986, the Administrator shall not proceed to develop preliminary plans for a new or replacement medical facility except in accordance with the criteria established under paragraph (1) of this subsection and after considering the option of leasing or purchasing an existing facility that satisfies the requirements of paragraph (3) of this subsection.

"(3) A facility satisfies the requirements of this paragraph if—

"(A) the facility is available, or will be available in timely fashion in the foreseeable future, for purchase or lease;

"(B) the facility meets the current and projected needs and specifications of the Veterans' Administration for furnishing health care to eligible veterans residing within a 100-mile radius of where the new or replacement facility is planned to be located, or is adaptable to meet such needs and specifications;

"(C) the facility can be acquired at an estimated cost (including the costs of any necessary adaptation) that does not exceed the estimated cost of construction of a medical facility to meet such needs and specifications; and

"(D) the estimated cost of operating the facility (after adaptation, if necessary) does not exceed the estimated cost of operating a medical facility that would otherwise be constructed.".

(b) Clause (1) of section 5004(b) is amended by inserting "and, in the case of a prospectus proposing the construction of a new or replacement medical facility, a description of the consideration that was given, pursuant to criteria established under section 5002(d) of this title, to acquiring an existing facility by lease or purchase" after "such facility".

CONTRACT FOR CONSTRUCTION AND OPERATION OF A NURSING HOME

SEC. 422. (a) The Administrator of Veterans' Affairs shall enter into a contract with an appropriate entity for the construction and operation of a facility for furnishing solely to veterans eligible for nursing home care under chapter 17 of title 38, United

States Code, nursing home care that meets the current and projected needs and specifications (including those relating to location and site selection) of the Veterans' Administration. The contract shall—

(1) for a 5-year period following the completion of construction, require the contractor to staff, equip, and operate the nursing home in such a manner as to provide the types, levels, and quality of care that would be provided if the facility were being operated directly by the Veterans' Administration;

(2) provide the Administrator with the option to renew the contract for an additional term not to exceed 5 years;

(3) require the Administrator to refer a sufficient number of eligible veterans who require nursing home care to the nursing home to ensure a specific occupancy rate for the nursing home for the term of the contract, which rate shall be approximately equal to the average occupancy rate nationwide for Veterans' Administration nursing homes except that a higher rate may be required if the Administrator determines that such higher rate is in the best interests of the Federal Government;

(4) provide that the per diem rate payable to the contractor by the Veteran's Administration shall not exceed the average daily costs to the Veterans' Administration of operating Veterans' Administration facilities for the furnishing of nursing home care;

(5) provide that all rights, title, and interest in the facility constructed under the contract shall vest in the United States; and

(6) contain such other provisions as the Administrator determines are in the best interests of the United States.

(b) The provisions of subsection (a) shall take effect on October 1, 1985.

FEASIBILITY PLAN FOR THE PURCHASE OF A FACILITY FOR FURNISHING HOSPITAL AND NURSING HOME CARE

SEC. 423. In the documents submitted by the Administrator of Veterans' Affairs to the appropriate committees of the Congress at the time of and in connection with the submission, pursuant to section 1105 of title 31, of the Budget for fiscal year 1987, the Administrator shall provide a feasibility plan for the purchase for Veterans' Administration use of a medical facility that is located in an urban area and is suitable for furnishing both hospital and nursing home care services, and meets the current and projected needs and specifications of the Veterans' Administration for furnishing health care to eligible veterans. In such Budget, the President, as warranted by such feasibility plan, shall include a request for an appropriate amount to purchase such a facility which meets those needs and specifications.

DEVELOPMENT OF MEDICAL-FACILITY MODULAR COMPONENTS

SEC. 424. In order to evaluate the applicability to the Veterans' Administration of the use of modular components in the design and construction of medical facilities for the furnishing of hospital care and to determine the efficiency and cost-effectiveness of that approach, the Administrator of Veterans' Affairs shall, not later than 180 days after the date of the enactment of this Act, enter into a contract for the development of such a modular approach to the planning and design of an appropriate Veterans' Administration medical facility for the furnishing of hospital care.

TITLE V—MISCELLANEOUS PROVISIONS

TECHNICAL, CONFORMING AMENDMENT RELATING TO THE CONTINUING AVAILABILITY OF READJUSTMENT COUNSELING

SEC. 501. Section 612A(g)(1)(B) is amended by striking out "who requested such counseling before such date" and inserting in lieu thereof "who request such counseling".

ASSISTANCE FOR CERTAIN FORMER POLITICAL HOSTAGES

SEC. 502. (a) The Congress makes the following findings:

(1) In recent years some United States citizens have been held in captivity as political hostages or have been victims of other terrorist acts.

(2) The United States citizens who were passengers on Trans World Airlines flight number 847 on June 14, 1985, were victims of a hijacking of such flight and some of those passengers were subsequently held in captivity as political hostages.

(3) The experience of being held in captivity as a political hostage is a traumatic event that is outside the range of usual human experience.

(4) Stressful experiences connected with such a traumatic event can be expected to evoke in some victims certain psychological reactions, including symptoms of stress, which may be manifested shortly after the event or may be manifested weeks, months, or even years later.

(5) There is no established program under which United States citizens may obtain systematic assistance in copying with the short-term or long-term personal effects of captivity as political hostages after they return home.

(6) The Veterans' Administration has developed expertise in providing readjustment assistance to veterans who have experienced traumatic and stressful events outside the range of usual human experience as a result of military combat.

(7) The Veterans' Administration medical centers, including 13 specially designated inpatient units for veterans with post-traumatic stress disorder, 187 readjustment counseling centers and satellite facilities for Vietnam-era veterans, and the National Center on Post-Traumatic Stress Disorder have staff with expertise (A) in diagnosing and treating veterans who have experienced traumatic and stressful events, and (B) in training Veterans' Administration and other health-care personnel in, and conducting research and exchanging information relating to, diagnosis and treatment of such veterans.

(b) The Administrator of Veterans' Affairs shall take appropriate action otherwise authorized by law to ensure that the expertise of the Veterans' Administration in diagnosing and treating individuals who have experienced unusual trauma and stress and in training health care personnel on such matters is made available to other Federal Government agencies and other appropriate organizations which are providing assistance to United States citizens who were passengers on Trans World Airlines flight number 847 on June 14, 1985, or other United States citizens returning from captivity as political hostages, to attempt to minimize the potential short-term or long-term adverse psychological effects of such captivity on them.

REPORT ON FEDERAL GOVERNMENT RESPONSIBILITY TO INDIVIDUALS WHO SERVED WITH VOLUNTARY CIVILIAN ORGANIZATIONS IN VIETNAM

SEC. 503. (a)(1) The purpose of this section is to provide a basis for the executive branch and the Congress to evaluate the question of United States Government responsibility, and alternative approaches, for providing individuals who, for a period of at least 30 days during the Vietnam era, were employed in the Republic of Vietnam by (including having served there under the auspices of) voluntary organizations, determined by the Administrator of Veterans' Affairs, in consultation with the Secretary of Defense, to be organizations which provided significant assistance to the United States Armed Forces in the Republic of Vietnam during the Vietnam era, with Federal and other benefits and services (including, but not limited to, health care and monetary compensation for disabilities which may be related to their experiences during such employment in the Republic of Vietnam), either through the Veterans' Administration or otherwise, and for assisting such individuals in connection with disabilities they may have incurred as a result of such employment.

(2) In order to carry out the purpose stated in paragraph (1), the Administrator, the Secretary of Defense, and the Secretary of Health and Human Services, not later than 180 days after the date of the enactment of this Act, shall submit to the appropriate committees of the Congress a joint report on the question of United States Government responsibility and shall include in such report various alternative approaches (together with comments on the appropriateness and the advantages and disadvantages of each) and any recommendations by such officials for legislative and administrative action with respect thereto, for establishing a program for providing such benefits, services, and assistance to such individuals.

(b) For the purpose of this section—

(1) the term "Armed Forces" has the meaning given such term in section 101(10) of title 38, United States Code; and

(2) the term "Vietnam era" means the periods described in section 101(29) (as amended by section 201(a) of this Act) of such title.

LAND TRANSFER, PHOENIX, ARIZONA

SEC. 504. (a) The real property described in subsection (b) and the structures thereon on the date of the enactment of this Act shall be transferred without compensation or reimbursement from the control and jurisdiction of the General Services Administration to the control and jurisdiction of the Veterans' Administration.

(b) The real property referred to in subsection (a) is a tract of land consisting of 3.25 acres, more or less, in Phoenix, Arizona, that—

(1) was formerly part of the Veterans' Administration Medical Center, Phoenix, Arizona; and

(2) was declared to be excess to the needs of the Veterans' Administration in a report to the General Services Administration dated September 25, 1959.

MODIFICATION OF RESTRICTIONS ON REAL PROPERTY AND CONVEYANCE OF A FENCE ON SUCH PROPERTY, SALT LAKE CITY, UTAH

SEC. 505. (a) Section 2 of the Act entitled "An Act authorizing the Administrator of Veterans' Affairs to convey certain property to the Armory Board, State of Utah", approved July 29, 1954 (68 Stat. 580), is amended to read as follows:

"SEC. 2. Any conveyance under the first section of this Act—

"(1) shall provide that the tract conveyed may be used only for hospital, educational, civic, residential, or related purposes;

"(2) shall provide that, if any part of such tract is used in any manner that is deter-

mined by the Administrator of Veterans' Affairs to interfere with the care and treatment of any patient at a Veterans' Administration health-care facility located in the reservation described in such section, such use shall cease immediately upon notice by the Administrator of such interference to the Armory Board, State of Utah, and to each person using such part in such manner;

"(3) shall provide that, if any part of such tract is used for a purpose other than a purpose prescribed in paragraph (1), title to such part shall revert to the United States;

"(4) shall provide that, if any interference referred to in paragraph (2) does not cease as required under such paragraph, title to the part of such land that is being used in a manner to cause such interference shall revert to the United States; and

"(5) shall contain such additional terms and conditions (including reservations of rights for the United States) as the Administrator of Veterans' Affairs determines to be necessary to protect the interests of the United States.".

(b) The Administrator of Veterans' Affairs shall convey, without consideration, to the Armory Board, State of Utah, all right, title, and interest of the United States in the fence erected as required by the quitclaim deed issued to the Armory Board by the Administrator on October 14, 1954, under the authority of the Act referred to in subsection (a). The conveyance shall contain such terms and conditions as the Administrator determines to be necessary to protect the interests of the United States.

(c) The Administrator of Veterans' Affairs shall execute any documents that are necessary to bring the conveyance made under the authority of the Act referred to in subsection (a) into conformity with the amendment made by such subsection.

MODIFICATION OF RESTRICTIONS ON REAL PROPERTY, MILWAUKEE COUNTY, WISCONSIN

SEC. 506. (a) The Administrator of Veterans' Affairs shall execute such instruments as may be necessary to modify the conditions under which the land described in subsection (b) will revert to the United States in order to permit Milwaukee County, Wisconsin, to lease all or part of such land to a nonprofit corporation which shall (1) construct and equip on such land structures, facilities, and other permanent improvements useful for public recreational purposes or general civic purposes, and (2) use such land for such recreational or civic purposes. The Administrator may carry out the preceding sentence subject to such terms and conditions (including reservations of rights for the United States) as the Administrator determines to be necessary to protect the interests of the United States.

(b) The land referred to in subsection (a) is (1) the land conveyed to Milwaukee County, Wisconsin, pursuant to the Act entitled "An Act to authorize the Administrator of Veterans' Affairs to convey lands and to lease certain other land to Milwaukee County, Wisconsin", approved September 1, 1949 (63 Stat. 683), and (2) the land conveyed to Milwaukee County, Wisconsin, pursaunt to the Act entitled "An Act authorizing the Administrator of Veterans' Affairs to convey certain property to Milwaukee County, Wisconsin", approved August 27, 1954 (68 Stat. 866).

SERVICEMEN'S GROUP LIFE INSURANCE AND VETERANS' GROUP LIFE INSURANCE

SEC. 507. (a)(1) Subsection (a) of section 767 is amended—

(A) by striking out "35,000" and inserting in lieu thereof "$50,000"; and

(B) by striking out "the amount of $30,000, $25,000, $20,000 $15,000, $10,000 or $5,000" and inserting in lieu thereof "an amount less than $50,000 that is evenly divisible by $10,000".

(2) Subsection (c) of such section is amended by striking out "the amount of" the first place it appears and all that follows through "as the case may be," and inserting in lieu thereof "any amount less than $50,000, such member may thereafter be insured under this subchapter in the amount of $50,000 or any lesser amount evenly divisible by $10,000".

(3) Subsection (d) of such section is amended—

(A) by striking out "the effective date of this subsection" each place it appears and inserting in lieu thereof "January 1, 1986"; and

(B) by striking out "up to a maximum of $35,000 (in any amount divisible by $5,000)" and inserting in lieu thereof "in the amount of $50,000 or any lesser amount evenly divisible by $10,000".

(b)(1) Subsection (a) of section 777 is amended—

(A) by striking out the first sentence and inserting in lieu thereof the following: "Veterans' Group Life Insurance shall be issued in the amounts specified in section 767(a) of this title. In the case of any individual, the amount of Veterans' Group Life Insurance may not exceed the amount of Servicemen's Group Life Insurance coverage continued in force after the expiration of the period of duty or travel under section 767(b) or 768(a) of this title."; and

(B) by striking out "$35,000" in the sentence immediately following the matter inserted by clause (A) and both places it appears in the last sentence and inserting in lieu thereof "$50,000".

(2) Such section is further amended by adding at the end the following new subsection:

"(h)(1) Notwithstanding any other provision of law, members of the Individual Ready Reserve and the Inactive National Guard are eligible to be insured under Veterans' Group Life Insurance. Any such member shall be so insured upon submission of an application in the manner prescribed by the Administrator and the payment of premiums as required under this section.

"(2) Notwithstanding subsection (b)(2) of this section, Veterans' Group Life Insurance coverage under this subsection shall be issued on a renewable five-year term basis, but the person insured must remain a member of the Individual Ready Reserve or Inactive National Guard throughout the period of the insurance in order for the insurance of such person to be renewed.

"(3) For the purposes of this subsection, the terms 'Individual Ready Reserve' and 'Inactive National Guard' shall have the meaning prescribed by the Administrator in consultation with the Secretary of Defense.".

(c) The amendments made by subsections (a) and (b) shall take effect on January 1, 1986.

EXTENSION OF THE PERIOD FOR ENTERING INTO TRAINING UNDER THE EMERGENCY VETERANS' JOB TRAINING ACT OF 1983

SEC. 508. Section 17(2) of the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 29 U.S.C. 1721 note) is amended by striking out "September 1, 1985" and inserting in lieu thereof "March 1, 1986".

EXTENSION OF AUTHORITY TO OPERATE AN OFFICE IN THE REPUBLIC OF THE PHILIPPINES

SEC. 509. Section 230(b) is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1988".

TITLE VI—EFFECTIVE DATE

SEC. 601. Except as otherwise provided in sections 202(b), 401(b), 422(b), and 507(c) of this Act, the provisions of and amendments made by this Act shall take effect on the date of the enactment of this Act.

Amend the title so as to read: "An Act to amend title 38, United States Code, to establish, extend, and improve certain Veterans' Administration health-care programs, and for other purposes.".

House amendment to the Senate amendment to the text of H.R. 505: In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Veterans' Administration Health-Care Amendments of 1985".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. References to title 38, United States Code.

TITLE I—HEALTH-CARE PROGRAMS

Sec. 101. Alcohol and drug treatment and rehabilitation.
Sec. 102. Special contract-care authority outside the 48 contiguous States.
Sec. 103. Extension of interim health-care eligibility based on exposure to dioxin or other toxic substances in Vietnam or to nuclear radiation.
Sec. 104. Outpatient and ambulatory services following nursing home or domiciliary care.
Sec. 105. Vietnam Veteran Resource Centers pilot program.
Sec. 106. Technical amendment relating to continuing availability of readjustment counseling.
Sec. 107. Counseling for former prisoners of war.
Sec. 108. Transfers for nursing home care.
Sec. 109. Chiropractic services pilot program.

TITLE II—HEALTH-CARE ADMINISTRATION

Sec. 201. Medical quality-assurance records.
Sec. 202. Authority to expand Geriatric Research, Education, and Clinical Centers program.
Sec. 203. Revision of authority for appointment of student nurses and graduate nurses.
Sec. 204. Quality assurance and credentialing.
Sec. 205. Availability of State financial support for approved State home projects.
Sec. 206. Procedures for reduction or revocation of clinical privileges.

TITLE III—VETERANS' ADMINISTRATION MEDICAL FACILITIES

Sec. 301. Clarification of requirement of congressional approval of construction and acquisition projects.
Sec. 302. Operational and construction planning requirement.
Sec. 303. Major facility prospectus requirement.

Sec. 304. Development of medical-facility modular components.

TITLE IV—MISCELLANEOUS PROVISIONS

Sec. 401. Servicemen's Group Life Insurance and Veterans' Group Life Insurance.
Sec. 402. Extension of authority to operate an office in the Republic of the Philippines.
Sec. 403. Veterans' Administration grade reduction.
Sec. 404. Land transfer, Phoenix, Arizona.
Sec. 405. Modification of restrictions on real property, Milwaukee County, Wisconsin.
Sec. 406. Authority to release limitation on use of real property, McKinney, Texas.
Sec. 407. Modification of restrictions on real property and conveyance of a fence on such property, Salt Lake City, Utah.

SEC. 2. REFERENCES TO TITLE 38, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

TITLE I—HEALTH-CARE PROGRAMS

SEC. 101. ALCOHOL AND DRUG TREATMENT AND REHABILITATION.

(a) EXTENSION OF SPECIAL CONTRACT AUTHORITY.—Section 620A is amended—

(1) in subsection (a)(1)—

(A) by striking out "may conduct a pilot program under which the Administrator" in the first sentence; and

(B) by striking out the second sentence;

(2) by striking out "October 31, 1985" in subsection (e) and inserting in lieu thereof "September 30, 1988"; and

(3) by striking out subsection (f) and inserting in lieu thereof the following:

"(f)(1) The Administrator shall monitor the performance of each contract facility furnishing care and services under the program carried out under subsection (a) of this section.

"(2) The Administrator shall use the results of such monitoring to determine—

"(A) with respect to the program, the medical advantages and cost-effectiveness that result from furnishing such care and services; and

"(B) with respect to such contract facilities generally, the level of success under the program, considering—

"(i) the rate of successful rehabilitation for veterans furnished care and services under the program;

"(ii) the rate of readmission to contract facilities under the program or to Veterans' Administration health-care facilities by such veterans for care or services for disabilities referred to in subsection (a) of this section;

"(iii) whether the care and services furnished under the program obviated the need of such veterans for hospitalization for such disabilities;

"(iv) the average duration of the care and services furnished such veterans under the program;

"(v) the ability of the program to aid in the transition of such veterans back into their communities; and

"(vi) any other factor that the Administrator considers appropriate.

"(3) The Administrator shall maintain records of—

"(A) the total cost for the care and services furnished by each contract facility under the program;

"(B) the average cost per veteran for the care and services furnished under the program; and

"(C) the appropriateness of such costs, by comparison to—

"(i) the average charges for the same types of care and services furnished generally by other comparable halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities; and

"(ii) the historical costs for such care and services for the period of time that the program carried out under subsection (a) of this section was a pilot program, taking into account economic inflation.

"(4) Not later than February 1, 1988, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the experience under the program carried out under this section during fiscal years 1984 through 1987. The report shall include—

"(A) a description of the care and services furnished;

"(B) the matters referred to in paragraphs (1), (2), and (3) of this subsection; and

"(C) the Administrator's findings, assessment, and recommendations regarding the program under this section.".

(b) CONFORMING AMENDMENTS.—(1) The heading for such section is amended by striking out the semicolon and the last two words.

(2) The item relating to such section in the table of sections at the beginning of chapter 17 is amended by striking out the semicolon and the last two words.

SEC. 102. SPECIAL CONTRACT-CARE AUTHORITY OUTSIDE THE 48 CONTIGUOUS STATES.

(a) REVISION OF SPECIAL CONTRACT CARE AUTHORITY.—Section 601(4)(C)(v) is amended—

(1) by striking out "(except with respect to Alaska and Hawaii) shall expire on October 31, 1985" and inserting in lieu thereof "with respect to the Commonwealth of Puerto Rico shall expire on September 30, 1988"; and

(2) by striking out "and to the Virgin Islands".

(b) PHASE-OUT OF SPECIAL AUTHORITY IN PUERTO RICO.—(1) Effective on October 1, 1988, such section is amended—

(A) by inserting "(other than the Commonwealth of Puerto Rico)" after "in a State"; and

(B) by striking out "contiguous States" the second place it appears and all that follows through "medical services;" and inserting in lieu thereof "contiguous States and the Commonwealth of Puerto Rico;".

(2) During fiscal year 1986, the obligations incurred for Puerto Rico contract care may not exceed 85 percent of the obligations incurred for such care for fiscal year 1985.

(3) During fiscal year 1987, the obligations incurred for Puerto Rico contract care may not exceed 50 percent of the obligations incurred for such care for fiscal year 1985.

(4) During fiscal year 1988, the obligations incurred for Puerto Rico contract care may not exceed 25 percent of the obligations incurred for such care for fiscal year 1985.

(5) For the purpose of this subsection, the term "obligations incurred for Puerto Rico contract care" means the total obligations incurred during a fiscal year for medical services for veterans residing in the Commonwealth of Puerto Rico under the Administrator's authority to contract for hospital care or medical services under clause (v) of section 601(4)(C) of title 38, United States Code, in the Commonwealth of Puerto Rico.

SEC. 103. EXTENSION OF INTERIM HEALTH-CARE ELIGIBILITY BASED ON EXPOSURE TO DIOXIN OR OTHER TOXIC SUBSTANCES IN VIETNAM OR TO NUCLEAR RADIATION.

Section 610(e)(3) is amended by striking out "after the end of" and all that follows and inserting in lieu thereof "after September 30, 1989.".

SEC. 104. OUTPATIENT AND AMBULATORY SERVICES FOLLOWING NURSING HOME OR DOMICILIARY CARE.

Section 612(f)(1) is amended—

(1) by striking out "where" the first two places it appears and inserting in lieu thereof "if";

(2) by inserting a comma and "nursing home care, or domiciliary care" after "hospital care" the second place it appears;

(3) by striking out "hospital" the fourth place it appears; and

(4) by striking out "in-hospital" and inserting in lieu thereof "such".

SEC. 105. VIETNAM VETERAN RESOURCE CENTERS PILOT PROGRAM.

Section 612A is amended by adding at the end the following new subsection:

"(h)(1) During the period beginning on January 1, 1986, and ending on September 30, 1988, the Administrator shall conduct a pilot program to provide and coordinate the provision of services described in paragraph (2) of this subsection. The pilot program shall be carried out in order to evaluate the effectiveness, feasibility, and desirability of providing veterans eligible for readjustment counseling under this section with additional services through facilities furnishing such counseling.

"(2) The services referred to in paragraph (1) of this subsection are—

"(A) counseling with respect to, and assistance in applying for, all benefits and services under laws administered by the Veterans' Administration for which veterans participating in the pilot program may be eligible;

"(B) employment counseling, training, placement, and related services described in sections 2003 and 2003A of this title or provided under any other law administered by the Secretary of Labor;

"(C) initial intake and referral services with respect to disabilities related to alcohol or drug dependence or abuse and followup services for veterans who have received treatment for such disabilities; and

"(D) assistance in coordinating the provision of benefits and services to veterans participating in the pilot program with respect to such veterans' receipt of—

"(i) services provided under the pilot program; and

"(ii) other benefits and services provided under laws administered by the Veterans' Administration, the Secretary of Labor, or any other Federal agency or official.

"(3)(A) In order to carry out the pilot program, the Administrator shall—

"(i) designate as sites for demonstration projects 10 facilities which on the date of the enactment of this section are providing readjustment counseling under this section; and

"(ii) assign such staff and other resources to such facilities as are necessary to enable such facilities to provide the services referred to in subparagraphs (A) and (C) of paragraph (2) of this subsection.

"(B) Facilities designated under subparagraph (A) of this paragraph shall be known as Vietnam Veteran Resource Centers (hereinafter in this subsection referred to as 'Centers').

"(4) The Administrator—

"(A) shall be responsible for coordinating the assignment and use of employees, on full- or part-time bases, as appropriate, in each Center; and

"(B) shall, in carrying out that responsibility, make maximum feasible use of the Veterans' Administration employees who are providing services at each facility on the date it is designated as a Center under this subsection.

"(5) The Secretary of Labor shall provide for the assignment to each Center, on full- or part-time bases, as the Secretary considers appropriate, of disabled veterans' outreach specialists appointed under section 2003A of this title or employees on the staffs of local employment service offices who are assigned to perform services under section 2004 of this title.

"(6) Not later than April 1, 1987, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the experience under the pilot program during its first 15 months of operation. The report shall include—

"(A) the Administrator's assessment of—

"(i) the effectiveness of the pilot program in providing and coordinating the provision of the services described in paragraph (2) of this subsection and counseling and services furnished under subsections (a) and (b) of this section; and

"(ii) the appropriateness of the use of the personnel assigned to the program;

"(B) a description of any administrative action that the Administrator plans to take generally to increase the coordination of the provision of such services to veterans eligible for readjustment counseling services under this section;

"(C) any recommendation that the Administrator considers appropriate; and

"(D) a comparison of such assessment, plans, and recommendations with the evaluation of and the recommendations relating to the readjustment counseling program included in the report required by subsection (g)(2) of this section.

"(7) Not later than January 1, 1989, the Administrator shall submit to such Committees a final report on the pilot program. The report shall include—

"(A) updates of all information provided in the report submitted pursuant to paragraph (6) of this subsection; and

"(B) the Administrator's final assessment of the pilot program based on 33 months of operation.".

SEC. 106. TECHNICAL AMENDMENT RELATING TO CONTINUING AVAILABILITY OF READJUSTMENT COUNSELING.

Section 612A(g)(1)(B) is amended by striking out "who requested counseling before such date" and inserting in lieu thereof "who request such counseling".

SEC. 107. COUNSELING FOR FORMER PRISONERS OF WAR.

(a) IN GENERAL.—Subchapter II of chapter 17 is amended by inserting after section 612A the following new section:

"§ 612B. Counseling for former prisoners of war

"The Administrator may establish a program under which, upon the request of a veteran who is a former prisoner of war, the Administrator, within the limits of Veterans' Administration facilities, furnishes counseling to such veteran to assist such veteran in overcoming the psychological effects of the veteran's detention or internment as a prisoner of war.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 612A the following new item:

"612B. Counseling for former prisoners of war.".

SEC. 108. TRANSFERS FOR NURSING HOME CARE.

(a) IN GENERAL.—Subsection (a) of section 620 is amended to read as follows:

"(a)(1) Subject to subsection (b) of this section, the Administrator may transfer to a non-Veterans' Administration nursing home, for care at the expense of the United States—

"(A) a veteran—

"(i) who has been furnished hospital care, nursing home care, or domiciliary care by the Administrator in a facility under the direct jurisdiction of the Administrator; and

"(ii) who the Administrator determines—

"(I) requires a protracted period of nursing home care which can be furnished in the non-Veterans' Administration nursing home; and

"(II) in the case of a veteran who has been furnished hospital care in a facility under the direct jurisdiction of the Administrator, has received maximum benefits from such care; and

"(B) a member of the Armed Forces—

"(i) who has been furnished care in a hospital of the Armed Forces;

"(ii) who the Secretary concerned determines has received maximum benefits from such care but requires a protracted period of nursing home care; and

"(iii) who upon discharge from the Armed Forces will become a veteran.

"(2) The Administrator may transfer a person to a nursing home under this subsection only if the Administrator determines that the cost to the United States of the care of such person in the nursing home will not exceed—

"(A) the amount equal to 45 percent of the cost of care furnished by the Veterans' Administration in a general hospital under the direct jurisdiction of the Administrator (as such cost may be determined annually by the Administrator); or

"(B) the amount equal to 50 percent of such cost, if such higher amount is determined to be necessary by the Administrator (upon the recommendation of the Chief Medical Director) to provide adequate care.

"(3) Nursing home care may not be furnished under this subsection at the expense of the United States for more than six months in the aggregate in connection with any one transfer except—

"(A) in the case of a veteran—

"(i) who is transferred to a non-Veterans' Administration nursing home from a hospital under the direct jurisdiction of the Administrator; and

"(ii) whose hospitalization was primarily for a service-connected disability;

"(B) in a case in which the nursing home care is required for a service-connected disability; or

"(C) in a case in which, in the judgment of the Administrator, a longer period of nursing home care is warranted.

"(4) A veteran who is furnished care by the Administrator in a hospital or domiciliary facility in Alaska or Hawaii may be furnished nursing home care at the expense of the United States under this subsection even if such hospital or domiciliary facility is not under the direct jurisdiction of the Administrator.".

(b) ADMISSION TO CONTRACT NURSING HOMES OF CERTAIN VETERANS.—Subsection (d) of such section is amended—

(1) by inserting "(1)" after "(d)";

(2) by striking out "to any public or private institution not under the jurisdiction of the Administrator which furnishes nursing home care" in the first sentence and inserting in lieu thereof "to any non-Veterans' Administration nursing home";

(3) by inserting after the first sentence the following new sentence: "The Administrator may also authorize a direct admission to such a nursing home for nursing home care for any veteran who has been discharged from a hospital under the direct jurisdiction of the Administrator and who is currently receiving medical services as part of home health services from the Veterans' Administration.";

(4) by striking out the sentence beginning "Such admission" and inserting in lieu thereof the following:

"(2) Direct admission authorized by paragraph (1) of this subsection may be authorized upon determination of need therefor—

"(A) by a physician employed by the Veterans' Administration; or

"(B) in areas where no such physician is available, by a physician carrying out such function under contract or fee arrangement, based on an examination by such physician."; and

(5) by designating the last sentence as paragraph (3).

(c) DEFINITION OF NON-VETERANS' ADMINISTRATION NURSING HOME.—Subsection (e) of such section is amended—

(1) by inserting "(1)" after "(e)";

(2) by striking out "subsection (a)(ii)" in the second sentence and inserting in lieu thereof "subsection (a)(2)(B)"; and

(3) by adding at the end the following:

"(2) For the purposes of this section, the term 'non-Veterans' Administration nursing home' means a public or private institution not under the direct jurisdiction of the Administrator which furnishes nursing home care.".

(d) IMPROVEMENT IN PENSION PROGRAM ADMINISTRATION.—(1) In order to improve the timeliness of adjustments made pursuant to section 3203(a) of title 38, United States Code, in the amount of pension being paid to a veteran who is being furnished nursing home care by the Veterans' Administration, the Chief Medical Director of the Veterans' Administration shall develop improved procedures for notifying the Chief Benefits Director of the Veterans' Administration when a veteran is admitted to a nursing home.

(2) The Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the development and implementation of such procedures. The report shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 109. CHIROPRACTIC SERVICES PILOT PROGRAM.

(a) ESTABLISHMENT OF PILOT PROGRAM.—(1) The Administrator of Veterans' Affairs shall conduct a pilot program to evaluate the therapeutic benefits and the cost-effectiveness of furnishing certain chiropractic services to veterans eligible for medical services under chapter 17 of title 38, United States Code. Such a veteran is eligible to receive chiropractic services under the pilot program if the veteran was furnished hospital care or medical services by the Veterans' Administration for a neuromusculoskeletal condition of the spine within the 12-month period immediately preceding the commencement of the furnishing of such chiropractic services.

(2) The pilot program shall consist of not less than one demonstration project in each of five geographic regions of the United

States designated by the Administrator for the purpose of this section.

(3) The pilot program shall be carried out during the period beginning on January 1, 1986, and ending on December 31, 1988.

(b) CONSULTATION AND COORDINATION.—In developing the pilot program, the Administrator shall consult with the Secretary of Defense regarding the demonstration projects carried out by the Secretary under section 632(b) of the Department of Defense Authorization Act, 1985 (10 U.S.C. 1092 note). In designing, conducting, and evaluating the pilot program, the Administrator shall obtain advice and recommendations from recognized medical or scientific authorities in the treatment of neuromusculoskeletal conditions of the spine. The Administrator shall ensure that there is adequate participation by chiropractors in the design and evaluation of the demonstration projects, including participation by representatives from chiropractic colleges recognized by an approved accrediting organization.

(c) PAYMENT FOR CHIROPRACTIC SERVICES UNDER THE PILOT PROGRAM.—(1)(A) The Administrator shall pay the reasonable charge for chiropractic services furnished to eligible veterans under the pilot program.

(B) The Administrator may not pay for such services to the extent that the veteran is entitled to such services (or reimbursement for the expenses of such services) under—

(i) an insurance policy or contract;

(ii) a medical or hospital service agreement or membership or subscription contract; or

(iii) a similar arrangement for the purpose of providing, paying for, or reimbursing expenses for such services.

(2) The Administrator—

(A) shall reimburse the veteran for such reasonable charges if the veteran has paid for such services; or

(B) in lieu of reimbursing a veteran for a charge for chiropractic services under subparagraph (A), may pay the reasonable charge for such chiropractic services directly to the chiropractor who furnished the services.

(3) The amount paid for chiropractic services under this subsection may not exceed the amount for such services prescribed under the schedule of reasonable charges established under subsection (d).

(4) Chiropractic services may be provided in private facilities or chiropractic colleges approved in guidelines issued by the Administrator.

(5) Reimbursement of veterans and payments to chiropractors under this subsection shall be carried out under regulations which the Administrator shall prescribe.

(d) SCHEDULE OF REASONABLE CHARGES.—The Administrator shall establish a schedule of reasonable charges for chiropractic services furnished under the pilot program. Such schedule shall—

(1) be consistent with the reasonable charges allowed under section 1842 of the Social Security Act (42 U.S.C. 1395u); and

(2) be established in consultation with—

(A) appropriate public and nonprofit private organizations; and

(B) other Federal departments and agencies that provide reimbursement for chiropractic services.

(e) PROGRAM CAP.—The amount spent in any calendar year for chiropractic services under the pilot program may not exceed $2,000,000.

(f) REPORT.—Not later than April 1, 1989, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report on the implementation, operation, and results of the pilot program. The report shall include—

(1) the number of requests made by eligible veterans for reimbursement or payment for chiropractic services under this section and the number of such veterans who made such requests;

(2) the number of such reimbursements and payments made and the number of veterans to (or for whom) such reimbursements and payments were made; and

(3) the total amount spent for such reimbursements and payments.

(g) DEFINITIONS.—For the purposes of this section:

(1) The term "chiropractic services" means the manual manipulation of the spine performed by a chiropractor to correct a subluxation of the spine. Such term does not include physical examinations, laboratory tests, radiologic services, and any other tests or services determined by the Administrator to be excluded.

(2) The term "chiropractor" means an individual who is licensed as such by the State in which the individual performs chiropractic services and who meets the uniform minimum standards promulgated for chiropractors under section 1861(r)(5) of the Social Security Act (42 U.S.C. 1395x(r)(5)).

TITLE II—HEALTH-CARE ADMINISTRATION

SEC. 201. MEDICAL QUALITY-ASSURANCE RECORDS.

Section 3305 is amended—

(1) by inserting "(other than reports submitted pursuant to section 4152(b) of this title)" in subsection (a) after "program"; and

(2) by adding at the end of subsection (b) the following new paragraph:

"(6) Nothing in this section shall be construed as authorizing or requiring withholding from any person or entity the disclosure of statistical information regarding Veterans' Administration health-care programs (including such information as aggregate morbidity and mortality rates associated with specific activities at individual Veterans' Administration health-care facilities) that does not implicitly or explicitly identify individual Veterans' Administration patients or employees or individuals who participated in the conduct of a medical quality-assurance review.".

SEC. 202. AUTHORITY TO EXPAND GERIATRIC RESEARCH, EDUCATION, AND CLINICAL CENTERS PROGRAM.

Section 4101(f)(1)(A) is amended by striking out "fifteen" and inserting in lieu thereof "25".

SEC. 203. REVISION OF AUTHORITY FOR APPOINTMENT OF STUDENT NURSES AND GRADUATE NURSES.

Section 4114(a)(3) is amended—

(1) by striking out "one year" in the second sentence of subparagraph (A) and inserting in lieu thereof "two years"; and

(2) by adding at the end the following new subparagraph:

"(C) A student nurse who has a temporary appointment under this paragraph and who is pursuing a full course of nursing in a recognized school of nursing approved by the Administrator may be reappointed for one year. Other personnel whose appointments are limited by this section to one year may not be reappointed under this subsection.".

SEC. 204. QUALITY ASSURANCE AND CREDENTIALING.

(a) IMPROVEMENTS IN PROGRAMS TO EVALUATE AND ASSURE HEALTH-CARE QUALITY.—(1) Chapter 73 is amended by adding at the end the following new subchapter:

"Subchapter V—Quality Assurance

"§ 4151. Quality assurance program

"(a) The Administrator shall—

"(1) establish and conduct a comprehensive program to monitor and evaluate the quality of health care furnished by the Department of Medicine and Surgery (hereinafter in this section referred to as the 'quality-assurance program'); and

"(2) delineate the responsibilities of the Chief Medical Director with respect to the quality-assurance program, including the duties prescribed in this section.

"(b)(1) As part of the quality-assurance program, the Chief Medical Director shall periodically evaluate—

"(A) whether there are significant deviations in mortality and morbidity rates for surgical procedures performed by the Department of Medicine and Surgery from prevailing national mortality and morbidity standards for similar procedures; and

"(B) if there are such deviations, whether they indicate deficiencies in the quality of health care provided by the Department of Medicine and Surgery.

"(2) The evaluation under paragraph (1)(A) of this subsection shall be made using the information compiled under subsection (c)(1) of this section. The evaluation under paragraph (1)(B) of this subsection shall be made taking into account the factors described in subsection (c)(2)(B) of this subsection.

"(3) If, based upon an evaluation under paragraph (1)(A) of this subsection, the Chief Medical Director determines that there is a deviation referred to in that paragraph, the Chief Medical Director shall explain the deviation in the next report submitted under section 4152 of this title.

"(c)(1) The Chief Medical Director shall—

"(A) determine the prevailing national mortality and morbidity standards for each type of surgical procedure performed by the Department of Medicine and Surgery; and

"(B) collect data and other information on mortality and morbidity rates in the Department of Medicine and Surgery for each type of surgical procedure performed by the Department and (with respect to each such procedure) compile the data and other information so collected—

"(i) for each medical facility of the Veterans' Administration, in the case of cardiac surgery, heart transplant, and renal transplant programs; and

"(ii) in the aggregate, for each other type of surgical procedure.

"(2) The Chief Medical Director shall—

"(A) compare the mortality and morbidity rates compiled under paragraph (1)(B) of this subsection with the national mortality and morbidity standards determined under paragraph (1)(A) of this subsection; and

"(B) analyze any deviation between such rates and such standards in terms of—

"(i) the characteristics of the respective patient populations;

"(ii) the level of risk for the procedure involved, based on—

"(I) patient age;

"(II) the type and severity of the disease;

"(III) the effect of any complicating diseases; and

"(IV) the degree of difficulty of the procedure; and

"(iii) any other factor that the Chief Medical Director considers appropriate.

"(d) Based on the information compiled and the comparisons, analyses, evaluations,

and explanations made under subsections (b) and (c) of this section, the Chief Medical Director, in each report under section 4152 of this title, shall make such recommendations with respect to quality assurance as the Chief Medical Director considers appropriate.

"(e)(1) The Administrator shall allocate sufficient resources (including sufficient personnel with the necessary skills and qualifications) to enable the Department of Medicine and Surgery to carry out its responsibilities under this section.

"(2) The Inspector General of the Veterans' Administration shall allocate sufficient resources (including sufficient personnel with the necessary skills and qualifications) to enable the Inspector General to monitor the quality-assurance program.

"§ 4152. Quality-assurance reports

"(a)(1) Not later than February 1 of 1987, 1989, and 1991, the Chief Medical Director shall submit to the Administrator a report on the experience through the end of the preceding fiscal year under the quality-assurance program carried out under section 4151 of this title.

"(2) Each such report shall include—

"(A) the data and other information compiled and the comparisons, analyses, and evaluations made under subsections (b) and (c) of such section with respect to the period covered by the report; and

"(B) recommendations under subsection (d) of such section.

"(b) Not later than 60 days after receiving each such report, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a copy of the report, together with any comment concerning the report that the Administrator considers appropriate.

"(c) A report submitted under subsection (b) of this section shall not be considered to be a record or document as described in section 3305(a) of this title.".

(2) The table of sections at the beginning of chapter 73 is amended by adding at the end the following:

"SUBCHAPTER V—QUALITY ASSURANCE

"4151. Quality assurance program.
"4152. Quality-assurance reports.".

(b) REPORT ON CREDENTIALS OF HEALTH-CARE PROFESSIONALS.—(1) The Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report describing in detail the current efforts and procedures and future plans of the Veterans' Administration for determining and monitoring the credentials of health-care professionals in connection with their furnishing care to veterans under chapter 17 of title 38, United States Code.

(2)(A) The report shall include a description of each current and planned Veterans' Administration policy or procedure regarding, or arrangement for, credentialing information exchanges.

(B) With reference to any such policy, procedure, or arrangement that is planned and has not been implemented at the time the report required by paragraph (1) is submitted, the Administrator shall—

(i) include in the report a timetable for such implementation; and

(ii) report to the committees on progress toward such implementation every three months thereafter until implementation of each such policy, procedure, and arrangement is achieved.

Upon implementation of each such policy, procedure, and arrangement, a final report on such implementation shall be submitted to the Committees.

(3) For the purposes of this subsection, the term "credentialing information exchanges" includes the exchange of relevant information with a license issuing or monitoring entity—

(A) in order to determine, with respect to an individual who is seeking employment with, or who is employed by, the Veterans' Administration as a health-care professional for the furnishing of care to veterans under chapter 17 of title 38, United States Code—

(i) whether the individual has completed medical or other health-care professional education satisfactorily;

(ii) the current and past licensure and clinical privilege status of the individual; or

(iii) the full employment history of the individual; or

(B) in order to provide appropriate information to such an entity about an individual whose employment with the Veterans' Administration as a health-care professional is terminated—

(i) following the completion of a disciplinary action relating to such individual's clinical competence;

(ii) voluntarily after having had such individual's clinical privileges restricted or revoked; or

(iii) voluntarily after serious concerns about such individual's clinical competence have been raised but not resolved.

(4) For the purposes of this subsection, the term "license issuing or monitoring entity" means—

(A) an appropriate State medical or other health-professional licensing body;

(B) the Federation of State Medical Boards;

(C) the American Medical Association; and

(D) any other public or private entity that the Administrator considers appropriate that is involved with the issuance or monitoring of health-care professional licenses.

(5) The report required by this subsection shall be submitted not later than 90 days after the date of the enactment of this Act.

SEC. 205. AVAILABILITY OF STATE FINANCIAL SUPPORT FOR APPROVED STATE HOME PROJECTS.

(a) DEADLINE FOR AVAILABILITY OF STATE CONSTRUCTION FUNDS.—Subsection (a)(6) of section 5035 is amended by inserting "by July 1 of the fiscal year for which the application is approved" before "and for its maintenance".

(b) DEFERRAL OF CERTAIN APPLICATIONS.—Subsection (b) of such section is amended—

(1) by inserting "(1)" after "(b)";

(2) by redesignating clauses (1) through (4) as clauses (A) through (D), respectively; and

(3) by adding at the end the following new paragraph:

"(2)(A) The Administrator shall defer approval of an application that meets the requirements of this section if the State submitting the application does not, by the July 1 deadline (as defined in subparagraph (C) of this paragraph), demonstrate to the satisfaction of the Administrator that the State has provided adequate financial support for construction of the project.

"(B) In a case in which approval of an application is deferred under subparagraph (A) of this paragraph—

"(i) the Administrator, in accordance with guidelines established by the Administrator, shall select for award of a grant or grants under this section an application or applications for a nursing home project or projects that the Administrator determines—

"(I) to be most in need;

"(II) would, but for the deferral, not have been approved during the fiscal year in which the deferral occurred; and

"(III) have been provided adequate financial support by the State and are otherwise qualified for approval during the fiscal year; and

"(ii) during the next fiscal year, the application with respect to which approval was deferred shall be accorded priority for approval ahead of applications that had not been approved before the first day of such fiscal year.

"(C) For the purposes of this paragraph, the term 'July 1 deadline' means July 1 of the fiscal year in which the State is notified by the Administrator of the availability of funding for a grant for such project.".

SEC. 206. PROCEDURES FOR REDUCTION OR REVOCATION OF CLINICAL PRIVILEGES.

(a) GUIDELINES.—Not later than April 1, 1986, the Administrator of Veterans' Affairs shall prescribe uniform guidelines establishing administrative procedures to be followed in any case in which a reduction or revocation of the clinical privileges of any person employed in a position described in paragraph (1) of section 4104 of title 38, United States Code, is proposed on the basis of a deficiency in the employee's performance of professional responsibilities.

(b) REPORT.—Not later than May 1, 1986, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representativs a report (containing a copy of such guidelines) on the implementation of this section.

TITLE III—VETERANS' ADMINISTRATION MEDICAL FACILITIES

SEC. 301. CLARIFICATION OF REQUIREMENT OF CONGRESSIONAL APPROVAL OF CONSTRUCTION AND ACQUISITION PROJECTS.

Subsection (a) of section 5004 is amended to read as follows:

"(a)(1) The purpose of this subsection is to enable Congress to ensure the equitable distribution of medical facilities throughout the United States, taking into consideration the comparative urgency of the need for the services to be provided in the case of each particular facility.

"(2) After the adoption by the committees during a fiscal year of resolutions with identical texts approving major medical facility projects, it shall not be in order in the House of Representatives or in the Senate to consider a bill, resolution, or amendment making an appropriation for that fiscal year or for the next fiscal year which may be expended for a major medical facility project—

"(A) if the project for which the appropriation is proposed to be made is not approved in those resolutions; or

"(B) in the event that the project is approved in the resolutions, if either—

"(i) the bill, resolution, or amendment making the appropriation does not specify—

"(I) the medical facility project for which the appropriation is proposed to be made; and

"(II) the amount proposed to be appropriated for the project; or

"(ii) the amount proposed to be appropriated for the project (when added to any amount previously appropriated for the project) exceeds the amount approved for the project.

"(3) No appropriation may be made for the lease of any space for use as a medical facility at an average annual rental of more than $500,000 unless each committee has

first adopted a resolution approving such lease and setting forth the estimated cost thereof.

"(4) For the purpose of this subsection, the term 'major medical facility project' means a project for the construction, alteration, or acquisition of a medical facility involving a total expenditure of more than $2,000,000. Such term does not include an acquisition by exchange.".

SEC. 302. OPERATIONAL AND CONSTRUCTION PLANNING REQUIREMENT.

(a) REQUIREMENT FOR IMPROVED PLANNING.—Subsection (a) of section 5007 is amended—

(1) by inserting "(1)" after "(a)";

(2) by striking out "and alteration" the second place it appears in the first sentence and inserting in lieu thereof "alteration, and operation";

(3) by striking out the second and third sentences; and

(4) by adding at the end the following new paragraphs:

"(2) Each such report shall contain—

"(A) a five-year strategic plan for the operation and construction of medical facilities—

"(i) setting forth—

"(I) the mission of each existing or proposed medical facility;

"(II) any planned change in such mission; and

"(III) the operational steps needed to achieve the facility's mission and the dates by which such steps are planned to be completed; and

"(ii) a five-year plan, based on the factors set out in subclause (i) of this clause, for construction, replacement, or alteration projects for each such facility;

"(B) a list, in order of priority, of not less than 10 hospitals that, in the judgment of the Administrator, are most in need of construction or replacement; and

"(C) general plans (including projected costs, site location, and, if appropriate, necessary land acquisition) for each medical facility for which construction, replacement, or alteration is planned under clause (A)(ii) of this paragraph.

"(3) The report under this subsection shall be submitted not later than June 30 of each year.".

(b) TECHNICAL AMENDMENTS.—Subsection (b) of such section is amended—

(1) by striking out "(beginning in 1981)";

(2) by inserting "(1)" after "medical facility"; and

(3) by striking out "title and, in the case of the second and each succeeding report made under this subsection," and inserting in lieu thereof "title, and (2)".

(c) CLERICAL AMENDMENTS.—(1) The heading for such section is amended to read as follows:

"§ 5007. Operational and construction plans for medical facilities".

(2) The item relating to such section in the table of sections at the beginning of chapter 81 is amended to read as follows:

"5007. Operational and construction plans for medical facilities.".

SEC. 303. MAJOR FACILITY PROSPECTUS REQUIREMENT.

Section 5004(b)(1) is amended by inserting "and, in the case of a prospectus proposing the construction of a new or replacement medical facility, a description of the consideration that was given to acquiring an existing facility by lease or purchase" after "such facility".

SEC. 304. DEVELOPMENT OF MEDICAL-FACILITY MODULAR COMPONENTS.

In order to evaluate the applicability to the Veterans' Administration of the use of modular components in the design and construction of medical facilities for the furnishing of hospital care and to determine the efficiency and cost-effectiveness of that approach, the Administrator of Veterans' Affairs shall, not later than one year after the date of the enactment of this Act, develop a modular approach to the planning and design of an appropriate Veterans' Administration medical facility for the furnishing of hospital care.

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. SERVICEMEN'S GROUP LIFE INSURANCE AND VETERANS' GROUP LIFE INSURANCE.

(a) SERVICEMEN'S GROUP LIFE INSURANCE.—(1) Subsection (a) of section 767 is amended—

(A) by striking out "$35,000" and inserting in lieu thereof "$50,000"; and

(B) by striking out "the amount of $30,000, $25,000, $20,000, $15,000, $10,000 or $5,000" and inserting in lieu thereof "an amount less than $50,000 that is evenly divisible by $10,000".

(2) Subsection (c) of such section is amended by striking out "the amount of" the first place it appears and all that follows through "as the case may be," and inserting in lieu thereof "any amount less than $50,000, such member may thereafter be insured under this subchapter in the amount of $50,000 or any lesser amount evenly divisible by $10,000".

(3) Subsection (d) of such section is amended—

(A) by striking out "the effective date of this subsection" each place it appears and inserting in lieu thereof "January 1, 1986"; and

(B) by striking out "up to a maximum of $35,000 (in any amount divisible by $5,000)" and inserting in lieu thereof "in the amount of $50,000 or any lesser amount evenly divisible by $10,000".

(b) VETERAN'S GROUP LIFE INSURANCE.—(1) Subsection (a) of section 777 of such title is amended—

(A) by striking out the first sentence and inserting in lieu thereof the following: "Veterans' Group Life Insurance shall be issued in the amounts specified in section 767(a) of this title. In the case of any individual, the amount of Veterans' Group Life Insurance may not exceed the amount of Servicemen's Group Life Insurance coverage continued in force after the expiration of the period of duty or travel under section 767(b) or 768(a) of this title."; and

(B) by striking out "$35,000" in the sentence immediately following the matter inserted by clause (A) and both places it appears in the last sentence and inserting in lieu thereof "$50,000".

(2) Such section is further amended by adding at the end the following new subsection:

"(h)(1) Notwithstanding any other provision of law, members of the Individual Ready Reserve and the Inactive National Guard are eligible to be insured under Veterans' Group Life Insurance. Any such member shall be so insured upon submission of an application in the manner prescribed by the Administrator and the payment of premiums as required under this section.

"(2) Notwithstanding subsection (b)(2) of this section, Veterans' Group Life Insurance coverage under this subsection shall be issued on a renewable five-year term basis, but the person insured must remain a member of the Individual Ready Reserve or Inactive National Guard throughout the period of the insurance in order for the insurance of such person to be renewed.

"(3) For the purpose of this subsection, the terms 'Individual Ready Reserve' and 'Inactive National Guard' shall have the meanings prescribed by the Administrator in consultation with the Secretary of Defense.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on January 1, 1986.

SEC. 402. EXTENSION OF AUTHORITY TO OPERATE AN OFFICE IN THE REPUBLIC OF THE PHILIPPINES.

Section 230(b) is amended by striking out "October 31, 1985" and inserting in lieu thereof "September 30, 1988".

SEC. 403. VETERANS' ADMINISTRATION GRADE REDUCTION.

(a) Section 210(b) is amended by adding at the end the following new paragraphs:

"(3)(A) The Administrator may not implement a grade reduction described in subparagraph (B) of this paragraph unless the Administrator first submits to the Committees on Veterans' Affairs of the Senate and House of Representatives a report containing a detailed plan for such reduction and a detailed justification for the plan. Such report shall include a determination by the Administrator (together with data supporting such determination) that, in the personnel area concerned, the Veterans' Administration has a disproportionate number of employees at the salary grade or grades selected for reduction in comparison to the number of such employees at the salary levels involved who perform comparable functions in other departments and agencies of the Federal Government and in non-Federal entities. Any grade reduction described in such report may not take effect until the end of a period of 90 calendar days (not including any day on which either House of Congress is not in session) after the report is received by the committees.

"(B) A grade reduction referred to in subparagraph (A) of this paragraph is a systematic reduction, for the purpose of reducing the average salary cost for Veterans' Administration employees described in subparagraph (C) of this paragraph, in the number of such Veterans' Administration employees at a specific grade level.

"(C) The employees referred to in subparagraph (B) of this paragraph are—

"(i) health-care personnel who are determined by the Administrator to be providing either direct patient-care services or services incident to direct patient-care services;

"(ii) individuals who meet the definition of professional employee as set forth in section 7103(a)(15) of title 5; and

"(iii) individuals who are employed as computer specialists.

"(D) Not later than the forty-fifth day after the Administrator submits a report under subparagraph (A) of this paragraph, the Comptroller General shall submit to such Committees a report on the Administrator's compliance with such subparagraph. The Comptroller General shall include in the report the Comptroller General's opinion as to the accuracy of the Administrator's determination (and of the data supporting such determination) made under such subparagraph.

"(E) In the case of Veterans' Administration employees not described in subparagraph (C) of paragraph (3), the Administra-

tor may not in any fiscal year implement a systematic reduction for the purpose of reducing the average salary cost for such Veterans' Administration employees that will result in a reduction in the number of such Veterans' Administration employees at any specific grade level at a rate greater than the rate of the reductions systematically being made in the numbers of employees at such grade level in all other agencies and departments of the Federal Government combined.".

SEC. 404. LAND TRANSFER, PHOENIX, ARIZONA.

(a) REQUIREMENT FOR TRANSFER.—The real property described in subsection (b) and the structures on such property on the date of the enactment of this Act shall be transferred without compensation or reimbursement from the control and jurisdiction of the General Services Administration to the control and jurisdiction of the Veterans' Administration.

(b) DESCRIPTION OF LAND.—The real property referred to in subsection (a) is a tract of land consisting of 3.4 acres, more or less, in Phoenix, Arizona, that—

(1) was formerly part of the Veterans' Administration Medical Center, Phoenix, Arizona; and

(2) was declared to be excess to the needs of the Veterans' Administration in a report to the General Services Administration dated September 25, 1959.

SEC. 405. MODIFICATION OF RESTRICTIONS ON REAL PROPERTY, MILWAUKEE COUNTY, WISCONSIN.

(a) RELEASE OF REVERSIONARY INTEREST.—The Administrator of Veterans' Affairs shall execute such instruments as may be necessary to modify the conditions under which the land described in subsection (b) will revert to the United States in order to permit Milwaukee County, Wisconsin, to lease all or part of such land to a nonprofit corporation which—

(1) shall construct and equip on such land structures, facilities, and other permanent improvements useful for public recreational purposes or general civic purposes; and

(2) shall use such land for such recreational or civic purposes.

(b) DESCRIPTION OF LAND.—The land referred to in subsection (a) is—

(1) the land conveyed to Milwaukee County, Wisconsin, pursuant to the Act entitled "An Act to authorize the Administrator of Veterans' Affairs to convey lands and to lease certain other land to Milwaukee County, Wisconsin", approved September 1, 1949 (63 Stat. 683); and

(2) the land conveyed to Milwaukee County, Wisconsin, pursuant to the Act entitled "An Act authorizing the Administrator of Veterans' Affairs to convey certain property to Milwaukee County, Wisconsin", approved August 27, 1954 (68 Stat. 866).

(c) GENERAL LIMITATIONS.—The Administrator may carry out this section subject to such terms and conditions (including reservations of rights for the United States) as the Administrator determines to be necessary to protect the interests of the United States.

SEC. 406. AUTHORITY TO RELEASE LIMITATION ON USE OF REAL PROPERTY, MCKINNEY, TEXAS.

(a) RELEASE OF LIMITATION.—The Administrator of Veterans' Affairs shall execute such instruments as may be necessary to release the limitation to recreational purposes only on the use of the land described in subsection (b).

(b) DESCRIPTION OF LAND.—The land referred to in subsection (a) is two parcels of land, consisting of a total of 38.741 acres, that were conveyed by the Administrator to the city of McKinney, Texas, by deed of May 5, 1965, under the authority of Public Law 88-438 (78 Stat. 444, approved August 14, 1964).

SEC. 407. MODIFICATION OF RESTRICTIONS ON REAL PROPERTY AND CONVEYANCE OF A FENCE ON SUCH PROPERTY, SALT LAKE CITY, UTAH.

(a) MODIFICATION OF RESTRICTION.—(1) The Administrator of Veterans' Affairs shall execute such instruments as may be necessary in order to authorize the land conveyed under the authority of the Act referred to in paragraph (3) to be used—

(A) without regard to any limitation required by section 2 of that Act, but

(B) subject to the limitations set forth in paragraph (2).

(2) Any instrument executed under paragraph (1) shall provide, with respect to the tract of land conveyed under the Act referred to in paragraph (3)—

(A) that such tract may be used only for hospital, educational, civic, residential, or related purposes;

(B) that, if any part of such tract is used in any manner that is determined by the Administrator to interfere with the care and treatment of any patient at a Veterans' Administration health-care facility located in the reservation described in such Act, such use shall cease immediately upon notice by the Administrator of such interference to the person holding legal title to such part at the time such use occurs;

(C) that, if any part of such tract is used for a purpose other than a purpose prescribed in clause (A), title to such part shall revert to the United States; and

(D) that, if any interference referred to in clause (B) does not cease as required under such paragraph, title to the part of such land that is being used in a manner to cause such interference shall revert to the United States.

Any such instrument may contain such additional terms and conditions (including reservations of rights to the United States) as the Administrator determines to be necessary to protect the interests of the United States.

(3) The Act referred to in paragraphs (1) and (2) is the Act entitled "An Act authorizing the Administrator of Veterans' Affairs to convey certain property to the Armory Board, State of Utah", approved July 29, 1954 (68 Stat. 579).

(b) CONVEYANCE OF FENCE.—The Administrator shall convey, without consideration, to the Armory Board of the State of Utah all right, title, and interest of the United States in the fence erected as required by the quitclaim deed issued to the Armory Board by the Administrator on October 14, 1954, under the authority of the Act referred to in subsection (a)(3). The conveyance shall contain such terms and conditions as the Administrator determines to be necessary to protect the interests of the United States.

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments and the proposed House amendment to the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, I yield to our distinguished chairman to explain his request.

□ 1025

Mr. MONTGOMERY. Mr. Speaker, I thank the gentleman for yielding, and I take this opportunity to commend the gentleman from Arkansas [Mr. HAMMERSCHMIDT], the ranking minority member of the Committee on Veterans' Affairs, for his cooperation and work with the chairman of the committee. I appreciate the gentleman's yielding to me so I may have this time.

The chairman of this subcommittee, the gentleman from Pennsylvania [Mr. EDGAR], has done a great deal of work pertaining to this bill, and I will briefly explain for the gentleman from Arkansas what this legislation does.

Mr. Speaker, on May 21, the House passed H.R. 505, making various changes in the Veterans Administration's health care programs. On July 30, the Senate passed the bill with several amendments. The proposed House amendment reflects a good faith effort on the part of our committee and the House to resolve our differences with the other body.

The proposed House amendment would extend or make permanent existing authorities for VA to provide services in the following areas:

Provide permanent authority for VA to continue existing alcohol and drug treatment rehabilitation programs;

Extending authority to provide health-care to certain non-service-connected veterans residing in Puerto Rico, the Virgin Islands, and other U.S. territories and possessions;

Extend until 1989 authority for VA to provide health care to veterans exposed to dioxin or other herbicides while serving in Vietnam, and for certain veterans exposed to radiation;

Authorize a 3-year pilot program requiring VA to establish 10 Vietnam veterans resources centers;

Provide counseling for former prisoners of war; and

Authorize a 3-year pilot program to provide chiropractic services to certain service-connected veterans.

Finally, the proposed House amendment would substantially strengthen VA's Quality Assurance Program.

Again, I want to thank the vary able ranking minority member of the committee [Mr. HAMMERSCHMIDT] and the distinguished chairman of the Subcommittee on Hospitals and Health Care [Mr. EDGAR] for their efforts in attempting to reach agreement with the other body. As the gentleman knows, all of the provisions are designed to enhance the quality of health care to our Nation's veterans, in the most cost-effective way, I urge my colleagues to adopt the proposed amendment.

Mr. Speaker, there follows a detailed explanation of the bill:

EXPLANATORY STATEMENT OF HOUSE BILL (H.R. 505), SENATE AMENDMENT (S. 876), AND THE PROPOSED HOUSE AMENDMENT ON THE VETERANS' ADMINISTRATION HEALTH-CARE AMENDMENTS OF 1985

This document, except as otherwise noted, explains the provisions of H.R. 505 as passed by the House of Representatives on May 21, 1985, the provisions of the bill as passed by the Senate on July 30 with an amendment incorporating the provisions of S. 876 as reported and a further floor amendment, and the provisions of the proposed house amendment. The differences between the House bill, the Senate amendment, and the proposed House amendment are noted below, except for clerical corrections, conforming changes made necessary by the proposed House amendment, and minor drafting, technical, and clarifying changes.

ALCOHOL AND DRUG TREATMENT AND REHABILITATION

Both the House bill (section 203) and the Senate amendment (section 203) would amend present section 620A of title 38, U.S. Code, relating to treatment and rehabilitation for alcohol or drug dependence or abuse disabilities, to delete references to "pilot" in the description of the VA's program for the provision of alcohol and drug treatment and rehabilitation through contracts with non-VA halfway houses and other community-based programs and to extend by 3 years, through September 30, 1988, the authority for this program. The House bill would require a report to the Committees not later than December 31, 1987, on the operation of the program; the Senate amendment would require a report not later than February 1, 1988, on the experience under the program during the four fiscal years 1985 through 1988, and would require that the report provide certain detailed information on the success and cost of the program.

The House amendment (section 101) contains this provision with the reporting requirement based on the provision in the Senate amendment.

CONTRACT HEALTH-CARE AUTHORITY OUTSIDE THE 48 CONTIGUOUS STATES

The House bill (section 204), but not the Senate amendment, would amend section 601(4)(C)(v) of title 38, relating to the authority to provide hospital care and certain outpatient services in noncontiguous "States" (defined in section 101(2) of title 38 to include United States Territories and possessions and the Commonwealth of Puerto Rico), to extend for 3 years, from September 30, 1985, until September 30, 1988, the VA's authority in Puerto Rico and the Virgin Islands and other United States' Territories and possessions to provide on a contract basis hospital care for non-service-connected disabilities and outpatient services to obviate the need for hospital admission. With respect to Puerto Rico, the House bill would also have provided for a phase-out, over the 3-year extension period, of the Administrator's authority to waive the restrictions limiting the use of this contract authority to jurisdictions where the overall levels of hospital care and medical services provided at VA expense are consistent with the levels provided in the contiguous states.

The House amendment (section 102) would make the contract authority permanent with respect to the Virgin Islands, would delete the waiver authority with respect to the Virgin Islands, and instead of phasing out the waiver authority with respect to Puerto Rico, would phase out the contract authority over a 3-year period. Thus, in Puerto Rico in fiscal year 1986, the VA would be authorized to expend under this authority no more than 85 percent of the amount expended there under this authority in fiscal year 1985; in fiscal year 1987, the limitation would be 50 percent of the fiscal year 1985 expenditure level; and, in fiscal year 1988, 25 percent.

The Committee notes that it is its intention that this be the final extension of this extraordinary contract authority in Puerto Rico. The Committee also notes that it intends the contract authority for the Virgin Islands to be exercised only for Virgin Islands residents and that they expect the Department of Medicine and Surgery to monitor use of that authority to ensure that result.

EXTENSION OF INTERIM HEALTH-CARE ELIGIBILITY BASED ON EXPOSURE TO DIOXIN OR OTHER TOXIC SUBSTANCES IN VIETNAM OR TO NUCLEAR RADIATION

The Senate amendment (section 201), but not the House bill, would amend section 610(e)(3) of title 38 relating to the period during which veterans exposed to dioxin or certain other toxic substances used in a herbicide or defoliant used in connection with military purposes in Vietnam during the Vietnam era or to ionizing radiation from the detonation of a nuclear device are eligible for certian VA health-care services for the treatment of any disability, notwithstanding that there is insufficient medical evidence to conclude that such disability may be associated with such exposure, to extend the period of eligibility by 2 years and 7 months—from the end of the 1-year period beginning on the date that the Administrator submits the first report on a mandated Agency Orange epidemiological study of Vietnam veterans (which, by statute, is due to be submitted by February 14, 1986, two year after the study protocol was approved)—until the end of fiscal year 1989.

The House amendment (section 103) contains this provision.

OUTPATIENT AND AMBULATORY SERVICES FOLLOWING NURSING HOME OR DOMICILIARY CARE

The House bill (section 103), but not the Senate amendment, would amend section 612(f)(f)(B) to title 38, relating to eligibility for outpatient and ambulatory care, to authorize followup medical services on an outpatient or ambulatory basis, for a period generally not to exceed 12 months following discharge, to a veteran who has received nursing home or domiciliary care (in addition to the current statutory authority to provide followup medical services to a veteran who has received hospital care) and who requires such services to complete treatment incident to such care.

The House amendment (section 104) includes this provision.

VIETNAM VETERANS RESOURCE CENTERS PILOT PROGRAM

The Senate amendment (section 101), but not the House bill, would amend section 612A of title 38, relating to readjustment counseling and related mental health services for Vietnam-era veterans, to add a new subsection (h) which would require the Administrator to conduct a pilot program, during the period January 1, 1986, through December 31, 1988, at 10 existing readjustment counseling centers (Vet Centers), which would be designated as Vietnam Veterans Resource Centers (VVRC), to provide at the centers certain additional services to eligible Vietnam-era veterans. Under the program, the Administrator would be required to provide (1) counseling and assistance relating to the application for all VA benefits and services, (2) specified employment counseling, training, placement, and related services, (3) intake and referral for veterans with alcohol or drug abuse-related disabilities and follow-up services for veterans who have been treated for such disabilities, and (4) coordination of services received by veterans participating in this program or other VA, Department of Labor (DOL), or other Federal programs. The Administrator would be required (1) to provide such additional staff and other resources necessary to enable the VVRC's to provide the aforementioned services; (2) to notify the Secretary of Labor as to the need for the assignment of personnel to the VVRC's to provide employment assistance; and (3) to coordinate the assignment and use of employees, on full- or part-time basis, in each VVRC and, in doing so, make maximum feasible use of the VA employees at the facility on the date it is designated as a VVRC. The Secretary of Labor would be responsible for the assignment to the VVRC's on full- or part-time bases, of personnel to provide employment services. In order to ensure appropriate coordination, direction, implementation, and assessment of the program, the Administrator would be required to establish and provide support for a VVRC Coordinating Committee composed of certain VA and DOL representatives, which would be required to report by June 30, 1986, and at least every 6 months thereafter, to certain VA and DOL officials on the program's status. The Administrator would be required to submit to the Committees, not later than April 1, 1987, an interim report on the first 15 months' experience of the pilot program and, not later than April 1, 1989, a final report on the full 36 months of operation of the pilot program.

The House amendment (section 105) includes this provision, with amendments.

Under the House amendment, the program would have a termination date of September 30, 1988, which coincides with the date by which, under current law, the Administrator is required to arrange for the transition of the readjustment counseling program to a program in which counseling services are provided primarily through VA health-care facilities. Under the House amendment, the Administrator would be required generally to assign personnel as are necessary for the VVRC's to accomplish their goals but would require that the function of coordinating services be carried out by the personnel assigned to the Vet Center when it is designated a VVRC. The House amendment would not require the Secretary of Labor to provide certain personnel to the VVRC's but, instead, clarifies that the Secretary would be required to assign such personnel to the VVRC's as the Secretary considers appropriate. The House amendment would require the interim and final reports on the program to include, among other things, an evaluation of the appropriateness of staff utilization and would delete the requirement that the report include any legislative recommendations by the Administrator relating to this program. The Administrator's final report would be due by January 1, 1989. The provision to establish the VVRC Coordinating Committee is not included in the amendment.

In connection with the deletion of the provision for establishing the VVRC Coordinating Committee, the Committee expects the Administrator to ensure that greater coordination between the VA's Department of Veteran Benefits and the Department of Medicine and Surgery is achieved through the implementation of the program.

TECHNICAL AMENDMENT RELATING TO CONTINUING AVAILABILITY OF READJUSTMENT COUNSELING

The Senate amendment (section 501), but not the House bill, would make a technical, conforming amendment to section 612A(g)(1)(B) of title 38, relating to the Administrator's responsibility during the 12-month period ending September 30, 1988, for planning for the continuing availability of readjustment counseling, to delete a reference to a date by which veterans would have to request such counseling in order for the Administrator to be required to take them into account in the planning required by section 612A(g)(1). Thus, the planning requirement in section 612A(g)(1) would be conformed to the permanent counseling entitlement provided for in section 612A(a).

The House amendment (section 106) contains this provision.

COUNSELING FOR FORMER PRISONERS OF WAR

The Senate amendment (section 202), but not the House bill, would amend Subchapter II of chapter 17 of title 38, relating to VA hospital, nursing home, or domiciliary care and medical treatment, to add a new section 612B to authorize the establishment of a program to provide, upon request, counseling to any veteran who is a former prisoner of war (POW) to assist such veteran in overcoming the psychological effects of detention or internment as a POW.

The House amendment (section 107) contains this provision.

TRANSFERS FOR NURSING HOME CARE

The House bill (section 104), but not the Senate amendment, would amend section 620 of title 38, relating to transfers for nursing home care, to authorize the direct transfer to a non-VA nursing home of (1) a veteran who has received VA nursing home or domiciliary care (in addition to the current statutory authority for such a transfer for a veteran who has received hospital care) and who requires long-term nursing home care, or (2) a veteran who has received VA hospital care and who is currently receiving VA hospital-based home care services. The House bill would also make inapplicable to certain veterans receiving nursing home care for a service-connected disability the general 6-month limitation on the duration of contract nursing home care.

The House amendment (section 108) contains these provisions and a provision requiring the Chief Medical Director to develop improved procedures for notifying the Chief Benefits Director of the transfer to a non-VA nursing home of a veteran who is in receipt of VA pension. This provision is designed particularly to ensure such notification in the cases of VA pensioners who were receiving VA hospital-based-home-care services prior to their transfer to a nursing home under a VA contract.

CHIROPRACTIC SERVICES PILOT PROGRAM

Both the House bill (section 303) and the Senate amendment (section 104) would provide for the VA, upon consulting with the Department of Defense, to provide chiropractic services to veterans as part of demonstration projects. The House bill, in a freestanding provision, would require the VA to carry out demonstration projects in three geographically dispersed locations in order to evaluate the cost-effectiveness and medical effectiveness of providing chiropractic care, as compared to medical care, for veterans with neuromusculoskeletal conditions. The Administrator would obtain advice and recommendations from recognized scientific authorities in the treatment of neuromusculoskeletal conditions and ensure adequate partication by chiropractors, including chiropractic colleges, in the design and evaluation of demonstration projects. One report on the demonstration project, due not later than October 1, 1988, would be required to be submitted to the Committees.

The Senate amendment, in a new section 630A of title 38, would require the VA, during calendar years 1986 through 1988, to carry out a pilot program consisting of not less than one demonstration project in each of five geographic regions in order to furnish chiropractic services to certain categories of veterans and to evaluate the therapeutic benefits and cost-effectiveness of such services. The Senate amendment would limit the services under the pilot program to (1) the treatment of a veteran for a service-connected neuromusculoskeletal condition of the spine, (2) the treatment of a veteran who has been furnished hospital care by the VA for a neuromusculoskeletal condition of the spine within the 12-month period prior to receiving the chiropractic services, and (3) the treatment of a neuromusculoskeletal condition of the spine of a veteran with a service-connected disability rated at 50 percent or more disabling. Under the Senate amendment, the Administrator, in consultation with appropriate entities, would establish a schedule of reasonable charges for chiropractic care, which would be consistent with the schedule for such charges under the Medicare program. The amount of reimbursement that any one veteran could receive in any 12-month period would be limited to $600 and total expenditures for the pilot program in any fiscal year would be limited to $2 million. Expenditures for the pilot program would come from funds appropriated for beneficiary travel reimbursement.

Three reports on the program, due April 1, 1987, 1988, and 1989, would be required to be submitted to the Committees. Also, section 601 of title 38, relating to definitions for the purpose of chapter 17 of title 38 (the chapter relating to VA hospital, nursing home, domiciliary care and medical services), would be amended to add a paragraph defining "chiropractic services" as the manual manipulation of the spine by a licensed chiropractor who meets Medicare standards to correct a subluxation of the spine and as not including physical examinations, laboratory tests, radiologic services, or other tests or services determined by the Administrator to be excluded.

Under the House amendment (section 109), the VA, pursuant to a freestanding provision, would be required to carry out a pilot program consisting of not less than one demonstration project in each of five geographic regions. Under this pilot program, the VA (1) would provide chiropractic services only to veterans who have received VA hospital care or medical services within the prior 12 months for the treatment of a neuromusculoskeletal condition of the spine and, (2) in consultation with appropriate entities, would establish a schedule of reasonable charges for chiropractic care which would be consistent with the schedule for such charges under the Medicare program. The House amendment contains a $2-million limitation on total expenditures for the pilot program in any fiscal year and would require the VA, in designing, conducting, and evaluating the pilot program, to obtain advice and recommendations from recognized medical or scientific authorities in the treatment of neuromusculoskeletal conditions of the spine and ensure adequate participation by chiropractors, including representatives of chiropractic colleges. A report on the pilot program would be due April 1, 1989. The term "chiropractic services" would be defined, in the freestanding provision, in the same way as in the Senate amendment.

The Committee notes that there is not an explicit requirement in this legislation, as there is in the Medicare law, that the neuromusculoskeletal condition of the spine must be demonstrated by an x-ray because such a requirement is unnecessary in this provision since the only veterans eligible for chiropractic services under the pilot program would be those who had in the preceding 12 months received VA health care for such a condition and that treatment would invariably include a diagnostic x-ray.

MEDICAL QUALITY-ASSURANCE RECORDS

The Senate amendment (section 302), but not the House bill, would amend section 3305 of title 38, relating to limitations on the disclosure of certain VA medical quality-assurance records (1) to specify that nothing in section 3305 authorizes or requires the VA to withhold the disclosure of statistical information on VA health-care programs, including information on aggregate morbidity and mortality rates at individual VA health-care facilities, so long as that information does not identify, either implicitly or explicitly, individual VA patients or employees, or individuals who participated in medical quality-assurance activities, and (2) to add a cross-reference to new section 4152 of title 38 (which would be added by section 204 of the compromise agreement) specifying that reports submitted pursuant to that new section (bi-ennial reports on the VA's medical quality-assurance program which would include, among other things, data on mortality and morbidity rates for all VA surgical programs and procedures)—which might implicitly identify VA employees—would not be confidential under section 3305.

The House amendment (section 201) contains this provision.

AUTHORITY TO EXPAND GERIATRIC RESEARCH, EDUCATION, AND CLINICAL CENTERS PROGRAM

The House bill (section 105), but not the Senate amendment, would amend section 4101(f)(1)(A) of title 38, relating to the designation of VA health-care facility locations for centers of geriatric research, education, and clinical activities, to increase from 15 to 25 the maximum number of facilities that the Administrator may so designate.

The House amendment (section 202) contains this provision.

REVISION OF APPOINTMENT AUTHORITY FOR GRADUATE AND STUDENT NURSES

The House bill (section 202), but not the Senate amendment, would amend section 4114 of title 38, relating to personnel appointments in the VA other than to full-time permanent positions, to authorize the VA to give temporary full-time appointments as nurses for more than one year to individuals who have completed nursing school and who are pending registration in a

State as a graduate nurse, and to authorize the reappointment for one year of a student nurse who is pursuing a full course of nursing in a recognized school of nursing.

The House amendment (section 203) contains these provisions with an amendment limiting the appointment of graduate nurses to a period not to exceed two years.

QUALITY ASSURANCE AND CREDENTIALING

The Senate amendment (section 304), but not the House bill, would amend subchapter V of chapter 73 of title 38, relating to the organization of the VA's Department of Medicine and Surgery (DM&S), to add new subsections 4151 and 4152 to require the Administrator to (1) establish and conduct a comprehensive quality-assurance program to monitor and evaluate the quality of health care furnished by DM&S, (2) delineate the responsibilities of DM&S with respect to the conduct of the VA quality-assurance program, and (3) allocate sufficient resources, and sufficient personnel with the necessary skills and qualifications, to enable DM&S to carry out such delineated quality-assurance responsibilities. The Inspector General (IG) of the VA would be required to allocate sufficient resources, and sufficient personnel with the necessary skills and qualifications, to enable the IG to monitor the quality-assurance program conducted by DM&S. The Administrator would be required to direct the Chief Medical Director (CMD) of the VA (1) in consultation with certain Department of Defense and other officials, to establish and maintain mortality and morbidity standards for all types of surgical procedures conducted by DM&S, (2) to collect data on mortality and morbidity rates for each surgical procedure conducted by DM&S and compile those data for each VA cardiac surgery, heart transplant, and renal transplant program and in the aggregate for all other VA surgical procedures, (3) compare the aforementioned data to the national mortality and morbidity standards, (4) analyze and evaluate the data and the relationship between the data and certain specified factors in order to determine significant deviations from the standards that indicate quality of care deficiencies, (5) explain the deviations, and (6) make recommendations based on these data, comparisons, analyses, evaluations, and explanations. The CMD would be required to submit to the Admininstrator, not later than January 1, 1987, 1988, and 1989, a report on the experience of the quality-assurance program. Within 60 days after receiving each report, the Administrator would be required to submit to the Committees a copy of the report, together with any comments regarding the report that the Administrator considers appropriate.

In addition, the Administrator would be required, not later than 90 days after the date of the enactment of this Act, to submit to the Committees a report describing in detail the VA's current and future plans for monitoring the credentials of certain VA health-care professionals. The report would be required to include certain specified information concerning the VA's policies, procedures, and formal arrangements regarding the exchange of relevant information with certain State medical and other health-professional licensing bodies and other entities (including the Drug Enforcement Administration) for the purposes of (1) determining the current and past licensure and clinical-privilege status of health-care professionals who are seeking VA employment or who are currently employed by the VA, and (2) providing information to appropriate non-VA entities about health-care professionals whose VA employment is terminated in certain specified circumstances. The report would also be required to include, with respect to any of the aforementioned policies, procedures, and formal arrangements not yet implemented at the time the report is submitted to the Congress, a timetable for their implementation.

The Administrator would be required to report to the Committees every 3 months until full implementation has occurred. At that time, a final report would be required to be submitted to the Committees.

The House amendment (section 204) includes this provision, with an amendment, deleting the requirement for the CMD, in establishing and maintaining morbidity and mortality standards, to consult with the Assistant Secretary for Defense for Health Affairs and the Surgeons General of the Armed Forces. Although the requirement of consultation with DOD officials is not included in the House amendment, it is the Committee's intent that the CMD consult with appropriate DOD officials and others in the process of establishing and maintaining such standards.

AVAILABILITY OF STATE FINANCIAL SUPPORT FOR APPROVED STATE HOME PROJECTS

The House bill (section 107), but not the Senate amendment, would amend subchapter III of chapter 81 of title 38, relating to the VA's program of matching-fund grants for State Veterans Home construction projects, (1) to authorize appropriations of $40 million for fiscal year 1986, $50 million for fiscal year 1987, and $60 million for fiscal year 1988, (2) to require the Administrator to submit to the Committees, at the time that the President's budget is submitted to the Congress, annual reports concerning the operation of the program during the preceding and current fiscal years, including a list of those States which have submitted pending preapplications and the Administrator's recommendations concerning the relative priority of the projects involved, (3) to revise the grant application and approval processes, and (4) to repeal the current restriction that no State could receive in any fiscal year more than one-third of the funds appropriated for the program. In lieu of current-law provisions that the VA interprets as requiring it to fund applications in the order in which formal "preapplications" for grants are received, the administrator would be required to determine, in accordance with specified criteria, the relative need for each project for which a preapplication has been submitted in comparison to the need for the other projects for which preapplications were submitted; would be required to determine the relative need for each project for which an application is submitted; would be given authority to approve—rather than being required to approve—projects that meet the basic criteria for funding; and would be given discretion to fund qualifying projects in amounts other than the amounts applied for and in accordance with a priority ranking determined by the Administrator.

In lieu of these provisions, the House amendment (section 205) would require the Administrator to defer approval of a project that has been provided a notice of approval for funding if, by July 1 following such notice of approval, the State financial support has not been provided. Any project that is passed over would be placed on the list—ahead of all projects not approved before the end of the fiscal year in which it was passed over—for funding in the next fiscal year but would be subject to being passed over again if the project is not ready for funding by July 1 of that fiscal year.

The Administrator would be required to apply the funds from projects passed over to any nursing home project on the list of projects whose preapplication has been approved. The Administrator would be allowed to select such project based on need pursuant to guidelines established by the Administrator.

With 72 or more projects now awaiting Federal funding (totaling more than $175 million) and only $22 million in appropriations available in fiscal year 1986, the Committee's view is that States must be ready to proceed when the VA is ready to make the grant so that it will not be necessary to carry over funds from one fiscal year to another.

PROCEDURES FOR REDUCTION OR REVOCATION OF CLINICAL PRIVILEGES

The Senate amendment (section 303), but not the House bill, would amend section 4110 of title 38—relating to disciplinary actions against physicians and certain other health-care personnel employed in the VA's Department of Medicine and Surgery under the authority of title 38—to provide that (1) the provisions of that section are applicable in any case in which the VA proposes to reduce or revoke the clinical privileges of any title 38 employee by reason of inaptitude, inefficiency, or misconduct; (2) any action to reduce or revoke clinical privileges could be taken only after the individual was provided with notice of the proposal to reduce or revoke his or her privileges and only on the basis of a deficiency in the individual's clinical practice; and (3) nothing in that section, either under current law or as proposed to be amended, limits the Administrator's authority to protect the health and safety of veterans by temporarily reassigning a title 38 employee for the purpose of either suspending the employee's exercise of clinical privileges or otherwise restricting his or her clinical activities pending the outcome of a proceeding under section 4110.

The House amendment (section 206) contains a requirement that the Administrator prescribe by April 1, 1986—and submit to the Committees by May 1, 1986, a copy of and a report on—uniform guidelines for the handling of cases involving the proposed reduction or revocation of the clinical privileges of VA health-professional employees. The Committee intends that the uniform guidelines include, at a minimum, provisions specifying that (1) any action to reduce or revoke clinical privileges based on an employee's performance of professional responsibilities could be taken only after the individual was provided with notice of the proposal to reduce or revoke his or her privileges and only on the basis of a deficiency in the performance of such professional responsibilities; (2) requiring that any proceeding to reduce or revoke clinical privileges proceed in a timely fashion; (3) entitling the health-professional employee involved (A) to have access to all evidence that will be considered as part of the proceeding, (B) to have the opportunity to participate fully in the proceeding and be represented by counsel throughout, and (C) if any hearings are held, to be present throughout the evidentiary proceedings, to confront witnesses, and to purchase a copy of a transcript or tape of the proceedings; and (D) to appeal to a VA employee who is senior in grade to the head of the employee's duty station and is not stationed at the

employee's duty station (including at any subsidiary unit thereof).

In a case involving a proposed revocation of clinical privileges, the Committee intends that the guidelines afford the employee the same procedural protections and appellate rights as are afforded in connection with a proceeding before a board under section 4110 of title 38, or afford the employee a combined revocation of privileges and removal proceedings before a board under section 4110 in order to avoid the need for two hearings, one for revocation of privileges and one for removal. The guidelines should address the proper use of confidential quality assurance documents under present section 3305 of title 38 inasmuch as that section severely restricts the disclosure of such documents. Once a quality-assurance document has triggered concerns and possibly an investigation concerning the exercise of clinical privileges, a case against the employee must proceed independently of quality-assurance documents, especially in view of the Committee's intended requirement that the evidence on which the VA may base a proposed action must be provided to the employee and the employee's representative, if any.

The Committee notes its intent that nothing in the proposed guidelines would limit the Administrator's authority to protect the health and safety of veterans by temporarily reassigning a title 38 employee for the purpose of either suspending the employee's exercise of clinical privileges or otherwise restricting his or her clinical activities pending the outcome of a proceeding involving a proposed reduction or revocation of clinical privileges.

If the guidelines do not substantially comport with the Committee's above-described intentions, the Committee is prepared to recommend legislation establishing these or similar procedures.

VETERANS' ADMINISTRATION MEDICAL FACILITY CONSTRUCTION AND ACQUISITION

Both the House bill (section 201) and the Senate amendment (section 401(a)(1)(A)) would amend section 5004(a) of title 38, relating to the prohibition against the making of an appropriation for a major (over $2 million) VA medical facility construction or acquisition project unless both Committees have adopted a resolution approving the project and setting forth the estimated cost. The House bill, but not the Senate amendment, would require that any law appropriating funds for the construction, alteration, or acquisition of any major VA medical facility construction project specify the medical facility for which the appropriation is made and the amount appropriated for the project. The House bill also would prohibit the total amount appropriated for any major construction project from exceeding the estimated cost of the project as set forth in either Committees' construction resolutions required by present section 5004(a)(1).

The Senate amendment, but not the House bill, would revise the Committee approval process, provided for in present section 5004(a)(1) for the approval of major VA medical facility construction projects, to require the authorization, by a law based on legislation reported from the Committees specifying the amount that may be appropriated and expended, of appropriations for any such project.

The House amendment (section 301) contains the House provision with a technical amendment and would also revise the Committee approval process, provided for in present section 5004(a)(1) for the approval of major VA medical facility construction projects, to provide for the Committees to adopt construction resolutions with identical texts. Subsequent to the adoption of such a resolution, appropriations could not be made for major VA projects during the period beginning on the day that such resolutions are adopted and running through September 30 of the ensuing fiscal year except in strict compliance with the resolutions' text.

The Senate amendment (section 411) would also authorize the appropriation to the VA for fiscal year 1986 of $417.2 million for the major medical facility construction account and of $194.4 million for the minor medical facility construction account. The Senate amendment would authorize specified maximum amounts to be appropriated for the three large major construction projects which were requested in the President's budget for fiscal year 1986 (Houston, Mountain Home, and Philadelphia). The Senate amendment would limit further the maximum amounts to be appropriated for these projects to $170.4 million, $35.8 million, and $85.6 million, respectively, unless the Administrator certified to the Committees, not later than 60 days after enactment, that a contract for work cannot feasibly be awarded within 180 days after (1) the date on which a contract for the construction was scheduled to be awarded as of June 1, 1985, in the case of Houston and Mountain Home, or (2) September 1, 1986, in the case of the Philadelphia project. The Senate amendment would also authorize the expenditure during fiscal year 1986 of funds in the VA's major construction working reserve account for the redesign of three other large major construction projects (a replacement medical center in Augusta, Georgia; a replacement medical center in Baltimore, Maryland; and outpatient/clinical additions and alterations in New York, New York) if the total expenditures for the redesigned projects did not exceed $94 million, $88.8 million, and $70.6 million for the Augusta, Baltimore, and New York projects, respectively.

The House amendment does not contain this provision.

The Senate amendment (section 401(a)(1)(B)), but not the House bill, contains provisions relating to the VA's construction planning process. Any expenditure of funds beyond the development of project requirements (i.e., expenditures for preliminary plans and all subsequent stages) for the construction, remodeling, extension, or acquisition of a VA hospital facility that would cost more than $20 million would be prohibited unless the expenditure were authorized by a law based on legislation reported from the Committees.

The Senate amendment (section 401(a)(1)(B)), but not the House bill, would also prohibit the construction or acquisition of any new or replacement medical facility with more than 700 hospital beds and the remodeling or extending (involving more than $20 million in total expenditures) of a project that would, upon completion, exceed 700 hospital beds.

The Senate amendment (section 402), but not the House bill, would amend subchapter 1 of chapter 81 of title 38, relating to acquisition and operation of medical facilities, to add a new section 5004A which would require the Administrator and the Comptroller General of the United States to develop jointly a methodology (otherwise known as "bed-sizing methodology") for determining the appropriate types and numbers of hospital beds for each proposed new or replacement VA hospital. The Administrator and the Comptroller General would be required to consult with the Assistant Secretary of Defense for Health Affairs, veterans' service organizations, and representatives of the private hospital industry and to take into account (1) the projected needs of service-connected disabled veterans and veterans who meet the income criteria for VA pension under chapter 15 of title 38, and (2) recent or planned changes in treatment modalities for medical care that could affect the demand for inpatient beds. The Administrator and the Comptroller General would also be required, not later than October 1, 1986, to submit to the Committees a joint report on the new bed-sizing methodology and not later than October 1, 1987, to submit to the Committees a report on the implementation of the new methodology. The Comptroller General alone would be required to submit to the Committees any additional reports considered appropriate. After April 1, 1987, the expenditure of any funds for preliminary plans for any VA hospital would be prohibited unless the new methodology was used to determine the facility's types and number of beds.

In lieu of these provisions, the House amendment (section 302) would amend section 5007 of title 38, relating to a requirement that the Administrator annually submit to the Congress a five-year medical facility construction plan, to require the Administrator to submit, on an annual basis, a five-year strategic operation plan and to base the construction plan on the strategic operation plan.

The Committee intends that the newly-required plan include a comprehensive needs assessment of both medical program operation and medical facility construction needs and a detailed plan designed to address those needs. The plans should also include, but not be limited to, data on (1) the numbers of service-connected-disabled veterans and non-service-connected-disabled veterans whom the VA plans to serve, and (2) the scope (including bed size) for replacement, major modernization, and clinical aditon projects involving substantial expansion of capacity, on which actual construction is planned to be initiated during the first three of the five years covered by the construction plan. The Committee also intends that the plans take into account the impact on VA medical program and medical facility construction planning of such matters as VA's use of diagnosis related groups (DRG's) and the need for and use of noninstitutional forms of care when making resource allocation and construction planning (including the scope of the planned projects) decisions.

The Senate amendment (section 421), but not the House bill, would amend section 5002 of title 38, relating to the acquisition and construction of VA medical facilities, to require the Administrator, in connection with the assessment of health-care needs of veterans in particular areas and in order to plan how best to meet those needs, to develop criteria to determine whether to construct or acquire a new or replacement facility and to choose between the alternatives of constructing, leasing, or purchasing. The Administrator would also be prohibited, after January 1, 1986, from developing preliminary plans for a new or replacement medical facility unless the option of leasing or purchasing was considered. The Senate amendment would also amend section

5004(b) of title 38, relating to the process of Committee approval of certain medical facility acquisition and construction projects, to require the Administrator to submit, as part of a prospectus required to be submitted to the Committees in connection with a proposed medical facility, a description of the consideration given to leasing or purchasing an existing facility.

The Senate amendment (section 423), but not the House bill, would require the Administrator to submit to the Committees, in connection with the President's budget for fiscal year 1987, a feasibility plan for the purchase, for use as a VA hospital and nursing home, of a medical facility that meets the current and projected needs and specifications of the VA and is located in an urban area. The President, as warranted by the results of the feasibility plan, would be required to include in the VA's fiscal year 1987 budget a request for an appropriate amount for the purchase of such a facility which meets the VA's needs and specifications.

The House amendment (section 303) contains the provision requiring the Administrator, as part of a prospectus for a new or replacement medical facility, to submit to the Committees a description of the consideration given to leasing or purchasing an existing facility.

The Senate amendment (section 424) but not the House bill, would require the Administrator, not later than 180 days after enactment, to contract for the development of a modular approach to the planning and design of VA hospitals in order to evaluate the applicability, efficiency and cost-effectiveness of this approach to the design and construction of VA hospitals.

The House amendment (section 304) contains this provision with amendments deleting the requirements for contracting and requiring development within one year after the date of enactment.

The Senate amendment (section 422) but not the House bill, would require the Administrator, effective October 1, 1985, to contract for the construction and operation of a nursing home to furnish nursing home care to eligible veterans. The nursing home would be required to meet the VA's current and projected needs and specifications. The contract would be required to contain terms (1) establishing a minimum 5-year contract duration (2) requiring the contractor to provide the same types, levels, and quality of care that would be provided in a VA nursing home, (3) giving the Administrator the option to renew the contract for up to five years, (4) requiring the referral of eligible veterans to the nursing home so as to ensure a specific occupancy rate, (5) specifying the per diem rate payable to the contractor, and (6) providing that title to the facility would vest in the United States.

The House amendment does not contain this provision.

SERVICEMEN'S GROUP LIFE INSURANCE VETERANS' GROUP LIFE INSURANCE

The Senate amendment (section 507) and section 5 of H.R. 2343, as passed by the House of Representatives on May 20, 1985, would increase from $35,000 to $50,000 the maximum amount of coverage available under the Servicemen's Group Life Insurance/Veterans' Group Life Insurance programs and make such insurance available to members of the Individual Ready Reserve and the Inactive National Guard. The Senate amendment would provide for these increases and modifications to become effective on January 1, 1986; H.R. 2343 would provide for the effective date to be the first day of the fourth month beginning after the date of the enactment of the measure.

The House amendment (section 401) contains this provision with an effective date of January 1, 1986.

EXTENSION OF AUTHORITY TO OPERATE AN OFFICE IN THE REPUBLIC OF THE PHILIPPINES

The Senate amendment (section 509) and section 7 of H.R. 2343, as passed by the House of Representatives on May 20, 1985, would extend for 3 years, until September 30, 1988, the authority for a VA office in the Republic of the Philippines.

The House amendment (section 402) contains this provision.

VETERANS' ADMINISTRATION GRADE REDUCTION

Both the House bill (section 304) and the Senate amendment (section 301) contain provisions that would prohibit the Administrator from implementing a systematic grade reduction, for the purpose of reducing the average salary costs for the VA employees involved, of certain categories of VA employees unless the Administrator has first submitted to the Committees a report on the proposed reduction. The report would be required to contain a detailed plan and justification for the proposed reduction, including the Administrator's determination, supported by appropriate data, that, in the personnel area proposed for the reduction, the VA has a disproportionate number of employees at the salary grade or grades involved in comparison to employees who perform comparable functions in other departments and agencies of the Federal Government and in non-federal entities. The report would have to be submitted not less than 90 days prior to the effective date of the proposed reduction (not counting any day on which either House of Congress is not in session). The Comptroller General would be required, not later than 45 days after the report is submitted to the Committees, to submit a report to the Committees on the Administrator's compliance with this section, including the accuracy of the Administrator's determination and supporting data.

The House bill would apply to all VA personnel; the Senate amendment would apply to VA health-care personnel who provide direct patient-care services or services incident to direct patient-care services and to professional employees who are employed by the VA as attorneys and engineers. As to those VA employees not covered by the above-described provision in the Senate amendment, the Senate amendment would prohibit the Administrator from implementing with respect to VA employees at any specific grade level a systematic grade reduction at a rate greater than the rate of reductions being applied at that grade level in all other Federal government entities combined.

Under the House amendment (section 403), the advance-reporting requirement would apply to VA health-care personnel who provide direct patient-care services or services incident to direct patient-care services, to all "professional employees" as that term is defined in section 7103(a)(15) of title 5, United States Code, and to employees in computer-related fields. These categories encompass approximately 13,750 total VA employees at present—approximately 10,500 direct and indirect health-care personnel, 2,337 "professional employees" (883 engineers, 551 attorneys, 278 psychologists working outside of the Department of Medicine and Surgery, 169 accountants, 124 auditors, 138 librarians working outside of the Department of Medicine and Surgery, 93 architects, 73 physicians employed under the General Schedule, 24 statisticians, and 4 actuaries) and 926 individuals employed as "computer specialists" (9 computer equipment analysts, 11 computer programmers, 84 computer systems programmers, 216 computer programmer analysts, 247 computer specialists, and 359 computer systems analysts).

The Committee notes that the House amendment does not concern itself with the VA proceeding with a downgrading effort carried out in accordance with standard personnel practices designed to correct a clear example of overgrading in a particular occupational category as demonstrated by an evaluation of job responsibilities. Specifically, the VA would not be prevented from reorganizing work, implementing new classification standards, complying with classification consistency review requirements directed by OPM, or generally reclassifying positions properly even if the actions would result in a lower grade structure for any group of employees. In the case of employees other than those in the specified categories, the VA could exercise these authorities even if the resultant downgrading affected a greater percentage of VA workers in the grade level involved than were being downgraded in other Federal agencies. This is because such a downgrading would not be, in the words of the House amendment, "for the purpose of reducing average salary costs"; rather, it would be for the purpose of properly categorizing and compensating functions carried out by certain occupations.

The Committee further notes that neither the proposed advance-reporting requirement nor the limitation against disproportionate VA reductions would be applicable at all to standard personnel management activities aimed at protecting against overgrading—such as individual desk audits to determine if a particular job is overgraded—so long as those activities are not carried out as part of a systematic effort to achieve grade reductions pursuant to some arbitrary formula.

LAND TRANSFER, PHOENIX, AZ

The House bill (section 302) and the Senate amendment (section 504) would require the transfer to the VA, without compensation, of a certain parcel of land in Phoenix, Arizona. The House bill would require the transfer of 3.4 acres of land, more or less; the Senate amendment, 3.25 acres of land, more or less, and the structure thereon.

The House amendment (section 404) would provide for the transfer to the VA, without compensation, of 3.4 acres or land, more or less, and the structures thereon.

MODIFICATION OF RESTRICTIONS ON REAL PROPERTY, MILWAUKEE COUNTY, WI

The Senate amendment (section 506), but not the House bill, would require the Administrator to modify the restrictions on the use of land previously conveyed to Milwaukee County, Wisconsin, so as to permit the County to lease the land to a nonprofit corporation that would be required (1) to construct on the land and equip permanent improvements useful for public recreational or general civic purposes, and (2) to use the land for such recreational or civic purposes.

The House amendment (section 405) contains this provision.

AUTHORITY TO RELEASE LIMITATION ON USE OF REAL PROPERTY, MC KINNEY, TX

The House bill (section 301), but not the Senate amendment, would authorize the Administrator to remove a limitation on land previously conveyed to the City of McKinney, Texas, which restricts the use of the land to recreational purposes. The VA no longer maintains a facility in McKinney.

The House amendment (section 406) contains this provision.

MODIFICATIONS OF RESTRICTIONS ON REAL PROPERTY AND CONVEYANCE OF A FENCE ON SUCH PROPERTY, SALT LAKE CITY, UTAH

The Senate amendment (section 505), but not the House bill, would require the Administrator (1) to modify the restrictions on the use of land previously conveyed to the Utah State Armory Board so as to permit the land to be used for hospital, educational, civic, residential, or related purposes, and (2) to convey to the Armory Board, without compensation, a fence located on the property.

The House amendment (section 407) contains this provision.

PILOT PROGRAM OF COMMUNITY-BASED PSYCHIATRIC RESIDENTIAL TREATMENT FOR CHRONICALLY MENTALLY ILL VETERANS

The Senate amendment (section 102), but not the House bill, would amend Subchapter II of chapter 17 of title 38, relating to hospital, nursing home, and domiciliary care and medical treatment, to add a new section 620B to authorize the conduct of a pilot program, during the period January 1, 1986, through December 1, 1989, under which the VA would contract for care and treatment and rehabilitative services in halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities for certain eligible veterans suffering from chronic mental illness disabilities. A veteran would be eligible to participate in the program if, at the time of referral to a contract facility, the veteran were (1) receiving VA hospital, domiciliary, or nursing home care for a service-connected chronic mental illness disability, or (2) a veteran with a service-connected disability rated at 50 percent or more who is receiving VA care for a chronic mental illness disability. The program would be planned, designed, and conducted to demonstrate (1) the medical advantages and cost-effectiveness of providing care in contract facilities compared to providing care in VA facilities, and (2) the veterans' potential for living outside of medical facilities as a result of participating in the pilot program. The Administrator would be required to approve the quality and effectiveness of the program in a facility before referring veterans to it and to designate a VA employee to provide case-management services for each veteran. The Administrator would also be authorized to provide in-kind assistance to a participating contract facility provided that the VA was reimbursed for the assistance. The Administrator would be required to submit to the Committees an interim report on the first 36 months of the pilot program and, by April 1, 1990, a final report on the 48 months of operation of the pilot program.

The House amendment does not contain this provision.

In the cases of veterans requiring treatment for service-connected chronic mental illness disability, and veterans in Alaska, Hawaii, Puerto Rico, the Virgin Islands, and U.S. Territories or women veterans requiring such treatment for non-service-connected chronic mental illness disability, the VA, in the opinion of the VA General Counsel, has authority under current law (section 610(a) and section 601(4)(C) of title 38) to furnish directly, as well as to contract for, the type of halfway-house residential care (considered to be an extension of "hospital care") envisioned in the Senate provision. Moreover, in the cases of these veterans as well as certain others, such as those with service-connected disabilities rated 50 percent or more disabling and those requiring post-VA-hospital followup care for chronic mental illness disability, the VA also has authority under current law (section 612(f)(1)(B) and (2) and section 601(4)(C)(ii)) to contract for the provision of the medical and related services component of this type of care for such veterans' chronic mental illness disabilities and to negotiate on behalf of veterans with respect to the provision, at the veterans' expense or financed by other non-VA services, of the residential (room and board) component. Noting the support for this provision by the VA, the National Association of VA Chiefs of Psychiatry, and the American Psychiatric Association, the Committee intends to examine the issues relating to the extent of the VA's use of the existing authority described above. The Committee is aware that such an arrangement would not be workable in the case of chronically mentally ill veterans whose illnesses incapacitate them from earning a living and who have no other available to them to pay for the residential components of such halfway-house care, but notes that many of the veterans eligible for contract medical services are recipients of substantial disability compensation payments.

VETERANS' READJUSTMENT APPOINTMENTS

Section 3 of H.R. 1408, as passed by the House of Representatives on May 20, 1985, but not the Senate amendment, would increase the maximum grade level at which appointments may be made under the veterans readjustment appointments (VRA) program, eliminate the 14-year education limitation on the VRA eligibility of Vietnam-era veterans who do not have service-connected disabilities, and provide that a service-connected disabled Vietnam-era veteran who has more than 14 years of education must be given preference for a VRA over other Vietnam-era veterans who have more than 14 years of education.

The House amendment does not contain this provision.

STATE HOME PER DIEM RATES

The House bill (section 104(3)), but not the Senate amendment, would amend section 620(e) of title 38, relating to the rate at which the VA reimburses community nursing homes for "intermediate care" (a level of care less intensive than nursing-home care but more intensive than domiciliary care), in order to specify that VA payments to State homes for intermediate care shall be at the same per diem rate that is paid for nursing home care.

The House amendment does not contain this provision.

PHYSICIANS' AND DENTISTS' SPECIAL PAY

The House bill (section 205), but not the Senate amendment, would amend section 4118 of title 38, relating to special pay for physicians and dentists (1) to clarify that the employee's entitlement to special pay runs from the date of employment or from the date the employee signs a special pay agreement, whichever is later, (2) to modify the amounts of special pay that are counted in determining the annuity of employees who retire during fiscal years 1986 through 1990 so as to increase by 10 percentage points per year, from 60 percent for those retiring in fiscal year 1986 to 90 percent for those retiring in fiscal year 1990, the percentages of special pay counted toward annuities (under current law, 50 percent of such pay is counted toward annuities for those who retire during 1986 through 1990 and 100 percent after 1990), and (3) to specify that an employee must receive a performance rating of at least "fully satisfactory" in order to be eligible to receive special pay.

The House amendment does not contain this provision.

STATUS OF VETERANS' ADMINISTRATION OUTPATIENT CLINIC IN TOLEDO, OH

The House bill (section 305), but not the Senate amendment, would mandate a change in the status of the VA outpatient clinic in Toledo, Ohio, from that of a satellite clinic (of the Ann Arbor, Michigan, VA Medical Center) to an independent clinic.

The House amendment does not contain this provision.

The Committee notes the substantial strides made in recent months by the Department of Medicine and Surgery, in conjunction with the University of Michigan through its affiliation with the Ann Arbor VAMC, to expand and upgrade medical services at the Toledo clinic, specifically, the establishment at the clinic of specialty clinics for Dermatology in April, for Ophthalmology and Orthopedics in June, and for Ear, Nose, and Throat in July. In order to continue this progress and provide greater ties to and continuity with medical care in the community, it is the Committee's view that the Toledo clinic should also establish a meaningful affiliation with the Medical College of Ohio and that DM&S Central Office should closely monitor the provision of services at the clinic. The Committee does not intend, however, that the affiliation between the Toledo clinic and the University of Michigan Medical School be diminished.

The Committee directs the Chief Medical Director to report to them by April 1, 1986, on the actions regarding such a new affiliation and to submit at that time an evaluation, based on DM&S's monitoring, of the range, quality, and responsiveness of the care provided by the clinic.

PILOT PROGRAM OF NONINSTITUTIONAL ALTERNATIVES TO INSTITUTIONAL CARE

The Senate amendment (section 103), but not the House bill, would require the Administrator to conduct a 4-year pilot program, through 10 demonstration projects, under which veterans eligible for and otherwise in need of VA hospital, nursing home, or domiciliary care, would instead receive care, including health-related services from non-VA entities, in noninstitutional settings. Priority for participation in the program would be accorded to veterans with service-connected disabilities, to veterans who are 65 or older, and to veterans who are totally and permanently disabled. The VA would be required to utilize geriatric evaluation units as part of 5 of the projects and to assign VA employees to provide case-management services for all veteran-participants.

The House amendment does not contain this provision.

The Committee notes that it intends to request that the VA explore the need of eligible veterans for noninstitutional health-related services and intends to consider next year the need for such services and for this pilot program.

REPORT ON FEDERAL GOVERNMENT RESPONSIBILITY TO INDIVIDUALS WHO SERVED WITH VOLUNTARY CIVILIAN ORGANIZATIONS IN VIETNAM

The Senate amendment (section 503), but not the House bill, would require the Administrator and the Secretaries of Defense and of Health and Human Services to submit to the appropriate Congressional committees, not later than 180 days after the date of enactment, a joint report on the question of U.S. Government responsibility for providing benefits and services (including, but not limited to, health care and monetary compensation for disabilities which may be related to experiences in Vietnam), either through the VA or otherwise, to individuals who served in Vietnam with voluntary organizations that provided significant assistance to the U.S. Armed Forces.

The House amendment does not contain this provision.

COVERAGE OF RESPITE CARE

The House bill (section 101), but not the Senate amendment, would amend section 610(a) of title 38, relating to eligibility for hospital and nursing home care, to authorize the provision of respite care, defined as care furnished by a VA facility on an intermittent or temporary basis to a veteran who is suffering from a chronic illness and who is receiving care at home or in a hospice program.

The House amendment does not contain this provision.

The Committee notes, however, that the Senate Committee, in the context of further consideration next year of the need for alternatives to institutional care, will consider the need to provide the Administrator with explicit authority to provide respite care.

ASSISTANCE FOR CERTAIN FORMER POLITICAL HOSTAGES

The Senate amendment (section 502), but not the House bill, would require the Administrator to take appropriate action under existing authority to ensure that VA expertise in diagnosing and treating individuals who have experienced unusual trauma and stress and in training health-care personnel in such diagnosis and treatment is made available to other Federal agencies and other organizations which have provided or may provide assistance to (1) the passengers of hijacked TWA flight number 847 who were held in captivity as political hostages, or (2) other United States citizens returning from such captivity, in order to attempt to minimize the potential psychological effects of their captivity.

The House amendment does not include this provision.

The Committee urges the Administrator to provide such assistance as may be permitted under existing authority and to continue to provide similar assistance to Federal agencies and other organizations which provide readjustment services to U.S. citizens who are victims of floods, tornadoes, earthquakes, and other natural or manmade disasters.

EMERGENCY VETERANS' JOB TRAINING ACT

The Senate amendment (section 508) and section 2 of H.R. 1408 as passed by the House of Representatives on May 20, 1985, would amend the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 29 U.S.C. 1721 note).

Both H.R. 1408 and the Senate amendment would extend the deadline for veterans already enrolled in the program to begin a program of training. The House would extend the deadline from September 1, 1985, to July 1, 1986; the Senate amendment, from September 1, 1985, to March 1, 1986.

The House amendment does not contain these provisions; however, Public Law 99-108 extended the deadline to July 1, 1986.

H.R. 1408, but not the Senate amendment, (1) would amend section 17 of the Act to extend, from February 28, 1985 to December 31, 1985, the deadline by which a veteran must apply to participate in the program; (2) would amend section 5 (a)(1)(B) of the Act, relating to the period of unemployment required to qualify for participation, to reduce the number of weeks of unemployment required in the 20 weeks prior to application from 15 to 5; and (3) would amend section 16 of the Act, relating to authorizations of appropriations for the programs under the Act, to authorize an appropriation of $75 million for fiscal year 1986.

The House amendment does not contain these provisions.

DOMICILIARY CARE

The House bill (section 102), but not the Senate amendment, would amend section 610(b) of title 38, relating to eligibility for domiciliary care, to establish a single basis for eligibility for care in a domiciliary facility by deleting the provision in current law which authorizes domiciliary care for a service-connected disabled veteran who is suffering from a permanent disability, tuberculosis, or a neuropsychiatric ailment, is unable to earn a living, and has no adequate means of support and leaving in place the existing authority to provide domiciliary care to any veteran who is in need of domiciliary care and is unable to defray the expenses of such care.

The House amendment does not include this provision.

The Committees on Veterans' Affairs of the House and Senate have included provisions in the Omnibus Budget Reconciliation Act of 1985 (H.R. 3500 and S. 1730) that would change current law relating to domiciliary care eligibility. The Committees have agreed to resolve their differences on this issue in the reconciliation conference.

ADMINISTRATIVE REORGANIZATION OF CERTAIN PROSTHETICS SERVICE FUNCTIONS

The House bill (section 304(a)), but not the Senate amendment, would authorize the VA to proceed, during fiscal year 1985, with an administrative reorganization, of which the Committees were given advance notice on February 1, 1985, pursuant to section 210(b)(2) of title 38, involving the transfer of two elements from the Prosthetics Center in New York—the Technology and Performance Evaluation Section and the Information and Education Service—to a Prosthetics Assessment and Information Center in Washington, D.C.

The House amendment does not contain this provision.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Alabama [Mr. SHELBY], a member of the committee.

Mr. SHELBY. Mr. Speaker, I appreciate the gentleman's yielding, and I would like to ask if the chairman of the committee, the gentleman from Mississippi [Mr. MONTGOMERY], would enter into a colloquy with me regarding some things that were knocked out of the bill.

Mr. MONTGOMERY. I will be glad to answer the gentleman, if the gentleman will yield.

Mr. SHELBY. Mr. Speaker, in this bill that we have before us now, the amendment knocked out the consideration that was in the Senate bill where the Senate bill would require that the Veterans' Administration would consider existing hospitals when they were considering a new Veterans' Administration facility; is that correct?

Mr. MONTGOMERY. That is still in the bill.

Mr. SHELBY. That is still in the bill?

Mr. MONTGOMERY. That is correct.

Mr. SHELBY. But it is new language; it is a little different language, is it not?

Mr. MONTGOMERY. We could not accept all of the Senate language, but that particular requirement is still in the bill.

Mr. SHELBY. The chairman of the committee will recall our conversation regarding the possible purchase of the Providence Hospital in Mobile, AL, and what we have gotten into. Does this language exclude that, or would that change anything?

Mr. MONTGOMERY. Let me clarify what is in the proposed House amendment. The Senate had proposed language which would have required the Administrator to provide a feasibility plan for the purchase of a medical facility that is located in an urban area and is suitable for furnishing both hospital and nursing home care services to veterans. It would have also required the President to include a request in the fiscal year 1987 budget for an appropriate amount to purchase such a facility if warranted by the feasibility plan. That was taken out of the bill, and I know the gentleman strongly supported it.

The reason it was taken out is that we feel that we should not designate where a Veterans' Administration hospital should be built. It should be left up to the Administrator. That is why it was eliminated.

I know that the gentleman has strong feelings about it, but we cannot go around designating when or where a veterans' hospital should be built. However, we did accept language which requires that when the Administrator proposes to Congress to construct a new or replacement VA medical facility, he must include in the prospectus for such project a description of the consideration that was given to acquiring an existing facility by lease or purchase.

Mr. SHELBY. The language is there that they should consider them?

Mr. MONTGOMERY. Yes; that they should consider those existing facilities if they plan to replace or construct a VA medical facility.

Mr. SHELBY. I think that will help in this case. I do not know if it will solve the problem there.

Mr. Speaker, there are a lot of other things in this bill other than that. For that reason I do not object to the gentleman's bringing up the bill, although I do disagree as to that portion of it.

Mr. MONTGOMERY. Mr. Speaker, I do appreciate very much the gentleman's not objecting. We held the bill up trying to work out something with the gentleman from Alabama. We have a lot of things in here that need to move forward to give better medical care to the veterans, and I appreciate very much the gentleman's support.

Mr. SHELBY. Mr. Speaker, I think the gentleman is exactly right. There are a lot of things in here for the veterans of the country.

Mr. MONTGOMERY. Finally, Mr. Speaker, I would like to express my appreciation to the very able chairman of the Senate Committee on Veterans' Affairs [Mr. MURKOWSKI,] and to the very able ranking minority member of the committee [Mr. CRANSTON], for their efforts to work with the House side to seek agreement on the differences in the two bills. I regret I cannot say specifically that the other body is in total agreement with the House amendment, but we have done the very best we can. It is my hope that it will be accepted by the other body in view of the expiring authorizations contained in the measure. We have already granted one temporary increase in these authorizations, and I do not intend to provide for further temporary extensions.

In addition, I would like to thank the very distinguished Senator from California [Mr. CRANSTON], and the distinguished chairman of the committee, [Mr. MURKOWSKI], for working with us to help resolve the issue of cutting back on GS-11 to GS-15 positions in the Veterans' Administration. Both of these gentlemen were very cooperative in our attempts to resolve this issue which is so important to the Agency. My colleagues know that the provision contained in H.R. 505, as passed by the House, was almost a carbon copy of the legislative initiative offered by the distinguished Senator from California and he deserves much of the credit for placing this item high on our agenda. I believe the language proposed in the House amendment is a reasonable compromise to what the distinguished Senator from California introduced on the Senate side. I continue to appreciate the good work of both of these distinguished gentlemen.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Florida [Mr. MICA].

Mr. MICA. Mr. Speaker, I thank the gentleman for yielding.

First, let me commend the chairman of the committee, the gentleman from Mississippi [Mr. MONTGOMERY], for the excellent work he has done and the time and effort and consideration that has been put in this bill. I also commend the ranking minority member, the gentleman from Arkansas [Mr. HAMMERSCHMIDT], for his cooperation.

I think this type of approach serves well the veterans of America. I have some 5,000 veterans a month moving into the State of Florida. As a matter of fact, I have had 5,000 veterans a month moving into the State for the last 5 years straight, so I have a strong interest in this legislation that we are discussing today, not only as a member of the Committee on Veterans' Affairs but also because I come from a State which has not only a growing veterans population but has a very large veterans population—in fact, some say it is one of the largest in the United States.

Earlier this year I was deeply disturbed by published reports of excessive patient death rates in Veterans' Administration hospitals. Just as disturbing as those reports was the manner in which the Veterans' Administration responded to newspaper inquiries concerning them. I refer in this case to the quality of care at a particular cardiac surgery unit.

The manner in which the Veterans' Administration responded has created a credibility gap in the minds of myself and other Members of Congress, and many veterans, and much of the south Florida public was also concerned. At times it seemed that the primary interest of the Veterans' Administration was not to allay the public's concern but to retreat behind a shield of bureaucratic jargon.

That is why I have introduced legislation which is now contained in this bill, H.R. 505, that would require the disclosure of statistics on medical quality data such as morbidity and mortality rates at individual Veterans' Administration hospitals. That is one reason why I am asking my colleagues to strongly support this legislation.

I am convinced that overall the Veterans' Administration provides excellent health care. But problems in Veterans' Administration hospitals can only be overcome by a policy of complete openness and disclosure. Such a policy ensures a high level of public confidence in the Veterans' Administration, and we know that confidence is required. It allows the public to obtain complete answers to their inquiries and provides the veteran with all the information he or she needs about the safety record of a medical program to which they entrust their lives.

In its present form, this legislation leaves intact peer review sessions where doctors criticize their colleagues. They will not undermine the privacy rights of doctors or of their individual patients, nor will they violate the doctor-patient privilege.

Mr. Speaker, I sincerely believe, in conclusion, that a policy of open and honest disclosure will demonstrate that the Veterans' Administration is indeed operating in the veterans' best interests, and I urge my colleagues to support this legislation.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I, too, rise in strong support of H.R. 505, as it is presently before the House. The process of working out the differences in this legislation between the two bodies is, hopefully, close to its culmination.

This is a comprehensive measure with some 29 provisions which would result in significant improvements and new authority for a great variety of VA health care programs.

Most pressing is the simple extension of authority which runs out tomorrow, October 31, 1985, for VA "extraordinary" contract health care in Puerto Rico, for the continued operation of the VA regional office in the Philippines, and for VA contracts with community treatment facilities for veterans with alcohol and drug abuse problems. Each of these deserves to be continued.

This legislation would improve VA's health care administration by modifying certain eligibility requirements. A veteran discharged from a domiciliary or nursing home is not eligible for followup outpatient care. Veterans must be kept in the domiciliary or nursing home in order to receive the needed care. This is not a good use of increasingly scarce VA medical care resources. It would be remedied by making those veterans eligible for outpatient care.

A similar situation would also be remedied by passage of this measure. Transfers of veterans directly from VA nursing homes and domiciliaries to community nursing homes are not authorized by current law. A VA nursing home patient must now needlessly be admitted to a VA hospital before being transferred to a community nursing home.

Further, veterans requiring nursing home care for treatment of service-connected disabilities must now have authorization renewed every 6 months.

The VA now has in place good controls designed to keep nursing home stays from being unnecessarily long. The renewal requirement has outlived its usefulness and now results in wasteful paperwork. This measure would eliminate the renewal requirement.

For veterans who were exposed to agent orange and certain other herbicides, or to ionizing radiation, the questions still remain about the long-term effects of the exposure on their health. These veterans are currently

eligible for certain priority VA health care services until February 1986.

The amendments would extend eligibility until the end of fiscal year 1989. By that time, we should have better information for a determination as to whether benefits should be permanent.

Former prisoners of war would also benefit from the bill. In addition to the VA health care now provided to former POW's, the VA would be authorized to provide counseling at the request of any former POW who needs assistance with the psychological effects of the POW experience.

This measure would require the Administrator to develop and report on a modular approach for the planning and design of VA medical centers in order to evaluate the applicability and cost-effectiveness of such an approach. This appears to have promise as a way to hold down costs without any loss of quality.

The Nation's population is growing older on the average and this is reflected by the average age of its veterans. The demographics of the veteran population present an enormous challenge to the VA. One of the many ways to meet the changing needs of older veterans is through State veterans homes.

VA grants help build them, and the present system which the VA uses to process grant applications should be streamlined to do a better job of getting the money where the greatest immediate needs are.

The amendments would allow the VA to bypass projects to which States have not made their financial commitments in favor of those projects to which States have made their commitments, and they would be chosen on the basis of comparative need. This is a step we should take.

There are many good provisions in this legislation. Suffice it to say that, through the leadership of Mr. MONTGOMERY, chairman of the Veterans' Affairs Committee, and of Mr. EDGAR, chairman of the Subcommittee on Hospitals and Health Care, in close cooperation with the minority, we have an amended bill which has been improved and refined.

I urge each of my colleagues to support it.

Mr. EDGAR. Mr. Speaker, I rise in support of H.R. 505, the Veterans' Administration Health-Care Amendments of 1985. This is a bill that I introduced and which, as amended, was reported unanimously out of the Subcommittee on Hospitals and Health Care and the full Committee on Veterans' Affairs and then amended by the Senate. I am pleased to have helped bring this bill before my colleagues. Today, I am pleased to bring before you a description of the House amendments to the Senate amendments of H.R. 505. I am including a full explanation of these amendments. However, I wish to emphasize a few specific points.

Our schedules in committee and here on the floor have been hectic ones during this Congress. Concerns about the deficit and about how to devise a budget for this country have been overriding issues. Yet, we have not forgotten our commitments to our Nation's veterans, men and women who have served in the defense of their country. This bill should become part of the record of the House as an acknowledgment of the service of these citizens.

Resolution of the differences between the versions of H.R. 505 as passed by the House and amended by the Senate was a difficult task. I want to acknowledge now the hard work and dedication of the chairman of the full committee, [Mr. MONTGOMERY], and of the ranking minority member of both the full committee and of the subcommittee I chair, Mr. HAMMERSCHMIDT. I also want to acknowledge the participation of the members of the subcommittee; their counsel is always valuable, particularly when negotiating with the other body.

The House amendments contain four titles: Title I relates to health-care programs, title II relates to health-care administration, title III relates to VA medical facilities, and title IV concerns some miscellaneous provisions. These titles contain much of the House version of the bill which was designed to provide cost-effective alternatives to institution-based health care delivery and to make more efficient the provision of institutional care when it is medically necessary. This is important because of the anticipated impact of the number of veterans who are aging. We know that the use of health care services increases with increasing age. It, thus, is more important than ever to get the most out of each Federal dollar spent on medical care.

I want to emphasize a provision that has general significance for the VA and special importance to medical care which restricts the VA in implementing an employee grade reduction. As is well-known, the Office of Personnel Management and the Office of Management and Budget responded to a recommendation of the "Grace Commission" by proposing a reduction in funding which would equate to an annual 2-percent reduction in GS grades 11–15 in fiscal years 1985 to 1989. This provision would require a detailed report to the Congress before implementing a grade reduction of certain categories of VA employees.

I would also like to emphasize several provisions relating to aging veterans which were part of the House-passed bill are included. One is a provision that would allow veterans who would otherwise remain in nursing homes and domiciliaries to receive outpatient care to complete their medical treatments. This provision would avoid the use of costly inpatient beds. A related provision is included that would allow veterans who are in VA nursing homes, domiciliaries, or hospital-based home care programs to be admitted directly into a community nursing home. The current requirement is to be admitted first to a VA hospital. This provision would avoid the cost of admitting, using and then being discharged from expensive hospital beds.

Another provision relating to aging veterans is one authorizing the expansion from 15 to 25 the number of geriatric research, education, and clinical centers [GRECCS].

I am pleased that the alcohol and drug treatment and rehabilitation contract authority is extended in the House amendments. I introduced this provision—originally as H.R. 789—which was cosponsored by two of my colleagues from Florida [Mr. MICA] and [Mr. LEHMAN].

I am pleased that the House amendments include a permanent authority to contract for care of non-service-connected veterans in the Virgin Islands is included. This provision also provides a phaseout of this contract authority with respect to Puerto Rico. I deeply appreciate the sincere concern and sponsorship of the gentleman who represents the Virgin Islands, Mr. DE LUGO. I also deeply appreciate the sincere concern and support of the gentleman who represents Puerto Rico, Mr. FUSTER.

I originally introduced as H.R. 2227 a bill that was cosponsored by Chairman MONTGOMERY to authorize a 3-year demonstration project for chiropractic care for veterans. The House amendments contain a modification providing for a five-site pilot program and should provide valuable information about chiropractic services.

All of this said, I must also record my disappointment that two provisions in the bill I introduced are not included in the House amendments. I will continue to work for these provisions and plan to reintroduce them next session.

The first is an authority for the VA to provide respite care for veterans suffering from chronic long-term illnesses. This provision would free hospital beds now occupied by those who could be cared for in their homes if some brief temporary relief for their caregivers, usually their families, were available. I continue to think this is a valuable benefit for veterans, their families, and the VA.

The second is an authority to equalize eligibility for domiciliary care for veterans with service-connected disabilities by removing restrictions to admission of those veterans. I believe the domiciliary program is one of the best and most cost-effective programs in the VA. I plan to hold hearings on this program in the next session and to introduce more extensive legislation concerning this program.

Mr. Speaker, I strongly urge my colleagues to support H.R. 505, as amended by the House.

Mr. DE LUGO. Mr. Speaker, I rise today in support of H.R. 505, a bill to improve the delivery of health care service to our Nation's veterans. I would like to offer my special thanks to Chairman S.V. (SONNY) MONTGOMERY, and to Congressman BOB EDGAR, the chairman of the Subcommittee on Hospitals and Health Care, for their support and understanding of the unique situation of U.S. Virgin Islands veterans.

The U.S. Virgin Islands does not have a VA hospital. The closest VA hospital is in Puerto Rico. Therefore, it is essential that our veterans have the authority to contract

with a doctor of their choice, a doctor who is familiar with their problems, and whose office is close to their home. It is also important that these veterans are able to utilize vendors in the U.S. Virgin Islands in order to obtain essential medical supplies.

The compromise agreement worked out under H.R. 505 would make the contract authority permanent with respect to the Virgin Islands, as it is now in Hawaii and Alaska. This I see as a definite step in the right direction for service to Virgin Islands veterans, for I have long urged that outpatient clinics be built in the U.S. Virgin Islands. While it does not appear possible at this time of severe Federal deficits, I feel the authority to make the contract service a permanent one with respect to the Virgin Islands, is an equitable solution for the interim.

H.R. 505 recognizes that the veterans of the U.S. Virgin Islands have earned their service benefits and are entitled to equitable treatment. I urge your support for this measure.

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentleman from Mississippi?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that I may be permitted to revise and extend my remarks, and include extraneous matter, and that all Members may have 5 legislative days in which to revise and extend their remarks, and include extraneous matter, on H.R. 505, the legislation just considered.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

CALENDAR WEDNESDAY

The SPEAKER. This is Calendar Wednesday. The Clerk will call the committees.

The Clerk called the committees.

□ 1035

WAIVING CERTAIN POINTS OF ORDER AGAINST CONSIDERATION OF H.R. 3629, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 1986

Mrs. BURTON of California. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 302 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 302

Resolved, That all points of order under clause 3 of rule XIII are hereby waived against the consideration of the bill (H.R. 3629) making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes. During the consideration of said bill, all points of order against the following provisions in the bill for failure to comply with the provisions of clauses 2 and 6 of rule XXI are hereby waived: titles I through VII; and sections 8007, 8016, 8020, 8037, 8040, 8042, 8047, 8048, 8049, 8050, 8058, 8074, 8084, 8093, 8096, 8098, 8099, 8100, 8101, and 8102. It shall be in order to consider en bloc the amendment printed in the Congressional Record of October 29, 1985, by, and if offered by, Representative Schroeder of Colorado, notwithstanding the fact that the amendment changes portions of the bill not yet read for amendment, and such amendment shall not be subject to a demand for a division of the question in the House or in the Committee of the Whole.

The SPEAKER pro tempore (Mr. WIRTH). The gentlewoman from California [Mrs. BURTON] is recognized for 1 hour.

Mrs. BURTON of California. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Tennessee [Mr. QUILLEN], and pending that I yield myself such time as I may consume.

Mr. Speaker, House Resolution 302 waives points of order against specified provisions of H.R. 3629, the Department of Defense appropriation bill for fiscal year 1986. The rule does not provide for the bill's consideration because general appropriation bills are privileged under the rules of the House. Provisions relating to time for general debate are also not included in the rule. Customarily, general debate is limited by a unanimous consent request by the chairman of the Appropriations Subcommittee prior to consideration of the bill.

The rule waives all points of order against the consideration of the bill for failure to comply with clause 3 of rule XIII. Clause 3 of rule XIII prohibits consideration of legislation that does not contain a section detailing changes made to existing law in the accompanying committee report. The committee report on H.R. 3629 does not contain the appropriate Ramseyer on the procurement reform provisions adopted by the Appropriations Committee.

The rule waives all points of order against specified provisions of the bill for failure to comply with clauses 2 and 6 of rule XXI. Clause 2 of rule XXI prohibits unauthorized appropriations and legislative provisions in general appropriations bills. Clause 6 of rule XXI prohibits reappropriations or transfers in general appropriation bills. The rule waivers these clauses of rule XXI against titles I through VII of the bill. These waivers are necessary because the authorization for the Department of Defense for fiscal year 1986 has not been enacted into law. In addition, the rule waives clauses 2 and 6 rule XXI against 20 specified general provisions contained in title VIII of the bill.

The rule allows for the en bloc consideration of an amendment by Representative SCHROEDER. This amendment is printed in the CONGRESSIONAL RECORD of October 29, 1985, and is in order notwithstanding the fact that the amendment changes portions of the bill not yet read for amendment. The amendment is not subject to a demand for a division of the question in the House or in the Committee of the Whole. This is the only special provision made for an amendment in this rule. Other Members, of course, may offer amendments to the bill provided that those amendments do not violate the rules of the House.

Mr. Speaker, H.R. 3629 provides $268.9 billion in new budget authority and $7.75 billion in transfers from other accounts for a total funding availability of $276.3 billion. This bill does not provide the funding for military construction or nuclear warheads. Funding for these programs are contained in other appropriation bills. When the anticipated funding levels for these programs are combined with the $276.3 billion in this bill, total fiscal year 1986 military spending is expected to be $292.6 billion.

It is also important to note that title VIII of this appropriation bill contains 102 general provisions. The rule waives clauses 2 and 6 of rule XXI against 20 of these general provisions. Some of these provisions of special interest to members are provisions relating to procurement reform, a moratorium on carrying out a test on the space defense system against an object in space, multiyear procurement of several major weapons systems, and limitations on procurement of binary chemical munitions.

Mr. Speaker, H.R. 3629 is important legislation that provides the funding for the national security of this Nation. I would urge Members to vote for the adoption of this rule in order to proceed to the timely consideration of this legislation.

Mr. QUILLEN. Mr. Speaker, I yield myself as much time as I may use.

Mr. Speaker, the gentlewoman from California has ably explained the provisions of the rule. It would be redundant for me to repeat them.

We all know that we face an emergency in our defense posture. It is necessary that we go forward with this appropriation bill.

I would remind the Members of the House that this bill contains $27.8 billion less than the President requested. It is $9.5 billion less than the budget resolution passed by this House; so

there are considerable savings in our defense posture, although the administration supports the budget resolution level.

So without further ado, Mr. Speaker, I urge the adoption of this rule so that the House can get down to the discussion of this very important measure, the appropriation for the Department of Defense.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. JOHNSON], to speak out of order.

(By unanimous consent, Mrs. JOHNSON was allowed to speak out of order.)

LEGISLATION TO RESTORE FAMILY PLANNING PROGRAMS SUBLEVEL

Mrs. JOHNSON. Mr. Speaker, today I am introducing legislation to amend the Foreign Assistance Act, to restore informed consent to assure, as the Reverend Monsignor John G. McCarren says, "liberty of conscience, right to privacy, and absence of coercion," in all family planning programs funded by the Agency for International Development.

This legislation should be unnecessary. Until this year, AID policy required family planning programs to provide information on all methods of contraception, or, if the grantee could not or did not provide a particular service, AID policy required referral.

To my regret, AID has reneged on its commitment to this responsible policy. Since July 8, AID has allowed organizations which promote natural family planning—and those organizations only—to receive Federal funds without providing information or referral on other methods of family planning.

Throughout this Nation, academic freedom policies govern educational institutions because we believe that, given complete information, people will draw the right conclusions. We should require no less of any recipient of Federal funds.

Please join 79 Members of Congress, and 20 medical, religious, and family planning organizations and endorse this legislation.

Mr. QUILLEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. BURTON of California. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. CHAPPELL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill (H.R. 3629) making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes, and that I may include extraneous and tabular material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

DEPARTMENT OF DEFENSE APPROPRIATION ACT, 1986

Mr. CHAPPELL. Mr. Speaker, I move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 3629) making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes; and pending that motion, Mr. Speaker, I ask unanimous consent that general debate be limited to not to exceed 2 hours, the time to be equally divided and controlled by the gentleman from Pennsylvania [Mr. MCDADE] and myself.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. CHAPPELL].

The motion was agreed to.

The SPEAKER pro tempore. The Chair designates the gentleman from Illinois [Mr. ROSTENKOWSKI] as Chairman of the Committee of the Whole and requests the gentleman from Michigan [Mr. KILDEE] to assume the chair temporarily.

□ 1046

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 3629, with Mr. KILDEE, Chairman pro tempore, in the chair.

The Clerk read the title of the bill.

By unanimous consent, the first reading of the bill was dispensed with.

The CHAIRMAN pro tempore. Under the unanimous-consent agreement, the gentleman from Florida [Mr. CHAPPELL] will be recognized for 1 hour, and the gentleman from Pennsylvania [Mr. MCDADE] will be recognized for 1 hour.

The Chair recognizes the gentleman from Florida [Mr. CHAPPELL].

Mr. CHAPPELL. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise to manage this bill today in the place of our good friend and colleague, the gentleman from New York, Mr. JOE ADDABBO, who as all of us know is hospitalized at this time with a kidney ailment.

I want to say that I talked to him this morning and he asked me to give his greetings to his many friends here and to say that he is coming along very well, indeed, and hopes to be out of the hospital in the next few weeks.

As a matter of fact, he has gained about 30 pounds. He is feeling much better and he is doing very well. As a matter of fact, the doctors are talking about putting him on a diet to restrict his weight. I again bring you his greetings and say that all of us wish him Godspeed in his recovery.

I want to take this opportunity to thank all the members of the Defense Subcommittee for their advice and indulgence in marking up and reporting out the Defense appropriation bill for fiscal year 1986. It was a group effort and is generally supported in its entirety by all the subcommittee members. This can be attested to by the fact that there were no separate, minority, or dissenting views filed in the report.

I want to especially thank the chairman of the appropriations Committee, JAMIE L. WHITTEN, for his advice and assistance and the ranking minority member of the subcommittee, JOSEPH M. MCDADE for his cooperation and assistance in formulating this difficult bill.

It was not an easy task to draft the bill before you today. We tried to provide funds for all the necessary programs while keeping the overall funding level within the guidelines expressed by the House. I think we were able to do that realizing, of course, that everyone will not be pleased with all aspects of this bill.

BILL SUMMARY

The bill before you maintains a freeze level in total obligational authority comparable to last year's level. This bill provides total obligational authority of $276.3 billion consisting of $268.6 billion in new budget authority and $7.7 billion in transfers from other accounts.

The $276.3 billion in total obligational authority is approximately the Defense appropriation bill portion of the $292.6 billion defense level proposed by the House in its budget resolution and its Defense Authorization Act when they passed and represents a freeze in defense funding levels for fiscal year 1986. This seems to be the level the House currently supports and the Appropriations Committee recommends this level.

Just to give the House some perspective as the total appropriations provided to the Defense Department in the recent past let me briefly set forth some statistics. For the 6-year period—fiscal year 1980 through fiscal year 1985—the Defense Department received appropriations and transfer authority totaling $1.3 trillion which excludes military construction, military family housing, civil defense, and nuclear warhead research and production.

The total obligational authority level recommended in this bill of $276.3 billion represents a 100-percent increase over the fiscal year 1980 funding level.

In light of the current deficit reduction efforts and the prospects of large budget deficits in the immediate future, the Appropriations Committee felt the level of funding recommended in this bill is adequate.

Let me now briefly cover what is recommended in the Defense appropriation bill before you.

Mr. Chairman, pages 5, 6, and 7 of the committee's report list a number of significant and highly visible programs addressed in the bill and I advise the Members to read these highlights to easily identify programs of interest to them.

MILITARY PERSONNEL

The bill recommends $70 billion for military personnel or $1.8 billion above last year's level and $3.4 billion below the budget request. These funds provide 2,167,370 active duty military personnel, an increase of 15,000 above fiscal year 1985 and a selected reserve man-year average of 1,096,333, an increase of 42,971 above last year.

The bill approves the 3-percent military pay raise, effective October 1, 1986, but requires DOD to absorb 10 percent of the total costs.

The bill recommends a total reduction of $2.7 billion from the military personnel accounts as a result of the retired pay limitations imposed by the Defense Authorization Act, 1986. This, of course, accounts for most of the recommended reductions of $3.4 billion below the budget request.

OPERATION AND MAINTENANCE

The bill recommends $77.1 billion for the operation and maintenance accounts which is roughly the same level of funding provided last year and $5.3 billion below the budget request.

The first major reduction of $4.4 billion is a result of pricing adjustments such as reduced fuel prices, lower than anticipated inflation, revised foreign currency assumptions, increases in competition, and improvements in DOD's acquisition process.

The second major reduction of $1.5 billion results from authorization action.

The third major adjustment adds $932 million to reduce the depot maintenance and real property maintenance backlogs and to partially restore the civilian pay reduction originally recommended by the administration.

There is also $300 million in reductions recommended by the committee in programs felt to be unnecessary or duplicative.

While these reductions in military personnel and operation and maintenance seem large, they do not materially affect the readiness of our forces and are fully justified.

PROCUREMENT

The bill recommends $93.4 in total obligational authority for procurement, a reduction of $5.2 billion below last year's level and a decrease of $13.4 below the budget request. Some of the so called "big ticket" items recommended in the bill follow:

The bill recommends $1.1 billion to purchase 144 AH-64 Apache attack helicopters; $1.6 billion to purchase 840 M-1 Abrams tanks; $2.3 billion to purchase 84 F/A-18 aircraft; $1.2 billion to purchase one Trident submarine; $2.1 billion to purchase 4 SSN-688 nuclear attack submarines; $2.6 billion to purchase 3 CG-47 Aegis cruisers; $5.2 billion to purchase 48 B-1B bombers; $1.8 billion to purchase 48 F-15 aircraft; $2.6 billion to purchase 180 F-16 aircraft; $1.7 billion to purchase 16 C-5B airlift aircraft; $200 million to begin a competition and procure air defense aircraft for the Air Force; and $1.8 billion to purchase 12 MX missiles.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The bill recommends $34.1 billion in total obligational authority for research, development, test and evaluation which is $2.9 billion above the fiscal year 1985 level and $6.1 billion below the budget request. Some of the specific recommendations in the bill are as follows:

The bill recommends $2.1 billion for continued development of the Trident II strategic missile system; $570 million for continued development of the Tilt-Rotor JVX aircraft; $1.5 billion for ICBM modernization; $384 million for continued development of the C-17 transport aircraft; and $2.5 billion for the Strategic Defense Initiative—"star wars."

NATIONAL GUARD AND RESERVE FORCES

The bill recommends over $20 billion for the National Guard and Reserve Forces which includes add-ons above the budget request of $700 million mostly for equipment. I refer Members to pages 10 through 21 of the committee report which set forth the funds provided for the National Guard and Reserve forces. The committee has always been a staunch supporter of the Guard and Reserve and we continue to try to update the equipment available to these forces.

INTELLIGENCE MATTERS

The committee reviews the intelligence and intelligence-related activities budgets with the same intensity and completeness as is afforded other portions of the Department of Defense [DOD] budget. Because of the highly sensitive nature of these activities, the results of the committee's budget review are published in a separate detailed and comprehensive classified annex to this report and cannot be discussed on the floor.

GENERAL PROVISIONS

The bill includes several provisions dealing with matters of interest to the Members. One deals with the prohibition of lethal aid to Nicaragua. The subcommittee has included the exact prohibition contained in the House-passed intelligence authorization bill which prohibits the CIA, DOD, or any other agency of the United States involved in intelligence activities from providing material assistance, directly or indirectly, to the Nicaraguan Democratic Resistance, including arms, ammunitions, or other equipment or material which could be used to inflict serious bodily harm or death. Additional language was included to clarify that nothing in the prohibition will impair the administration of humanitarian assistance previously provided.

Another general provision prohibits the obligation or expenditure of funds to carry out a test of an antisatellite weapon against an object in space until the President certifies the Soviet Union has conducted a similar test after October 3, 1985.

The bill recommends a provision placing certain conditions on the use of funds provided for the procurement of binary chemical munitions similar to those provisions contained in the House-passed Defense Authorization Act, 1986.

I remind the members of the committee that the majority of the thousands of line-items in the Defense budget remain untouched by the subcommittee and they are funded at the budget request level or the authorized levels.

CONCLUSION

Mr. Chairman, I realize that the bill is not going to please everyone, but I think it is a good bill and I urge your support of the recommendations of the committee. I shall submit a table providing additional details of the bill for the RECORD at this point.

The table follows:

COMPARATIVE STATEMENT OF NEW BUDGET (OBLIGATIONAL) AUTHORITY

	Fiscal year—		House	House bill compared with—	
	1985 enacted[1]	1986 estimates[2]		Enacted	Estimates
TITLE I—MILITARY PERSONNEL					
Military personnel, Army	21,437,593,000	22,712,000,000	21,718,923,000	+281,330,000	−993,077,000
(Transfer from other accounts)	(25,000,000)			(−25,000,000)	
Military personnel, Navy	15,660,246,000	17,221,400,000	16,446,673,000	+786,427,000	−774,727,000
(Transfer from other accounts)	(339,633,000)			(−339,633,000)

[3] Funds are included in individual appropriation accounts.

□ 1100

Mr. McDADE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me begin by commending my colleague, the gentleman from Florida [Mr. CHAPPELL] who just explained in great detail what is in this enormously large and important bill. My colleague and our friend from Florida took over as acting chairman of this subcommittee at a very difficult time, and all of the House, I think, should know that he conducted himself with professionalism all the way through. We are very proud of the job that he did. He sought to run the committee in a very bipartisan way and to make sure all voices were heard, and he accomplished this.

At the same time, we need to know that missing from our presence today is our dear friend and colleague, the gentleman from New York, Chairman JOE ADDABBO, who is recovering in the hospital. As we proceed today with this bill, we know that he, and indeed his lovely wife, Grace, have our warm prayers for a speedy recovery, and we look forward to his resumption of handling this bill as our chairman as his recovery progresses.

Let me say, too, that it has been a privilege for me to work with all of my colleagues on both sides of the aisle, all of whom have made significant inputs into this bill. Mr. Chairman, the subcommittee, as it often does, had substantial disagreements, but we worked to try to achieve consensus on this bill that we could present to the floor. Each and every Member, both sides of the aisle, made such a contribution, and I would be deeply remiss if I did not express to each and every one of them my thanks for their interest, for their understanding, for their willingness to try to do what everyone perceived to be in the best interests of our Nation.

I want to express my appreciation, too, to the staff of our committee which is second to none in the Congress, which provides us with a continuing flow of information and detail, again in a very bipartisan way so that we can attempt to make judgments so that we are confident in, and that we believe we have the facts for. They do so much of the daily, very difficult work in tracking all of the intricacies of this bill, that they deserve the congratulations and plaudits of all of us. They are, indeed, men and women who conduct themselves in the best interest of the Nation.

I do have to make a personal reference to a member of the staff of this committee who has been with the committee for some time and will soon be leaving it to go on to perhaps bigger and better things with the Packard Commission as she assumes a very important role with the Packard Commission. I am referring to Robin Deck,

who has served this committee ably and honorably for many, many years. To her, I want to extend on behalf of all of us, our personal thanks, and indeed, our very best wishes as she goes into her new assignment. We hate to see you leave, but we know you will do a super job at the Packard Commission, which is so important.

Mr. Chairman, as my distinguished friend from Florida has indicated, we went through what was a very difficult time in this bill, both because of the fiscal situation of the Nation and because of the absence, as we got down to the mark, of our very able and distinguished friend, the gentleman from New York [Mr. ADDABBO] whose role was ably filled by my dear friend from Florida [Mr. CHAPPELL].

As he has suggested to you, our bill today provides $276 billion, which is a good deal less, some $27 billion less, than was requested by the President, and roughly $9 billion below the amount that was authorized by the House yesterday with passage of the authorization bill.

The reasons that we arrived at this are very straightforward. The members of our committee, indeed, the Members of this House, feel very strongly about the issue of deficit spending, and they believe, and I believe that defense spending, as critical as it is, must be included as a full partner in the efforts at deficit reduction. And in addition, through the course of the year on some very, very difficult issues, the House has spoken several times on the issue of defense regarding the overall level of spending and, indeed, on individual programs. And through those debates, held throughout the course of this year, in what has been, to put it mildly, an extended discussion of defense issues, there was, I believe, a consensus developing in the House on both sides of the aisle about where we ought to be on a number of those programs.

Our goal as a subcommittee, then, when we sat down with this bill, was to try to respect and to build on that consensus that had been achieved. And our goal was to bring to the floor an appropriation bill for the Department of Defense that we could all support.

As my friend from Florida has said, I believe we have managed to do that, and I hope that all of my colleagues will, indeed, lend their support to this bill without amendment. We bring it to you as a work product that is complex and difficult.

I am not going to attempt to cover the ground that my distinguished friend from Florida did. The report is over 400 pages long, and the bill itself is about 117 pages in length. So I will not attempt to revisit all of those issues.

You need to know that we are about at a freeze for DOD at last year's level, and to do so, we had to, as my friend from Florida indicated, scrutinize every account. None of them were immune. All of them, if you will, made a contribution to achieving the levels of appropriations that we have here.

You should know there is about $13 billion in immediate deficit reduction as a result of this bill, a highly significant amount of money in deficit reduction, and that there are, indeed, a lot of sacrifices. I suppose if we looked at the level of this bill today and discussed it earlier in the year at a level that would be about a freeze, a lot of us would not have believed that we would ever bring such a bill to the floor.

Well, we did and we are here, and we are because of the problems that face the Nation and, indeed, the problems that face our committee as we attempt to get here in the very closing hours of the session perhaps the most important appropriation bill. They are all important, but certainly this bill is second to none in matters of its importance.

Mr. Chairman, I believe that we have achieved a bill that is supportable by Members on both sides of the aisle. I hope, as I have said, that it will be adopted as we have presented it to you.

Mr. Chairman, I reserve the balance of my time.

Mr. CHAPPELL. Mr. Chairman, I yield 10 minutes to the gentleman from Washington [Mr. DICKS].

Mr. DICKS. Mr. Chairman, I too want to compliment the distinguished gentleman from Florida [Mr. CHAPPELL], our acting chairman of the Defense Appropriations Subcommittee, for the quality work that he has done in the absence of our beloved chairman, the gentleman from New York [JOE ADDABBO], in preparing this bill for consideration by the House of Representatives. He has worked with all members of the committee on both sides of the aisle. He has worked with the Members of this House who are interested in defense and national security issues, and I think he has done an outstanding job for which he should be complimented.

I also want to pay respect to the distinguished ranking minority member, the gentleman from Pennsylvania [Mr. MCDADE], who has taken over as the ranking member of this committee. He too has done a tremendous job in crafting this legislation. Our committee has always operated on a bipartisan basis. I also want to compliment our staff, and particularly Robin Deck, who is leaving. We are going to be expecting her to do a lot of work in procurement reform in her work with the Packard Commission and to shape up that part of the defense operation. I know she will.

Reaching the budget target freezing defense spending was not painless. it required some difficult decisions. But we have accomplished this in a way that does not undercut our national security and fully meets our obligation to provide for the common defense.

But looking into the future, I am uneasy about our ability to meet these commitments. I am particularly referring to the implications of Gramm-Rudman on defense spending. I am certainly not saying that defense should receive special treatment in a deficit reduction effort, it must bear its fair share. But the specific provisions of Gramm-Rudman could go well beyond that fair share to create defense disasters in the pursuit of arbitrary and poorly drafted budget targets. The letter of the chairman of the Armed Services Committee, Mr. ASPIN, to Secretary of Defense Caspar Weinberger illustrates just how crippling this legislation could be on the defense budget. It reads as follows:

DEAR CAP, I have been startled by the Pentagon's silence over the Gramm/Rudman legislation to force a balanced budget by 1991. Repeated efforts to get you or someone else from the Defense Department to testify before the House Armed Services Committee have met with refusals. Apparently, since the White House has given its imprimatur to Gramm/Rudman, no one in the Pentagon wants to speak up on how Gramm/Rudman could foul up defense. Although I respect this tremendous loyalty to your commander in chief, I question whether silence demonstrates good stewardship by the political leadership in the Pentagon.

Let me divide the issue into two parts. The first part is the argument I would expect you to be making. The second part is a compendium of facts that disturbs me greatly and that I think ought to disturb all citizens, regardless of ideology.

As you know, Gramm/Rudman establishes deficit ceilings, starting with $180 billion in 1986. In each successive year, the ceiling is reduced by $36 billion until we reach zero—that is, a balanced budget—in 1991. To enforce the ceiling, the legislation orders cuts if the deficit is expected to exceed the ceiling.

The first cuts would be non-Social Security cost-of-living allowances. After that, the remainaing cuts would be determined by a formula. That formula is skewed to impose disproportionate cuts on defense. Defense makes up less than one-third of total federal spending. But if Gramm-Rudman is enacted and the formula kicks in for fiscal year 1986, the formula ensures that half the cuts will come out of defense—at the absolute minimum. The larger the amount by which the deficit exceeds the $180 billion ceiling, the larger will be the slice cut from defense. The defense portion could rise to almost two-thirds, or double the share one would expect defense to contribute.

One reason for this skew is the decision to exclude such programs as Social Security from any cutbacks at all. But the hit on defense is further ballooned by the decision to include existing defense contracts in the pool of funding to be cut, while excluding most existing contracts for domestic programs.

Many liberals can and will argue that this is a fair distribution of cuts. In truth, this formula will save many domestic programs

from meat-ax cuts, though many will still be badly chewed up. But what startles me is the Defense Department's silence in the face of this formula. For years, I have been hearing from you about the crucial significance of a major defense buildup. In recent months, we've been told how devastating it would be if defense budgets were held to only 3 percent annual growth in the next five years. Now, everyone is talking about a proposal that would not only force huge cuts in defense, but disproportionate cuts as well, and the word from the Pentagon is . . . silence.

I would observe, Cap, that you are painting yourself into a corner from which it will be almost impossible to argue for further defense increases. If the administration is going to worship at the altar of Gramm/Rudman, it is going to have to kiss the defense buildup goodbye. In fact, with Gramm/Rudman in place, you are going to preside over the largest peacetime defense cutback in history.

In your only public comment on Gramm/Rudman to date, you responded to a direct question from Human Events as to whether Gramm/Rudman could "impinge on defense outlays" by acknowledging, "Yes, it could"—but then promptly shifted into neutral gear. You said the president "would not feel required to make reductions in defense." What are you guys smoking over there? Is anyone over there reading this document? Such a statement makes sense only if the president intends to violate his oath of office and ignore the Gramm/Rudman statute.

There are other, less ideological problems with Gramm/Rudman that are causing me to lose sleep. If I were to try to sum it up in one sentence without resort to unnecessary, emotion-laden terms. I would have to say that it is just about the dumbest piece of legislation I have seen in my 15 years on Capitol Hill. Certainly, it is the dumbest piece of legislation to be given serious consideration by Congress.

There is a fundamental flaw in Gramm/Rudman that results from the conflicting concerns of Congress. Congress wants the deficit cut, but it doesn't want to give the president the opportunity to reshape national priorities—since that would effectively rewrite the Constitution by removing the legislative branch from the priority-setting process.

To make budget cuts rationally, you want to make them in lower-priority programs—and determining priorities is part of the political process. If you give the president the authority to choose where the ax will fall, you let him set priorities—and you give him the option of taking punitive action, like closing military bases in the districts of congressmen who don't support his programs.

To forestall such problems, Gramm/Rudman has laced together a legislative straitjacket that denies the president any priority-setting authority and instead imposes a strict formula for sequestering funds. It's ironic: in order to make sure the president cannot make cuts we dislike, Congress is prepared blindly to put in place a formula that forces cuts nobody wants.

Perhaps most astounding is that a 10 percent cut, which is quite possible in the fourth year of Gramm/Rudman, could force the firing of almost one-third of all those in uniform. Yes, one-third; 674,000 of the 2,150,000 persons in uniform. That's the equivalent of eliminating the Marine Corps—three times.

Will someone over there please read the fine print in Gramm/Rudman? The 10 percent cut would be imposed on each line item. The payroll for each service is a line item. Gramm/Rudman does not allow cuts in salary—so you have to lay people off. But a 10 percent cut in funds doesn't equate to a 10 percent cut in people. First, the firings won't take place until a month into the fiscal year. Then you have to pay to move these people and their furnishings home. And you have to pay them accrued leave. And there's a provision that prevents you from touching much of the money that has to be paid into the retirement fund. The synergism of this small print forces you to reduce the armed forces by almost a third to meet a 10 percent spending reduction. Ridiculous?

The straitjacket approach means that cuts have to be made even when they are plain bad management—even if they are patently ridiculous. You can see that in the weapons area, where Gramm/Rudman mandates that you shave equal amounts off every weapon system—not 20 percent off a low-priority program and none off a higher priority program.

For example, let's say that Weapon A has been in production for several years and Weapon B is due to start production this year. The logical decision in a resource cutback is generally to take the entire cut out of Weapon B—by simply not starting production this year—and leave Weapon A untouched. But the Gramm/Rudman language forces you to produce both weapons and, probably, to produce both at uneconomic rates. You could well end up cutting the budgets for Weapon A and B by 10 percent, but cutting the numbers produced by 20 percent.

Take the example of the E-6A TACAMO aircraft. There are two of them in this year's budget for $402 million. But because of all the overhead costs, one aircraft would cost only about $40 million less than two. Thus, a cut of 10 percent in funding would cut production by 50 percent.

Another example is the infamous DIVAD air defense weapon, which was recently killed by the Pentagon as a flop. Under the Gramm/Rudman formula, an across-the-board cut of 10 percent would mean the Pentagon would only get credit for 10 percent of the savings from killing DIVAD. In other words, there would be no incentive to kill it. We couldn't even use the drastic budget-cutting formula of Gramm/Rudman to get rid of dogs like DIVAD.

Look at construction projects. The legislation says the president must make equal cuts out of each program listed in Appropriations Committee reports. Each construction project is listed in those reports. If we have funded 100 dams and must cut 10 percent, we can't just build 90 dams, we have to build 90 percent of each of the 100 dams. For military construction, we list individual buildings. Gramm/Rudman forbids that any project be killed. This presumably means that we will have to eliminate pieces of buildings—skip the top floor, don't put in air-conditioning, cut the number of restrooms. It's anyone's guess how it will be done. One possibility that worries me is that cheaper materials will be used so that the structures will simply deteriorate more quickly and we will face huge maintenance bills in the out-years.

Another anomaly is in shipbuilding. If Gramm/Rudman were to be triggered in fiscal year 1986, the *minimum* amount of spending that would have to be cut from each program would come to 2.6 percent. But to stop that amount of *spending* in the shipbuilding account—where appropriated funds spend out slowly—would require the president to sequester 51 percent of the new budget authority for each ship program. This is budget arcana that is difficult to understand even if you are born with a green eyeshade. But the effect is easy to comprehend. Many FY '86 programs provide for only one ship. If you cut budget authority in a one-ship program by 51 percent, you can't build that ship. Applying that to the 26-ship plan in the 1986 budget, you would only be able to build 12 ships—at most.

One of the strangest impacts of Gramm/Rudman would fall on the M-1 Tank. The legislative formula, run through all its permutations, would require that at least 112 percent of the 1986 funds authorized for the tank be sequestered if Gramm/Rudman were to kick in. That is admittedly an extreme case. As near as can be calculated, out of the few thousand line items in the defense budget, at least 53 would require the sequestration of more than 100 percent of the 1986 funds appropriated.

In outlining how Emperor Gramm/Rudman has no clothes, I have tried to be as precise as possible. There are many ways in which this legislation might be even more damaging than I have outlined, but the vagueness of the language prevents an analysis of the impact. Even the sponsors of some of the provisions are often unclear. One amendment to Gramm/Rudman that passed the Senate had Lawton Chiles of Florida declaring to the Senate three times, "There is no mechanism that would allow the president to cut Medicaid or AFDC [Aid to Families with Dependent Children]." Only minutes later, fellow sponsor Pete Domenici of New Mexico told the Senate, "They [Medicaid and AFDC] may be sequestered." There is an imprecision here that looks all too much like we are spinning a wheel of misfortune on some television game show.

The litany of ridiculous effects that I have outlined begs a question: Why is no one speaking up for defense? And in particular, what about you? In the Nixon administration, you were called Cap the Knife. Later in the Pentagon, it was Cap the Ladle. If Gramm/Rudman goes into effect with your aquiesence, it will be Cap the Meat Ax.

Today I want to talk briefly about an issue that I think is of significant concern to all of us. That is the opportunity that we will have, I hope, in Geneva in the next several weeks. The President will be meeting with Mr. Gorbachev to discuss a variety of issues. Many of us in this House have worked over the last several years to put the President, by supporting his modernization programs, in a position to reach an agreement with the Soviets. It is very clear, in my judgment, that the Soviets are interested in getting an arms control agreement. I think a lot of that derives from the President's proposal for the strategic defense initiative. I think that that has provided powerful leverage that has convinced the Soviets that it is now time to go back to the bargaining table and to try and reach an agreement with the administration.

I happen to believe that this is an historic opportunity, but one that will not last forever. So I am hopeful that

as the President now prepares his counterproposal, which I think is a very positive indication, that he will come to grips with the reality of what it will take to get an agreement with the Soviet Union.

For the first time in history, the Soviets have actually made a proposal, a counterproposal, which calls for a 50-percent reduction in offensive weapons. They have not in the past made those kinds of proposals.

But it is clear that they feel that their national interests must be served in this negotiating process, and they are asking something of us as we have asked of them, and that is that there not be further erosion of the ABM agreement.

Just yesterday, Leslie Gelb, a distinguished reporter from the New York Times, in a very lengthy article, described the fact that the Soviets for the first time have, in a sense, admitted that the Krasnoyarsk radar is an illegal radar, and have suggested a trade off with several radars, one in Greenland and one in England as a possible way of dealing with this very serious compliance question that has bothered all of us. I think that is a demonstration of flexibility on their part. Clearly they want to see the United States continue to adhere to the ABM agreement.

Many of us in this House and this Congress have been deeply concerned about the reinterpretation of the ABM agreement coming just 1 month before the summit. But we are pleased that Mr. Shultz has announced that the administration will adhere to a restrictive interpretation for the foreseeable future. I find that not totally satisfying. I think that the proper way to deal with this issue, if we were concerned about this gray area, is to go to the Standing Consultative Commission in Geneva, and in a confidential way probe with the Soviets and see if we could come up with a coherent and agreed viewpont of what the treaty really does mean in this particular area.

□ 1115

On the basis of what the negotiators have said, including Mr. Girard Smith, and Mr. John Rhinelander, and the 13-year interpretation, it is clear in my own view that the restrictive interpretation is the correct interpretation.

I am deeply disturbed that we find ourselves in the rather ludicrous position of the United States abiding by a restrictive interpretation while we say the Soviets could legally go forward on a more expansive interpretation.

So I still hope that that issue will be presented at the SCC, and we work this out.

Now some have suggested that this is really a way of trying to leverage the negotiations. On the one hand, the Soviets for a while were saying there should be no research at all; and on the other hand we were saying that we would adhere to the ABM agreement, which does limit research on these mobile systems.

I think the SCC is the place to work this out. I just hope that the President's great hope and dream of a strategic defense initiative, will not mean that he will not understand that the Soviets are going to want to see adherence to the ABM agreement. I think that if there is a commitment on our part to adhere to ABM into the future, that we can get the deep reduction which were the initial arms control objective of this administration.

I hope we do not miss a historic opportunity to lower the number of nuclear weapons on both sides by stonewalling in Geneva on this question.

The President has a reputation as a shrewd negotiator, as a great poker player. I hope that what we are witnessing is the buildup to that kind of a shrewd deal, because I believe if we miss this opportunity, then we are going to see the Soviets resort to old tactics of building up their offenses to make certain that they can counter any defense that we deploy in the future. A lot of people whom I respect have very serious questions about the technical feasibility of a complete shield over the United States. But it will be much more likely that SDI could prove feasible if there were deep reductions in offensive nuclear forces.

I am hopeful, as someone who has tried to support the modernization program and has supported SDI research, that we do not miss this historic chance for an arms control agreement that our allies want, that the American people want, and the people of the world deserve.

I yield to my friend, the gentleman from Oregon [Mr. AUCOIN].

Mr. AUCOIN. I appreciate the gentleman yielding, and I compliment him for the statement he has just made.

I do not think the gentleman from Washington [Mr. DICKS] needs to take a back seat to anyone in terms of supporting, where he feels it is wise, the administration's modernization program. In fact, the gentleman and I have been at odds with each other on a number of those questions, when he felt, in his own judgment, that the administration was right on certain modernization questions.

Mr. Chairman, the statement the gentleman is making now is an extremely good one. This President, adamant as he has been against every arms control treaty that the United States has entered into with the Soviet Union, has a unique opportunity.

He can either use history as his constituency, and strike a bargain that can result in the deep cuts in offensive weapons that he set out originally to seek at the negotiating table, or on the other hand he can proceed, in what I believe to be a fantasy, that will not be played out with the final verdict being rendered for 10 years or 15 years or more; and let that fantasy allow him to drop the opportunity.

Mr. DICKS. Reclaiming my time, I think the gentleman and I would both agree: First, that the research should go forward, absolutely; and the Russians are wrong when they say no research.

Mr. AUCOIN. I agree with the gentleman.

Mr. DICKS. Second, the Soviet proposal has some warts in it; they threw in the British and French missiles, intermediate range missiles, things of that nature which they have always fallen off of in the past. So we have got to go back with a counterproposal in order to try to engage them and get that agreement.

But adherence to the ABM agreement seems to me to be fundamental to whether we are going to get those deep reductions. It seems to me that that is consistent with the President's objective. If defense proves feasible 10 to 15 years down the road, we can reconsider but let us not make that judgment now.

What I hear so many people saying is, "Let's deploy now. Let's deploy something now. Let's get something in the field now." I would rather do the research and then find out whether this thing is going to work or not.

Mr. AUCOIN. If the gentleman will yield further, in the meantime use the restraint at the bargaining table to get and obtain any treaty, the deep cuts in offensive weapons that the gentleman wants and the President has said since his inauguration that he seeks.

Mr. DICKS. If we do want to go ahead with SDI at some point in the future, some limited defense in the future, it will work better in the context of vastly reduced offensive forces.

General Abramson has said it: "We've got to maintain the arms control structure if SDI is going to work."

The CHAIRMAN pro tempore (Mr. DORGAN of North Dakota). The time of the gentleman has expired.

Mr. CHAPPELL. Mr. Chairman, I yield 2 additional minutes to the gentleman from Washington [Mr. DICKS].

Mr. DICKS. It seems to me, Mr. Chairman, that maintaining the basic arms control structure and not letting it get swept away is the way to ensure that defense is an option in the future.

If not, if we miss this historic opportunity and resort to a classic arms race, then the Soviets are going to build up their offensive forces, build up potential countermeasures that will make defense much harder to transition in at some point in the future.

Mr. AUCOIN. Will the gentleman yield on that point?

Mr. DICKS. Yes, I yield.

Mr. AuCOIN. I think what the gentleman is saying is extremely important. I hope that the administration pays some heed to it. I know that there are voices within the administration who agree with the gentleman. Unfortunately, there are also voices within the administration that disagree, and that is one of the things that causes me some concern and I know it does other Members of Congress who are concerned about seeking an arms control treaty in a climate in which we can have real security, that division that seems to be within the ranks of the administration on the question the gentleman has raised.

What he is saying is that in the absence of deep cuts in offensive forces guaranteed by a verifiable treaty, the idea of defense becomes absolutely preposterous because it is cheaper to invest in offensive systems to overwhelm that defense, than it is to construct and deploy the defense.

I think the gentleman from Washington [Mr. DICKS] has made an extremely important point.

Mr. DICKS. Reclaiming my time, Mr. Chairman, I want to end on this note: Every one of us wishes the President well. Every one of us realizes that the Soviets are very difficult to negotiate with, but this President has an oppportunity that no other President during this century has had to strike a bargain that could do more for world peace than any other achievement that I can think of.

This summit will either be the start of that process toward that agreement or it could be one of the great missed opportunities. I hope and pray that it is not the latter.

Our colleagues in the other body, Senators NUNN and COHEN, summed up the situation well in a column published in the Washington Post yesterday entitled, Arms Race, Breakthrough or Breakdown?" It stated:

Mikhail Gorbachev has announced his solution to the arms race; a mutual 50 percent reduction in offensive strategic weapons in return for an end to the Strategic Defense Initiative program. This 50 percent solution, designed to sound eminently reasonable to a variety of audiences, contains the potential for both breakthrough and breakdown.

The flaws contained in the proposal are apparent. The effects are heavily weighted in the Soviet Union's favor. It should be noted, however, that it is not unprecedented to find a party to a negotiation placing a heavy hand on its side of the scales. It is important to bear in mind that we are witnessing the dance of diplomacy, not the pouring of concrete. This is the beginning of the process and not the end product.

We believe President Reagan should respond to Gorbachev's proposal with something that is positive, strategically sound and politically sustainable. This last requirement should not be underestimated, for the Soviets have at least three major objectives in mind: 1) to stop "Star Wars" research; 2) to divide the NATO alliance, and 3) to undermine future congressional and public support for the president's strategic modernization and defense programs. It is unlikely that the Soviets can achieve their first goal, but if they can paint Reagan as being inflexible and uncompromising, then they may be able to win in Western Europe and indirectly in Congress what they could not achieve in Geneva.

Reports abound that guerrilla warfare is being waged within the administration between those who see no benefit in dealing with the Soviets except on our terms and those who see advantage in reaching a compromise. This battle should not be fought or concluded without a wary eye being cast on Capitol Hill. Congressional support for strategic modernization and defense programs has been predicated upon good-faith efforts to achieve dramatic reductions in offensive nuclear weapons. It would be a mistake, therefore, to focus only on the negative aspects of the Soviet proposal without attempting through serious negotiations to set the scales back in balance.

A sober analysis of the Soviet proposal should reveal that there are grounds for progress beyond the obvious one-sided advantages. The Soviets have dropped their unacceptable preconditions for discussing offensive reductions, and for the first time have proposed a specific numerical ceiling on nuclear warheads, a longtime U.S. objective. Moreover, there proposal would require substantial (though still insufficient) reductions in their destabilizing force of MIRVed ICBMs.

But other elements of the proposal are clearly unacceptable and prejudicial to Western security interests, such as the exemption from the proposal of all Soviet systems targeted on Europe. It remains now for the president to applaud the positive principles and seek to convert the negative components and tactics into an equitable agreement.

To accomplish this, the president must invite the Soviets to join him in searching for a mutually acceptable formula for achieving stability. For example, he should refocus attention upon a critical element underplayed in the Soviet proposal: the need for strong incentives to reduce the number of land-based, MIRVed missiles well below the levels permitted under the Soviet proposal. It is the high ratio of these vulnerable, counterforce weapons to their assigned targets that causes a tightening of the finger on the nuclear trigger. Both countries seem to be moving dangerously close to a launch-on-warning strategy—the firing of the most accurate, destructive and vulnerable weapons upon the first warning that they are about to be attacked.

There are a number of ways to move toward greater stability. One approach, which we called the build-down, was adopted by the president in 1983 with broad congressional backing. Among its elements:

An immediate cap on the number of nuclear warheads;

Reductions in warheads through a requirement that deployment of new nuclear warheads be accompanied by elimination of a greater number of existing warheads;

A similar reduction in bombers;

Formulas aimed at channeling modernization in stabilizing directions such as mobility and single-warhead missiles;

Negotiation of trade-offs between bomber payload and missile throw-weight.

Unfortunately, this proposal fell victim to insufficient development by the administration in discussions with the Soviets and to the Soviet walkout from Geneva in 1983. But subsequent events, including informal Soviet commentary and the present Gorbachev proposal, indicate a compatibility with key principles of the 1983 proposal, although there are differences over the specific formulations.

A key new ingredient, however, has been added since the 1983 Geneva talks: stategic defensive weapon systems. The administration argues that SDI was a major reason for the Soviet decision to return to the negotiating table. Yet in his recent press conference, the president appeared to rule out the possibility of negotiating any restrictions on the development and testing of "Star Wars" until we know whether these weapons are feasible—in short, several years from now. This position, if true, makes any progress in Geneva very unlikely. And a stalemate in Geneva would offer the Soviets a means of furthering their objectives in undermining domestic and Allied support for needed modernization programs.

The United States can propel the negotiations forward by adopting an approach that addresses SDI and is consistent with our objectives programs.

While maintaining a reasonably funded research program, we should discuss with the Soviets what constitutes allowable development and testing under the provisions of the ABM Treaty. In the two years since the president's original "Star Wars" speech, the Soviets have come up with interpretations of key treaty limits that are far more restrictive than what we agreed to in 1972. Over the same period, the administration has been forumulating increasingly permissive interpretations of the relevant treaty provisions to allow as much of the SDI to go forward as possible. A reasonable middle ground would be for both sides to agree to live with the restrictions on development and testing that were mutually accepted at the time the treaty was signed. This is, after all, the legal obligation of both parties.

We should inform the Soviets that we are prepared to reexamine the scope and pace of a possible transition to increased reliance on strategic defenses if they are prepared to do three things: agree to meaningful and stabilizing reductions in strategic and intermediate-range nuclear forces, satisfy U.S. concerns regarding current violations of existing strategic arms control agreements (including the construction of the radar at Krasnoyarsk), and work with us in identifying realistic and verifiable breakpoints between research and development beyond which their SDI and ours would not be allowed to progress.

It is not necessary for the president to reach an accord with Gorbachev to preserve congressional support for his programs. But a Reagan "nyet" is not enough. If a budget-conscious Congress perceives that opportunities for an accord were deliberately ignored or sabotaged, then it is unlikely to retain enthusiasm for those programs high on the president's agenda. Good faith could become a line item—one the president has the power to veto.

Mr. AuCOIN. Will the gentleman yield?

Mr. DICKS. Yes, I yield.

Mr. AuCOIN. I appreciate the gentleman's statement. I think it is a sincere one; it is extremely well thought out. I would agree with the gentleman.

President Reagan has no other election that he will stand for. His judge from this point forward is going to be

history. He has an opportunity, and I join the gentleman in his statement.

Mr. McDADE. Mr. Chairman, I am pleased to yield such time as he may consume to the distinguished gentleman from Florida [Mr. YOUNG], a member of the subcommittee.

Mr. YOUNG of Florida. Mr. Chairman, I thank the gentleman for yielding me the time. Before I begin, I want to say that we missed the chairman of our subcommittee, Mr. ADDABBO, during the drafting of our bill and hope he is back with us soon. I want to complement my friend and colleague from Pennsylvania [Mr. MCDADE], the ranking Republican on this subcommittee. He has done a very effective job in helping to fashion a bill that I think is acceptable to a vast majority of this Congress as well as to the people of the United States.

I further want to compliment my colleague from Florida [Mr. CHAPPELL]. It is a pleasure to work with BILL CHAPPELL, and as the acting chairman of this committee he has done an extremely fine job, and it goes without saying that I am very proud that a colleague from Florida would have that opportunity.

Mr. Chairman, we have brought to the floor today a defense bill that is very unusual; it is less than it was last year. You have heard some of the figures, but this bill is actually 3.64 percent less than the fiscal year 1985 appropriations bill for national defense, and that is somewhat historic.

This committee has a right to be proud of being able to do that when the fact is considered that we did it without severely or adversely affecting any of our defense systems.

We could do it because of pressure and influence from the administration; from the members of this subcommittee; and from the members of the Committee on Armed Services who are determined to eliminate cost overruns from our process. We are determined to get as much as we possibly can for the American people for their tax dollar.

We did it by bringing about savings such as in the F-18 program where we are going to get the same amount of F-18's this year as we had originally planned; 84 new airplanes, but we are going to get those 84 new airplanes for $340 million less than the price that we expected to pay for those same airplanes just a few years ago.

We are buying four attack submarines this year; we are going to get those attack submarines for a little over $42 million less per submarine than we had initially expected to pay for them.

There are many other examples of savings because of multiyear procurement practices and because of very close negotiation with contractors. We have been able to bring this bill in to provide a strong defense at less money than last year.

The bill continues to reflect the mood of the American people who support a strong national defense. We have carefully reviewed the Department of Defense's requests, line by line, and I believe we have been successful in providing the strongest national security possible at the lowest cost to the American taxpayers.

We have trimmed the fat out of 329 research and development programs, at a savings of $5.2 billion, and we have made reductions in 357 procurement programs at a savings of $13.4 billion. In all, the bill is $27.6 million below the President's request and $1.5 billion less than amount provided in last year's bill.

We have examined thousands of defense programs in preparing this bill—many of which little is written but provide an important element for our national defense. For instance, our bill provides funding for development of very high speed integrated circuits, a fascinating program that makes a quantum leap in the speed and accuracy of our data processing capability to enhance the performance and reliability of many weapons systems.

The bill provides funding for over the horizon radars, which provide us with a far greater ability to detect enemy intrusion into our air space. The Soviets have had a similar system for many years.

We have provided for the improved training of our air crews with the tactical aircrew combat training system and the air combat maneuvering instrumentation ranges. These systems are so effective that we hope to increase their use by the National Guard and Reserve.

The Army tactical missile system is a new system which provides us with deep strike conventional capability in Europe. This is a key to preventing nuclear confrontation there.

The Askeet, Eram, and Sadarm systems of "smart munitions" allow us to multiply our forces more effectively.

We have developed a propeller, fixed-wing aircraft that can take off vertically.

This is not to say that the bill does not have some deficiencies. Among the programs not funded, but I believe are important to our future defense posture, is the "Amraam" air-to-air missile system. The Soviets are in the process of developing a similar system, and will take the lead in its production without our continued research in the field.

We need the "J-stars," system to give our troops in the battlefield better intelligence, but the bill cuts funding for this program from $240 million to $60 million.

We need an effective Asat antisatellite weapon, to counter the Soviets, who have developed the worlds only operational Asat system.

As for the strategic defense initiative, I'm pleased that the bill provides funding for this new system which as conceived, would be the ultimate deterrent to nuclear attack against our Nation. Some people say we should fund SDI research and development at $1.7 billion this year, some say $1.9 billion, and others say $2.1 billion. Our committee devoted much time and study to this program, reviewing the SDI office's five program elements and 73 tasks. The committee decided to fund SDI at $2.5 billion in fiscal year 1986. If you look at the hearing record, you will see that many of us wanted a higher figure. We have been assured by General Abrahamson, however, that this funding level will allow the office to pursue its second year of work on the program. Any level below $2.5 billion would have resulted in a curtailment of last year's work, which I might note has been highly successful.

The programs I have discussed here are an indication of our Nation's great military strength. The American people can be proud of our national defense forces, which are an instrument of freedom throughout the world.

The American people can also be proud that our Nation's military power has never been abused. We have never been a threat to the freedom of any other nation.

We have never used our powerful military strength to eliminate the national identities as the Soviets have done in the Ukraine and the Baltic States of Estonia, Latvia, and Lithuania.

We have never used our military power to oppress the rights of people as the Soviets have done in Hungary, Poland, and Czechoslovakia.

We have never use other nations as surrogate hoodlums to roam the world and terrorize innocent people as the Soviets have done with Cuba and Vietnam in Angola and South East Asia.

And we have never invaded another nation and undertaken a policy of near genocide as the Soviets have done and is still doing in Afghanistan. A nation of farmers and tribesmen whose only crime is that their country is strategically located between the Soviet Union and the rich oil fields of the Middle East.

Let me remind you that at the end of World War II, we were the only Nation with a nuclear capability. Yet, if you look at a map of the world today, it is the Soviets who have overtaken nations on almost every contient. I ask you—what would the map of the world look like today if it had been the Soviet Union who had the only nuclear capability at the end of World War II?

In closing, I cannot compliment enough the Members of the Defense Appropriations Committee and especially the gentleman from Pennsylvania [Mr. McDADE] and the gentleman from Florida [Mr. CHAPPELL], who managed the markup sessions of this committee and the truly effective and capable staff that we have had working with us as we go through these million of items that the Defense Department buys every year.

□ 1125

Mr. CHAPPELL. Mr. Chairman, I yield 3 minutes to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I would like to applaud the Appropriations Committee for the fine work they have done on the bill that we are considering today. It contains several very important provisions which more accurately reflect the will of the House as it was expressed in votes on the Defense authorization bill in June.

Lowering the Defense budget $10 billion below that agreed to by the conference committee is certainly a move in the right direction. That makes it equal to the $292.6 billion passed by the full House. I am pleased that funds for chemical weapons production were deleted for fiscal year 1986. And, on a subject close to my heart, I am grateful and proud that the full committee agreed to include the package of military procurement reforms which passed resoundingly in the House, only to be severely compromised in the authorization conference. Three of those bills, the first defining allowable costs, the second mandating multiple sourcing on weapons contracts, and the third closing the revolving door, are simply the same language passed by the House and contained in the authorization bill. The fourth is my should-cost amendment. It differs from the original House passed version in that it specifies that contractors for current weapons record their proposed and ongoing costs. This was the original intent of the amendment which passed as part of the authorization bill, but due to language in the conference report, it appeared as if current contracts would not be covered. This should-cost language is essential if we in Congress, or procurement officials in the Department of Defense, are to have ready access to information about where and why the alarming cost increases in our weapons programs are occurring.

I would like to thank my colleagues, the gentleman from Oregon [Mr. AUCOIN] and the gentleman from Washington [Mr. DICKS] for successfully sponsoring those amendments in the committee. I know that the committee members will work to protect the amendments in conference committee negotiations with the Senate because they show our real commitment to procurement reform. They also demonstrate that we are willing to stand up to those who would rip off the public in the name of patriotism. We have faith that the compromise legislation that emerges will be substantially tougher than that produced by authorization conference because the people we represent expect nothing less.

We must send a clear message to those who take advantage of the taxpayer, that this Congress is serious about instituting reforms to restrain runaway costs, and to ensure that the weapons we buy are necessary and reliable.

Mr. McDADE. Mr. Chairman, I yield such time as he may consume to my colleague, the gentleman from Ohio [Mr. MILLER] a member of our subcommittee.

Mr. MILLER of Ohio. I thank the gentleman from Pennsylvania for yielding.

Mr. Chairman, although I am not a new member of the Appropriations Committee, this is the first year I have served on the Defense Subcommittee, and I want to take this opportunity to say what a pleasure it has been to work with all the members of this subcommittee. I have been impressed by the diligence and expertise of each of the members. Furthermore, although many different political opinions are represented on this subcommittee, the work on this bill was accomplished in a cooperative spirit.

I enjoyed serving under our chairman, JOE ADDABBO, during the earlier part of the year. And along with other members of the subcommittee, I want to commend BILL CHAPPELL for the excellent job he did in stepping in to chair the subcommittee and full committee markups when our colleague from New York became ill. I want to thank both JOE and BILL for the courtesy and fairness they showed in chairing our subcommittee. Our colleague, JOE MCDADE, who this year became ranking minority member of our subcommittee, has made significant contributions to this bill, and I want to thank him also for his kindness and cooperation in working with the other members.

Last, I want to thank our subcommittee staff for all their assistance. The staffers on this subcommittee are outstanding. They are hardworking, dedicated, very helpful, and exceptionally competent. We are fortunate in having this group of people to assist us on this complicated bill.

The bill that we bring before you today is a good bill. Undoubtedly, there are things that each of us would change in this package. But overall this bill strikes a good balance between the need to maintain a strong national defense and the need to reduce expenditures in the face of our serious budgetary difficulties. At $276.3 billion, this bill is $27.6 billion below the administration's request. It is $853 million below our 302(b) allocation for new budget authority. And it is $1.5 billion below the fiscal year 1985 level.

My colleagues will recall that the administration requested 6 percent real growth for defense, but the bill we are bringing you today maintains a freeze level. Clearly, the defense bill has not been exempted from our deficit-reducing cuts, and that reduction effort has my support. I feel that, given our current budget constraints, it was necessary to reduce spending for defense, just as we have found it necessary to reduce other areas of Government spending. But I do want to mention that I think there are some misconceptions about defense spending, and I want to address these briefly.

A major misconception is that never in our history have we spent such a large proportion of the Federal budget on defense, and that it is defense spending that has caused our current budget difficulties. In fact, during the last 6 years (1980–85) defense spending has averaged 25.2 percent of Federal outlays. By contrast, defense spending accounted for more than 59 percent of Federal spending throughout the 1950's, and averaged 46.4 percent in the 1960's. It declined during the 1970's, averaging 27.5 percent for the decade and reaching a low of 22.7 percent in 1980.

A similar curve appears when we examine defense spending as a percentage of GNP. During the last 6 years, defense spending has averaged 6.1 percent of GNP. This compares with a 10.9 percent average for the 1950's, and 9.1 percent in the 1960's, defense spending declined to an average of 5.8 percent of GNP during the 1970's.

Therefore, clearly the current levels of defense spending are by no means a historic high in terms of the percentage of our Federal budget and the percentage of our gross national product being devoted to defense.

It is also worth noting that the 1970's—the decade in which we were showing such restraint in defense spending—witnessed a massive military buildup on the part of the Soviet Union, a buildup far in excess of that nation's defensive requirements. I am reminded of Prime Minister Margaret Thatcher's address to a joint session of Congress earlier this year. Mrs. Thatcher said:

> We shall have to resist the muddled arguments of those who have been induced to believe that Russia's intentions are benign and that ours are suspect, or who would have us simply give up our defenses in the hope that where we led others would follow.

Mrs. Thatcher's remarks are pertinent because we have learned from experience that the Soviets certainly did not follow our lead in the 1970's, but instead embarked on a major and destabilizing program of military growth and modernization.

Elsewhere in her address Mrs. Thatcher said:

> Our task is to see that potential aggressors from whatever quarter understand plainly that the capacity and the resolve of the West would deny them victory in war, and that the price they would pay would be intolerable. That is the basis of deterrence.

This highlights another misconception about defense spending—namely, the view that defense spending is a luxury, rather than a necessity, and that—unlike other Federal spending programs—it does not help people. The fact of the matter is, we are required to spend money on defense because there are external threats to this Nation and to the free world. None of us likes having to spend such large sums on defense, but these expenditures are necessary to preserve our freedom and to deter aggression which leads to war. And preserving peace and freedom certainly helps people. In fact, each and every American benefits from our national defense, which enables them to live in a nation which provides more freedom, greater prosperity, and greater opportunity to a greater number of people than any nation in the history of the world. If we want to compare national defense to other Federal programs, we would have to say that it is the one program which benefits each and every American equally.

Others have already given details about the contents of our bill, and I will not duplicate the information already provided. but I do want to mention one item in particular, and that is the B1-B strategic bomber.

Many of you will remember that the issue of a new strategic bomber was the subject of heated debate and close votes on the floor of this House over a period of many years. The bill before us today contains $4,861,800,000 for 48 B1-B bombers. These 48 aircraft will complete the planned purchase of 100 of these planes. The bill also provides $162,200,000 for initial spares and repair parts. The $4.9 billion figure is $600 million below the administration request, but this reduction is partially offset by $300 million in transfers from prior years, and is not expected to have an adverse impact on B1-B procurement.

I consistently supported the building of the B1-B bomber. In view of the controversy that surrounded this program here in Congress, I think that it is worth noting that the B1-B program has been an outstanding success. The first operational B1-B bomber was delivered to the Strategic Air Command in June of this year. Production has been ahead of schedule and under budget, and the aircraft is performing up to expectations. It is too early to know what the bottom line will be on total program cost, but indications are that when the final bills are paid, the total B1-B program cost for 100 aircraft will not exceed the $20.5 billion in constant fiscal year 1981 dollars which the President certified in 1982.

The B1-B is half the size of our old B-52's and can fly twice as fast. It can perform the multirole missions of a conventional bomber, a cruise missile launch platform, and a nuclear weapons delivery system. It represents a necessary and important modernization of the air leg of our strategic triad. The B1-B program has been well-administered; the plane has been well-constructed; and the Nation will be more secure when we have this aircraft in our defense arsenal. In short, there are defense success stories as well as horror stories, and I think that recently we may have been concentrating on the latter without paying sufficient attention to the former.

In conclusion, I would urge my colleagues to support this bill. It fulfills our responsibility as Members of Congress to provide for the common defense, and it does so in a fiscally responsible manner.

Mr. CHAPPELL. Mr. Chairman, I yield 1 minute to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. I thank the gentleman for yielding time to me.

If the gentleman would engage in a colloquy regarding the Trident, I would appreciate it, Mr. Chairman.

Mr. Chairman, it is my understanding that the Navy this month offered to supply Trident submarine blueprints and technical papers to Newsport News Shipbuilding & Drydock Co. in order that the company may consider submitting bids for Trident construction in the future. While I have no problems with competition in general, I am concerned that in the Trident program, which is a very mature program, we might have to expend a great deal of money to entice another competitor into the business at this late date. In any case, Mr. Chairman, I have been informed that there are no funds in this bill earmarked for direct payment to gear up Newport News to enter Trident competition. Is that correct? I yield to the gentleman for an answer.

Mr. CHAPPELL. Yes, the gentleman is correct.

Mr. GEJDENSON. May I request, Mr. Chairman, that Congress be informed in a timely fashion should the Navy choose to use any nonearmarked funds in this bill for the purpose of gearing up Newport News to enter Trident competition?

Mr. CHAPPELL. Mr. Chairman, if the gentleman would continue to yield, that is entirely appropriate, and we shall endeavor to do so.

Mr. GEJDENSON. Mr. Chairman, I thank the chairman of the subcommittee.

Mr. McDADE. Mr. Chairman, I yield such time as he may consume to my distinguished colleague, the gentleman from Louisiana [Mr. LIVINGSTON].

I appreciate the gentleman yielding. Mr. Chairman, I would like to take this opportunity to echo the remarks of my colleagues in commending the work of all the members of the subcommittee on this bill, and particularly the efforts of acting chairman CHAPPELL who have most ably filled in in the absence of our beloved chairman, JOE ADDABBO. BILL CHAPPELL has performed extraordinarily under most adverse circumstances, and he has been fair to all members of the committee throughout the consideration of this bill.

I also want to commend our Republican leader, JOE MCDADE, for an outstanding job of craftsmanship. Through his hard work and strong efforts, we now have a bill which I firmly believe the entire House of Representatives can support.

I also want to pay particular tribute to all of the professional staff, without whose expertise in their various fields we simply could not have brought this bill as far as it has come. With their superlative work, each of us as Members have been able to keep on top of the extremely complex issues wrought throughout the bill.

Mr. Chairman, this is a good bill. It keeps most of the vital defense programs of the United States intact, while it also keeps a lid on the levels of defense spending for fiscal year 1986 substantially at the same level of fiscal year 1985. While we have not reached the levels requested by President Reagan, we have made some tough decisions in keeping with the eonomic situation of this country, and like all tough decisions, not all of them have been favorable to any single member of the committee or of this House. It is indeed a compromise bill, and I think it is one that we as a body can ably and with good feeling support.

That is not to say that I don't have concerns about the bill. In fact I do. The overall levels of the bill fall approximately $10 billion below the 1986 defense authorization bill, which was passed just yesterday.

It includes military contracting restrictions which I feel go beyond the bounds of reason and good sense, particularly in view of the fact that the Packard Commission, which is intrusted with the responsibility of reviewing defense procurement procedures, will not submit it's report to Congress for almost a year from now. Furthermore, many suggestions for reform are cur-

rently pending before the House and Senate authorization committees, and it should not be the province of the Appropriations Committee to prejudge what measures they might choose to take in this area.

Of major concern to me is the fact that this bill contains language restricting the testing of anti-satellite weapons, notwithstanding the pending negotiations between President Reagan and Premier Gorbachev at Geneva. We've only recently completed our first successful test of such weapons, and we have other tests pending in coming months.

In contrast, the Soviets have actually deployed a system of some sort years ahead of us, their last test of that system having occured back in 1983. It seems the height of illogic to arbitrarily bind our hands and stop the testing of such a system even before we meet the Soviets at Geneva.

Of equal concern is a proposal in the report of this bill which seeks to authorize an inexpensive—$700,000—oversight feasibility study of the strategic defense initiative, which in and of itself is a far more extensive and expensive research program on the feasibility of a nuclear defense system. In effect this constitutes a study of a study which is both superfluous and unnecessary. It creates the additional risk that very sensitive and classified material might be leaked both arbitrarily and prematurely, and it would appear to be both simply and dangerously a bad idea.

Another cause for concern about this bill is the fact that only yesterday, I attempted to get permission from the Rules Committee of the House to engage in a substantial change in the bill finally reported out of the full Appropriations Committee. In a very partisan vote, the Rules Committee denied me the right to consolidate the issues dealing with binary chemical weapons, and refused me the opportunity to conform the language of my proposed amendment to the bill to that appearing in the defense authorization conference report passed by the House just yesterday. Thus we were wholly unable to effectively debate this issue on the floor of the House, and in effect, likewise denied the opportunity to amend the bill in proper fashion to include a system which I deem absolutely vital to the security of U.S. Forces around the world.

Mr. Chairman, even though we were procedurally blocked from effectively submitting our case on this subject, this is a very important amendment which I hope will be adopted by the House and Senate conference on this bill. We haven't funded the deployment of any chemical weapons since 1969. While the issue has been quite controversial over the last few years, so far we have not succeeded, at least not until the House voted favorably on the issue this very year when it considered the defense authorization bill.

I believe that it would be a very big mistake not to fund that authorization now that we have decided to go forward with the program. As I mentioned before, President Reagan is going to Geneva, and chemical weapons should be on the table for those negotiations.

If we have authorized and appropriated adequate supplies of a modern chemical weapons force, the President will have something in his arsenal to negotiate with. Lacking an appropriation for these weapons, he's playing with an empty hand, and the Soviets will hardly be inclined to benevolently give up their own use of chemical weapons without an incentive from our side.

The facts are that Ken Adelman, our chief arms negotiator, David Abshire, our NATO Ambassador, all of the Joint Chiefs, and General Rogers, our Supreme Allied Commander in Europe all say that we need a chemical weapon arsenal. Even Mikhail Gorbachev said on October 3, 1985, that he thought it was possible to reach an agreement on this issue. But once again, he won't be so inclined if we arbitrarily and capriciously deny ourselves the use of these weapons.

We should not be in the business of omitting this issue from the Reagan agenda. Russia and 11 Third World countries have either selectively used such weapons throughout the world, or have the capacity to use them in the future. They will use them unless we have an adequate deterrent to keep them from that use.

It has been argued that we already have tremendous stocks of chemical weapons. That may be true, but they are nothing in comparison to the stockpiles acquired over the years by the Soviets. They have many times the amount of chemical weapons in storage than we have, and while it may be true that they're not producing in abundant quantities at this time, they have the chemical plants available to go back into production at any time.

It has been said that they no longer look to the use of chemical weapons as a first strike weapon in the next world war. That is probably true since they now rely on tactical nuclear weapons to take the place of less reliable chemical weapons for that purpose. But that doesn't mean that they won't use the weapons they have in theater warfare, and of course it has nothing to do with whether or not Third World nations will use such weapons when they see fit.

Opponents to a competent binary chemical warfare capability claimed that the Soviets haven't upgraded their system to utilize binary chemical weapons. Actually, the Soviets deemed them to be an unreliable and unnecessary expense because they couldn't make such weapons technologically viable back when they first started manufacturing them in great quantities.

The fact is that we now have that technology, and it enables us to make and store such weapons with a far greater degree of safety and much less expensively than we might have in years past. It currently costs us $63 million a year to store the existing stockpiles, which as I will relate shortly, are extremely unreliable and unusable. Adequate stockpiles of binary chemical weaponry produced under the proposal which passed our subcommittee would cost us only $9 million per year for a stockpile which would take up only one fifth of the space now required for the current unusable stockpile.

And in fact the current stockpile that we have is unusable. The National Academy of Sciences has said that 90 percent of what we have currently in storage is either unusable or of little military value. In essence, it has no deep strike capability, the absence of which makes such weapons unacceptable for modern day tactical deployment.

Most of the current weapons are on the short-range, persistent mix, category. This means that they must be detonated short distances from their point of embarkation, and that the lethal mixture becomes harmful not only to enemy troops, but to our own troops as well, for long periods of time.

One of our primary weapons for deep strike or long-range capacity, is available in old tanks which are only available for fitting on our F-4's or even older airplanes. The agent must be sprayed by low flying planes—500 feet or less—at relatively slow speeds. Hence, in today's modern technology, the utilization of such a weapon would become suicidal for the pilot.

We also have large numbers of land mines, totally unusable because of the first strike nature of the weapon—a tactic which we categorically renounce when it comes to chemical weapons—and because of the persistent mix nature of the agent which remains lethal long enough to infect and contaminate our own troops.

We have lots of 4.2-inch mortar shells, once again very short in range and armed with persistent mix agents. Such mortars will be phased out of our arsenal entirely by 1990, and thus once again will be totally unusable.

The 155 mm howitzer shells are almost useless, again because of their short range and their persistent mix agent. The 105 mm howitzer's are no longer deployed in Europe, so the shells for this weapon won't be of any use in the event of a conventional war on that continent.

Once again, the newest weapons we have are at least 16 years of age, and the oldest run as old as 40 years old. The average age is about 26 years of age.

Over 900 leaks have been found in various items in our stockpile. While opponents say that's less than 1 percent of the total amount, how would any Member here like to be the captain of the ship, or the commander of the company in whose charge it has become to take care of these stockpiles. Do you really want to be responsible for the loss of your men who are going to come in contact with those weapons? And how are you going to tell exactly which weapons are leaking?

Mr. Chairman, we should be in the business of replacing and destroying the current stockpiles, and furthermore, we should be in the business of providing that deterrent that keeps the Soviet Union or those 11 Third World countries from utilizing supplies at their disposal. The best way to do that is to adequately arm the President with the knowledge that he has something to give up at Geneva in the event that he can forge an agreement barring the use of such weapons. He won't have that capability if we don't adequately fund this program in accordance with the authorization incorporated in the conference report adopted yesterday.

Mr. Chairman, I have elaborated on the issue, because I feel strongly that the full committee was wrong in it's 26 to 24 vote deleting the provision from the subcommittee proposal. Once again, I hope that this error will be corrected in conference.

Finally, the last issue of concern to me about the bill that we submit to the House today, is the fact that it continues to restrict United States support for Nicaraguan freedom fighters far more than I feel is necessary. Nevertheless, the language does conform with the House intelligence authorization bill recently passed in the House, and for this reason I have not sought to add to the language incorporated in this bill.

I have set forth the objections that I have to the bill, so now I would like to talk about it's good points. Not withstanding the objections noted above, the bill does meet most of our critical defense needs, while continuing to address complaints of fraud, waste, and abuse at the Pentagon.

For example, we've approved the procurement of the last 48 of the 100 B-1 bombers requested by the administration. We've approved funding of the 12 new MX missiles keeping us on track with the agreement between the House and the Senate on the number that should be deployed.

We funded the continued development of the Trident II strategic missile system, the tilt rotor JVX aircraft, the ICBM modernization program, the advanced tactical fighter, and the advanced technology bomber. We funded the strategic defense initiative at a level of $2.5 billion, which while a big cut under the President's request of $3.7 billion, is only slightly under the level authorized by the authorization conference report—$2.7 billion.

We have funded vital intelligence programs, and we have provided considerable savings in the Navy shipbuilding programs, while keeping intact thousands of construction jobs at domestic shipyards.

Thirty-three new Navy ships will be built including 3 Aegis cruisers, 2 LSD, 41 landing ships, 1 LHD amphibious assault ship, 4 MSH coastal mine hunters, 2 fleet oilers, 2 Tagos surveillance ships, and 12 LCAC landing craft.

These will preserve thousands of critical jobs around the country as well as making sure that our shipbuilding capability in the Nation is ongoing.

Of particular note is the reactivation of the battleship *Wisconsin*, the fourth such ship to be reactivated at bargain prices, and funded entirely through prior year savings and transfers. The *Wisconsin* and it's support ships, I might add with some degree of pleasure, is to be homeported along various gulf coast ports.

Other savings come from the recommendations of alternative research programs, like the development of low-cost practice bombs for the Navy. These will permit Navy pilots 10 to 50 times the number of training drops that they currently have available to them for the same cost.

We're directing the Air Force and the Defense Nuclear Agency to study lower cost alternatives to ICBM silo hardening.

We're continuing the uphill fight to modernize our Reserve and National Guard forces with newer resources and equipment.

We've recognized the need for upgrading our capacity for any anti-submarine warfare by fully funding the nine PC-3 craft, four of which will replace the aging P-3A's and P-3B's in our Naval Reserve Squadrons.

And we've bent over backwards to meet concerns of individual Members. We've provided funding for the ground proximity warning system which will improve our services' aircraft safety, the over the horizon radar early warning system, the MK-60 copter mine program, the advanced mine development program, the Air Force Aerial Target Development Program, and the Mobile Subscriber Program [MSE].

Mr. Chairman, we have made some very hard decisions, but we have come up with a very responsible bill. I hope it will be made even better in conference, but I urge this body to support it.

With those brief remarks, Mr. Chairman, I yield back the balance of my time.

Mr. CHAPPELL. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, I would be remiss if I did not pay attention to my dear friend from Jacksonville, FL, who is heading up this legislation today. We share representation of Jacksonville, and although I am sorry it is because of the illness of Mr. ADDABBO, I am paying tribute to the gentleman and his fine leadership through the years and the way in which he is handling this matter today.

The principal purpose of my coming to the well is to speak in favor of the amendments that have to do with reform.

The measures which are before us are in their best arrangement, the way in which they passed the House of Representatives.

Some of them were kind of brutally treated in the conference. If we can get them in the House in the way they are in the bill now, we will do a good job for the strengthening of the processes of procurement for our country, and we will all be proud and happy about that.

It will take some resistance, because the other body will not be prepared for some of these amendments. So you in conference will have to do your very best, and I am sure that you will, in order to retain them.

One other thing I would like to make reference to, the language that directs the Navy to open for bid on a coastwide basis all of the ship repair and the so-called selected restricted availability, or SRA. That language, I think is a mistake in the report, and I hope that the record will show that at least many Members of Congress, do not favor that point of view.

Mr. HUNTER. Mr. Chairman, will the gentleman yield?

Mr. BENNETT. I yield to the gentleman from California.

Mr. HUNTER. I appreciate the gentleman yielding.

Mr. Chairman, I think the last point the gentleman has made, which he brought up, is very, very important to the personnel, to the men and women in our services. As you know, right now we have people at a high op tempo in the Navy who are coming back from very long cruises in the Indian Ocean and other places, they are coming back, and, as I understand the report language, which is not law because if it had been put in the bill I think we would have been able to knock it out quite readily, but the report language tells the Navy to start competing even small work packages coastwide. That means that the young

sailor coming back from a cruise after 5 or 6 months not seeing his family may once again be separated from his family and have to sail up the coast 2,000 miles to comply and supply a job to a Member of Congress' district, which is going to once again separate him from his family.

The CHAIRMAN pro tempore. The time of the gentleman from Florida has expired.

Mr. CHAPPELL. Mr. Chairman, I yield 1 additional minute to the gentleman from Florida [Mr. BENNETT].

Mr. HUNTER. Mr. Chairman, will the gentleman continue to yield?

Mr. BENNETT. I will yield later, but I would like to say, though, since the gentleman is a very good speaker and he might exhaust all of my time, I would like to summarize what the gentleman and I are saying and then would yield back to him, by saying that this language in the report, I think, is bad for Navy personnel, I think it is bad for business and it is a waste of money.

Mr. HUNTER. I thank the gentleman. I think it is bad for people in the service, and I think there is a good chance it is going to motivate that guy who looks on the outside and sees that he can go to work in the private sector and will not be separated from his family for 5, or 6, or 7 months, and perhaps he would want to make a change and not be a serviceman or a servicewoman any longer. I think it does them a real disservice to try to inject a little more business 2,000 or 3,000 miles away from their home, to try to strip these Navy families from their homes, take the wife out of her second job, or else just separate them for 2, or 3, or 4, or 5 months at a time after they have come off a major cruise.

Mr. Chairman, I thank the gentleman for his remarks.

Mr. BENNETT. I thank the gentleman and would like to make some additional comments.

Mr. Chairman, I rise to state my opposition to language in the report accompanying the appropriations bill that would adversely affect the readiness of the Navy. This language would direct the Navy to open for bid on a coastwide basis all of the ship repair and overhaul work now accomplished in so-called selected restricted availabilities, or SRA. Current Navy policy promotes readiness by having short-duration repair and overhaul work done in a ship's home port.

The change in Navy policy directed in this language would be a serious blow to the men and women of the Navy. First, it would require sailors to spend significant periods of time—up to 3 or 4 months at a time—away from their families without their ship even being deployed. When added to regular deployments and cruises, this additional time out of port is likely to seriously affect morale and retention of our dedicated sailors.

Assistant Secretary of the Navy Pyatt wrote to me recently concerning this subject. He said, and I quote, "Our crews are already required to be deployed away from their families more than we desire. They make this sacrifice because of the importance of the task. Increasing their time away from home, in many cases just before or after completion of an overseas deployment, will have a very serious adverse impact on their morale and the quality of family life."

Second, it would be a waste of money. Moving ships out of their ports to other locations is costly. So is moving the crew back and forth to facilities located in their home port for training and schools. Section 8084 of the bill would not even allow these costs to be considered in choosing among the bidders for repair and overhaul work. Further, it isn't at all clear that opening up the bid area to the entire coast—presumably a procompetitive move—would really promote more competition. There are already some 10 to 15 bidders on much of the repair and overhaul work in the Navy's major home ports.

Finally, there needs to be a thorough examination by the cognizant committees of Congress of such a significant change in ship repair policy. Should it be determined on the basis of the evidence and careful consideration that the Nation would be better served by changing the Navy's approach, legislation should be brought forth to make the change rather than report language.

In summary, Mr. Chairman, the effect of this language would be bad for our Navy people, bad business, and a waste of time and money. The language does not, in my view, represent the views of a majority of the Members of the House.

Mr. McDADE. Mr. Chairman, I yield 2 minutes to the distinguished gentlewoman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. I thank the gentleman.

My colleagues, the Appropriations Committee has done the right thing by deleting from this bill $163.6 million for the procurement of binary chemical weapons. What led the committee to make this decision? They correctly assessed that this is neither the time nor the place to fund this ill-advised program.

I want to rise today to commend my colleagues on the Appropriations Committee. I feel they have done the right thing with respect to deleting the funding for chemical weapons, and I want to state my agreement with what they have done. I think that this is neither the time nor the place to fund this ill-advised program.

With budget deficits this year running $211.9 billion, I hardly think this is the time or the place to begin the funding of yet again another new weapons system whose costs could, by conservative estimates, exceed $6 billion.

Equally important, I believe, is the fact that the testing of the Bigeye bomb, which is a key component of this program, has never been successfully done. Therefore, I think more time must be expended on research and development before we go into procurement. Finally, I must point out that our NATO allies are very disturbed and do not want these weapons deployed in Europe. Therefore, I say again that the committee has done the right thing. It is neither the time nor the place to fund this weapons system, and I think the committee has acted wisely.

Mr. Chairman, with the passage of the Defense authorization conference report yesterday, we are now talking about a whole new ballgame. The conditions regarding the procurement of binary nerve gas weapons that were in the conference report are not the same as those passed by the House in June.

For one, the conditions for procurement do not now require the formal approval of the NATO nations or NATO's acceptance of these weapons on their soil. But to be of any value as a deterrent, the proposed binary stockpile must be deployed where it is to be used—that is, in Europe. In this regard, our allies in Western Europe have expressed their categorical opposition to the deployment of new chemical weapons on their soil. My colleagues, if we cannot use these weapons as a deterrent, we should not be funding them.

The second difference between the House-passed conditions and the conditions approved yesterday in the conference report appear to be small, but in fact is quite significant. The conditions that this House accepted in June stated that binary weapons could not be procured or assembled until after September 30, 1987, and then, only if the other conditions had been met. This would have effectively fenced the funds until fiscal year 1988. But what we approved yesterday was language stating that the binary weapons could not be completely assembled until after this time. This means that the funds would no longer be fenced—procurement could begin this year.

Fortunately, the Appropriations Committee decided that no strong or compelling case has been made to prove that production of a new generation of binary weapons will enhance our chemical deterrent or increase the safety of our chemical stockpile.

The fact is, binary weapons will do neither.

Why, then, are we being asked to follow the Pentagon down this path, spending taxpayer dollars all along the way? Clearly, the case for binaries has not been made. Even the President's Chemical Warfare Review Commission has failed to provide their utility.

In its recent report to the President (p. 19), in response to claims by the Defense Department that our current stockpile is seriously deteriorating, the Commission wrote that it "believes that they (the claims) are unduly pessimistic."

And yet, proponents of this amendment argue that binaries are safer than unitaries. My colleagues, the advantages in the safety of the new binary chemical weapons may exist, but this argument deals with a problem that does not exist. In fact, there never has been a serious accident in the reproduction, transport, or storage of our existing chemical weapons.

Again, I quote from the Report of the Presidential Commission:

The Commission has found that rumors of the stored munitions being dangerous or leaking appear to be exaggerated and inaccurate. The number of artillery rounds in which leakage has been found is infinitesimal, amounting to 6 per 10,000 artillery shells. Panels of scientists from the National Research Council that conducted tests in 1983 concluded that the metal parts of most kinds of artillery rounds and bombs were sound. All the weapons in Europe are serviceable (p.20).

Now, with respect to the deterrence arguments put forth by proponents of this amendment, I say to you that binary weapons will only serve as a deterrent if they can be deployed and our NATO allies will not permit deployment of new chemical weapons because of adamant domestic opposition.

Due to NATO opposition, the proponents of these weapons would have us believe that we would transport them to the European front in the time of crisis.

Do you really believe that, in a time of crisis, we would have the luxury of time to transport these weapons to the front? Will the Russians sit back and do nothing while we scurry to send over a paltry number of chemical weapons?

It is not hard to imagine how the transportation of these weapons to the European theater during a crisis would place significant strain on our air and sealift capabilities; a burden that would force delays and competition with the delivery of other crucial materials. Furthermore, it would seem to me that once the other side knew of our importation of chemical weapons during a crisis, the eventual use of chemical weapons would be almost guaranteed.

With that said, the question remains: Why did the Appropriations Committee vote strike funding for binary weapons from this bill? The important deterrence and safety issues aside, Appropriations wants to make sure the Pentagon's Bigeye bomb works.

Frankly, the Bigeye bomb, does not work. Today, more than 20 years after its inception, the Bigeye bomb has still not been successfully tested and proved to be a viable weapon. The GAO has repeatedly pointed out the technical flaws of the Bigeye, and yet DOD continues to send us confusing reports as to the worthiness of the weapon.

In a June 17, 1985 report to House Foreign Affairs Committee Chairman DANTE FASCELL, they found that the Bigeye failed to pass most tests in agent purity and structural integrity. The report stated:

We have seen reports that describe internal and external structural damage to the bomb as a result of test and we have seen reports that mention leaking of chemicals. A problem of meeting VX purity requirements at high temperatures also seems to persist . . . Based upon evidence we have seen to date, some of the Bigeye problems cited in earlier GAO reports remain. (Source: June 17, 1985 letter from GAO to Dante Fascell).

It is instructive to recall Secretary Weinberger's recent decision to cancel the fatally flawed DIVAD gun. It should serve as a lesson to this House. Beginning in 1977, Congress appropriated $1.8 billion for that system which was never successfully tested. To date, the Department of Defense, either through intentional finagling or consistent bungling, has been unable to convince the independent, nonpartisan GAO of the effectiveness of the Bigeye. Like the DIVAD Program, it seems as if someone at DOD has simply decided to declare success and make an all-out fight for support of the program, regardless.

Now I ask, does it make sense under these circumstances to approve yet another costly weapons system? A weapons system that, by reliable estimates, will cost anywhere from $6 billion to $12 billion or more. Remember, my friends, today we are not talking about $164 million for chemical weapons production in this bill. We are talking about the creation of a new entitlement weapons systems.

Even DOD concedes that our defense capacity needs more resources in the conventional weapons, spare parts, and manpower that an effective military power needs. Nonetheless, in light of recent reports that defense spending will be curtailed in the years to come, the Pentagon has been very quick to release statements calling for a reduction in spending on spare parts and conventional weapons and ammunition. These necessities are already in short supply.

As I speak, conferees from this and the other body are continuing to discuss the Gramm-Rudman proposal. I support this proposal; it is the first real step Congress has taken toward reducing the deficit. But for Congress to vote overwhelmingly for Gramm-Rudman, and then turn around and support an amendment that could increase future defense outlays by $6 to $12 billion, is beyond comprehension to me, and to the majority of American taxpayers.

The production of chemical weapons is a perfect example of the procurement explosion, which, if left unchecked, could hurt our defense readiness. I have time and again tried to press this point on my colleagues. if the Pentagon must spend billions of dollars to secure our national safety, it would be wiser to focus more sharply on the real heart of our military deterrence—conventional operations and their support systems, and importantly, protective equipment to defend against chemical attack.

Mr. Chairman, we must defend this Nation, but we simply cannot afford every new weapon requested by the Pentagon, particularly a weapon that is technically, politically, and morally flawed. On our scales of defense priorities, production of new binary nerve gas should be at the bottom. We cannot afford it; we cannot use it; we cannot justify it; and there are far better places in the Defense budget where the money could be put to use.

Mr. Chairman, I yield back the balance of my time.

Mr. CHAPPELL. Mr. Chairman, I yield 2 minutes to the gentleman from Oregon [Mr. AUCOIN].

Mr. AUCOIN. I thank the gentleman for yielding.

Mr. Chairman, I want to compliment the gentleman from Florida [Mr. CHAPPELL] for the excellent work that he has done in standing in and managing this bill. As a member of the subcommittee who has worked with the gentleman on a number of issues since joining the committee, to have watched him handle this bill through the subcommittee, through the full committee, and now on the floor, I really want to tip my hat to him and express my admiration for the manner in which he has handled this bill.

Mr. CHAPPELL. If the gentleman will yield, I am indeed very grateful.

I thank the gentleman.

Mr. AUCOIN. I would also say to the Members, as someone who has criticized excesses in defense spending, that the product this subcommittee brings to the House today goes a long way toward correcting problems I have been critical of in the past. Depending on the outcome of the amendments, how they may fare through the amending process on the floor, I am prepared to support strongly the final product of this committee.

I do want to say a couple of things about the question of naval repair infrastructure and the capability this country needs to maintain—on both coasts—so that in the time that this Nation may, under military duress, need to turn to additional infrastructure, that that individual base is there for our naval and military purposes.

□ 1140

The gentleman from Florida [Mr. BENNETT] a few minutes ago said there was a provision in the committee report language that was awful, in terms of what it does to naval families. This committee, after having a survey and investigations report from our survey and investigations staff, after having looked at the General Accounting Office report which examined the question of competition in bidding on Navy repair and maintenance jobs on both coasts, came to the conclusion that something needs to be done to open up this work to greater competition. The report language simply says that SRA work that is destined for private yards on both coasts shall be opened up to coastwide competition.

Now, if Members want to hide behind arguments that somehow this is going to penalize families, all they need to do is come to Portland, OR, where you will find work now being

done in the Portland shipyards, and the Navy families, crew members who are there, being treated like royalty.

I think at a time of resource scarcity within our budgets, we ought to be looking for ways to improve competition, bringing costs down to the taxpayer, to the Pentagon, and our provision does that. That is what the issue is.

Mr. McDADE. Mr. Chairman, I yield 2½ minutes to my distinguished colleague, the gentleman from Louisiana [Mr. LIVINGSTON], a member of the subcommittee.

Mr. LIVINGSTON. I thank the gentleman for yielding.

Mr. Speaker, I was not going to take this time, but since the issue of binary chemical weapons came up, I thought it only proper to make the record very clear that I had opposed the action of the full committee. That vote in the full committee was very, very close. There was a slim margin of only 26 members to 24 members who voted to delete the provision that was inserted by the subcommittee to fund the binary chemical weapons that were actually authorized by the authorizing committee.

The fact is, we have an aging system in which weapons have not been produced for as long as 14 years. I think the average age of chemical weapons in our stockpiles is some 26 years of age. One percent of those supplies are leaking and are lethal. Two-thirds of the money which was to have been spent on this program was targeted simply to clean up the damaged and outdated type of material that we currently have.

I would summarize by saying that there are arguments which are very strong on both sides of this issue. It is not worth debating at this time. While I support the report and the bill that we have before us today, I cannot agree with the preceding comments on this issue.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. LIVINGSTON. I yield to the gentleman from Washington.

Mr. DICKS. The gentleman is absolutely correct in saying that this was a very close issue. I think a lot of it surrounded the conditions in the authorization bill. But I think there is one thing that all of us are agreed to, and that is that the reason this House reauthorized on this issue was to try to send a strong message to the Soviets that we would like to see progress in the negotiations. Even though the money is not here, the money could certainly be here at a future date if there is not progress, because the authorization bill is in place. Under the authorization bill, money would not have been spent until next year anyway.

So I think the gentleman from Louisiana, who has been a very articulate spokesman on this, the gentleman from Illinois who has been a leader on this, I think all of us would like to see real genuine progress on the chemical weapons issue. So I commend the gentleman for his statement.

Mr. LIVINGSTON. I appreciate the gentleman's remarks. He will recall that even Mikhail Gorbachev of the Soviet Union says it is possible to reach an agreement whereby no country has these weapons at their disposal. But the problem is, of course, that the Soviets have many times what we have in our arsenals, and 11 countries in the Third World have them as well. It is best to dispose of this issue by eliminating these weapons altogether, but until that becomes possible, the United States should have a strong and efficient deterrent to deter the use of these weapons by other nations.

Mr. McDADE. Mr. Chairman, I yield such time as he may consume to the gentleman from Illinois [Mr. PORTER].

Mr. PORTER. Mr. Chairman, I rise in support of the bill.

Mr. Chairman, when the House considered the issue of funding for chemical weapons during the defense authorization debate of June 19, the House conditioned the authorization of funding for chemical weapons on a number of tough conditions. These conditions were essential to the support for the tentative authorization.

Following the vote, 34 Members who voted for the compromise package wrote to House Armed Services Committee Chairman LES ASPIN stating that the conditions included were essential to their support. They stated that they would not be able to support an appropriation for chemical weapons unless those conditions were maintained.

Mr. Chairman, those conditions were as follows:

SEC. 8093. (a) Except in accordance with subsection (b), none of the funds appropriated in this Act may be used—

(1) for procurement or assembly of binary chemical munitions (or subcomponents of such munitions); or

(2) for establishment of production facilities necessary for procurement or assembly of binary chemical munitions (or subcomponents of such munitions).

(b) The funds referred to in subsection (a) may be used for the procurement or assembly of complete binary chemical munitions after September 30, 1987, if—

(1) a mutually verifiable international agreement concerning binary and other similar chemical munitions has not been entered into by the United States by such date;

(2) the President transmits, after such date, a certification to the Congress that—

(A) the procurement and assembly of such complete weapons is necessitated by national security interests including the interests of the members of the North Atlantic Treaty Organization;

(B) performance specifications established by the Department of Defense and in effect on the date of enactment of this Act with respect to such munitions will be met or exceeded in the handling, storage, and other use of such munitions;

(C) applicable Federal safety requirements will be met or exceeded in the handling, storage, and other use of such munitions;

(D) the Secretary of Defense's plan (which shall accompany such certification) for destruction of existing chemical stocks is ready to be implemented; and

(E) the North Atlantic Council of the North Atlantic Treaty Organization (NATO) has formally agreed—

(i) that chemical munitions currently stored and deployed in NATO countries need to be modernized in order to serve as an adequate deterrent;

(ii) that such modernization should be effected by replacement of current chemical munitions with binary chemical munitions; and

(iii) that the European member nations of NATO where such chemical munitions are to be stored or deployed are willing to accept storage and deployment of binary chemical munitions within their territories;

(3) such procurement and assembly is carried out only after the end of the 60-day period beginning on the date such certification is received by the Congress;

(4) the Secretary of Defense's basing mode for such munitions in the United States is to be carried out in a manner which provides that the two components that constitute a binary munition are based in separate States; and

(5) the Secretary of Defense's plan for the transportation of such munitions in the United States is to be carried out in a manner which provides that the two components that constitute a binary munition are transported separately and by different means.

The key points of the conditions were, first, that there was a complete fence on all chemical weapons funding until September 30, 1985, and, second, that the NATO countries had to agree to accept these weapons on their soil before production begins.

These conditions were made meaningless in the House-Senate authorization conference that followed. The conditions they included were as follows:

SEC. 8093. (a) CONDITIONS ON SPENDING FISCAL YEAR 1986 FUNDS FOR BINARY CHEMICAL MUNITIONS.—Funds appropriated in this Act may not be used—

(1) for procurement or assembly of binary chemical munitions (or components of such munitions); or

(2) for establishment of production facilities necessary for procurement or assembly of binary chemical munitions (or components of such munitions),

except in accordance with subsections (b) and (c).

(b) NATO CONSULTATION.—Subject to subsection (c), funds referred to in subsection (a) may be used for procurement or assembly of binary chemical munitions or for the establishment of production facilities necessary for the procurement or assembly of binary chemical munitions (or components of such munitions) if the President certifies to Congress that the United States—

(1) has developed a plan under which United States binary chemical munitions can be deployed under appropriate contingency plans to deter chemical weapons attacks against the United States and its allies; and

(2) has consulted with other member nations of the North Atlantic Treaty Organization (NATO) on that plan.

A plan under clause (1) shall be developed in cooperation with the Supreme Allied Commander, Europe.

(c) CONDITIONS FOR FINAL ASSEMBLY.—Funds referred to in subsection (a) may not be used for the final assembly of complete binary chemical munitions before October 1, 1987, and may only be used for such purpose on or after that date if—

(1) a mutually verifiable international agreement concerning binary and other similar chemical munitions has not been entered into by the United States by that date;

(2) the President, after that date, transmits to Congress a certification that—

(A) final assembly of such complete munitions is necessitated by national security interests of the United States and the interests of other NATO member nations;

(B) performance specifications and handling and storage safety specifications established by the Department of Defense with respect to such munitions will be met or exceeded;

(C) applicable Federal safety requirements will be met or exceeded in the handling, storage, and other use of such munitions; and

(D) the plan of the Secretary of Defense for destruction of existing United States chemical warfare stocks developed pursuant to section 1412 of the Department of Defense Authorization Act, 1986 (which shall, if not sooner transmitted to Congress, accompany such certification), is ready to be implemented;

(3) final assembly is carried out only after the end of the 60-day period beginning on the date such certification is received by the Congress;

(4) the plan of the Secretary of Defense for landbased storage of such munitions within the United States during peacetime provides that the two components that constitute a binary chemical munition are to be stored in separate States; and

(5) the plan of the Secretary of Defense for the transportation of such munitions within the United States during peacetime provides that the two components that constitute a binary munition are transported separately.

(d) SENSE OF CONGRESS.—It is the sense of Congress that existing unitary chemical munitions currently stored in the United States and in European member nations of NATO should be replaced by modern, safer, binary chemical munitions.

(e) REPORT.—Not later than October 1, 1986, the President shall submit to Congress a report describing the results of consultations among NATO member nations concerning the organization's chemical determent posture. The report shall include descriptions of any consultations concerning—

(1) efforts to provide key civilian workers at military support facilities in Europe—

(A) with personal and collective equipment to protect against the use of chemical munitions; and

(B) with the training required for the use of such equipment;

(2) efforts to upgrade the chemical reconnaissance, decontamination, and protective capabilities of the military forces of each NATO member nation to a level adequate to meet the chemical threat identified in NATO intelligence estimates;

(3) efforts to initiate a NATO-wide study of measures required to protect ports, airfields, logistics centers, and command and control facilities in European member nations of NATO against chemical attack; and

(4) efforts to initiate a NATO-wide study of equitable and efficient sharing among NATO member nations of responsibilities with regard to deterring the use of chemical munitions in Europe.

The conference weakened the conditions first to allow all funding for chemical weapons except for the final assembly of these weapons. Although the definition of final assembly is not clear, I do understand that the final assembly of a binary weapon does not occur until the weapon is over the heads of the enemy. Therefore this condition was hardly any bar to the productions of chemical weapons.

Second, the conference struck the language dealing with the necessary approval of NATO and changed that to require mere consultation with NATO on a plan to deploy these weapons at sometime in the future. It is clear that consultation on a plan could occur overnight, once again allowing the production of chemical weapons to go through.

When the conference report was returned to the House many Members who originally supported the compromise package changed their minds. They realized that under the original House language there was no need for the appropriation of funding for chemical weapons in fiscal year 1986. The Defense Appropriations Subcommittee unanimously agreed with this position by including the original House language and not the conference report language in their bill when they reported the defense appropriations bill for fiscal year 1986 to the full committee.

In a top secret, closed markup of the House Appropriations Committee the committee discussed the full range of issues concerning chemical weapons and voted to delete funding for these weapons. Many members who had originally backed the original House language voted for my amendment to delete $163 million for new nerve gas weapons.

This position was not even questioned on the House floor. The failure of chemical proponents to even attempt to put in funding for these weapons indicates a strong climate for holding the line on unnecessary spending. It is clear evidence that this House is not in support of any new funding for chemical weapons in the fiscal year 1986 defense appropriations bill. I trust the conferees will remember this when they take up the bill in conference and not provide funding for new chemical weapons.

Mr. McDADE. Mr. Chairman, I reserve the balance of my time.

Mr. CHAPPELL. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. Mr. Chairman, I rise in support of this bill and complement the committee on its construction.

As most of the Members of this body, particularly on this side of the aisle, know, this is Act 3, probably, in a 5-act-long drawn-out drama about military authorization and appropriation, and this appropriations bill, I think, meets the needs of this country and of many people in this party. It provides for a strong defense. It provides for an amount of money, $276 billion-some-odd that cannot be sneezed at, but, on the other hand, it is certainly within our budget mandate which the authorization bill was not. The amount of money that will be spent will be considerably lower, actually, than the Budget Committee authorized. More important than that I think is the issue of procurement. The four reforms that were in the authorization bill and voted upon overwhelmingly in this House are in the appropriations bill and, furthermore, as I understand it, there is a commitment that if in conference any of those four amendments are not agreed to or changed substantially, the House will have an opportunity to vote on them in an amendment in disagreement. That is extremely important, ladies and gentleman, because the one issue in defense where there is a national consensus from right to left is in the area of procurement reform, in the area of waste. What happened in the 1970's to social programs, with pictures of welfare mothers driving Cadillacs, is happening to defense in the 1980's. Six-hundred dollar toilet seats and $7,000 coffee pots have eroded the consensus for increased defense spending in this country.

All of us who care about the defense of this country and yet who care about budget problems should be eager to see that these procurement reforms remain. Will they eliminate all the waste in the defense budget? By no means. But will they certainly make a dent and send a shot across the bow of the Pentagon that some of these wasteful practices must end? Indeed they will.

I urge support of the appropriation.

Mr. CHAPPELL. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. SIKORSKI].

Mr. SIKORSKI. I thank the gentleman for yielding.

Mr. Chairman, massive fraud and abuse by some defense contractors in violation of the conflict-of-interest laws that we have in this Nation and the Department of Defense's inability to deal with these issues have been the general fare served up to us at breakfast on the morning news and at dinner on the evening news. We hear how taxpayers have been taken to the cleaners by being billed for everything from exotic vacations in Pago Pago to dog-kennel boarding and how grand juries are investigating former members of the Department of Defense who swing through the revolving doors of lucrative jobs with whom they were dealing in the private sector. But nothing was done. We passed overwhelmingly four major procurement reforms, to see them gutted in conference.

This is our second chance. We want a clear signal to the conference com-

mittee. I commend the appropriations people for bringing out these reforms in this version. We want to make sure that allowable costs are certainly allowable and proper. We want to make sure that the revolving door is slowed down just a bit, for the interest of all, and we want to make sure there is some serious procurement reform.

Mr. ROWLAND of Georgia. Mr. Chairman, when we considered the Defense Department authorization bill the other day, I pointed out in my comments then the provisions which, I believed, would impact on the quality of medical care being provided by military medical facilities. I will not dwell on them again, instead, I wish to highlight the sections of this bill in which the Armed Services Committee presents proposals to address the health manpower needs of the armed services and the cost effective delivery of medical services to military dependents under the CHAMPUS.

In its report, the committee points out that the establishment of reserve medical manpower has not been fully implemented and requests a DOD development of an implementation plan to be submitted early next year. At a time when medical personnel in many specialties are in surplus, the opportunity to participate in the Armed Forces Reserves will be welcomed by a number of young physicians. This opportune time should not be lost due to the unavailability of training programs. Now is the time to recruit qualified men and women into the reserve component of medical manpower to assure the preparedness that our Nation's defense requires. The committee is to be commended for urging DOD to take action on the recommendations made by the inspector general's office.

Another manpower issue addressed in the committee's report deals with the understaffing of certain military medical facilities. In one case this has resulted in the loss of accreditation of one of our military hospitals. As I pointed out a few weeks ago, we must deal with the problems in military medical facilities directly responsible for an inadequate quality of medical care. Passing legislation merely permitting the filing of malpractice suits against the Federal Government does not really address the problem. Thankfully, the committee has committed funds above the budget request to address the manpower shortages that exist at seven facilities around the country. I would hope that these new funds will be utilized to recruit the most highly qualified medical personnel available so that these deficits can be overcome and excellence of medical care can be achieved.

Mr. Chairman, the final provision that I draw your attention to permits a test of home health services for CHAMPUS beneficiaries. This is of significance for two reasons. First, in many cases, patients can be more appropriately treated, in the home rather than in the hospital. These individuals, may very well improve more quickly at home and will be less likely to suffer from the acquisition of an infection during the hospital stay.

Second, during this time when we are all very concerned about the cost of health care, we should recognize that hospital care is the most costly component. With the judicious transfer of the patient to a less intensive setting for care or to the home, we can expect to achieve cost savings. I am encouraged by the inclusion of this test in the bill and look forward to learning of its results.

I have not touched upon all the health provisions of this DOD appropriation bill, Mr. Chairman, however I did wish to acquaint the House with certain provisions which warrant our special interest. As I have maintained in previous remarks, we must commit ourselves to assuring the highest quality of medical care to our Armed Forces personnel and others using military medical facilities. We can no longer allow these facilities and their health personnel to be considered second class. They should be second to none.

Mr. GREEN. Mr. Chairman, I rise today to support H.R. 3629, the Department of Defense appropriations bill, and to urge this House to retain two important provisions of this bill as marked up by my colleagues and myself in the Appropriations Committee.

First, this appropriating legislation would freeze fiscal year 1986 defense spending at the level of the previous year, $292.6 billion. In light of the current budget crisis, I believe that this show of fiscal restraint has a great deal of both practical and symbolic value.

Second, this bill contains no production funds for the procurement of binary chemical weapons thanks to an amendment in committee which deleted $163.6 million for this purpose. Even if one believes that this new generation of chemical weapons is necessary, which I do not, an appropriation of funds at this time is unnecessary. The authorizing legislation which passed this House provided that no funds for the production of these weapons should be made available for 2 years. I see no reason to appropriate funds in fiscal year 1986 which are not to be expended until fiscal year 1988.

While I opposed the conference report on the defense authorization, passed by this House yesterday, I believe this appropriations bill remedies several of the problems of the conference report and accurately reflects the will of the House of Representatives.

I strongly recommend that this measure be passed by the House and that its provisions—particularly those concerning chemical weapons—be protected by our representatives in a conference with the Senate.

Mr. FRENZEL. Mr. Chairman, I rise in opposition to H.R. 3629, the defense appropriations bill for fiscal year 1986.

While this bill on its face achieves a freeze in spending at the fiscal year 1985 level, I am hard pressed to identify any real savings from this year's excessive authorizations bill. Rather than making substantive cuts, the Appropriations Committee has held down its totals simply by reestimating costs and stretching out delivery rates of procurement contracts. The savings reflected in this bill may well not be realized this year. And what savings there are almost certainly will be negated in future years as we begin to pay for obligations we entered this year on "layaway."

It is difficult to oppose a bill that is written at a freeze level. But when the savings are doubtful, rather than easily achievable cuts, the most responsible choice for me is to vote against that bill. For that reason I urge my colleagues to join me in opposing H.R. 3629.

Mr. SPENCE. Mr. Chairman, I want to join my colleagues in opposition to the committee's report language dealing with SRA's or short duration naval ship repairs. It would be disastrous to crew morale if the Navy felt obligated to follow the committee's recommendations to handle short-term repairs outside of a vessel's home port on a routine basis.

GAO has studied retention rate problems on several occasions. GAO found in one study done in 1983 that family separation is "the primary concern by officers and enlisted personnel separating from the Navy." Thus, the report concludes: "Any action that would increase family separation would be detrimental to retention."

The Navy also has studied this language in the committee report and concluded that it would have a severe impact on the military personnel who man our ships. Why? The operating schedules of ships that receive these short duration repairs are such that the repair work frequently must take place shortly before or after the extensive deployment. Out-of-home-port repairs would add additional time—3 or 4 months typically—that the sailor must spend away from his home and family. What impact will this have? More key skills will be lost as retention rates go down. Crew morale will fall off.

In light of these devastating effects if this language were given any credence by the Navy, I wish to express my opposition to it along with my other colleagues in the House.

Mr. PARRIS. Mr. Chairman, I wish to join my colleagues in opposition to the committee's report language dealing with short-term ship repairs.

This month, Vice Admiral Metcalf, the Deputy Chief of Naval Operations, reported that "Our biggest problem right now is retention of key skills * * *. How do we keep good people?" Any action that increases the amount of family separation will be detrimental to the retention of good people in the Navy. Yet, the committee's recommendation to bid out SRA's on a coastwide basis would do just that—increase family separation.

Now, let's look at the immensity of this loss. We're not talking merely about the

crews who man our ships, but also the Navy pilots and mechanics who also must spend up to 70 percent of their time at sea. The Navy says that it now costs $1 million to train just one Navy pilot. If we lose only one pilot a year because of increased family separation, we've lost $1 million—that's the money we're going to have to spend to replace him.

Of course, when the Navy loses good men and women and when crew moral slumps, this Nation's military readiness is going to go down—no matter how good we build their ships and planes. If the full House were to give any support or credence to this particular report language, we would be doing nothing short of shooting ourselves in the foot.

I think that the vast majority of those of us in the House who have seen the recommendations contained in the committee's report language know that is unworkable and without merit. However, I believe it is important to expose it for what it is and deliver that message to the Navy. Therefore, I, too, stand in opposition to it.

Mr. CHAPPELL. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. McDADE. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

The CHAIRMAN pro tempore (Mr. DORGAN of North Dakota). The Clerk will read.

The Clerk read as follows:

H.R. 3629

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 1986, for military functions administered by the Department of Defense, and for other purposes, namely:

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $21,718,923,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $16,446,673,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $5,025,377,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $18,275,085,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 265, 3019, and 3033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $2,152,904,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Naval Reserve on active duty under section 265 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $1,296,023,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 265 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders' class, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $278,792,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 265, 8019, and 8033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Air Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $596,053,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 265, 3033, or 3496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $3,238,017,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 265, 8033, or 8496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $953,004,000.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title I be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

AMENDMENTS OFFERED BY MR. MONTGOMERY

Mr. MONTGOMERY. Mr. Chairman, I offer amendments to title I which basically deal with the same area, and I ask unanimous consent that they be considered en bloc.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The CHAIRMAN pro tempore. The Clerk will report the amendments.

The Clerk read as follows:

Amendment offered by Mr. MONTGOMERY: Page 4, line 11, strike out "$2,152,904,000" and insert in lieu thereof "$2,159,254,000".

Page 4, line 24, strike out "$1,296,023,000" and insert in lieu thereof "$1,297,123,000".

Page 5, line 13, strike out "$278,792,000" and insert in lieu thereof "$278,842,000".

Page 6, line 2, strike out "$596,053,000" and insert in lieu thereof "$597,153,000".

Page 6, line 15, strike out "$3,238,017,000" and insert in lieu thereof "$3,238,217,000".

Page 7, line 3, strike out "$953,004,000" and insert in lieu thereof "$953,204,000".

Mr. MONTGOMERY (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. MONTGOMERY. Mr. Chairman, before explaining the amendment, I certainly would like to commend the gentleman from Florida [Mr. CHAPPELL] for the outstanding job he has done and the cooperation that he has given us on the Armed Services Committee, and also the gentleman from Pennsylvania [Mr. MCDADE] for his work and cooperation, and the other members of the Appropriations Subcommittee. Also to the staff, for their help, and to my close and warm friend, Robin Deck, who is leaving us. Certainly she has been a great help to me.

Mr. Chairman, my amendments add a total of $9 million for four programs vital to wartime readiness: two would encourage health professionals with critical combat skills to serve in the Reserve and National Guard and two would enhance the Individual Ready Reserve.

Present and past Assistant Secretaries of Defense for Health Affairs have stated that, because of equipment and personnel shortfalls, an overwhelming majority of those wounded during the first few days of a major conflict in Europe would not receive life-saving, stabilizing, hemorrhage-stopping surgical care. Some progress has been made in the past few years, but we are still critically short of wartime requirements.

During peacetime, the services have sufficient workload to occupy a limited number of active duty surgeons—particularly ones with specialities such as neurosurgery and orthopedic surgery. When the balloon goes up, however, the requirement for such specialists to treat battlefield casualties will be nearly limitless. The answer is self-evident: we should meet the bulk of our wartime surgical requirement through the Reserve components. Unfortunately, woeful shortages currently exist.

My amendments would provide funding for two programs included in the Defense authorization conference agreement for fiscal year 1986—approved by this House yesterday—that are specifically targeted to this problem. The first program would repay a maximum of $3,000 of higher education loans for each year of satisfactory service completed in the selected reserve by a health professional in a wartime medical skill designated as critical by the Secretary of Defense—in other words, surgeons, operating room nurses, and nurse anesthetists. The maximum that could be repaid during a reserve career would be $20,000. My amendment would provide $5 million for this purpose.

The second program is similar to the current Armed Force Health Professions Scholarship Program but would provide specialty training—rather than initial medical education—in combat medical skills in exchange for service in the selected reserve. My amendments would provide $1 million for this purpose.

With respect to the Individual Ready Reserve, its improving of bonus programs providing for a volunteer muster in 1986 shortcomings and shortfalls are so severe—and yet so little attention has been paid to this problem—that I have at times felt like a voice crying in the wilderness. It is important to remember that our ability in wartime to replace initial combat casualties with pretrained manpower until draftees begin to flow out of the training camps depends on a viable Individual Ready Reserve. Over the past 5 years, there have been some improvements in sheer numbers, but the shortages persist. When you look beyond the numbers to the skill mix, the severity of the problem increases geometrically. The Defense Authorization Act contains two provisions that will make significant contributions to improved management of the IRR.

My amendments would fund a test, nationwide in scope, of the ability of the Army to muster the IRR. The Secretary of Defense would be required to report the results to the Congress early next year. The test would be voluntary but would serve as the basis for evaluating a future muster and/or refresher training requirement. We need to know who is there, what their skill levels are, what shape they are in, and what their immediate availability would be in the event of mobilization. My amendments would provide $2 million for this purpose.

Second, my amendments would fund a restructuring of the current IRR prior-service enlistment/reenlistment bonus by reducing the current 3-year bonus maximum from $900 to $750 and by creating a new 6-year bonus with a maximum payment of $1,500. This bonus is targeted to combat skills. As a condition of the bonus, the recipient would be subject to participation in an annual muster or active duty for training. My amendments would provide $1 million for this purpose.

Although my amendments cost little, their impact on our ability to continue to fight in the early days of a major conflict is significant. I urge my colleagues to support the amendments.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. MONTGOMERY. I yield to the gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, we have examined the amendment on this side, and we have no objection to it. We think it is a good amendment.

Mr. MONTGOMERY. I thank the gentleman.

Mr. MCDADE. Mr. Chairman, will the gentleman yield?

Mr. MONTGOMERY. I yield to the gentleman from Pennsylvania.

Mr. MCDADE. Mr. Chairman, I want to congratulate my friend for the fine work that he has done on this important issue. We have not only no objection but we are delighted to accept his amendment and his work product on this side of the aisle.

Mr. MONTGOMERY. I thank the gentleman.

The CHAIRMAN pro tempore. The question is on the amendments offered by the gentleman from Mississippi [Mr. MONTGOMERY].

The amendments were agreed to.

The CHAIRMAN pro tempore. Are there any other amendments to title I?

AMENDMENTS OFFERED BY MRS. SCHROEDER

Mrs. SCHROEDER. Mr. Chairman, I offer five amendments dealing with military family benefits authorized in the authorization bill. Four amendments add money for reimbursement for travel and per diem and appear on pages 2 and 3, and the last strikes a general provision on page 73. In that they deal with the same issue, I ask unanimous consent that they be considered en bloc, notwithstanding the fact that the section on page 73 has not been read.

The CHAIRMAN pro tempore. Is there objection to the request of the gentlewoman from Colorado?

There was no objection.

The CHAIRMAN pro tempore. The Clerk will report the amendments.

The Clerk read as follows:

Amendments offered by Mrs. SCHROEDER:

Page 2, line 13, strike out "$21,718,923,000" and insert in lieu thereof "$21,761,423,000".

Page 2, line 24, strike out "$16,446,673,000" and insert in lieu thereof "$16,472,073,000".

Page 3, line 11, strike out "$5,025,377,000" and insert in lieu thereof "$5,041,377,000".

Page 3, line 22, strike out "$18,275,085,000" and insert in lieu thereof "$18,341,185,000".

Strike out section 8064 (page 73, lines 3 through 14).

Mrs. SCHROEDER (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentlewoman from Colorado?

There was no objection.

Mrs. SCHROEDER. Mr. Chairman, I, too, want to thank the subcommittee chairman and the entire subcommittee for working so hard on this bill. They have done a terrific job.

Mr. Chairman, this amendment funds the increased reimbursement levels for travel and per diem that were contained in the authorization bill. We increased the reimbursement levels for the military to bring them into line with the civil service. Both members of the military and civil servants work for the same flag. When either is forced to move, the reimbursement should be the same.

Currently, the military member receives only about 70 cents for every $1 the civil servant receives as reimbursement for moving expenses. Even civil servants complain that the current reimbursement levels are grossly inadequate. To force members of the military and their families to go through the hardship of moving every 2 or 3 years, and then to force them to pay substantial sums of money out of their own pockets, is really unfair and damaging to morale. We will not be able to maintain our current reenlistment levels unless we correct this inequity.

While the Pentagon says the total cost would be $193 million, the Congressional Budget Office estimates that the total cost would be only $159 million. Since the fiscal year has already begun, we can reduce this level to $150 million. Therefore, my amendment only adds $150 million.

This amendment is needed because the amount of reimbursement for travel and per diem is set by regulation, subject to a cap that we impose by statute. If money is not appropriated to pay for increased levels of reimbursement, the regulations will not be changed and our purpose in trying to establish parity with the civil service will be frustrated.

I urge support for the amendment.

Mr. Chairman, my amendment would strike section 8064 of this bill. Section 8064 places a cap on the amount of money which can be spent on dependent student travel and, for the second year, prohibits DOD from paying for the portion of dependent student travel within the United States.

We passed section 430 of title 37, United States Code, in 1983 to provide dependents of members of the military with the same dependent student travel benefit as is provided to civil servants stationed overseas. The provision authorizes one round trip per year for a dependent from the duty station overseas of the member of the military to the secondary school or college attended by the dependent. It is not a big item—it costs about $4.5 million a year—but it is important to members of the military with children in school.

The Appropriations Committee, however, has added this section to prohibit the domestic portion of travel. So, if a sailor in Okinawa has a kid in school at the University of Colorado at Boulder, the Government pays for the Okinawa to California transportation and the sailor has to pay the California to Boulder portion. This restriction strikes me as punitive and unjustified. I believe that we ought to provide the same benefits to people who work for the same flag. Civil servants stationed overseas get one round trip paid for a year. So should members of the military. I urge adoption of this amendment.

□ 1155

Mr. CHAPPELL. Mr. Chairman, will the gentlewoman yield?

Mrs. SCHROEDER. I am delighted to yield to the gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, we have examined the amendments on this side and have no objection to them.

Mrs. SCHROEDER. That is wonderful. I truly appreciate it, Mr. Chairman.

Mr. McDADE. Mr. Chairman, will the gentlewoman yield?

Mrs. SCHROEDER. I yield to the gentleman, from Pennsylvania.

Mr. McDADE. Mr. Chairman, I want to say to my colleague, the gentlewoman from Colorado, that we have looked at her amendments. We know of the gentlewoman's interest in the matter, and we are prepared to accept them on this side of the aisle.

Mrs. SCHROEDER. Mr. Chairman, I really appreciate that. I think that is very helpful.

The other one that is in here deals with dependent travel, and it also makes that at parity with what other people working for the U.S. Government make.

I thank the gentlemen very, very much.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore. The question is on the amendments offered by the gentlemwoman from Colorado [Mrs. SCHROEDER].

The amendments were agreed to.

The CHAIRMAN. Are there other amendments to title I? If not, the Clerk will read.

The Clerk read as follows:

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed $12,642,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes; $18,659,638,000, of which not less than $1,471,600,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed $3,079,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes; $23,762,002,000, of which not less than $770,000,000 shall be available only for the maintenance of real property facilities: *Provided*, That of the total amount of this appropriation made available for the alteration, overhaul, and repair of naval vessels, not more than $3,650,000,000 shall be available for the performance of such work in Navy shipyards: *Provided further*, That from the amounts of this appropriation for the alteration, overhaul and repair of naval vessels, funds shall be available for a test program to acquire the overhaul of two or more vessels by competition between public and private shipyards. The Secretary of the Navy shall certify, prior to award of a contract under this test, that the successful bid includes comparable estimates of all direct and indirect costs for both public and private shipyards. Competition under such test program shall not be subject to section 502 of the Department of Defense Authorization Act, 1981, as amended, or Office of Management and Budget Circular A-76: *Provided further*, That funds herein provided shall be available for payments in support of the LEASAT program in accordance with the terms of the Aide Memoire, dated January 5, 1981: *Provided further*, That obligations incurred or to be incurred hereafter for termination liability and charter hire in connection with the TAKX and T-5 programs, for which the Navy has already entered into agreement for charter and time charters including conversion or construction related to such agreements or charters shall, for the purposes of title 31, United States Code, (1) in regard to and so long as the Government remains liable for termination costs, be considered as obligations in the current Operation and Maintenance, Navy, appropriation account, to be held in reserve in the event such termination liability is incurred, in an amount equal to 10 per centum of the outstanding termination liability, and (2) in regard to charter hire, be considered obligations in the Navy Industrial Fund with an amount equal to the estimated charter hire for the then current fiscal year recorded as an obligation against such fund. Obligations of the Navy under such time charters are general obligations of the United States secured by its full faith and credit.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and mainte-

nance of the Marine Corps, as authorized by law; $1,615,128,000, of which not less than $238,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law, including the lease and associated maintenance of replacement aircraft for the CT-39 aircraft to the same extent and manner as authorized for service contracts by section 2306(g), title 10, United States Code; and not to exceed $5,556,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes; $19,507,672,000, of which not less than $1,385,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law; $7,340,076,000, of which not to exceed $11,117,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: *Provided*, That not less than $91,147,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $774,980,000, of which not less than $49,865,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $896,415,000, of which not less than $37,100,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $57,120,000, of which not less than $2,850,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $896,844,000, of which not less than $22,200,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft); $1,646,305,000, of which not less than $57,300,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For operation and maintenance of the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, repair, and other necessary expenses of facilities for the training and administration of the Air National Guard, including repair of facilities, maintenance, operation, and modification of aircraft; transportation of things; hire of passenger motor vehicles; supplies, materials, and equipment, as authorized by law for the Air National Guard; and expenses incident to the maintenance and use of supplies, materials, and equipment, including such as may be furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; $1,803,862,000, of which not less than $37,000,000 shall be available only for the maintenance of real property facilities.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

For the necessary expenses, in accordance with law, for construction, equipment, and maintenance of rifle ranges; the instruction of citizens in marksmanship; the promotion of rifle practice; and the travel of rifle teams, military personnel, and individuals attending regional, national, and international competitions; not to exceed $820,000, of which not to exceed $7,500 shall be available for incidental expenses of the National Board; and from other funds provided in this Act, not to exceed $630,000 worth of ammunition may be issued under authority of title 10, United States Code, section 4311: *Provided*, That competitors at national matches under title 10, United States Code, section 4312, may be paid subsistence and travel allowances in excess of the amounts provided under title 10, United States Code, section 4313.

CLAIMS, DEFENSE

For payment, not otherwise provided for, of claims authorized by law to be paid by the Department of Defense (except for civil functions), including claims for damages arising under training contracts with carriers, and repayment of amounts determined by the Secretary concerned, or officers designated by him, to have been erroneously collected from military and civilian personnel of the Department of Defense, or from States, territories, or the District of Columbia, or members of the National Guard units thereof; $148,300,000.

COURT OF MILITARY APPEALS, DEFENSE

For salaries and expenses necessary for the United States Court of Military Appeals; $3,200,000, and not to exceed $1,500 can be used for official representation purposes.

TENTH INTERNATIONAL PAN AMERICAN GAMES

For logistical support and personnel services (other than pay and nontravel related allowances of members of the Armed Forces of the United States, except for members of the Reserve components thereof called or ordered to active duty to provide support for the Tenth International Pan American Games) provided by any component of the Department of Defense to the Tenth International Pan American Games; $10,000,000.

ENVIRONMENTAL RESTORATION, DEFENSE

(TRANSFER OF FUNDS)

For the Department of Defense, $329,100,000, to remain available until transferred: *Provided*, That this $329,100,000 be derived by transfer from funds provided in appropriations contained in titles II, III and IV of this Act: *Provided further*, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration and hazardous waste disposal operations, reduction and recycling of hazardous wastes, research, development and demonstration with respect to hazardous waste reduction, treatment, disposal, and management, or for similar environmental restoration purposes (including programs and operations at sites formerly used by the Department of Defense), transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense as the Secretary may designate, to be merged with and to be available for the same purposes and for the same time period as the appropriations or funds to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred pursuant to this provision are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title II of the bill be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN. Are there any amendments to title II?

Mr. SISISKY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I am extremely concerned about report language in the fiscal year 1986 Defense appropriations bill that would "direct the Department of the Navy to open up for bid on a coastwide basis not only regular ship overhauls, but also all selected restricted availabilities intended for private shipyards." I am quoting from page 102, paragraph 3 of the Appropriations Committee Report 99-332.

Apart from the jurisdictional questions I have about whether this issue should be dealt with more appropriately by the authorizing committee, the House Armed Services Committee, I am extremely concerned about the adverse impact this directive could have on Navy morale and readiness. I think the greatest Navy problem that we're most likely to face in the years ahead has little to do with hardware. We've done a good job of providing new hardware over the last few years.

The problem I see that is staring all of us in the face is the problem of attracting quality people into military service, and particularly Navy service, in the coming decades. We simply can't afford to extend sea duty and extend time away from home to the point where people don't see their families, their wives, and their children. That's not fair to Navy personnel; it's not fair to their families; and a man or woman with a good perspective on their family obligations wouldn't stand for it or sign up for it in the first place.

That's one of the reasons why I believe this report language is so devastating. It has every potential of taking more weeks or months away from Navy family life. It has every potential of contributing to more disruption of family ties. I don't think we should be in the position of telling a Navy man that he has to spend weeks or months on a barge or in a motel while his ship is being overhauled in some distant shipyard, miles away from his wife and his children. Sea duty is enough of a family problem, without adding insult to injury.

Like I said, I can't imagine a responsible family that would say "Yes" to the Navy's enlistment invitation in the face of such great odds that they would be separated for such long periods of time. Sea duty is one thing; Navy people know that sea duty is part of Naval service and commitment. But in this case, what we're asking them to accept is not part of naval commitment at all. It never has been, and I submit that we should not make it a part of naval commitment now. It simply is not necessary and is not worth the cost we would incur in terms of losing quality personnel who are committed to meeting responsible obligations to their families.

Apart from the adverse impact on family life, I believe we need to think more about the adverse impact this proposal could have on naval readiness. I don't believe that anyone has ever alleged that homeport shipyards have failed to do the job. The shipyards in the Tidewater area have an exemplary record of completing work on time—if not ahead of time.

We've all heard the old saying, "If it ain't broke, don't fix it." Why on Earth should we take ships out of an area with facilities perfectly capable of doing the job? Why should we spend precious budget dollars to get ships and people up and down the coast, when we could keep folks at home with their families and ships in their homeport for necessary repairs—and all of this for less money? I think this is one of the most misguided excuses for competition I've even heard of.

It's a little like that Breeder's Cup horse race coming up this weekend. You can even things up between the competitors by putting lead in somebody's saddle—but that's not something we want to do in terms of defense contracts for ship overhauls. I think we can do that for sport, but we shouldn't play that game when it comes to national security and the family life of Navy personnel.

Spreading the wealth is one thing, but we don't want to spread the wealth so thin that we impoverish everyone. We've got competitive ship repair in Norfolk. We've got competitive ship repair on the west coast. In Norfolk and San Diego alone, a ballpark number of 25 ship repair companies regularly bid on Navy work. There are other ship repair centers that raise that number even higher. But I am opposed to creating a defense appropriation shipyard welfare program. We simply can't afford to keep everyone afloat, all the way up and down the Atlantic, gulf, and west coasts.

We need to develop sensible policies, designed around the objectives of spending defense dollars wisely and preserving the quality of life for naval personnel and their families. I submit that we need to take a much closer look at the desirability of having the Navy live by the report language accompanying this bill.

Mr. WHITEHURST. Mr. Chairman, will the gentleman yield?

Mr. SISISKY. Yes; I yield to the gentleman from Virginia.

Mr. WHITEHURST. Mr. Chairman, I appreciate the gentleman's yielding to me.

Mr. Chairman, I just want to identify myself with the gentleman's remarks and commend him for the splendid statement he made.

Mr. Chairman, I rise to bring a matter of considerable concern to the attention of my colleagues. The subject is the Navy's policy regarding selected restricted availability, or SRA.

For discussion purposes one can think of an SRA as a sort of minioverhaul. These SRA maintenance and repair periods are designed to accomplish a variety of work on naval vessels without the ship having to undergo the complete stand-down that occurs during a regular overhaul. The use of an SRA to do some kinds of routine work means that there can be a longer period of time between regular overhauls, thus making the ship available for operations for longer periods of time.

The current Navy policy is that SRA's are conducted in ship homeports. This policy is constantly reviewed by both the Armed Services Committee as well as the Appropriations Defense Subcommittee. As recently as in last year's Defense appropriations bill the current policy has been concurred in. Let me quote from the conference report accompanying last year's bill. "The conferees therefore agree that the Navy may reserve SRA's for homeport areas."

My concern today on this subject results from language in the report language accompanying this bill. The report language directs the Navy to open up for bid on a coastwide basis all SRA's intended for private shipyards. This change comes less than 1 year from the previous endorsement of the current Navy policy I just quoted.

There are several aspects of this report language recommended change that disturb me. To begin with, I think it is unwise for the Congress to constantly recommend significant policy changes. That procedure makes it very difficult for the Navy to effectively plan and schedule SRA's and overhauls.

However, my greatest concern centers on the extremely disruptive and detrimental effect this recommended change will have on the lives of our sailors and their families. Under the current policy, an SRA can be conducted in a ship's homeport shortly after returning from a deployment. This makes it possible for the crew of the ship to be in homeport with their families during that maintenance and repair period. To move the ship to some other port for the SRA only exacerbates the family separation problems which are a major cause of personnel problems for the Navy.

Another significant advantage of doing SRA's in homeport is related to crew training. Since many of the Navy's shore training facilities are colocated in major ship homeport areas, the crew can take advantage of those training opportunities during the stand-down associated with a homeport SRA. If the SRA is done in some other port, the crew must be sent TDY

to the training facility location requiring unnecessary per diem and travel costs.

Mr. Chairman, there are several other reasons why this SRA language in the report is unwise. However, let me summarize by saying that it is bad for two principal reasons: First, it has a negative impact on Navy personnel and family separation problems; and second, it will cost the Navy; more O&M dollars than the current policy.

Mr. CHAPPELL. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, our report was somewhat in error on the present Navy policy regarding the matter that has just been discussed. I would like to clarify for the record what the present position of the Navy is regarding their policy on this matter.

The present Navy policy is that all selected restricted availabilities [SRA] in excess of 6 months' duration will be competed on a coast-wide basis in keeping with congressional intent to ensure maximum competition for Government procurement programs. SRA's of 6 months or less in duration will be restricted to the homeport area provided sufficient ship repair competition capability and capacity exist.

This statement is for the purpose of clarifying the wording in our report.

Mr. LOWERY of California. Mr. Chairman, I rise to call my colleagues' attention to a most disturbing and unfortunate passage in the report accompanying the defense appropriations bill before us today. The report language I refer to is on page 102, and the section is entitled "Ship Maintenance Reserved for Homeport."

During committee markup, I offered an amendment to revise this language since it is incomplete and misleading with regard to the Navy's homeport for ship repairs. My alternative language was not adopted, thus I stand before you today, as will many other Members, to clarify the intent of Congress on this matter.

Though you will find no dissenting views or statements contrary ot the language on page 102 coming from the committee, I can assure my colleagues that this passage was not accepted with overwhelming enthusiasm. Indeed, this language was inserted at the behest of Northeast and Northwest Members to aid their shipbuilding constituencies. Unfortunately, the language fails to reflect upon the most fundamental reason Navy policy is what it is, and that is crew morale.

The report language, as it is currently written, misstates the Navy's homeport policy with respect to "selected restricted availabilities," [SRA's] and incorrectly implies that inadequate competition and capacity exist at our homeports.

Again, the most glaring error is the failure to mention the driving force behind Navy homeport policy, crew morale, and what effect this policy shift—imbodied in the report language—will have on family separation and personnel retention.

Make no mistake, this is a quality of life in the military issue if there ever was one. Removing SRA's from homeports, as the report now directs, will add an additional time that our sailors will have to spend away from home and family to the time already associated with arduous sea duty tours. With family separation as the Navy's No. 1 retention problem, this report language will cause more hardship than it will ever relieve.

Presumably, the report seeks to assist private shipyards outside of homeport areas. I have no qualms with maintaining an adequate industrial base to ensure our mobilization capability. But the Navy's current policies of competing the more lucrative overhaul contracts coastwide, as well as its determination to expand the number of homeports, adequately addresses the issue of keeping private yards on line.

Competition is not at issue either. Competition thrives at our homeports, so there is no danger of the Navy not getting a good price on its repair contracts. And should saturation occur, a most unlikely event, the Navy policy requires that the bid area be expanded.

So, where is the problem and why is this language necessary? The problem is this language. At the very least, a directional policy shift should encompass a discussion of effects on military personnel. Yet, beyond this point, it must be understood that this language neither resembles homeport realities nor correctly portrays Navy policy.

I would ask the authors of this language:

First. Have you calculated the cost to the taxpayer that such a shift in Navy homeport policy could cause?

Second. Is this not a policy decision you are making? Accordingly, have you consulted with the authorizing committee?

Third. Have you consulted Secretary Lehman or Assistant Secretary Pyatt and what are their views on such a major shift in Navy homeport policy?

Clearly, more thought need be given to this matter before we leap into a situation with far-reaching ramifications for our Navy personnel, local economies, national security and outright cost.

One final point, Mr. Chairman. During committee consideration, some members referred to a GAO study which criticized San Diego shipyards for low-bidding and other unsavory acts. First of all, the GAO study compared apples and oranges with respect to San Diego and Pacific Northwest yards. But most importantly, the GAO study, whether accurate or not, is irrelevant to the issue before us. What is at stake is the Navy's homeport policy for minor ship repairs, and its attendant effects on personnel retention, training, and morale. Don't be swayed into believing this language is procompetition or proreform: It is neither.

I ask unanimous consent to revise and extend my remarks.

The CHAIRMAN. Are there other amendments to title II? If not, the Clerk will read.

The Clerk read as follows:

TITLE III

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $3,337,300,000, and in addition, $217,600,000 to be derived by transfer from "Aircraft Procurement, Army, 1985/1987", to remain available for obligation until September 30, 1988.

MISSILE PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, as follows:

Chaparral program, $37,200,000;

Other Missile Support, $5,000,000;

Patriot program, $967,400,000;

Stinger program, $244,100,000;

Laser Hellfire program, $250,700,000;

TOW program, $181,300,000;

Pershing II program, $334,700,000;

MLRS program, $491,600,000, and in addition, $46,500,000, of which $36,400,000 shall be derived by transfer from "Missile Procurement, Army, 1985/1987" and $10,100,000 shall be derived by transfer from "Missile Procurement, Army, 1984/1986";

Modification of missiles, $222,000,000;

Spares and repair parts, $312,000,000;

Support equipment and facilities, $56,632,000;

And in addition, $78,000,000 to be derived by transfer from "Missile Procurement, Army, 1985/1987";

In all: $2,939,232,000, and in addition, $124,500,000 to be derived by transfer, to remain available for obligation until September 30, 1988: *Provided*, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $163,400,000.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts and accessories therefor; specialized equipment and training devices; expansion of public and private

plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $3,749,004,000, and in addition, $806,896,000, of which $392,096,000 shall be derived by transfer from "Procurement of Weapons and Tracked Combat Vehicles, Army, 1984/1986" and $414,800,000 shall be derived by transfer from "Procurement of Weapons and Tracked Combat Vehicles, Army, 1985/1987", to remain available for obligation until September 30, 1988.

PROCUREMENT OF AMMUNITION, ARMY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized in military construction authorization Acts or authorized by section 2854, title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $1,858,200,000, and in addition, $215,200,000, of which $30,000,000 shall be derived by transfer from "Procurement of Ammunition, Army, 1984/1986" and $185,200,000 shall be derived by transfer from "Procurement of Ammunition, Army, 1985/1987", to remain available for obligation until September 30, 1988.

OTHER PROCUREMENT, ARMY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, and modification of vehicles, including tactical, support, and nontracked combat vehicles; the purchase of not to exceed two thousand four hundred and sixty-four passenger motor vehicles for replacement only; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, as follows:

Tactical and support vehicles, $969,197,000, and in addition, $7,400,000, of which $2,000,000 shall be derived by transfer from "Other Procurement, Army, 1984/1986" and $5,400,000 shall be derived by transfer from "Other Procurement, Army, 1985/1987";

Communications and electronics equipment, $2,731,789,000, and in addition, $39,600,000 to be derived by transfer from "Other Procurement, Army, 1985/1987";

Other support equipment, $1,272,100,000, and in addition, $12,400,000 to be derived by transfer from "Other Procurement, Army, 1985/1987";

Non-centrally managed items, $105,300,000;

And in addition, $238,000,000, of which $79,000,000 shall be derived by transfer from "Other Procurement, Army, 1984/1986" and $159,000,000 shall be derived by transfer from "Other Procurement, Army, 1985/1987";

In all: $4,809,986,000, and in addition, $297,400,000 to be derived by transfer, to remain available for obligation until September 30, 1988: *Provided*, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $268,400,000.

AIRCRAFT PROCUREMENT, NAVY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, modification, and modernization of aircraft, equipment including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; $10,446,400,000, and in addition, $594,600,000, of which $40,000,000 shall be derived by transfer from "Aircraft Procurement, Navy, 1984/1986" and $554,600,000 shall be derived by transfer from "Aircraft Procurement, Navy, 1985/1987", to remain available for obligation until September 30, 1988: *Provided*, That $322,871,000 shall be available only for the procurement of nine new P-3C anti-submarine warfare aircraft: *Provided further*, That four P-3C aircraft shall be for the Naval Reserve.

WEAPONS PROCUREMENT, NAVY

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interest therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, as follows:

Poseidon, $5,001,000;

TRIDENT I, $36,226,000;

TRIDENT II, $581,986,000;

Support equipment and facilities, $17,107,000;

Tomahawk, $724,804,000;

AIM/RIM-7 F/M Sparrow, $345,379,000;

AIM-9L/M Sidewinder, $125,800,000;

AIM-54A/C Phoenix, $250,700,000;

AIM-54A/C Phoenix advance procurement, $24,800,000;

AGM-84A Harpoon, $314,873,000;

AGM-88A HARM, $236,000,000;

SM-1 MR, $17,738,000;

SM-2 MR, $509,719,000;

SM-2 ER, $312,235,000;

RAM, $15,000,000;

Sidearm, $20,500,000;

Hellfire, $55,068,000;

Laser Maverick, $173,458,000;

IIR Maverick, $27,809,000;

Aerial targets, $105,600,000;

Drones and decoys, $29,400,000;

Other missile support, $12,309,000;

Modification of missiles, $64,933,000;

Support equipment and facilities, $80,210,000;

Ordnance support equipment, $16,289,000;

MK-48 ADCAP torpedo program, $417,437,000;

MK-46 torpedo program, $125,115,000;

MK-60 CAPTOR mine program, $59,600,000;

MK-30 mobile target program, $16,600,000;

MK-38 mini-mobile target program, $3,499,000;

Antisubmarine rocket (ASROC) program, $15,551,000;

Modification of torpedoes, $111,341,000, and in addition, $22,600,000 to be derived by transfer from "Weapons Procurement, Navy, 1985/1987";

Torpedo support equipment program, $70,575,000;

MK-15 close-in weapons system program, $150,146,000;

MK-75 gun mount program, $15,005,000;

MK-19 machine gun program, $1,196,000;

25mm gun mount, $5,501,000;

Small arms and weapons, $11,305,000;

Modification of guns and gun mounts, $58,117,000;

Guns and gun mounts support equipment program, $1,200,000;

Spares and repair parts, $166,601,000;

And in addition, $87,000,000 to be derived by transfer from "Weapons Procurement, Navy, 1985/1987";

In all: $5,093,733,000, and in addition, $109,600,000 to be derived by transfer, to remain available for obligation until September 30, 1988: *Provided*, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $238,000,000.

SHIPBUILDING AND CONVERSION, NAVY

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long leadtime components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

TRIDENT ballistic missile submarine program, $1,064,900,000, and in addition, $373,900,000 to be derived by transfer from the TRIDENT ballistic missile submarine program of "Shipbuilding and Conversion, Navy, 1983/1987", "Shipbuilding and Conversion, Navy, 1984/1988", and "Shipbuilding and Conversion, Navy, 1985/1989";

SSN-688 attack submarine program, $2,539,200,000, and in addition, $159,200,000 to be derived by transfer from the SSN-688 submarine program of "Shipbuilding and Conversion, Navy, 1982/1986", "Shipbuilding and Conversion, Navy, 1983/1987", and "Shipbuilding and Conversion, Navy, 1984/1988";

Battleship reactivation program, $469,000,000 to be derived by transfer from the CVN nuclear aircraft carrier program and the Craft and prior year programs of "Shipbuilding and Conversion, Navy, 1982/

1986" and "Shipbuilding and Conversion, Navy, 1983/1987";

Aircraft carrier service life extension program, $133,400,000;

CG-47 cruiser program, $2,072,800,000, and in addition, $585,200,000 to be derived by transfer from the CG-47 cruiser program of "Shipbuilding and Conversion, Navy, 1982/1986", "Shipbuilding and Conversion, Navy, 1983/1987", "Shipbuilding and Conversion, Navy, 1984/1988", and "Shipbuilding and Conversion, Navy, 1985/1989";

DDG-51 destroyer program, $124,000,000 to be derived by transfer from the DDG-51 destroyer program of "Shipbuilding and Conversion, Navy, 1985/1989": *Provided*, That none of the funds for the CG-47 cruiser program and the DDG-51 destroyer program are to be obligated or expended until the contract awards for the SPY-1 radar, AEGIS combat system integration, solid state frequency converters, propellors, and vertical package/stores conveyors are awarded on a competitive basis;

LSD-41 landing ship dock program, $384,500,000, and in addition, $18,900,000 to be derived by transfer from the LSD-41 landing ship dock program of "Shipbuilding and Conversion, Navy, 1984/1988" and "Shipbuilding and Conversion, Navy, 1985/1989";

LHD-1 amphibious assault ship program, $1,275,700,000, and in addition, $37,900,000 to be derived by transfer from the LHD-1 amphibious assault ship program of "Shipbuilding and Conversion, Navy, 1984/1988";

MCM mine countermeasures ship program, $15,000,000;

MSH coastal mine hunter program, $184,500,000;

T-AO fleet oiler program, $197,900,000, and in addition, $80,600,000 to be derived by transfer from the T-AO fleet oiler program of "Shipbuilding and Conversion, Navy, 1982/1986", "Shipbuilding and Conversion, Navy, 1983/1987", "Shipbuilding and Conversion, Navy, 1984/1988", and "Shipbuilding and Conversion, Navy, 1985/1989";

T-AGOS ocean surveillance ship program, $60,900,000, and in addition, $28,700,000 to be derived by transfer from the T-AGOS ocean surveillance ship program of "Shipbuilding and Conversion, Navy, 1985/1989";

T-AG acoustic research program, $40,000,000 to be derived by transfer from the T-AGS ocean survey ship program of "Shipbuilding and Conversion, Navy, 1985/1989";

MTSD nuclear reactor training ship conversion program, $26,500,000;

T-ACS auxiliary crane ship conversion program, $74,000,000, and in addition, $8,500,000 to be derived by transfer from the T-ACS auxiliary crane ship conversion program of "Shipbuilding and Conversion, Navy, 1985/1989";

T-AVB logistic support ship program, $26,900,000;

LCAC landing craft program, $307,000,000;

Strategic sealift program, $173,100,000, and in addition, $55,300,000 to be derived by transfer from the Outfitting program of "Shipbuilding and Conversion, Navy, 1982/1986" and "Shipbuilding and Conversion, Navy, 1983/1987", the FFG-7 program of "Shipbuilding and Conversion, Navy, 1982/1986", the T-AKR program of "Shipbuilding and Conversion, Navy, 1984/1988", and the T-AH program of "Shipbuilding and Conversion, Navy, 1983/1987" and "Shipbuilding and Conversion, Navy, 1984/1988";

Service craft program, $41,800,000, and in addition, $37,700,000 to be derived by transfer from the Service craft program of "Shipbuilding and Conversion, Navy, 1984/1988";

Landing craft program, $11,000,000 to be derived by transfer from the Service craft program of "Shipbuilding and Conversion, Navy, 1984/1988";

Outfitting program, $228,500,000;

Post delivery program, $84,000,000, and in addition, $28,600,000 to be derived by transfer, from the Post delivery program of "Shipbuilding and Conversion, Navy, 1982/1986", "Shipbuilding and Conversion, Navy, 1983/1987", "Shipbuilding and Conversion, Navy, 1984/1988", and "Shipbuilding and Conversion, Navy, 1985/1989";

In all: $8,648,900,000, and in addition, $2,058,500,000 to be derived by transfer, to remain available for obligation until September 30, 1990: *Provided*, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $241,700,000: *Provided further*, That additional obligations may be incurred after September 30, 1990, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction; and each Shipbuilding and Conversion, Navy, appropriation that is currently available for such obligations may also hereafter be so obligated after the date of its expiration: *Provided further*, That none of the funds herein provided for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign shipyards for the construction of major components of the hull or superstructure of such vessel: *Provided further*, That none of the funds herein provided shall be used for the construction of any naval vessel in foreign shipyards.

OTHER PROCUREMENT, NAVY

(INCLUDING TRANSFER OF FUNDS)

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance and ammunition (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of not to exceed nine hundred and twenty-four passenger motor vehicles of which eight hundred and twenty-five shall be for replacement only; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, as follows:

Ship support equipment, $910,840,000, and in addition, $13,966,000 to be derived by transfer from "Other Procurement, Navy, 1985/1987";

Communications and electronics equipment, $2,057,202,000, and in addition, $37,091,000, of which $4,470,000 shall be derived by transfer from "Other Procurement, Navy, 1984/1986" and $32,621,000 shall be derived by transfer from "Other Procurement, Navy, 1985/1987";

Aviation support equipment, $1,040,711,000;

Ordnance support equipment, $1,337,722,000; and in addition, $37,368,000, of which $1,320,000 shall be derived by transfer from "Other Procurement, Navy, 1984/1986" and $36,048,000 shall be derived by transfer from "Other Procurement, Navy, 1985/1987";

Civil engineering support equipment, $221,558,000;

Supply support equipment, $58,917,000;

Personnel and command support equipment, $375,943,000;

Spares and repair parts, $279,838,000;

Non-centrally managed items, $125,300,000;

And in addition, $224,337,000, of which $70,000,000 shall be derived by transfer from "Other Procurement, Navy, 1984/1986" and $154,337,000 shall be derived by transfer from "Other Procurement, Navy, 1985/1987";

In all: $5,682,694,000, and in addition, $312,762,000 to be derived by transfer, to remain available for obligation until September 30, 1988: *Provided*, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $725,337,000.

PROCUREMENT, MARINE CORPS

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, ammunition, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including purchase of not to exceed two hundred and three passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands, and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; $1,610,749,000, and in addition, $85,717,000 to be derived by transfer from "Procurement, Marine Corps, 1985/1987", to remain available for obligation until September 30, 1988.

AIRCRAFT PROCUREMENT, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $20,722,700,000, and in addition, $1,458,300,000, of which $367,000,000 shall be derived by transfer from "Aircraft Procurement, Air Force, 1984/1986" and $1,091,300,000 shall be derived by transfer from "Aircraft Procurement, Air Force, 1985/1987", to remain available for obligation until September 30, 1988: *Provided*, That none of the funds in this Act may be obligated on B-1B bomber production contracts if such contracts would cause the production portion of the Air Force's $20,500,000,000 estimate for the B-1B bomber baseline costs expressed in fiscal year 1981 constant dollars to be exceeded: *Provided further*, That the Secretary of the Air Force shall establish during fiscal year 1986 a competition for the procurement of fighter aircraft to meet the requirements of the Active and Reserve forces of the Air Force; such competition shall be among all

suitable aircraft; and procurement of tactical fighter aircraft for the Air Force for fiscal year 1986 shall be carried out in accordance with all applicable provisions of law, including section 136a (relating to the Director of Operational Test and Evaluation), section 139c (relating to independent cost estimates), and chapter 137 (relating to competition in contracting), of title 10, United States Code: *Provided further,* That $20,000,000 appropriated in fiscal year 1984 for procurement of C-130H aircraft shall be available only to buy one additional C-130H aircraft for the Air Force Reserve: *Provided further,* That $20,000,000 appropriated in fiscal year 1985 for procurement of C-130H aircraft shall be available only to buy one additional C-130H aircraft for the Air Force Reserve.

MISSILE PROCUREMENT, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $8,043,527,000, and in addition, $155,000,000 to be derived by transfer from "Missile Procurement, Air Force, 1985/1987", to remain available for obligation until September 30, 1988: *Provided,* That the number of MX missiles deployed at any time in existing Minuteman silos may not exceed 50, and that funds appropriated by this or any other Act may not be used—

(1) to modify, or prepare for modification, more than 50 existing Minuteman silos for the deployment of MX missiles;

(2) to acquire basing sets to modify more than 50 existing Minuteman silos for the deployment of MX missiles; or

(3) to procure long-lead items for the deployment of more than 50 MX missiles:

Provided further, That unless a basing mode for the MX missile other than existing Minuteman silos is specifically authorized by legislation enacted after the date of the enactment of this Act or the Department of Defense Authorization Act, 1986, whichever first occurs, after procurement of 50 MX missiles for deployment in existing Minuteman silos—

(1) further procurement of MX missiles shall be limited to those missiles necessary to support the operational test program and for the MX missile reliability testing program; and

(2) during fiscal year 1987, depending upon the most efficient production rate, from 12 to 21 MX missiles should be procured for such purposes.

OTHER PROCUREMENT, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed eight hundred and forty-nine passenger motor vehicles of which eight hundred and one shall be for replacement only; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, as follows:

Munitions and associated equipment, $1,078,515,000, and in addition, $10,800,000 to be derived by transfer from "Other Procurement, Air Force, 1985/1987";

Vehicular equipment, $320,869,000;

Electronics and telecommunications equipment, $2,544,608,000, and in addition, $8,858,000 to be derived by transfer from "Other Procurement, Air Force, 1985/1987";

Other base maintenance and support equipment, $4,466,044,000;

Non-centrally managed items, $54,700,000;

And in addition, $327,818,000, of which $116,027,000 shall be derived by transfer from "Other Procurement, Air Force, 1984/1986" and $211,791,000 shall be derived by transfer from "Other Procurement, Air Force, 1985/1987";

In all: $7,890,918,000, and in addition, $347,476,000 to be derived by transfer, to remain available for obligation until September 30, 1988: *Provided,* That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $573,818,000: *Provided further,* That no obligation may be incurred for the procurement of 30mm armor piercing ammunition unless there is component breakout for the depleted uranium penetrator.

NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces, as follows:

Army National Guard, $165,000,000;

Air National Guard, $192,000,000, and in addition, $8,000,000 to be derived by transfer from "Aircraft Procurement, Air Force, 1985/1987";

Naval Reserve, $45,000,000;

Marine Corps Reserve, $60,000,000;

Air Force Reserve, $120,000,000;

In all: $582,000,000, and in addition, $8,000,000 to be derived by transfer, to remain available for obligation until September 30, 1988.

PROCUREMENT, DEFENSE AGENCIES

(INCLUDING TRANSFER OF FUNDS)

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed four hundred and ninety passenger motor vehicles of which two hundred and fifty-one shall be for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; $1,181,869,000, and in addition, $36,000,000, of which $15,000,000 shall be derived by transfer from "Procurement, Defense Agencies, 1984/1986" and $21,000,000 shall be derived by transfer from "Procurement, Defense Agencies, 1985/1987", to remain available for obligation until September 30, 1988.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title III be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN pro tempore. Are there any amendments to title III?

Mr. STRATTON. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I would like to engage in a colloquy with the distinguished gentleman from Pennsylvania [Mr. MCDADE].

Mr. Chairman, this bill contains appropriations for only a few line items in the procurement accounts where authorization was not contained in S. 1160, the Defense Authorization Act for fiscal year 1986. As chairman of the Procurement Subcommittee of the Armed Services Committee, and a member of the Authorization Conference Committee, I would like to draw attention to one line item, the 120mm mortar for the U.S. Army. My desire is to receive assurances from the gentleman from Pennsylvania that the intent of the authorization conference report is not negated by the actions of the appropriations bill.

Mr. Chairman, I yield to the gentleman for his response.

Mr. MCDADE. Mr. Chairman, at this point, I would like to respond to the comments of the gentleman from New York. First, let me say that on this issue—as so many others that come before his committee—the gentleman from New York has identified a key need, in this case, one having to do with the Army, and has acted responsibly in trying to assure that both the foot soldier and the American taxpayer are best served. I will assure the gentleman that the actions of our committee with respect to the 120mm mortar are in no way intended to negate or adversely affect the action taken by the authorization conference. In fact, I believe that the gentleman and I share the same goal—namely, to encourage the Army to come to grips with this issue, which it has been struggling with for well over 1 year now—and also, to ensure that the issue is dealt with in as comprehensive and as rapid a fashion as possible.

With that in mind, we provided funds for this purpose so that the Army could, if need be, be in a position to move out on this program as quickly as possible. We most certainly did not intend for the Army to do so, without notifying and consulting with the authorizing committees.

Mr. STRATTON. I thank the gentleman for his remarks. I would like to take the opportunity to reiterate the

position of the authorization conference concerning the 120 mm mortar program.

The authorization conferees strongly supported the objective of modernizing the Army's inventory of mortars, and introducing a new 120 mm mortar. But, the conferees could not support authorization of appropriations for procurement at this time because the 120 mm mortar program lacks stability in terms of requirements and acquisition strategy. Members of the other body, Senators GOLDWATER and NUNN believed that the authorization bill should establish a set of criteria for execution of the Army's 120 mm mortar program, and the conferees indicated support for a future reprogramming once the Army satisfied the criteria for execution of the program.

The criteria included in the authorization bill include four simple steps that the Army must take to ensure a stable program: First, a master plan for mortars provided to the Congress; second, competition ensured amongst all of the potential bidders; third, the Army provides for the purchase and validation of the technical data package for manufacture in the United States; and fourth, the Army conducts a cost-effectiveness analysis for the domestic manufacturing of the winning 120 mm technical data package. This analysis, which will be in accordance with existing statute—the Arsenal Act—should include an appraisal by the U.S. Army's arsenal system.

I understand that these steps will not be completed until sometime in 1986. Thus, the authorization conferees believed that a reprogramming would be the best approach to ensuring that stable program was progressing.

I appreciate the opportunity to clarify the record and note that the intent and the logic of the authorization conferees has not been negated by the appropriations of funds for this item. We believe that the Army must continue to abide by existing statute, and structure an acquisition program that will meet the soldier's needs, and will ultimately make sense.

□ 1205

Mr. McCLOSKEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I would like to ask the gentleman from Florida [Mr. CHAPPELL] to engage in a brief colloquy regarding the urgent need to establish a full-time, single hatted surgeon in the U.S. European Command.

Mr. CHAPPELL. I would be happy to do so, Mr. Chairman, if the gentleman will yield.

Mr. McCLOSKEY. I want to commend the gentleman for the language included in your committee report which directs the designation of a EuCom surgeon in the grade of 0-7—major general—not later than June 23, 1986. I have recently introduced legislation directing the Secretary of Defense to establish such a position. The shortcomings in joint planning in Europe were the focus of a hearing held on September 18 by the Armed Services Subcommittee on Investigations, chaired by the gentleman from Alabama [Mr. NICHOLS]. Currently, the position of European Command surgeon is a part-time job held by the senior Air Force or Army surgeon in Europe. It is abundantly clear that overseeing U.S. medical plans and operations in Europe is a full-time job by itself and cannot be properly fulfilled on a part-time basis.

Moreover, the present dual hatted arrangement encourages identification with a particular service rather then with overall medical capabilities. It is my feeling that the European Command surgeon should be given clear and unequivocal directive authority over the service components' medical elements in peacetime, as well as in wartime.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. McCLOSKEY. I yield to the gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, I fully concur with the gentleman's concerns. The establishment of a full-time, single-hatted surgeon's slot in the U.S. European Command was one of the principal recommendations of the April 1984 Zimble Commission Report which identified a multitude of shortcomings in joint medical readiness planning in the European Command. Eighteen months later, that vital recommendation has not yet been implemented.

Mr. HILER. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I would like to ask my distinguished colleague, the gentleman from Pennsylvania [Mr. MCDADE], if he would engage in a colloquy with me.

Mr. McDADE. Mr. Chairman, if the gentleman will yield, I say to my colleague that I am delighted to do so.

Mr. HILER. Mr. Chairman, I wish to congratulate both the gentleman from Pennsylvania [Mr. MCDADE] and our esteemed colleague, the gentleman from Florida [Mr. CHAPPELL], for their fine work on this appropriations bill as chairman and ranking minority member of the Defense Subcommittee.

Mr. Chairman, I rise to seek clarification, if I may, on the committee's report language with respect to the extension of the current multiyear contract for 5-ton trucks authorized by the House Armed Services Committee, and approved yesterday in action on the conference report.

That extension was authorized as an insurance policy, if you will, to avoid a gap in production of this vehicle which is in critically short supply to our armed services at this time. My perception of the Appropriations Committee's report language is that the committee would prefer that this extension to the current contract not be utilized if 5-ton trucks could be produced under the new contract. Is this correct?

Mr. McDADE. Mr. Chairman, will the gentleman yield?

Mr. HILER. I yield to the gentleman from Pennsylvania.

Mr. McDADE. Mr. Chairman, I thank the gentleman from Indiana for raising a very important point of clarification. While the committee has stated that it expects that the extension would not be used, the gentleman will note that this expectation is contingent upon a very important factor—that the milestones be met for source selection and letting the new follow-on 5-year multiyear contract. It would not be the committee's wish that there be a production gap, especially since this could have the unfortunate effect of costing the taxpayers more money in the long run.

Mr. HILER. I am relieved to hear the gentleman's assurances. The 5-ton truck program, while very unglamorous and perhaps unexciting, has been one of our most cost-effective and reliable. And, as you know, our armed services has a 12,000-truck shortfall now, a fact that was underscored in testimony before the Armed Services Committee's readiness panel by Brig. Gen. John Greenway. In addition to this shortfall, the addition problem with a production gap would be the additional cost to the taxpayers, as my colleague has already pointed out. This cost would result from shutting down suppliers throughout the country and then gearing back up for production later.

It is true, as the committee notes, that the Army expects to award the new contract in the first half of 1986. We hope the milestones for source selection and contract award will be met. However, it is important to take into account also the time involved in testing and production lead time, especially since there are major component changes in the new truck, such as the engine.

So, my understanding then is that the committee, in its report language, did not mean to preclude altogether the use of the extension to the current contract, and that in fact the committee would not preclude it if it became necessary in order to avoid a production gap. What the committee meant is that we should not be building the old trucks, when the time comes that we can build new ones.

Mr. McDADE. That is correct.

Mr. HILER. Mr. Chairman, I thank the gentleman from Pennsylvania.

The CHAIRMAN pro tempore (Mr. MOAKLEY). Are there any other amendments to title III?

AMENDMENT OFFERED BY MR. FRANK

Mr. FRANK. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FRANK: On page 36, line 6, strike out "$8,043,527,000" and insert in lieu thereof "$6,297,527,000".

Mr. FRANK. Mr. Chairman, the Chair was moving with its usual efficiency to the point where I was not quite expecting to be ready at this point.

This is a very straightforward amendment. I think today we can begin Gramm-Rudman deficit-reduction scorekeeping, because in the bill that is before us $1,700 million is allocated for buying 12 MX's that no one thinks we need.

My amendment is very simple. It reduces that amount from $8 billion to $6.2 billion. It takes $1.7 billion out, removes it from the deficit, saves it, and saves the interest on it. It just plain flat out cuts the deficit. What it says is that we will not build 12 MX missiles that we were going to build.

Let me just talk about the history of the MX. We have had proposals to build 200, we have had proposals to build 100, and we have fought about it and not fought about it. Then in the House budget we said, "Let's not build any more than the 40 we are already committed to."

Then it went to the other body, and the other body said, "Let's go to 50, but that will be the end of it; 50, and that will be the end of the program forever."

In conference we did one of our usual compromises. The House said 40, the other body said 50; we added 40 to 50, divided by 2, and came up with 50.

The point I would make, however, is this: There is no strategic argument whatever for the 12 additional missiles. That is 10 plus 2 spares, spare missiles—spare missiles like spare tires. One could blow out, and you have a spare. It is kind of hard to call AAA to come and fix it.

□ 1215

So we are being asked here—let us review the bidding. It is agreed by both Houses, it was agreed in the authorization bill that we adopted yesterday that we would stop this program at 50 operational missiles. No one, no one with the possible exception of Caspar Weinberger, and it would take him some time, thinks it makes any strategic sense to have 50 versus 40.

What good is it? Remember, we have agreed, these are the last 10 we are going to build of the MX. No one has ever advocated a strategy for 50 MX's.

What good would 10 more MX's do, to go from 40 to 50?

I have thought about this. I think if we were going to go to war with Scandinavia, those extra 10 might be useful, but you might have to do a little side shot at Iceland; but I say it is a very nice country. They are friendly people, a member of NATO. I do not anticipate our country having any fight with them. I do not think we are going to go to war with Scandinavia.

There is no need for these missiles. So here is where we are. We have got competing proposals about reducing the deficit. In this bill there is $1,700,000,000, much more than the housing programs we fought about, more than a lot of the other programs in total that we fight about; $1.7 billion to build 12 MX's for which we have no use.

So what Members get today is a free Gramm-Rudman deficit reduction scorecard vote, because you can kill the $1.7 billion and no one is going to tell you that you have damaged our national security.

Now, it used to be that the MX was a bargaining chip, but we are not talking buffalo chips today when we talk about these 10 MX missiles, because we are beyond that stage. The new bargaining chip is the SDI, the strategic defense initiative. When is the last time you heard Mr. Kampelman, Mr. Tower, Mr. GLICKMAN say that we need 10 additional MX's, because if we only have 40, the Russians will not listen, but if we have 50, they will listen?

We made a political compromise. That is our job, and that is what we do. We said no more.

The Senate said, well, some more. We compromised on 50. No one thinks they are needed.

So what we have is an agreement put through here without any question yesterday in the authorization to cap the MX Program at 50; so the only question we have before us, remember, we have not decided, and my amendment does not touch the language leaving that cap in there, and that cap was also in the authorization, so the only question before us today is should we cap the MX Program forever at 40, or should we cap it forever at 50? If we cap it at 50, rather than 40, we spend $1.7 billion. If we cap it at 40, we save $1.7 bilion. You are already substantially ahead of the game in reducing the deficit and at no strategic cost, because there exists nowhere in the Pentagon, not anywhere is there an argument that says it makes sense to go from 40 to 50.

You can make a strategic argument that we should go from 40 to 100, but that is not contemplated.

The choices are, do we build 10 more MX missiles?

And you know why we got to 50? Because that is the way the political compromise process works out. They went to the other body, and some said more and some said less, and they struck a deal. I do not say that negatively. That is the only way you can function around here.

We honored that deal in the authorization. Now the question comes, we are talking real money. I cannot think of many other places where we are going to seriously cut $1.7 billion. It might be nice to have the 10 more MX's than not. The cement masons have not been doing well these days. They could get 10 more sites, and they could pour a lot of cement, and that would be good for them; but if we are serious about deficit reduction, how can you talk about spending the $1.7 billion to go from 40 to 50, for which there is no strategic argument?

So we have here, I think, the most clear cut deficit reduction vote we are going to get this weekend. I am confident that we are going to begin our deficit reduction today.

Mr. CHAPPELL. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I want to make it perfectly clear what this amendment seeks to do is to take out all the funds for the MX Missile Program.

The House has agreed to cap the MX deployment at 50 missiles by passing the defense authorization conference bill on yesterday. What is in this bill is exactly what is in the authorization bill. That deployment cap is in this bill.

That position has been reached after much consideration and debate, stretching out over several years.

Any deployment, no matter what its size, requires a large number of test missiles in addition to operational missiles. Those test missiles must be fired periodically over a span of many years to verify continued operational readiness.

The Congress has already funded 42 operational missiles in previous years, and even if a lesser number than 50 missiles is deployed, we must build a number of test vehicles to support that deployment. Those test missiles must be funded and produced over a period of several years.

If this amendment is agreed to, the effect will be a total break in production, because test missiles will still have to be built next year, in fiscal year 1987.

This kind of start-stop leads only to inefficiency and waste, and the amendment will simply add substantial costs to the program.

Mr. Chairman, I seriously urge the defeat of this amendment.

Mr. HUTTO. Mr. Chairman, will the gentleman yield?

Mr. CHAPPELL. I yield to the gentleman from Florida.

Mr. HUTTO. Mr. Chairman, I appreciate the gentleman yielding.

Mr. Chairman, I would like to point out that in testimony before the Armed Services Committee that our negotiators at Geneva pointed out that 50 would be the minimum number of MX missiles that would be

acceptable as far as their position is concerned.

Mr. CHAPPELL. Mr. Chairman, let me make this further clarification. The amendment removes not only the funding for procurement of 12 MX missiles, but a good deal more. It removes funding for modifying the Minuteman silos which are to receive the missiles already funded in fiscal years 1984 and 1985.

It removes funds for support equipment.

The effect of the amendment would be to halt deployment of missiles already funded, and I think it would be a serious, serious mistake. I urge the defeat of the amendment.

Mr. FRANK. Mr. Chairman, will the gentleman yield?

Mr. CHAPPELL. Yes; I yield to the gentleman.

Mr. FRANK. Mr. Chairman, I thank the gentleman for yielding.

The best information we get, and I realize that you get information from one person and then when you use it for that purpose, sometimes it changes, we were told that this is what we seek to do, we simply are trying to do away with the new MX missiles.

Now, the gentleman says that we need some test missiles. My understanding and up until the moment my amendment was offered was that we were told there were going to be 10 new operational missiles and two tests in this proposal; so most of what we were seeking to get rid of were the operational ones.

If at some future point you need testing missiles, you could get them.

But the fundamental point we have is this. The other gentleman from Florida said, well, the negotiators in Geneva said 50 was a minimum. Yes; they said 50 was a minimum after the deal was cut for 50. They were called in retroactively to approve it.

No one, no one in the strategic reaches of the Pentagon, the State Department, or the Arms Control Agency ever argued for 50 until that was the best they could get, and then they put a retroactive clause on it.

Yes; it would be nicer to have some than not, but how can you talk seriously about cutting Medicare, cutting Medicaid, cutting farm supports for people who are struggling, cutting every other program of the Federal Government, which is what Gramm-Rudman does, and then you spend $1.7 billion for 10 missiles for which there is no strategic argument?

We talk about making hard choices. This is not even a hard choice. It is a moderately difficult one, and I hope we make it the right way.

Mr. CHAPPELL. Mr. Chairman, I strongly urge defeat of the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Massachusetts [Mr. FRANK].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. FRANK. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 211, noes 208, not voting 15, as follows:

□ 1240

The Clerk announced the following pair:

On this vote:

Mrs. Collins for, with Mr. Nelson of Florida against.

Mr. KOLTER changed his vote from "aye" to "no."

Messrs. DYMALLY, McKERNAN, FOLEY, CHANDLER, ANNUNZIO, and LIPINSKI changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Mr. BROWN of California. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I had noticed in the RECORD an amendment which I was prepared to offer at this point in the bill. I wanted to explain that amendment and explain the considerations which led to my proposing to offer it.

The amendment, in effect, reduces by $38 million the sums in the bill which would represent the cost of modifying F-15 aircraft for the ASAT Program.

The committee has done an excellent job in most respects with this bill, and I am going to support the bill very strongly. As I said before, my amendment would have reduced by $38 million the amount in the bill which was to be used for the modification of F-15 aircraft for the ASAT Program. The committee, in its wisdom, has included in the bill language that would provide for a de facto moratorium on further tests of the ASAT system as long as the Soviet Union does not engage in further tests.

If that language is held in conference, and I have every confidence that the committee would try to do that, it would mean a further delay in the testing program and a delay in the initial operational capability of the system for the next year and under the circumstances that I have described. In other words, if the language in the bill with regard to ASAT testing is maintained in conference, there would be no need to proceed at this time with the modification of the F-15, just as there was no need to proceed with the construction of the facilities to house the F-15 which was taken out of the military construction bill in a vote by the House just a week or so ago.

So my amendment, in effect, offered an opportunity to save $38 million for a program which, if we uphold the language of the bill on ASAT tests, will not be needed for another year anyway.

I am not proposing this amendment as a threat to the ASAT Program. My whole approach to this problem is that we have what you sometimes call a window of opportunity to negotiate an arms control agreement on ASAT. It is very high on the agenda at Geneva. It will be a part of the talks between the President and his Soviet counterpart.

I do not think that we should negate the opportunity to take advantage of that window by proceeding at a pace which would lead the other side to feel that we are fully committed to go ahead no matter what happens, and thus lessen the opportunity to reach some agreement.

I am very pleased with the language in the bill on ASAT tests. That language would actually make it unnecessary to proceed with the funding of the modifications of the F-15 or the other parts of the program which I have already described.

It has been suggested that I not offer this amendment, and I have no strong desire to offer it. But on the other hand, I have a very strong desire to have the committee hold to the present ASAT language in conference.

I will not recite the gory details of what has happened to this language in past conferences. I think everybody knows that we allowed the other body to beguile us into accepting certification language which turned out to be not much of a restriction on the test procedure, and I do not want us to fall into that trap again. I think that the Members all recognize now that the certification provision that the other body would like to have is a nullity, it means nothing.

So I am prepared to withhold or to defer offering this amendment if I could get some assurances from the members of the committee that they will vigorously support the House position in conference.

I would yield to the distinguished acting subcommittee chair in that regard, knowing that he cannot give absolute assurances, but asking for his consideration in this matter.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. BROWN of California. I yield to the gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, I want to say to the gentleman that it is the intention of the committee to hold just as closely to this bill all the way through the conference as we can, and we will certainly try to retain this language in the final bill.

The CHAIRMAN pro tempore. The time of the gentleman from California [Mr. BROWN] has expired.

(By unanimous consent, Mr. BROWN of California was allowed to proceed for 2 additional minutes.)

Mr. CHAPPELL. Mr. Chairman, as the gentleman knows, there are some technical problems with the ASAT. We have put in very tight restrictive language in the bill. We hope that we will be able to retain that language, and we will make our best effort to do so, recognizing, as the gentleman knows, we cannot always get everything we want. But we are going to try to hold just as closely to this bill as we can on this subject.

Mr. BROWN of California. I certainly do appreciate the good faith of the gentleman, and I know that he will do everything possible but that, of course, there are things which one individual cannot determine by himself. I look forward to the gentleman doing the best that he possibly can.

Mr. YOUNG of Florida. Mr. Chairman, will the gentleman yield?

Mr. BROWN of California. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. Mr. Chairman, I appreciate the gentleman yielding. We agree with the statement made by the acting chairman of the subcommittee.

But I would also like to point out that it would really be in our best interest not to proceed with this amendment in view of the fact that if we were to go back later to modify the F-15's, there would be a tremendous additional cost involved. Like the chairman, we are prepared to support the language of the subcommittee on ASAT.

Mr. BROWN of California. I thank the gentleman for that comment, and I recognize the good sense of it.

It is possible that we will want to continue with the testing and the bill would allow us to do so if the Soviets test. We would then need the modifications and we would need the other facilities. I recognize that. I hope the gentleman will recognize that my purpose is to allow us to exploit an opportunity for arms control here.

Mr. YOUNG of Florida. Of course.

Mr. FAZIO. Mr. Chairman, I move to strike the last word, and I do so for the purpose of engaging the acting chairman of the Appropriations Defense Subcommittee, the gentleman from Florida [Mr. CHAPPELL] in a brief colloquy.

Mr. Chairman, I'd first like to take time to congratulate the excellent job the acting chairman of the subcommittee has done in reporting out a bill under unusual circumstances. I'm sure the subcommittee chairman, Mr. ADDABBO, would concur if he could be with us here today.

As members of the Appropriations Committee are aware, Mr. CHAPPELL brought forth a defense appropriations bill this fall that accurately reflects the seriousness of the deficit crisis we face in this Nation. This bill acknowledges our continuing needs in the area of national defense while coming in at $10 billion less than the figure prescribed by the other body, a sign that fiscal responsibility must extend to all segments of the Federal budget.

There is one area of this bill, however, that many of us on the committee and in this body feel would benefit from further budgetary scrutiny. I refer to the strategic defense initiative, a source of great uncertainty in both the technological sense and, as the Geneva summit approaches, in the political sense.

I think all of us in this body will concede at this point in time that SDI begs more questions than it answers. Few if any of us can disagree with the foundation of President Reagan's dream, a desire to rid the Earth of the fear of nuclear annihilation. However, serious questions remain as to whether this aim is possible, feasible or even desirable.

For the time being, the committee has agreed that research on SDI will go forward in fiscal 1986 at a funding level of $2.5 billion. I can accept the political reality of that decision. Yet I also recall the words of the acting chairman during the debate in committee on this matter. At that time, Mr. CHAPPELL pledged his strongest effort to hold the line in conference with the other body to keep SDI funding at or near the $2.5 billion level this House will approve today.

For the edification of our colleagues who were not privy to that assertion in committee, I'd like to take this time to ask the acting chairman if I have accurately reflected his remarks to the committee on October 24.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. FAZIO. I yield to the gentleman from Florida.

Mr. CHAPPELL. The gentleman is correct.

Mr. FAZIO. I thank the acting chairman. Mr. Chairman, I welcome the confirmation by the acting chairman that he will abide by his pledge to the committee with regard to SDI during conference negotiations. My colleagues should know that the other body is certain to report a higher figure for this controversial project than we have set, and that the acting chairman's actions in this regard will be in the best interest of the will of this body. I thank the acting chairman, and yield back the balance of my time.

□ 1255

Mr. BATEMAN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise to indicate support for the statements made on the floor earlier today by the distinguished gentleman from Florida, the chairman of the Seapower Subcommittee of the Committee on Armed Services [Mr. BENNETT], and the distinguished gentlemen from Virginia [Mr. WHITEHURST] and [Mr. SISISKY], and the gentleman from California [Mr. HUNTER], and perhaps others who have and will address this point.

The point that I have reference to is the report language in the committee bill dealing with the Selected Restricted Availabilities Program of the Navy. I think this report language is off the mark and I am in strong disagreement with it.

I think it is an instance where we in the Congress impair the ability of the services to better manage their activities in keeping with the maximum accomplishment of their mission with the greatest cost effectiveness.

I would not want to rise, however, without my compliments to the distinguished acting chairman of the subcommittee [Mr. CHAPPELL], and to the gentleman from Pennsylvania [Mr. MCDADE] for their very commendable efforts in bringing this bill to the floor.

I know it is one of the more difficult pieces of legislation with which anyone has to deal, and they are indeed to be commended for it.

While commending them very genuinely and sincerely for the totality of their effort, I would hope that the Department of Defense will, before the final processes of the final enactment of the appropriation bill make its case satisfactory to the committee and its conferees with reference to the binary weapons systems, which I look upon as one of the primary national security needs of our country, as well as to the electronic equipment incidental to the SSN-21 submarine program and to the Army's light helicopter experimental program which I think is going to be necessary and will in the long run save us millions and millions of dollars as the Army determines the best way to arrive at and meet its aviation needs over the coming years.

Mr. Chairman, I am concerned about a particular aspect of H.R. 3629 which undermines the need to recruit and retain personnel for the military services. I refer to that section in the report which would change the Navy's homeport policy causing major disruption to crews of Navy vessels and their families and major upheaval in the quality of life.

The Navy is directed by the language in the report to bid certain naval ship repair work, selected restricted availabilities [SRA's], on a coastwide basis. SRA's are projects of less than 6 months' duration, and customarily the work is done in the homeport of the involved vessel. The merit of restricting such projects to the homeport in terms of morale and convenience should be self-evident.

The language in House Report 99-332, accompanying H.R. 3629, directing the Navy to open up for bid on either coast intended for private sector shipyards, does violence to the Navy's efforts to retain critical personnel.

It would also have a devastating impact on not only the Navy's homeport policy which has been carefully crafted to suit the needs of a dispersed naval fleet but also on the quality of life for seamen.

SRA's involve work of less than 6 months' duration which is accomplished in a vessel's homeport. Seamen are thereby enabled to spend time with their families in their assigned habitat. Morale is a significant factor and should not be discounted.

There are also real costs in moving ships for repairs in other than homeports. These include fuel, berthing and messing for the crew, transfer of material and equipment staged in homeports, and additional administrative and supervising burdens. As the Congress endeavors to hold down and reduce the deficit, these needless additional costs cannot be ignored.

By bidding SRA's coastwide, additional financial burdens are placed on the seamen. When the ship's availability for repair work is less than 6 months, seamen cannot be reimbursed for travel to visit their families in their homeport and the likelihood of their finding short-term quarters, for their families to visit them in a nonhomeport area is slim.

The current policy allows our sailors to spend well-deserved and earned time with their families. As the Navy fleet is dispersed and new homeports are developed in the coming years, this policy will assure our sailors—as well as all other military personnel—that their quality of life continues as one of the Nation's primary objectives.

It would be tragic, in my belief, to pursue the referenced language in the report which accompanies the Defense appropriations bill.

Mr. McKERNAN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, upon review of title III of this bill, I have noticed that the committee has included language in this bill which would prohibit the spending of any funds for either the CG47 cruiser program or the DDG51 destroyer program until some of the Aegis and other electronic intelligence aspects of these vessels have been put out to competitive bid.

I certainly support competitive bidding, but it seems to me that this provision is a little bit like the tail wagging the dog, especially when one looks at the cruiser program, the CG47's, the last bid that was sent out for three cruisers resulted in a savings of $120 million because of the competitive bidding system that the Navy has already established in that system.

I understand that there seems to be some type of a problem on competitive bidding from some of the component parts. I support competitive bidding, but it seems to me that the committee perhaps may have overdone this particular provision.

I know that the chairman of the committee, who is unable to be here today, feels very strongly about it; I also know that there are people on the committee who are willing to try to take a second look at this particular provision, and I would like to ask the acting chairman of the subcommittee if in fact, in conference this is a provision that they would be looking at, trying to work something out on.

Mr. CHAPPELL. Will the gentleman yield?

Mr. McKERNAN. I yield to the gentleman.

Mr. CHAPPELL. I can say to the gentleman that we are cognizant of the problem and we think the best place to work it out is in conference, and I believe that we will bring back an agreement that will be, at least in some measure, satisfactory to the gentleman.

Mr. McKERNAN. I appreciate that, because I do believe that we ought to be doing as much competitive bidding as possible, and on component parts as well as on the vessels themselves, but I do not want to interfere with a program, at least from shipyard standpoint, that is saving the Government

money and is keeping people at work and on schedule.

I appreciate the efforts of the gentleman.

Mr. CHAPPELL. If the gentleman will yield further, we recognize that the language could cause some real problems with executing the basic construction contracts and we will try our best to work the problem out.

Mr. McKERNAN. I appreciate that.

Mr. FASCELL. Mr. Chairman, last week the House Appropriations Committee voted to delete the funding for new binary nerve gas weapons. It was the right vote for the right reasons at the right time.

That vote states clearly that we should not fund a weapons system which:

Is not needed;

Does not work;

Has not been proven safe for our troops;

Well add billions to the deficit;

Will harm the NATO alliance;

Will increase the risk of chemical weapons proliferation and terrorist use; and

Will undermine chances for an arms control ban on deadly nerve gas weapons.

Binary chemical weapons have never been field tested and have continually failed tests—even under controlled laboratory conditions. Our closest NATO allies have rejected these weapons which, if used in Europe, would kill civilians in droves while leaving protected Soviet enemy soldiers unharmed.

Our own General Accounting Office has recommended for 3 consecutive years that the Congress should not appropriate the $164 million requested for this new nerve gas weapon production program.

Every time I've asked GAO investigators to take another look at the Bigeye bomb they turn up new technical problems and persistent test failures. The news on the Bigeye bomb and on the 155 mm. artillery projectile is bad and may get worse if we begin production. In its most recent analysis earlier this month, GAO found that the news on the Bigeye bomb and on the 155 mm. artillery projectile is bad and may get worse if we begin production. At this time, I would like to include GAO's October 2 update:

GENERAL ACCOUNTING OFFICE,
Washington, DC, October 2, 1985.

Mr. DONALD A. HICKS,
Under Secretary for Research and Engineering, Department of Defense.

DEAR MR. HICKS: Thank you for your response to our Briefing Paper ("Status of Department of Defense Programs to Improve Defensive Chemical Warfare Capabilities," April 23, 1985) and my letter to Chairman Fascell. I was pleased to receive it, even though it revealed the existence of many misunderstandings, because it gives me two opportunities: (1) to lay out, in a quite straightforward way, the problems we are having with DoD's Bigeye program, and (2) to persuade you—if I can be sufficiently clear, logical, and convincing—to do something about them. After all, you at DoD have the responsibility for building the U.S. chemical warfare (CW) program; our role is only that of evaluator. Yours is the need for the implementer's imagination and ingenuity; ours is to help—via objective, informed criticism—to achieve the best program possible for this country in an area that I believe will be of increasing importance in the future.

I write all of the above to make clear to you that we have no quarrel with DoD's position that the United States needs a chemical deterrent capability. The point on which we differ is whether the Bigeye currently supplies that capability.

The criterion we use for deciding whether a system or program acts as a deterrent is not new. It is the famous "capability times will times perception equals deterrence." That is, for a U.S. program to deter, we must have clear capability to deliver it effectively, we must have the will to do so, and the potential deterree must perceive that we have both that capability and that will. But deterrence is a zero-sum game. If we are missing one of the three elements, we do not have deterrence. Thus, in the case of the Bigeye, if we cannot supply evidence that our capability is real, we have a problem with the deterree's perception and our deterrent effect is lost. Even more importantly, however, we have a problem with our actual readiness to fight in a chemical warfare environment, which we may need to do should deterrence fail.

That is why, as evaluators of the system DoD has proposed to fill both the deterrent and retaliatory CW role, we are trying to find evidence which can support DoD's claim that the Bigeye is ready for production. So let us begin here by looking at the evaluative evidence we have found.

First, we are concerned about the inconsistency in DoD's reporting of the successful Bigeye results it claims. In a May 21 letter, Mr. Richard Wagner reported to Congress that 216 tests had been completed; 30 of these were chemical mixing tests of which 26 were successful. Mr. Thomas Welch reported on June 24 in a letter to the Washington Post that 75 tests had been completed, of which 8 were chemical mixing tests and all 8 were successful. Now you write us (in Enclosure 2 to your letter) that there were 22 chemical mixing tests, 19 of which were successful, and 8 not included because of apparatus malfunction. We are wondering whether if one adds the 8 to 22, we then have Mr. Wagner's total of 30? But then, if only 19 were successful as you report, how can this be consistent with Mr. Wagner's 26 out of 30 claim, or Mr. Welch's 8 out of 8?

As I am sure you realize, we need to have sound information about what tests have been conducted, how they were conducted, and what data were produced if we are to act in our proper role of assessors of the program for the Congress. DoD's confusion about its own results, and apparent inability to give us consistent information reflects poorly, in our view, on the quality of its evaluation program, and the manner in which it has been implemented. In the same way, the delays and difficulties we have experienced in obtaining needed information from DoD do not reinforce the credibility of DoD's testing program. (For example, you may not be aware of it, but we still have not been given the data you cite as "readily available"—see Enclosure 3 of your letter to me—although we requested it months ago.)

Second, we are concerned about the uncertainty of the criteria used in the Bigeye evaluation program, about the way those criteria change, and about the rationale for those changes. This issue of criteria is, of course, crucial in the testing process because the way they are defined determines the capability the weapon system must meet. Yet criteria cannot be set merely to meet what the system can do. They must be valid criteria, that is, in the case of the Bigeye, they must be set high enough that meeting them will give us the capability we require to perform effectively in a retaliatory mode. Once valid criteria have been determined, if they are changed, then evidence must be supplied that the changed criteria continue to be valid, that, in other words, they do not vitiate the performance requirements. This is not clear for Bigeye. Your letter states, for example (page 2), that we are wrong in our point that off-station mixing was DoD's solution to the pressure buildup problem; you do not, however, discuss the issue of whether DoD has changed its delivery tactics and if so, why. However, a prior DoD comment to a GAO letter report (B-215969, October 30, 1984) states, "The solution to the pressure buildup problem was to change the employment concept to mix the QL and sulphur (make agent) only after the bomb is released from the aircraft. This change eliminates the risks associated with carrying a mixed Bigeye aboard an aircraft." We must conclude from this DoD statement that there was indeed a change. But if we read your letter to mean that the change in delivery tactic is not DoD's technical solution to the pressure buildup problem, then what is that solution?

You make the point that "the delivery tactic for the Bigeye is the same as for a number of conventional and nuclear weapons." While this may be true, it is irrelevant to the issue under discussion since the safety problem for the Bigeye limits it to the lofting tactic while that is not the case for conventional weapons such as the Rockeye and Gator mines where options exist for using other delivery tactics.

Finally, you state "there are no military 'relaxed criteria for purity/biotoxicity' as page 6 of the (GAO) briefing indicates." Again, we have a slippery target because, in order to determine exactly what DoD's criteria for purity/biotoxicity are, we asked DoD's Program Manager (PM) to clarify the requirement as stated in the Test and Evaluation Master Plan. In a June 24 interview, the PM confirmed our interpretation that minimum purity must be met over the entire critical time range. On July 12, the PM said that based on the starting temperature there is a corresponding interval in the 5 to 30 second range over which effective agent must be generated. Then on September 3, he told us a chemical test is considered successful if minimum purity is met at any time during the test. This latest definition explains our term "related criteria." The importance of this from an evaluation viewpoint is clear: (1) there is confusion about what the criteria actually are; (2) they seem to be in quasi-constant flux; and (3) the validity of the criteria and hence the effectiveness of the bomb are open to question if the requirement to be met for generating minimum agent purity is reduced to only one second.

I realize that you are probably already sensitive to this issue of criterion validity, a point I pick up from page 1 of your letter, where you state: "Requirements for weapons systems are carefully conceived and formulated through a disciplined process, relying heavily on military experience and judgment." Unfortunately, we have found no documentation or even an official explanation of the rationale behind the requirements and thresholds for the Bigeye bomb. In fact, we were told on more than one occasion that the minimum purity-biotoxicity criteria were not in fact based on operation-

al requirements but were arbitrarily set to higher than the unitary standard. Further, your later point (page 2) that "common sense must be used" regarding the criteria of temperature extremes does not appear to be consistent with "carefully conceived and formulated" criteria. Indeed, if these extremes are not in the expected temperature range, why are they included in the requirement?

Third, given that we are concerned both about DoD's inconsistent reporting of the Bigeye's claimed successes, and about the uncertain validity and stability of DoD's criteria for determining success, it will not come as a surprise to you that we are also concerned about the paucity of the data and analysis reported by DoD.

As you know, in our Briefing Paper, we presented only those tests subsequent to the October 1982 explosion of the Bigeye bomb. We did this because of design and operational changes in the current Bigeye bomb that were made as a result of that explosion. Our sense, given our experience with the multiyear DoD test and evaluation process, is that these data are still viable. Indeed, DoD has produced no data to supplant them, although you make the point in your letter that because our data are more than 2 years old, they are "irrelevant," and "misleading." However, in Enclosure 2, you yourself report tests dating back to February 1982, over 3 years old, before the Bigeye explosion. This tells me three things: (1) you felt the need to include 8 tests performed before October 1982; (2) you certainly would not use data you felt were "irrelevant" and "misleading"; and (3) if our data are to be called outmoded or antiquated, then (a) you must stop using even older data to make your points, or (b) generate more recent data so that we can update our analysis.

With regard to analysis, you make the point, page 2, "Further, the relationship between chemical purity and biotoxicity as shown on page 10 (the GAO Briefing Paper) cannot be considered statistically significant." Well, we know that. If you look again at our Briefing Paper you will see, in the text next to the figure (page 10) that we said precisely that. But although we are pleased to note that you concur with our analysis of a weak relationship between biotoxicity and chemical purity, we must point out that, in that case, some of the data in your Enclosure 2 are inaccurate. Two tests in the 120°F to 140°F category were deemed successes "by analogy" to a successful biotoxicity test. But given that the relationship is not statitically significant, it is inappropriate to reason "by analogy" and hence it is not clear those tests are successes if they have not been evaluated on the basis of purity level alone.

One last point. You question whether we have adhered to GAO procedures for new jobs. In fact, both our June 7 Briefing Paper and June 17 letter to Congressman Fascell were based on previous work done by GAO.

Please don't hesitate to call if you have any questions or want to talk about any of the above. It seems to me that all of these problems—inconsistent success reports, uncertain and continuously changing criteria, and paucity of data and analysis—are both important and highly remediable. I hope you will feel that improving DoD's test and evaluation process—at least insofar as the Bigeye is concerned—is a worthwhile goal.

With kind regards,

Sincerely yours,

ELEANOR CHELIMSKY,
Director.

These persistent GAO findings of leaks, bulges, and holes in binary munitions, coupled with premature explosions before hitting the targets, don't reassure me that we will be providing our troops the safe, reliable weaponry that they deserve.

Rather than starting to produce an unproven and faulty new generation of lethal chemical weapons, the administration should be working hard to secure a comprehensive and verifiable world ban on the production of new chemical weapons. Furthermore, the risks of chemical weapons proliferation are too great to proceed with funding. Funding this program now would be sending the wrong signal at the wrong time, not only to the Soviet Union but more importantly to other countries around the world. There is an opportunity at the summit to pursue a ban on chemical weapons and to set in motion a nonproliferation agreement. This is an opportunity we should seize and not lose.

Our current chemical stockpile, based on DOD's own data, is adequate into the 1990's. The binary program unwittingly reduces the United States chemical deterrent against the real Soviet threat. Under the binary program, our stockpile would be smaller than it is now, and would be based here in the United States and not in Europe where it is needed as the strongest deterrent against the Soviet threat. I want to be very clear on this point. A decision to produce these faulty new chemical weapons would actually reduce our stockpile, eliminate chemical weapons deployment in Europe, and create a logistical nightmare in time of war or any military crisis in Europe.

In supporting the Appropriations Committee position against binary production funds, you will be voting for the strongest defense position possible.

The CHAIRMAN pro tempore (Mr. DORGAN of North Dakota). Are there other amendments to title III of the bill?

The Clerk will read.

The Clerk read as follows:

TITLE IV

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $4,431,475,000, of which $20,000,000 is available only for completing development, transitioning into low-rate initial production, and initial procurement of shipsets required to arm UH-60 Blackhawk helicopters with Hellfire missiles, and in addition, $110,530,000 to be derived by transfer from "Research, Development, Test, and Evaluation, Army, 1985/1986", to remain available for obligation until September 30, 1987.

AMENDMENT OFFERED BY MR. MONTGOMERY

Mr. MONTGOMERY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MONTGOMERY: Page 40, line 19, strike out "$4,431,475,000" and insert in lieu thereof "$4,436,475,000".

Mr. MONTGOMERY. Mr. Chairman, the House Committee on Armed Services authorized $10 million for unique Guard and Reserve R&D. In conference the amount was reduced to $5 million.

Army Guard and Reserve units perform more than half their training at their home station armories or home station outdoor training areas. Training is limited by time, lack of firing ranges and outdoor tactical training areas, weather, and equipment shortages. Guard and Reserve units need more training time, but it is unlikely that employers and families would permit additional training on a continued basis. More training aids and devices, and in some cases Guard and Reserve unique devices are needed as a training effectiveness multiplier.

Although the Appropriations Committee recognized that a requirement may exist for R&D for Guard and Reserve training devices, it eliminated the $5 million provided in the authorization bill because no specific program had been presented.

Mr. Chairman, I asked the Chief of the National Guard Bureau if he had a specific program for use of the $5 million. The Chief does have such a program and he considers it essential for the improvement of training effectiveness. This program, which I have shown to the Defense Appropriations Subcommittee, indicates specific ways in which the $5 million will be used. I believe it properly addresses the concerns of the committee.

Mr. Chairman, I move the adoption of my amendment to restore these funds.

Mr. CHAPPELL. Will the gentleman yield?

Mr. MONTGOMERY. I yield to the gentleman.

Mr. CHAPPELL. We have examined the amendment on this side, and we think it is a good amendment, and we accept it.

Mr. MONTGOMERY. I thank the gentleman.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Mississippi [Mr. MONTGOMERY].

The amendment was agreed to.

Mr. CHAPPELL. Mr. Chairman, I ask unanimous consent that the remainder of title IV of the bill be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The text of the remainder of title IV is as follows:

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, NAVY

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $9,462,631,000, of which $17,523,000 is available only for the Low Cost Anti-Radiation Seeker Program and $5,500,000 is available only for the Laser Articulating Robotic System, and in addition, $271,496,000 to be derived by transfer from "Research, Development, Test, and Evaluation, Navy, 1985/1986", to remain available for obligation until September 30, 1987.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, AIR FORCE

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $13,217,177,000, of which $17,613,000 is available only for the Low Cost Seeker Program, and in addition, $359,000,000 to be derived by transfer from "Research, Development, Test, and Evaluation, Air Force, 1985/1986", to remain available for obligation until September 30, 1987.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE AGENCIES

(INCLUDING TRANSFER OF FUNDS)

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test, and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $5,943,038,000, of which $1,000,000 provided for the University Research Initiative Program is available only for research at the Oklahoma State University, Stillwater, Oklahoma; and of which $700,000 shall be available only for the purpose of carrying out, through the National Research Council of the National Academy of Sciences, a comprehensive classified study to be submitted to the Appropriations Committees of the House of Representatives and the Senate, together with an unclassified version, no later than August 30, 1987, to determine the technological feasibility and implications, and the ability to survive and function despite a pre-emptive attack by an aggressor possessing comparable technology, of the Strategic Defense Initiative Program; and in addition, $179,112,000 to be derived by transfer from "Research, Development, Test, and Evaluation, Defense Agencies, 1985/1986", to remain available for obligation until September 30, 1987: *Provided*, That such amounts as may be determined by the Secretary of Defense to have been made available in other appropriations available to the Department of Defense during the current fiscal year for programs related to advanced research may be transferred to and merged with this appropriation to be available for the same purposes and time period: *Provided further*, That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to carry out the purposes of advanced research to those appropriations for military functions under the Department of Defense which are being utilized for related programs to be merged with and to be available for the same time period as the appropriation to which transferred.

DIRECTOR OF TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, of independent activities of the Director of Defense Test and Evaluation in the direction and supervision of test and evaluation, including initial operational testing and evaluation; and performance of joint testing and evaluation; and administrative expenses in connection therewith; $93,500,000, to remain available for obligation until September 30, 1987.

AMENDMENT OFFERED BY MR. WALKER

Mr. WALKER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WALKER: Page 42, line 13, strike out "$5,943,038,000" and insert in lieu thereof "$6,193,000,000".

Mr. WALKER. Mr. Chairman, this amendment is fairly straightforward, and I hope that the membership will recognize what it intends to do.

This is an amendment that raises the money for SDI back up to the authorized level; it takes the $2.5 billion that is in the bill and raises that to the $2.75 billion that the House authorized.

This is an attempt to speak to, I think, one of the crucial issues of our time. I recently spent some time in the Soviet Union talking to Soviet leaders, Soviet military officials, and Soviet scientists. It was clear throughout those discussions, even though what we were trying to do was talk to them about peaceful uses of space that all they wanted to talk about was SDI.

It was clear that they regard SDI as a major initiative of the American people that is something that they have to be concerned about. I think that on the eve of the summit that what we want to do is raise those concerns as much as possible. We want to make it clear that the American people do stand behind the strategic defense initiative; that we do feel strongly that the defense of this country is foremost in our minds.

I think at this point in our history that we have an opportunity to develop a technology which is some of the more moral technology that we have had available to us since the end of World War II. It is an opportunity to design a system which is purely defensive in nature. It is an opportunity to lay out to the world a strategic strategy that is concerned most with our own defense.

To begin the process of emasculating that program early in its research by consistently cutting back and cutting back and cutting back, I think sends all the wrong signals to the world; sends the wrong signals to the Soviet Union; it sends the wrong signals to the American people.

So, this House has made a determination, the Congress has made a determination, to authorize the level of $2.75 billion. I think that we ought to proceed ahead with that level. I would say that in this case, this does not in any way have a budgetary impact that raises about budget levels; this is simply an amendment which does get us to the question of whether or not we should proceed ahead on one of the most valuable strategic strategies that we have had before us in some time.

So, I would ask for the House to approve an amendment that would make a $250 million add on to this particular program, and I hope that the House will approve the amendment.

□ 1305

Mr. MURTHA. Mr. Chairman, I move to strike the last word, and I rise in opposition to the amendment.

Mr. Chairman, I appreciate what the gentleman, Mr. WALKER, is trying to do, and I appreciate what he said, but the committee really worked diligently trying to fashion a bill which we thought would be in line with the budgetary constraints, in line with trying to reduce the deficit, and we felt that to come in at this level of 2.5 for SDI was exactly the right figure. We very carefully checked with all the people that are experts in this area, and it really, I think, is exactly the amount of money they need and they will be able to expend.

One of the problems we have had in the Defense Department is the unobligated balances. Here we have, I think, if we add this money, it would just end up in the unobligated balances, and I do not think they could really spend it efficiently or effectively in the SDI field.

So I would rise in opposition to the amendment.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. MURTHA. I yield to my colleague from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Chairman, I will tell the gentleman [Mr. MURTHA] what one of my main concerns as a member of the Committee on Science and Technology, the space committee, concerned with the civilian side, one of the things that is going to make civilian space a possibility is if we build infrastructure through the use of an SDI in space. It is going to expand our opportunities to provide jobs in space. One of the components of that is power systems. As a result of the cutbacks that this House has already made, it is my understanding the Defense Department has had to back off from the space-based laser concept. They are not able to proceed ahead with the research that should be done. So, therefore, we have had to backtrack on the whole concept of space-based lasers. That, in fact, is one of the main, prime

ingredients of building the infrastructure of which I speak.

So, while I understand that the committee did work diligently, I think you did your best, my concern is that we will not in this instance be able to do the things that should be done right now with the level of funding the committee has determined.

Mr. Chairman, I thank the gentleman for yielding.

Mr. MURTHA. I appreciate that.

Now, let me make sure I understand. I guess I misunderstood when the gentleman was explaining the amendment. This really goes back to the original President's budget request? What does this go to?

Mr. WALKER. The gentleman is wrong. It goes to the congressionally authorized level of $2.75 billion.

Mr. MURTHA. Well, apparently the staff believes that the amendment, as drawn, goes to $3.7 billion. Their interpretation is that it would be way out of line.

Mr. WALKER. If the gentleman would yield further, the amendment at the desk is from 5943 to 6193. That is the $250 million. The gentleman evidently picked up the amendment that was on the desk here, another amendment that I had drafted. The one that was read and submitted takes us to 6193, which takes us to the congressionally authorized level for the program.

Mr. MURTHA. After conceding the fact that the gentleman is right, I think this still puts us in an area where we would have problems spending the money. It is one of those things where we have argued long, and many of us would probably have liked to see more money in the SDI field, but I really think that if we go above $2.5 billion, we would run into the problem, again, of unobligated balances and just not spending the money efficiently.

So I would have to oppose the amendment.

Mr. McDADE. Mr. Chairman, will the gentleman yield?

Mr. MURTHA. I yield to my colleague from Pennsylvania.

Mr. McDADE. I thank the gentleman for yielding to me.

Mr. Chairman, let me say I rise in opposition to this amendment, and I hope that the House will defeat it and stick with the committee position.

The $2.5 billion that we are carrying in the bill is a figure that we arrived at after considerable discussion with the administration, with Members of the body on both sides of the aisle, it is not a figment of the imagination. It is a number we worked hard to present to the body in order that we can have a vigorous and healthy SDI Program that we can present to the other body as we go to conference.

I regret that my colleague from Pennsylvania has offered an amendment. I counseled with him and asked him not to. I think that the position that we have presented to the House is a reasonable one, and I hope that the amendment of my colleague from Pennsylvania will be defeated and we can go to conference at the figure that the committee has agreed upon.

Mr. CHAPPELL. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, it is time for us to be realistic on this matter. I do not believe that any of us in this House agree that this is the time where we ought to be offering an amendment for an increase in this program. If it loses on the floor, it certainly does not help the President's position for the summit. I do not know what we hope to gain by offering the amendment here. We have spent many hours in debate on the House floor on this issue and have agreed on the $2.5 billion level. We spent much time in our subcommittee and in the full committee trying to arrive at a consensus that is realistic.

I would hope that the gentleman would withdraw the amendment and not risk the loss of a vote on a program that is so important to the President before he goes to the summit.

Now, you can argue that it should be increased when we go to conference; nobody knows that. But I do not think it is helpful to us at this point to be trying to go above what is clearly the consensus of this House of a level of $2.5 billion.

Mr. Chairman, I urge defeat of the amendment.

Mr. DURBIN. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

I hope my colleagues in the House realize, Mr. Chairman, that the amendment offered by the gentleman from Pennsylvania represents virtually a 100-percent increase in the funding for this program over last year's expenditure, from $1.4 to $2.75 billion.

There are three reasons why this is the wrong way to go. In the first instance, it is fiscal fantasy for my colleague to be talking day after day, on special orders, preaching the gospel of Gramm-Rudman-Hollings-Mack-Cheney, and others, and then come before us in the defense bill and suggest we need a 100-percent add on for a research program.

Second, a former Secretary of Defense let us know that within the Department of Defense increasing research expenditures by more than 35 percent in 1 year is a total waste of money. That agency cannot absorb the money, nor can it spend it wisely.

This is the wrong way to spend money even on a project that we might agree with.

Finally, we talk of a signal to the Soviet Union. I think my colleagues and all Members present realize that $2.5 billion is an adequate funding level, perhaps too adequate, for this program.

To suggest that we are going to $2.75 billion just means this amendment is heading for defeat, and what kind of signal does that send to Geneva?

Mr. DORNAN of California. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, this amendment gives us a chance to discuss an aspect of our strategic defense initiative with respect to what the Soviets are spending, and have been spending, for the better part of a decade on their strategic defense.

The last amendment that we voted on took most of this House by surprise. I think no matter how we respect one another's sincere opinions on the level of the defense budget, that, with our President, the leader of the Free world, going to Geneva to begin a conference on the 19th of next month that our action today sends an incredibly poor message to the Soviet Union and in all likelihood, will burden our negotiators.

So I think the gentleman from Pennsylvania, Mr. WALKER, does us a service, to give those of us who fought for the full administration funding level of SDI a chance to discuss a new development here in the Congress since we debated SDI at length a few months ago.

When the Congressman from New York, Mr. KEMP, called for a full range of secret briefings on Soviet offenses, their missiles, their submarines, and Soviet strategic defense in the early spring, about 90 Republican Members showed up for the briefing. They started out with Soviet offensive missiles. It was an excellent briefing given to us for the first time by a new briefer taking the place of the well-respected, and now retired, John T. Hughes.

After we went through all of the Soviet offensive forces and got to Soviet strategic defense, their SDI program, three Members were left in the briefing room over in the Armed Services Committee room 3.

So I circulated a letter to the President of the United States and to "Bud" McFarland asking that we have a briefing on this House floor making it almost a command performance for all the Members. I have to congratulate our Speaker, who moved in a bipartisan way, because he was fighting for Members being educated on Soviet strategic defense. The Speaker very willingly offered that on October 10 of this month, only 19 days ago, this House floor be swept, closed, and given

over to focus on only Soviet strategic defense.

I thanked the Speaker right outside the door in his lobby. I told him that it was one of the best things I had seen both of our sides try to do in this area of defense in all of my 7 years here.

But, guess what happened? The White House and "Bud" McFarland's office, for reasons yet to be explained to me, stopped planning for October 10 with this full floor, with Members—probably 400 of us getting smart on Soviet strategic defense. McFarland's offices asked the Speaker to pull that schedule forward a whole week, without even 24 hours' notice. The briefing was given in one of the committee rooms during voting on the House floor. Many of us had other obligations during this time. Guess how many were able to show up? Not 435, not 400, not 350, but only about 60 Members showed up. Only 15 of my distinguished colleagues from the other side of the aisle.

Now, I ask you, on the other side, to ask a distinguished member from New Jersey, Mr. HUGHES, what he got out of this briefing on Soviet strategic defense. To see for the first time, the imagery of the massive Krasnoyarsk radar, among other things that cannot be discussed, that have not been released. There were miniature models on display giving reference to a small model of the Washington Monument. Much of what the Soviets were doing was overlaid by detailed models on the Mall complex here in Washington. It was a most sobering briefing. Suffice it to say that I believe the Walker amendment is a thoughtful amendment that brings out for floor discussion that there is a large group of us in this distinguished legislative body that does not believe we should have ever gone below the $3.7 billion of full funding or down through the $3.1 billion that was discussed. And it was my understanding when $2.5 billion passed that the other body, in conference, would probably bring us back up to $2.75 billion. So this $250 million proposal of Mr. WALKER, I think, is very reasonable. It sends a different signal to the Soviet Union and it gives a different burden to our negotiators than did the Frank amendment that so surprisingly passed by a whisker within the last hour.

Mr. DICKS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I personally voted against the Frank amendment because I honestly believe that this was not the right time for that amendment, and I think the House was taken by surprise.

But I do believe that this amendment, the Walker amendment, is not in the best interests of going ahead with this program. I had an amendment on the authorization bill to reduce this to $2.1 billion and to restrict some very controversial demonstrations that I think will impinge upon the restrictive interpretation of the ABM agreement.

I chose not to offer that amendment because I felt at this point in time, a few weeks before the summit, it was in our best interests just to leave the figure at $2.5 billion, which the House had an opportunity to vote on during the authorization bill. There were all kinds of amendments to go higher, all kinds of amendments to go lower. The House chose to defeat all amendments and to agree to the $2.5 billion figure which was in the original authorization bill.

I must tell the gentleman from Pennsylvania that I have tried to follow this program very closely. I am a skeptic about whether we can render nuclear weapons impotent and obsolete. But I do believe that the research is necessary because of what the Soviets are doing and also because I think we ought to know what the possibilities for this are.

But I am convinced that $2.5 billion is enough money this year, and if we are simply going to throw money at this problem, we are not going to get any better results than some of the programs we have thrown money at in the past that the gentleman has taken the floor many times to discuss.

I think $2.5 billion, an increase of $1.1 billion, is a prudent pace for this program. I think it sends a strong message that this Congress supports the strategic defense initiative research.

Now, at the same time, I would hasten to say that I think this Congress still supports the ABM agreement too and wants this program conducted with strict adherence to the ABM agreement.

□ 1320

I think the committeee has looked this program over. I think that the House and the committee should stay with the committee position, reject this amendment and, hopefully, there will be an opportunity to revisit the other issue that the House just voted on.

Mr. EDWARDS of Oklahoma. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will not take 5 minutes.

I support SDI research. I think those of us who believe very strongly in the importance of proceeding in this line have had some significant victories. We did in the Appropriations Committee. I think that we have provided funds here through the work of the subcommittee and the full committee that put the President in a very strong position when he goes to Geneva. I think that if the gentleman from Pennsylvania persists in offering this amendment and bringing it to a vote, he runs a real risk of having exactly the opposite effect and sending the President to Geneva with a sign that he has less support than he really has.

So I would urge my colleague from Pennsylvania, as another strong supporter of SDI, to withdraw the amendment.

Mr. McCURDY. Mr. Chairman, will the gentleman yield?

Mr. EDWARDS of Oklahoma. I yield to my colleague, the gentleman for Oklahoma.

Mr. McCURDY. Mr. Chairman, I would like to commend my colleague, the gentleman from Oklahoma [Mr. EDWARDS], for his statement.

I have just returned from the Soviet Union. As a member of the Armed Services Committee, I found that the Soviets are very much concerned about what we are doing in SDI. If there is any single program that has brought them to the negotiating table, it is this particular program.

Now, I believe that the $2.5 billion figure which came out of the Research and Development Subcommittee and the authorizing committee, was appropriate and adequate. It was an 80-percent increase over previous funding, and is one that should be supported. We should keep it at this level. I think the gentleman raises a good point, that we do not want to destroy the consensus that we have established on this important program.

Mr. GREEN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, since this is probably the only time this afternoon that we shall be visiting the space defense initiative question, I do want to take this opportunity to express my concerns, concerns that others have expressed earlier, that this program be operated in accordance with the ABM Treaty as it had been generally understood until the statement of the President's national security adviser a couple of weeks ago. That ABM Treaty is one of the few successes we have to show so far in the disarmament process, and I think it would be a tragic mistake if we were to use this program and the rather surprising views of the President's national security adviser as to what the ABM Treaty means to subvert the ABM Treaty.

I agree with those who have expressed the opinion that this is a program that is worthy of funding. Obviously, there is much to be learned here. In any event, we certainly have to do much of this research, if only to know what the Soviets are doing in this area, and be able to understand what we can observe of their experiments.

But, frankly, I think the $2.5 billion that the committee has recommended

is more than enough. I had supported within the subcommittee an amendment to reduce the funding to $2.1 billion, which would have been a 50-percent increase in the program. I think it is probably all that the program can reasonably be expected to absorb in any sort of efficient way.

The committee, of course, disagreed with that and finally voted for the $2.5 billion level.

To go now to the $2¾ billion level would simply be, as has been suggested, throwing money at a problem. There is no rational basis for moving up the spending that fast. I would hope either that the amendment would be withdrawn or that the House would defeat it.

Mr. BOLAND. Mr. Chairman, I rise to support the level of funding in the fiscal year 1986 Defense appropriations bill for research on the strategic defense initiative [SDI].

This in not the first debate we have had in this Chamber on the SDI, and it certainly won't be the last. As a result of prior debates, however, I think some things are clear about the position of this body on this particular program. Some of my colleagues are not going to vote for the SDI no matter how much money is proposed, and some are going to vote whatever level of funding the President wants. I respect the sincerity of each of those viewpoints and the vigor with which they are advocated.

When all the arguments concerning no funding or full funding for SDI are made, however, I think most Members find themselves, like I do, coming down somewhere in the middle. We are willing to support research on the various concepts that make up the SDI, the question is at what level of funding. Votes taken over the last 2 years bear me out. Congress is willing to support research in this area, while reserving to itself the right to decide at a later date whether the results of that research, and all of the political and strategic concern which will have to be taken into consideration, warrant proceeding into the development phase of SDI.

We take no final vote today on this program. We will be voting on it again and again for the foreseeable future. What we decide today is how much money to invest in SDI research in fiscal 1986. That is all. The figure recommended by the Appropriations Committee, $2.5 billion, is one with which I happened to agree. It is less than the $3.7 billion the President wanted to spend this year, it is less than the $2.9 billion the Senate wanted to spend, and it even less than the $2.75 billion contained in the authorization measure we passed yesterday. It is not, however, as low as some people would like.

What are the arguments in favor of cutting below $2.5 billion? Those who advocate a lower figure cannot do so out of a belief that Congress has not discharged its responsibility to thoroughly review the President's budget request for this program and balance that request against other needs. The record of congressional action to date is clear evidence to the contrary. They cannot contest the committee's recommendation on the basis that SDI research at $2.5 billion is wasteful, while research at $2.1 billion is not. I submit that the differences between the figures are not great enough to support that conclusion. What, then, is their argument? If it is that we must get below $2.5 billion to signal congressional dissatisfaction with the President's general position on arms control, I would suggest that this is precisely the wrong time to engage in such efforts. We certainly need not rubberstamp the President's military budgets to improve his negotiating position with the Russians. That has never been my policy, and I think that a fair review of the sizable reductions contained in this bill are evidence that it is not the policy of the Appropriations Committee. I do not believe, however, that the interests of our Nation are well served by making further cosmetic reductions in the SDI, the one program that seems to have caught the attention of the Russians, on the eve of the President's first meeting with the new Soviet leader.

I do not know if the SDI will at some point work as its more vigorous proponents contend that it will. But no one else does either. You can get as many opinions from economists on the future of the GNP. Bringing some facts to bear on the technical arguments surrounding the SDI is the purpose of research. The SDI is a long-term research effort, not unlike other long-term research efforts the Congress has funded over the years in activities like the space program. My experience with that program has been that it is much better to do the necessary research as expeditiously as possible so that decisions about whether or not to proceed to the development stage can be made on the basis of fact and not conjecture. It has also been my experience that research is best accomplished in a coordinated fashion. We have been funding research efforts on SDI-related activities for a number of years. They are scattered through the defense budget and, until the advent of the SDI program, had little coordination. Placing them all under the SDI umbrella will, it seems to me, lead to a more effective and efficient use of funds.

For me, the SDI Program at this stage is an accumulation of questions: Questions about its possible utility as a defensive system and questionss about the civilian application of some of these components like lasers and mechanisms to generate power in space. I think we should have those questions answered as quickly as is practical. The $2.5 billion recommended by the committee is a level of research consistent with that aim and one which I believe merits support.

Mr. CHAPPELL. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN pro tempore. Without objection, the gentleman from Florida [Mr. CHAPPELL] is recognized for 5 minutes.

There was no objection.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. CHAPPELL. I yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Chairman, I certainly respect the work that has gone into the presentations here before the committee, and I do believe that the committee has studied this long and hard. I do not agree with the statements that have been made that the money could not prudently be spent on some additional work, for instance, on space-based lasers, which I do understand are being canceled.

However, in light of the compromises that have been made and the words of the gentleman from Washington, who I think most eloquently put the need to balance what we are doing here, I ask unamimous consent to withdraw the amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mrs. JOHNSON. Mr. Chairman, I move to strike the last word, and I rise to engage in a colloquy with the ranking minority Member, the gentleman from Pennsylvania [Mr. McDADE].

On page 145 of the committee's report, there is a request for an analysis of the feasibility of restricting the Department of Defense to using ball bearings of foreign manufacture only. I understand this to be a clerical error and that the word "foreign" was inadvertently subsituted for the word "domestic."

Mr. McDADE. If the gentlewoman will yield, let me say that the gentlewoman is absolutely correct. The committee's intention is to obtain an analysis of the feasibility of restricting DOD to using ball bearings of domestic manufacture only, and we are grateful to the gentlewoman for bringing this to our attention.

Mrs. JOHNSON. I thank the gentleman very much, and I want to thank the gentleman from Pennsylvania [Mr. McDADE] and the gentleman from Florida [Mr. CHAPPELL] for their leadership on this matter. I call the attention of all Members interested in America's industrial base to this important study provision.

The CHAIRMAN pro tempore. Are there other amendments to title IV?

The Clerk will read.

The Clerk read as follows:

TITLE V

SPECIAL FOREIGN CURRENCY PROGRAM

For payment in foreign currencies which the Treasury Department determines to be excess to the normal requirements of the United States for expenses in carrying out programs of the Department of Defense, as authorized by law; $2,100,000, to remain available for obligation until September 30, 1987: *Provided*, That this appropriation shall be available in addition to other appro-

priations to such Department, for payments in the foregoing currencies.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title V be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN pro tempore. Are there any amendments to title V?

The Clerk will read.

The Clerk read as follows:

TITLE VI

REVOLVING AND MANAGEMENT FUNDS

ARMY STOCK FUND

For the Army stock fund; $393,000,000.

NAVY STOCK FUND

For the Navy stock fund; $616,500,000.

MARINE CORPS STOCK FUND

For the Marine Corps stock fund; $37,700,000.

AIR FORCE STOCK FUND

For the Air Force stock fund; $415,900,000.

DEFENSE STOCK FUND

For the Defense stock fund; $149,700,000.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title VI be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN pro tempore. Are there amendments to title VI?

The Clerk will read.

The Clerk read as follows:

TITLE VII

RELATED AGENCIES

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System; $101,400,000.

INTELLIGENCE COMMUNITY STAFF

For necessary expenses of the Intelligence Community Staff; $22,083,000.

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title VII be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN pro tempore. Are there amendments to title VII?

The Clerk will read.

The Clerk read as follows:

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 8002. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8003. During the current fiscal year, the Secretary of Defense and the Secretaries of the Army, Navy, and Air Force, respectively, if they should deem it advantageous to the national defense, and if in their opinions the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 3109 of title 5, United States Code, under regulations prescribed by the Secretary of Defense, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty stations and return as may be authorized by law: *Provided*, That such contracts may be renewed annually.

SEC. 8004. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense.

SEC. 8005. Appropriations for the Department of Defense for the current fiscal year and hereafter shall be available for: (a) expenses in connection with administration of occupied areas; (b) payment of rewards as authorized for the Navy by section 7209(a) of title 10, United States Code, for information leading to the discovery of missing naval property or the recovery thereof; (c) payment of deficiency judgments and interests thereon arising out of condemnation proceedings; (d) leasing of buildings and facilities including payment of rentals for special purpose space at the seat of government, and in the conduct of field exercises and maneuvers or, in administering the provisions of the Act of July 9, 1942 (56 Stat. 654; 43 U.S.C. 315q), rentals may be paid in advance; (e) payments under contracts for maintenance of tools and facilities for twelve months beginning at any time during the fiscal year; (f) maintenance of defense access roads certified as important to national defense in accordance with section 210 of title 23, United States Code; (g) the purchase of milk for enlisted personnel of the Department of Defense heretofore made available pursuant to section 202 of the Agricultural Act of 1949 (7 U.S.C. 1446a), and the cost of milk so purchased, as determined by the Secretary of Defense, shall be included in the value of the commuted ration; (h) payments under leases for real or personal property, including maintenance thereof when contracted for as a part of the lease agreement, for twelve months beginning at any time during the fiscal year; (i) the purchase of right-hand-drive vehicles not to exceed $12,000 per vehicle; (j) payment of unusual cost overruns incident to ship overhaul, maintenance, and repair for ships inducted into industrial fund activities or contracted for in prior fiscal years: *Provided*, That the Secretary of Defense shall notify the Congress promptly prior to obligation of any such payments; (k) payments from annual appropriations to industrial fund activities and/or under contract for changes in scope of ship overhaul, maintenance, and repair after expiration of such appropriations, for such work either inducted into the industrial fund activity or contracted for in that fiscal year; and (l) payments for depot maintenance contracts for twelve months beginning at any time during the fiscal year.

SEC. 8006. Appropriations for the Department of Defense for the current fiscal year and hereafter shall be available for: (a) military courts, boards, and commissions; (b) utility services for buildings erected at private cost, as authorized by law, and buildings on military reservations authorized by regulations to be used for welfare and recreational purposes; and (c) exchange fees, and losses in the accounts of disbursing officers or agents in accordance with law.

SEC. 8007. The Secretary of Defense and each purchasing and contracting agency of the Department of Defense shall assist American small and minority-owned business to participate equitably in the furnishing of commodities and services financed with funds appropriated under this Act by increasing, to an optimum level, the resources and number of personnel jointly assigned to promoting both small and minority business involvement in purchases financed with funds appropriated herein, and by making available or causing to be made available to such businesses, information, as far in advance as possible, with respect to purchases proposed to be financed with funds appropriated under this Act, and by assisting small and minority business concerns to participate equitably as subcontractors on contracts financed with funds appropriated herein, and by otherwise advocating and providing small and minority business opportunities to participate in the furnishing of commodities and services financed with funds appropriated by this Act.

SEC. 8008. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 8009. During the current fiscal year and hereafter:

(a) The President may exempt appropriations, funds, and contract authorizations, available for military functions under the Department of Defense, from the provisions of section 1512 of title 31, United States Code, whenever he deems such action to be necessary in the interest of national defense.

(b) Upon determination by the President that such action is necessary, the Secretary of Defense is authorized to provide for the cost of an airborne alert as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(c) Upon determination by the President that it is necessary to increase the number of military personnel on active duty subject to existing laws beyond the number for which funds are provided in this Act, the Secretary of Defense is authorized to provide for the cost of such increased military personnel, as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(d) The Secretary of Defense shall immediately advise Congress of the exercise of any authority granted in this section, and shall report monthly on the estimated obligations incurred pursuant to subsections (b) and (c).

SEC. 8010. No part of the appropriations in this Act shall be available for any expense of operating aircraft under the jurisdiction of the armed forces for the purpose of profi-

ciency flying, as defined in Department of Defense Directive 1340.4, except in accordance with regulations prescribed by the Secretary of Defense. Such regulations (1) may not require such flying except that required to maintain proficiency in anticipation of a member's assignment to combat operations and (2) such flying may not be permitted in cases of members who have been assigned to a course of instruction of ninety days or more.

SEC. 8011. No part of any appropriation contained in this Act shall be available for expense of transportation, packing, crating, temporary storage, drayage, and unpacking of household goods and personal effects in any one shipment having a net weight in excess of eighteen thousand pounds.

SEC. 8012. During the current fiscal year and hereafter, vessels under the jurisdiction of the Department of Transportation, the Department of the Army, the Department of the Air Force, or the Department of the Navy may be transferred or otherwise made available without reimbursement to any such agencies upon the request of the head of one agency and the approval of the agency having jurisdiction of the vessels concerned.

SEC. 8013. Not more than 20 per centum of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: *Provided,* That this section shall not apply to obligations for support of active duty training of civilian components or summer camp training of the Reserve Officers' Training Corps, or the National Board for the Promotion of Rifle Practice, Army, or to the appropriations provided in this Act for Claims, Defense.

SEC. 8014. During the current fiscal year the agencies of the Department of Defense may accept the use of real property from foreign countries for the United States in accordance with mutual defense agreements or occupational arrangements and may accept services furnished by foreign countries as reciprocal international courtesies or as services customarily made available without charge; and such agencies may use the same for the support of the United States forces in such areas without specific appropriation therefor.

In addition to the foregoing, agencies of the Department of Defense may accept real property, services, and commodities from foreign countries for the use of the United States in accordance with mutual defense agreements or occupational arrangements and such agencies may use the same for the support of the United States forces in such areas, without specific appropriations therefor: *Provided,* That the foregoing authority shall not be available for the conversion of heating plants from coal to oil at defense facilities in Europe: *Provided further,* That within thirty days after the end of each quarter the Secretary of Defense shall render to Congress and to the Office of Management and Budget a full report of such property, supplies, and commodities received during such quarter.

SEC. 8015. During the current fiscal year and hereafter, appropriations available to the Department of Defense for research and development may be used for the purposes of section 2353 of title 10, United States Code, and for purposes related to research and development for which expenditures are specifically authorized in other appropriations of the Service concerned.

SEC. 8016. No part of any appropriation contained in this Act, except for small purchases in amounts not exceeding $10,000 shall be available for the procurement of any article of food, clothing, cotton, woven silk or woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, or wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles), or specialty metals including stainless steel flatware, or hand or measuring tools, not grown, reprocessed, reused, or produced in the United States or its possessions, except to the extent that the Secretary of the Department concerned shall determine that satisfactory quality and sufficient quantity of any articles of food or clothing or any form of cotton, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, wool, or specialty metals including stainless steel flatware, grown, reprocessed, reused, or produced in the United States or its possessions cannot be procured as and when needed at United States market prices and except procurements outside the United States in support of combat operations, procurements by vessels in foreign waters, and emergency procurements or procurements of perishable foods by establishments located outside the United States for the personnel attached thereto: *Provided,* That nothing herein shall preclude the procurement of specialty metals or chemical warfare protective clothing produced outside the United States or its possessions when such procurement is necessary to comply with agreements with foreign governments requiring the United States to purchase supplies from foreign sources for the purposes of offsetting sales made by the United States Government or United States firms under approved programs serving defense requirements or where such procurement is necessary in furtherance of the standardization and interoperability of equipment requirements within NATO so long as such agreements with foreign governments comply, where applicable, with the requirements of section 36 of the Arms Export Control Act and with section 2457 of title 10, United States Code: *Provided further,* That nothing herein shall preclude the procurement of foods manufactured or processed in the United States or its possessions: *Provided further,* That no funds herein appropriated shall be used for the payment of a price differential on contracts hereafter made for the purpose of relieving economic dislocations: *Provided further,* That none of the funds appropriated in this Act shall be used except that, so far as practicable, all contracts shall be awarded on a formally advertised competitive bid basis to the lowest responsible bidder.

SEC. 8017. During the current fiscal year, appropriations available to the Department of Defense for pay of civilian employees shall be available for uniforms, or allowances therefor, as authorized by section 5901 of title 5, United States Code.

SEC. 8018. Funds provided in this Act for legislative liaison activities of the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense shall not exceed $12,934,000 for the current fiscal year: *Provided,* That this amount shall be available for apportionment to the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense as determined by the Secretary of Defense: *Provided further,* That costs for military retired pay accrual shall be included within this limitation.

SEC. 8019. Of the funds made available by this Act for the services of the Military Airlift Command, $100,000,000 shall be available only for procurement of commercial transportation service from carriers participating in the civil reserve air fleet program; and the Secretary of Defense shall utilize the services of such carriers which qualify as small businesses to the fullest extent found practicable: *Provided,* That the Secretary of Defense shall specify in such procurement, performance characteristics for aircraft to be used based upon modern aircraft operated by the civil reserve air fleet.

(TRANSFER OF FUNDS)

SEC. 8020. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed $1,200,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided,* That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: *Provided further,* That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority.

(TRANSFER OF FUNDS)

SEC. 8021. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: *Provided,* That transfers may be made between such funds in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that transfers between a stock fund account and an industrial fund account may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8022. None of the funds available to the Department of Defense shall be utilized for the conversion of heating plants from coal to oil at defense facilities in Europe.

SEC. 8023. No part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprograming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprograming is requested has been denied by the Congress.

SEC. 8024. None of the funds contained in this Act available for the Civilian Health and Medical Program of the Uniformed Services under the provisions of section 1079(a) of title 10, United States Code, shall be available for reimbursement of any phy-

sician or other authorized individual provider of medical care in excess of the eightieth percentile of the customary charges made for similar services in the same locality where the medical care was furnished, as determined for physicians in accordance with section 1079(h) of title 10, United States Code.

SEC. 8025. No appropriation contained in this Act may be used to pay for the cost of public affairs activities of the Department of Defense in excess of $42,888,000: *Provided,* That costs for military retired pay accrual shall be included within this limitation.

SEC. 8026. None of the funds provided in this Act shall be available for the planning or execution of programs which utilize amounts credited to Department of Defense appropriations or funds pursuant to the provisions of section 37(a) of the Arms Export Control Act representing payment for the actual value of defense articles specified in section 21(a)(1) of that Act: *Provided,* That such amounts shall be credited to the Special Defense Acquisition Fund, as authorized by law, or, to the extent not so credited shall be deposited in the Treasury as miscellaneous receipts as provided in section 3302(b) of title 31, United States Code.

SEC. 8027. No appropriation contained in this Act shall be available to fund any costs of a Senior Reserve Officers' Training Corps unit—except to complete training of personnel enrolled in Military Science 4—which in its junior year class (Military Science 3) has for the four preceding academic years, and as of September 30, 1983, enrolled less than (a) seventeen students where the institution prescribes a four-year or a combination four- and two-year program; or (b) twelve students where the institution prescribes a two-year program: *Provided,* That, notwithstanding the foregoing limitation, funds shall be available to maintain one Senior Reserve Officers' Training Corps unit in each State and at each State-operated maritime academy: *Provided further,* That units under the consortium system shall be considered as a single unit for purposes of evaluation of productivity under this provision: *Provided further,* That enrollment standards contained in Department of Defense Directive 1215.8 for Senior Reserve Officers' Training Corps units, as revised during fiscal year 1961, may be used to determine compliance with this provision, in lieu of the standards cited above.

SEC. 8028. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 1987.

SEC. 8029. None of the funds appropriated by this Act may be used to support more than 9,901 full-time and 2,603 part-time military personnel assigned to or used in the support of Morale, Welfare, and Recreation activities as described in Department of Defense Instruction 7000.12 and its enclosures, dated September 4, 1980.

SEC. 8030. All obligations incurred in anticipation of the appropriations and authority provided in this Act are hereby ratified and confirmed if otherwise in accordance with the provisions of this Act.

SEC. 8031. None of the funds appropriated by this Act or heretofore appropriated by any other Act shall be obligated or expended for the payment of anticipatory possession compensation claims to the Federal Republic of Germany other than claims listed in the 1973 agreement (commonly referred to as the Global Agreement) between the United States and the Federal Republic of Germany.

SEC. 8032. During the current fiscal year the Department of Defense may enter into contracts to recover indebtedness to the United States pursuant to section 3718 of title 31, United States Code.

SEC. 8033. None of the funds appropriated by this Act shall be available for a contract for studies, analyses, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines:

(a) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work, or

(b) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source, or

(c) where the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support:

Provided, That this limitation shall not apply to contracts in an amount of less than $25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8034. None of the funds appropriated by this Act shall be available to provide medical care in the United States on an inpatient basis to foreign military and diplomatic personnel or their dependents unless the Department of Defense is reimbursed for the costs of providing such care: *Provided,* That reimbursements for medical care covered by this section shall be credited to the appropriations against which charges have been made for providing such care, except that inpatient medical care may be provided in the United States without cost to military personnel and their dependents from a foreign country if comparable care is made available to a comparable number of United States military personnel in that foreign country.

SEC. 8035. None of the funds appropriated by this Act shall be obligated for the second career training program authorized by Public Law 96-347.

SEC. 8036. None of the funds appropriated or otherwise made available in this Act shall be obligated or expended for salaries or expenses during the current fiscal year for the purposes of demilitarization of surplus nonautomatic firearms less than .50 caliber.

SEC. 8037. None of the funds provided in this Act shall be available to initiate (1) a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of $20,000,000, or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year, unless the Committees on Appropriations and Armed Services of the Senate and House of Representatives have been notified at least thirty days in advance of the proposed contract award: *Provided,* That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: *Provided further,* That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed $500,000,000 unless specifically provided in this Act. Funds appropriated in title III of this Act may be used for multiyear procurement contracts as follows:

T-700 series aircraft engines;
MK-46 torpedo program;
Bradley Fighting Vehicle transmission;
M-1 tank chassis;
M-1 tank engine;
M-1 tank fire control components; and
LHD-1 amphibious assault ships.

SEC. 8038. None of the funds appropriated by this Act which are available for payment of travel allowances for per diem in lieu of subsistence to enlisted personnel shall be used to pay such an allowance to any enlisted member in an amount that is more than the amount of per diem in lieu of subsistence that the enlisted member is otherwise entitled to receive minus the basic allowance for subsistence, or pro rata portion of such allowance, that the enlisted member is entitled to receive during any day, or portion of a day, that the enlisted member is also entitled to be paid a per diem in lieu of subsistence.

SEC. 8039. None of the funds appropriated by this Act shall be available to approve a request for waiver of the costs otherwise required to be recovered under the provisions of section 21(e)(1)(C) of the Arms Export Control Act unless the Committees on Appropriations have been notified in advance of the proposed waiver.

SEC. 8040. None of the funds appropriated by this Act shall be available for the transportation of equipment or materiel designated as Prepositioned Materiel Configured in Unit Sets (POMCUS) in Europe in excess of four division sets: *Provided,* That the foregoing limitation shall not apply with respect to any item of equipment or materiel which is maintained in the inventories of the Active and Reserve Forces at levels of at least 70 per centum of the established requirements for such an item of equipment or materiel for the Active Forces and 50 per centum of the established requirement for the Reserve Forces for such an item of equipment or materiel: *Provided further,* That no additional commitments to the establishment of POMCUS sites shall be made without prior approval of Congress.

SEC. 8041. (a) None of the funds in this Act may be used to transfer any article of military equipment or data related to the manufacture of such equipment to a foreign country prior to the approval in writing of such transfer by the Secretary of the military service involved.

(b) No funds appropriated by this Act may be used for the transfer of a technical data package from any Government-owned and operated defense plant manufacturing large caliber cannons to any foreign government, nor for assisting any such government in producing any defense item currently being manufactured or developed in a United States Government-owned, Government-operated, defense plant manufacturing large caliber cannons.

(TRANSFER OF FUNDS)

SEC. 8042. None of the funds appropriated in this Act may be made available through

transfer, reprograming, or other means for any intelligence or special activity different from that previously justified to the Congress unless the Director of Central Intelligence or the Secretary of Defense has notified the House and Senate Appropriations Committees of the intent to make such funds available for such activity.

SEC. 8043. Of the funds appropriated by this Act for strategic programs, the Secretary of Defense shall provide funds for the Advanced Technology Bomber program at a level at least equal to the amount provided by the committee of conference on this Act in order to maintain priority emphasis on this program.

SEC. 8044. None of the funds available to the Department of Defense during the current fiscal year shall be used by the Secretary of a military department to purchase coal or coke from foreign nations for use at United States defense facilities in Europe when coal from the United States is available.

SEC. 8045. None of the funds available to the Department of Defense shall be available for the procurement of manual typewriters which were manufactured by facilities located within states which are Signatories to the Warsaw Pact.

SEC. 8046. None of the funds appropriated by this Act may be used to appoint or compensate more than 37 individuals in the Department of Defense in positions in the Executive Schedule (as provided in sections 5312-5316 of title 5, United States Code).

SEC. 8047. None of the funds appropriated by this Act shall be available to convert a position in support of the Army Reserve, Air Force Reserve, Army National Guard, and Air National Guard occupied by, or programed to be occupied by, a (civilian) military technician to a position to be held by a person in an active Guard or Reserve status if that conversion would reduce the total number of positions occupied by, or programed to be occupied by, (civilian) military technicians of the component concerned, below 66,086: *Provided*, That none of the funds appropriated by this Act shall be available to support more than 43,157 positions in support of the Army Reserve, Army National Guard or Air National Guard occupied by, or programed to be occupied by, persons in an active Guard or Reserve status: *Provided further*, That none of the funds appropriated by this Act may be used to include (civilian) military technicians in computing civilian personnel ceilings, including statutory or administratively imposed ceilings, on activities in support of the Army Reserve, Air Force Reserve, Army National Guard or Air National Guard.

SEC. 8048. (a) The provisions of section 138(c)(2) of title 10, United States Code, shall not apply with respect to fiscal year 1986 or with respect to the appropriation of funds for that year.

(b) During fiscal year 1986, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(c) The fiscal year 1987 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1987 Department of Defense budget request shall be prepared and submitted to the Congress as if sections (a) and (b) of this provision were effective with regard to fiscal year 1987.

(TRANSFER OF FUNDS)

SEC. 8049. Appropriations or funds available to the Department of Defense during the current fiscal year may be transferred to appropriations provided in this Act for research, development, test, and evaluation to the extent necessary to meet increased pay costs authorized by or pursuant to law, to be merged with and to be available for the same purposes, and the same time period, as the appropriation to which transferred.

SEC. 8050. (a) During fiscal year 1986, no funds available to the Central Intelligence Agency, Department of Defense, or any other agency or entity of the United States involved in intelligence activities may be obligated or expended, directly or indirectly, for material assistance to the Nicaraguan democratic resistance including arms, ammunition, or other equipment or material which could be used to inflict serious bodily harm or death, or which would have the effect of providing arms, ammunition or other weapons of war for military or paramilitary operations in Nicaragua by any group, organization, movement or individual.

(b) Nothing in this section shall be construed to impair or affect the authority of the Nicaraguan Humanitarian Assistance Office to administer humanitarian assistance to the Nicaraguan democratic resistance of the nature and to the extent provided by, and under the terms and conditions specified in, the Supplemental Appropriations Act, 1985 (Public Law 99-88).

SEC. 8051. None of the funds made available by this Act shall be used in any way for the leasing to non-Federal agencies in the United States aircraft or vehicles owned or operated by the Department of Defense when suitable aircraft or vehicles are commercially available in the private sector: *Provided*, That nothing in this section shall affect authorized and established procedures for the sale of surplus aircraft or vehicles: *Provided further*, That nothing in this section shall prohibit such leasing when specifically authorized in a subsequent Act of Congress: *Provided further*, That nothing in this section shall prohibit the extension or renewal of such leases that were first entered into prior to December 29, 1981.

SEC. 8052. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8053. No funds available to the Department of Defense during the current fiscal year may be used to enter into any contract with a term of eighteen months or more or to extend or renew any contract for a term of eighteen months or more, for any vessel, aircraft or vehicles, through a lease, charter, or similar agreement without previously having been submitted to the Committees on Appropriations of the House of Representatives and the Senate in the budgetary process. Further, any contractual agreement which imposes an estimated termination liability (excluding the estimated value of the leased item at the time of termination) on the Government exceeding 50 per centum of the original purchase value of the vessel, aircraft, or vehicle must have specific authority in an appropriation Act for the obligation of 10 per centum of such termination liability.

SEC. 8054. None of the funds appropriated in this Act may be obligated or expended in any way for the purpose of the sale, lease, rental, or excessing of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii.

SEC. 8055. None of the funds made available by this Act shall be available to operate in excess of 247 commissaries in the contiguous United States.

SEC. 8056. None of the funds provided in this Act shall be used to procure aircraft ejection seats manufactured in any foreign nation that does not permit United States manufacturers to compete for ejection seat procurement requirements in that foreign nation. This limitation shall apply only to ejection seats procured for installation on aircraft produced or assembled in the United States.

SEC. 8057. No more than $189,300,000 of the funds appropriated by this Act shall be available for the payment of unemployment compensation benefits.

SEC. 8058. None of the funds appropriated by this Act should be obligated for the pay of any individual who is initially employed after the date of enactment of this Act as a technician in the administration and training of the Army Reserve and the maintenance and repair of supplies issued to the Army Reserve unless such individual is also a military member of the Army Reserve troop program unit that he or she is employed to support. Those technicians employed by the Army Reserve in areas other than Army Reserve troop program units need only be members of the Selected Reserve.

SEC. 8059. None of the funds appropriated by this Act shall be used for the transfer of the Department of Defense Dependents Schools (DODDS) to the Department of Education.

SEC. 8060. No part of the funds appropriated herein shall be available for the purchase of more than 50 per centum of the fiscal year requirements for aircraft power supply cable assemblies of each military facility from industries established pursuant to title 18, United States Code: *Provided*, That the restriction contained herein shall not apply to small purchases in amounts not exceeding $10,000.

SEC. 8061. None of the funds appropriated by this Act shall be used to purchase dogs or cats or otherwise fund the use of dogs or cats for the purpose of training Department of Defense students or other personnel in surgical or other medical treatment of wounds produced by any type of weapon: *Provided*, That the standards of such training with respect to the treatment of animals shall adhere to the Federal Animal Welfare Law and to those prevailing in the civilian medical community.

SEC. 8062. None of the funds made available by this Act shall be used to initiate full-scale engineering development of any major defense acquisition program until the Secretary of Defense has provided to the Committees on Appropriations of the House and Senate—

(a) a certification that the system or subsystem being developed will be procured in quantities that are not sufficient to warrant development of two or more production sources, or

(b) a plan for the development of two or more sources for the production of the system or subsystem being developed.

SEC. 8063. None of the funds appropriated by this Act shall be available to pay any member of the uniformed service for unused accrued leave pursuant to section 501 of title 37, United States Code, for more than sixty days of such leave, less the number of

days for which payment was previously made under section 501 after February 9, 1976.

SEC. 8064. Within the funds made available under title II of this Act, the military departments may use such funds as necessary, but not to exceed $4,700,000, to carry out the provisions of section 430 of title 37, United States Code: *Provided*, That none of the funds appropriated to the Department of Defense for the travel and transportation of dependent students of military personnel stationed overseas shall be obligated for a transportation allowance for travel within or between the contiguous United States, other than to or from any Military Airlift Command aerial port of entry located in the immediate direction of the member's overseas duty station.

SEC. 8065. Within funds available under title II of this Act, but not to exceed $100,000, and under such regulations as the Secretary of Defense may prescribe, the Department of Defense may, in addition to allowances currently available, make payments for travel and transportation expenses of the surviving spouse, children, parents, and brothers and sisters of any member of the Armed Forces of the United States, who dies as the result of an injury or disease incurred in line of duty to attend the funeral of such member in any case in which the funeral of such member is more than two hundred miles from the residence of the surviving spouse, children, parents or brothers and sisters, if such spouse, children, parents or brothers and sisters, as the case may be, are financially unable to pay their own travel and transportation expenses to attend the funeral of such member.

SEC. 8066. None of the funds available to the Department of Defense may be used for the floating storage of petroleum or petroleum products except in vessels of or belonging to the United States.

SEC. 8067. Of the funds made available to the Department of the Air Force in this Act, not less than $3,000,000 shall be available for the Civil Air Patrol.

SEC. 8068. Funds available to the Department of Defense may be used by the Department of Defense for the use of helicopters and motorized equipment at Defense installations for removal of feral burros and horses.

SEC. 8069. On or after September 30, 1985, none of the funds appropriated by this Act shall be available to execute an agreement for continuation pay authorized under section 311 of title 37, United States Code, with an officer of the Army or Navy in the Dental Corps or an officer of the Air Force designated as a dental officer who is serving in a dental specialty which is manned in excess of 95 per centum of the authorized strength for that specialty: *Provided*, That an agreement for such continuation pay may be executed with such an officer if the agreement provides that such officer will receive only 50 per centum of the amount of the continuation pay to which the officer would otherwise be entitled under section 311 of title 37: *Provided further*, That the foregoing limitation shall cease to be applicable upon the enactment of legislation repealing or amending the continuation pay provisions currently authorized by section 311 of title 37.

(TRANSFER OF FUNDS)

SEC. 8070. Not to exceed $100,000,000 may be transferred from the appropriation "Operation and Maintenance, Defense Agencies" to operation and maintenance appropriations under the military departments in connection with demonstration projects authorized by section 1092 of title 10, United States Code: *Provided*, That the Secretary of Defense shall promptly notify the Congress of any such transfer of funds under this provision: *Provided further*, That the authority to make transfers pursuant to this section is in addition to the authority to make transfers under other provisions of this Act.

SEC. 8071. None of the funds available for Defense installations in Europe shall be used for the consolidation or conversion of heating facilities to district heating distribution systems in Europe: *Provided*, That those facilities identified by the Department of the Army as of April 11, 1985, as being in advanced stages of negotiations shall be exempt from such provision.

SEC. 8072. None of the funds appropriated by this Act shall be available to compensate foreign selling costs as described in Federal Acquisition Regulation 31.205-38(b) as in effect on April 1, 1984.

SEC. 8073. Of the funds appropriated for the operation and maintenance of the Armed Forces, obligations may be incurred for humanitarian and civic assistance costs incidental to authorized operations, and these obligations shall be reported to Congress on September 30, 1986: *Provided*, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance in the Trust Territories of the Pacific Islands by using Civic Action Teams.

SEC. 8074. Notwithstanding any other provision of law, the Secretaries of the Army and Air Force may authorize the retention in an active status until age sixty of any officer who would otherwise be removed from an active status and who is employed as a National Guard or Reserve technician in a position in which active status in a reserve component of the Army or Air Force is required as a condition of that employment.

Sec. 8075. None of the funds available to the Department of Defense may be used to transport any chemical munitions into the Lexington-Blue Grass Army Depot for purposes of future demilitarization.

SEC. 8076. None of the funds appropriated by this Act may be obligated or expended for the purposes delineated in section 1002(e)(2) of the Department of Defense Authorization Act, 1985, without the prior notification to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8077. None of the funds provided by this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term.

SEC. 8078. It is the sense of the Congress that the Secretary of Defense should formulate and carry out a program under which contracts awarded by the Department of Defense in fiscal year 1986 would, to the maximum extent practicable and consistent with existing law, be awarded to contractors who agree to carry out such contracts in labor surplus areas (as defined and identified by the Department of Labor).

SEC. 8079. It is the sense of the Congress that competition, which is necessary to enhance innovation, effectiveness, and efficiency, and which has served our Nation so well in other spheres of political and economic endeavor, should be expanded and increased in the provision of our national defense.

SEC. 8080. It is the sense of the Congress that—(a) the President shall inform and make every effort to consult with other member nations of the North Atlantic Treaty Organization, Japan, and other appropriate allies concerning the research being conducted in the Strategic Defense Initiative program. (b) The Secretary of Defense, in coordination with the Secretary of State and the Director of the Arms Control and Disarmament Agency, shall at the time of the submission of the annual budget presentation materials for each fiscal year beginning after September 30, 1984, report to the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate and the Committees on Appropriations, Armed Services, and Foreign Affairs of the House of Representatives on the status of the consultations referred to under subsection (a).

SEC. 8081. It is the sense of Congress that the President should insist that the pertinent member nations of the North Atlantic Treaty Organization meet or exceed their pledges for an annual increase in defense spending of at least 3 per centum real growth and should insist that Japan further increase its defense spending during fiscal years 1986 and 1987 in furtherance of increased unity, equitable sharing of our common defense burden, and international stability.

SEC. 8082. None of the funds available to the Department of Defense shall be obligated or expended to contract out any activity currently performed by the Defense Personnel Support Center in Philadelphia, Pennsylvania: *Provided*, That this provision shall not apply after notification to the Committees on Appropriations of the House of Representatives and the Senate of the results of the cost analysis of contracting out any such activity.

SEC. 8083. Notwithstanding any other provision of this Act, no funds appropriated by this Act shall be expended for the research, development, test, evaluation or procurement for integration of a nuclear warhead into the Joint Tactical Missile System (JTACMS).

SEC. 8084. None of the funds available to the Department of the Navy may be used to enter into any contract for the overhaul, repair, or maintenance of any naval vessel which includes charges for interport differential as an evaluation factor for award.

SEC. 8085. Under regulations prescribed by the Secretary of Defense, the Department of the Air Force and the Defense Logistics Agency may test a flat rate per diem system for military and civilian travel allowances: *Provided*, That per diem allowances paid under a flat rate per diem system shall be in an amount determined by the Secretary of Defense to be sufficient to meet normal and necessary expenses in the area in which travel is performed, but in no event will the travel allowances exceed $75 for each day in travel status within the continental United States: *Provided further*, That the test approved under this section shall expire on September 30, 1987, or upon the effective date of permanent legislation establishing a flat rate per diem system for both military and civilian personnel, whichever occurs first.

SEC. 8086. Notwithstanding any other provision of law, during fiscal year 1986, the Department of Defense is to conduct a pilot test project of providing home health care to dependents entitled to health care under section 1076 of title 10, United States Code: *Provided*, That such care is medically necessary or appropriate, cost effective, and the beneficiary is not covered for such care

under any other public or private health insurance plan.

SEC. 8087. No appropriation contained in this Act shall be available for the payment of more than 75 per centum of charges of postsecondary education institutions for tuition or expenses for off-duty training of Ready Reserve commissioned officer personnel, nor for the payment of any part of tuition or expenses for such training of such personnel who do not agree to remain members of the Ready Reserve for at least four years after completion of such training or education.

SEC. 8088. None of the funds appropriated in this Act shall be used for professional surveying and mapping services performed by contract for the Defense Mapping Agency unless those contracts are procured in accordance with the selection procedures outlined pursuant to section 2855 of title 10, United States Code.

SEC. 8089. None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of enactment of this Act, is performed by more than ten Department of Defense civilian employees until a most efficient and cost-effective organization analysis is completed on such activity or function and certification of the analysis is made to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8090. Appropriations available to the Department of Defense during the current fiscal year shall be available, under such regulations as the Secretary of Defense may deem appropriate, to exchange or furnish mapping, charting, and geodetic data, supplies or services to a foreign country pursuant to an agreement for the production or exchange of mapping, charting, and geodetic data.

SEC. 8091. Of the funds made available in title IV of this Act, $300,000 available for Defense Research Sciences, Army; $300,000 available for Defense Research Sciences, Navy; $300,000 available for Defense Research Sciences, Air Force; and $100,000 available for Defense Research Sciences, Defense Agencies; in all: $1,000,000, shall be available only for establishing at a private nonprofit institution a pilot program for advanced semiconductor research.

SEC. 8092. None of the funds appropriated by this Act may be obligated or expended for the purposes delineated in section 1103(c) of the Department of Defense Authorization Act, 1986, until 30 calendar days have elapsed following receipt of written notification by the Committees on Appropriations and Armed Services of the House of Representatives and the Senate.

SEC. 8093. (a) Except in accordance with subsection (b), none of the funds appropriated in this Act may be used—

(1) for procurement or assembly of binary chemical munitions (or subcomponents of such munitions); or

(2) for establishment of production facilities necessary for procurement or assembly of binary chemical munitions (or subcomponents of such munitions).

(b) It is the sense of Congress that appropriations for binary chemical weapons shall be considered after September 30, 1986, if—

(1) a mutually verifiable international agreement concerning binary and other similar chemical munitions has not been entered into by the United States by such date;

(2) the President transmits, after such date, a certification to the Congress that—

(A) the procurement and assembly of such complete weapons is necessitated by national security interests including the interests of the members of the North Atlantic Treaty Organization;

(B) performance specifications established by the Department of Defense and in effect on the date of enactment of this Act with respect to such munitions will be met or exceeded in the handling, storage, and other use of such munitions;

(C) applicable Federal safety requirements will be met or exceeded in the handling, storage, and other use of such munitions;

(D) the Secretary of Defense's plan (which shall accompany such certification) for destruction of existing chemical stocks is ready to be implemented; and

(E) the North Atlantic Council of the North Atlantic Treaty Organization (NATO) has formally agreed—

(i) that chemical munitions currently stored and deployed in NATO countries need to be modernized in order to serve as an adequate deterrent;

(ii) that such modernization should be effected by replacement of current chemical munitions with binary chemical munitions; and

(iii) that the European member nations of NATO where such chemical munitions are to be stored or deployed are willing to accept storage and deployment of binary chemical munitions within their territories;

(3) such procurement and assembly is carried out only after the end of the 60-day period beginning on the date such certification is received by the Congress;

(4) the Secretary of Defense's basing mode for such munitions in the United States is to be carried out in a manner which provides that the two components that constitute a binary munition are based in separate States; and

(5) the Secretary of Defense's plan for the transportation of such munitions in the United States is to be carried out in a manner which provides that the two components that constitute a binary munition are transported separately and by different means.

SEC. 8094. None of the funds appropriated in this Act may be obligated or expended for procurement of C-12 aircraft unless such aircraft are procured through competitive procedures (as defined in section 2302(2) of title 10, United States Code), which shall be restricted to turboprop aircraft.

SEC. 8095. None of the funds in this Act may be obligated for procurement of 120mm mortars or 120mm mortar ammunition manufactured outside of the United States: *Provided*, That this limitation shall not apply to procurement of such mortars or ammunition required for testing, evaluation, type classification or equipping the Army's Ninth Infantry Division (Motorized).

SEC. 8096. None of the funds appropriated by this Act may be obligated or expended to carry out a test of the Space Defense System (anti-satellite weapon) against an object in space until the President certifies to Congress that the Soviet Union has conducted, after October 3, 1985, a test against an object in space of a dedicated anti-satellite weapon.

SEC. 8097. Of the funds made available to the Department of the Air Force in this Act, not more than $35,000,000 shall be made available to initiate a replacement program for Presidential Air Force One aircraft.

(TRANSFER OF FUNDS)

SEC. 8098. The Secretary of Defense may transfer, not to exceed $1,000,000,000 from the Foreign Currency Fluctuation, Defense account to appropriations provided in title II of this Act: *Provided*, That the Secretary of Defense shall report to the Committees on Appropriations of the House of Representatives and Senate of the intended transfer: *Provided further*, That funds so transferred shall be made available for the same time period and purpose as the appropriation to which transferred: *Provided further*, That this transfer authority is in addition to any other transfer authority provided elsewhere in this Act.

SEC. 8099. (a) LIMITATIONS ON CONFLICTS-OF-INTEREST IN DEFENSE PROCUREMENT.—(1) An individual who is a former officer or employee of the Department of Defense, retired Member of Congress, or a former or retired member of the Armed Forces, retired Member of Congress, who during the two-year period preceding the individual's separation from service in the Department of Defense had significant responsibilities for a procurement function with respect to a contractor may not accept compensation from that contractor for a period of two years following the individual's separation from service in the Department of Defense or the Congress of the United States.

(2) Whoever knowingly violates paragraph (1) shall be fined not more than $10,000 or imprisoned for not more than one year, or both

(3) an individual who knowingly offers or provides any compensation to an individual the acceptance of which is or would be in violation of paragraph (1) shall be fined not more than $10,000 or imprisoned for not more than one year, or both.

(b) LIMITATIONS ON CONTRACTORS.—(1) Each contract for procurement of goods or services entered into by the Department of Defense shall include a provision under which the contractor agrees not to provide compensation to an individual if the acceptance of such compensation by such individual would violate subsection (a)(1).

(2) Such a contract shall also provide that if the contractor knowingly violates a contract provision required by paragraph (1) the contractor shall pay to the United States, as liquidated damages under the contract, an amount equal to the greater of—

(A) $100,000; or

(B) three times the compensation paid by the contractor to the individual in violation of such contract provision.

(c) REPORTING OF EMPLOYMENT CONTRACTS.—If an officer or employee of the Department of Defense, or a member of the Armed Forces, having significant responsibilities for a procurement function with respect to a contractor contacts, or is contacted by, the contractor regarding future compensation of the officer, employee, or member by the contractor, the officer, employee, or member shall—

(1) promptly report the contact to the officer, employee, or member's supervisor and to the designated ethics official of the agency in which the officer, employee, or member is serving;

(2) promptly report (as part of the report under paragraph (1) or as a separate report) when contacts with the contractor concerning such compensation have been terminated without agreement or commitment to future compensation of the officer, employee, or member by the contractor; and

(3) disqualify himself from all participation in the performance of procurement functions relating to contracts with that contractor until a report described in paragraph (2) is made with respect to such contacts.

(d) NOTICE TO OFFICERS AND EMPLOYEES LEAVING DOD SERVICE.—(1) The Secretary of Defense shall give the notice described in paragraph (2) to each officer and employee of the Department of Defense and each member of the Armed Forces—

(A) who after the effective date of this section is separated from service in the Department of Defense; and

(B) who during the two-year period before that separation served in a position in the Department that included significant responsibility for a procurement function and that was identified by the Secretary of Defense under subsection (g)(1).

(2) A notice required by paragraph (1) shall provide the individual receiving the notice—

(A) a written explanation of the provisions of this section; and

(B) the name of each contractor from whom such individual is prohibited from accepting compensation under this section during the two-year period following such separation from service in the Department of Defense.

(e) CONTRACTOR REPORTS.—(1)(A) Each contractor subject to a contract term described in subsection (b) shall submit to the Secretary of Defense not later than April 1 of each year a report covering the previous calendar year. Each such report shall list the name of each individual (together with other information adequate for the Government to identify the individual) who is a former Department of Defense officer or employee, or a former or retired member of the Armed Forces, who—

(i) was provided compensation by that contractor during the preceding calendar year, if such compensation was provided within two years after such officer, employee, or member left service in the Department of Defense; and

(ii) had significant responsibilities for a procurement function during the individual's last two years of service in the Department of Defense.

(B) Each such listing shall—

(i) show each agency in which the individual was employed or served on active duty during the last two years of such individual's service in the Government;

(ii) show the individual's job titles during the last two years of such individual's service in the Government;

(iii) contain a full and complete description of the duties of the individual during the last two years of such service; and

(iv) contain a description of the duties (if any) that the individual is performing on behalf of the contractor.

(C) The first such report shall be submitted not later than April 1, 1987.

(2) The Secretary of Defense shall review each report under paragraph (1) to assess the report for accuracy and completeness and for the purpose of identifying possible violations of subsection (a) or (b) or paragraph (1). The Secretary shall report any such possible violation to the Attorney General.

(3) Whoever fails to file a report required by paragraph (1) shall be fined not more than $10,000.

(f) REVIEW BY DIRECTOR OF OFFICE OF GOVERNMENT ETHICS.—The Director of the Office of Government Ethics shall have access to the reports submitted under subsection (e)(1) and shall conduct an annual random review of the reports for violations of subsections (a), (b), and (e)(1). The Director shall submit a report to Congress not later than October 1 of each year on the operation of this section, including the findings of the Director based on the examination of reports for the preceding calendar year.

(g) COVERED PROCUREMENT FUNCTIONS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense—

(1) shall identify the procurement functions covered by this section and the organizational positions currently performing such functions; and

(2) shall provide a list of such functions and positions to Congress and to the Director of the Office of Government Ethics and publish such list in the Federal Register.

(h) EXCLUSION.—This section does not apply—

(1) to a contract for an amount less than $100,000; or

(2) to compensation of an individual by an entity that did not have a Department of Defense contract in excess of $100,000 at the time the individual had significant responsibilities for a significant procurement function with respect to a contract with that entity.

(i) ADVISORY OPINIONS FROM OFFICE OF GOVERNMENT ETHICS.—(1) An individual who is considering the propriety of accepting compensation that might place the individual in violation of subsection (a) may, before acceptance of such compensation, apply to the Director of the Office of Government Ethics for advice on the applicability of this section to the acceptance of such compensation.

(2) An application under paragraph (1) shall contain such information as the Director requires.

(j) WAIVER OF OTHERWISE APPLICABLE FINES UNDER TITLE 18.—The provisions of section 3623 of title 18, United States Code, shall not apply to maximum fines applicable under subsections (a)(2), (a)(3), and (e)(3).

(k) DEFINITIONS.—For purposes of this section:

(1) The term "compensation" includes any payment, gift, benefit, reward, favor, gratuity, or employment valued in excess of $100 at prevailing market price, provided directly, indirectly, or through a third party.

(2) The term "contractor" means any person, partnership, corporation, or agency (other than the Federal Government or the independent agencies thereof) that contracts to supply the Department of Defense with goods or services. Such term includes any parent, subsidiary, or affiliate thereof.

(3) The term "procurement function", with respect to a contract, means any acquisition action relating to the contract, including negotiating, awarding, administering, approving contract changes, costs analysis, quality assurance, operational and developmental testing, technical advice or recommendation, approval of payment, contractor selection, budgeting, auditing under the contract, or management of the procurement program.

(4) The term "Armed Forces" means the Army, Navy, Air Force, and Marine Corps and includes the Coast Guard when the Coast Guard is operating as a service in the Navy.

(l) SEPARATION OF MEMBERS OF ARMED FORCES.—For the purposes of this section, a member or former member of the Armed Forces shall be considered to have been separated from service in the Department of Defense upon such member's discharge or release from active duty.

(m) TRANSITION.—(1) This section—

(A) does not preclude the continuation of employment that began before the effective date of this section or the acceptance of compensation for such employment; and

(B) does not, except as provided in paragraph (2), apply to an individual whose service with the Department of Defense terminates before April 1, 1986.

(2) Paragraph (1)(B) does not preclude the application of this section to an individual with respect to service in the Department of Defense by such individual on or after April 1, 1986.

(n) EFFECTIVE DATE.—This section shall take effect on January 1, 1986.

(o) REPEALER.—Section 921 of the Department of Defense Authorization Act, 1986, is repealed.

SEC. 8100. (a) REGULATION OF ALLOWABLE COSTS PAYABLE TO DEFENSE CONTRACTORS.—Section 2324 of title 10, United States Code, as added by section 911 of the Department of Defense Authorization Act, 1986, is amended to read as follows:

"§ 2324. Allowable costs under defense contracts

"(a)(1) The Secretary of Defense shall require that a covered contract provide that if the contractor submits to the Department of Defense a proposal for settlement of indirect costs incurred by the contractor for any period after such costs have been accrued and if that proposal includes the submission of an indirect cost that has been expressly specified by statute or regulation as being unallowable—

"(A) that cost shall be disallowed; and

"(B) the contractor shall pay to the United States an amount equal to the greater of $10,000 or—

"(i) the amount of the disallowed cost, plus interest; or

"(ii) if the cost is of a type that has been finally determined, before the submission of such proposal, to be expressly unallowable to that contractor, an amount equal to twice the amount of the disallowed cost, plus interest.

"(2) An action by the Secretary under a contract provision required by paragraph (1) to disallow a cost and to require payment of a contractor—

"(A) shall be considered to be a final decision for purposes of section 6 of the Contracts Dispute Act of 1978 (41 U.S.C. 605); and

"(B) shall be appealable in the manner provided in section 7 of such Act (41 U.S.C. 606).

"(3) Interest under paragraph (1) shall be computed—

"(A) from the date on which the cost is questioned; and

"(B) at the applicable rate prescribed by the Secretary of the Treasury under section 6621 of the Internal Revenue Code of 1954.

"(4) Whoever, having entered into a contract with the Department of Defense that includes terms for settlement of indirect costs, submits to the Department a proposal for settlement of such costs for any period after such costs have been accrued that includes a cost that is expressly specified by statute or regulation as being unallowable, knowing that such cost is unallowable, shall be imprisoned not more than 5 years, or fined not more than $250,000 in the case of an individual or $500,000 in the case of a corporation.

"(b) The following costs are not allowable under a covered contract:

"(1) Costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

"(2) Costs incurred to influence (directly or indirectly) congressional action on any legislation or appropriation matters pending before Congress or a State.

"(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable for fraud or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of false certification).

"(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, State, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations of the Secretary of Defense.

"(5) Costs of membership in any social, dining, or country club or organization.

"(6) Costs of alcoholic beverages.

"(7) Contributions or donations, regardless of the recipient.

"(8) Costs of advertising designed to promote the contractor or its products.

"(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

"(10) Other cost items identified by regulation which the Secretary of Defense shall prescribe by regulation under this section.

"(11) Except as provided in subsection (c), costs for travel by aircraft to the extent that such costs exceed the amount of standard commercial fare for travel by common carrier between the points involved.

"(c)(1) Subsection (b)(11) does not apply if travel by common carrier at standard fare—

"(A) would require travel at unreasonable hours;

"(B) would excessively prolong travel;

"(C) would result in overall increased costs that would offset potential savings from travel at standard commercial fare; or

"(D) would not meet physical or medical needs of the person traveling.

"(2) Subsection (b)(11) does not apply to travel by aircraft other than a common carrier if—

"(A) travel by such aircraft is specifically required for contract performance or is otherwise specifically authorized under the contract;

"(B) travel by common carrier is impractical; and

"(C) the travel performed is for business purposes and requires the use of such aircraft.

"(3) Costs for air travel in excess of that allowed by subsection (b)(11) may only be allowed by reason of one of the exceptions contained in paragraph (1) or by reason of paragraph (2) if the exception is fully documented and justified, including, in the case of an exception under paragraph (2), full documentation of the use of the aircraft for business purposes.

"(d)(1) The Secretary of Defense shall prescribe regulations, consistent with the requirements of subsection (b), to establish criteria for the allowability of indirect contractor costs under Department of Defense contracts. Such regulations shall be prescribed as part of the Department of Defense Supplement to the Federal Acquisition Regulation. In developing specific criteria for the allowability of such costs, the Secretary shall consider whether reimbursement of such costs by the United States is in the best interests of the United States and consistent with the requirements of subsection (b). Such regulations—

"(A) shall define and interpret in reasonable detail and specific terms those indirect costs, including the cost requirements of subsection (b), that are unallowable under contracts entered into by the Department of Defense; and

"(B) shall provide that specific costs unallowable under one cost principle shall not be allowable under any other cost principle.

"(2) The regulations under paragraph (1) shall, at a minimum clarify the cost principles applicable to contractor costs of the following:

"(A) Air shows.

"(B) Advertising.

"(C) Recruitment.

"(D) Employee morale and welfare.

"(E) Actions to influence (directly or indirectly) executive branch action on regulatory and contract matters (other than costs incurred in regard to contract proposals pursuant to solicited or unsolicited bids).

"(F) Community relations.

"(G) Dining facilities.

"(H) Professional and consulting services, including legal services.

"(I) Compensation.

"(J) Selling and marketing.

"(K) Travel.

"(L) Public relations.

"(M) Hotel and meal expenses.

"(N) Membership in civic, community, and professional organizations.

"(3) Such regulations shall specify the circumstances under which clauses (A) and (B) of subsection (c)(1) may be applied.

"(4) Such regulations shall require that a contractor be required to provide current, accurate, and complete documentation to support the allowability of an indirect cost at the time a proposal for settlement of indirect costs is submitted to the Secretary. If such documentation is not sufficient to support the allowability of the cost, the cost shall be challenged by the Secretary, and it shall become expressly unallowable and is not subject to negotiation.

"(e)(1) The Secretary of Defense shall require that each indirect cost in the contractor's submission for final overhead settlement applied to covered contracts that is not specifically unallowable under law or regulation and that is challenged by the Secretary as being unallowable shall be considered for resolution as being allowable or unallowable separately from the resolution of other challenged costs. If such challenged cost cannot be resolved as being allowable or unallowable separately, then the settlement may include an aggregate amount for the settlement of all such challenged costs or a settlement of each such cost at less than the amount submitted if—

"(A) the contractor and the contracting officer cannot agree on the allowability of the cost under existing cost principles;

"(B) the contracting officer documents the reasons why an agreement cannot be reached; and

"(C) the contractor agrees in writing that costs of that type will not be submitted to the Department of Defense for payment as an allowable indirect cost in the future under that contract or any other contract of the contractor with the Secretary.

"(2) The Secretary of Defense shall provide, to the maximum extent practicable, the defense contract auditor be present at any negotiation or meeting with the contractor regarding a determination of the allowability of indirect costs of the contractor.

"(f)(1) A contractor that submits a proposal for settlement of indirect costs applicable to a covered contract shall be required to certify that all indirect costs included in the proposal are allowable. Any such certification shall be in a form prescribed by the Secretary of Defense.

"(2) The Secretary of Defense or the Secretary of the military department concerned may, in an exceptional case, waive the requirement for certification under paragraph (1) in the case of any contract if the Secretary—

"(A) determines in such case that it would be in the interest of the United States to waive such certification; and

"(B) states in writing the reasons for that determination and makes such determination available to the public.

"(g) The Secretary of Defense shall provide that, in establishing the interim or provisional rates for payment of indirect costs to a defense contractor for which final settlement will be made at a later time, such rates shall be based upon amounts incurred by such contractor for indirect costs less any amount questioned by the agency with responsibility for audits of defense contracts.

"(h) In this section, 'covered contract' means a contract entered into by the Department of Defense for an amount more than $25,000—

"(1) that is flexibly priced; or

"(2) for which cost or pricing data is required under section 2306(f) of this title.".

(b) REGULATIONS.—(1) Not later than 150 days after the date of enactment of this Act, the Secretary of Defense shall prescribe the regulations required by subsection (d) of section 2324 of title 10, United States Code, as amended by subsection (a). Such regulations shall be published in accordance with section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b).

(2) The Secretary shall review such regulations at least once every five years. The results of each such review shall be made public.

(c) APPLICABILITY TO SUBCONTRACTS.—The regulations of the Secretary of Defense required to be issued under subsection (b) shall require, to the maximum extent possible, that the provisions of section 2324 of title 10, United States Code, as amended by subsection (a), shall apply to all subcontractors of any covered contract, as that term is defined in such section.

(d) EFFECTIVE DATE.—Section 2324 of title 10, United States Code, as amended by subsection (a), shall apply only to contracts entered into on or after the date on which regulations are prescribed in accordance with subsection (b).

SEC. 8101. (a) MULTIPLE SOURCES FOR MAJOR DEFENSE ACQUISITION PROGRAMS.—(1) Section 2305a of title 10, United States Code, as added by section 912 of the Department of Defense Authorization Act, 1986, is amended to read as follows:

"§ 2305a. Major programs: development of multiple sources

"(a)(1) The Secretary of Defense may not begin full-scale engineering development under a major program until—

"(A) the Secretary prepares a plan for competition under the program; and

"(B) the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing that plan.

"(2) Each contract for the development and acquisition of the system under the program, and each contract for the development and acquisition of a major subsystem under the program, shall be awarded in accordance with the plan prepared under paragraph (1).

"(3) The report required by paragraph (1)(B) shall be submitted not later than the submission of the budget materials the Secretary submits to Congress for the fiscal year for which the initial request is made for appropriations for full-scale engineering development of the program.

"(4) If the Secretary proposes to revise a competition plan prepared under paragraph (1) after the report on the plan is submitted under that paragraph, the Secretary shall submit to the committees a report describing the proposed revision. Such a revision may not be implemented until 60 days after the report on the revision is received by those committees.

"(b)(1) The Secretary shall include in the competition plan for a major program an estimate of whether the market conditions for such system (and each such subsystem) exist such that the Secretary has a reasonable expectation that there will be competitive alternative sources of supply for the system (and each such subsystem) throughout the period from the beginning of full-scale engineering development through the end of production under the program.

"(2) If the Secretary's estimate under paragraph (1) that competitive alternative sources of supply will exist later proves incorrect in that fewer than two responsive proposals are received in reply to a request for proposals, the Secretary shall revise the competition plan in accordance with subsection (c)(1).

"(3) A contract for full-scale engineering development or production (including follow-on contracts) under a major program may not be entered into using procedures other than competitive procedures under the authority of clause (1) or clause (7) of section 2304(c) of this title.

"(c)(1) In preparing the portions of a plan that are required by subsection (b)—

"(A) if the Secretary determines that competitive alternative sources of supply with respect to the system (or a major subsystem of the system) would not otherwise be available throughout the full-scale engineering development of the system (or major subsystem), the Secretary shall provide in the plan for the award of contracts under the program so as to provide and maintain at least two sources of supply for full-scale engineering development; and

"(B) if the Secretary determines that competitive alternative sources of supply with respect to the system (or a major subsystem of the system) would not otherwise be available throughout the production of the system (or major subsystem), the Secretary shall provide in the plan for the award of contracts under the program so as to provide and maintain at least two sources of supply for production.

"(2) If a competition plan includes a provision required by paragraph (1)(B), the plan shall also provide that of the total dollar amount of contracts awarded for a fiscal year for production of the system (or major subsystem)—

"(A) the amount awarded to the contractor whose proposal was most advantageous to the United States shall be greater than the amount awarded any other contractor; and

"(B) the amount awarded any other contractor shall be sufficient to enable that contractor to compete effectively for the plurality of the next production contract for the system (or major subsystem).

"(3) The Secretary shall determine which proposal is most advantageous to the United States by considering price and other factors included in the solicitation for proposals for the contract.

"(4) The Secretary may waive provisions of a plan required by paragraph (1) if the Secretary determines that the proposal of the contractor submitting the proposal that is the second most advantageous to the United States is not within a competitive range (as determined by the Secretary) of the proposal that is the most advantageous to the United States.

"(5) In carrying out this subsection, the Secretary may provide that the requirements of a competition plan are satisfied even though the contractors do not develop or produce identical systems if the systems developed or produced serve similar functions and compete effectively with each other.

"(d)(1) In preparing a competition plan for a major program, the Secretary (subject to paragraph (4)) may waive the requirements of subsections (b) and (c) with respect to that program if the Secretary determines that the application of those subsections to that program—

"(A) would materially increase the total cost of the program; or

"(B) would unreasonably delay the completion of the total program.

"(2) If the Secretary grants a waiver under paragraph (1), the report submitted under subsection (a)(1) with respect to that program—

"(A) shall include notice that such waiver has been made; and

"(B) shall set forth the reasons for the waiver, together with supporting documentation of comparative cost and schedule estimates.

"(3) The exercise of the authority provided under paragraph (1) shall be made separately with respect to the application of subsections (b) and (c)—

"(A) to full-scale engineering development of the program; and

"(B) to production of the program.

"(4) The Secretary may not grant a waiver under paragraph (1) if the waiver would cause the total cost of either the major development programs or the major production programs for which all such waivers have been granted to exceed 50 percent of the total cost of all the major development programs or the major production programs, respectively, that enter full-scale engineering development after fiscal year 1986.

"(f) In this section:

"(1) 'Major program' means a major defense acquisition program, as such term is defined in section 139a(a) of this title.

"(2) 'Major subsystem', with respect to a major program, means a subsystem of the system developed under the program for which—

"(A) the amount for research, development, test, and evaluation is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the research, development, test, and evaluation funding criterion for identification of a major defense acquisition program; or

"(B) the amount for production is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the production funding criterion for identification of a major defense acquisition program.".

(2) The item relating to such section in the table of sections at the beginning of chapter 137 of such title is amended to read as follows:

"2305a. Major programs: development of multiple sources.".

(b) EFFECTIVE DATE.—Section 2305a of title 10, United States Code, as amended by subsection (a), shall apply with respect to major defense acquisition programs for which funds for full-scale engineering development are first provided for a fiscal year after fiscal year 1986.

SEC. 8102. (a) CLARIFICATION OF SECTION 917 COST AND PRICE MANAGEMENT PROVISION.—Section 2406 of title 10, United States Code, as enacted by section 917 of the Department of Defense Authorization Act, 1986, is amended to read as follows:

"§ 2406. Cost and price management

"(a)(1) Subject to subsection (d)(2), the head of an agency shall require the contractor under a covered contract with that agency—

"(A) to record into appropriate categories the contractor's proposed and negotiated cost and pricing data with respect to work under the contract; and

"(B) to record into appropriate categories the contractor's incurred costs under the contract in the same manner as the manner in which the contractor categorizes and records such proposed and negotiated cost and pricing data.

"(2) The categories into which such proposed and negotiated cost and pricing data and such incurred costs shall be recorded include—

"(A) labor costs;

"(B) material costs;

"(C) subcontract costs;

"(D) overhead costs;

"(E) general and administrative costs;

"(F) fee or profit;

"(G) recurring costs; and

"(H) nonrecurring costs.

"(b)(1) Subject to subsection (d)(2), the head of an agency shall require, with respect to each covered contract under a major defense acquisition program, that the contractor record each proposed or negotiated bill of labor—

"(A) for labor used by the contractor in manufacturing the end item under the program; and

"(B) for labor used by the contractor in performing routine testing relating to the end item.

"(2) A contractor that records proposed and negotiated bills of labor with respect to a contract under paragraph (1) shall prepare each such bill of labor to reflect the contractor's computation—

"(A) of the work required in manufacturing parts and subassemblies for the end item under the program; and

"(B) of the work required in performing routine testing of such parts and subassemblies.

"(3)(A) A contractor preparing a bill of labor required to be recorded under paragraph (1) shall specify in the bill of labor the current industrial engineering standard hours of work content (also known as 'should-take times')—

"(i) for the work included in each component of the bill of labor; and

"(ii) for the total work included in the bill of labor.

"(B) The contractor shall base the standard hours of work content specified in the bill of labor on the 'fair day's work' concept, as such term is understood in competitive commercial manufacturing industries in the United States.

"(C) The contractor's standard hours of work content included in the bill of labor may not vary from time standards derived from commercially available predetermined time standard systems widely used in the United States, as determined by the head of the agency, subject to verification by audit.

"(4) Subject to subsection (d)(2) of this section, the head of the agency concerned shall require that a contractor that records (under paragraph (1)) a negotiated bill of labor with respect to a contract shall, as work progresses under the contract, record—

"(A) any difference between—

"(i) the actual hours of work expended in performing the work included in each component of the bill of labor; and

"(ii) the standard hours of work content for such work specified in the bill of labor pursuant to paragraph (3);

"(B) any difference between—

"(i) the actual hours of work expended in performing the total work included in the bill of labor; and

"(ii) the standard hours of work content for such work specified in the bill of labor pursuant to paragraph (3); and

"(C) the bill of labor so as to reflect the work content of the current configuration of the program.

"(c)(1) Subject to subsection (d)(2), the head of an agency shall require, with respect to each covered contract under a major defense acquisition program, that the contractor record each proposed or negotiated bill of material—

"(A) for material used by the contractor in manufacturing the end item under the program; and

"(B) for material used by the contractor in performing routine testing relating to the item.

"(2) A contractor that records proposed and negotiated bills of material with respect to a contract under paragraph (1) shall prepare each such bill of material to reflect the contactor's computation—

"(A) of the material required for manufacturing parts an subassemblies for the end item under the program; and

"(B) of the material required for routine testing of such parts and subassemblies.

"(3) The costs set out in such a bill of material shall be expressed in current dollars.

"(4) Subject to subsection (d)(2), the head of the agency concerned shall require that a contractor that records a negotiated bill of material with respect to a contract under paragraph (1) shall, as work progresses under the contract, record—

"(A) any difference between—

"(i) the costs incurred by the contractor for material used by the contractor in manufacturing the end item under the program; and

"(ii) the costs for such material specified in the bill of material;

"(B) any difference between—

"(i) the costs incurred by the contractor for material used by the contractor in performing routine testing relating to the item; and

"(ii) the costs for such material specified in the bill of material; and

"(C) the bill of material so as to reflect the work content of the current configuration of the program.

"(d)(1) Nothing in this section prohibits a contractor from submitting to an agency a request for payment or reimbursement for any bill of labor or any bill of material developed pursuant to an approved system of cost principles and procedures.

"(2) This section does not authorize or require the head of an agency to require the recording by a contractor of information under this section if the contractor does not otherwise maintain the information to be recorded—

"(A) under section 2306(f) of this title or some other provision of law (other than this section) or regulation;

"(B) under the terms of a contract provision required under any such law or regulation; or

"(C) for its own management purposes.

"(e) In this section:

"(1) 'Agency' means the Department of Defense, the Department of the Army, the Department of the Navy, or the Department of the Air Force.

"(2) 'Covered contract' means a contract that is awarded by an agency and that is subject to the provisions of section 2306(f) of this title, including contracts for full-scale engineering developments or production.

"(3) 'Major defense acquisition program' has the meaning given that term in section 138(a)(1) of this title.".

(b) APPLICABILITY OF SECTION.—Section 2406 of title 10, United States Code, as amended by subsection (a), shall apply with respect to—

(1) contracts in effect on the date of the enactment of this Act;

(2) contracts entered into on or after such date; and

(3) a contract completed or otherwise terminated before such date under a major defense acquisition program that is in existence on such date, if the contract was with a contractor with whom the Department of Defense (including the military departments) has a contract under such program on or after such date.

This Act may be cited as the "Department of Defense Appropriation Act, 1986".

Mr. CHAPPELL (during the reading). Mr. Chairman, I ask unanimous consent that title VIII be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The CHAIRMAN pro tempore. Are there any points of order against title VIII?

Are there amendments to title VIII?

AMENDMENT OFFERED BY MR. DICKINSON

Mr. DICKINSON. Mr. Chairman, I offer an amendment to title VIII.

The Clerk read as follows:

Amendment offered by Mr. DICKINSON: Page 85, line 19, strike out the period and insert in lieu thereof ", but such funds may not be obligated or expended for such purpose until authorized by law in accordance with section 138(a) of title 10, United States Code, or authorized in accordance with procedures provided in section 1401 of the Department of Defense Authorization Act, 1986.".

Mr. DICKINSON (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Alabama?

There was no objection.

Mr. DICKS. Mr. Chairman, I reserve a point of order on the gentleman's amendment.

Mr. DICKINSON. Mr. Chairman, there is an item in this bill for $35 million for the research for long lead time items to go forward in selecting a successor to Air Force One and Air Force Two.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman from Florida.

Mr. CHAPPELL. Is this the amendment which we discussed that has to do with the Air Force One aircraft?

Mr. DICKINSON. It is.

Mr. CHAPPELL. You want to conform the language and the appropriation to authorization and make it subject to authorization.

Mr. DICKINSON. Exactly.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman from Washington.

Mr. DICKS. I appreciate the gentleman yielding.

Mr. Chairman, as I understand the law, according to Secretary Taft, in a letter on a previous issue, because of the broad authorization for Air Force aircraft, there is some indication that this program is in fact authorized under the interpretation of the administration.

Now, is the gentleman from Washington in error on that point?

Mr. DICKINSON. I cannot comment on what Secretary Taft said, but it is my understanding that this specific item has not been authorized, certainly not by the authorizing committee.

Mr. DICKS. Specifically.

Mr. DICKINSON. Specifically.

Mr. DICKS. But there is an account called Aircraft Procurement, Air Force, under which this could be authorized, according to the expensive interpretation of the administration, as I recall from the debate on the 747.

Mr. DICKINSON. I cannot comment on that directly because I do not recall that particular point. But if the gentleman would let me explain what I am trying to do——

Mr. DICKS. Sure.

Mr. DICKINSON. I have discussed this with the chairman and the ranking minority member.

There is $35 million in here to go forward with the selection of a successor to Air Force One and Air Force Two.

In looking at the dollar figure, it was $448 million for two aircraft. It was the feeling of the members of the authorizing committee that this is probably excessive, and all we are asking is leave the money in but make it subject to our being given an opportunity to have a hearing and to authorize some money, based on what comes out of the hearing. Our chairman has no problem with that. It is an excessive amount for two aircraft.

Mr. DICKS. If the gentleman will yield further, I happen to agree with the gentleman. I thought that the dollar figure for this was exceedingly high. And one of the major problems falls within the jurisdiction of the gentleman from Alabama, and that is a very large amount of money for R&D. It strikes the gentleman from Washington that that level of R&D is suspect. I would hope that the gentleman would take a very close look at it and try to make certain that those R&D funds are held to an absolute minimum, because I think we can do this without a lot of R&D.

Mr. DICKINSON. I assure the gentleman that is exactly what our committee wants to do; $99 million R&D. We have already built the two airborne 747's that have been EMP hardened. The figures are totally suspect. It is only for that reason. We are not trying to remove the money. We are saying we want to have a hearing. Your committee, as I understand it, did not have a hearing on this thing. It was something that the administration asked at the last minute, and you acceded to the administration's request.

Mr. DICKS. If the gentleman will yield, clearly you have a very good grasp of this issue.

Mr. Chairman, I withdraw my point of order, and I hope that the committee will accept the gentleman's amendment.

Mr. DICKINSON. I thank the gentleman.

Mr. CHAPPELL. Mr. Chairman, if the gentleman will yield, we accept the amendment on this side.

The CHAIRMAN pro tempore. The Chair notes that the gentleman from Washington [Mr. DICKS] has withdrawn his point of order.

The question is on the amendment offered by the gentleman from Alabama [Mr. DICKINSON].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. LOWERY OF CALIFORNIA

Mr. LOWERY of California. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. LOWERY of California: Strike out section 8084 (page 79, lines 12 through 16).

Mr. LOWERY of California. Mr. Chairman, at a time when the Congress is seeking to enhance procurement reform and ferret out contractor abuse, section 8084 of the defense appropriations bill takes us in the opposite direction. Indeed, taxpayers have a right to know where their money is being spent and how much of it is being spent when the Navy contracts for repairs on its vessels.

The amendment I am offering would delete the bill's proviso that the Navy should somehow pretend that foreseeable transportation costs resulting from moving a ship out of its home port for repairs do not exist. The Navy does not concur with this committee direction and neither should any of us concerned about the principles of an open government.

Briefly, Mr. Chairman, for the benefit of those Members not familiar with the Navy's ship repair policies, let me try to explain current practice with respect to the so-called interport differential.

Current Navy policy factors in certain costs of moving a ship from one port to another for repair purposes. These moving costs are termed interport differentials. Now, interport differentials include: First, fuel costs; second, pilot, escort, and berthing costs; and third, messing of ship-based personnel. Family relocation costs, though difficult to predict, should also be considered an interport differential, but present Navy policy does not factor this cost in.

Nevertheless, the Navy's approach, contained in its own ship repair contracting manual, is fiscally responsible, aboveboard and honest. So, why does section 8084 of the defense appropriations bill engage in micromanagement of the worst ilk and turn Navy policy on its head?

Ostensibly, this provision seeks to maintain an industrial mobilization base in as many ports as possible. Section 8084 supporters would say that without this provision, home port shipyards have an unfair advantage in competing for Navy repair work. This argument is not new. In fact, the hue and cry coming from non-home-port areas is the driving force behind the Navy's decision to increase the number of home ports. The industrial base argument is also the main reason the Navy is now competing its major overhaul work on a coastwide basis with more vigor. And now, in another section of this bill's report, and in the name of maintaining our industrial ship-repair capacity, the committee is directing the Navy to also bid its smaller repair jobs coastwide, regardless of the effect on personnel and economics. I would submit, Mr. Chairman, that section 8084 is the last straw!

It is one thing to tell the Navy to increase its bid area, or to build new home ports. But it is quite another to suggest that the Navy should ignore the true cost of steaming its ships to other ports in the name of competition or industrial base capacity. Interport differentials are real, foreseeable costs that will be borne by the Navy. Hiding such costs through legislation won't make them go away, and sets a terrible precedent for dealing with this issue.

But don't take my word for it. The GAO, in a 1982 study of a Navy overhaul contract award, succinctly stated, "we believe that nonconsideration of foreseeable costs results in an inadequate evaluation of contractor bids and fails to reflect potential costs to the Government."

I find it hard to believe that Congress would want to create a policy which condones hidden costs to the American taxpayer. There is enough of that already, most of it unintentional. Section 8084 is a blatant, intentional attempt to cover up the real cost of bids; it is a slap at honesty in contracting, and is contrary to basic principles of good, open government.

Mr. Chairman, I urge Members to support my amendment to strike section 8084.

□ 1335

Mr. AuCOIN. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, the gentleman from California, in his amendment, would make it seem that somehow our committee has lurched forward and done something that is ill-advised, hastily conceived, and detrimental to the Navy and its personnel. The truth is that none of those things are true.

Our committee has looked for years at the problem of naval overhaul work and the industrial base that is required to do that work on both the west coast and on the east coast. It has looked into some practices on the part of home port shipyards that have given the taxpayer a raw deal. It has looked at the problems of inadequate competition which the Congress now has focused on in terms of seeking more of, on the part of the Pentagon, in all of its practices.

Our committee, in looking at some of these practices has studied reports from its own survey and investigations staff which have shown that the absence of competition and the buying in that's gone on in navy overhaul and maintenance work on both coasts has hurt the taxpayer; has run up costs, and is not a bargain by any stretch of the imagination.

The subcommittee has looked with great interest at reports of the General Accounting Office. Reports which have examined these practices that I refer to. The General Accounting Office has indicated that in the absense of competition, which the gentleman would remove by his amendment, we have seen in the case of cost plus and fixed cost contracts between

80 percent and 95 percent of the cases were involved in low balling.

So what the committee has done on the basis of that data, is to provide committee report language to increase competition by opening up more work on an coastwide basis and a ban on the interport differential which the Navy has applied to repair contracts in the past so that shipyards can compete for Navy work based on the cost of the work that they do within those yards. Costs such as the fuel that it takes to get a ship to a non-home-port yard, should not disadvantage that yard because the Navy has made a strategic decision to base that ship elsewhere.

Why not? Because in the case of home-port yards, which the gentleman from California represents, many costs are not scored against his yards' bids. What costs am I referring to? In many home port yards bidders there use the dry dock facilities of the Navy at a minimal cost not scored against those contracts that his shipyards bid on. Whereas in private non-home-port yards, such as in Portland, OR, they get assessed costs home-port yards are allowed to escape.

So if you want to look at costs, you can look at a lot of subsidies that are already at work in the case of home-port yards which are not factored into their bids and represent an advantage on the part of those home-port yards over private yards such as those I represent which have to pick up all of those and factor them into their bids.

So we have, in this committee, simply said that the interport differential should not count against a yard and reduce competition. If the yards in San Diego want to compete, they should compete fairly.

If you want competition, eliminating the interport differential is the way to do it, and the gentleman's amendment should be defeated.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. AuCOIN. I yield to the gentleman.

Mr. DICKS. I thank the gentleman.

Mr. Chairman, the gentleman from Oregon has provided tremendous leadership on this issue. The Navy says it wants competition; I think this is one way to insure it.

Second, we have got GAO reports that have clearly indicated that we are getting ripped off by this current policy. In my own view, it is time to get competition. I would point out to my friends that there is another way to deal with this issue. Secretary Lehman, I think, is on the right approach, and that is to disperse the fleet. If you are going to resist competition, and apples and apples-type competition, let us disperse the fleet.

The CHAIRMAN pro tempore. The time of the gentleman from Oregon [Mr. AuCoin] has expired.

(By unanimous consent, Mr. AuCoin was allowed to proceed for 2 additional minutes.)

Mr. AuCOIN. Mr. Chairman, I continue to yield to the gentleman from Washington [Mr. Dicks].

Mr. DICKS. I think that the gentleman from Oregon is correct. We need more competition in this whole procurement process, in SRA's and PMA's and we will save hundreds of millions of dollars. I am surprised that some of the people who want to take this out are also the great advocates of the new Gramm-Rudman approach of cutting the budget and balancing the budget, and constitutional amendments to balance the budget. What we are talking about here is trying to save the taxpayers some money through real competition.

Mr. AuCOIN. I appreciate the gentleman's remarks, and I would have to tell the gentleman that I think he knows, and I would hope that my colleagues understand, that all the committee is doing is extending existing Navy policy and current law already adopted that eliminated the procedure of applying the interport differential to shipyards that are non-home-port shipyards as a cost that they would have to figure in in making a competitive bid. It is law today.

We are extending existing policy here. The gentleman from California would reverse that.

Mr. DICKS. The gentleman is absolutely correct.

Mr. AuCOIN. I would have to just conclude, Mr. Chairman, by saying that if you want to look at what happens when you do not have competition, look at the number of bids we get when you do not have coastwide competition. On the west coast, the typical contract, when bid coastwide, brings in about 12 to 15 bids on the average. When you do not have coastwide competition, the average is closer to two or three bids per contract.

In that kind of a climate, as the GAO has shown us, you have a situation that is ripe for low-balling. The GAO has indicated that 80 to 95 percent of awarded contracts in the last couple years have been involved in low-balling with massive overruns. The GAO looked at 105 contracts that the Navy awarded. Total fixed price contracts were awarded at a cost of $594 million. What do you suppose the final cost to the taxpayer was? Not $594 million. It was $967 million. An increase of close to 70 percent! With that kind of cost growth, we could afford to put the ships' crews up in the Portland Hilton for the duration of the overhaul when our private yards are awarded a contract, and still save taxpayers' money and do a top-quality job for the Navy. Imagine what that would do for crew morale!

The current situation is not acceptable; it is not a bargain for the taxpayer. It needs to be broken up. Existing policy repeated here in our bill eliminating the interport differential makes a good start.

Mr. HUNTER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I think we are missing the point here. If you are talking about competition and you really want competition, you have to evaluate all the costs. What we are saying is that if a ship comes into San Francisco or San Diego or Long Beach, and most of the people on that ship have a family in that particular community, and you have a coastwide bid and you send that ship 2,000 miles away to be repaired, that the cost of moving all those Navy families is there; it is a real cost. You have to consider it. You have to consider the steaming time and the time off station. You have to consider the cost of the move. The Navy family being moved 2,000 miles is usually on the order of $5,000 per family; it is not inconsequential.

We cannot develop a fiction whereby we say we are going to get the bottom price for the taxpayers, but in order to accommodate some shipyards, we are not going to evaluate all the costs and we are not going to include all the costs.

□ 1345

I agree with my friend, the gentleman from Oregon [Mr. AuCoin] that we should consider all costs whenever we are talking about contracting from the U.S. Navy, whether you are building aircraft or repairing ships or whatever. But clearly, moving the ships 2,000 miles and moving those families and their possessions several thousand miles is a cost.

Let me make one other point, since the chairman of the Subcommittee on Sea Power, the gentleman from Florida [Mr. Bennett] is here on the floor with us today. In the Committee on Armed Services, where defense policy is made, we, of course, have the opportunity to put in language that would negate what the Defense Appropriations Subcommittee has done, but, of course, we cannot anticipate what they are going to say. It puts us in a very difficult position when it is not our policy—and we are the makers of policy for the armed services—to see the Defense Appropriations Subcommittee follow on and lay out a policy that is different from the policy we would embrace. That is why I think it is important for the subcommittee chairman, the gentleman from Florida [Mr. Bennett]—and the gentleman from Virginia [Mr. Sisisky], I know, spoke up—and for the gentleman from San Diego, CA [Mr. Bates], and some other Members to stand up today and say that this is not the policy of the House of Representatives.

51-059 O-87-37 (Pt. 21)

I think it is important that the Navy know that the language laid out in that report saying that you will do certain things with regard to the competition of overhauls is not the policy of the House of Representatives, it is not the policy of the Sea Power Subcommittee, or the full Committee on Armed Services. It is the policy only of a few Members who put that language in the defense report.

And I think we have to keep our eye on the ball with regard to this competition. We are talking about Navy families and we are talking about people who will come off a move out perhaps to the Indian Ocean, a tour of duty that may have been 5 or 6 or 7 months long. The average seaman gets home, he meets his wife and his family as he gets off the *Kitty Hawk* or the *Constellation* or the *Ranger* or another ship, and he hopes to be able to spend a couple of weeks with them. What the gentlemen from Washington and Oregon are really telling them is, "If you have a 3-week repair job that comes up and you live in San Diego or you live in Norfolk or another place, and you have just come home and you haven't seen your wife and family for half a year," we are going to take that Navy family like a wishbone, make a wish that we win the contract, and pull it apart, and send that guy who has been at sea for 6 months another 2,000 miles away, where he is going to have to find other quarters; he is going to have to pull the wife out of her job, get the kinds out of school or else leave them if he wants to see them at all.

So we are talking about a policy that impacts people, and I can tell you the compelling interest is the interest of the personnel who make up our armed services. We are not going to be able to stop the erosion—and we have a second erosion beginning from the Navy at this point—we are not going to be able to stop the erosion of qualified personnel if we do not treat them a little bit better.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I am happy to yield to my friend, the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I would suggest to the gentleman that there are two ways to deal with that. One is to disperse the fleet into other areas; that would be one possible solution. But I would ask the gentleman also, as a member of the Sea Power Subcommittee and one of the most respected Members of this House on defense matters and someone for whom I have a great personal admiration, how are we going to get something done about getting a better price for the taxpayers?

The GAO reported very clearly that we have had these abuses. Somehow we have got to get a handle on this.

Mr. HUNTER. Mr. Chairman, reclaiming my time, let me tell the gentleman simply this: The U.S. Navy does not exist to make business for a Northwest shipyard, or a Southwest shipyard.

Mr. DICKS. But they also should not be taken advantage of by a San Diego shipyard.

Mr. HUNTER. But let me just tell the gentleman this. Navy families have to live somewhere, and if they live in the home port area, the gentleman would prescribe spreading the home ports out across the country.

The CHAIRMAN pro tempore. The time of the gentleman from California [Mr. HUNTER] has expired.

(By unanimous consent, Mr. HUNTER was allowed to proceed for 1 additional minute.)

Mr. HUNTER. Mr. Chairman, if the gentleman suggests taking this entire infrastructure of the U.S. Navy and rebuilding it somewhere else at a huge cost just to accommodate a shipyard, then I think he is missing the point.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I just want to make sure that we get competition and we get the best value for the taxpayer's dollar on the money we are spending in this area. That is what I am after.

Mr. HUNTER. Mr. Chairman, I thank the gentleman for his concern.

Mr. LOWERY of California. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from San Diego, CA.

Mr. LOWERY of California. Mr. Chairman, I want to put a question to my colleagues, the gentleman from New York and the gentleman from Oregon: How is not factoring all the costs, the total costs, anticompetitive? I would ask the gentleman from Washington or the gentleman from Oregon, how is not factoring all costs anticompetitive? I fail to see that.

The Navy now is competing on all but one overhaul this coming fiscal year.

Mr. AUCOIN. Mr. Chairman, will the gentleman yield to me?

Mr. HUNTER. I yield to the gentleman from Oregon [Mr. AUCOIN] for the purposes of answering a question.

Mr. AUCOIN. I did not hear the question, so if the gentleman would repeat the question, I would appreciate it.

The SPEAKER pro tempore. The time of the gentleman from California [Mr. HUNTER] has expired.

(By unanimous consent, Mr. HUNTER was allowed to proceed for 3 additional minutes.)

Mr. HUNTER. Mr. Chairman, I yield to the gentleman from California [Mr. LOWERY] to restate the question.

Mr. LOWERY of California. The question is: How is factoring all costs at a time when the Navy is competing overhauls coastwide now—in all but one instance will those overhauls be competed coastwide—how is not factoring in all costs, including the cost of relocating crews, in some cases families, mess for the crews, fuel costs, berthing, piloting, all of that—how is it anticompetitive not to factor those costs in?

Mr. AUCOIN. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Oregon for the purpose of answering the question.

Mr. AUCOIN. First, I should point out that the Navy may be competing overhauls coastwide, but you and I both know there are only five of these—only five—available on the west coast next year. Almost all repair work is now being done as SRA's and phased maintenance reserved for the home port. Second, the gentleman tries to make a point that we are excluding major costs, and that this is somehow a disadvantage to the home port area.

I would say to the gentleman that home port areas are advantaged today and not assessed for costs that the Navy picks up for them in such things as berthing fees, towing costs for the tugs that pull the ships into the port to get them berthed, and in some cases yards in the gentleman's district are using the Navy's drydocking facilities at either a bargain-basement price or at no cost at all.

Those are costs that are excluded from homeport bids now. The gentleman does not say that they ought to be factored in to get the real picture on total costs. Why not? Because as a home port area, the gentleman is advantaged by not counting these costs.

We are saying that what we need to do is to have these costs separated from the price of the work product that can be provided in home-port yards and in the yards that are in non-home-ported areas.

Mr. HUNTER. Mr. Chairman, let me yield first to my colleague, the gentleman from San Diego, CA, Mr. LOWERY, for a response, and then I will also yield to the other gentleman from San Diego, CA, Mr. BATES.

Mr. LOWERY of California. Mr. Chairman, we are already paying for those costs. When the ship is home-ported and berthed there, that cost is already factored in, and to suggest that somehow we are going to double-pay it and not count it and to suggest that somehow that supplies competition or promotes competition and that somehow promotes a lower cost to the taxpayers is absurd.

The CHAIRMAN pro tempore. The time of the gentleman from California [Mr. HUNTER] has again expired.

(By unanimous consent, Mr. HUNTER was allowed to preceed for 2 additional minutes.)

Mr. WYDEN. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Oregon.

Mr. WYDEN. Mr. Chairman, I rise in opposition to the amendment to delete section 8084 of H.R. 3629.

I'd first like to comment on some of the concerns I've just heard about how Navy crews and their families are inconvenienced when repair work is done at nonhome port shipyards. That's simply not the case in Portland, OR.

Last spring, I organized the "Portland Welcomes the Navy and Coast Guard Committee" and prevailed on two distinguished community leaders —Multnomah County Commissioner Pauline Anderson and former Congressman Wendall Wyatt—to serve as cochairs. The idea was to show that the crews and families of Navy ships stationed in Portland would be given a red carpet welcome and that the community would walk the extra mile to ensure that their stay was as comfortable and enjoyable as possible. In another sense, the committee's mission was to disprove once and for all the sort of mythology we've just heard during the course of this debate—that awarding repair and overhaul contracts to Portland is tantamount to subjecting the ships' crews and families to unpleasant conditions. That's simply not true—and we've proved it once and for all.

The committee, through former Congressman Wyatt's and Commissioner Anderson's leadership, did a terrific job in a very short period of time—and the community at large responded magnificently.

Specifically, professional sports teams offered free tickets, major retailers provided major discounts on merchandise, and the local bus system gave out free passes to Navy families. In addition, the school district set up special orientation sessions, local landlords waived security deposits and move-out notice requirements on rental units, banks provided free or heavily discounted checking accounts and other services, a major S&L agreed to waive credit card fees and our world famous ski resort chipped in with special promotions and discounted admissions and fees. Finally, local restaurants came up with discount coupon packages and our area's major electric utility waived its usual hookup deposit. And these are only some of the highlights. All in all, more than 100 Portland business and community organizations have agreed to actively participate in our Welcome the Navy effort.

These impressive communitywide contributions culminated earlier this month at a gala "Welcome the Navy Fair" at our local Navy Reserve Center, attended by hundreds of crew members, and spouses and children, of the USS *Duluth* and USS *Cushing*. The overwhelming reaction of Navy personnel to our committee's efforts—from these crew members to top Navy brass—has been one of genuine appreciation of the warmth, friendship and generosity of the Portland community. To my knowledge, no other city and no other port in the Nation has put together a welcoming package that even comes close to matching what we did—and will continue to do—in Portland. It is my hope and expectation that in the years ahead, Navy crews and families will, rather than expecting any sort of hardship, will instead look forward with eager anticipation to a duty assignment in Portland.

Mr. Chairman, section 8084 would clarify the intent of Congress, in passing the supplemental appropriations bill this past summer, to abolish the use of "interport differentials" by the Navy in awarding ship repair, maintenance and overhaul contracts. The Navy has expressed uncertainty as to whether Congress intended this ban to be permanent—and this section of the Defense appropriations bill makes it clear that that's precisely what we intended.

Ship repair contractors at the nonhome-port ship repair yards, particularly on the west coast, have been hampered by the Navy's insistence that a predetermined interport differential—the added cost to the Navy to move a ship to such a port, supervise the repair job, provide for the ship's crew, et cetera—be added to repair bids submitted by such contractors. Section 8084 would simply end that practice and allow contractors at nonhome-port yards to compete on an equal footing with contractors situated in home-port areas.

There are compelling reasons for ratifying what we did this summer and clarifying for the Navy that we intended then and intend now to permanently abolish the use of interport differentials. The Navy has long held to the view—recently reaffirmed—that our national security requires that a geographically dispersed national shipyard mobilization, construction and repair base be maintained. This means that construction and repair work must not and cannot be limited to the major home-port areas of Charleston, Norfolk, and San Diego. There are obvious historical reasons—Pearl Harbor being the most dramatic—to avoid concentrating too large a portion of our fleet in too few areas.

Interport differentials are a necessary cost of maintaining this nationwide mobilization base—and that cost, like all costs related to our national security, should be met by the Nation at large. It does not make sense—and, in fact, is counterproductive to this policy—to require private contractors in nonhome-port shipyards to bear, or attempt to bear, such costs. In many cases—particularly if SRA's and other smaller contracts are now to be bid, as the committee report makes clear, on a coastwide basis—this large additional fixed cost cannot be borne by the prospective contractor and effectively removes these firms and these yards from the competition. If, on the other hand, a level playing field is provided, competition for all repair and maintenance work will be greatly enhanced and the overall cost to the taxpayers will ultimately decrease.

The results of failing to provide a level playing field where all qualified ship repair contractors can compete on an equal footing, at least in the Pacific Northwest where very few vessels are homeported, are obvious. Last year, despite the Navy's policy to route at least 30 percent of its ship repair work to private yards—again, in order to maintain our private shipyard mobilization base—only 2 percent of the ship repair dollars expended in the Northwest went to private yards. The comparable figure in southern California in 1984 last year was 57 percent.

Non-home-port yards simply cannot compete if this unfair interport differential penalty is applied—and if they can't compete, they wont' be around to fulfill their vital role in maintaining our Nation's security. It's just about that simple. We need to keep section 8084.

Mr. HUNTER. Mr. Chairman, let me thank the gentleman from Oregon [Mr. WYDEN], and I now yield to my friend, the gentleman from San Diego, CA, Mr. BATES.

Mr. BATES. Mr. Chairman, I rise to speak in support of the amendment, and I commend my colleague, the gentleman from San Diego, CA, for addressing this problem and pointing out that it does not make sense, particularly as a Congressman from the San Diego area.

There is no question that this work is important to San Diego. There is no question that we need a competitive system, though, and there is no question that there is an advantage because of the large naval facilities, the piers, the boats, and other things. But that should enable them to make a lower bid to benefit the taxpayer ultimately, and it is not our intent to eliminate all competition or eliminate this work being done in other ports.

But I think the reverse should not be true, and it seems to me that that is what the language prior to the adoption of this amendment would do. I understand that earlier we did discuss other provisions in the report language.

The CHAIRMAN pro tempore. The time of the gentleman from California [Mr. HUNTER] has again expired.

(By unanimous consent, Mr. HUNTER was allowed to proceed for 2 additional minutes.)

Mr. BATES. Mr. Chairman, I would just like to conclude by asking that we try to work this out so we do keep a competitive environment but not that we preclude the ability of the transportation costs being included in an overall objective decision that would ultimately benefit the taxpayers.

Mr. Chairman, the amendment offered by my colleague from San Diego would strike a provision in the bill before us that simply does not make sense. It does not make economic sense. It does not make sense for the desired goal of retention of our military personnel and it does not make sense if we wish to retain our ship repair industry.

The provision would bar the Navy from taking into consideration the cost of transportation of vessels to different ports when awarding bids for ship overhauls, maintenance, or repair.

We are telling the Navy that certain costs are not really costs. It is a "smoke and mirrors" effort to make certain ports more competitive, and it is wrong and economically unsound. It we are to evaluate bids based on their cost, then we must truly look at those costs—all of the costs. The cost of transporting personnel, families, and fuel for the ship are substantial, and these costs must be included in any cost comparison for Navy repair work. To disallow these costs to be factored in is inherently anticompetitive, and I urge my colleagues to join me in supporting this amendment.

Mr. Chairman, I am also concerned by the implications of two provisions in the report accompanying this bill. The first provision would open up for bid selected restricted availabilities on a coast-wide basis. These SRA's are small repairs of $3 to $5 million and usually take between 8 and 10 weeks to complete.

To open these repairs coast-wide—rather than reserving them for facilities at the home port—serves to deny these sailors the ability to spend time with their family and denies the Navy the opportunity to make certain organizational improvements at the home port.

This change in policy will have a devastating effect on morale and would add considerably to the difficulties of maintaining a normal family life.

Mr. Chairman, the second provision of concern contained in the committee report deals with certification of private yards.

This provision represents a major change in policy. This provision contradicts the stated desire of the U.S. Navy, and this provision undermines an industry essential to our national security.

The conference report accompanying the fiscal year 1985 Appropriations Act called for the decertification of private shipyards without access to non-Navy piers and drydocks from receiving Navy ship repair, alteration and overhaul work. This action was taken based on an assumption that these shipyards were disruptive to Navy operations.

However, during subsequent hearings, the Navy testified that not only are these activities not disruptive, they perform an important function, especially for repairs to Navy ships below MSO size.

Yet despite this expressed desire of the Navy, the Appropriations Committee has again acted to bar these ship repairs firms from Navy repair work. The committee report accompanying this bill—while recommending that the Navy be allowed to continue certifying facilities with no or inadequate piers or drydocks—contradicts this same policy by further stating that such certification cannot occur for ship maintenance and repair projects "unless no such facilities are available in other private yards."

Essentially the committee is telling these ship repair facilities: yes, you can continue to operate, but we'll make it as difficult as we can for you. This is hardly equitable.

Mr. Chairman, I would like to point out that the majority of ship repair facilities that will be affected by this provision are small businesses. In fact, it was the Navy Small Business Advocate who alerted facilities in my district to the implications of this provision. I fail to understand why, on the one hand we continually act to promote small business competition, and then counteract those efforts in this report.

Mr. Chairman, in registering my opposition to these provisions, it is my hope that the legislative history on this matter will show that this action was not unanimously approved by the Congress. I hope that this action will be reversed by the other body and that the authorizing committee will look into the implications of these policy changes.

1355

Mr. HUNTER. Mr. Chairman, I yield my remaining time to my chairman, the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, I want to talk strongly in favor of the amendment of the gentleman from California [Mr. LOWERY].

The Navy has written me a strong letter on this.

Mr. Chairman, I will insert the letter in the RECORD at this point, as follows:

DEPARTMENT OF THE NAVY,
OFFICE OF THE SECRETARY,
Washington, DC, October 29, 1985.

Hon. CHARLES E. BENNETT,
Chairman, Subcommittee on Seapower and Strategic and Critical Materials, Committee on Armed Services, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN. In response to your query, the issue of Selected Restricted Availabilities (SRA) now before the House is of great importance to the crews of our ships. The House Appropriations Committee report directs the Navy to compete all Selected Restricted Availabilities (SRAs) coastwide. During the last year, we have changed policy and extended the bid area coastwide for all Regular Overhauls (ROHs) to increase competition and reduce costs and in recognition of a maintenance philosophy shift to more short SRAs and fewer long term ROHs. In the case of ROHs we are able to offer the crews the opportunity to relocate with the ship.

For the shorter SRAs, usually about 3 to 4 months, we have competed in the home port. This has assured an adequate repair base in our home-port areas but more importantly it has kept the crews home with their families.

Our crews are already required to be deployed away from their families more than we desire. They make this sacrifice because of the importance of the task. Increasing their time away from home, in many cases just before or after completion of an overseas deployment, will have a very serious adverse impact on their morale and the quality of family life.

Readiness will also be impacted. During these short SRAs, the nonengineers in the crew make extensive use of the shore training facilities to sharpen their warfare skills by day and return to the ships for duty at night. Bidding SRAs coastwide would deny many ships use of the shore training sites and result in degraded readiness. Work arounds to this situation would be costly and would again dramatically impact family life.

I sincerely appreciate your interest in this issue because of its great importance to our sailors and their families. Rescinding this language in the HAC Report would greatly help in preserving the already limited time our Navy families have together.

If I can be of further assistance on this issue please let me know.

Sincerely,

EVERETT PYATT,
Assistant Secretary of the Navy (Shipbuilding and Logistics).

Mr. BENNETT. Mr. Chairman, they point out that not only is it a morale thing with regard to personnel; but they also say, with regard to readiness, it is an important thing; and the cost as well, because this is an element of the cost.

About readiness, it says that readiness will also be impacted. During these short SRA's, the nonengineers in the crew make extensive use of the shore training facilities to sharpen their warfare skills and workarounds to this situation would be costly and dramatically impact family life.

If you leave the language in the bill as it is, it is going to cost the Government money. It is not going to save the Government money.

I want to say also that many of us in areas where there is home porting have had millions of dollars spent by our local people to get competition at the local area, at the request of the Navy. It would be bad faith if you enacted this legislation as now worded.

The CHAIRMAN pro tempore [Mr. DORGAN of North Dakota]. The time of the gentleman from California [Mr. HUNTER] has again expired.

(By unanimous consent, Mr. HUNTER was allowed to proceed for 2 additional minutes.)

Mr. SPENCE. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from South Carolina.

Mr. SPENCE. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, as it now stands, the appropriations bill and its accompanying report contain a major inconsistency in their directions to the Navy concerning ship maintenance and repair. On the one hand, they would direct the navy to compete coastwide all regular overhaul and selected restricted availability work, regardless of the duration of that work. Many of us have expressed our concern about the detrimental effects this language would have on Navy personnel and their families, as well as the total costs of doing this work.

But, on the other hand, section 8084 of the bill would prohibit the Navy from considering the true total costs to the taxpayer of performing this work and carrying out a real competition. Instead, the bill would require the Navy to ignore the costs of moving the ship and its crew out of its home port and the ongoing costs of transporting them during the repair availability for training and other purposes.

Mr. Chairman, this is not true competition. It is, instead, a double whammy for the taxpayer, the sailors and the ship repair facilities in Navy home ports.

I urge my colleagues to support the amendment and restore some fairness and consistency in ship repair policy as it's treated in this bill.

Mr. HUNTER. Mr. Chairman, I yield the remaining time to the gentleman from South Carolina [Mr. HARTNETT], the gentleman from Charleston.

Mr. HARTNETT. Mr. Chairman, I rise in strong support of the amendment. I commend my colleagues.

I think we have to do what is best for the Navy and keep costs down, keep Navy families together, to keep up the esprit de corps in the Navy and maintain good personnel.

I rise in strong support of the amendment and I commend my colleagues for its introduction.

Mr. LOWERY of California. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to my friend, the gentleman from California.

Mr. LOWERY of California. Mr. Chairman, just in closing, I would hope the House will support this. It will keep costs down. It is in the taxpayers' interest. Let us factor in all the costs. Let us have truth in contracting so that indeed we know what these costs are and we have as full competition as possible.

Mr. SISISKY. Mr. Chairman, I rise in support of the amendment to delete section 8084 from the fiscal year 1986 Defense appropriations bill. We're facing the constraints of limited financial resources in the Federal Government. We're facing a need to utilize limited resources in the best way possible. I submit that the best way possible does not include saying that certain very real cost factors shall not be included when competing overhaul, repair or maintenance contracts for Navy ships.

During earlier debate on this bill we heard Members say that we needed to have fair competition for ship repair and overhaul contracts in the interest of saving money. I agree. But what I can't understand is how anyone who supports fair competition in the interest of saving money would then turn around and try to stack the deck against their competitors. That's not fair, and it doesn't make sense if we really want to save money on Navy contracts.

It seems simple enough to me. If we want to save money, we've got to have fair competition. If we want to have fair competition, we've got to consider all the factors that could raise or lower the cost of ship repair. It doesn't make sense to say that we can consider this or that factor, but we can't consider some other factor. We shouldn't be able to arbitrarily pick and choose between the cost factors or to ignore the significant costs of and charges for interport differential.

I spoke earlier today about the undesirability of separating Navy families, and I don't want to repeat that here. But I do want to say that the same arguments apply to this situation and to the possibilities that the language in section 8084 could set in motion. I just believe that it represents both bad personnel policy and bad financial policy to create a situation, ostensibly to save money and promote competition, that will clearly cost more money and remove competitive factors from consideration.

I urge my colleagues to support this amendment that would delete the language in section 8084 from the bill.

Mr. BOUCHER. Mr. Chairman, I rise in support of the amendment offered by the gentleman from California [Mr. LOWERY] to section 8084 of the Defense appropriations bill, H.R. 3629.

Present Navy policy concerning the evaluation of bids for ship maintenance and repair work appropriately calculates all interport differentials, including costs for steaming a vessel from its home port to another port for repairs, escort and berthing costs, and messing of ship based personnel in private shipyard bid calculations.

Section 8084 markedly changes current Navy policy by directing that interport differentials not be considered when evaluating bids for ship maintenance and repair work. This provision of the bill will distort the competitive bidding process and increase ship maintenance costs.

Given our ongoing commitment to eliminate waste and inefficiency in the defense budget, section 8084 undermines our efforts to put our fiscal house in order.

I urge our colleagues to support the Lowery amendment.

Thank you.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from California [Mr. LOWERY].

The amendment was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to title VIII?

AMENDMENT OFFERED BY MR. DYSON

Mr. DYSON. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DYSON: None of the funds appropriated by this Act may be used by the Department of the Navy for the purpose of conducting Electromagnetic Pulse Testing [EMP] in the Chesapeake Bay or its tributaries.

Mr. DYSON. Mr. Chairman, this amendment would prohibit the Department of the Navy from using any of the funds in this bill for the purpose of conducting electromagnetic pulse testing in the Chesapeake Bay. I hasten to add that the Electromagnetic Hardness Testing Programs in the Navy are essential to military preparedness. And I support the Navy's efforts in this important area of research. But I have very serious reservations about conducting such tests in the Chesapeake Bay. This body of water is one of the world's largest and most productive ecosystems. It is the most productive fishery in the Nation, exceeded only by the Atlantic and Pacific coast fisheries. The Chesapeake Bay provides spawning and nursery sites for several important species of anadromous fish, including white perch, stripped bass, and shad. In addition, several marine species including bluefish, weakfish, crooker, menhaden, and spot enter the bay to feed on its rich food supply. Migratory birds and water fowl find food and shelter in the numerous coves and marshes of the bay. Approximately one-half a million Canadian geese winter in the bay, which also provides a nesting area for the endangered bald eagle and osprey.

To protect this vital estuary, the Congress last year appropriated over $10 million to begin the process of cleaning up the Chesapeake Bay. The importance and the magnitude cf this task manifests itself in the cooperative efforts that Maryland, Virginia, and Pennsylvania have made toward achieving this goal. The State of Maryland itself has committed $70 million to this program and both Pennsylvania and Virginia have similarly committed substantial resources. And this year both the House and Senate have authorized $52 million in the Clean Water Act to set in place a 4-year commitment by the Federal Government to this critical effort. Moreover, the EPA, the Department of Agriculture, and the Department of Defense have also committed themselves to this restoration effort.

In light of this investment, Mr. Chairman, it seems wholly unwise for the Department of the Navy to invest good money in so important a project as Empress II in an area like the Chesapeake Bay. It's a classic case of

one hand not knowing what the other is doing. I believe we must take a much closer look at this project and recommend that the Navy find another location for conducting these tests.

Mr. CHAPPELL. Mr. Chairman, I move to strike the last word.

Mr. Chairman, let me respond to the gentleman. In the first place, I understand there are no funds in here for the specific concern that the gentleman has.

In the second place, the Navy would have to go through all the EPA requirements first before funds were spent.

In the third place, during this fiscal year there is no intention on the part of the Navy to undertake such an effort.

But if the Navy should, I will say to the gentleman that our committee would be delighted to work with the gentleman to try to deal with any of the concerns the gentleman has about this measure.

Mr. DYSON. Mr. Chairman, in light of that, I ask unanimous consent to have my amendment withdrawn.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The CHAIRMAN pro tempore. Are there further amendments not prohibited by clause 2(c) of rule XXI?

Mr. LEWIS of California. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in support of the bill.

Mr. Chairman, I would like to have a colloquy with my colleague, the gentleman from Pennsylvania [Mr. McDADE].

May I ask the gentleman from Pennsylvania [Mr. McDADE], I am referring to language in the report on the bill that specifically addresses itself to the Defense Audiovisual Agency and the disestablishment thereof.

In April of this year the Secretary of Defense announced the disestablishment of the Defense Audiovisual Agency and in connection with that action the committee chose to make a significant reduction in the moneys that flow for audiovisual activities.

The Department of Defense estimated a $500,000 saving. The committee envisioned perhaps as much as $10 million. That specifically dramatically affects programs that are responsibly carried forward within my district.

I would like to discuss it with the committee and hopefully provide material that may cause the committee to reconsider a piece of that, at least, between now and the conference.

Mr. McDADE. Mr. Chairman, will my colleague yield to me?

Mr. LEWIS of California. I am happy to yield to the gentleman.

Mr. McDADE. Mr. Chairman, I want to congratulate my colleague for bringing this to our attention.

It may very well be, as my colleague has pointed out, that we went too far. Let me say to my colleague that because of his interest we are delighted to receive additional information and additional documentation to see if perhaps we ought to reverse this decision or modify it in some way that would accommodate the gentleman's interest. We will be happy to do that, may I say to my friend.

Mr. LEWIS of California. Mr. Chairman, I appreciate that.

Mr. BROWN of California. Mr. Chairman, will the gentleman yield to me?

Mr. LEWIS of California. I am very happy to yield to the gentleman from California [Mr. BROWN].

Mr. BROWN of California. Perhaps the distinguished chairman can respond to both our concerns.

Mr. Chairman, I am very pleased that my colleague, the gentleman from California, has brought this matter up. The activity in question, the Defense Audiovisual Agency at Norton Air Force Base is one that we have kind of interchanged over the years. We are both very familiar with it and aware of the important role that it plays.

I want to concur completely with the statement which my colleague has made and offer to support in any way I can the careful reconsideration by the committee of the possibility of restoring some of this $10 million which was cut out.

Mr. Chairman, I rise to voice my objections to a cut made to the Department of Defense audiovisual functions formerly performed by the Defense Audiovisual Agency [DAVA]. DAVA was formed from the individual audiovisual components of the various services in order to seek efficiencies from a consolidated operation. The Department of Defense decided this year to dissolve DAVA and to return many of these audiovisual functions back to the Services and to the American Forces Information Service [AFIS]. The Department of Defense identified $500,000 in savings from this move.

However, the committee has decided, rather arbitrarily, I might add, to cut $10 million from this function. This move was made without prior consulation with the Air Force which must bear the greatest burden of this cut. The committee assumes that the Air Force can absorb this cut and still maintain current service levels, an assumption which the Air Force says is incorrect. The committee also has abrogated an understanding made by the Department of Defense to current employees that they would be transferred to the various services along with sufficient funding to keep any disruption to a minimum. A cut of nearly 50 percent is not a minimum disruption.

For my colleagues who are not aware of what these audiovisual functions entail, let me take a moment to explain. DAVA was a comprehensive audiovisual production, duplication, distribution, and storage operation. It also maintained extensive Department of Defense film archives, valued at hundreds of millions of dollars. Everything from training films to combat audiovisual materials where handled by DAVA. In addition, DAVA maintained a data base to control production and storage and avoid duplication.

Under the DAVA disestablishment, these functions will return to the uniformed services or to AFIS. The central control functions, the archive functions, and the production and distribution functions which affect all of the services will be retained at the old DAVA facility at Norton Air Force Base and will fall to the Air Force to maintain. These are the functions which will be affected by the $10 million cut.

This cut endangers many millions of dollars' worth of archived audiovisual material. It also means that millions of dollars of films already produced may not be able to be duplicated and distributed in a timely manner, if at all. The central control function, which helps eliminate duplication of efforts, will be threatened. Also, existing contracts would be terminated, costing an estimated $3 million. And all of this is being done without a plan or prior consultation with the services affected.

I recognize the need to cut Federal spending, but only with a rational plan in place. I will not at this point offer an amendment to restore this funding pending such a plan of action, but will work on the other body to correct this situation. It is my hope that we can reverse this ill-conceived action.

Mr. LEWIS of California. Mr. Chairman, this is relatively at the last moment in terms of the item coming to our attention. We do appreciate the gentleman's cooperation and look forward to working with him between now and the conference.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. LEWIS of California. I yield to the distinguished gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, we recognize the problem and we will be delighted to consult with the gentleman, consider such information as the gentleman has, supplementing what we already have, and see if we can be of assistance on the matter.

Mr. LEWIS of California. Mr. Chairman, I thank the gentleman.

Mr. Chairman, I rise today to express my concern with the way in which the Appropriations Committee

has chosen to drastically reduce requested funding for the audiovisual requirements of the Department of Defense.

At the beginning of this fiscal year, the Department of Defense has moved to disestablish the Defense Audiovisual Agency [DAVA] located at Norton Air Force Base in California. By so doing, the Department sought to realize improvements in both efficiency and economy. Yet these improvements were predicated on the transfer of DAVA funds and personnel to the respective military services. Additionally, the Air Force was further tasked to assume those DAVA functions which could not be reasonably transferred to the various services.

The Appropriations Committee, however, has taken action which seriously jeopardizes the services and DOD's ability to carry on the important, combat-related responsibility of the production, dissemination, and storage of military training films and photographic records.

By reducing the budget for audiovisual requirements by almost 50 percent, the Department of Defense will not only fail to realize the improvements it sought when it disestablished DAVA, but it will now be required to accept serious disruptions in both production and personnel.

In the committee report which accompanies H.R. 3629, the committee asserts that a number of the functions of the Defense Audiovisual Agency were already being duplicated by the separate services. Accordingly, the committee maintains, reducing the funds for audiovisual production from $21.9 million to $11.9 million will have no negative effect on either the production of audiovisual products or the personnel assigned to the Agency. This is simply not the case.

There are three primary services performed by DAVA which are not duplicated by the services presently and which will have to be performed at additional expense by the Air Force at Norton Air Force Base.

The production of category 3 films and training aids—those products which are used by all the services and within the Department of Defense—were produced exclusively by DAVA. This must now be assumed by the Air Force at Norton.

The safe storage of these important and often very expensive training films, combat photographic records, and training aids requires a specially controlled environment. None of the individual services presently have such a storage facility.

DAVA was charged with the responsibility disseminating audiovisual products Department wide. Military readiness will be directly impacted due to the inability of the training media centers to distribute the materials in stock. Nonuse of the available training materials, representing a multimillion-dollar investment, due to an inability to distribute them is false economy. The individual services have no such capability for coordinated distribution throughout the Department of Defense.

Finally, the sophisticated computer system required to manage the Department's vast supply of audiovisual assets was maintained exclusively by DAVA. This invaluable resource which prevents the wasteful duplication of films and training aids will be lost as a result of the committee's action. No replacement exists within the individual services.

Under the original Department of Defense plan for the disestablishment of DAVA, the Air Force was to assume these important functions at Norton Air Force Base, thereby ensuring the continued accessibility of all services to these vital audiovisual assets. With the committee reduction in funds going for audiovisual support, the Air Force will be unable to provide these former DAVA services.

Of great concern is the number of Air Force and private sector employees who will be negatively affected by the Appropriations Committee's decision to cut funding by 50 percent. Some 125 Air Force and former DAVA employees will be immediately affected by the committee action. Some will lose their jobs while others will be required to accept reductions or relocate to other installations.

Private contracts totaling some $13 million negotiated by DAVA must now be canceled. These cancellations will cost the U.S. taxpayer over $3 million with nothing to show for it but a canceled check.

However, these contract terminations will affect over 320 employees and their families. Since the audiovisual requirements must ultimately be met, the committee will eventually spend at least $16 million in the future in order to save $10 million this fiscal year. This figure does not begin to represent the human cost borne by those displaced by the committee's hasty actions.

Finally, I would like to point out, Mr. Chairman, that the committee did not consult with either the Air Force or its affected echelons of command at Norton Air Force Base before making this dramatic cut. Had it done so, I'm confident that such a reduction would not have taken place. I urge that these funds be restored in conference so that the cost savings envisioned by the Department of Defense when DAVA was disestablished may be realized and so that the important work now tasked to the Air Force at Norton Air Force Base may continue uninterrupted.

Mr. CONTE. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I would like to get the attention of the chairman of the subcommittee and the ranking minority member.

When we were debating section 2, unfortunately I was hosting a luncheon with the head of the OMB.

I had an amendment at that time which I wanted to offer and, of course, now we have gone by it.

I have talked to the chairman of the subcommittee, the gentleman from Florida [Mr. CHAPPELL], and the ranking minority member and asked their indulgence.

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. CONTE. I am glad to yield to the gentleman from Florida.

Mr. CHAPPELL. Do I understand the gentleman wishes to revert back to the proper section or put it in under the general language?

Mr. CONTE. Yes; I intend to ask unanimous consent to offer an amendment which is at the desk on page 117, and which states: "On page 117, after line 2, insert the following new section:"

Mr. CHAPPELL. Mr. Chairman, this side is familiar with what the gentleman wishes to do, and while we think this is the wrong appropriation bill to put it on, we have no objection.

AMENDMENT OFFERED BY MR. CONTE

Mr. CONTE. Mr. Chairman, I ask unanimous consent to offer an amendment on page 117, after line 2.

The CHAIRMAN pro tempore. The Chair wishes to inform the gentleman from Massachusetts [Mr. CONTE] that his amendment is under title VIII, and the gentleman does not need unanimous consent to offer it.

The clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. CONTE: On page 117, after line 2, insert the following new section:

SEC. 8102. There is appropriated, for expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, an additional $100,000,000, which shall be transferred to U.S. Coast Guard Operating Expenses to be available only for operations and training relating to the Coast Guard's defense and military readiness missions.

Mr. CONTE (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. CONTE. Mr. Chairman, I rise in support of my amendment to add $100 million to the Navy's operations and maintenance account, to be available for the performance of the Coast Guard's military and defense readiness missions.

I regret that this amendment has surfaced so late in the process of this bill. Unfortunately, it has just been recently that the full dimensions of the Coast Guard's need for additional funding to support its defense readiness missions has become clear.

Members of this body have heard me come to this well many times and explain how the Congress has repeatedly assigned new responsibilities to the Coast Guard, without providing the resources needed to fully carry out those responsibilities. The Coast Guard performs many critical civilian missions, including search and rescue, the provision and maintenance of aids to navigation, fisheries enforcement, environmental enforcement and response, and of course, drug interdiction.

But what sometimes gets lost in the forest is the fact that the Coast Guard is a branch of the Armed Forces, although the only branch outside of the Department of Defense. In time of war, or upon the direction of the President, the Coast Guard operates as a service in the Navy. In order to be in a position to perform in this capacity, the Coast Guard must perform various training and operational missions, in cooperation with the Navy, to maintain its state of defense readiness. It is this function which my amendment would support.

Much of the Coast Guard's role in wartime is to support and augment the U.S. Navy. One illustration of this is the formation of the maritime defense zones, to provide for the coastal defense of the United States. This includes not only protecting the coast against foreign intrusion, but also ensuring that our naval forces are able to break out of our coastal areas and assume their duty stations. The Coast Guard assumes special responsibilities for port safety and security under the high temp of port operations necessary to support a major conflict.

A good example of the Coast Guard's role in support of the Navy involved the recent activities in Grenada. The primary role involved coastal patrols for surveillance and interdiction, aimed at preventing the seaborne infiltration of men and material into Grenada. The Coast Guard's presence also showed the United States commitment to the new Grenadian Government. In addition, the Coast Guard established and trained a Grenadian Coast Guard.

The Navy had requested the assignment of Coast Guard patrol boats for these purposes, because of the Coast Guard's unique expertise and capability of conducting operations close to shore in relatively shallow waters. The several million dollars in additional costs incurred by the Coast Guard through its support of the Grenada operation were taken out of other Coast Guard resources—in other words, out of hide.

The value of the Coast Guard in defense readiness is clear. But the cost is increasing, and the resources are under severe pressure. I received a letter from the Coast Guard, indicating that for fiscal year 1984, the most recent year with actual data, the Coast Guard spent $101.7 million for its defense readiness program.

The amendment I am offering, for $100 million, is consistent with this fiscal year 1984 actual level, and would be consistent with the "freeze" approach taken by the committee for the overall defense appropriations bill.

Mr. Chairman, these funds are critical to our national defense, and I urge the adoption of this amendment.

Mr. Chairman, I include the following letter from Capt. W.T. Leland:

DEPARTMENT OF TRANSPORTATION,
U.S. COAST GUARD,
Washington, DC, October 30, 1985.

Hon. SILVIO CONTE,
House of Representatives, Washington, DC.

DEAR MR. CONTE: In response to your request, this confirms information provided to your staff concerning the Coast Guard's Defense Readiness program. In FY 1984, based on actual data, costs associated with this program totalled $101,741,000.

Because of increased emphasis on this program, these actual costs significantly exceeded our original estimates of FY 1984 expenditures. We expect this increasing trend to continue. This will result from the improved defense readiness capabilities of our cutter fleet, particularly with the delivery of the new 270-foot class cutters and the significant upgrading of our existing 378-foot and 210-foot classes, respectively through the Fleet Renovation and Modernization (FRAM) and Mid-life Maintenance Availability (MMA) repair projects. Additionally, improved sensor systems will increase the capabilities of our HC-130 aircraft. Investments in Navy/DOD compatible communications equipment will modernize our command and control systems, which are intergral to coordinated operations with the other armed forces.

I think the pattern is clear. The current national emphasis on defense readiness is being reflected in the Coast Guard, too, although at a slower pace given the realities of our budget situations.

Sincerely,

W.T. LELAND,
Captain, U.S. Coast Guard, Chief, Congressional Affairs Staff (by direction of the Commandant).

Mr. CHAPPELL. Mr. Chairman, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from Florida.

Mr. CHAPPELL. Mr. Chairman, let me understand the situation. Are we going back to title II?

Mr. CONTE. No, we are putting it on page 117, after line 2.

Mr. CHAPPELL. Then, Mr. Chairman, let me say that we are familiar with the amendment on this side. We believe that this is not really the best place for the appropriation, but we do recognize the problems we have in trying to overcome drug addiction and to stem the flow of drugs which are addressed in this amendment. While it is a sizable amount involved, we think that it is the proper thing under the circumstances to do, and we accept the amendment.

Mr. McDADE. Mr. Chairman, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from Pennsylvania.

Mr. McDADE. Mr. Chairman, I thank my distinguished friend, the gentleman from Massachusetts, for yielding.

Let me say that my friend, the gentleman from Massachusetts, has explained the amendment to us and we are happy on this side of the aisle to accept it.

Mr. STUDDS. Mr. Chairman, I rise in strong support of the amendment.

As Members know, the other body voted last week to cut the Coast Guard's budget by $230 million. In the world of the Coast Guard that's a lot of money.

If these funds are not restored, the Coast Guard, as we have known it in recent years, will cease to exist. More than 6,000 out of a total military force of 38,700 will be eliminated. More than 40 cutters will be decommissioned; more than 40 aircraft will be grounded; 3 air stations will be closed, and operations will be reduced at 12 others; 15 shoreside search and rescue stations will be closed; Coast Guard recruiting will come to a virtual halt; and the delivery of new equipment will be delayed.

The action in the other body is an invitation to those who smuggle drugs by sea to increase their operations; for drug smugglers are not bound by the congressional budget resolution, nor are their funding levels subject to the approval of the other body.

The reductions faced by the Coast Guard would result in at least a temporary end to foreign fisheries law enforcement; an invitation to foreign fishermen to steal America's marine resources at little or no risk to themselves.

Above all, the proposed cuts will damage seriously the ability of the Coast Guard to save the lives of those imperiled at sea.

Several Members of the other body said during the debate on the proposed reductions in funding for the Coast Guard that there really was nothing to worry about. The reductions were so outrageous, they argued, that the House would never accept them. "Ignore us," they were saying to the American people, "for we do not mean what we say, nor can we defend what we are about to do."

But they did it, nevertheless. And there is little likelihood, if you take even a simple look at the arithmetic, that the conference committee on the transportation appropriations bill will be able to fully restore these funds.

The DOD appropriations bill is not the ideal mechanism by which to provide necessary appropriations for the Coast Guard. But the military readiness and defense responsibilities of the Coast Guard are real;

they are important; and they will not be performed unless the funds appropriated in this amendment are provided.

The vast majority of the funds in this bill are requested for the purpose of preparing the men and women of the Armed Forces in the Defense Department to participate effectively in the event of war or national emergency. But should such a war or national emergency arise, the Coast Guard, too, will be on the front lines, just as they have been in every war since the maritime battles with the Barbary Pirates almost 200 years ago.

The amendment proposed by the gentleman from Massachusetts will not remedy completely the potential disaster caused by the actions of the other body. But it will take us about halfway; it will make the work of the transportation appropriations conferees that much easier; and it will guarantee the ability of the Coast Guard to meet its military readiness and defense responsibilities in full.

It will also, and I believe just as importantly, send a message to the 5,500 civilians and 38,700 military personnel who make up the Coast Guard that the U.S. Congress has not utterly abandoned a rational set of priorities, and that the work these men and women do, and the risks they take, are still valued by those whose job it is to represent the views and interests of the American people.

Mr. LENT. Mr. Chairman, I commend the gentleman from Massachusetts; Mr. CONTE, for his amendment to add $100 million in support of the Military Readiness Program of the Coast Guard.

By law, under title 14, the Coast Guard must maintain a state of readiness to function as a specialized service in the Navy in time of war. The Merchant Marine and Fisheries Committee recently held a hearing on Coast Guard military readiness. In particular, we looked at the newly developed Atlantic and Pacific Maritime Defense Zone [MDZ] commands and the resources needed to carry out and integrate the Coast Guard into the defense establishment.

Under this MDZ concept, Coast Guard commanders report directly to the Navy fleet commanders for the Atlantic and the Pacific. Without this Coast Guard effort, there is virtually no planned naval defense of the ports and coastal areas of the United States. Through the MDZ command structure, such functions as port security, inshore undersea warfare, mine countermeasures, antiterrorism and countersabotage, naval control of shipping, antisubmarine warfare, shipping escort, and other similar functions are to be performed. Further, we discovered that the manning level in the Coast Guard Reserve is 50 percent of required strength while the rest of the military services are operating at nearly the 100-percent level.

We can no longer neglect this important area of our Nation's defense. This funding would provide for some of the equipment, manpower, planning, and exercising necessary at all levels within this defense structure.

Mr. Chairman, for these reasons I support this amendment and strongly urge its adoption by my colleagues.

Mr. CAMPBELL. Mr. Chairman, I would like to take this opportunity to express my concern over the language contained in the Department of Defense appropriations bill committee report.

The report directs the Department of the Navy to open for bid on a coastwide basis not only regular ship overhauls, but also all selected restricted availabilities intended for private shipyards. If this language is maintained, the Port of Charleston in my home State of South Carolina stands to lose a substantial amount of contracts. However, the loss of contracts is only one of my objections to the committee language. Also, I am concerned about the additional cost to the taxpayers who will have to pay as large naval vessels and contract personnel are required to travel up to 1,300 miles out of home port for a 1 or 2 month repair job. I am concerned with the effect on crew morale and retention rates, as officers and enlisted men come into port from long-term at-sea deployments and must then go to a different port for several months away from their families before going back to sea. And, lastly, I am concerned that the committee language would represent a sharp departure from all previous Navy policy, practices, and findings, with significant congressional factfinding and does nothing to improve levels of DOD competition, since private sector ship repair already is one of the most intensely competitive areas of Government procurement.

In closing, I feel the language included in the committee report complicates an already complicated ship repair planning process and I support action to reverse this ill-conceived policy.

Mr. DAVIS. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Massachusetts.

It is important to remind ourselves that the U.S. Coast Guard is, in fact, a military service. They have a very important mission to carry out in time of war. They actually become a part of our Navy and they have been an important asset to us in every war or conflict this Nation has had.

The readiness mission of the Coast Guard is one which I feel does not get the attention it needs. On October 23, the Subcommittee on Coast Guard and Navigation, of which I am ranking member, held a hearing to discuss the Coast Guard/Navy plans for cooperation in what is known as maritime defense zones. These zones have been set up to coordinate Coast Guard and Navy response to any threat to our Nation's ports and coastal areas.

During our discussion it became clear that the Coast Guard is not prepared for a full mobilization. We were told that the Coast Guard Reserve strength is only at 50 percent of need as outlined in the plans put together by the Coast Guard and Navy. Add that to regular personnel in the Coast Guard and we would still come up 20,000 people short of current planned needs for mobilization. We were told, too, that if a threat arose to our Nation's ports, the Coast Guard would have to make a judgment call on which ports were most crucial and just "let the rest go." I don't think that's a comforting thought; I don't think that's the way the Coast Guard wants it. But that is the way it is. This funding that we are trying to get for the Coast Guard for these reasons is extremely important. It will keep this state of affairs from deteriorating further.

The defense mission of the Coast Guard, as important as it is, is not the only subject we must address here today. We must tell our colleagues about the threat to the Coast Guard which we now face. The Coast Guard right now is facing a cut of $230 million from its operating budget. This action was taken in the Senate and will now have to be resolved by a conference committee. I am hopeful that we will be able to restore every penny of that money in conference with the Senate.

Further, we have found out that the Coast Guard already is preparing for these cuts by paring its operations. The Coast Guard Commandant has asked his troops to stop spending money in any way they can. We will see an end to drug interdiction routine patrols. Patrols will go out only on hard information about illicit activities. We will see a 50-percent cut in fisheries enforcement, we will see a postponement of maintenance. We will see shoreside instead of at-sea training. These are the things the Coast Guard is doing right now in anticipation of these cuts.

This is what just the threat of these cuts is doing to the Coast Guards' abilities to carry out its missions. There is no question that this situation is having a demoralizing effect on the men and women of the Coast Guard, 6,000 of which will be told to leave if these cuts are carried through conference.

It is of the utmost importance that we, under no circumstances, allow this to happen. I would like to urge all my colleagues now to vote for this amendment, and further, to be aware that your support for the Coast Guard is very important in the days to come.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Massachusetts [Mr. CONTE].

The amendment was agreed to.

The CHAIRMAN. Are there other amendments to the bill?

Mr. CHAPPELL. Mr. Chairman, I move that the Committee do now rise and report the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. MCCURDY] having assumed the chair, Mr. DORGAN of North Dakota, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee,

having had under consideration the bill (H.R. 3629) making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes, had directed him to report the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The SPEAKER pro tempore, Without objection, the previous question is ordered.

There was no objection.

The SPEAKER pro tempore. Is a separate vote demanded on any amendment?

Mr. CHAPPELL. Mr. Speaker, I demand a separate vote on the so-called Frank amendment.

The SPEAKER pro tempore. Is a separate vote demanded on any other amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The Clerk will report the amendment on which a separate vote has been demanded.

The Clerk read as follows:

Amendment: On page 36, line 6, strike out "$8,043,527,000" and insert in lieu thereof "$6,297,527,000".

The SPEAKER pro tempore. The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. FRANK. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 210, nays 214, not voting 10, as follows:

NOT VOTING—10

Addabbo	Conte	Nelson
Akaka	Gray (IL)	Parris
Bonker	Marlenee	
Collins	McCain	

□ 1420

The Clerk announced the following pair:

On this vote:

Mr. Collins for, with Mr. Nelson of Florida against.

Mr. JONES of North Carolina and Mr. SCHUMER changed their votes from "nay" to "yea."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. RUDD

Mr. RUDD. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. RUDD. I am, Mr. Speaker, opposed to the bill in its present form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. RUDD moves to recommit the bill, H.R. 3629, to the Committee on Appropriations.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRANK. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 359, nays 67, not voting 8, as follows:

[Roll No. 379]

NOT VOTING—8

Addabbo	Marlenee	Parris
Collins	McCain	Roberts
Gray (IL)	Nelson	

□ 1445

The Clerk announced the following pair:

On this vote:

Mr. Nelson of Florida for, with Mrs. Collins against.

So the bill was passed.

The result of the vote was anounced as above recorded.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3244, DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATION ACT, 1986

Mr. LEHMAN of Florida. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3244) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1986, and for other purposes, with Senate amendments thereto, disagree to the Senate amendments, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. SCHAEFER. Mr. Speaker, reserving the right to object, I ask the gentleman from Florida, has this been cleared through the gentleman from Pennsylvania?

Mr. LEHMAN of Florida. Mr. Speaker, will the gentleman yield.

Mr. SCHAEFER. I yield to the gentleman from Florida.

Mr. LEHMAN of Florida. Yes, Mr. Speaker. I just received word from the gentleman from Pennsylvania [Mr. COUGHLIN], that he has no problem.

Mr. SCHAEFER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida? The Chair hears none and, without objection, appoints the following conferees: Messrs. LEHMAN of Florida, SABO, GRAY of Pennsylvania, CARR, DURBIN, MRAZEK, WHITTEN, COUGHLIN, CONTE, PURSELL, and WOLF.

There was no objection.

NATIONAL DRUG ABUSE EDUCATION WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 126) to designate the week of November 3, 1985, through November 9, 1985, as "National Drug Abuse Education Week," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation I yield to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I rise in strong support of House Joint Resolution 126, designating the week of November 3, 1985, as "National Drug Abuse Education and Prevention Week." I thank the gentleman from Florida [Mr. BENNETT] for once again introducing this measure, and for his tireless, dedicated efforts in our Nation's continuing war against drug trafficking and drug abuse.

As ranking minority member of the Select Committee on Narcotics Abuse and Control I have witnessed firsthand the ravages of drug abuse. It has been my sad privilege to cochair hear-

ings throughout the country, with the distinguished chairman of the Select Committee on Narcotics Abuse and Control, the gentleman from New York [Mr. RANGEL]. We have taken testimony from drug smugglers and pushers, business professionals, and homemakers, film, television, and recording artists. All had been driven to near ruin by their involvement with illegal drugs. While the characters and places change, all of their stories were remarkably the same; drug abuse knows no social, economic, gender, or racial boundaries. There is something extremely valuable to be learned from these stories—stories that can and should be shared during National Drug Abuse Education and Prevention Week.

Of all of the reports that we hear relating to narcotics abuse, none are more poignant than those involving our young persons. Daily our children fall victim to the drug menace. In that regard I was pleased to introduce along with Chairman RANGEL, legislation addressing our States' growing need for support of their drug education and prevention efforts. H.R. 526, the State and Local Narcotics Control Assistance Act of 1985 authorizes the Attorney General to make grants to the States for the purpose of increasing the level of State and local enforcement of State laws relating to the production, illegal possession, and transfer of controlled substances. Our legislation also authorizes the Secretary of Health and Human Services to make grants to the States for the purposes of increasing the ability of the States to provide drug abuse prevention, treatment, and rehabilitation. We must identify and address the very real drug problem in this Nation if we are to free our communities, our schools, and our workplaces, from the ravages of drug abuse.

The adoption of this resolution will allow educators, employers, parents, community leaders, and law enforcement authorities to focus their efforts on educating, and thus preventing, drug abuse. Accordingly, I urge my colleagues to help in these efforts by supporting House Joint Resolution 128, designating the week of November 3, 1985, as National Drug Abuse Education and Prevention Week.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the joint resolution as follows:

H.J. RES. 126

Whereas, the illegal drug trade consists of approximately $79,000,000,000 in retail business per year;

Whereas, removing the damand for drugs would reduce the illegal drug trade;

Whereas, drug abuse destroys the future of many of the young people and adults in the Nation;

Whereas, the eradication of drug abuse requires a united mobilization of national resources, including law enforcement and educational efforts; and

Whereas, the most effective deterrent to drug abuse is education of parents and children in the home, classroom and community: Now, therefore, be

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of November 3, 1985, through November 9, 1985, is designated as "National Drug Abuse Education Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to participate in drug abuse education and prevention programs in their communities and encouraging parents and children to investigate and discuss drug abuse problems and possible solutions.

Mr. BENNETT. Mr. Speaker, I have a deep interest in the predicament this nation faces in regard to drug abuse. Use of illegal drugs saps our country and strikes at the very root of our culture. This is why this commemorative week is so important—because it reminds us of what we face and the peril involved if we do not act. This commemorative week is especially important because in our heightened awareness of the terrible drug abuse problem it helps to address attention to possible solutions. The war against drugs is one of the most fundamentally important struggles we face as a people. Eradication of drug abuse requires a united mobilization of national resources, including law enforcement and educational efforts. As a nation we must work to educate people—family, friends, ourselves—about this terrible evil. Together—and only together—can we beat drug abuse in our society.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL DIABETES MONTH

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 145) designating November 1985 as "National Diabetes Month" and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 145

Whereas diabetes with its complications kills more than any other disease except cancer and cardiovascular diseases;

Whereas diabetes afflicts twelve million Americans and over five million of these Americans are not aware of their illness;

Whereas more than $14,000,000,000 annually are used for health care costs, disability payments, and premature mortality costs due to diabetes;

Whereas up to 85 per centum of all cases of noninsulin dependent diabetes may be preventable through greater public understanding, awareness, and education;

Whereas diabetes is particularly prevalent among black Americans, Hispanic Americans, Native Americans, and women; and

Whereas diabetes is a leading cause of blindness, kidney disease, heart disease, stroke, birth defects, and lower life expectancy, which complications may be reduced through greater patient and public understanding, awareness, and education: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the month of November 1985 is designated as "National Diabetes Month" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe that month with appropriate programs, ceremonies, and activities.

Mr. HOYER. Mr. Speaker, today the House passed House Joint Resolution 314 (S.J. Res. 145), a bill to designate November of this year as "National Diabetes Month." As you know, House Joint Resolution 314 has over 220 cosponsors, including Members of Congress from both sides of the aisle and from each region of our Nation.

Diabetes is one of the most serious health problems of our time. Twelve million Americans are affected by this disease, and a large percentage of these individuals are not aware of their condition. Each year an estimated 500,000 more Americans are told by their physicians that they have diabetes.

Diabetes with its complications kills more Americans than all other diseases. When is strikes children, diabetes can result in rapid fatality unless the life-saving hormone insulin is administered almost immediately. Everyone with diabetes faces long-term complications which may cause heart disease, stroke, kidney failure, blindness, severe nerve disorders and amputations. The human toll of diabetes cannot be estimated. But the economic toll is approximately $14 billion annually due to medical costs, lost work days, disability payments and premature death from this chronic disease and its complications.

House Joint Resolution 314, and its companion bill Senate Joint Resolution 145, were introduced to promote three major purposes. First, the designation of November as National Diabetes Month will serve to call the human and economic costs of diabetes to the attention of the American people, thereby promoting wider understanding of the challenges we face in seek-

ing to lessen the impact of the disease. Second, National Diabetes Month will provide a forum for seminars, speeches, workshops, and other activities designed to help educate the public with regard to methods of diagnosing, treating and coping with diabetes. Finally, the resolution seeks to highlight the need for continued funding of biomedical research into the causes, treatments, and potential cures of diabetes. It is my hope that passage of the House joint resolution (S.J. Res. 145) will accomplish each of these goals.

The Senate joint resolution was ordered to be read a third time; was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL REYE'S SYNDROME WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 29) to designate the week of November 11, 1985, through November 17, 1985, as "National Reye's Syndrome Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, further reserving the right to object, I would like to compliment the distinguished gentleman from Ohio [Mr. LATTA] for championing this bill through the House.

Reye's syndrome is one of the Nation's leading killers of children, and his efforts to enlighten all Americans about the devastating effects of this disease are worthy of our praise.

Mr. Speaker, under my reservation, I yield to the gentleman from Ohio [Mr. LATTA] who is the chief sponsor of House Joint Resolution 122.

Mr. LATTA. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, I rise today in support of Senate Joint Resolution 29. As the chief sponsor of the House bill, I was able to secure over 225 of my colleagues to cosponsor the bill.

Reye's syndrome is a disease of unknown cause which normally attacks healthy children 18 years of age and under, both male and female, which can kill or cripple more than half of its victims within several days by attacking the muscles, liver, brain, and kidneys, and which affects every organ in the body.

Reye's is recognized by the Food and Drug Administraton to be 1 of the top 10 killers among all children's diseases.

Reye's syndrome was first recognized as a specific illness in 1963 but is not a new illness since children have been affected by it for decades during which it was improperly diagnosed.

National Reye's syndrome volunteer organizatons are established throughout the United States and are supported by thousands of parents. These volunteer organizations exist to encourage involvement of the Federal Government in supporting Reye's syndrome research; to encourage coordination of the treatment and research centers; to establish Reye's syndrome as a reportable disease in every State; and to establish at the Center for Disease Control a position for the review of data on Reye's syndrome patients.

It is important to educate the public to the problems of the disease and, therefore, important to set aside a week to recognize this devastating children's disease. I urge that the bill be approved.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution as follows:

S.J. RES. 29

Whereas Reye's syndrome is a disease of unknown cause that usually attacks healthy children nineteen years of age and under, and kills or cripples more than half of the victims within several days;

Whereas Reye's syndrome is one of the top ten killers among all diseases of children aged one to ten;

Whereas Reye's syndrome was a misdiagnosed illness of children until recognized as a specific illness in 1963;

Whereas the current reporting of cases of Reye's syndrome may not provide an accurate appraisal of the incidence of the disease because not all States are required to report such cases to the Centers for Disease Control;

Whereas national Reye's syndrome volunteer organizations are established throughout the United States and are supported by thousands of parents;

Whereas such volunteer organizations exist to encourage involvement of the Federal Government in supporting Reye's syndrome research, to encourage coordination of the treatment and research efforts by the various Reye's syndrome treatment and research centers, to establish Reye's syndrome as a reportable disease in every State, to establish a position for the review of data on Reye's syndrome patients at the Centers for Disease Control, to sponsor programs to educate parents and medical professionals with respect to diagnosis and treatment of the illness, and to raise funds for research into the cause prevention and treatment of Reye's syndrome;

Whereas the public and the Federal Government are not sufficiently aware of the incidence of Reye's syndrome; and

Whereas the Governors of several States have declared Reye's syndrome weeks: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of November 11, 1985, through November 17, 1985, is designated "National Reye's Syndrome Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe that week with appropriate ceremonies and activities.

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. GARCIA: Strike out all after the resolving clause and insert in lieu thereof the following:

That the week of November 11 through November 17, 1985, is designated "National Reye's Syndrome Week". The President is authorized and requested to issue a proclamation calling upon the people of the United States to observe that week with appropriate ceremonies and activities.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from New York [Mr. GARCIA].

The amendment in the nature of a substitute was agreed to.

AMENDMENT TO THE PREAMBLE OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Speaker, I offer an amendment to the preamble.

The Clerk read as follows:

Amendment to the preamble offered by Mr. GARCIA: Amend the preamble to read as follows:

Whereas Reye's Syndrome is a disease of unknown cause which normally attacks healthy children eighteen years of age and under, both male and female, which can kill or cripple more than half of its victims within several days by attacking the muscles, liver, brain, and kidneys, and which affects every organ in the body;

Whereas Reye's Syndrome is recognized by the Food and Drug Administration to be one of the top ten killers among all children's diseases;

Whereas Reye's Syndrome was first recognized as a specific illness in 1963 but is not a new illness since children have been affected by it for decades during which it was improperly diagnosed;

Whereas the reporting of cases of Reye's Syndrome is required in only one-half of the States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the other territories and possessions of the United States;

Whereas national Reye's Syndrome volunteer organizations are established throughout the United States and are supported by thousands of parents;

Whereas such volunteer organizations exist to encourage involvement of the Federal Government in supporting Reye's Syndrome research; to encourage coordination of the treatment and research efforts by the various Reye's Syndrome treatment and research centers; to establish Reye's Syn-

drome as a reportable disease in every State; to establish at the Center for Disease Control a position for the review of data on Reye's Syndrome patients; to sponsor a multicenter research study by recognized authorities on Reye's Syndrome; to sponsor programs to educate parents and medical professionals with respect to diagnosis and treatment of the illness; and to raise funds for research into cause, prevention, and treatment of Reye's Syndrome;

Whereas the public, the Federal Government in general, and the Congress in particular, are not sufficiently aware of the continuous increase in the incidence of Reyes Syndrome; and

Whereas the chief executive officers of several States have declared Reye's Syndrome weeks: Now, therefore, be it

Mr. GARCIA (during the reading). Mr. Speaker, I ask unanimous consent that the amendment to the preamble be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment to the preamble offered by the gentleman from New York.

The amendment to the preamble was agreed to.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed.

AMENDMENT TO THE TITLE OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Speaker, I offer an amendment to the title.

The Clerk read as follows:

Title amendment offered by Mr. GARCIA: Amend the title so as to read: "Joint resolution designating the week of November 11 through November 17, 1985, as 'National Reye's Syndrome Week'.".

The title amendment was agreed to.

A motion to reconsider was laid on the table.

NATIONAL ALOPECIA AREATA AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 282) designating the week beginning October 27, 1985, as "National Alopecia Areata Awareness Week," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation I yield to the gentleman from Pennsylvania [Mr. KOSTMAYER] who is the chief sponsor of the measure.

Mr. KOSTMAYER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of House Joint Resolution 282, a bill which I introduced on May 8 of this year designating the week of October 27 as National Alopecia Areata Week.

Alopecia areata is a serious disease which affects 2 million people, particularly children and young adults. It occurs when the hair follicles stop production, causing severe hair loss. It is common for alopecia victims to lose all of their hair, including eyelashes, eyebrows, and body hair.

Since alopecia areata has no physically debilitating effects, it is hard for most of us to understand just how devastating this disease can be. Most alopecia victims hide their condition from friends and even family members, living in fear that someone will discover their secret. Alopecia is particularly traumatic for children and young people, who are its primary victims. Those of us who have children know just how unkind children can be to someone who is different.

I first learned about this little-known disease from Dolly Dowd of Levittown, PA. Dolly, whose daughter has alopecia, has worked tirelessly to bring this disease to the attention of the public and the Congress. Dolly also introduced me to Judith Ross, president of the National Alopecia Areata Foundation, who has devoted so much time in the past year to gathering support for House Joint Resolution 282, and to Whitfield Lee of North Carolina who founded the National Alopecia Areata Research Foundation to raise money for alopecia research.

I want to congratulate Dolly, Judith, and all of the people across the country who have worked so hard to have this week declared National Alopecia Areata Awareness Week. I know that they are working with the same energy during this week to promote a better understanding of alopecia among the American people.

Researchers have found evidence that alopecia is caused by a problem with the body's immune system, and they believe that a cure is within reach. At this time, however, there is no Federal support for alopecia research.

With sufficient research funding, it is possible that researchers could discover a cure for alopecia areata in this decade. But now alopecia victims need more than dollars—they need our understanding. Most of the trauma associated with alopecia is a direct result of the public's ignorance of the disease and of our inability to accept alopecia victims as normal members of society. That is why I believe it is crucial to set aside a week to promote awareness of alopecia areata.

Over 220 of my colleagues have joined me as cosponsors of House Joint Resolution 282. I want to thank them for their help, and to urge all of my colleagues to support this measure.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 282

Whereas alopecia areata is a serious disease affecting approximately two million people;

Whereas alopecia areata, which usually afflicts children and young adults, causes severe and often permanent hair loss;

Whereas the coordinated efforts of support groups in forty-two States have helped thousands of people cope with the physical and emotional problems caused by alopecia areata;

Whereas much of the trauma associated with alopecia areata could be reduced through greater public awareness, understanding, and education; and

Whereas the cause of alopecia areata is unknown, and promising research efforts to find a cure for the disease should be promoted: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning October 27, 1985, is designated as "National Alopecia Awareness Week", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the four joint resolutions just considered and passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

□ 1500

RETAIN STATE AND LOCAL TAX DEDUCTIONS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. BARNES] is recognized for 5 minutes.

Mr. BARNES. Mr. Speaker, one of the major issues facing the Ways and Means Committee in its consideration of tax reform legislation is the President's proposal to eliminate the deduction for State and local income and real property taxes.

The President's plan represents an extreme approach to raising revenue and ignores the consequences for States and localities and individual taxpayers. It is targeted against those States which have tried to deal with the major problems of urban centers, poverty, education, public safety, and the quality of life, with harsh consequences for many States particularly in the Northeast and Midwest.

Mr. Speaker, the ostensible purpose of tax reform is to ensure fairness. It is not to discriminate against regions of the country or to disrupt the operations of State and local governments which depend on the property tax and on public support for State expenditures to fund vital public services such as education, police and fire protection and the public works infrastructure.

The President's plan violates that concept by favoring States which have opted for lower levels of government activity and lower levels of support for public services. Since the Reagan administration has been attempting to abolish existing Federal domestic programs and other expenditures specifically designed to aid localities, such as revenue sharing, it makes no sense for the administration to further harass those States which are willing to pursue the responsibilities of governing a complex society.

Another major consequence of the President's plan impacts on individuals by undermining the ability of Americans to purchase and maintain homes. The property tax deduction is a vital component of the incentives for home ownership. In addition, by weakening the States' fiscal base, repeal of the deductions may make it increasingly difficult for the States to maintain confidence in general obligation bonds they issue for various purposes. Interest rates may be forced up as a result.

Inclusion of these provisions in any tax bill recommended by the Ways and Means Committee will almost surely result in the defeat of the tax reform legislative package.

Mr. Speaker, I have cosponsored House Resolution 105, a resolution urging the Ways and Means Committee to retain the deductibility of State and local taxes. Nothing could be more reckless than to attack our State and local governments, which are far more vulnerable fiscally and have far less resources than the Federal Government. Tax reform should not be a Trojan horse for further drastic cuts in public services.

CONGRESSMAN BARTLETT "ADOPTS" TWO SOVIET REFUSENIKS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. BARTLETT] is recognized for 5 minutes.

Mr. BARTLETT. Mr. Speaker, I rise today to address the issue of Soviet Jewry. As the summit approaches, I know a large number of Americans and Members of this House and the administration continue to be concerned and to raise the issue of Soviet Jewry and Soviet emigration. I would raise today the issue not in abstract terms, as it will be discussed at the summit and elsewhere, but an issue of very real human terms, so I rise to discuss the plight of two friends of mine, very real human beings, who are caught up in the struggle.

In our country, the struggle for improved emigration as well as cultural and religious rights for Soviet Jews has been ongoing for almost two decades now. I speak today about two refuseniks whom I had the pleasure of meeting while on a trip earlier this year to the Soviet Union. I was impressed by the resolve of these two men and, consequently, I have "adopted" them as friends. I regard them as friends, and I regard them as human beings that the Soviet Union should allow to leave. So I bring their plight to the attention of the House and the American people today as we approach the summit.

The first is an individual named Yakov Rabinovich. Yakov Rabinovich is a resident of Leningrad. He first applied for permission to emigrate with his family in 1978. In a typical caprice of the Soviet bureaucracy that only the Kremlin could understand, Mr. Rabinovich's wife and two children were allowed to leave Russia in 1980. But Yakov remains in the Soviet Union, spuriously characterized as having access to "state secrets." That is because his previous job, prior to 1972, was as one of thousands of shipbuilding engineers and designers.

Now, without exception, every type of ship that Yakov Rabinovich had previously helped to design in however small a fashion has already been exported to other countries around the world. That is to say, not just the design, but the ships themselves have been exported to another country. Therefore, whatever "state secrets" he may have been alleged to possess at one time could no longer possibly be considered "secret." Since his decision to emigrate, Yakov Rabinovich has worked in a factory manufacturing machines. He misses his family dearly. His son this summer graduated from Brandeis University. Sometimes Yakov is allowed to receive letters and phone calls from his family, and sometimes even though they try to get through, he is not allowed to receive their communications.

The second is Dr. Aleksandr Ioffe of Moscow. Dr. Ioffe is internationally prominent in academic fields relating to science and mathematics. Since filing an application with his family in 1976 to emigrate to Israel, which was also denied on the charge of access to Soviet "state secrets," Dr. Ioffe has been placed under surveillance. He has been threatened with his fellow refuseniks' fate, and his wife has been called in by the KGB and warned to stop her so-called nationalistic activities, the "nationalistic activities" consisting of wanting to be reunified with her family and repatriated. He has also been demoted to a lower teaching position.

I met Dr. Ioffe and his family. I have never encountered such warmth, such friendship, such resolve, such optimism, in the face of what could only be described as pessimistic circumstances, in my life. You see, they are denied their basic rights to practice their religion. All they are asking for is to join the rest of their family in another country, and for that they are punished severely. They remain in good spirits, and they put out the welcome mat for visitors.

I enjoyed having an opportunity to meet with these gentlemen. Their spirits are good, they are optimistic, but they realize that they will never be allowed to leave until the Soviets decide by the basics of their agreements under the Helsinki accords. It was clear that both Yakov and Aleks remained determined to persist with their struggle to emigrate. Though they have no basis for that optimism in fact, they are in good spirits. They are grateful for any efforts made in the West on behalf of them and other refuseniks, and they both said that their only hope lies in America.

I encourage my colleagues, as many have done, to continue their active involvement in the struggle to grant refuseniks the basic freedoms guaranteed under international law.

I would add a note about some recent developments. Just today it was announced that perhaps Yelena Bonner, a rather celebrated refusenik, may be allowed to leave, and perhaps improvements are being made. The President has placed the item of human rights and Soviet Jewry emigration on the summit. The only hope for the refuseniks, some 300,000 of them, is from the West, and the pressure of the spotlight of America.

Helsinki was signed in 1975, guaranteeing family reunification and national repatriation. It is difficult for many of us in the United States to think very highly of any new agreements when Helsinki lies so dormant and so unused and so neglected and so denied.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. NELSON] is recognized for 5 minutes.

Mr. NELSON of Florida. Mr. Speaker, due to official business, I was unable to be present for rollcall vote Nos. 373 to 375 on October 29, 1985. Had I been present, I would have voted "aye" on roll No. 373, final passage of H.R. 3606, defense cost and price management; "aye" on roll No. 374, education for handicapped children anni-

versary; and "aye" on roll No. 375, agreeing to the rule for consideration of the Department of Defense authorization conference report. Due to official business, I was unable to be present for roll No. 296, September 5, 1985. Had I been present, I would have voted "nay" on the Walker amendment to strike authorizations for contributions to State rail inspections.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kentucky [Mr. MAZZOLI] is recognized for 5 minutes.

Mr. MAZZOLI. Mr. Speaker, I was unavoidably absent on Tuesday, October 29, 1985.

Had I been present, I would have voted:

"Yea" On roll No. 375, approving House Resolution 299 which waived certain points of order for consideration of S. 1160, the conference report on the Defense Department authorization bill.

"Yea" on roll No. 376, approving the conference report which accompanies H.R. 2942, the legislative branch appropriations bill for fiscal year 1986.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. TORRES] is recognized for 5 minutes.

Mr. TORRES. Mr. Speaker, I was not present for rollcall votes No. 373 through 376 on Tuesday, October 29. Had I been present on the House floor, I would have cast my votes in the following manner:

Roll No. 373, final passage of H.R. 3606, to clarify application of section 2406 of United States Code, title X; "yea."

Roll No. 374, final passage of House Concurrent Resolution 201, 10th anniversary commemoration of Education for All Handicapped Children Act; "yea."

Roll No. 375, passage of House Resolution 299, the rule waiving certain points of order against the DOD authorization conference report; "yea."

Roll No. 376, passage of the conference report on H.R. 2942, legislative branch appropriations; "yea."

THE DEFICIT AND OUR NATIONAL DEBT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Idaho [Mr. CRAIG] is recognized for 60 minutes.

Mr. CRAIG. Mr. Speaker, I come to the floor again tonight in a special order to discuss with my colleagues an issue that ranks No. 1 in the minds of the American public today, an issue that is talked about on this floor a great deal and with growing intensity and growing fervor over the last 5 years, but an issue which no one seems to want to do really anything about. And, of course, that is the question of our deficit and our national debt.

I have served in Congress for the people of the First District of Idaho now for some 5 years, and when I first came to Congress one of my goals was to work for reduction in national debt and to move toward a balanced budget. At that time the deficit was running annually at $60 to $80 billion, and the national debt of our country was less than $1 trillion. I was not the only one. At that time Members of this House, economists across the country and a good many Americans recognized that, if we somehow did not grasp hold of and gain control of the deficit and the growing national debt, we could expect at some time in our future a major economic crisis in this country.

Now, that was 5 years ago. The deficit today has now been recorded, at least for fiscal year 1985, of well over $200 billion. We are anticipating a deficit for fiscal year 1986 of nearly $200 billion. And this evening, in another rather historic meeting, just a block from here, House and Senate conferees are meeting to try to arrive at a solution to an amendment to the debt ceiling, a debt ceiling that must be acted upon by this Congress that would move our national debt not from less than $1 trillion that it was less than 5 years ago but to the $2 trillion level. And they are bound up in discussion on how to control deficits. The historic debate is going on around an amendment that was placed on the debt ceiling legislation in the other body called the Gramm-Rudman amendment, known here in the House as the Mack-Cheney amendment, which would provide a system, a procedure under which this body, this House, and the other body would operate over the next 6 years to reduce the deficit by some $36 billion a year, to arrive at a balance between revenues and expenditures by 1991.

There are those of us who believe that this is fundamentally important legislation, legislation that must be enacted by this body if we are to begin a slow but sure path toward fiscal responsibility, toward eliminating the deficit and at some point being able to focus our attentions on a $2 trillion national debt, a $2 trillion national debt that in fiscal 1986 will require a direct outlay of some $143 billion just to pay interest on that debt.

It is almost unbelievable that now the third largest item in the Federal budget is interest alone on the debt.

If the word "immoral" can be used, I suspect there is no act more immoral than to spend for your own interests today and to pass on the debt of that spending to your children and your grandchildren, and yet every day on this House floor and on the floor of the other body we continually vote for programs and with the move of a hand or the push of a button pass on the accumulation of debt that is brought about by the expenditures of those programs to our children and our grandchildren. We are saying quietly to them, "We are going to leave you with this legacy, we are going to leave you with a legacy of some $2 trillion of national debt, and in so doing that we are going to expect you to pay for it."

That is the debate that is currently underway. That is the debate that must be fundamental to this body in the coming days if we are to bring any kind of solution at all to the question of deficit and, of course, the question of debt.

The time that we have discussed this issue has gone on for well over 20 years. It is not a new topic of deficit. My colleague from Oregon, who now stands, and I have discussed this issue on a variety of occasions. He, like others, has joined with me on a critical piece of legislation, a constitutional amendment to balance the budget. There are others in this body who have been interested and active on that issue. But it is interesting for me to watch the accumulated vote of a variety of Members of this Congress, where I find they consistently vote for programs that they know will spend us into deficit while at the same time they talk so openly and cry so loudly about the deficit and the accumulated debt at hand.

Mr. AUCOIN. Mr. Speaker, will the gentleman yield?

Mr. CRAIG. I yield to my colleague, the gentleman from Oregon.

Mr. AUCOIN. I appreciate the gentleman yielding. I understand exactly what he is saying when he talks about our colleagues who stand and talk about the need to balance the budget but then when it gets down away from the procedural points and down to the points where the rubber really meets the road, and that is the question of whether we spend or do not spend, they end up voting to spend rather than not to spend. I am wondering, knowing the gentleman's feelings about Gramm-Rudman and other deficit reductions, which are really procedures, I think he would concede—and I know he does support that—how he can reconcile his support for those, however, with his vote, for example, just a few minutes ago on the MX, which would have been an opportunity for him to have saved $1.6 billion, but my reading of the rollcall vote was that the gentleman voted to spend $1.6 billion on test missiles for the MX, over and above what the House budget resolution's position was.

Now, there is where the rubber met the road, there was a chance to vote Gramm-Rudman into effect right now, but the gentleman did not vote that way.

Mr. CRAIG. I think the gentleman knows that games that are oftentimes played on the floor—and, of course, he himself has engaged in that kind of gamesmanship and game playing from time to time. If you look at the specific MX vote, it was money that was being taken from a budget that was already in place and that was well within the design of the budget that had already been approved by this Congress, in lieu of the kind of deficit reduction that I am talking about. I am talking about a $36-billion to $40-billion deficit reduction on an annual basis. And my vote today was consistent with that kind of deficit reduction because it was an expenditure programmed into an already projected debt reduction. And, of course, that is what Gramm-Rudman does. It causes us to make the tough votes but it also causes us to keep our spending, as the gentleman well knows, within the confines of specific goals and specific debt reduction programs or projections.

□ 1515

Of course, my vote today was consistent with that, as my colleague from Oregon knows.

Mr. AuCOIN. If the gentleman will yield, the gentleman knows that if Gramm-Rudman is approved, and I assume that the gentleman is going to support it, that we are going to have to do a great deal more on the military spending side as well as on the domestic spending side in order to meet those 20 percent targets.

Before Gramm-Rudman comes into being, you can point to an MX program, lots of domestic programs, that had assumptions built in about levels of spending into the future, but what Gramm-Rudman does, I think that is why the gentleman says he supports it, is to change all those assumptions, and say that instead of projecting deficits into the future as far as the eye can see at a level of about $200 billion, we are going to start reducing by a 20-percent rate each year. That means we are going to have to rethink some of our assumptions.

I would think that the MX should not be exempt; I wonder why could we not begin Gramm-Rudman there?

Mr. CRAIG. Reclaiming my time, I think the gentleman well knows my voting record. When it compares with his voting record, I think that one might say I was rather conservative fiscally and one might also say the gentleman was not as conservative as I, fiscally.

Mr. AuCOIN. I think the gentleman misspeaks himself on that one.

Mr. CRAIG. Well, we will let the national ratings make the point. The point is, as I have just stated it, consistent with the expenditure, more importantly, consistent with the budget and the whole of the budget as represented by the defense expenditure. Not a specific program pulled from that expenditure. I think my vote was consistent. I think that I am going to be very willing to vote for Gramm-Rudman and take the cuts in defense and take the cuts in social programs that I would suggest a good many colleagues from the gentleman's side of the aisle will find it very difficult to do, because I have believed for a long time that no program, no program that we vote on should be exempt from consideration as it relates to deficit reduction and ultimate debt reduction. That is because I, fundamentally, believe that the way we put people to work in this country, the way that we build a vital economy, that answers to the phenomenal number of people that are out of work in my colleague's State of Oregon right now——

Mr. AuCOIN. And in the gentleman's district as well.

Mr. CRAIG. A State that has a large part of its economy based on agriculture and the forest products industry, is a result of deficit spending and a high-valued dollar in international currency that has caused phenomenal difficulties in our country.

I think that my voting record, as borne out by a good many national rating groups, would say to my constituents and to my colleague's constituents in Oregon, that my vote is very consistent with reduction of deficits and recognizing that the great value of the economy rests not here with this body, and all of the marvelous programs that have been perpetrated by this body over the years, but well the economy of a country that is not, shall we say, weakened on a constant basis by programs and expenditures from this House that in large part draw such large amounts of money from the gross national product.

I yield to the gentleman from Colorado [Mr. BROWN].

Mr. BROWN of Colorado. I thank the gentleman for yielding to me.

Mr. Speaker, I would not presume on the gentleman's time too much, but I would like to make several observations.

First of all, I am familiar with the National Taxpayers Union rating that takes into account all votes with regard to spending. Military as well as social spending programs. The gentleman has one of the best voting records of Congress in terms of being willing to control spending in all sectors.

The second point I would like to make, I think the gentleman has raised a very interesting point that I think is well worth commenting on. That is the MX itself. As the gentleman points out, every vote we have is one where we have an opportunity to control spending. I might say that when it comes to military spending, I have noted the Democratic majority in this House in the 5 years I have been here has consistently voted for the defense bills. You have had a majority of the Democratic Members vote for those defense bills. I might say that many times I have found myself voting against those defense bills because the spending level has been too high.

I think when you come to trimming military spending or controlling the size of the increases, at least where this Member feels where you might want to trim, is not in the high technology areas where you have the most cost-effective weapons and way of defending this country. But in the low technology areas that are the least cost-effective.

With regard to the MX vote, it seems to me that someone who wants to control spending in the military budget would be very much inclined to vote for the MX because it is high technology, it is very sophisticated and one of the most cost-effective weapons this country has. If you wanted to trim the budget, where you would try and trim it is in the least cost-effective areas.

So I hope the point will not be missed that unilateral disarmament with regard to accurate long-range missiles is not the way to control spending in the military budget. I think dealing with perhaps paying for the defense of Japan, having a third of a million troops in Europe, having aircraft carriers that are extremely vulnerable to a single missile are areas that at least I would think would be far more efficient to control military spending.

I thank the gentleman again for yielding to me.

Mr. CRAIG. I thank my colleague for his observation.

Mr. Speaker, of course, if we wish to focus the entire debate on the deficit and the debt on the MX vote, then we can do that. That is rather pale as a total debate when it relates to the entirety of a budget. The constant nickel and diming that we do in the form of a quarter to a half to three-quarters to a billion dollars on almost a daily basis on this floor in every appropriations bill that comes across. Once we have established a budget, once we have arrived at a conference report that basically says this will be a level of spending, then we find ourselves always wishing to exceed it.

I well remember when I joined my colleagues several years ago in reducing at first by 50 percent the amount of the MX Program, by knocking out the Race Track Program.

A colleague who now serves in the other body, PAUL SIMON and I, offered the amendment on MX that knocked out the Race Track Program that would have been a multibillion-dollar boondoggle, in my opinion and in the opinion of Senator SIMON, and I think

in the opinion of my colleague from Oregon. So we have stood together in reducing down to what now is believed to be an effective and responsible and responsive number of MX missiles basically as a replacement mode for Minuteman, to a level within the budget that is consistent with the kind of fiscal responsibility that I think my colleague from Colorado refers to.

So if we want to play the game of who wishes to vote where and under which shell does the pea lie, then of course my colleague from Oregon can make those kinds of observations.

But in the whole of the debate, and in the fineness of the context, I think my colleague from Oregon knows from where he comes, and that basis, as it relates to this argument, is weak at best.

I yield to the gentleman from Oregon.

Mr. AuCOIN. I thank the gentleman for yielding.

Mr. Speaker, the only reason that I asked the gentleman to yield in the first place, and I assure the gentleman that it was not to attack his personal voting record, but to illustrate a point.

We are about to vote on Gramm-Rudman, a proposal that will indeed, if passed, and I assume it is going to pass, will call for a reduction by 20 percent in the deficit over the next 5 years, each year. In doing so, we are going to be voting for a procedure. That is a procedural change. The point the gentleman was making when I asked him to yield was that how easy it is for Members on either side of the aisle to stand up and support some procedural method of getting at what I consider to be, and what I know the gentleman considers to be, the No. 1 economic problem facing this country and that is these structural deficits that are going to kill the economy and are certainly driving the trade deficit and are really poison for America's economy in the present and the future.

They talk about the deficit by coming up with procedural remedies, but when they have a chance to vote for actual cuts, either on the domestic, nonmilitary side or on the military side, we always find that somehow or other the 218 votes for the cuts do not show up; do not materialize.

I am just saying to the gentleman as a liberal Democract who voted this year to freeze school lunch funding, and I will not take a back seat to anyone in terms of my own budget discipline. You talk about my basic political constituency; it is one that expects me to vote for increases in school lunch funding.

□ 1525

I voted to freeze school lunch funding, as an illustration to the gentleman of the kinds of steps I think we need to do across the board in order to arrest this problem.

What I object to is when liberals or Democrats on this side of aisle will rale away against the deficit and call for some abstract solution but fail to bite the bullet and do what is necessary on their sacred cows, and when the gentleman and his colleagues on the other side of the aisle say we ought to balance the budget but they reserve the right to protect their sacred cows and expect that somehow it is going to be put together that way.

We had a chance today, as one illustration, to cut $1.6 billion out of MX flight test missiles. It is a vulnerable weapons system in the first place and cannot be defended. We have been through this debate before. But when it came to the rubber meeting the road, the gentleman could not vote for it. There are Members on this side who could not vote for it either.

What I am saying is if Gramm-Rudman is going to pass, those days are numbered, and maybe that is why Gramm-Rudman should pass.

Mr. CRAIG. I thank my colleague for those observations. I trust that the gentleman will once again be with us on the constitutional amendment to balance the budget and will vote for Gramm-Rudman.

Mr. AuCOIN. I hope the gentleman will vote with me on the MX missile.

Mr. CRAIG. I think the gentleman from Oregon's observations are true to the real basic problem of this House. The tough choices are hard to make almost any time we have that kind of a vote. And the reason it is very easy to avoid them is because we can avoid them, because we can always go out and borrow money, as we have historically done, especially for the last 20 years in growing dollar amounts on an annual basis, and saying, "Well, somewhere down the road somebody else is going to have to pay for it."

Mr. AuCOIN. The gentleman is right. Today we voted to borrow $1.6 billion to fund the MX. It is borrowed money.

Mr. CRAIG. I think my colleague from Oregon is fiscally very brave to have voted against the School Lunch Program like the gentleman did and I recognize him for that. I hope the gentleman will be as brave in the future.

Mr. AuCOIN. I hope the gentleman will be as brave on the MX. I wish the gentleman would have been today.

Mr. CRAIG. I hope the gentleman will be as fiscally responsible as he has demonstrated in the last few days.

That colloquy that I have just engaged my colleague from Oregon in I think is fundamental to the issue that is before this House today, that has been the issue that this House has basically avoided for the last 20 years. It is, how do we make the hard decisions? How do we make the tough choices when it comes to all of those programs that at least one person or a group of people in our State would say are critically valuable and important to a given number of our constituents?

Normally our attitude has been, "Well, it is pretty easy." We can say, "Oh, we are terribly interested in them and we are supportive of them and, yes, there is always going to be some money for them at some point," and somehow we find the money.

Well, we found $200 billion this year that we did not ask the taxpayers of this country to pay for, and that got passed on to the debt.

As I mentioned just a few minutes ago, now we have a conference struggling with trying to perfect a procedure that, of course, is just that, an enabling type of legislative act that would say this will be a procedure at which we will approach the deficit in the coming days and hopefully reduce our deficit problem, and therefore our debt by some $36 to $40 billion a year.

Mr. Speaker, at this time I would be happy to yield to my colleague from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I thank the gentleman for yielding, because I think it is important to understand what the procedure is that we would be operating under in Gramm-Rudman.

If you even take the Gramm-Rudman approach at the present time, we would still be spending somewhere in the vicinity of $920 to $950 billion in the upcoming year. That is a lot of spending that is going to take place.

I think we can argue very intellectually that you then decide priorities within that amount of money that you are going to spend.

Now, colleagues of ours on the other side do not want to spend it in defense, so they come out and parade out their options and so on to cut the money out of defense.

There are Members in this side who do not want to spend it on domestic programs.

The fact is that you do have to look at a variety of solutions, and that is what we are all about in this body.

The problem is we have not mustered the courage to do much of anything anywhere.

I do get a little disturbed, though, when I hear our Democratic colleagues basically say that we can find it all in defense; simply vote against MX and you cast the courageous vote.

Well, it seems to me that we have to look at the realities on that, too. If you wipe out the whole strategic defense of this country, if you wipe out all of the modernization of our strategic defense I should say—I do not want to say the whole thing because obviously there would be things that we have already put in place that would stay in place and would continue to be there, 20-year-old missiles, 30-

year-old airplanes. But if you take away all strategic modernization programs, you save about 10 percent of the entire defense budget.

Now, the question becomes whether or not that is what you want to do as a nation in order to save the money.

I tend to agree more with my colleague from Colorado that if we are going to save real money in defense, we ought to come up with some real reforms in defense. I would far better see us unify commands within the defense structure than wipe out strategic weapons systems. I would rather spend money to build an SDI system that offers long-term defense capability for this Nation than to spend money on overlapping medical programs in the defense agencies.

It seems to me that those are the decisions we ought to be arriving at, rather than just coming to the floor with amendment after amendment that cuts out strategic defense.

We have over the years seen our liberal friends come to this floor with amendments to wipe out every strategic defense initiative that has been offered. Today they had an amendment to wipe out MX. You can bet that when we start funding Midgetman there will be somebody on the floor saying the courageous vote is to wipe out Midgetman. They came out and they were against the B–1. Every one of them, they come up and the opposition always is, "This is the place to cut spending." If we had listened to them in each and every eventuality, there would be no strategic defense in this country today. Every one of them we were told that it was the courageous vote, it was the vote to do something.

My question to them is, What are they willing to do for strategic defense? And time after time what they tell me with their votes is they are willing to do nothing.

Well, I think as you prioritize $950 billion of spending, that one of the things that this Nation needs given the situation of the world is a strategic defense, including an SDI Program, including some offensive weapons to offset what the Soviet Union is doing. That is a priority I am willing to buy into.

I also think that there is a need for domestic programs. But I think those can be reformed in ways that bring down costs as well.

So the idea that somehow the votes here can be specified on those programs, it seems to me, is nonsense. The question is, who votes consistently to reduce spending levels, and there is the real question. The fact is the majority of the Members of the House do not consistently vote for lower levels of spending in a lot of areas. That is what we need around here. We need the discipline to reduce spending over a broad scale, not just target and say this is our vote to show that we vote against spending.

I have heard colleagues, for instance, who go out and say, "I voted for a balanced budget last year." And you go back to the RECORD and you find out that yes, indeed, they did. They voted for a balanced budget, and they are telling their constituents they voted for a balanced budget because they voted against the whole defense appropriations bill. So their solution to a balanced budget is have no defense. They voted for everything else, but their solution is no defense because they voted against the whole defense appropriations bill. That simply is not a rational position and, it seems to me, it does not serve the argument unless we are going to really talk about how you prioritize the entire budget.

I thank the gentleman for yielding.

Mr. CRAIG. Mr. Speaker, let me thank my colleague from Pennsylvania for bringing up those points, because, of course, the question is priority, and that is the responsibility of this Congress to decide where the public money will be spent, and in what programs, and how it will serve the need of the American public, be it in defense or social programs.

I do not know that that is the debate. I really have never found that that is the importance of the total debate. That is our responsibility as Members of the House and of our colleagues on the other side to make those kinds of priority decisions.

The question is how many total tax dollars and borrowed dollars will we choose to spend on an annual basis, and what is going to be the short-term and the long-term impact of that kind of spending habit. I think that we now know that the long-term impact is potentially devastating because of the kind of short-term problems we are already beginning to see. My colleague from Oregon and I mentioned that. Our States are not that unalike. We have primarily agricultural economies, heavy forest products industry, and we are in deep trouble right now. One of the reasons we are in deep trouble is because of an annual $200 billion deficit. That says that we are going to have an extremely high-valued dollar, that our commodities are going to sell very, very poorly in a world market which we must engage to keep our people working and our economies going.

I mentioned earlier that right now at this time a conference is going on to try to make a decision on a procedure that this body will attempt to live by—and I use the words "attempt to live by"—over the next 6 years as we move toward bringing revenues and expenditures into balance.

□ 1535

The reason I used the words "attempt to live by" is because of a misconception that I think is out there that has been construed by the press and by Members of both bodies of the Congress as to what relates to what is the true impact of Gramm-Rudman. I hope it will work. I plan to vote for it. I am willing to make the tough decisions that will ultimately have to be made coming out of Gramm-Rudman to cut areas of defense and to cut areas of social programs, because I think the real responsibility of this Congress is to get that deficit under control.

But I would like to reflect back for a moment on just a little bit of history that I think ought to be used to caution the American public, to watch the Gramm-Rudman vote and the procedures following that over the next several months, if not several years, to see whether this House really has changed its spots, because its spots, although we do tend to wear pinstriped suits, underneath are the spots of a leopard, and that leopard has a phenomenal spending problem, a habit that simply says that, "I've got to go home and tell my folks that I'm going to provide all these programs for them and I've got to be able to respond to them in the form of spending money."

In fact, those spots are now so institutionalized into the system that we cannot quit spending, and it is a Gramm-Rudman approach that is attempting in some way to buffer that and to slow that habit down, that institutional drive and need to spend more and more money on an annual basis.

The reason I use this as an example is because there have been other attempts by this body and the other body historically to slow this spending, to move toward a balanced budget, to curb the habit or the change spots of the spending leopard of the U.S. Congress.

I would like to refer to Public Law 95–435 that was passed October 10, 1978, by the Congress of the United States. Now it is a law not unlike the Gramm-Rudman amendment because ultimately the Gramm-Rudman amendment would become law. We at least hope it would. But that law on the books of the country today supposedly governing this body says in section 7, "Beginning with fiscal year 1981, the total budget receipts of the Federal Government shall not exceed the expenditures."

Now is it not interesting that that public law that passed in 1978 in essence said—because by not exceeding receipts in the area of expenditures you are saying we will have a balanced budget. Of course we know that by 1981 that was simply not the case.

The American public need ask how can the Congress of the United States violate Federal law, because that is exactly what appears to have happened, that a law that was on the books that mandated that this Congress by a given date would bring expenditures and revenues into balance. That happened to be by the fiscal year 1981, and yet we know that by 1981 we were moving toward a $100 billion-deficit budget.

The reason it happened is because a body with the power that the U.S. Congress has to write laws can also change laws, and by rules of this House we simply waived that law in the Budget Act, we bypassed that law, we ignored that law, and said no, we are not going to adhere to it, we are going to spend in deficit because we believe that is to the good of the American people.

Well, we tried that in 1978. That was law to take effect in 1981.

Public Law 96-5, April 2, 1979, section says:

> Congress shall balance the Federal Budget. Pursuant to this mandate, the Budget Committees shall report by April 15, 1979 a fiscal year budget for 1981 that shall be in balance * * *.

What happened? The American people ought well to ask the question "What happened? Why was the law ignored?" That law once again was ignored by this Congress simply because it chose to do so. It chose to, through its Budget Act, waive the law and deficit spend.

Now it is for this reason that I and now well over 200 Members of this House have joined together with some 75 percent of the American people inpursuing a slightly different course from the Gramm-Rudman approach which would be a Federal statute which would mandate a procedure to arrive at a balanced budget by 1991. And that different approach, although I say it is slightly different, is significantly different in some ways.

It is slightly different in its procedure or its approach by which it gets to a balanced budget. But it is tremendously different in the fact that it is a constitutional amendment, because there are now well over 200 Members of this House who believe that this House cannot control itself, and that well, when given the opportunity, although with good intentions, violates the very law that it tells the American people it is going to adhere to, and that is of course the laws that were passed in 1978 and 1979, and the law that is being debated in conference this afternoon here on the hill.

That is why we believe we must turn that responsibility to the people. That is the people's law, the Constitution, and it will be the constitutional amendment that will mandate a balanced budget, that will be the ultimate force that begins to set in place the procedure, and move this Congress toward a balanced budget, and then demand that receipts and expenditures on an annual basis of this Government stay in balance, and only under special circumstances and incidents might we find ourselves out of balance for the food of the Nation or the security of the world.

Let me close this afternoon by saying that it is not a new debate, it is a debate, and an issue, and a concern that has been around for a great long while. When we were spending in deficit $10, to $15, to $20, to $30, to $40 billion, 10 and 15 years ago, although it seemed significant in the overall scheme of things, there were a good many people who were saying that deficit spending is really wise, that it stimulates the economy, that it causes the kind of growth that is necessary, that it puts people to work, and therefore it is just a good policy as long as it really does not get out of control.

Well, that is the question that is really up for the debate today, because there is no doubt that it has gotten out of control and that this Congress really does not know how to control it. They have not found the way; more importantly, they simply have not demonstrated the will to make the very, very tough decisions to go home to their constituents, and look them in the eye, and tell them they voted against them, that they voted against social programs, that they voted against defense programs, that they voted against levels of spending that would drive us at a $200 billion deficit a year that would ultimately bankrupt this country and put millions and millions of people out of work.

Now the reason I say it is not a new debate, and I would like to close with a quote this afternoon from someone who certainly is not new to the issue, and a man who recognized on November 26, 1798, that we had a problem in our Constitution and a problem with our Government, and that was the fact that in drawing the Constitution we had allowed our Government the ability to borrow money.

I am referring to Thomas Jefferson, in a letter that he wrote to John Taylor on November 26, 1798. He said:

> I wish it were possible to obtain a single amendment to our Constitution. I would be willing to depend on that alone for the reduction of our Government to the genuine principles of its Constitution; I mean an additional article, taking from the Federal Government the power of borrowing.

Can we say that Thomas Jefferson was a brilliant man? Can we say he had phenomenal foresight as to the problems that this Congress and this Nation would be experiencing by 1985 and 1986? Well, I think we can say he was brilliant. But I do not know that we can say he had foresight. But he knew fundamental human reaction. He knew fundamentally how humans would react if given the opportunity to spend money that appeared to be no one's money, but money that could only be cranked out on a printing press, and of course that is exactly what happened historically.

That is why today and tomorrow and Friday this body must make a decision on whether to raise the debt ceiling to $2 trillion so our Government can continue to operate; more importantly, so that it can continue to borrow. And it is with the Gramm-Rudman amendment tied to that that maybe we will put in motion and then bring with it a constitutional amendment to balance the Federal budget that will, I hope, bring some degree of fiscal responsibility to this body and set our Nation fiscally free.

Calvin Coolidge said:

> Nothing is easier than the expenditure of public money. It does not appear to belong to anyone and there is an overwhelming desire to bestow it on someone.

One of the frailties I suspect that this Congress fails from now is the overwhelming desire to bestow on someone public money. I hope that in the coming days we will at least put in motion a procedure followed with a constitutional amendment to balance the Federal budget that will somehow curb this overwhelming desire to bestow billions and billions of dollars annually of borrowed money on someone.

Mr. Speaker, I yield back the balance of my time.

HUMAN RIGHTS IN THE SOVIET UNION AND EASTERN EUROPE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey [Mr. COURTER] is recognized for 60 minutes.

GENERAL LEAVE

Mr. COURTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on the subject matter of my special order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. COURTER. Mr. Speaker, the time draws near when the President will depart for Geneva and meet with Soviet General Secretary Gorbachev. Mr. Reagan hopes—as do all Americans—that the summit will yield at least some agreement on questions of strategic arms control.

But the existence of nuclear arms is only one source of the great tension between East and West. Indeed, one might argue that the so-called arms race is as much an expression of ten-

sions as a cause of them. That is why it made very good sense for the President to decide, as he did some time ago, to discuss more than nuclear missiles at Geneva. His agenda enbraces a number of other bilateral issues. It includes regional issues like the war in Afghanistan, not a matter to be overlooked in discussions of world peace. And it includes human rights.

This last is a subject on which the General Secretary is likely to have unwavering views. Marxist-Leninists have a stark and settled opinion about the social and political roles of the individual, the non-party organization, and the extra-governmental group, and it is nothing like an American's. Raising the issue of human rights at Geneva is therefore unlikely to change Gorbachev's mind abut the legitimacy of his country's so-called dictatorship of the proletariate, or the necessity for keeping two Red Army divisions in Poland, or five in Czechoslovakia. What Mr. Reagan can do is make him understand that while these may be the very foundations of Soviet rule, in the eyes of Americans they are unnatural and morally reprehensible. As such they contribute greatly to the tensions between Americans and Soviets. They contribute just as greatly to tension in Europe, where America has had a leading role since 1917 in guaranteeing the independence of many democratic countries.

We meet here this afternoon to consider the status of existing agreements which are as important as any new ones that might be made in the next 3 weeks. Ten years ago in Helsinki, Finland, the Soviet Union and its Eastern European allies pledged themselves to: "Respect human rights and fundamental freedoms, including the freedom of thought, conscience, religion, or belief * * *."

They promised not just to respect but to: "promote and encourage the effective exercise of civil, political, economic, social, cultural and other rights and freedoms, all of which derive from the inherent dignity of the human person." The signatories went further: They agreed that respect for these rights is fundamental to peace itself, and to friendly relations between states.

But, 10 years later, overwhelming evidence demonstrates that the Soviets and Soviet-controlled states have not honored the Helsinki accords, and show only the shallowest of concern about their failure to do so. In a major report issued in August, Jeri Laber, Executive Director of the U.S. Helsinki Watch Committee, describes each and every one of the Warsaw Pact members as: "Egregious violators of human rights and the Helsinki accords." In the U.S.S.R., Laber reports, "repression appears to be more effective than it has been since the death of Joseph Stalin."

Mr. Speaker, at this particular time I would like to yield to my good friend from New York [Mr. GILMAN], who has a statement, and then I will proceed with my own.

I yield to the gentleman from New York.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I am pleased to join the gentleman from New Jersey, Mr. COURTER, in support of his remarks with respect to the Soviet Union's violations of human rights and practices. Mr. COURTER's initiative today in making available this time for us to speak out once again is highly appreciated and urgently needed.

The Soviet's violations of human rights span all religious and ethnic heritages. In Soviet bloc countries, such as Poland and Hungary, freedom of expression is cruelly suppressed; harassment continues unabated, and the precepts of the Helsinki Final Act are ignored. The Helsinki Watch groups which existed a decade ago no longer exists, as their leaders and activists are arrested, tortured, tried, and sentenced to lengthy prison terms. All these actions emanate from the Kremlin, which, through its domination of these eastern European countries, daily violates the very moral and ethical fiber of millions of men and women.

The Soviet Union leads the way for its allies in continual human rights abuses, and by its actions encourages other representative governments to follow. Though the forthcoming Geneva Summit between President Reagan and Soviet leader Mikhail Gorbachev next month has given cause for raising our hopes about another era of détente, I am not optimistic that we will accomplish any of our stated objectives unless we enter those meetings with a firm resolve that human rights must be high on our priority list. It is a priority that has been reiterated by this body on many occasions, and by the American people at every opportunity. We will not succeed in Geneva unless we convince the Soviet Union and its satellite countries of our clear and abiding commitment to the fundamental freedoms of the individual.

I thank the gentleman from New Jersey for his long abiding leadership in the cause for human rights.

I hope that our Nation will continue in its strong support of human rights throughout the world.

Mr. COURTER. I thank the gentleman from New York, and I know that every time there is a special order involving human rights he somehow takes time out of other important duties to be here, and I think that says something about his concern for the violation of human rights that occurs constantly throughout this world.

Not only, as I was saying before, do the Marxist-Leninist governments of Europe defy the principles to which they subscribed at Helsinki, they have systematically arrested and persecuted those whose only crime is monitoring their governments' adherence to the accords. Charter 77 has been suppressed in Czechoslovakia. The Polish Helsinki Committee has been forced underground. In the Ukraine, according to one report, all but 2 of the 36 members of the watch group formed in 1976 have been imprisoned, arrested, or exiled internally at one time or another.

This afternoon we have the opportunity to offer voices for freedom.

POLAND

Consider the tragedy of Poland. Article 83 of its constitution guarantees freedom of speech, print, and assembly. The Polish Government signed the Helsinki accords. And in the space of 5 days in 1980 Polish Government representatives signed agreements in three cities recognizing the right to membership in trade unions free of party or employer control, freedom of speech, and the right to publish. The authorities intended to honor none of these, and yet—in retrospect it is ironic—they consistently argued that such agreements fully accorded with the Polish Constitution as it then stood.

Today, Solidarity, the group of leading intellectuals called KOR, and other associations have been broken. Their clearest voices have been forced underground, or into prison. An electrician named Lech Walesa remains the focus of full-time work for innumerable secret police. As many as 15 other activists have been murdered by police, or killed under suspicious circumstances, since the end of martial law. Finally, results of a heavily publicized amnesty for political prisoners in July 1984 have already been undone: The numbers of the interned have climbed again to nearly 300.

Recent statutory changes make such arrests even easier than before. Indeed, they make Polish civil law difficult to distinguish from the martial law said to have expired over 2 years ago. A report by the Polish Helsinki Committee which met in Ottawa this May, as well as the transcripts of recent interviews with a dozen leading Solidarity activists, yield the following partial list of legal changes, many of which can only be understood as formal repudiations of governmental obligations accepted in 1975 and 1980.

First, an amendment of November 21, 1983 to the law on universal duty to defend the Polish People's Republic effectively removes any right to free public speech or dissent.

Whoever engages in activities aimed at disrupting public order or at providing dis-

turbances is liable to a sentence of up to three years loss of freedom.

The amendment also provides that:

Whoever organizes or directs protest activity in violation of legal regulations is liable to the same sentence.

The new measure has already been used to jail leading members of Solidarity.

Second, an October 1982 law, initially due to expire this year, stipulated that only one trade union could exist in a given workplace. This law was made permanent earlier this year, eliminating any hope for the reinstatement of free and independent trade unions at the factory level.

Third, a law on special criminal liability of May 10, 1985 will permit the arrest, trial, and sentencing for up to 3 years of an individual, all within 48 hours and on the testimony of as few as one accuser. The new law encompasses nearly all political crimes.

Fourth, amendments to the 1982 law on higher education made in the summer of 1985 abolishes what is left of academic autonomy. The amendments empower the Minister of Higher Education to select all university authorities, and guarantees that—

The Party will exert an appropriate influence on all decisions taken by the university, especially in the selection of teaching staff and in the proper education of students in a socialist spirit.

The law makes it possible to remove a lecturer from his post and suspend courses at will.

Fifth, the 1984 amnesty bill, while freeing most of Poland's political prisoners, also make it an act of high treason, punishable by death to have any contacts with the international labor movement.

Sixth, Polish law now allows the police to detain a person whose behavior gives reasonable grounds for suspicion of the intention to commit a crime or an offense against public order or security. Solidarity activists are routinely detained for 48 hours for harassment purposes.

All of this makes the story of Polish civil liberties in the postmartial law period a distressing one. And yet General Jaruzelski speaks of it as the "normalization" of Poland. Solidarity allegedly produced "anarchy," says the general. Martial law produced quiet. Now the reassertion of totalitarian control over workplaces, ministries, social groups, and schools is called "normalization."

In the forward to a new volume of his speeches, General Jaruzelski makes this plea to his English-language readers: History, he writes, has not been kind to Poland. "What Poland needs above all is peace." But to Jaruzelski and his party, peace is the pacific silence of a hard-working labor force. Peace is a stillness in Warsaw's Victory Square, where tens of thousands once cheered their Pope. Peace is what the authorities feel when Poles remember the promises of Gdansk only as distant dreams. To the general, peace is what we know as order. And while order is a virtue in any polity, it is also a characteristic of every prison, and every machine. It is never, of itself, enough.

The summit will be a good opportunity to remind Jaruzelski, the ruler of Poland, and Gorbachev, the ruler of Jaruzelski, that peace is by nature inseparable from justice and liberty.

SOVIET JEWS

In recent months there have been repeated hints that the Soviet Union is moving to reestablish diplomatic relations with Israel. The fact that Poland has just announced its intention to do so signals seriousness in the Soviet desire. Without speculating as to whether or not such a rapprochement is in Israel's interest, we can at least be sure that the Kremlin would like to ameliorate the criticism it has been required to withstand for its increasing harassment of Soviet Jews.

Everyone in America and Europe saw evidence of that public relations concern in this morning's newspapers. The Kremlin let slip word—unofficially—that the wife of Andrei Sakharov will be allowed to leave the U.S.S.R. for medical treatment. And a long-imprisoned monitor of Soviet use of psychiatry as a weapon against dissidents has arrived in Amsterdam to rejoin her family.

Both events are pleasant gestures, but that is all. Mrs. Sakharov will not be allowed to rejoin her husband. And Irina Grivnina's arrival in Holland was timed for today because tomorrow the Dutch Government will decide whether or not to accept United States medium-range missiles for the defense of the NATO countries.

And this is but one part of the story. 400,000 Soviet Jews have initiated the process of application to emigrate. That means that the new Soviet gesture responds to precisely 0.000005 percent of the problem. Annually, fewer than 1,000 Jews are let go. Yet Mr. Gorbachev would have us imagine that few Jews leave the Soviet Union because those who wanted to leave have already done so. Indeed, he recently told a French journalist that—

If there is another country in the world in which Jews have the social and political rights to the extent they have in our country, I would be delighted to hear about it.

I would like to answer the General Secretary. Outside the Soviet bloc, all but a very few countries fit that bill. The following are a few of the reasons why 400,000 Soviet Jews have asked to exercise a most self-evident human right: The right to leave and live elsewhere.

Jews in the U.S. .t. are forbidden—on pain of impr..onment—to teach their children the tenets, language, and culture of their religion.

In the year between July 1984 and June 1985, at least 14 Jewish cultural activists were arrested, and 2 of them were savagely beaten. Many others have been fired from their jobs, have had their apartments searched, their phones disconnected, their mail seized.

A Congressional Research Service Review issued in March of this year states that discrimination and repression against Jews in the U.S.S.R. have not been greater at any time since Stalin's.

Film broadcast on Leningrad TV about a year ago accused Russian Jewish dissidents of trying to subvert the Soviet state. This is a recurrent theme. In mid-1983, for example, Soviet authorities were promoting a book called "The Class Essence of Zionism." It claimed that wherever Jews live outside Israel they represent a potentially subversive fifth column. The book finds the Jews partly to blame for the holocaust. It even says that the accepted figure of 6 million Jewish deaths is "significantly overstated." Now, we know very well that similar allegations appear in print on occasion in our own country. But they do so when made by private citizens, and each time there falls upon them a veritable wall of public testimony, scholarly books, and photographic and museum exhibits which expose the allegations for what they are—lies. But "The Class Essence of Zionism" like every other Soviet publication—appeared with the imprimatur of the Soviet censor. And it was praised as "necessary" and "convincing" in reviews which also bore the censor's stamp of approval.

Soviet writers and propagandists frequently compare Zionism and fascism. They have accused the Israeli army of genocide in Lebanon deserving of another set of Nuremberg trials. In one published cartoon, caricatures of Israelis "rebuilding" Auschwitz and Dachau in southern Lebanon. According to the rector of Tel Aviv University, Yoram Dinstein, many television programs, articles, and phamplets appear in the Soviet Union—

With one clear-cut message: The dominant Western monopolies are governed by Jews who are using them as tools in a struggle against the U.S.S.R.

Here, says the rector, is a throwback to the notorious anti-Semitic canard of the "Elders of Zion," fabricated at the beginning of the century.

Such propaganda has also appeared in countries in which politics are dominated by Soviet military power and the police are dominated by the Soviet secret service. The "Protocols of the Elders of Zion" resurfaced in Poland just this year, ostensibly circulated by Solidarity's underground presses.

A short while ago, the New York Times published a fine essay by Avital Shcharansky, whose husband was

jailed many years ago because of his membership in the Soviet Helsinki Watch Group. She describes in very moving terms the plight of the Jews within the U.S.S.R., and closes her article with these words about the upcoming summit in Geneva:

The Soviet leader is desperately seeking accommodation and normalization. Can it be too much, in this season of expectation, to suggest that one unequivocal demand be made of those who have so systematically trampled on the rights and the lives of countless human beings begging for nothing but release?

Is it too much to ask that before we seek or trust its signature on future treaties, the Soviet Government be required to honor the Helsinki accords * * *?

Ultimately, the question is for Mr. Shevardnadze's Government to answer. But it is up to the West to ask.

□ 1600

Today, Mr. Speaker, there was an interesting article that appeared in the Washington Times, and I would like to quote from it if I may. I mentioned it in the prepared remarks that I made.

Anatoly Koryagin, a dissident Soviet psychiatrist imprisoned since 1981, has been moved from Chistopol Prison to a labor camp hospital at Perm and is thought to be near death, according to Irina Grivnina, a dissident who just arrived in the West.

Dr. Koryagin, 47, was sentenced in June 1981 to seven years at hard labor and five years internal exile for what the prosecutor at his trial called "activities harmful to Soviet power and the party."

The psychiatrist had written in a British medical journal about examining political dissidents in Soviet psychiatric hospitals and disagnosing the same. "All the people I examined had joined the ranks of the mentally ill because they did or said things which in our country are considered 'anti-Soviet,' " Dr. Koryagin wrote!

In other words, this person was imprisoned for years and is now ending his life probably because he honestly diagnosed patients in mental hospitals as only individuals who talked frankly about their desire to leave the Soviet Union.

In a letter which recently arrived in the West, Mrs. Koryagin described her husband's condition when she visited him in September 1983 at the KGB-run prison at Christopol:

"He was like a Medusa, so bloated that his neck was wider than his face. It was covered with edemas caused by protein starvation. Throughout his imprisonment he's been constantly reduced to a state of extreme weakness . . . by the torture of cold, hunger and sleep depreviation, of harassment, humiliation, mental agony and even beatings."

Mr. Speaker, as the President of the United States journeys to Geneva for talks about arms control, as indeed he must, he must as well talk about Soviet violations of arms controls agreements and also Soviet violations of the Helsinki accords.

Mr. Speaker, I include for the RECORD an editorial from today's Washington Post entitled "Pre-Summit Gestures."

PRE-SUMMIT GESTURES

The Kremlin's customary pre-summit lightening on human rights is on view. Evidently Andrei Sakharov's wife will soon be allowed to go abroad for the medical treatment that she has been seeking through her years of internal exile. Meanwhile, Moscow moved expeditiously to keep the fate of the Soviet sailor who jumped ship in New Orleans from becoming an inflamed public issue. On the eve of the last summit the Soviets exchanged five political prisoners for two convicted spies held in the United States. This is the pattern.

It is a pattern bound to trouble many people in the West. The evident Soviet purpose is to deflate human rights as a summit issue. This is easy for Moscow to do. It need only wave its wand over the likes of Mrs. Sakharov, wife of the celebrated dissident physicist, and Miroslav Medvid, who became a chance celebrity by jumping a grain ship. The Kremlin looks like a kindly godfather and a few flesh-and-blood individuals benefit.

Mrs. Sakharov may soon leave; it is implicit that her husband may later follow. Mr. Medvid got the opportunity to say, in a setting that an attentive Reagan administration found conducive to free choice, whether he wanted to stay or go home. It's a good thing, by the way, that the administration intervened firmly to ensure his choice after the Border Patrol twice returned the sailor to his ship without having reliably determined his circumstances and views.

The sad fact remains that, in the arbitrary Soviet system, no relief is available for Soviet citizens other than by Kremlin calculation. People who have felt that Soviet society would eventually mature in this direction have been repeatedly disappointed. The arbitrariness that allows Moscow to make a gesture now is the quality that has allowed it for years to deny Western human rights appeals on grounds that they are an interference in an internal Soviet matter.

The new Soviet leader, Mikhail Gorbachev, apparently would like to be known as a reformer. But he came up as a protégé of veteran KGB chief Yuri Andropov, and reform in the Soviet context has more to do with discipline than with individual rights.

President Reagan cannot disdain gestures, especially gestures that help real people. Nor can he appear satisfied by gestures to a token few. His test is to convey the widespread American conviction, which amounts to a political fact of life, that the way Soviet citizens are treated inevitably affects the readiness of Americans to improve relations with the Soviet government.

Mr FRANK. Mr. Speaker, I am grateful to Mr. COURTER for taking out this special order so that we can address the subject of human rights abuses behind the iron curtain. It is especially timely in view of the upcoming Geneva summit, at which this issue will undoubtedly be on the agenda.

The Soviet Union's human rights record has always been abysmal, but after the Helsinki accord there were hopes that there might be an improvement. For a short time there was an increase in the level of emigration, but in recent years this flow has been almost entirely choked off. At the same time the Soviet authorities have embarked on an anti-Semitic propaganda campaign, and have squelched any attempts by the Jewish community to maintain their heritage. In Romania, the authorities have been actively harassing those who choose to practice their Christian faith.

In Poland, the Helsinki Committee, which was founded to monitor that nation's compliance with the Helsinki agreement, has been forced underground. Similarly, in the Ukraine, 34 out of 36 members of a monitoring group have been imprisoned, arrested, or subjected to internal exile. The original Helsinki agreement clearly contemplated the active role that such monitoring groups would play in the human rights process. The Governments which repress them are clearly in violation of that treaty.

Most recently, the Hungarian Government demonstrated its disrespect for the spirit of Helsinki when it prevented private groups from holding a public symposium to coincide with a followup Helsinki conference which was being held in Budapest. This was unprecedented in the history of the Helsinki process; until then, such meetings had always been allowed to take place and had greatly enhanced the work of the Government conferees.

Mr. Speaker, it is important that we take time to voice our outrage at these violations. We must not allow the Eastern bloc governments to think that their infractions have passed unnoticed, and we cannot allow the citizens of those nations to think that their plight has been forgotten.

Mr. OBERSTAR. Mr. Speaker, the news that Yelena Bonner, wife of Soviet dissident Andrei Sakharov, was issued a temporary visa to receive much needed medical treatment in the West captured our Nation's media headlines and raised our consciousness to the absurdity of the situation. This news does not belong in the headlines. Yelena Bonner should have been issued this visa upon learning of her eye ailment. It is a tragedy that the Soviet Union continues to place a higher priority on keeping its citizens within the nation's borders than on affording them basic human decencies.

But we can learn from the suffering of Mrs. Sakharov and we can commit ourselves to never allowing another human being to undergo such a massive denial of human rights. But we cannot do that unless the Soviet Union shares the goal where individuals are people first and citizens second.

Earlier this year the world marked the 10th anniversary of the signing of the final act of the Helsinki accords. This was an agreement signed in good faith to promote and protect a sense of dignity and equality among all citizens. On that day in August 1975, the world smiled a sad smile because although the price paid in human life had been great, we could finally look to a future where people would not have to fear government oppression for their political beliefs.

But years have passed and we now know that the good feelings we shared 10 years ago were misplaced. Human rights in the Soviet Union and the Eastern bloc nations have taken a backseat to a stronger desire to promote the ideals of the Communist state, subsequently oppressing those who

promote individual freedoms. Our shared dream has become shared pain.

But we now have a unique opportunity to speak for the world's dissidents at next month's Geneva summit. The issuance of a temporary visa to Yelena Bonner in the weeks before the summit indicates Mikhail Gorbachev's sensitivity to the issue and hopefully his willingness to change current Soviet policy. As the leader of the Eastern bloc nations, Gorbachev is in a position to dictate human rights policy to the Soviet Union's allies.

President Reagan must take the initiative at next month's summit in making Mr. Gorbachev aware that our Nation's priority is the guarantee of human rights to all individuals. As Americans we can sympathize with the oppressed people of the world, but because we are unique in our freedom we cannot totally understand what it feels like to lose a job, to be exiled, or to lose contact with our families and friends because of a particular belief. But we Americans want to share our love for freedom with the rest of the world. While we cannot hope to dictate political philosophy to these nations, we can hope to make them recognize that a denial of human rights brings shame to their form of governance.

I believe that pressure exerted on the Soviet Union by this country, primarily through this body, was a factor in the Soviet Government's decision to permit Yelena Bonner medical treatment. We must continue this pressure until guaranteed human rights is a way of life in the Soviet Union and Eastern bloc nations.

As we approach the summit we must be optimistic about the commitment of the world's leaders to remedying the injustices which occur everyday in the Soviet Eastern bloc nations. We can no longer tolerate a world in which people are forced to sacrifice their beliefs for their lives.

Mr. EDWARDS of Oklahoma. Mr. Speaker, the President is about to begin one of the most important meetings in this Nation's history. The primary issue at Geneva should be arms control, but it would be very unrealistic at a summit between the United States and the Soviet Union not to talk about several other fundamental concerns which divide our nations. One of them is the tragic denial of basic human rights to the people of the Soviet Union and Eastern Europe.

Very few of us really know what it's like to be denied basic human freedoms. Free speech, free press, free trade unions, and unrestricted travel come naturally with our democratic society. The Soviets try to dismiss the fact that their system doesn't allow these fundamental freedoms—and they would like us to ignore that fact, too.

Many of the brave people behind the Iron Curtain have spoken out against their governments, and have risked their lives and those of their families to do so. These people are true heroes of the struggle for freedom and human dignity. But for every voice of dissent that we read about, there are many thousands of other people whose hope has been drained by the policies necessary to keep Communist governments in power.

In most Soviet bloc nations, the press is government-controlled and heavily censored. Western newspapers are unavailable to the general public. Border guards routinely refuse to admit foreign visitors carrying prohibited Western books, and Soviet bloc citizens can be arrested for just talking to Westerners.

Imagine not being able to criticize the policies of your own government. By law, most people in Eastern Europe and the Soviet Union face serious punishment for publicly expressing opinions contrary to government policy. Individual academic freedom is not permitted, either. Teachers are disciplined if they allow open classroom discussion or deviate from the party line.

Communist leaders preach Marxist ideology, but follow the brutal principles of Leninism. Closed systems are funding new ways to introduce small doses of private enterprise to make things work. But don't expect their leaders to embrace pluralism. That kind of political and economic competition would clearly challenge their own dominant, single-party rule.

Leninism by nature leads to the denial of basic human freedoms. These constraints are both psychological and physical, and they are real constraints. Any one who attempts to cross the border from East to West without authorization faces death. Anyone who has seen the Berlin wall, or the West German-East German border, cannot possible conclude that the Communist system works. No nation that must imprison its people works.

When a Russian submarine ran aground in Swedish territorial waters in October of 1981, the Soviets immediately demanded that Sweden return the ship's sailors to the Soviet Union. Two years late, when the Soviets deliberately shot down a Korean passenger jet, their message was clear: nobody crosses our borders.

Mr. Speaker, this situation has no ready solution. But as a free Western society we have an obligation to have the world better understant it. We are morally outraged at the stories of abuse and repression of those who dare to speak out. But we must also be reminded of the less obvious, daily forms of repression which set apart free societies from unfree ones. Conscience demands that we continue to support the fight for freedom and human dignity throughout the world.

Mr. PORTER. Mr. Speaker, I am pleased to participate in today's special order on human rights in the Soviet Union and Eastern Europe.

I would like to commend my colleague—the gentleman from New Jersey [Mr. COURTER] for holding this special order as an ongoing effort to take every opportunity to encourage President Reagan to bring Secretary General Gorbachev's attention to our concerns about existing human rights violations.

We are all familiar with the distressing record on human rights that the Soviet Union has compiled. One particular area which has not received great attention, but which I feel is very important, is that of divided spouses. Approximately 25 American citizens are deeply affected by the Soviet Government's refusal to grant exit visas to their Soviet spouses.

Over the weekend I met with Mr. Simon Levin, who resides in my district and whose wife and son are living in Moscow, unable to emigrate. Mr. Levin had to emigrate shortly after he and his wife. Tamara Tretyakova were married in 1978. His case is the second longest outstanding divided marriage case. The couple expected to be together again soon after Simon's departure. Soviet authorities, however, chose to keep the family apart. Their son, Mark, was born in Moscow on May 6, 1978.

Mark has never seen his father. He lives in Moscow with his mother waiting for the precious permission to join his father in the United States. Mark and Tamara have been refused that permission 14 times since February 1979. Tamara, who is partially disabled due to polio that she suffered during her childhood, therefore, has to raise Mark alone.

Every child has the right to be with both of his parents. Every parent has the right to be with his child. The President must confront Mr. Gorbachev with the issue that families are guaranteed the right to reunification under several international human rights doctrines. The President must emphasize that peace between our two countries can not be achieved if the case of Simon Levin and the 24 other divided spouses continue to exist.

Many Americans have been encouraged by the summit in Geneva as a signal of the willingness to improve relations between the United States and the Soviet Union. By allowing the Tretyakovas and the others to emigrate, Mr. Gorbachev would create a favorable impression concerning his government's sincerity in its expressed desire for a peaceful relationship and recognition of international human rights doctrines.

Only 93 Jews were permitted to emigrate from the Soviet Union during September. To date, a total of 796 Jews were granted exit visas in 1985, as compared with 721 who were permitted to emigrate during the same time period last year. The monthly average of Jews permitted to leave hovers at less that 100, closely mirroring the trend for 1984, during which fewer than 1,000 Jews were granted the right to emigrate.

Since the coming to power of Soviet leader Gorbachev, the situation for Jews in the U.S.S.R. has continued to deteriorate. President Reagan should bring this issue to the forefront when the two leaders meet in Geneva.

I have joined with many of my colleagues in urging the President to place the issue of the persecution of Soviet Jews and the plight of divided spouses high on his agenda of issues to be discussed in Geneva. I am hopeful that this meeting will signal a new era of improved relations between our two countries. However, I believe that this can only happen if the Soviets begin to

change their policy of disrespect for the rights of Soviet Jews.

Mr. Speaker, it is extremely important that we in the Congress continue to speak out on behalf of Soviet Jews. The continued harassment and outright violations of their human rights must be forcefully brought to public view. We must continue to maximize pressure on the Soviets to live up to their international agreements.

Mr. EMERSON. Mr. Speaker, my friend and colleague, JIM COURTER of New Jersey, has brought before this House a special order of concern not only to both sides of the aisle but to both sides of the globe, East and West.

With the summit in Geneva approaching, it is important that we address the repressive policies of the Soviet bloc and express our discontent with the human rights violations now taking place in the Soviet Union and Eastern Europe. One such violation is the freedom of religion.

Throughout the Eastern bloc, those who practice the Jewish and Christian faiths are being persecuted because of their religions. Congressman TOM LANTOS has initiated a program to adopt a Soviet Christian family or individual who has been touched by this most grievous violation; the right to worship and practice the religion of their choice. I commend the Congressman from California and I thank him for the opportunity to partake in this special project.

Mr. Speaker, I want to take a few moments to tell you about the individual that I have adopted. Bishop Ivan Fedotov, who is currently interned in a Soviet labor camp, is a bishop of the Pentecostal Church in the Russian Republic. His only crime was his role in leading the Pentecostal Church. According to the Soviet Constitution, any individual has the "right to profess or not to profess any religion and to conduct religious worship or atheistic propaganda." So, I ask, why is Bishop Ivan Fedotov currently serving time in a Soviet work prison?

Recent information has reached the West of what appears to be a campaign of harassment against Bishop Fedotov in the prison camp in arctic Russia. On September 22, 1984 he was deliberately delayed from going to the bathhouse with his own section of prisoners, which deprived him of his 2-hour visit with his wife. While at the bathhouse, money—forbidden to camp prisoners—was planted in his shoe and he was, therefore, then deprived of his annual parcel due in October. When he began a fast in protest he was sentenced to the punishment cell for 11 days.

My colleagues, the time has come to send a strong message to the repressive governments of the Soviet Union and the Eastern bloc countries. Let us frankly state our opposition to the Soviet practice of prohibiting religious believers from engaging in charitable activities or providing religious instruction to their own children. In some instances, the Government has removed children from families whose parents have refused to abstain from teaching religion to their children.

I commend the distinguished gentleman from New Jersey on this special order this evening and I urge all of my colleagues to take an active role in expressing their opposition to the human rights violations—religious or otherwise—that are currently taking place in the Soviet dominated countries.

Ms. KAPTUR. Mr. Speaker, on November 19, 1985, President Ronald Reagan and Secretary General Mikhail Gorbachev will meet in Geneva. As the summit meeting approaches, it is fitting that the United States reaffirm its commitment to the fundamental principle of human rights. I commend the gentleman from New Jersey for calling this special order today on human rights in the U.S.S.R. and Eastern Europe. I would like to take this opportunity to bring to your attention a specific case of special interest to myself and my constituents. Evgeny Matskin, his wife Ludmilla, and their son Vaadim have repeatedly applied for exit visas in order to emigrate to Israel. Since the Matskins first applied for visas 6 years ago, Mr. Matskin has lost his job three times.

It is my understanding that the explanation behind the denial of the visas is Mr. Matskin's service in the military as a regular soldier. I believe that the real reason for the Matskin family's difficulties in obtaining the necessary visas is their desire to be repatriated to the homeland of the Jewish people, Israel. The right to free emigration is guaranteed under the final act of the conference on security and cooperation in Europe, the universal declaration of human rights, and numerous other international agreements to which the U.S.S.R. is a signatory. Mr. Gorbachev remains firm in his denial of human rights abuses. However, cases like that of the Matskin family, where the basic right to emigrate is refused, clearly contradict this denial. I urge both President Reagan and Secretary General Gorbachev to make human rights a key issue on the agenda at the Geneva summit.

Mr. YOUNG of Missouri. Mr. Speaker, during the Columbus Day recess, I was fortunate to have had an opportunity to travel to the Soviet Union with several of my colleagues from the Committee on Science and Technology.

One of the most profound experiences that I encountered on this trip was our meeting with several Soviet refuseniks. The issue of Soviet Jewry is one that has been of particular concern to me.

The rate of Jewish emigration from the Soviet Union has declined 97 percent over the past 5 years. Fewer than 1,000 Jews were allowed to leave the U.S.S.R. during 1984. As my colleagues know, Soviet Jews comprise the third largest surviving Jewish community in the world, and they have been struggling to achieve basic human rights, including the right to maintain their own religion and culture. The right to leave any country that denies one their heritage is an internationally recognized human right, yet in the Soviet Union permission to emigrate is given arbitrarily.

I believe it is crucial that with this wave of anti-Semitism, America must reaffirm the commitment of human rights. Congress must continue to pressure the Soviets to release those Jews who wish to leave the U.S.S.R.

On our trip, we were able to spend several hours with a dozen refuseniks at the home of Prof. Yakov Alpert. Professor Alpert and his wife first applied for permission to emigrate in 1975. Consequently, they both lost their jobs, and Professor Alpert has been completely cut off from the international science community.

Dr. Aleksandr Lerner, one of the Soviet Union's most respected scientists, also attended the meeting. Dr. Lerner has been constantly harassed since he first applied to leave the U.S.S.R. in 1971. He was dismissed from his job and has been accused of espionage and treason. The Soviet Government has made it clear that they do not intend to ever grant Dr. Lerner permission to leave the Soviet Union.

We heard similar stories from all the refuseniks. There is a clear pattern in the Soviet Union that once a person applies for an exit visa that person may expect to lose their job, have their homes searched, and experience constant harassment by the KGB.

I would like to mention two specific cases that are of particular interest to me. First of all, I have adopted a Soviet Jewish family from the Ukraine to help them fulfill their dream of emigrating to Israel.

Samuel and Manya Klinger have been trying for a number of years to emigrate to Israel. Samuel Klinger is an agronomist from Dnepropetrovsk in the Ukraine. He and his wife, a nurse by profession, have been repeatedly denied exit visas since 1970.

The only reason given by Soviet authorities has been a lack of consent from Manya's parents, who have not seen their daughter in many years. Manya, a mother herself, recently celebrated her 50th birthday.

We have asked the Soviet Government to grant this family permission to emigrate, but have received no response. There can be no doubt that by not allowing the Klingers to leave the Soviet Union, the Soviet Government is in clear violation of the Helsinki Final Act, the Universal Declaration of Human Rights, as well as their Soviet Constitution.

Surely the emigration of the Klinger family would pose no threat to the security of the Soviet Union, and instead would be a humanitarian gesture. Nonetheless, permission to leave is continually denied.

I am also extremely concerned about the plight of Victor Artsimovich. Mr. Artsimovich has applied for exit visas for him and his family. After these applications were submitted to the Soviet Government, Mr. Artsimovich was arrested for allegedly distributing illegal publications. It is my understanding that he was tried in absentia in a closed court, where he was declared to be irresponsible and schizophrenic. Victor

Artsimovich is currently incarcerated in a Soviet psychiatric hospital in Siberia.

According to the State Department, the total number of persons confined in Soviet psychiatric hospitals solely for their political views is not known, but the estimates suggest that upward of 1,000 persons are held at psychiatric facilities.

At this point, I would like to add that I am pleased that the Soviets have decided to allow Yelena Bonner to receive medical treatment outside of the Soviet Union. I am hopeful that this is not just a token step in a presummit public relations blitz, but that this may be the beginning of a new policy allowing Soviet citizens to move freely in accordance with international law.

Nonetheless, in our meeting with Deputy Chairman Gromyko, he was unwilling to discuss the issue of human rights. I have joined with several of my colleagues in urging President Reagan to make this issue a focal point of the upcoming summit meeting with Mr. Gorbachev.

As the leader in the free world, the United States must do all that is possible to protect the human rights of all people and stop repression wherever it occurs.

We have held congressional prayer vigils on behalf of Soviet Jews, but we must be sure that the vigil continues each and every day until the human rights of all Soviet Jews have been restored.

Mrs. BOXER. Mr. Speaker, I would like to congratulate my colleague, Representative COURTER, for this important and timely special order.

President Reagan is currently preparing for his November summit with Mr. Gorbachev. We must therefore take this opportunity to remind the President that the Geneva summit cannot be a meaningful one without a frank discussion of the continuing human rights violations in the Soviet Union and Eastern Europe.

We should not be taken in by reports of improvements in this area. Amidst worldwide rumors of the liberalization of Soviet emigration and human rights policies, the plight of Leonid Volvovsky, the newest Jewish prisoner of conscience, is all but forgotten. Volvovsky, a 40-year-old electrical engineer and Talmud scholar from Gorky, was arrested on June 26, 1985. He was charged with article 70 of the RSFSR, anti-Soviet agitation and propaganda.

Last Thursday, October 24, Volvovsky was sentenced to 3 years of hard labor. His only crime was his desire to live in Israel and to teach classes in Judaism.

The case of Leonid Volvovsky sharply contradicts recent reports of potential improvements on the part of the Soviet authorities. It suggests that rather than liberal emigration policies, we are facing the threat of a harder Soviet line after the Geneva summit. This will depend in part on the President's resolve and on the priority assigned to human rights as the summit draws near.

Just this week, I sent a letter to the Nobel Institute in Norway, asking that Anatoly Shcharansky be nominated for the Nobel Peace Prize. Mr. Shcharansky is a perfect symbol of all prisoners of conscience in the Soviet Union and Eastern Europe today. For the past 8 years he has suffered imprisonment and torture for his simple insistence on respect for the basic human rights for his people.

I call on President Reagan, when he meets with Mr. Gorbachev in Geneva, to echo Mr. Shcharansky's plea that the Soviet Union and Eastern Europe respect the basic human rights of their peoples.

THE AMERICAN LEGION,
Washington, DC, October 21, 1985.

DEAR REPRESENTATIVE: Over the past three weeks you have received several letters regarding certain recommended changes in access to Veterans Administration health care. Specifically, these changes would impose a means tested eligibility standard for such care and would require private health insurance reimbursement for VA treatment offered to certain veterans.

In recent communications you have been advised that The American Legion is the only major veterans organization which remains opposed to these recommended changes and to that portion of the reconciliation bill containing budget savings derived from the changes. We do remain opposed to them. While our organization deeply respects the dedicated efforts of those Veterans Affairs Committee members who believe that a means test and third party reimbursement are the most appropriate ways to meet the budget resolution target for Veterans Benefits and Services, we are quite concerned over the long term effect of these health care policy proposals.

The American Legion feels that the savings proposals will lead to fundamental changes in the manner in which VA medical treatment is provided. We expect that there would be increasing pressure upon VA to conform its health care delivery to that of private medicine—to implement certain "efficiencies" which fail to observe the special features of VA's medical mission. In fact, several of the principal proponents of these reconciliation savings have expressed similar concerns in previous years.

Our organization is well aware of the federal budgetary crisis. Our opposition to the means test and third party reimbursement is not a categorical rejection of any budget mandate, and it certainly does not dismiss the devoted efforts of House members earlier this year to produce a workable first budget resolution. We clearly recognize and we commend the outstanding work which led to congressional adoption of VA budgetary guidelines as proposed by the House, a plan that restored more than $700 million to the Senate recommendations for VA in FY 1986. We believe that restraint in the VA medical care budget has been maintained and can be continued by active congressional oversight and careful appropriations decisionmaking. In fact, VA medical care spending over the past ten years has increased at only one third the pace of federal Medicare expenditures, although the veteran popultion has aged at relatively the same rate as the general population over that period.

You and your colleagues will soon be considering the budget reconciliation bill. During that deliberation we encourage you to keep our views in mind.

Sincerely,

E. PHILIP RIGGIN,
Director,
National Legislative Commission.

Mr. MARTINEZ. Mr. Speaker, I rise today to thank my most esteemed colleague, the gentleman from New Jersey, for allowing us this timely forum on the condition of human rights in the Soviet Union and the Eastern European countries. Timely, because we are possibly entering a period of movement and opportunity in East-West relations. Yet no meaningful improvement in these relations can occur without concrete gestures of Soviet and Eastern European willingness to take Western concern for human rights seriously.

Just how seriously Soviet and Eastern European governments have taken these concerns was indicated last August, at the 10th anniversary of the final act of the Helsinki Agreement on Security and Cooperation in Europe. The Agreement provided that in return for Western respect for post-World War II European borders, the Eastern countries would allow those living behind those borders to travel, think, speak and write freely. Yet rather than improve over the last decade, the human rights situation in those countries has deteriorated.

If the Helsinki accords provided an unprecedented means of exposing human rights abuses in their respective countries, they also provided an unprecedented threat to those signatory regimes which have the most to fear from allowing basic freedoms to their citizens. For example, although 1975–79 saw a slight relaxing of Soviet constraints on such freedoms as expression and worship, the Kremlin tightened its grip again in 1979, with annual dissident arrests tripling, sentences lengthening, and repressive new laws passed. Currently, of the 5 million people in forced labor in the Soviet Union, at least 10,000 are prisoners of conscience.

The Soviet crackdown on human rights in recent years has occurred on several fronts. Dissident groups spawned by the Helsinki agreement have been harshly persecuted. Today, 18 of the original 20 members of the Moscow Helsinki watch group have been imprisoned or sent into internal exile, or have gone abroad. Two large labor organization efforts in 1977 and 1978 have been brutally suppressed, and today at least 25 Soviet citizens are imprisoned or held in psychiatric hospitals for labor union activism or for organizing strikes. The sharpest rise in persecution has been aimed at religions. Religious believers are now thought to comprise about half the 10,000 Soviet prisoners of conscience, and represent the single large category of new Soviet political prisoners. Persecution of national minorities and ethnic groups—such as Armenians and Jews—has also increased, in the destruction of churches and monuments, limitations on languages, and the rewriting of histories. And those inside prisons are also treated worse: last year, more political prisoners died in detention than in any year since Josef Stalin.

Few of the Soviet client regimes, Mr. Speaker, have been more responsive to Helsinki. East Germany currently holds between 6,000 and 9,500 political prisoners, mostly unsuccessful emigres. In Czechoslo-

vakia, religious orders are outlawed and citizens who profess their religious beliefs cannot hold public office. Romania remains one of the most repressive police states in Europe, and Bulgaria is waging a campaign to forcibly Bulgarize its 800,000 Turks that has reportedly included brutal coercion and resulted in several hundred deaths.

But while much of the deterioration over the last decade in these countries has been marginal, by far the most dramatic shift since Helsinki has occurred in Poland. The Solidarity labor movement, inspired in part by the Helsinki Agreement, was forced underground in 1982, and its members and supporters continue to be subject to discrimination, detention, and frequently to physical attack. The presence of the Catholic Church in Poland, stronger than in any other Eastern European country, has been the target of an escalated government campaign of harassment, culminating in the brutal murder of Reverend Popieluszko and the show trial of the responsible officials. Finally, the regime of General Jaruzelski has attempted to show its concern for human rights by holding elections in which the populace was forced to vote for one of the state-chosen candidates.

Many outside institutions, such as the church and the Nobel Prize, have helped to bolster the struggle for human rights in Eastern Europe and the Soviet Union. But, even in Poland, their footholds are diminishing quickly. Of all outside parties, the United States perhaps carries the most leverage. Yet domestic difficulties surrounding the human rights question have hampered our ability to use this leverage in the best manner.

The United States was one of the pioneers in the concept of human rights, beginning with the United Nations Charter and the Universal Declaration on Human Rights. The Foreign Assistance Act, as amended in 1973, prohibits U.S. aid to any country which consistently or grossly violates internationally recognized human rights, and the International Financial Institutions Act of 1977 subjects recipients of loans from the World Bank and other multilateral lending institutions to similar requirements. We have applied this concern consistently in our policy toward the Soviet Union and Eastern Europe. The American position in Helsinki rested on our concern for human rights, and our policy toward Poland in recent years has been guided by the same beacon. Yet in spite of this, our larger policy has veered far from the vision of President John F. Kennedy, who asserted more than 20 years ago that in the last analysis, peace—the ultimate goal of our foreign policy—is a matter of human rights.

It is time for the United States to implement a compassionate and consistent approach of unequivocal support for basic and universal human rights. The political differences between totalitarian and authoritarian regimes are impossible and dangerous to ignore. But a prison, a death squad, a reign of arbitrary terror, wreaks the same human damage regardless of either political or ideological context.

In the meeting in Helsinki last August between Soviet Foreign Minister Eduard Shavardnadze and United States Secretary of State George Shultz, the Soviets proposed three categories of issues to be addressed at the forthcoming summit between the heads of the two nations: international security, regional conflicts and United States-Soviet relations. The United States proposed a fourth: human rights. This is in the humanitarian and democratic American tradition. Yet if our foreign policy is not made to follow this tradition consistently in the rest of the world, and in our own hemisphere in particular, it will suffer in Geneva, and in the years ahead.

Mr. BOULTER. Mr. Speaker, I am pleased to join with my colleagues today in an expression of grave concern over the condition of human rights in the Soviet Union and Eastern Europe. More specifically, I rise to draw attention to a Soviet violation of human rights that is widespread and severe behind the Iron Curtain, yet has prompted very little, if any, action from this Congress—the persecution of Christians within the Soviet Union.

The Soviet constitution guarantees "the right to profess or not to profess any religion and to conduct religious worship." In addition, as a signatory to the United Nations' Universal Declaration of Human Rights as well as the Helsinki Final Act, the Soviets have vowed to the nations of the world their intention to uphold international standards of human rights. Yet Christian believers practicing their faith outside of the handful of lackluster churches approved by the Soviet authorities must live in continual danger of losing their very lives and freedom.

I am an original member of the Soviet Christian Adoption Program, founded in recent weeks under the direction of Congressman and Mrs. LANTOS. The goals of this program are to make the Soviets aware that the United States Congress knows of their ubiquitous persecution of Christians, and also to let specific imprisoned believers know that someone knows of their plight and cares enough to act on their behalf.

Allow me to introduce someone whom I greatly respect as a brother in Christ and whose release from prison I will continue to seek. Baptist Pastor Dimitri Minyakov is a 64-years-old man with asthma and tuberculosis. Two years ago, Dimitri was sentenced to 5 years in a strict regimen labor camp for encouraging the separation of church and state, speaking on behalf of persecuted Christians and teaching Christian principles to his children. Soviet authorities confiscated his property, expropriated his parental rights and placed his youngest son in a state orphanage where he was educated in the spirit of atheism. A widower and father of five, Dimitri has only once been permitted to see his children—on May 5, 1984. In response to numerous petitions on his behalf, he was moved from northern Siberia to a camp on the Volga River where the climate was less harsh, yet still Pastor Dimitri was in the camp sick-bay and hospital on six occasions in the first half of 1984. In July and May 1984 he was sent to the punishment cell for not being able to work.

A stifling cloud of either ignorance or apathy has kept the United States Government from voicing an opinion about Soviet treatment of believers like Dimitri Minyakov. Documentation of the oppression of Soviet Christians is as old as the Soviet Union itself. What better time than the dawn of the Geneva summit to send a signal to the Soviet Union that the United States Congress can no longer sit idly by. As President Reagan asks the Soviets for an honest and fair effort toward world peace, let us also add our voices challenging them to deal honestly and justly with their own people.

Mr. BERMAN. Mr. Speaker, Yelena Bonner, wife of dissident Andrei Sakharov, has been given permission to leave the Soviet Union on a temporary visa to seek medical treatment. Irima Grivnina, a Jewish refusenik who was involved in researching the use of mental hospitals for the confinement of political prisoners, has been given permission to leave the U.S.S.R. With the release of these individuals the Soviet Union has made a timely gesture to the United States. Our task now is to recognize this gesture, be pleased that Ms. Bonner can seek treatment and Ms. Grivnina has her freedom, and at the same time convey our feeling that human rights must be for everyone, not only a token few.

From the moment the summit meeting between President Reagan and Mikhail Gorbachev became a reality, our primary focus has been the importance of achieving an arms control agreement. The American people will not support a treaty, however, until the Soviet Union indicates a willingness to cease the oppression of political prisoners, put an end to torture, ease restrictions on emigration of Jews, and comply with the Helsinki accords.

The history of human rights abuse in the Soviet Union and the Eastern bloc countries is familiar to everyone. All one has to do in the U.S.S.R. to be accused of circulating anti-Soviet slander is to share an opinion with the wrong person. As far as we know, no prisoner tried on this charge has ever been acquitted.

Others who have attempted to exercise their rights have been confined to psychiatric institutions. Soviet authorities then rule that the accused is incapable of standing trial—in effect, imposing an open-ended sentence of detention. Hospitals in the U.S.S.R. are used to silence individuals like Valentin Sokolov, a poet who died in a mental institution after spending 24 years as a prisoner of conscience.

More subtle forms of confinement await those who choose to maintain their religious beliefs. Any organized religious group in the U.S.S.R. must register with the authorities, agree to do no charitable work, and pledge not to teach religion to children. The punishment for violating the laws separating church and state is up to 10 years internal exile. For Soviet Jews,

harassment, beatings, and imprisonment is often the reply to a request for an exit visa.

Conditions in the Eastern bloc countries are not much better. In Bulgaria, where 5 years imprisonment awaits anyone who expresses views not approved of by the authorities, there are an estimated 250 political prisoners. In Poland, kidnaping, beatings and killings, were used to pressure Solidarity members and to silence their continued, courageous opposition to the government. In Romania, administrative punishment includes the denial of wages, food, and medicine.

Until there is some sign that the U.S.S.R. will begin to adhere to the guarantees of the Helsinki accords on a widespread basis, the American people will have great difficulty accepting an arms control treaty. It is our hope that Mr. Gorbachev realizes he has a unique opportunity to ease the tension between the United States and the U.S.S.R. and to provide an ideal atmosphere for meaningful negotiations, but only if he makes meaningful progress in human rights.

Mr. BILIRAKIS. Mr. Speaker, first, let me commend the gentleman from New Jersey [Mr. COURTER] for holding this very timely special order on the human rights situation in the Soviet Union and Eastern Europe. As the summit between President Reagan and Soviet Premier Gorbachev nears, it is not only fitting but essential that we focus attention on the human rights record of the Soviet Union and her Eastern European satellites.

In July of this year, I had the privilege of traveling to the Soviet Union to meet with some of the victims of that country's restrictive immigration policies. Thousands of Soviet Christians and Jews are prevented from freely practicing their faiths. Those who wish to emigrate to the country of their choice to be with their family in a free environment are denied that privilege and, instead, face the endless harassment reserved for those who do not conform to the State's narrow definition of a good citizen.

These human rights abuses exist despite the fact that the Soviet Union's constitution guarantees the right to profess or not to profess any religion or to conduct religious worship or atheistic propaganda. If we look at the record, it would appear that at least this section of the Soviet constitution is itself propaganda, because the right of individuals to worship as their faith prescribes is certainly being denied. We must also assume that Soviet compliance with the 1975 Helsinki accord, to which they are a signatory, is more a matter of myth than reality, because the right to emigrate freely is also being denied.

Perhaps the group of Soviet citizens suffering religious persecution with whom we are most familiar is the Soviet Jewish community. I think we are all aware of the grim statistics that show the decline in Soviet Jewish immigration and are familiar with the cases of many individual Jewish refuseniks who have been brought to the attention of the Congress. Upon returning from the Soviet Union this summer, my colleagues who accompanied me on the trip and I held a special order similar to this which focused on the plight of Soviet Jews, and we must continue to press for an end to their harassment and for a less restrictive emigration policy from the Soviet Union.

However, many, Soviet Chiristians are also suffering as a result of their unwillingness to surrender their faiths, and I want to take a few moments to focus on these courageous individuals. Soviet Christians of all faiths are literally a people under seige. Active religious belief and education results in exclusion from the Communist Party. This is tantamount to becoming a persona no grata in Soviet society and often means the loss of job and professional status.

Prior government approval is needed for every group of Christians who want to meet to practice their faith, and frequently, this permission is denied. Those who meet without permission subject themselves to the risk of imprisonment.

Religious believers are probibited from engaging in charitable activities, proselytizing, or providing religious instruction to their own children. There have been cases in which the government has actually removed a child from his home and family because his parents have refused to abstain from teaching him about his faith.

One small effort I have undertaken on behalf of those Soviet Christians held hostage in their own country is the adoption of one such individual. Irina Ratushinskaya is a 31-year old Russian Orthodox Christian who was arrested in September 1982 on charges of anti-Soviet agitation and propoganda. What crime had Irina committed? She had circulated her poetry, most of which reflects her Christian faith, and she had associated herself with the free trade movement.

For her crime, Irina was sentenced to 7 years in a strict regime camp and 5 years of internal exile. This brave woman engaged in a number of hunger strikes in late 1983 and 1984 to demand her right to see her husband. In March of this year, she was finally granted a short visit with him. It is on behalf of Irina and her husband, and so many others like them, that we must demand positive action to restore human rights to all Soviets citizens.

As an American of Greek ancestry, I was also quite interested in learning about the plight of Greek Orthodox individuals in the Soviet Union when I visited there, and I was very dismayed with the information I received. Some 25,000 to the 500,000 Greeks in the Soviet Union are seeking to emigrate to Greece and elsewhere but virtually none are currently receiving exit permission.

Those knowledgeable with the issue attribute the decline in Greek emigration—from 100 persons a month a few years ago to the present level of 1 or 2 families a month—to the population goals of the Soviet Union. Maintaining Greeks and other so-called white nationals in Central Asia as a balance to the rising Asian-Islamic population requires that those seeking to leave are denied permission to be reunited with their families and to return to their homeland.

I know that the plight of these Soviet citizens reflects the status of human rights in Eastern Europe as well. That is why it is so important for the United States to continue to make human rights an issue in all our dealings with these countries, and not only during the upcoming summit with the Soviets. These individuals have refused to be defeated despite tremendous pressure to abandon their faith and their dreams of freedom. We owe it to them to keep the light of truth shining on them, and I appreciate this opportunity to make my small contribution to that goal. Thank you Mr. Speaker.

Mr. COURTER. Mr. Speaker, I yield back the balance of my time.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Saunders, one of his secretaries, who also informed the House that on the following dates the President approved and signed bills and joint resolutions of the House of the following titles:

On October 11, 1985:

H.R. 2475. An act to amend the Internal Revenue Code of 1954 to simplify the imputed interest rules of sections 1274 and 483, and for other purposes.

On October 22, 1985:

H.R. 2410. An act to amend the Public Health Service Act to revise and extend the programs under title VII of that act.

On October 28, 1985:

H.J. Res. 79. Joint resolution to designate the week beginning October 6, 1985, as "National Children's Week";

H.J. Res. 386. Joint resolution to designate November 25, 1985, as "National Day of Fasting to Raise Funds to Combat Hunger";

H.J. Res. 407. Joint resolution designating the 12-month period ending on October 28, 1986, as the "Centennial Year of Liberty in the United States"; and

H.R. 2174. An act to provide for the transfer to the Colville Business Council of any undistributed portion of amounts appropriated in satisfaction of certain judgments awarded the Confederated Tribes of the Colville Reservation before the Indian Claims Commission.

GRAMM-RUDMAN-MACK DEFICIT REDUCTION ACT OF 1985

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. BARTON] is recognized for 60 minutes.

Mr. BARTON of Texas. Mr. Speaker, as we meet today, at this very moment over in the Longworth House Office Building, the conference committee between the House of Representatives and the other body of Congress is meeting to evaluate the Gramm-Rudman-Mack Deficit Reduction Act of 1985. This legislation, which has passed the other body, if adopted, will mandate a balanced

budget by this Congress by the fiscal year 1991.

In my opinion, Mr. Speaker, nothing could be more important for this Congress to adopt than the Gramm-Rudman-Mack legislation which would give us a balanced budget by fiscal year 1991, and which would at least give us the mechanism to begin to get spending under control.

My colleague, the gentleman from North Carolina, BILL COBEY, is joining with me in this special order to discuss the problems that excessive deficits have created for our country, and what we can do to bring them under control.

Mr. COBEY. Mr. Speaker, will the gentleman yield?

Mr. BARTON of Texas. Mr. Speaker, I yield to the gentleman from North Carolina for such comments as he would like to make on the problems of the deficit.

Mr. COBEY. Mr. Speaker, I thank my colleague for yielding and for taking this special order. I think the thing that is most significant is that we finally have a deficit plan to deal with this deficit and reduce it by 1991 to a balanced budget.

Without giving the specifics of the bill right now, and I think it has been discussed a lot, and we may get into that a little bit later, but let us review the situation on budget deficits in this country. We can look right now at the fact that we just got the news for fiscal year 1985 that ended in September, and I will tell you what is playing back home in North Carolina and show you this paper. This is headlines in the Saturday paper and it says, "U.S. Deficit Hits Record $211.9 Billion." This is at the top of the paper, the Durham Morning Herald. So this is no record to be proud of.

It also lists the years from 1960 to 1985 and says that again we have a deficit. This makes 25 out of the last 26 years that we have had a deficit.

□ 1615

The only year that we had a surplus was in 1969; it was really small in terms we are talking about today; it was $3.2 billion. When you look at this kind of record, you have to believe that it was probably a mistake; that it was an oversight; that it was an accident that we ended up with a surplus.

Now, I don't know how it was when the gentleman from Texas [Mr. BARTON] was going through school; and I went to some of the finer schools and yet, the mentality of the age in the colleges and universities at one time was, "Don't worry about budget deficits. We owe it to ourselves." I do not know whether anybody here in the House heard that, but when I talk to groups out in my district, I get a lot of nods out there.

Well, the chickens have come home to roost. We finally realized that just like personal debt, business debt, family debt, whatever kind of debt, you finally have to pay for excessive spending and deficits.

Let us look at our total national debt. The on-book deficit we are talking about raising that ceiling; it is over $1.8 trillion now, and we are talking about moving it to over $2 trillion so we can pay our bills.

I think it is significant that we are looking at Gramm-Rudman-Mack at Halloween, and my son was reading the cartoons this Sunday at home, and this is Frank & Ernest. This is a cartoon that is titled here, "U.S. Department of the Budget" and it has two computers talking to each other.

One computer says to the other, "What are you doing for Halloween?" And the other computer says back: "I think I'll do a mass mailing, telling everyone their share of the national debt." It is incredible the amount of responsibility and deficit and debt that we are passing on to our children. I will tell you, my son, only 13 years old said, "Dad, would you explain this to me?" It took me about 3 seconds to explain it to him. He instantly computed what the problem is.

Mr. BARTON of Texas. Perhaps we need to bring him to the Congress and let him explain it to some of our fellow colleagues who evidently have not discovered what the problem is yet.

Mr. COBEY. I think the gentleman makes a valid point; that this is something that even young children can understand, but apparently is very difficult to understand here in the House of Representatives.

Also, I think we ought to look at the consolidated statement, financial statements of the U.S. Government. I do not think a lot of people even know that this exists, but it can be obtained through the Department of the Treasury.

This gives a lot of financial information including the balance sheet, just like a business would have a balance sheet, for the United States and also a revenue and expense statement just like a business would set up statements.

The revealing thing from this statement is the fact that our debt is not just $1.8 trillion, going on $2 trillion, but our debt is more in the order of $3.8 trillion. Because when we look at our assets, which are $938 billion, and then take our liabilities, subtract those assets from the liabilities—normally you are subtracting liabilities from assets or you are in a bankrupt condition; you are not even in business, but in this case we subtract the assets from the liabilities, which are $4,736 billion, and what we find out is that our accumulated position as of last fiscal year, which was not 1985, but the 1984 fiscal year which is the latest data we have, is that we have an accumulated position of minus $3,799 billion. We are bankrupt right now.

Looking deeper into this situation, the Comptroller General who put this together for the Secretary of the Treasury says that under the assets, that the accounts receivable and the loans receivable are overstated in this document.

Going a little bit further, I know that there are plenty of people out there that are in business when the IRS comes knocking on their door, they have to present audited statements of what their business is doing financially.

Guess what? We cannot even audit the finances of the U.S. Government. This is not an audited statement. It is incredible that we require of people things that we as a government do not even require of ourselves.

Breaking down the components of this debt and looking at it, we realize that in our current budget, the cause of this enormous debt, that the third largest portion of each fiscal budget is the interest on our debt.

In 1984, it was $129 billion; I do not know the exact figure for fiscal year 1985, but we are estimating it will be at least $142 billion next year.

Now there are two ways to solve a deficit situation. I know that some people have other ways: I know that economic growth is an important part of any progress we are going to make on the deficit, but there are basically only two ways; Either increase revenue or decrease expenses.

What we are really talking about, as the gentleman from Texas [Mr. BARTON] knows, is reducing the rate of growth of spending, because spending has increased enormously just over the last 10 years.

Taxes are not the answer. Taxes will cripple this thriving economy that we are so fortunate to live in. Let us look at a few facts: In 1965, the revenue that the Federal Government was taking in as a percentage of gross national product; which is goods and services produced in this country, was 17.7 percent. Of course we were overspending in that year; we were spending 17.9 percent of the gross national product.

In fiscal year 1985, however, we are taking in more money than we were back in 1965, we are taking in 19.2 percent instead of 17.7 percent of the gross national product, but we are spending at much greater levels. We are up at 24.6 percent of the gross national product.

A lot of that, of course, is the interest expense that has been growing and growing as we have become deeper in debt.

There does not seem to be any will right here within the body to deal with expenditures, in the face of the budget deficits.

Let us look at what happened on the reconciliation package last week. I think that we ought to note within this body, in case anybody did not realize when they were voting, that they voted themselves a 10-percent pay increase. Five percent in 1987 and 5 percent again in fiscal year 1988, and these are people voting for a pay increase that have not done the job that the American people put at the top of the list; it is not just in North Carolina.

Budget deficits, not tax reform and other things, is the No. 1 thing that the American people want to deal with.

Mr. BARTON of Texas. Reclaiming my time, I would like to comment on that, Mr. Speaker.

The gentleman from North Carolina [Mr. COBEY] has been talking about the budget reconciliation progress in the Congress. There is an interesting editorial in the Wall Street Journal of yesterday, October 29, entitled "Budget Cutting Made Easy" and I think it would be illuminating for Members of this body to read, if perhaps they have not yet had the opportunity.

I would like to read that editorial into the RECORD at this time.

The title of the editorial is, "Budget Cutting Made Easy."

Congress finally has figured out a way to cut the federal deficit. It's called paralysis. As long as Congress fails to boost the federal debt ceiling it will have the best of all possible worlds. It can appropriate funds to its heart's content, to subsidize farmers, Amtrak riders, subway builders, merchant seamen, doctors, lawyers, beggarmen, chiefs. But if the President can't borrow, he can spend only what the government takes in. So, in a process called "deferral" he simply tells a lot of constituencies, "We'll send you the money when we get it."

Compared with what we've had, it's not a bad way to run the government. In the process of deferring, the President must make economic choices, deciding, for example, whether it is more important to build a shopping center in Des Moines or protect the U.S. from nuclear attack. Any process that forces such choices represents progress—a kind of shotgun item veto.

Congress has demonstrated once again this year that it cannot make economic choices on its own. The separate House and Senate "deficit-reduction" bills to be reconciled this week were properly described to the Associated Press by an anonymous OMB official as mostly phony, except of course for the new taxes. Appropriations bills currently under consideration by the two bodies, for agriculture, transportation, labor, health and education, are billions of dollars over budget. In forecasting federal spending, it is appropriations bills, not budget resolutions, that count.

So what "deficit reduction" really distills down to is an effort to wrangle some new taxes. The Senate wants to introduce the equivalent of a European-style value added (VAT) tax into the American tax system, under the guise of a special levy to clean up "toxic wastes." It also wants to add a new import duty to finance "worker retraining" in the U.S.; since there has never been a huge demand for retraining under existing programs, it must be assumed that the main objectives are revenues and a little discreet protectionism.

As always, revenue enhancers have some guileful arguments. They say, for example, that just-released budget figures for fiscal 1985 demonstrate that the federal deficit expanded even in a time of economic recovery. The deficit did expand, to $211.9 billion from $185.3 billion the preceding year, and even though the recovery slowed sharply this year there was indeed a recovery of sorts.

Now, we oppose making deficits per se the center of fiscal policy. The U.S. public sector as a whole (federal, state and local) had a smaller net deficit relative to GNP last year than Japan, for example. Japan need not be sanguine, but its recent performance suggests that large debt is less of an obstacle to growth than heavy taxation. More tellingly still, economist Alan Reynolds points out in the fall Cato Journal that, despite all the talk of deficits, total U.S. public debt has held steady at 46% of GNP since 1970. This is certainly no reason to cave in to the tax increasers.

The U.S. should be concerned about its deficit not because it is a clear and present danger to the U.S. or world economy but because the deficits reflect an underlying inability to control the growth of federal spending, which in turn reflects an institutional breakdown. Federal spending habits are not only wasteful but destructive, as when they make American farmers wards of the government or create pressures for new taxes.

So the most important thing to notice about the newly released deficit figures is that none of the increase was caused by declining revenues. Indeed, revenues rose 10.1% in fiscal 1985 from fiscal 1984, considerably faster than inflation. So much for the notion that the cause of the deficit is a "declining revenue base" wrought by the Reagan tax cuts.

The deficit grew because spending climbed by 11.3% over 1984. And Congress is even now in the midst of again demonstrating its inability to contain over-budget appropriations bills. Unless something is done, outlays will continue to climb fast this fiscal year, and the year after, ad infinitum. The problem is that there is no budget process; Congress has become nothing more than a log-rolling arena.

Which brings us back to government by paralysis and budgeting by deferral. We know some folks find the current situation appalling, but we hope the administration seizes the deferral opportunity with alacrity. We could do worse.

□ 1625

Well, the Wall Street Journal, I think, very succinctly highlights the problem. We have got to get spending under control. Gramm-Rudman-Mack does this. It sets us on a path of declining deficits each year between now and fiscal year 1991.

I think it makes sense that we adopt this. I personally will not support any tax increases. I feel we have to get spending under control.

As the Wall Street Journal points out, spending has continued to rise in spite of our best cost-cutting efforts. So we have got to get Gramm-Rudman.

Mr. Speaker, I yield to the gentleman from Texas, Mr. ARMEY.

Mr. ARMEY. I appreciate the gentleman yielding.

I also appreciate the gentleman taking this special order and discussing this topic.

There are so many things that we could say about this. Obviously, so much attention is focused on the deficit and our ability, given this opportunity, to put an end to the deficit. I think we need to understand what that means. The first thing we do with Gramm-Rudman is we foreclose borrowing as an option. That really forces us into a choice of configuration that is very narrow.

We can choose to spend, but we must match our spending against our taxes.

We cannot hide the bill for current spending through borrowing and shift it on to a future generation.

This is what I think is one of the most important aspects of this initiative.

The other is that it defines a limit. One of the problems we have in this body is, we deal with numbers that are so large that they truly become mind boggling, and we lose sight of the fact that we have limits. When we go home in our own budgets, we understand it. It always reminds me of the discussion I remember having heard between a couple of farmers in the countryside. One farmer was trying to find out: What is a Communist? The other farmer says, "Well, a Communist is a guy, if he has a million dollars, he takes half and he gives you half."

The guy says, "Well, I can't understand that million dollars. It is so much."

He says, "Well, a Communist is a guy if he has 500 acres, he takes half and he gives you half."

And the guy says, "I can't understand Communists. It's too hard for me to understand such big numbers."

He says, "Well, let me see if I understand, let me see if I have the idea. A Communist is a guy, if he has got $50, he takes $25 and gives me $25.

"Well, you have $50 there, you give me $25, and you keep $25."

The other guy says, "Of course not." The other guy says, "Why not?" He says, "Well, I got $50."

When we bring it down to my level, when they are really taking my $50 and giving you half, and taking the $50 away from me as a private citizen, taking it out of my sphere of influence, I have a great deal of confidence that I, if I spend my $50, will spend it wisely.

I think it is an article of fact that an individual spends his own money much more wisely than he does somebody else's.

The problem is, as we take that into the Federal sphere of influence, as we

bring it into our spending patterns, we are simply not as wise as individuals spending on their own part, especially if we do not have an awareness of limits.

This is what I think the Wall Street Journal is trying to point out to us. We must first understand that we have a limit. We must operate within that limit. We must make hard choices facing tradeoffs, knowing we can only spend more in one area of the budget if we are willing to make cuts in the other.

Or, alternatively, we have got to turn right around to the American taxpayer and say, right now, "For this spending, at this time, we are going to have to ask you to give us more taxes."

Now, the taxpayers of America are very certain about this. They do not want to give us more tax revenue because they believe and they know that they can spend their money much more wisely than we can.

Now, the final analysis is, we must have discipline, the decisions have to be made here. Again, in your Wall Street Journal editorial I think the point was made very clearly: It is not in budget rhetoric where these decisions are made or fail to be made, it is in appropriation bills.

The American public are saying to us: "We have got to have from the American Congress discipline in the appropriations process. We will not accept you any longer operating on each appropriation bill separately as if it were not related to the other items in the budget and operating without an awareness of the limits."

That is why we need Gramm-Rudman and we need it now.

Mr. BARTON of Texas. I have been told, Mr. Speaker, that the gentleman from Texas is organizing a group called budget commandoes whose sole purpose is to serve as a watchdog on these appropriation bills and make commando raids to try to reduce spending when they feel that it is appropriate to do so and they have a chance of success.

Would the gentleman from Texas look to comment on that idea?

Mr. ARMEY. Well, that is precisely right. Having been a new Member of this Congress, I sat and watched, institutionally, how do we function here? We function through committees. In fact, in the committees we generally tend, all too often tend, to ask for more spending. Now, the fact of the matter is, the American people, the public interests of the American people are represented right here on the floor of this body. It is at this point that we see the comprehensive viewpoint of the American people.

It was with respect to that that I decided to organize a group of people who wanted to come on the floor of the body here, represent the general interests of the American people, and take spending cut amendments to the floor on behalf of the American people. We will hear more about that later. If I may return again to this question of Gramm-Rudman, we have to understand that the hour is growing late here.

In the other body, when they tried to find an avenue or a vehicle by which they could bring the Gramm-Rudman proposal to passage, the only vehicle they have that had any opportunity really of achieving that was to tie it to this vote to raise the debt ceiling.

I think that, in itself, is a rather sad testimony. They have to take the opportunity that is presented by the fact that we must raise the debt ceiling just to pay our current obligations, to take a piece of legislation into a place that will give us the ability to cut future needs for debt ceilings.

Yes, we must cut spending now, but we have not found a way outside of Gramm-Rudman.

We have got to move on this fast. Now, we have to also understand that we are living in some jeopardy here. Unless we get this thing resolved this week, the Federal Government is going to have a very difficult time meeting its current obligations, beginning at the end of this week, and the American people, I think, need to contact Members of this body and insist that we take action this week to save the future financial stability of their families and of their country.

Again, Mr. Speaker, I appreciate the gentleman yielding.

Mr. BARTON of Texas. I thank the gentleman from Texas.

Mr. Speaker, I think it is somewhat enlightening when the gentleman talks about the effort to raise the debt ceiling that the other body had to vote straight up or down to increase the debt ceiling and, in doing so, did attach the Gramm-Rudman amendment.

In this body, we very conveniently hid a debt ceiling increase in the budget resolution which we passed back in August that automatically raised the debt ceiling so that the borrowing would match the revenues needed to fund the budget process.

This Congressman voted against that budget, and that was one of the main reasons, because I do not believe that you try to hide what you are doing to the present taxpayers and to future generations.

I personally do not think we ought to raise the debt ceiling. I think we ought to reduce spending and begin to pay off the national debt.

I think it is somewhat indicative of what some Members of this body really feel about reducing spending. Not only do they not want to reduce spending, they do not want to be up front with the American people about increasing and continuing to increase the level of borrowing necessary to continue the expansive spending programs that we have in this country.

Mr. ARMEY. Again, I want to thank the gentleman from Texas for taking this special order. I think one of the things we might want to consider is: The very fact that the gentleman is here in this special order, working late, is evidence of the fact that he has gone home, as I have gone home, and Mr. COBEY has gone home, and we have listened to the American people, and they are telling us a very clear message: They want action, and they want action now.

I think the gentleman from Texas and the gentleman from North Carolina will agree that if this body does not perform within the context of this week and deliver the goods for the American people, I think we can be prepared to be dealt with very severely.

Mr. Speaker, I again want to congratulate the gentleman for his dedication and willingness to take this special order.

Mr. BARTON of Texas. I thank the gentleman.

Time does not permit me to read all the editorials on the Gramm-Rudman Deficit Reduction Act.

□ 1640

But I would like to read the headlines and submit these for the RECORD.

The Fort Worth Star-Telegram, on October 8, ran an editorial, entitled, "The deficit. Gramm plan sensible path to balanced budget."

The Dallas Morning News, on October 18, ran a headline on their editorial page, entitled, "Over to you, Tip."

Again, the Dallas Morning News, back in September, ran an editorial, "Budget process: Just slightly flawed." That is an understatement.

The Lufkin News, Congressman CHARLES WILSON's district, ran an editorial, "A move to balance the budget," which was supportive of the Gramm-Rudman process.

The Houston Chronicle, on October 6, editorialized, "Congress needs to force discipline on budget."

The Lubbock Avalanche-Journal, October 13, ran an editorial, "Big spenders held accountable. Gramm plan offers way out."

The Amarillo Daily News, October 14, ran an editorial, "Balanced budget issue in the Democrat's court."

It goes on and on.

My colleague from Texas commented on people having spoken, the people are speaking, and the editorial writers in this country are speaking that we need to get the budget process under control, we need to pass Gramm-Rudman-Mack, we need to bring some fiscal discipline back to the process.

I would like to yield now to the gentleman from North Carolina again, Congressman BILL COBEY.

Mr. COBEY. I thank the gentleman for yielding and I thank him for taking this special order. I appreciate the Members from Texas who seem to show a great deal of fiscal restraint and time and time again back up their rhetoric with their voting.

We have to deal with these appropriation bills. As I said earlier this year, when I brought an amendment to the floor, an amendment to the legislative appropriation budget, we have got to start right here in the House. We cannot look out to America and look out to the people, many of the people who are in great need, and say, "Look, we want you to sacrifice," unless we as the House of Representatives, as an institution, are willing to sacrifice.

Congress itself will spend approximately $1,290,000,000 right here next year, a flood or a blizzard of mail going out of here, costs of staff going up.

When I came to the House floor—and the gentleman in the well backed this amendment, I remember—I said to the Members, "Can't we cut it just a little bit? Can't we cut it 2.7 percent, just $34 million?" That is not a lot of money in terms of the money we are talking about. But it would have been a very, very important gesture to take it back to fiscal year 1985 levels for appropriations to run Congress instead of jacking it up even more millions of dollars. And included in that budget was a 41-percent increase in the cost of sending out mail, more elevator operators to operate these automatic elevators around here, and 17 percent increase in the salaries paid to congressional staffs.

Mr. BARTON of Texas. How much of an increase?

Mr. COBEY. Seventeen percent.

Mr. BARTON of Texas. In 1 year?

Mr. COBEY. I know that does not go to the individual employees, but this is further increasing the numbers of people we have around here. As I have observed, people are falling all over top of each other now.

Did the gentleman want to speak to that point?

Mr. BARTON of Texas. I do not know that there are many people in the private sector this year who are going to get a 17-percent increase in salary. I find that a little difficult to believe, that we would be voting that kind of an increase in our congressional staff budget in view of the fact that inflation is running less than 4 percent, and I believe the average increase in pay in the private sector, when there are increases, is somewhere in the neighborhood of 4 to 6 percent.

Mr. COBEY. Well, I want to submit to this House that I believe that some of the Members may need to go back and look at their basic civics books again, because time and time again—and I say this with all due respect to the Members—I hear people come and blame the President, President Reagan in this case, for the budget deficits.

Now, President Reagan has not been President for 25 out of the last 26 years while we have had this deficit, and the fact of the matter is it does not matter whether it is a Republican in the White House or a Democrat, it does not matter whether it is President Reagan, or whoever it is. When you get back to basic government and civics, the executive, which the President represents, spends the money that is appropriated by the Congress. No money is spent by any President, any executive, unless it is approved first here in the House of Representatives and the Senate.

We are the ones who are to blame for this deficit, this institution, the big spenders of the past. Every dime that is spent comes right out of here. In the real sense, we are the board of directors or board of trustees of this country, and any time we point a finger at the executive or any President in the White House, there are three fingers pointing back at us. We are the ones who are responsible.

We have got to stop this railing against the bureaucracy, and that sort of thing. Yes, there are plenty of things going on in the bureaucracy that need to be corrected. But we are the ones who should be correcting it. Every board of trustees of any company or university is held responsible ultimately—legally, even—for the officers' conduct and what happens in that company.

Mr. BARTON of Texas. One possible solution to this problem, speaking of the board of directors, if you assume that each of the 435 Members of the House is a member of the board of directors, we have got a trillion dollar budget this year, if we divided that proportionately, I believe each Member of Congress would be responsible for a little over $2 billion; so perhaps you could take charge of $2 billion and Congressman SMITH could take charge of $2 billion and I could take charge of $2 billion, and perhaps that way each in our own area we could get spending under control.

I feel there are enough of us who would handle our responsibilities in a fiscally responsible fashion, and perhaps that might bring it down if Gramm-Rudman happens not to pass.

Mr. COBEY. If the gentleman will yield further, what is so great about this Gramm-Rudman is that it gives us a chance for action instead of all this rhetoric all the time. We can postpone reality only so far, and that is what has been happening for years.

Certainly, in the long term, Congress has got to do a better job of oversight, in evaluation of programs. We can also do a better job in the short term. We need a balanced budget amendment to the Constitution. But that is a long-term solution also. But we have got to keep the pressure there.

Mr. BARTON of Texas. On that point, in this Representative's opinion, what we need to do is pass Gramm-Rudman this week, and we have to do it by Friday or the Government is totally out of borrowing authority, and then, in the next 5 years, get a balanced budget amendment, perhaps Congressman CRAIG's, which right now has 217 cosponsors, get it passed through the House, through the other body, get the President to sign it, send it to the States for ratification, once we get three-fourths of the States to ratify the amendment, perhaps by 1991, it will be a part of our Constitution and we will have a permanent spending control in our Constitution.

Speaking of oversight, we have got one of the best overseers of the Federal budget that there is in Congressman BOB SMITH of New Hampshire who is with us, and I would be happy to yield to my good friend, Congressman SMITH, for his views on this subject.

Mr. SMITH of New Hampshire. I thank the gentleman for yielding, and I thank him also for his leadership in getting this matter before the public with this special order tonight.

Mr. Speaker, I would like to accept the gentleman's challenge on behalf of the 550,000 people in my district and the approximately 1 million people in our little State of New Hampshire, that I would be happy to take up my $2 billion right now, beginning right now, get my $2 billion out, and I know that Mr. COBEY here will get his $2 billion, you will get yours, and we have got $6 billion out. That is more than the Congress has done in the last 10 months anyway, so we have got a good start here tonight. If we can just get a few more people in here to join us, I think we would be in good shape.

I would like to pick up on a point that my colleague, Mr. COBEY, made. He is absolutely correct. If rhetoric could balance the budget around here, we would have a $2 trillion surplus rather than a deficit. The truth of the matter is, we, collectively—we, this Congress—does not want to balance the budget, has not wanted to balance the budget, and probably will not balance the budget without something like Gramm-Rudman, which gives us, as has been said here earlier, the discipline and the teeth to do it.

With all due respect to the gentleman from Texas, there is another Senator on that bill, his name is Rudman, and he is from New Hampshire, so if you would be kind enough to let me include his name in there—we say

Rudman-Gramm in New Hampshire, but we will let you get away with Gramm-Rudman, since you have the special order.

Mr. BARTON of Texas. The name is not important. The substance is.

As President Reagan says, it is not so important who gets the credit but, more importantly, that the job gets done.

Mr. SMITH of New Hampshire. I think, in terms of the rhetoric, if I could just point out a couple of things, politicians are the only people in the world who create problems and then campaign against them. That is pretty much what happens around here.

Did you ever wonder why we have a deficit? The Democrats, Republicans, all, are supposedly opposed to deficits, yet we have $200 billion deficits and we have a $2 trillion debt, yet everybody is against it. I think, from a constituent's point of view, and from all of our constituents' points of view, we should point out that they do not propose the Federal budget, they do not vote on the Federal budget. We do. And we are the ones in this House of Representatives who, if we have a lousy Tax Code, who wrote the Tax Code? If we do not have an adequate defense, who did not provide an adequate defense? If we have deficits, who provided those deficits? I think that is the frustration that the American people feel when they see us day in and day out on the floor of the House of Representatives and hear what we say on the radio, read what we write, what we say in the newspapers—they begin to think, "What kind of hypocrisy is going on?"

I think that, basically, when it boils down to the bottom line, 100 U.S. Senators and 435 Members of Congress are, basically, responsible, because they vote on all of these programs, whatever they be, all the way across the board. And I think it is a crisis in confidence that the American people feel. And to top it off—and I think Mr. COBEY brought it up—we had the gall—collectively, we—on the floor of this House last week to vote for a pay raise, to vote ourselves a pay raise.

Mr. BARTON of Texas. Did the gentleman from New Hampshire vote in the affirmative on that or in the negative?

Mr. SMITH of New Hampshire. Well, I think the gentleman knows how I voted. I did vote in opposition to it and will refuse that pay raise, because I believe very strongly—and I think many of us do in this body—that we ought to earn the money before we take it. And we mortgage our children's future in a selfish manner, which we have been doing and probably will continue to do unless we get 218 people with the courage to vote for Gramm-Rudman, if we do not get that kind of vote on the floor of this House, we are going to mortgage our children's future. That is a selfish act and it is uncalled for. I think it is time that the American people have a call to arms and begin to look real hard at, first, who votes against Gramm-Rudman and, second, who voted for that pay raise. I do not care how you hide it—I know we hid it in the budget reconciliation bill, and all that—it was pointed out by our colleague on the floor of this House by the gentleman from Pennsylvania [Mr. WALKER], and he said so all will know, so that there will be no misunderstanding, "in this bill that you are voting for is a pay raise." Mr. LATTA gave us the opportunity to amend it out, and that was defeated. I think the American people ought to take a good look collectively at all of us and individually at all of us and say, "Let's call a spade a spade and let's lay it on the line, folks. You don't want a balanced budget, you want deficits, you want debt, because that's what you are voting for."

The gentleman from Texas and the other gentlemen here tonight who are talking about this issue, I know how you feel and I know how you voted. But I think that it is up to each individual congressional district and each voter to take a look at his or her Representative and see just how they did vote and see whether their rhetoric in fact matches their vote.

Mr. BARTON of Texas. I believe, on the Latta amendment to reduce the spending by $3.5 billion, which also would have eliminated the pay increase, the vote was 219 to 210.

Mr. SMITH of New Hampshire. That is correct.

Mr. BARTON of Texas. So if six Congressmen had changed their votes to the negative, as you and I and Congressman DELAY and Congressman COBEY did vote in the negative, we would have defeated the pay increase and we would have deleted $3.5 billion in spending, which we desperately need to do.

Mr. SMITH of New Hampshire. I think the gentleman is absolutely correct. To hear the rhetoric from some of our colleagues in this body, it is as if there were some mystical force out there. We use terms like "bureaucrats." Well, who created bureaucrats? Congressmen created the bureaucrats.

Another mystical force you hear is "the economy," "economic indicators." Your hear "inflation," "politics." These are all of the mystical terms that are thrown out that nobody understands and which have a definition a foot and a half wide. The truth of the matter is, if you take all of those terms and strip them away, it is 218 votes on the floor of the House of Representatives.

I would like to say to all of those individuals who feel so strongly about a balanced budget, who lobby, who come down here to Washington and say, "Please, Mr. Congressman, vote for it," and all of that, I think what we need to do is realize—and I think this puts it right on the line, and I might step on a few toes—the truth of the matter is, you do not have to lobby, you do not have to pressure, the American people do not have to write letters at all if they have got the right people here, and we need 218, and we do not have it. I am going to be watching, when this bill comes to the floor, and I want to see who is out there, who has got the courage to stand up and say, "I am willing to say that we are going to balance this budget in 5 years. I am going to follow that discipline."

We all have disagreements. I think that this is the key. We are surrounded by Texas tonight, but I know the gentleman from Texas has the same feeling.

□ 1655

Mr. BARTON of Texas. That is a warm feeling, is it not?

Mr. SMITH of New Hampshire. Yes; I am trying to show you that New Hampshire has that same frugality. You are learning, I think. I think we need to really, people need to really understand just exactly what is happening. It is hypocrisy in its worst form. We represent the American people; they overwhelmingly support a balanced budget. Most of them support a balanced budget amendment to the Constitution. But certainly a balanced budget. They want it; they say they want it. But the issue is priority. I think one of the saddest things, and I would like to mention one specific and then I will yield back to the gentleman, in this prioritization is the letters that come in from special interest groups. There are some now, and I am sure we are all getting them, from the veterans. As if this bill will cut disabled veterans. Nothing in this bill changes what the Congress wants to prioritize. If the Congress desires to cut veterans' benefits, I suppose they could do it. I am not going to do it; I do not think anybody here is going to vote to cut disabled veterans, but that is the kind of input that is going out because there is a misunderstanding about what this bill does.

This bill provides us the discipline to balance the budget. This Congress sets the priorities, and I want to make it clear to the American people this Congress sets the priorities. And you know what? I do not want to take one penny from a disabled veteran or a Social Security recipient or a spina bifida child. But I will tell you what, I would like to take that billion dollars away from Amtrak which is being given to Amtrak while spina bifida children suffer, while Social Security recipients do not get their pay, and while we talk about cutting disabled vets. That is prioritization. We cannot throw bil-

51-059 O-87-38 (Pt. 21)

lions and billions of dollars out there and try to cover everything. We need to prioritize and Gramm-Rudman forces us to do it.

I commend the gentleman again for calling this special order tonight and bringing this to the attention of the American people.

Mr. BARTON of Texas. I totally agree with the gentleman from New Hampshire. I think your point about establishing priorities is very relevant. There are 43 States, I believe, that have a balanced budget amendment or balanced budget requirement in their State constitutions. They do make these choices; it is difficult. You always have more people wanting to spend money than you have money to spend, but we are elected to make those tough decisions.

Speaking of State legislators, we have one of the best in Congressman TOM DELAY, who, before he became a Member of this body, was an outstanding member of the Texas legislature where he did have to operate under a balanced budget requirement. I would be happy to yield to my distinguished friend and colleague from Texas, Congressman TOM DELAY.

Mr. DELAY. Well, I thank the great gentleman and neighbor from Texas for yielding to me.

Mr. Speaker, as I sat here listening to the wise comments of my three colleagues that are on the floor right now talking about balancing the budget, I sense much the same sort of frustration that I think the American people are feeling.

Most of us here that are for a balanced budget and are for fiscal responsibility and have the courage to stand up and do something about it are constantly hearing this rhetoric and we constantly use the word "rhetoric." I call it an old story that had been going on for years and years and years. We are subjected to it day-in and day-out, even though we stand up and tell these people that are saying we can live with the deficits or saying that we do not want to cut certain benefits for certain people. It is the same old story. As it relates to the Gramm-Rudman amendment, which I call a system by which you can live under a balanced budget, we are hearing the same old story. It is unconstitutional. I think we have proven that it is not. The Gramm-Rudman will hurt defense or social programs. That if you take out Social Security, then you ought to be able to save certain programs in the social arena or you ought to be able to save defense.

Our own President has stood up and endorsed the Gramm-Rudman amendment and has said that I am willing to make those hard choices even though the bill itself does not automatically put it into the hands of the President. Congress has to act first.

I think the gentleman from North Carolina was referring to the charge that Reagan has never presented a balanced budget. I think the American people can remember though that when the President was elected in 1980, he laid out a four-point program. One was to cut taxes, two was to balance the budget and cut spending, three was monetary reform, and four was regulatory reform. He won that great battle of cutting taxes and he was proven right. He has had a hard time cutting spending because this House, and its liberal welfare state Congressmen refuse to do so.

If the President had had his way in 1981, we may be very, very close to a balanced budget today, because he has persented many, many ideas as to cutting spending and balancing the budget. But all this talk aside, we talk about billions of dollars and we talk about deficits and we talk about what it is going to do to certain individuals in our economy. But we never bring it down to what a deficit really means to the American people. Just think about this scenario very quickly, and I will yield the floor back to the gentleman.

What would the people of America think if every man and woman that had a child and made, let us say, $30,000 a year; spent $36,000 a year every year, for, let us just take 10 years. That would amount, including interest, because he would have to borrow the money in order to spend that extra $6,000. Now this man and woman is running out and buying boats and big, beautiful cars and going on trips and doing everything their heart desires, and spending at least 10 to 20 percent more money than they are taking in, and borrowing money to cover their extra spending, that would amount to well over $100,000 in the 10-year period.

What would the American people do if this syndrome was widespread? What would they say about a man and woman who, let us say, got into a car wreck and died suddenly and left their children with over $100,000 in debt because they were squandering their money? I think most American people would say that is horrendous. Why would someone destroy their family that way?

We are doing that in Congress today. Every child, because of the $2 trillion debt, every child that is born today, and I think today is October 30, every child born on October 30, 1985, is saddled with a debt of over $50,000 from the very beginning of his life that that child is going to have to pay back. That is what we are talking about. We are talking about the most immoral of immoral acts, and that is squandering our children's future, and that is a very trite remark that is used on this floor quite often, but we are saddling our children, and not only our children, but our grandchildren with this humongous debt. If we do not do something about it, and I consider this one of our last chances to do something.

I hope that the American people will not sit back and say oh, Congress is not going to do something; they never have, so why should I get involved? I would hope that the American people would see it as I see it, as one of the very last chances that we can cut this deficit and set a priority and set a guideline by which, by 1991, we have a zero balance in our budget. If they do feel that way, if they feel like it is the last chance that they will let their Members know. Then after the vote comes, if those Members that cry that we have to cut the deficit show a lack of courage and not vote for Gramm-Rudman, then they will express themselves in the polls next November.

Mr. BARTON of Texas. I thank the gentleman. I want to ask the gentleman a question but I would like to make a comment first. It is my understanding that for every dollar that we borrow today to finance our spiraling Federal debt, by the year 2000 we will have had to repay $71 just in interest on that $1.

□ 1705

So for every year that we continue to borrow more than we bring in, it causes future taxpayers, which are our children and our grandchildren, to have to repay tremendous sums of money in the future.

Mr. DELAY. What will the gentleman in the well's age be in the year 2000?

Mr. BARTON of Texas. Well, I am 36 today. In 15 years, I guess I will be 51 years old.

Mr. DELAY. Close to retirement.

Mr. BARTON of Texas. I hope so. I will still be in there kicking at 51.

Mr. DELAY. But at the same time the gentleman is getting to the end of his productive life, and what people on this floor are saying to us is "So what. I don't care one way or another."

What I am saying is I am going to be ready to retire on these wonderful programs, and I am going to have a wonderful retirement coming out of this House and my child can pay off all that I have spent and my grandchildren can pay off all that I have spent, and who cares.

Mr. BARTON of Texas. Well, if we do not pass Gramm-Rudman or something very similar to it and continue to spend like we are spending today, by the year 2000, interest on the debt will be the largest item in the Federal budget. The interest alone will be as large as our total budget is today.

Mr. DELAY. If the gentleman will yield further, what happens in a business when the interest on their debt service is so much higher than their

assets? What happens to that business?

Mr. BARTON of Texas. That business goes out of business. It ceases to exist.

The question I would like to ask the gentleman from Texas is since the gentleman did serve in the Texas Legislature and the Texas Legislature does have a balanced budget requirement, was there ever a year that people requested less money than there was available to spend?

Mr. DELAY. Absolutely not. Members would come with their own little special interests and they would ask for more money. But the body as a whole had to sit down and prioritize based upon how much money they had in Texas that next year or that next biennium, and they would have to prioritize these programs and turn down some good programs, turn down some increases, and yet move the money around so that we only spend as much money as we take in.

Mr. BARTON of Texas. Were those decisions and those choices easy to make?

Mr. DELAY. Never are they easy to make. I think that is much to the credit of the legislators that serve in the Texas Legislature. They constantly are showing the courage to stand up and make the right decisions.

Mr. BARTON of Texas. Was the gentleman from Texas ever totally satisfied about the choices that were made on how to spend the money that was available?

Mr. DELAY. Absolutely not, never satisfied, because I never got what I wanted and many other members never got what they wanted. But I think the people of Texas got what they wanted.

Mr. BARTON of Texas. That is my point exactly. If the Congress of the United States, like the Legislature of the State of Texas, is forced to make choices, the people will get what they want because there will be a tremendous give and take and priority decisions will be made and, in the absolute, the available funds will be spent in the most effective fashion and on those uses that the majority of the people support.

Mr. DELAY. I might say, if I can, another great outcrop of this in the State of Texas is that members watch how the money is spent with a lot more favor, because they want to make sure that the money they did get is spent to its ultimate efficiency. So they spend a lot more time watching how the agencies spend that money. So that is another little extra that you get out of living under a balanced budget.

Mr. BARTON of Texas. Well, I thank the gentleman for his comments as someone who has had to operate in the legislative arena under a balanced budget requirement. I think it is very illuminating to have the gentleman's personal experiences.

I would like to finish up this special order, and I would like to thank all the Congressmen who participated with me, and very briefly just go over the situation once again as it exists today.

As we meet right now, the House and the other body are meeting in conference less than a block from this Chamber to try to come to grips with the legislation that has been passed in the other body. It includes a debt ceiling increase to over $2 trillion, but attached to that increase is an amendment that requires that the budget be balanced by fiscal year 1991.

It is balanced in five steps beginning with a deficit ceiling in fiscal year 1986 of $180 billion. That decreases each year for the next 5 years by $36 billion each year, until in fiscal year 1991 we go to zero.

It requires that the President submit a budget that meets the deficit ceiling targets. The ceiling that would be submitted, the target that would have to be met next year, would be $144 billion. The Director of OMB, the Honorable Jim Miller, is working on that budget at that moment. And then each year it goes $144 billion, $108 billion, $72 billion, $36 billion, and then zero.

If those targets are not met, the President has the authority to sequester funds. Sequester is a fancy name that means he just does not spend the money. He eliminates the spending the authority.

If the Congress wants to reprioritize the way the President wants to spend any funds, the Congress has the authority to do that. But the deficit ceiling cannot be broached, it cannot be exceeded.

Since we do not have any fiscal responsibility in this Congress, since we are currently incapable of making the tough spending decisions that need to be made, we need the discipline that Gramm-Rudman-Mack would give us.

I know that there are Members on both sides of the aisle who are working to get Gramm-Rudman through the conference committee and get it to the floor for consideration so that we can vote on it in a positive fashion, and I hope that we do so.

Mr. DORGAN of North Dakota. Mr. Speaker, will the gentleman yield?

Mr. BARTON of Texas. I yield to the gentleman.

Mr. DORGAN of North Dakota. Mr. Speaker, I have been listening to part of this special order and I agree with those on that side of the aisle, as I have for 5 years with those in this House who sit in every chair here, that we ought to try to balance the budget.

I heard the gentleman just remark that the difficulty is lack of fiscal responsibility in the Congress. That is part of it, certainly.

I recall in early 1981 when the President was at the well of the House and he was giving his State of the Union Address, and he described where we were going with the deficit and that very soon we would have a balanced budget. Ever since then, he has requested that this House increase the deficit yearly. And we have joint responsibility, the President and the Congress, for our budget deficit problem. I just think that ought to be pointed out. We have a responsibility to work together with the President to solve these problems. Without him, we will not solve it; with him, if both of us have the courage to do the right thing, we may well solve it.

Mr. BARTON of Texas. I thank the gentleman for his comments. If the gentleman will wait, I believe we have another special order and we can continue this discussion.

REPORT OF EXCLUSION OF CERTAIN AGENCIES AND CLASSES OF EMPLOYEES FROM COVERAGE UNDER PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 99-118)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Post Office and Civil Service and ordered to be printed:

(For message, see proceedings of Senate of today, Wednesday, October 30, 1985.)

□ 1715

FISCAL RESPONSIBILITY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina [Mr. COBEY] is recognized for 60 minutes.

Mr. COBEY. Mr. Speaker, at this time I yield to my distinguished colleague, the gentleman from Texas [Mr. BARTON], who wanted to respond to the gentleman from South Dakota.

Mr. BARTON of Texas. Mr. Speaker, I thank the gentleman for yielding. I want to thank the gentleman for participating in our special order.

I agree that we need to work with the President. Under the Gramm-Rudman-Mack amendment the President would be required to submit budgets that were within the deficit targets.

It is always difficult to make those priority decisions. The President would have to make some priorities. He would submit the budget for our review. We may change some of his priorities, but we would have to stay

within the same spending limit. I think that is good for both the executive branch and the legislative branch to have to do so.

Mr. COBEY. Mr. Speaker, I would like to yield further to the other gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Speaker, I thank the gentleman for yielding, and will be very brief.

What difference does it make? Who is blaming whom? We point fingers at TIP O'NEILL, we point fingers at the President—who cares? We are presented with an opportunity to balance the budget, and everybody talks about wanting to balance the budget. All we want to do is bring that opportunity to the floor of this House and be given a chance to show that we mean what we have been saying for 30 years.

That is all we are asking for. We do not care who is to blame up until this point—well, I should back up and say I do care who is to blame, but we can get into an hour's discussion about how the President did not present a balanced budget or whatever you want to talk about. What we are talking about is we have a chance to do something about it. We have a chance to bring it to this floor and let us vote on it, and let us stop all this old time story that keeps going on around these Chambers.

Mr. Speaker, I thank the gentleman for yielding.

Mr. DORGAN of North Dakota. Mr. Speaker, will the gentleman yield.

Mr. COBEY. Mr. Speaker, first I want to apologize for saying the gentleman was from South Dakota.

Mr. Speaker, I yield to the gentleman from North Dakota.

Mr. DORGAN of North Dakota. If you are from North Dakota, that is more of a mistake than you realize.

Mr. COBEY. Well, I happen to be from North Carolina, so I realize what the gentleman is talking about.

Mr. DORGAN of North Dakota. Mr. Speaker, let me again in good fellowship say that we have a difference perhaps on how you go about solving this problem. It is important how this came about. What we are talking about in this town is the inertia of leadership.

I happen to disagree with President Reagan on a number of things including fiscal policy, because I think his fiscal policy has not been responsible. But I would be quick to add that this Congress has not been responsible, either.

Let me say that our difference is probably in that I believe you cannot solve this problem without additional revenue. I have witnessed year after year—just the most recent one was the enormous debate we had in this town about the President's "down payment on the deficit." Do you remember that?

Well, we go through this machination of a "down payment on the deficit." We end the year; the deficit is $211 billion.

Somebody says, "Well, that's because Congress didn't do what the President wanted." I will tell you something: If Congress had done everything the President wanted since 1981, including all of the spending cuts and including all of the defense increases, we would have a larger debt now than we do at present.

All I am saying is this: I think part of the response to this deficit is enormous restraint in spending, which includes the defense, all the way down the line; and second, I think that when you have 5,000 Americans earning $1 million or more, each paying no taxes, when you have 50 corporations earning $50 billion in 3 years paying nothing in income taxes, 30,000 Americans earning $200,000 or more in taxable income paying less than 5 percent in taxes, there is nothing wrong for us to change that Tax Code, deliver some additional revenue, and using that additional revenue to help reduce the Federal debt. So I am saying that revenue is part of the problem, and we have to solicit additional revenue in addition.

Mr. COBEY. Mr. Speaker, if I could reclaim my time from the gentleman from North Dakota, I appreciate his comments, but I cited earlier in this special order that we have been deficit spending for 25 out of the last 26 years. President Reagan has not been in the White House that long, and I think it is unfair to blame any President, because all appropriations—and I am not saying you are totally blaming the President—but all of the appropriations come out of this House, and I cited some statistics earlier that in 1965 we were taking approximately—meaning we, the Federal Government—was taking approximately 17.1 percent, I believe it was, of the gross national product, but we were spending a higher percentage than that 17—and I do not remember the decimal point—but it was a deficit-spending year. Now we are taking in over 19 percent of the gross national product in revenue, higher than 1965, but we are spending at levels of over 24 percent.

Mr. DORGAN of North Dakota. That is correct.

Mr. COBEY. What I want to pose to the gentleman, because I definitely oppose seeking out new revenue, I am for fairness, and there are some problems in the Tax Code that I would agree with the gentleman we have to deal with in the fairness issue, but I would submit to the gentleman: Where are we going to get more revenue? Are we going to jack this percentage up even higher and therefore perhaps cripple this economic recovery that we have all benefited from throughout our country?

Mr. DORGAN of North Dakota. Mr. Speaker, if the gentleman will be kind enough to yield, I will be glad to answer that.

Mr. COBEY. Mr. Speaker, I yield to the gentleman from North Dakota.

Mr. DORGAN of North Dakota. Mr. Speaker, first of all, there is about $90 billion that is owed the Federal Government that is not collected through the IRS system that is simple tax avoidance. We need to strengthen the Internal Revenue Service.

Mr. COBEY. I think you say "evasion."

Mr. DORGAN of North Dakota. That is correct. And rather than strengthening the enforcement capability of the IRS, we are at present weakening the enforcement capability. So first of all I would say simple enforcement would get part of that $90 billion.

Second, aside from evasion, when you have the numbers I cited earlier, millions and millions of dollars by thousands of Americans who are very rich paying nothing, where some of the largest corporations pay nothing, I am saying that you can get additional revenue to help solve this problem.

One other point, if I might, and let me make it clear that I think a major part of the responsibility is President Reagan's and a major part of the responsibility is the U.S. Congress.

Comparing today's deficits—that is, the last half-decade—with all of the deficits in the history of the country is like comparing swimming to drowning. The reason I am glad the gentleman is doing these special orders is it is a crisis. We have got to draw a line some place and say we do not have the luxury of playing this game as usual; we have got to stop it. Now we disagree on probably how we do that, but the gentleman is dead right, we have to stop this, and we have to stop it now. That is why it is important that we have leadership downtown, and that is why it is important that we have leadership here in Congress.

Mr. DIOGUARDI. Mr. Speaker, will the gentleman yield?

Mr. COBEY. I yield to the gentleman from New York.

Mr. DIOGUARDI. Mr. Speaker, just to respond to the gentleman's point, there is no doubt that we need a tax system that is fair, and I think we have to get there fast. But you have to be careful on how you characterize the money that we raise from the so-called rich in the country, and there is no doubt that we want to get our fair share from everybody.

One of the things that came out during the Grace Commission study was that if you treated everyone making over $75,000 a year as rich, and you decided to tax those individuals at 100 percent—in other words, take every dollar they make over

$75,000—you would have enough money to run the Government for 7 days. So it is obvious that you are not going to get the revenues that you think you are going to get from those people.

That is not to say that they should not be paying their fair share. That is not to say that corporations should not be paying their fair share. But I do not think that we can beat up on any one particular group.

I do agree that we have got to enforce the Internal Revenue Code a lot better. Latest estimates are that there is $100 billion of underground money, nontaxed income, that is not making its way into the system. Many people feel that that is the case because people are buying out of our system. It is too complex. And it is perceived to be unfair because of the many loopholes that were in the law.

But do not forget, we had a very comprehensive tax act called the Economic Recovery Tax Act of 1981 which closed many abusive tax shelters. There are many, many cases stacked up right now in the Internal Revenue Service on those abusive shelters, and I think we have come a long way, but we still have to come up with a tax reform bill that is perceived as fair by the public, so that they buy into it, so that everybody finds an excuse to pay taxes, not find an excuse not to pay taxes.

I would not beat up on just one segment of the population.

Mr. DORGAN of North Dakota. Mr. Speaker, will the gentleman yield one further time?

Mr. COBEY. I yield to the gentleman from North Dakota.

Mr. DORGAN of North Dakota. Mr. Speaker, let me say with respect that I could not disagree more with the gentleman's statement on the 1981 Tax Act and tax shelters. The statistics show that after the 1981 act shelters absolutely exploded in this country. I mean they have taken off like an airplane, and we are just now trying to control them. The reason they have been driven is because of an overly generous ACRS and the ITC and some other things. But the tax-shelter business has become the growth industry of the early 1980's because of the 1981 bill.

Mr. DIOGUARDI. Mr. Speaker, will the gentleman yield?

Mr. COBEY. I yield to the gentleman from New York.

Mr. DIOGUARDI. Mr. Speaker, there were incentives given to corporations. You are talking about the incentives given mainly to corporations on the leasing deals, and the accelerated depreciation, but I am referring to many of the individual tax shelters that played a very prominent role in the way the so-called rich dealt with their taxes, and I think much of that has been dealt with. We are nowhere near where we have to be. That is why we need a well-conceived tax reform act, and I hope that we get one.

I think the 1981 act did a lot to look at abusive shelters. What it did is it gave additional incentives. And maybe it is a matter of semantics. When that law was passed there was a need to give incentives for certain kinds of things, and it became perfectly legal to farm out investment credits and things like that. Maybe now we have to reconsider whether we went too far, and I think that is what we are doing with the current reform act. But there have been abusive shelters, and what I mean by an abusive shelter is a situation where someone invests money not for economic gain, but for just the tax benefits involved. And that is what we have to get away from.

I think that if we are going to encourage the use of the tax system it should be first to get people to invest in areas that are productive for the economy, that create jobs, that does something for the bottom line of this economy, and then give them incentive for doing that, and that is what I meant. I think the 1981 act did in many respects, especially with the shelters or the tax-motivated investments that affected individuals, do a fairly good job on that, but not enough.

Mr. DORGAN of North Dakota. Mr. Speaker, will the gentleman yield?

Mr. COBEY. I yield to the gentleman from North Dakota.

Mr. DORGAN of North Dakota. Mr. Speaker, I promised the gentleman I would not impinge further, but one additional point. What I meant by the 1981 act is the unleashing of the ingenuity of the most resourceful professionals in this country to discover how we can take a sewage system of an American city, package it up, and do say a leaseback so that rich folks can get the benefit of depreciation or the benefit of some tax advantage that goes with the private sector owning a sewage system and leasing it back to the city, or a college dormitory, or a city hall, dozens of other things that represented the sheltering, the packaging of shelters, selling them to individuals.

We have gone from deficits to the Tax Code and I guess they are intertwined. I would just say this: All of the gentlemen talked about the need to cast tough votes. I agree with that.

We have got to bite the bullet on dozens and dozens of spending issues. If the gentlemen are willing to, I am. And if we are all willing to do that, and we have a little leadership from Ronald Reagan on the issue, maybe we will get this job done. If we are not willing to bite the bullet, and if Reagan does not provide any leadership, we will talk right now just as we talked last year, the year before, and the year before that, about this plan that leads there, and it will not lead us there. We will not solve the problem without that leadership.

I appreciate the gentleman's generosity in yielding to me so that I could make that statement.

Mr. COBEY. Mr. Speaker, I appreciate the gentleman's input.

I yield to the gentleman from Texas [Mr. BARTON].

Mr. BARTON of Texas. Mr. Speaker, I would like to thank my distinguished colleague, the gentleman from North Dakota, for participating in this. I believe I am correct in that he is one of the few Members of this body who represents the entire State, which is a tremendous responsibility, and he is to be commended for it.

I support the gentleman's contention that we need leadership. I am happy to report that President Reagan has endorsed the Gramm-Rudman-Mack proposal. He thinks we need to get on with the business of reducing spending. Those of us that have been participating in this special order have endorsed it.

My question to the distinguished gentleman from North Dakota, given the opportunity to vote on Gramm-Rudman-Mack on this floor, does he plan to vote for it or against it?

Mr. DORGAN of North Dakota. It depends on how it comes out of the conference. I would expect it to be improved. I do not like the notion that we are going to do something after the next election. If we are going to do it, let us roll up our sleeves and get it done.

I also believe that while we do this spending job, we also need to force this President to understand that there has to be a complementary revenue side to it, and that is getting money from people who are not now paying their fair share of taxes. If we do one without the other, we are unfair to the American people. But if we get the proposal from the conference in a manner that represents a responsible way that says, "Look, let's roll up our sleeves here, let's not play games with this year's budget and allow for an increase in this year's budget for those that are running for election, let's not postpone the hard decisions until after the next election," I am going to vote for something like that. But the proof is in the pudding.

Mr. BARTON of Texas. I would point out to my distinguished colleague that our motion to instruct the conferees passed overwhelmingly.

Mr. DORGAN of North Dakota. And I voted for it.

Mr. BARTON of Texas. It was supported by the gentleman from North Dakota, as well as the majority leader, and I think the vast majority of Members on both sides of the aisle. It very

explicitly stated that we supported the Gramm-Rudman concept in general.

I would also like to point out that Members from the gentleman's side of the aisle, the Democratic Party—one of the improvements that they have proposed, as of yesterday anyway, was to reduce the deficit level allowed in this spending year to $172 billion. They wanted it more stringent, which I support, if we make it binding and make it part of the budget reconciliation process that the various appropriation and authorizing committees have to meet those targets this gentleman would support that.

I am not aware of any comprehensive alternative in the conference committee to substitute for the general Gramm-Rudman approach. Is the gentleman from North Dakota aware of an alternative?

Mr. DORGAN of North Dakota. I am not a conferee, and I am not aware of what alternatives might be available. I do know that there have been a lot of questions asked about Gramm-Rudman, and the answers are rather fuzzy, but I hope something comes to this floor that makes sense, that is workable, that gets at the business of moving in the direction toward solving the fiscal problem and doing it now.

Mr. BARTON of Texas. Well, I look forward to the support of the gentleman from North Dakota, and of many other gentlemen from his side of the aisle. It is obvious that the Republicans do not have the votes to pass it by ourselves. We have 182 Members; the gentleman's party has got 253. We need 218 to pass it.

□ 1730

So if the gentleman from North Dakota will work with us to get the requisite 218, I believe we can help the Nation and help current and future citizens of this country.

Mr. DORGAN of North Dakota. I do confess that when I use the phrase "bite the bullet," it is a habit I picked up from a debate in 1981 by Mr. GRAMM, who promised a great many things from the package offered then. So we want to know what is in the package and that is the reason we are going through the very difficult deliberations in the conference committee. I hope something comes of it that makes sense to this country.

Mr. BARTON of Texas. Good.

Mr. COBEY. Mr. Speaker, I yield now to the gentleman from New York [Mr. DIOGUARDI].

Mr. DIOGUARDI. I thank the gentleman for yielding.

Mr. Speaker, the gentleman talked about spending before. I do not think we should miss the opportunity to talk about waste in this country, because I think it usually boils down, when we talk about something like Gramm-Rudman-Mack, to programs that have to be cut, spending that has to be cut, and we forget about the fact that a lot of things that are being done structurally in Government are inefficient.

I just came out of a meeting of a task force in connection with the Grace caucus. It is a group that was put together of Democrats and Republicans, and we are trying to find out those recommendations of the Grace Commission that are easily implemented. Maybe it is not $424 billion, but when we look at it, it seems to me that we can make a commonsense argument for a good $50 billion or $100 billion.

I think it is important to look at the way we are spending our money and getting under the numbers. As a certified public accountant, and one of the few elected to Congress, I would like to talk a little bit about the numbers and to show how critical it is to have a plan to balance the budget.

Everyone knows that we are facing this year a $2 trillion debt ceiling. Everyone knows that is the accumulated deficit. But as far as I am concerned, as horrible as that may sound, that is the good news. That is what is on the books. We use a Mickey Mouse accounting system, called a cash basis, to measure what is happening in this country, and I believe that a lot of economic reality is not on the books of this country.

If we used the system that we impose on business through the SEC, so that you, as a shareholder, could buy their stock—if we used something anywhere near that, we would be talking about debt that was far in excess of $2 trillion. As a matter of fact, there is a prototype statement put out by the Comptroller General and the Secretary of the Treasury. They just put one out a couple of weeks ago. It is called, "The Consolidated Financial Statements of the United States of America," and the last statement is as of September 30, 1984. We are about 1 year behind in that. You would find that the debt section of our country is not $1.8 trillion or $2 trillion. When we put all the debt, as we would impose on business to measure, we are more like $4½ trillion.

So we are playing games with ourselves. We are passing on to the next generation a lot of obligations that are not only on the table, but a lot of obligations that are disguised.

Just take Social Security. People say to me, "Joe, we cannot have a situation where we cannot raise revenues. The only way to handle this deficit is to raise revenues."

I came to Congress recently. I am a new Congressman, and I campaigned on the fact that we should not raise revenues; that we should look at the waste in Government and bring spending under control in that way.

But when we look at the situation now, I am firmly convinced we should not raise revenues. Why? There is not structural discipline in this system to deal with revenues. If we bring in new revenues, there will be a line of Congressmen ready to spend that money on some new program.

Look at Social Security as a typical example. It was meant to be and is called a trust fund. It has a separate payroll tax to fund it. It has a separate set of books. Yet, someone found, in the 1960's, a convenient way to meld the Social Security surplus with the deficit under something called the Unified Budget Act. I believe it was President Johnson. So everyone talks today about the $100 billion we have in the Social Security fund, and I say, "Where is it?" We ended up with a $230 billion deficit, and you know that we scraped and scrounged to reduce that by $50 billion.

Did you know that we had already offset the deficit by the $100 billion of Social Security? So theoretically we would have had a $330 billion deficit without this gimmick of melding the Social Security surplus, which is in a separate trust fund, with the deficit.

What does that mean to our kids? You do not have to be an actuary to figure out that by the year 2000, more people are going to be taking out of the Social Security System than putting in, with the graying of America. That is not the case right now. More people are putting in than taking out.

But what that means is that in the year 2000, our children and grandchildren will have to find that $100 billion, and every dollar that we take from that system between now and the year 2000, plus raise the money for Government as well.

So I think it is time that we got our act together, and I think it is time that we looked at a plan. I think we need Gramm-Rudman-Mack for that very reason. It may not be perfect, and hopefully the conferees will work out the amendments that are needed to make it right, but the public is starving for a plan to balance the books of this country.

Why are interest rates now close to 10 percent, the prime rate 9½ percent? The bankers will tell you that the real interest rate is only 2 percent above the inflation rate. Inflation is below 4 percent. Why are interest rates not at 6 percent? Because the public is cynical. The public does not believe the Government is going to get its act together. They are already hedging against renewed inflation. They are hedging against higher interest rates, and that is why we have interest rates at 9½ percent.

If we could give them a plan, if we could send them a signal that we had a plan to balance the books of this country to get rid of that deficit in 5 years, maybe even 10 years, I think we would restore credibility to the system, credi-

bility to this body, and see interest rates drop before our very eyes.

Think about it. We have to borrow this year $150 billion just to pay the interest on the debt. We do not have the money to pay the interest. We have to go out and borrow that. That means next year we are going to have an additional $150 billion of bonds that we have to pay interest on. We are now paying an average rate of, what, somewhere around 9 or 10 percent? If we could drop the interest rate by 3 percent, that is one-third. That means we will save $50 billion next year just on the interest if we could send a signal that we mean to get our act together. That is $50 billion. Now we are on a roll. This thing could become a self-fulfilling prophecy and we might see the books balanced even sooner.

I would just like to read a couple of excerpts from an op-ed piece that was in the New York Times. I am one of the authors of this, along with Congressmen CHENEY, MACK, MICHEL, and LOTT.

People say, "Hey, Gramm-Rudman is not going to work. It is too complex. It gives too much power to the President. We need more time to study it." I say that we are running out of time and we have to get right to it. I would like to read from this editorial, if you would, just a few points on why I think it is important.

If, in the private sector, a manager knows his or her budget will be cut, necessity will force that manager to implement management changes that reduce cost, increase efficiency, and promote productivity.

So what we are saying is that if we had a system to balance the books over 5 years, we would send a signal to the managers here in Government that they had to start thinking ahead, they had to start thinking strategically, more than 1 year. We have a tendency to focus in on 1 year at a time here. That is a very inefficient way to do it.

The legislation at issue would finally induce bureaucracies to do what businesses do every day: evaluate efficiency, or the lack of it, and make the adjustments necessary to get the job done within specific budget parameters.

Peter Drucker, the private-sector management consultant, consistently states that in the context of management, "less is more," meaning that fewer levels of bureaucracy increase efficiency. No one can argue that over the years, bureaucracies—like layers of sediment—have grown, with little apparent benefit to what should be the bottom-line concern: accountability to the taxpayer.

I do not think we have that here.

The Balanced Budget and Emergency Deficit Control Act will force a healthy reevaluation of priorities in public sector programs and in the administration of these programs. There is nothing wrong with sending a signal to the public sector, be it the Pentagon or the Department of Health and Human Services, that the time has come to clean house.

Mr. Speaker, I include the full text of this editorial for the RECORD.

The full editorial is as follows:

[From the New York Times, Oct. 15, 1985]

HOW TO BALANCE THE U.S. BUDGET BY 1991

To the Editor:

Your lead editorial of Oct. 4, "The Balanced Baloney Act," is replete with arguments why the Balanced Budget and Emergency Deficit Control Act of 1985 cannot be seriously considered as a vehicle for deficit reduction. In fact, this legislation is precisely the logical way to attack the deficit, and there is no question that it offers us the opportunity to send a message to the American people and to the financial markets that Congress means business.

You say that "aiming at zero [as a deficit target] is arbitrary, perhaps dangerously so." Baloney. Goals are by definition arbitrary. If you fail to articulate a goal, the means to achieve the objective are less clear. The argument in favor of a balanced-budget program like the Gramm-Rudman-Hollings legislation is that it places an institutional bias on savings, efficiency and productivity in Government.

If in the private sector a manager knows his or her budget will be cut, necessity will force that manager to implement management changes that reduce cost, increase efficiency and promote productivity. The legislation at issue would finally induce bureaucracies to do what businesses do every day: evaluate efficiency, or the lack of it, and make the adjustments necessary to get the job done within specific budget parameters.

Peter Drucker, the private-sector management consultant, consistently states that in the context of management "less is more," meaning that fewer levels of bureaucracy increase efficiency. No one can argue that over the years bureaucracies—like layers of sediment—have grown, with little apparent benefit to what should be the bottom-line concern: accountability to the taxpayer.

The Balanced Budget and Emergency Deficit Control Act will force a healthy re-evaluation of priorities in public-sector programs and in the administration of these programs. There is nothing wrong with sending a signal to the public sector, be it the Pentagon or the Department of Health and Human Services, that the time has come to clean house.

You also state that "forcing its achievement could, depending on economic conditions, start a recession or stifle a healthy recovery." This logic is completely backward. If we do not force its achievement, then we may risk a recession or stifle a healthy recovery. In the real world beyond the editorial offices of The Times, it is clear that our high real interest rates and high dollar are the result of excessively high deficits and an inability to control Federal spending.

The Gramm-Rudman-Hollings bill in the Senate and the Mack-Cheney companion bill in the House are a clear signal to the American people and the world financial markets that there is indeed a workable blueprint for achieving a balanced-budget by fiscal year 1991.

Opponents of the legislation say more time is needed to study the deficit. We believe we have had enough time to study the issue. What we need now is action, not more debate and foot-dragging. The time to act is now!

CONNIE MACK,
ROBERT MICHEL,
RICHARD CHENEY,
TRENT LOTT,

JOSEPH J. DIOGUARDI,
WASHINGTON, *October 7, 1985.*

So in conclusion, Mr. Speaker, I would like to say that I am strongly in favor of Gramm-Rudman-Mack. Hopefully, it will be refined so that we can get some of the kinks out of it that we have heard about, but we need a plan to balance the budget. We owe it to our kids. We cannot keep passing on this deplorable legacy of debt. We have to get rid of this credit-card mentality in this country where we keep raising the limit and passing it on to the future generations.

Mr. COBEY. I thank the gentleman from New York for his valuable comments.

Mr. Speaker, just to wrap up this special order time, I appeal, I beg, I implore my colleagues to back Gramm-Rudman-Mack and let us get some control into the system. Let us give the American people some hope and let us balance this budget in short order.

RECALL THE VERTICAL RESTRAINTS GUIDELINES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. FISH] is recognized for 10 minutes.

Mr. FISH. Mr. Speaker, yesterday I introduced House Resolution 303, a revised version of House Resolution 278, expressing the sense of the House that the "Vertical Restraints Guidelines" published by the Department of Justice on January 23, 1985, do not have the force of law, do not accurately state current antitrust law, and should not be considered by the courts of the United States as binding or persuasive. I did so with broad cosponsorship, both within and outside the Judiciary Committee.

By way of background, the "Vertical Restraints Guidelines" were issued without benefit of broad public participation in their formulation. As a statement of Government enforcement policy, they are analogous to regulations and have a major impact on decisions made in the private business sector with regard to price-related vertical restraints of trade. They are the practical equivalent of the Justice Department's filing an amicus brief in every court in the land.

The "Vertical Restraints Guidelines" are demonstrably in error, however, in their representation of Federal antitrust law and of congressional intent with regard to its application to resale price maintenance and other price-related restraints of trade. The most egregious example of this is the invitation to a supplier to evade the rule of per se illegality first applied by the Supreme Court in *Dr. Miles Medical Co.* v. *John D. Park & Sons Co.* (220 U.S. 373) (1911). The Supreme Court has since reaffirmed this holding whenever it has confronted the issue of vertical price restraints. Congress has done no less in passing the Consumer Goods Pricing Act of 1975, which ended the

antitrust exemption for State fair trade laws and so established a uniform national policy of per se illegality for resale price maintenance.

Despite this, the Vertical Guidelines provide in section 2.3:

If a supplier adopts a bona fide distribution program embodying both nonprice and price restrictions, the Department will analyze the entire program under the rule of reason if the nonprice restraints are plausibly designed to create efficiencies and if the price restraint is merely ancillary to the nonprice restraints.

In short, all one has to do is add enough "plausible" nonprice restrictions to a vertical price-fixing scheme to make the latter "merely ancillary" and the entire distribution program will be analyzed by the Department under its efficiency-weighted rule of reason. This is not what current antitrust law provides or intends.

I am very pleased that the resolution proper of House Resolution 278—that is, without the preamble—has been incorporated into the fiscal year 1986 appropriations bill for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies, H.R. 2965, by an amendment to section 605 adopted in the Appropriations Committee in the other body. I fully support such action. It is highly important, however, to proceed with the resolution I introduced yesterday in order to allow the House to go on record with reference to the departure of the Vertical Guidelines from existing antitrust law, as set forth in detail in the preamble, and to drive home to the Department of Justice the seriousness with which this body regards any attempt to divert enforcement of our antitrust laws.

House Resolution 303, the revised resolution which I introduced yesterday, differs in two respects from House Resolution 278. It is even more explicit in detailing the ways in which the guidelines are inconsistent with existing law, drawing for that purpose from a lengthy analysis of the resale price maintenance issue and the Vertical Guidelines which appears in the House Judiciary Committee report on the fiscal year 1986 Department of Justice authorization bill, H.R. 2348 (H. Rept. 99-113). Second, it eliminates references to the need for procedural fairness and public participation in the preparation of such guidelines, because that is a separate issue which perhaps should be disentangled from the question of the legitimacy of these particular guidelines. The fairness issue is squarely addressed, however, in a bill which I introduced last March, H.R. 1467, to require the antitrust enforcement agencies to meet procedural due process requirements, including notice and an opportunity for public comment, before enforcement guidelines are issued in final form. Businesses and other affected parties should be given an opportunity to comment on agency guidelines that ultimately govern their commercial conduct and affect their very livelihoods before such guidelines go into effect. The Antitrust Procedural Fairness Act is extremely important legislation which is attracting the interest and support of a number of Members of the antitrust bar.

Mr. Speaker, I am particularly gratified that Chairman RODINO of the Judiciary Committee has joined in this resolution and is providing his enthusiastic support. I anticipate that this measure will move swiftly through committee and to the floor, and I hope that when the House has an opportunity to consider it that it will receive the strong endorsement which it most clearly deserves.

The text of House Resolution 303 follows:

H. RES. 303

Whereas on January 23, 1985, the Department of Justice published a document entitled "Vertical Restraints Guidelines", for the stated purpose of explaining Federal policy for enforcing the Sherman Act and the Clayton Act with respect to nonprice vertical restraints of trade;

Whereas such policy guidelines extend beyond the matter of nonprice vertical restraints of trade and propose the avoidance of the per se rule of illegality applied by the Supreme Court in 1911 in *Dr. Miles Medical Co.* v. *John D. Park and Sons Co.*, 220 U.S. 373, to price-related restraints of trade and subsequently applied by the Supreme Court and endorsed by the Congress on many occasions;

Whereas such policy guidelines are inconsistent with established antitrust law, as reflected in Supreme Court decisions and statements of congressional intent, in maintaining that such policy guidelines do not treat vertical price fixing when, in fact, some provisions of such policy guidelines suggest that certain price fixing conspiracies are legal if such conspiracies are "limited" to restricting intrabrand competition; by blurring the distinction between price and nonprice restraints in analyzing a distribution program containing both types of restraints, thereby qualifying the accepted rule that vertical price fixing in any context is illegal per se; in stating that vertical restraints that have an impact upon prices are subject to the per se rule of illegality only if there is an "explicit agreement as to the specific prices"; in stating that restraints imposed by a manufacturer at the request of dealers are vertical in nature and therefore not subject to the per se rule of illegality; in aggregating the factors of collusion and foreclosure, thereby failing to distinguish adequately between the separate antitrust concerns associated with vertical territorial restraints and with exclusive dealing practices; in stating that less than absolute territorial restraints are "always legal"; and in arbitrarily specifying a 30 percent minimum market share in the typing product for assessing the legality of tying arrangements;

Whereas such policy guidelines state that the Department of Justice may refuse to attribute to corporations the illegal conduct of their low-level employees acting within the scope of the authority conferred upon such employees by such corporations, contrary to the common law of corporate responsibility and agency in the antitrust context;

Whereas the general business community would be at risk if it accepted and relied upon such policy guidelines as an accurate statement of existing Federal antitrust laws in the area of vertical restraints of trade;

Whereas such policy guidelines relate to an area in which the Department of Justice has brought no enforcement actions in more than 4 years and may have been published, in part, as an attempt to influence the courts of the United States to pursue a very narrow and limited vertical restraint analysis in deciding private enforcement antitrust cases;

Whereas previous antitrust enforcement policy guidelines issued by the Department of Justice have been substantially based on existing jurisprudence and congressional intent, and therefore have been given considerable weight by the courts of the United States in evaluating the facts in antitrust litigation; and

Whereas the "Vertical Restraints Guidelines" may affect the development of antitrust law to the detriment of competitive pricing of branded goods and services by direct or mail order retailers: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that the antitrust enforcement policy guidelines stated in "Vertical Restraints Guidelines", published by the Department of Justice on January 23, 1985—

(1) are not an accurate expression of the Federal antitrust laws or of congressional intent with regard to the application of such laws to resale maintenance and other vertical restraints of trade;

(2) shall not be accorded any force of law or be treated by the courts of the United States as binding or persuasive; and

(3) should be recalled by the Attorney General.

□ 1740

BALANCED BUDGET

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California, [Mr. DANNEMEYER] is recognized for 60 minutes.

Mr. DANNEMEYER. Mr. Speaker, during the course of the last hour and one-half, we have heard various Members talk about the problems of balancing the budget. During the course of this special order, I would like to talk a little bit about the necessary policy option that the Congress should pursue in order to achieve that objective.

We should reflect on the fact that within the past 2 weeks, the Congress has adopted a budget reconciliation package that will reduce spending in fiscal year 1986 by some $20 billion, $60 billion over 3 years. Our announced goal earlier this year was to reduce the projected deficit by $50 billion. Unfortunately, the $50 billion was not achieved and we achieved a reduction of only $20 billion.

But we should also note that we will borrow in this fiscal year, 1986, almost $200 billion, and the added interest expense, which becomes then the base for future years, will be about $20 billion, $16 billion to $20 billion. So it is almost a push in the sense of the impact on the projected deficit.

We strain to find areas where we could cut $20 billion. Most of that will come in reduction of projected increases in the defense budget. And on the other hand, as I have just indicat-

ed, we will add to the interest expense roughly $16 billion to $20 billion as a result of the money we will borrow.

So what is the answer in terms of reaching our goal of balancing the budget? I think it is high time that we talk about the third highest item on the budget: interest on the national debt, projected in this year to be some $142 billion. Our challenge is to find a means of squeezing the inflation premium out of that lending rate that everyone in America has to pay.

The Federal Government is paying at least 5 points more than it should be paying on almost $2 trillion, or about $100 billion a year, in excessive interest payments as a result of this Nation's currency not being backed by anything. Since August 1971 this Nation has been engaged in an unfortunate experiment with paper money, and I think it is high time that the political leadership of our country talk about restoring this historic relationship between the dollar and gold.

I would like to cite some factors that are on the horizon that all of us must consider as reasons why we should be talking about squeezing the inflation premium out of the interest payment that the U.S. Government must pay. Today, 15 to 20 percent of the farmers in this country are in default. Third World nations around the world, particularly south of our border, in Mexico, Argentina, and Brazil, they are unable to pay the interest on the debt, let alone the principal. These countries are involved in additional loans at this time.

When a banker is in the process of lending more interest money to a borrower so that the borrower can pay interest, you can be assured that that borrower is in deep trouble. But the size of these debts by these Third World countries is so large that if they become nonperforming, those debts are then offset against the earnings of the bank. And if that is not enough to offset, then they are offset against the equity in the bank. And if that is not enough, they are going to come down to us in Congress and ask us to bail them out, and then we will be faced with placing such an explosive quantity of new money into the banking system to bail out those banks that we will ignite the fires of inflation in this country once again.

This Nation has a $160 billion negative trade balance with the rest of the world. And what is ever more tragic to the younger people in our country today is about 70 percent of our young people are priced out of the ability to own their own home. In 1968, it was just the opposite, 70 percent of our people could participate in the American dream and buy their own home. But anybody buying a home today has to pay about a 5-percent premium in the lending rate. That 5 percent you can calculate on a $100,000 mortgage is costing you about $400 a month. It is a tragedy what all of this deficit financing, high interest rates have brought to the American people.

□ 1755

So I have a series of questions here that I would like to ask the Members because I think they are appropriate and focus attention on this issue. I want to acknowledge that the source of these questions was Antal E. Fekete, who was a professor at the University of Newfoundland, an economist by profession, and I think the questions and answers that he has formulated place this matter in good perspective. There are 25 of them.

1. First things first: What should the first item be on the national agenda, inflation, unemployment, tax reform, or constitutional amendment to bar budget deficits? The first item on the agenda should be the prevention of a prolonged deflation similar to the one in the 1930's, which would ruin much of the economy of the United States. Every inflation in history, which did not wipe out the value of currency, was followed by a deflation that restored the rate of interest to its natural level, so that labor and capital could, once again, compete with the yield of government bonds. The only way to prevent a protracted deflation in this country, the only way to bring down the rate of interest to its natural level at once, is resumption.

2. What is resumption? Resumption is the return by the government to gold redeemability of the currency at a rate of exchange fixed by statute. In the United States, constitutionally, the responsibility for resumption rests on the shoulders of Congress.

3. Why resumption? Historically, every experiment with irredeemable paper money has been followed by resumption in less than 25 years, often much sooner, sometimes after a bloody revolution and economic ruin, or total loss of the value of currency. Economic science has not yet discovered the secret of making something out of nothing, nor is it likely to make this discovery in the future. The proposition that irredeemable currency is a permanent condition in human affairs is tantamount to saying that the government can make something out of nothing. The sooner we disabuse ourselves, the better. In the world of reality even the government has to make ends meet, and worry about the deterioration of its credit. From this vantage point resumption appears inevitable. The only question is whether Congress can muster up the political will to put the issue on its agenda before the economy of the country is further destabilized by the irredeemable dollar.

4. What are the signs that the credit of the United States has deteriorated? There are two criteria whereby the credit-worthiness of a debtor with a record of past borrowing can be assessed: 1. the rate of interest at which lenders are willing to extend new credits, 2. the duration for which the new loans are granted. The credit of the United States has greatly deteriorated since the halcyon days of 40 year bonds yielding 2¼%, eagerly snapped up by safety-conscious investors. Every time the maturing debt is rolled over, the maturity shrinks and the Treasury is forced to promise a higher return. Since the credit of business cannot be better than the credit of the government, credit conditions have generally deteriorated in this country.

5. Can government bonds bankrupt business? Yes, they can. It is one thing for the Treasury to print bonds to which coupons with double digit rates are attached. Another thing is for business to produce a return on invested capital at a rate better than the double digit printed on government bonds. Business producing a net return at a single digit rate is rendered submarginal outright. Nobody in his right mind would take the risk of investing in capital to produce a return at single digit rates, if he can get a return from a risk-free government bond at a double digit rate. Nor is this a question of government borrowing "crowding out" business borrowing. It is a matter of handing down a death sentence for business unable to produce a return to capital at double digit rates.

6. Can government bonds create unemployment? Most certainly they can. Wage earners are not equally productive. The jobs of those individuals at the lower end of the productivity spectrum are placed into jeopardy by the high yield of government bonds. The employer of workers will keep a man on the job only if the man can produce a net return on invested capital at a rate in excess of the yield on the government bond. Whether we like it or not, all wage earners are forced to compete with the "productivity" of government bonds, measured by the yield. If the wage earner fails to meet this test, his employer would be better off if he laid off the worker, sold out his capital equipment, and put the proceeds into high-yield government securities. The fact that the employer often finds it impossible to sell out is no consolation. In that case, he will let the capital goods complete their amortization cycle and then scrap them. For the wage earner this is but a stay of execution, not the end of the agony. The unemployment caused by the high yield government bonds is concealed by a time lag of variable duration, depending on the life of capital goods. Ultimately, unemployment is a certainty.

7. What is meant by the natural level of the rate of interest? As we have seen, the rate of interest is equal to the rate of marginal productivity of labor and capital in the country. Labor and capital, which can only produce a return at a rate below the rate of interest, cannot find employment. Therefore, if monetary policy allows the rate of interest to rise dramatically and drastically, as it has in this country, then large segments of the labor force, and large parts of the capital park are rendered submarginal. This insight shows that the rate of interest is at its natural level when it allows all those who are eager to earn wages to find employment, and when it allows the capital goods already in existence to stay in production, for the rest of their useful lives. In other words, the natural rate of interest is the rate which allows labor and capital to compete against the "productivity" of government bonds.

8. What causes the rate of interest to rise drastically? A drastic rise in the rate of interest could be caused by economic factors, e.g., during the reconstruction period in the wake of a natural disaster or war destruction. The rationale is that it is in everybody's interest to get over the reconstruction period and return to normalcy as quickly as possible. In order to accomplish this, the limited resources must be used optimally, in combination with the most productive segment of the labor force, and with the

most efficient part of the surviving capital park. Under these conditions the jump in the marginal productivity of capital and labor is justified. Once the reconstruction is well under way, usually within a year or so, the rate of interest can speedily return to its natural level, allowing the less productive segment of the labor force, and the less efficient part of the capital park, to find employment once more.

The drastic rise in the rate of interest in the United States in recent years has no such economic justification. It was politically motivated by the managers of irredeemable currency, and their academic mentors. It was engineered as a stopgap, to save the irredeemable dollar from immediate ruin, at the expense of labor and business, at the expense of the producers of real wealth in this country.

9. Is it possible to bring down the rate of interest to its natural level slowly?

If the rate of interest was to decline from double digits to its natural level, say, to 2 percent, over a period of several years, then this would mean an unprecedented boom in the bond market, and an unmitigated disaster for the producers of real wealth. Bond speculators would pocket a 400 to 500 percent capital gain. But these gains would be make by ruining a large number of businesses and putting much of the labor force out of work. This would be the biggest deflation in the history of this country. By comparison, bond speculators in the 1930's reaped only a 100 percent capital gain, as the yield on long term government bonds declined from 4 percent to 2 percent, which was sufficient to idle much of the country's productive resources. The long road to low interest rates is strewn with dangerous pitfalls.

10. Is it possible to bring down the rate of interest to its natural level at once?

Yes, it is possible, and this is exactly what should be done. If the Congress issued Eagle Bonds (so named as principal and interest would be guaranteed and payable in Eagle gold coins), then these bonds would command a high and stable value, which translates into low and stable rate of interest, approximating the natural rate. Thus labor and capital could once more compete with the "productivity" of government bonds. This reform could be carried out, literally, overnight. Confidence in the economy would return at once, as the threat of high yield government bonds was removed. Resumption could follow the successful floating of the Eagle Bonds.

11. What are the important historical precedents of resumption?

The three most significant precedents are: 1821, by Great Britain, after the inflation of the Napoleonic Wars; 1879, by the United States, after the inflation due to the Civil War; 1925, by Great Britain, after the inflation due to World War I. The judgment of economic historians on these resumptions is not favorable. They considered that the resumptions were failures, to be blamed for the accompanying deflation. They did not analyze the policy mistakes made in carrying out the plan for resumption.

12. What was the major policy mistake made in connection with the historic resumptions?

The mistake was not the decision to resume, but the failure to prepare the ground for resumption by restoring the rate of interest to its natural level prior to resumption. In consequence the deflation, already in progress, had so much further to go after resumption. Economic revival was therefore not instantaneous, but came only after more economic distress. This gave the gold standard a bad name suggesting that it was synonymous with deflation and unemployment.

13. What is deflation?

Deflation is the necessary correction that follows every inflationary adventure. The rate of interest has to be brought down to its natural level. Deflation is commonly identified with declining prices, causing widespread business failures and unemployment. This is wrong. It is not declining prices, but the combination of declining prices and declining interest rates—especially if the decline is protracted—which is causing bankruptcies and unemployment. The mirror image of declining interest rates is a booming bond market, syphoning off the lifeblood of the economy, rewarding the bond speculator, taking his reward out of the hide of labor and productive people. In summary: inflation=booming commodity market+collapsing bond market; deflation=booming bond market+collapsing commodity market.

14. Is deflation a natural disaster, beyond human control?

It is not. Deflation is engendered by human folly and could be prevented by shunning the temptation of inflation. After inflation has taken place, deflation is inevitable but intelligent monetary and fiscal policy would make it a very brief episode, a shock therapy to be sure, but one that cannot do lasting harm. A quick deflation, bringing down the rate of interest to its natural level is, in fact, salutary. It puts the country back to work right away. Only protracted deflation is ruinous.

15. Was the gold standard responsible for previous deflations?

No; the gold standard was used as the scapegoat and convenient whipping boy, but the real cause for protracted deflation was inept monetary and fiscal policy, the wrong way of financing relief, and the counter-productive policy of pump-priming through government spending. Public relief and public works were financed through the sale of government bonds. This was counter-productive as the new issues of government bonds made the decline in the rate of interest—which in the absence of these issues would have been very quick—a much more prolonged affair. Pump-priming through public works financed by the sale of government bonds turned a 24-hour flu into a chronic disease lasting for a decade. The gold standard had no part in it. The same thing may be happening today, under the regime of irredeemable currency.

16. If irredeemable currency is bad without redeeming features, why don't our politicians tell it as it is?

For the most part, it is ignorance. Currency, credit, and circulation are complex matters, and charlatanism is rampant. The majority of well-meaning politicians has fallen victim to quackery peddled at our universities as monetary science, to the exclusion of sound theory. But there is a minority of politicians who knowingly and willingly support the regime of irredeemable currency, in spite of the great harm it does to the dynamic producers in the country. These politicians realize that this regime alone makes the usurpation of powers—reserved by the Constitution to the people, vote-buying, simony, corruption, etc., possible. They have vested interest in perpetuating such a system.

As Stephen Leacock, the Canadian humorist and economist said in 1932: "What does the regulation of the money supply mean? If it means anything at all, it must mean that there will be three men in a room somewhere, who will expand the money supply and then contract it, and boost prices up and down. If that time ever comes, I want to be one of the three, or at least a warm personal friend of all three." Leacock had no illusions; he told it as it was: "the three-men-in-a-room stuff will do for Soviet Russia; it will not do for us. You cannot have a system of social control dependent upon the will of three men in a room. You cannot have prices which are moved up by a group in control. You cannot have wages which can be shifted down in their purchasing power by the monetary caste. The three men, when they move prices up and the purchasing power of wages down, would follow, or would be tempted to follow, all sorts of self-seeking ends. You cannot run society like that. The monetary standard must be based on things, and not on the opinion of men. If you try to have one based on the interest of pressure groups, you have started the biggest human exploitation you can possibly imagine."

17. What are the steps involved in resumption?

The first step is for Congress to provide for the coinage of gold into Eagle coins, as per the Gold Standard Act of 1900, for private as well as for government account. This will put gold back to work, gold which now lies unused and unemployed at the bottom of public and private vaults. The second step is D-day, when the Treasury starts marketing the new Eagle Bonds with 40 year maturity, to yield 2¼ percent. D stands for "declaration": the Treasury declares its intention to replace the short term government debt financed at high interest rates by long term debt financed at low interest rates. The third step is R-day. R stands for "resumption". On that day Congress will fix the rate of exchange between the paper dollar and the Eagle currency.

18. The exchange of the 12 percent paper dollar bonds for 2¼ percent Eagle Bonds would be a repudiation of the public debt, would it not?

No. Replacing an irredeemable promise by a redeemable one is no repudiation. It is the exact opposite of repudiation. The promise of 12 percent yield on the paper dollar bond is not a credible promise, nor is it an honest one. The government cannot make good on that promise except by paying back depreciated dollars to the bondholders, or by breaking the back of the productive elements in this country.

19. Why would people prefer the 2¼ percent Eagle Bonds to the 12 percent paper dollar bonds?

The bondholder would act in his own best interest. The Eagle Bonds are better than gold (in that they are an equivalent of gold, paying interest in gold), let alone paper bonds. The paper dollar bond is paper, promising to pay nothing more substantial than another piece of paper. The bondholders know, if anybody does, that gold is gold, and paper is paper. Since the Treasury is under no legal obligation to exchange paper bonds for gold bonds, it is reasonable to assume that the bondholders will grab the Eagle Bonds and run, before the Treasury changes its mind, which it might well do. The bondholder clinging to his paper bond would run the risk that the Treasury might recall the paper bonds on R-day. True, the bondholder could sue the Treasury for breach of contract, but his chances of winning are none too good, and this is putting it mildly. Resumption is not merely a change

of the standard of value. It is a reform involving the whole superstructure of debts and deferred payments. It is unreasonable to expect that arrangements made for deferred payments under a depreciating currency standard are legally enforceable under the gold standard with stable currency value. Whoever has heard of a gold bond promising to pay 12 percent interest?

20. Would slack demand for the 2¼ percent Eagle Bonds put resumption into jeopardy?

No. Slack demand would mean that the Treasury would have to go into the open market and bid for cash gold, in order to be able to meet its maturing short term debt after R-day. This would tend to raise the market price of gold, suggesting that the exchange rate between paper dollars and gold, to be fixed by Congress on R-day, would be higher than anticipated. This would make the Eagle Bonds more attractive. Gold should start moving to the coffers of the Treasury as soon as the speculators were convinced that the Treasury meant business.

21. But a high official gold price would be inflationary, would it not? No. Inflation is a combination of rising prices and rising interest rates. Prices cannot rise as long as interest rates are stable. If inflation followed resumption, then not the high official gold price, but inept fiscal and monetary policy is to be blamed, for allowing the interest rate to rise again. In the absence of such a rise, it is naive in the extreme to assume that holders of gold would take profit and go on a spending spree, bidding up commodity prices. The theoretical and historical evidence shows that prices and interest rates would be far more stable under the new gold standard, than they have been under the regime of the irredeemable dollar.

22. Would foreign governments follow the monetary leadership of the United States and resume? They would have everything to gain, and nothing to lose, if they did. They would enormously strengthen public credit, would stabilize their domestic money and credit markets, and would open up new vistas for their export industry and trade. Only weak and authoritarian governments, apprehensive of the good will of their own citizens and creditors, would keep their markets in straitjacket by hanging on to their depreciating currencies. In doing so they would act against the interest of their people who, as a consequence, could not partake the triumph of economic revival in the most civilized parts of the world.

23. Is there enough gold to support an international gold standard? The answer is an unqualified "yes". Contrary to folklore, gold is not scarce. Gold is the most abundant commodity known to and produced by man, as measured by the ratio of stocks to flows. It is precisely this fact which makes gold far more eligible than any other commodity to serve as standard of value. The abundance of gold is due to its constant marginal utility. In this respect gold is unique: while other goods decline in value when the existence of large and growing hoards is revealed, gold is impervious to hoarding. What makes gold scarce is the abuse of credit, sending gold into hiding or to places where credit is not abused.

24. What would happen if the U.S.S.R. or South Africa tried to sabotage the international gold standard by gold dumping? They are welcome to try.

It costs real resources to produce gold, even in the U.S.S.R. Gold is a form of wealth. These governments would give up this wealth only in exchange for another form of wealth more desirable or more useful to them. At any rate, the abundance of gold flowing to these shores would be a good sign, a welcome sign. It would further reinforce the credit markets, boost trade, production, and capital accumulation in this country. The wealth of the country would grow. The specter of unfriendly governments dumping gold in order to embarrass the United States is a red herring.

25. What should be done to ensure that the humiliation of August 15, 1971 (the day President Nixon repudiated the obligation to pay gold at the rate of $35 per oz. to foreign creditors) is never repeated after resumption? The gold standard should not be abused and compromised as it was by the Roosevelt Administration in 1933, by devaluing the dollar for no good reason and to no good purpose. The Federal Reserve Act of 1913 should be enforced. In particular, government bonds are not eligible as assets held against the note and deposit liabilities of the Federal Reserve banks—only gold and real bills are. Congress should not abridge the citizen's right to convert his gold into gold coin of the realm at the Mint, nor his right to hoard, to melt, or to export the gold coin of the realm in his possession. Congress should not pass legal tender laws. Fiscal policy should serve one aim, and one aim only: to maintain the credit of the government at the highest possible level. The purpose of taxation is to raise revenue to cover essential public expenditure, and not social engineering or economic fine-tuning. Borrowing should be undertaken by the government only if it is clearly seen that the debt can eventually be repaid. The government debt should be financed only through long term bonds. The issue of Treasury bills should be severely limited in time and in amount as well. A sinking fund should be set up to protect the value of government bonds. If the rate of interest increased as a result of natural disaster or war destruction, then the government debt should be refinanced at the higher rate. Profligate and frivolous government spending must be exposed as waste at best, and as vote-buying at worst. Monetary policy has one aim, and one aim only: to keep the rate of interest stable at its natural level, such that labor and capital can compete successfully with the "productivity" of government bonds. The idea that the purpose of monetary policy is the manipulation of the money supply must be abandoned. Inflation, and hence, deflation, can be averted if the country is firmly on the gold standard and does not allow monetary policy to be used for political purposes. Every inflation in the past, whether in wartime or in peacetime, was the direct result of a monetary policy allowing interest rates to join prices in an upward spiral, in order to accommodate political objectives. The humiliation of August 15, 1971 was a consequence.

□ 1805

To the citizens of this country, the restoration of the honest money, money backed by gold, has a profound significance. It means that if you want to buy a home, you can do it at a rate of interest that would be about 6 or 7 percent rather than the 12 percent or 13 percent you are asked to pay today. If you are a college student wanting to borrow money to get an education and your bank wants you to pay 10 percent or 11 percent when you finish your college education, take about 5 points off of that interest rate, and that is what it would save you in terms of restoring gold-backed currency in America.

If you are a businessman struggling to pay 15 percent interest rate payments on a business loan, take 5 points off of that, and you will find out what the impact would be on your ability to build a business, to start a business or expand a business. Those of us involved in the Government of the United States, it would mean that the U.S. Government could once again sell its debt for 3 percent or less, as it did prior to 1971 when this Nation was taken off the gold standard.

When Mr. Nixon made that decision in August 1971, he told the American people that it was merely temporary. I would suggest that most people's definition of "temporary" would be served by the expiration of 14 years.

In light of this, I will in the next few days be introducing a bill declaring a resumption of the gold standard here in this country. It would provide that on October 1, 1986, the U.S. Government shall call in all debt instruments and in place thereof issue legal bonds at 2½ percent interest denominated and guaranteed in Eagle currency.

It would also provide on October 1, 1987, U.S. currency shall be redeemable in gold at a value to be determined by market prices.

An action of this type would drive out the inflation premium in the lending rate, it would permit the U.S. Government to reduce its annual interest expense by roughly $100 billion a year; and the resultant expansion in the credit-sensitive businesses of the country, such as automobiles, housing, plus all those other businesses that depend upon credit to stay alive, there would be a surge of investment and job creation in America that would be the envy of the whole world.

Not only this, it would help our neighbors to the South who currently are in debt over their heads, to have an interest rate whereby they can develop their economy, that would expand job opportunities in their society, reduce the pressures for revolution that currently exist in countries like Mexico.

Indeed, it would lay the foundation for not only a balanced budget but economic growth and prosperity for the people of our country.

Mr. Speaker, I yield back the balance of my time.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. SCHAEFER) to revise and extend their remarks and include extraneous material:)

Mr. DANNEMEYER, for 60 minutes, today.

Mr. SLAUGHTER, for 20 minutes, October 31.

Mr. PARRIS, for 60 minutes, November 4, 5, and 6.

(The following Members (at the request of Mr. LUNDINE) to revise and extend their remarks and include extraneous material:)

Mr. BARNES, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. PEPPER, for 5 minutes, today.

Mr. NELSON of Florida, for 5 minutes, today.

Mr. MAZZOLI, for 5 minutes, today.

Mr. TORRES, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. ROWLAND of Georgia, on H.R. 3629, in the Committee of the Whole, today.

Mr. LOWRY of Washington, on section 2, title II of H.R. 3629, in the Committee of the Whole, today.

Mr. STUDDS, following statement of Mr. CONTE in support of his amendment on H.R. 3629 in the Committee of the Whole, today.

(The following Members (at the request of Mr. SCHAEFER) and to include extraneous matter:)

Mr. COURTER.

Mr. PORTER.

Mr. KEMP.

Mr. CLINGER in three instances.

Mr. TAUKE.

Mr. MYERS of Indiana.

Mr. SWINDALL.

Mr. RITTER.

Mr. WORTLEY.

Mr. FISH.

Mr. COBLE.

Mr. GINGRICH.

Mr. O'BRIEN in two instances.

Mr. MCCOLLUM.

Mr. FRANKLIN.

Mr. CAMPBELL.

Mr. CONTE.

(The following Members (at the request of Mr. LUNDINE) and to include extraneous matter:)

Mr. RANGEL.

Mr. ROE in two instances.

Mr. GARCIA in three instances.

Mr. MILLER of California.

Mr. EDGAR.

Mr. MARTINEZ.

Mr. COELHO.

Mr. WAXMAN.

Mr. STOKES.

Mr. HOYER.

Mr. KOSTMAYER in two instances.

Mr. UDALL.

Mr. AUCOIN.

SENATE ENROLLED BILL AND JOINT RESOLUTION SIGNED

The SPEAKER announced his signature to an enrolled bill and joint resolution of the Senate of the following titles:

S. 1160. An act to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for the Department of Defense for fiscal year 1986, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize appropriations for fiscal year 1986 for national security programs of the Department of Energy, and for other purposes, and

S.J. Res. 227. Joint resolution to commend the people and the sovereign confederation of the neutral nation of Switzerland for their contributions to freedom, international peace, and understanding on the occasion of the meeting between the leaders of the United States and the Soviet Union on November 19-20, 1985, in Geneva, Switzerland.

BILLS AND JOINT RESOLUTIONS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, bills and joint resolutions of the House of the following titles:

On October 30:

H.R. 3605. An act to provide that the authority to establish and administer flexible and compressed work schedules for Federal Government employees be extended through December 31, 1985;

H.R. 2409. An act to amend the Public Health Service Act to revise and extend the authorities under that act relating to the National Institutes of Health and National Research Institutes, and for other purposes;

H.J. Res. 308. Joint resolution designating the week beginning on October 20, 1985, as "Benign Essential Blepharospasm Awareness Week"; and

H.J. Res. 322. Joint resolution to provide for the designation of October 1985, as "National Sudden Infant Death Syndrome Awareness Month."

ADJOURNMENT

Mr. DANNEMEYER. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 6 o'clock and 15 minutes p.m.), the House adjourned until tomorrow, Thursday, October 31, 1985, at 10 a.m.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 2963. A bill to authorize and direct the Secretary of Agriculture to engage in a 10-year research program to monitor, evaluate and identify the causes and effects of atmospheric pollution on the growth, health and productivity of forest ecosystems, on forest reserves created from the public domain, on forest areas acquired under authority of the act of March 1, 1911, as amended (16 U.S.C. 515), and on other public and private forest lands, and for other purposes; with an amendment (Rept. 99-344, Pt. 1). Ordered to be printed.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 1593. A bill to direct the Secretary of the Interior to release on behalf of the United States certain restrictions in a previous conveyance of land to the town of Jerome, AZ (Rept. 99-345). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 1795. A bill to exempt certain lands in the State of Mississippi from a restriction set forth in the act of April 21, 1806 (Rept. 99-346). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 1740. A bill to direct the Secretary of the Interior to release a reversionary interest in certain lands in Orange County, FL, which were previously conveyed to Orange County, FL; with an amendment (Rept. 99-347). Referred to the Committee of the Whole House on the State of the Union.

Mr. SWIFT: Committee on House Administration. H.R. 3525. A bill to amend title 3, United States Code, to establish uniform regional poll closing times in the continental United States for Presidential general elections; with amendments (Rept. 99-348). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. BOULTER (for himself, Mr. CRAIG, Mr. WEBER, Mr. BURTON of Indiana, Mr. ROBERTS, Mr. LIGHTFOOT, Mr. WILSON, Mr. SCHUETTE, Mr. ROBERT F. SMITH, Mr. MONSON, Mr. SKEEN, and Mr. DELAY):

H.R. 3643. A bill to require U.S. representatives to international financial institutions to oppose assistance by such institutions for the production of agricultural commodities in competition with United States produced agricultural commodities, and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

By Mr. COBLE (for himself, Mr. BROYHILL, Mr. JONES of North Carolina, Mr. ROSE, Mr. HEFNER, Mr. NEAL, Mr. WHITLEY, Mr. VALENTINE, Mr. HENDON, Mr. COBEY, Mr. MCMILLAN, Mr. DOWDY of Mississippi, Mr. WEAVER, Mr. BEDELL, Mr. HORTON, Mr. SMITH of New Jersey, Mr. QUILLEN, Mr. HAYES, Mr. HENRY, Mr. NATCHER, Mr. DANIEL, Ms. KAPTUR, Mr. MARTINEZ, Mr. TALLON, Ms. MIKULSKI, Mr. MOAKLEY, Mr. GUNDERSON, Mr. LUNDINE, Mr. DUNCAN, Mr. BLILEY, Mr. ANTHONY, Mr. SHELBY, Mr. WHITTEN, and Mr. HAMMERSCHMIDT):

H.R. 3644. A bill to amend the Trade Act of 1974 to promote expansion of international trade in furniture with Canada, and

for other purposes; to the Committee on Ways and Means.

By Mr. COELHO:

H.R. 3645. A bill to amend the Internal Revenue Code of 1954 to provide relief for insolvent farmers by excluding certain capital gains amounts for purposes of computing the alternative minimum tax; to the Committee on Ways and Means.

By Mr. DANNEMEYER (for himself, Mr. BLILEY, Mr. WEBER, Mr. GINGRICH, Mr. SILJANDER, Mr. COBEY, Mr. RALPH M. HALL, Mr. BARTON of Texas, Mr. ARMEY, Mr. LIGHTFOOT, Mr. CHAPMAN, Mr. MONSON, Mr. HANSEN, Mr. VOLKMER, and Mr. DORNAN of California):

H.R. 3646. A bill to prohibit discrimination in the use of protective garments in federally assisted hospitals; to the Committee on Energy and Commerce.

By Mr. DANNEMEYER (for himself, Mr. BLILEY, Mr. WEBER, Mr. WALKER, Mr. SILJANDER, Mr. GINGRICH, Mr. RALPH M. HALL, Mr. COBEY, Mr. BARTON of Texas, Mr. ARMEY, Mr. CHAPMAN, Mr. LIGHTFOOT, Mr. NIELSON of Utah, Mr. MONSON, Mr. HANSEN, Mr. VOLKMER, Mr. WHITTAKER, Mr. DANIEL, and Mr. DORNAN of California):

H.R. 3647. A bill to prohibit physicians, dentists, nurses, or other health care delivery personnel who have acquired immune deficiency syndrome from practicing in federally assisted hospitals; to the Committee on Energy and Commerce.

By Mr. DANNEMEYER (for himself, Mr. BLILEY, Mr. BARTON of Texas, Mr. WALKER, Mr. ARMEY, Mr. SILJANDER, Mr. CHAPMAN, Mr. GINGRICH, Mr. NIELSON of Utah, Mr. COBEY, Mr. MONSON, Mr. RALPH M. HALL, Mr. WEBER, Mr. LIGHTFOOT, Mr. WHITTAKER, Mr. VOLKMER, Mr. DANIEL, and Mr. DORNAN of California):

H.R. 3648. A bill to prohibit Federal financial assistance to any city, town, or other political jurisdiction which permits the operation of certain public baths; to the Committee on Government Operations.

By Mr. DANNEMEYER (for himself, Mr. BLILEY, Mr. WEBER, Mr. WALKER, Mr. SILJANDER, Mr. COBEY, Mr. HALL, Mr. BARTON of Texas, Mr. ARMEY, Mr. LIGHTFOOT, Mr. CHAPMAN, Mr. NIELSON of Utah, Mr. MONSON, Mr. VOLKMER, Mr. HANSEN, Mr. WHITTAKER, Mr. ROEMER, and Mr. DORNAN of California):

H.R. 3649. A bill to make it a Federal offense for a person with acquired immune deficiency or a person with a high risk of acquiring such deficiency to intentionally donate blood; to the Committee on the Judiciary.

By Mr. DE LUGO (for himself, Mr. FOLEY, Mr. BARNES, Mr. GRAY of Pennsylvania, Mr. GARCIA, Mr. ALEXANDER, Mr. RANGEL, Mr. HUTTO, Mr. LAGOMARSINO, Mr. BEREUTER, and Mr. O'BRIEN):

H.R. 3650. A bill to establish an Eastern Caribbean Center at the College of the Virgin Islands; to the Committee on Foreign Affairs.

By Mr. HOWARD:

H.R. 3651. A bill to reaffirm the boundaries of the Great Sioux Reservation to convey federally held lands in the Black Hills to the Sioux Nation; to provide for the economic development, resource protection and self-determination of the Sioux Nation; to remove barriers to the free exercise of traditional Indian religion in the Black Hills; to preserve the sacred Black Hills from desecration; to establish a wildlife sanctuary; and for other purposes; to the Committee on Interior and Insular Affairs.

By Mr. McCOLLUM (for himself, Mr. GEKAS, Mr. BATEMAN, Mr. HUNTER, and Mr. HILLIS):

H.R. 3652. A bill to amend chapter 47 of title 10, United States Code (the Uniform Code of Military Justice), to establish procedures for the adjudication by courts-martial of sentences of capital punishment; to the Committee on Armed Services.

By Mr. UDALL:

H.R. 3653. A bill to amend the Price-Anderson provisions of the Atomic Energy Act of 1954 to extend and improve procedures for liability and indemnification for nuclear incidents; to the Committee on Interior and Insular Affairs.

By Mrs. JOHNSON (for herself, Ms. SNOWE, Mrs. SCHROEDER, Mr. LEVIN of Michigan, Mr. PORTER, Mrs. SCHNEIDER, Mrs. BURTON of California, Mr. KOSTMAYER, Mr. GREEN, Mrs. BOXER, Mr. BEILENSON, Mr. EDGAR, Mr. FAZIO, Mr. GEJDENSON, Mr. LEHMAN of Florida, Mr. McHUGH, Mr. McKINNEY, Mr. MILLER of California, Mr. MOODY, Mr. MRAZEK, Mr. RICHARDSON, Mr. SCHEUER, Mr. WEISS, Mr. WOLPE, Mr. McKERNAN, Mr. CHANDLER, Mr. FISH, Mr. FRENZEL, Mr. ACKERMAN, Mr. BARNES, Mr. BERMAN, Mr. ZSCHAU, Mr. STOKES, Mr. DYMALLY, Mr. LEACH of Iowa, Mrs. ROUKEMA, Mr. PEPPER, Mr. BOUCHER, Mr. BROWN of California, Mrs. MARTIN of Illinois, Mr. CONYERS, Mr. CROCKETT, Mr. DELLUMS, Mr. DIXON, Mr. EDWARDS of California, Mr. EVANS of Illinois, Mr. FRANK, Mr. FAUNTROY, Mr. FROST, Mr. GARCIA, Mr. HAYES, Mr. HUGHES, Mr. JEFFORDS, Mr. LELAND, Mr. LEVINE of California, Mr. LUNDINE, Mr. MARTINEZ, Mr. MATSUI, Ms. MIKULSKI, Mr. MINETA, Mr. MITCHELL, Mr. MORRISON of Connecticut, Mr. MORRISON of Washington, Mr. NEAL, Mr. RANGEL, Mr. RODINO, Mr. SABO, Mr. SAVAGE, Mr. SEIBERLING, Mr. SMITH of Florida, Mr. STARK, Mr. STUDDS, Mr. SWIFT, Mr. TOWNS, Mr. UDALL, Mr. WAXMAN, Mr. WEAVER, Mr. YATES, Mr. FAWELL, Mr. COELHO, and Mrs. MEYERS of Kansas):

H.R. 3654. A bill to amend the Foreign Assistance Act of 1961 to require that support by the Agency for International Development for family planning service programs be based on the fundamental principles of voluntarism and informed choice; to the Committee on Foreign Affairs.

By Mr. JONES of North Carolina:

H.R. 3655. A bill to counter restrictive practices in the marine transportation of automobiles, and for other purposes; jointly, to the Committees on Merchant Marine and Fisheries, and Ways and Means.

By Ms. KAPTUR (for herself, Mr. FEIGHAN, and Mr. ECKART of Ohio):

H.R. 3656. A bill to provide for cost efficiency in the shipment of United States Government cargoes, to establish the Great Lakes and Saint Lawrence Seaway Advisory Council, and for other purposes; jointly, to the Committees on Merchant Marine and Fisheries, and Public Works and Transportation.

By Mr. MOAKLEY (for himself, Mr. ADDABBO, Mr. BERMAN, Mr. BIAGGI, Mr. BONER of Tennessee, Mr. DONNELLY, Mr. DYSON, Mr. EVANS of Iowa, Mr. FAUNTROY, Mr. FISH, Mr. FLIPPO, Mr. FRANK, Mr. GARCIA, Mr. GUARINI, Mr. HORTON, Mr. JACOBS, Mr. KOLTER, Mr. LEVIN of Michigan, Mr. MATSUI, Mr. MAVROULES, Mr. McEWEN, Mr. McGRATH, Mr. MRAZEK, Mr. MURPHY, Mr. OWENS, Mr. RANGEL, Mr. SCHEUER, Mr. DENNY SMITH, Mr. SOLARZ, Mr. TORRICELLI, Mr. TOWNS, Mr. WOLPE, and Mr. WORTLEY):

H.J. Res. 434. Joint resolution designating the week beginning May 4, 1986, as "National Arson Awareness Week"; to the Committee on Post Office and Civil Service.

By Ms. OAKAR:

H.J. Res. 435. Joint resolution authorizing establishment of a memorial to honor Francis Scott Key; to the Committee on House Administration.

By Ms. KAPTUR (for herself, Mr. BARTLETT, Mr. WALGREN, Mr. FROST, Mr. MARTINEZ, Mr. HUGHES, Mr. ORTIZ, Mr. BRYANT, Mr. SEIBERLING, Mr. MATSUI, Mr. CROCKETT, Mr. BARNARD, Mr. FEIGHAN, Mr. STOKES, Mr. BEDELL, Mr. LAFALCE, Mr. ECKART of Ohio, Mr. LUKEN, Ms. SNOWE, Mr. PURSELL, and Mr. HALL of Ohio):

H.J. Res. 436. Joint resolution to designate 1986 as "Save for the U.S.A. Year," and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

By Mr. DANNEMEYER (for himself, Mr. ARMEY, Mr. LIGHTFOOT, Mr. BLILEY, Mr. MONSON, Mr. RALPH M. HALL, Mr. ROEMER, Mr. BARTON of Texas, and Mr. DORNAN of California):

H. Con. Res. 224. Concurrent resolution expressing the sense of Congress respecting the education of children with acquired immune deficiency or acquired immune deficiency related complex; to the Committee on Education and Labor.

MEMORIALS

Under clause 4 of rule XXII,

279. The SPEAKER presented a memorial of the Commonwealth of Pennsylvania, relative to the Environmental Protection Agency; to the Committee on Energy and Commerce.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. SWINDALL introduced a bill (H.R. 3657) for the relief of Benjamin H. Fonorow, which was referred to the Committee on Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 12: Mr. CHAPMAN.
H.R. 358: Ms. SNOWE.
H.R. 1059: Mr. EDWARDS of Oklahoma.
H.R. 1207: Mr. DANIEL.
H.R. 1436: Mr. YOUNG of Florida.
H.R. 1458: Mr. TORRICELLI.
H.R. 1769: Mr. VOLKMER, Mr. MYERS of Indiana, Mr. BREAUX, Mr. APPLEGATE, Mr. GRAY of Illinois, and Mr. LIVINGSTON.
H.R. 1809: Mr. ROWLAND of Connecticut.

H.R. 1911: Mr. SUNDQUIST.

H.R. 1950: Mr. PRICE, Mr. CARPER, Mr. LAGOMARSINO, Mr. HALL of Ohio, and Mr. YATRON.

H.R. 2267: Mr. WALKER, Mr. GINGRICH, Mr. EMERSON, Mr. APPLEGATE, Mr. BURTON of Indiana, Mr. SWINDALL, Mr. SENSENBRENNER, and Mr. MONSON.

H.R. 2489: Mr. RUSSO.

H.R. 2589: Mr. MARKEY.

H.R. 2805: Mr. PETRI, Mr. FISH, Mrs. JOHNSON, Mr. BEREUTER, Mr. MILLER of Washington, and Mr. BROWN of Colorado.

H.R. 2854: Mrs. LLOYD and Mr. LANTOS.

H.R. 2907: Mr. PERKINS and Mr. LOWRY of Washington.

H.R. 2911: Mr. WRIGHT, Mr. COOPER, Mr. TOWNS, Mr. SCHUMER, Mr. GORDON, Mr. MARTINEZ, Mr. WEISS, and Mr. DASCHLE.

H.R. 2954: Mr. HUTTO, Mr. EMERSON, Mr. LEVINE of California, and Mr. EDWARDS of Oklahoma.

H.R. 3280: Mrs. BENTLEY, Mr. BROWN of Colorado, Mr. DANNEMEYER, Mr. PACKARD, Mr. BARTON of Texas, and Mr. SOLOMON.

H.R. 3296: Mr. BEDELL, Ms. KAPTUR, and Mr. KINDNESS.

H.R. 3344: Mr. TALLON, Mr. TOWNS, Mrs. COLLINS, Mr. BUSTAMANTE, and Mr. HOYER.

H.R. 3346: Mr. GREGG.

H.R. 3379: Mr. ARMEY, Mr. TOWNS, Mr. CHAPMAN, Mr. SWINDALL, and Mr. EDWARDS of Oklahoma.

H.R. 3408: Mr. JONES of North Carolina, Mr. KLECZKA, Mr. HAYES, Mrs. BENTLEY, Mrs. BOXER, Mr. EVANS of Illinois, Mr. WILLIAMS, Mr. RANGEL, Mr. DYSON, Mr. DORGAN of North Dakota, Mrs. COLLINS, Mr. PRICE, Mr. MURPHY, Mr. MITCHELL, Mr. HOWARD, Mr. FUSTER, Mr. SAXTON, Mr. HUGHES, Mr. MORRISON of Connecticut, Mr. ROEMER, Mr. MRAZEK, and Mr. SAVAGE.

H.R. 3418: Mr. STENHOLM.

H.R. 3470: Mr. BEVILL, Mr. OXLEY, Mr. BORSKI, Mr. DUNCAN, Mr. HUGHES, Mr. CONYERS, Mr. WEISS, Mr. LAFALCE, Mr. BARTON of Texas, Mr. MCCANDLESS, Mr. BUSTAMANTE, Mr. STOKES, Mr. ARMEY, Mr. TRAFICANT, Mr. CLINGER, Mr. JEFFORDS, Mr. ROGERS, Mr. APPLEGATE, Mr. YOUNG of Missouri, Mr. DEWINE, Mr. WEAVER, Mr. COELHO, Mr. DREIER of California, Mr. CHAPMAN, Mrs. LLOYD, Mr. THOMAS of Georgia, Mr. GLICKMAN, Mr. HORTON, Mr. CROCKETT, Mr. SHAW, Mr. BOEHLERT, Mr. VALENTINE, Mr. HUTTO, Mr. CLAY, Mr. DAVIS, Mr. DWYER of New Jersey, Mr. HOWARD, Ms. KAPTUR, Mr. FIELDS, Mr. LEVINE of California, Mr. ANDREWS, Mr. COATS, Mrs. BOXER, Mrs. JOHNSON, Mr. RALPH M. HALL, Mr. SKELTON, Mr. TAYLOR, Mr. MORRISON of Connecticut, Mr. YATRON, Mr. BIAGGI, Mr. CHAPPELL, Mr. LAGOMARSINO, Mr. BLILEY, Mr. TORRES, Mr. DINGELL, Mr. ROE, Mr. NOWAK, Mr. WHITEHURST, Mr. MANTON, Mr. FAZIO, Mr. GROTBERG, Mr. KOSTMAYER, Mr. FRANK, Mr. TOWNS, Mr. KILDEE, Mrs. BYRON, Mr. ENGLISH, Mr. CARPER, Mr. KINDNESS, and Mr. MCMILLAN.

H.R. 3505: Mr. DE LUGO, Mr. GROTBERG, Mr. DANIEL, and Mr. EDWARDS of Oklahoma.

H.R. 3522: Mr. REGULA and Mr. PACKARD.

H.R. 3594: Mr. CHANDLER.

H.R. 3600: Mr. GINGRICH, Mr. WHITEHURST, Mr. BURTON of Indiana, Mr. WILSON, Mr. HYDE, Mr. COOPER, Mr. DORNAN of California, Mr. KINDNESS, Mr. CRANE, Mr. RALPH M. HALL, Mr. EMERSON, Mr. MONSON, Mr. BROOMFIELD, Mr. FRENZEL, Mr. MCGRATH, Mr. RUDD, Mr. SILJANDER, Mr. COBEY, Mr. BILIRAKIS, and Mr. WEBER.

H.R. 3626: Mr. BARTON of Texas, Mr. CLINGER, and Mr. MCGRATH.

H.J. Res. 1: Mr. FRENZEL.

H.J. Res. 126: Mr. SKEEN, Mr. ZSCHAU, and Mr. REGULA.

H.J. Res. 282: Mr. NICHOLS, Mr. MONSON, Mr. MCMILLAN, Mr. GREGG, Ms. MIKULSKI, and Mrs. KENNELLY.

H.J. Res. 377: Mr. RUSSO, Mr. KRAMER, Mr. HARTNETT, Mr. LATTA, and Mr. COURTER.

H.J. Res. 424: Mr. ROWLAND of Georgia, Mr. SMITH of Florida, Mr. WEISS, Mr. GROTBERG, Mr. SUNDQUIST, Mr. FISH, Mr. DORNAN of California, Mr. ARMEY, Mr. MARTINEZ, Mr. FUQUA, Mr. CAMPBELL, Mr. MONSON, Mr. FAUNTROY, Mr. ROE, Mrs. LONG, Mr. GRAY of Illinois, Mr. DYMALLY, Mr. ERDREICH, Mr. ORTIZ, Mr. STRANG, Mr. EDWARDS of Oklahoma, Mr. RALPH M. HALL, Mr. MATSUI, Mr. FROST, Mr. BIAGGI, Mr. BARTLETT, Mr. CALLAHAN, Mr. CRAIG, Mr. ECKERT of New York, Mr. EMERSON, Mr. FAWELL, Mr. GUNDERSON, Mr. HAMMERSCHMIDT, Mr. HENRY, Mr. HILLIS, Mr. HUNTER, Mr. MARTIN of New York, Mrs. MARTIN of Illinois, Mr. MCDADE, Mr. MCMILLAN, Mr. MILLER of Ohio, Mr. MILLER of Washington, Mr. REGULA, Mr. RINALDO, Mr. SKEEN, Mr. SMITH of New Hampshire, Mr. SPENCE, Mr. TAYLOR, and Mr. WALKER.

H. Con. Res. 117: Mr. TORRICELLI, Mr. CHANDLER, Mrs. COLLINS, Mrs. BENTLEY, Mr. MARTINEZ, Mr. FUQUA, and Mr. TALLON.

H. Con. Res. 129: Mrs. MEYERS of Kansas, Mr. BEDELL, and Mrs. BYRON.

H. Con. Res. 208: Mr. PENNY, Mr. MINETA, Mr. MATSUI, and Mr. VENTO.

H. Con. Res. 209: Mr. BLILEY, Mr. SIKORSKI, Mr. MARTINEZ, Mr. MURPHY, Mr. KINDNESS, Mr. HORTON, Mr. HERTEL of Michigan, Mr. BEDELL, Mr. HYDE, Mr. DWYER of New Jersey, Mr. HOWARD, Mr. EMERSON, Mr. REID, Mr. SCHEUER, Mr. ECKERT of New York, Mr. ERDREICH, Mr. LOWERY of California, Mr. FAZIO, Mr. BIAGGI, Mr. FROST, Mr. KOLBE, Mr. MCGRATH, Mr. LEVINE of California, Mr. GUNDERSON, and Mr. DEWINE.

H. Con. Res. 213: Mr. MILLER of Ohio and Mr. NEAL.

H. Res. 76: Mr. MARKEY and Mr. LEVIN of Michigan.

H. Res. 154: Mr. EDWARDS of Oklahoma.

H. Res. 203: Mr. FRENZEL, Mr. REID, Mr. DEWINE, and Mr. EDWARDS of Oklahoma.

H. Res. 247: Mr. APPLEGATE.

H. Res. 270: Mr. MARTINEZ, Mrs. COLLINS, Mr. KOLTER, and Mr. FORD of Tennessee.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

243. By the SPEAKER: Petition of the City Council of Berea, OH, relative to the Fair Labor Standard Act; to the Committee on Education and Labor.

244. Also, petition of Melat and Pressman, attorneys at law, Colorado Springs, CO, relative to Tara Lynn Waldner and medical malpractice; to the Committee on the Judiciary.

245. Also, petition of the National Beverage Control Association, Inc., Alexandria, VA, relative to excise taxes; to the Committee on Ways and Means.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 3128

By Mr. GRADISON:

—In title I (text of H.R. 3290), strike out section 122 (limiting the penalty for late enrollment in part A), section 145 (relating to occupational therapy services), section 149 (relating to demonstration of preventive health services under medicare), section 155 (relating to vision care), section 157 (relating to changing medicare appeals rights), section 161 (relating to services for pregnant women), and section 168 (relating to extension of MNIS deadline); and redesignate the remaining sections accordingly (with conforming changes in the table of contents).

Strike out title III (relating to aid to families with dependent children); and redesignate the succeeding titles and sections accordingly.

By Mr. KINDNESS:

—"To strike section 123"

By Mr. MOORE:

(Amendment to text of H.R. 3290.)

—Page 4, strike out lines 6 throuth 14 and insert in lieu thereof the following:

(a) CONTINUATION OF TRANSITION FOR ONE YEAR.—(1) Section 1886(d)(1)(A) of the Social Security Act (42 U.S.C. 139ww(d)(1)(A)) is amended by striking out "1986" in clauses (ii) and (iii) and inserting in lieu thereof "1987".

(2) Section 1886(d)(1)(C) of such Act is amended—

(A) by striking out "and" at the end of clause (ii); and

(B) by striking out clause (iii) and inserting in lieu thereof the following new clauses:

"(iii) on or after October 1, 1985, and before October 1, 1986, the 'target percentage' is 40 percent and the 'DRG' percentage is 60 percent; and

"(iv) on or after October 1, 1986, and before October 1, 1987, the 'target percentage' is 20 percent and the 'DRG percentage' is 80 percent.".

(3) Section 1886(d)(1)(D) of such Act is amended—

(A) by striking out "and" at the end of clause (i);

(B) by striking out clause (ii) and inserting in lieu thereof the following new clauses:

"(ii) on or after October 1, 1985, and before October 1, 1986, is a combined rate consisting of 60 percent of the national adjusted DRG prospective payment rate and 40 percent of the regional adjusted DRG prospective payment rate, determined under paragraph (3) for such discharges; and

"(iii) on or after October 1, 1986, and before October 1, 1987, is a combined rate consisting of 80 percent of the national adjusted DRG prospective payment rate and 20 percent of the regional adjusted DRG prospective payment rate, determined under paragraph (3) for such discharges.".

By Mr. SWINDALL:

—Page 38, strike out lines 11-19 and insert the following new subsection:

(3) REPORT.—The Secretary of Health and Human Services shall report to Congress, no later than 16 months after the date of the enactment of this Act, on the effect of the implementation of the amendments made by this section, including the adequacy of remedies provided therein and the need for civil enforcement and criminal penalties in order to carry out the purposes of this section.

SENATE—*Wednesday, October 30, 1985*

(Legislative day of Monday, October 28, 1985)

The Senate met at 9 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

Gracious, wise and patient God, it becomes more and more apparent that those who always seem to know best what decisions to make, never had to make any decisions. Their harsh judgments and criticism come easily. Their advice is generous and free. Their responsibility is in inverse ratio to their rhetoric. Help them dear Lord, somehow to appreciate the awesome duty of being the one with whom the buck stops.

Grant Thy wisdom and understanding, loving Father, to those who work here who do not enjoy the luxury of such freewheeling irresponsibility. When all the words have been spoken and written, the arguments pro and con have been made, and the debate finished, then comes the lonely moment of decision often involving momentous issues. Each must say yes or no whatever the consequences personally or nationally. God of truth, be present in this place and guide to decisions worthy of the most powerful deliberative body in the world.

Lead us in Thy will and way. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The distinguished acting majority leader is recognized.

SCHEDULE

Mr. SIMPSON. Mr. President pro tempore, the convening hour of course is 9 a.m.

We have time for the two leaders under the standing order of 10 minutes each; special order in favor of the Senator from Wisconsin [Mr. PROXMIRE] for not to exceed 15 minutes; routine morning business not to exceed the hour of 9:30 a.m. with Senators permitted to speak therein for not more than 5 minutes each; and following morning business, the Senate will resume consideration of S. 1714, the farm bill. Rollcall votes will occur throughout the day today.

I think our colleagues should be prepared for a later session today and tomorrow night. I believe with the leader's assurance, perhaps on Friday late in the afternoon, Senators will be able to schedule their activities in their States or other functions. But certainly tonight and tomorrow night will be, I would think, later than usual. The leader will develop that during the day as we note the progress or lack thereof.

THE CHAPLAIN'S PRAYER

Mr. SIMPSON. Mr. President, I want to say again the Chaplain has given us an extraordinarily thoughtful prayer as he does almost without exception. Indeed, it does come down to the fact that in our part of the world you can sit on the arena fence and watch the activity down there in the mud. That is easier to do. But when you are down there doing the hand wrestling in the corral, you have to do that by yourself. We have a lot of observers in this body. Indeed, people who are among the fainthearted who sit aside and criticize do not get in there and grapple with it. We do not have the luxury here of voting "maybe." We have to vote "yes" or "no." We all do that. It is important. We realize indeed that there are many who walk the walk in this body and some who just talk the talk.

I guess it is that way in every organization, committee, or community in this Nation. And it is. After all, we are a representative government. So it should be that way.

With that, I reserve the remainder of the leader's time, and yield to the Senator from Wisconsin.

RECOGNITION OF THE ACTING MINORITY LEADER

The PRESIDING OFFICER (Mr. GORTON). Under the previous order, the acting Democratic leader is recognized.

Mr. PROXMIRE. Mr. President, I ask unanimous consent that the time of the minority leader, Senator BYRD, be reserved for his use later in the day.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER. Under the previous order, the Senator from Wisconsin [Mr. PROXMIRE], is recognized for not to exceed 15 minutes.

LET'S TAKE UP THE SOVIETS ON THEIR SIBERIAN RADAR PROPOSAL

Mr. PROXMIRE. Mr. President, in a front page story in the New York Times on October 29, Leslie Gelb reports an offer by the Soviet Union to end the major dispute between the two superpowers with respect to alleged Soviet violation of the Anti-Ballistic Missile Treaty. The Soviet Union offered to stop construction of a radar in central Siberia at Krasnoyarsk which not only the Defense Department but independent American scientists say—if completed—may constitute an overt violation of the ABM Treaty. In return for stopping contruction of this radar, the Soviets are calling on the United States to forgo plans to modernize radars in Britain and Greenland which, in the view of the Soviets and some British experts, could constitute a violation of the ABM Treaty.

A Pentagon official is quoted in the story as calling the Russian proposal, "A nonoffer, a sucker deal." The story quotes a State Department official as saying, "By offering the trade they admit they might be in violation, but there is no decision as of now on how to respond, except to probe informally." It would be a serious mistake to dismiss the Soviet proposal out of hand as the Defense Department official suggests. The State Department suggestion that we should at least "probe" the Soviet proposal would give both this country and the Soviet Union an opportunity to show that they are serious about preserving the ABM Treaty.

Could this be a "sucker deal" in which the United States gives much and gets nothing? That is possible. Some argue that the Krasnoyarsk radar is practically completed. So if the Soviets stop construction there, they lose nothing. On the other hand, neither the United States upgrading of the radar at Fylingdale in Yorkshire, England nor at Thule in Greenland has started. Furthermore, American officials argue that the radars at Fylingdale and Thule were in existence at the time the ABM Treaty was signed and ratified in 1972. So they are exempt.

Then, why should the United States consider accepting such a proposal? We should consider it because the facts are in dispute, and the treaty's intention is ambiguous. Especially we should consider the proposal because

the United States might gain just as much as the Soviet Union from such a proposal—perhaps more. What facts are in dispute? The Russians claim that their radar station at Krasnoyarsk is not completed. They contend it is only 40 percent complete. So why could not the United States respond with the following proposition? We will consider not going ahead with the Fylingdale and Thule upgrading if they will agree to completely dismantle the radar at Krasnoyarsk?

Some will argue that while we are convinced the Krasnoyarsk radar does, indeed, constitute an ABM violation, we do not believe the Fylingdale or Thule upgrading does in view of the specific exception in the treaty. But we may be wrong. The Soviets claim that the exemption applied to Thule and Fylingdale as they were in 1972, and that in no way can the exemption be construed to permit upgrading. The New York Times reports that some British officials also agree that the new construction at Fylingdale, is indeed, a violation of the ABM Treaty. In fact, American officials have reported that the installation at Fylingdale is being held up precisely because "of British concerns that it may be a treaty violation."

Consider the advantage to the United States if we can persuade the Soviet Union to dismantle their radar at Krasnoyarsk. Here is a facility some of our experts contend is fully completed. The additions to our installations in Greenland and Britain are on paper. It is very likely the Soviets will resist such a dismantling counterproposal for this very reason. But why should they? What good is a 40-percent completed facility, if the Soviets have—as they claim—no intention to develop the facility into the hub of an antimissile system which would constitute both a patent violation of the ABM Treaty and a serious threat to the credibility of the U.S. nuclear deterrent?

So, Mr. President, before we brush off the Soviet proposal as "a sucker deal" let us give it consideration. Let us respond with a counteroffer that would obviously serve our interest. What all of this comes down to, is whether or not we believe the ABM Treaty is worth preserving. If we do not believe it is worth saving, then we can reject the Soviet offer out of hand. Then what will happen? Then the Soviet Union will proceed to complete their radar. They will have every incentive to proceed with the antimissile hardware that will give them the beginning of a comprehensive antimissile system. It also means the United States at Thule and Fylingdale will be moving into the antimissile race, hot and heavy, with our stepped up warning system for incoming missiles. So we will be off to the races—the defensive-offensive nuclear races. It will be the most expensive contest in world history and the good Lord knows—the most destructive. We will be off to a race with a certain outcome. There will be no winners, only losers—total losers.

Mr. President, I ask unanimous consent that the article by Leslie Gelb in the Tuesday, October 29 New York Times be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

MOSCOW PROPOSES TO END A DISPUTE ON SIBERIA RADAR

(By Leslie H. Gelb)

WASHINGTON, Oct. 28.—The Soviet Union has offered to halt construction on a radar in central Siberia in return for the United States's forgoing plans to modernize radars in Britain and Greenland, according to American and Soviet officials.

The United States contends that the Soviet radar, at Abalakovo near Krasnoyarsk, is an early warning radar and violates the Antiballistic Missile Treaty of 1972. The Russians say the radar is for space tracking and is allowable under the treaty.

Some British and American intelligence experts, while not agreeing with the Soviet Union, have said that they are not convinced about the United States position.

DEAL CALLED UNACCEPTABLE

Some American officials interpret the Soviet proposal, made about three weeks ago, as a move toward acknowledging that the Abalakovo radar is a violation of the 1972 treaty.

At the same time, these officials said, it is unacceptable to equate the Abalakovo radar with the upgrading of the radars at Fylingdales in Yorkshire and at Thule in Greenland, which they say is allowable.

"We have neither a positive nor a negative attitude overall to the Soviet proposal," a State Department official said. "By offering the trade, they admit they might be in violation, but there is no decision as of now on how to respond except to probe informally."

A Pentagon official said, "It is a nonoffer, a sucker deal."

PROPOSAL MADE IN GENEVA

As described by American and Soviet officials, the offer was made at a special meeting in the Geneva arms negotiations by Yuli A. Kvitsinsky, who heads the space-weapons team. Two other parallel arms discussions in Geneva are concerned with medium-range nuclear weapons and strategic, or long-range, weapons.

According to the sources, Mr. Kvitsinsky said that if the Albalakovo radar was inconsistent with the ABM treaty, so were American plans to upgrade Fylingdale and Thule.

American officials here say that the Fylingdales and Thule radars were in existence at the time the ABM treaty went into force and were exempted.

The Soviet response is that the exemption applied to the Thule and Fylingdales radars as they were in 1972 and was not intended to permit upgrading. Some British officials are also said to feel that the recontruction at Fylingdales is a violation.

The ABM treaty allows the deployment of large radars only on the periphery of the national territories as early warning devices, with their antennas facing out. The object is to prohibit radars in the interior that could be used to track incoming warheads and guide missiles to destroy them.

Since the large radar being built in central Siberia is in the interior, the United Stats contends that it violates the treaty and should be dismantled. The Soviet Union counters that the treaty permits space-tracking radars anywhere, that the Abalakovo radar is solely for that purpose, and that in any event, its antennas are not angled low enough to track incoming missiles.

The United States says the radar has the potential to become the hub of a land-based missile defense system if the Soviet Union decided to break the ABM treaty. The United States' own space-based missile defense program ultimately envisions a land-based defense system that could destroy missiles on takeoff, in space and during reentry.

A Pentagon spokesman said today that the modernization of the Thule radar would be completed in the next year or two, and that upgrading of the Fylingdales radar had not yet begun.

The United States uses Thule under a 1951 accord with Denmark, which is responsible for Greenland's defense. The accord grants the United States naval and air bases in Greenland as part of the Atlantic alliance.

Two American officials said the Fylingdales reconstruction was being held up because of British concerns that it might be a treaty violation. A Pentagon official contended that the delay was a British ploy to gain a greater share of construction contracts.

Experts in the British Defense and Foreign Ministeries are also known to question the American judgment that the Siberian radar is a treaty violation.

The radars at Thule, Fylingdales and Clear Air Force Station in Alaska are the mainstays of the United States' early warning system against missiles.

The planned upgrading of the Fylingdales radar, according to Pentagon officials, would double the scope of the radar to 360 degrees and increase its range by one-third, to 6,300 miles. The present installation is directed in a semicircle covering Scandinavia, Greenland and a relatively small northwest part of the Soviet Union. It would be replaced by a radar sweeping full circle around the western Soviet Union, the Middle East, North Africa and into the North Atlantic.

Unlike the 360 degree coverage at Fylingdales, the Thule radar would have a coverage of 240 degrees.

The Soviet position is said to be that only large so-called phased-array radars on the periphery of national territories may be modernized, and that the Thule and Fylingdales radars were permitted in 1972 because they were not phased-array radars.

American officials say they reject any limitation on the upgrading of these radars because none was stipulated at the time of the treaty. They also said that, legal issues aside, the Soviet offer was unfair because the Siberian radar was "essentially completed," compared to the proposed Thule and Fylingdales upgrading. By "essentially completed," the officials said, they mean the exterior of the radar. They said they could not be sure about the interior work.

Soviet officials said the Abalakovo radar was 40 percent completed.

THE ARMENIAN MASSACRE OF 1915

Mr. PROXMIRE. Mr. President, in August the United Nations Subcommission on Prevention of Discrimination and Protection of Minorities voted to accept a study backing charges that 1 million Armenians were massacred by Turkey's Ottoman Empire.

Turkish officials immediately rejected the charges as illfounded and inflammatory, while Turkish delegates to the United Nations requested that the study not be passed on to the United Nations Human Rights Commission.

Thé study prepared by human rights advocate, Benjamin Whitaker, contains several troubling paragraphs including one which cites nine instances of genocide in Turkey in this century.

The study refers to the 1915–16 Ottoman massacre of Amenians as a case of genocide. It states, "at least 1 million, and possibly well over half the Armenian population, are reliably estimated to have been killed or deathmarched."

This is the first time a United Nations body recognized the Armenian massacre as genocide. The Turkish Government, which has succeeded in deleting similar references to the Armenian massacre in the past, spared no efforts trying to defeat the passage of the study. Turkish officials maintain that these deaths resulted from killings during World War I between Turkish and Armenian communities. They deny any massacre took place.

Mr. President, the Armenian massacre is fact, not fiction. The validity of the United Nations study is confirmed by reports in the diplomatic archives of the United States and Britain. Even Germany, Turkey's ally during World War I, confirms the study.

Mr. President, I am not critizing the present Turkish Government for the Armenian massacre. Although they had nothing to do with it, they feel its effect today. More than 30 Turkish diplomats have been murdered by Armenian terrorists in the last 10 years.

I urge the Turkish Government to join in condemning those who perpetrated the Armenian Genocide of 1915. It must never happen again.

Mr. Preident, the United States can do little about the Armenian Genocide of 1915. We can do something about future genocides.

Mr. President, I urge the U.S. Senate to ratify the Genocide Covention and work to prevent future genocides.

THE MYTH IS THAT TELEVISION WOULD BE GOOD FOR THE SENATE

Mr. PROXMIRE. Mr. President, the Senate will soon be asked to change its rules to accommodate the ubiquitous Boswell of modern society—the television camera. Proponents of these changes will argue that the Senate needs the camera. Otherwise, we will become a fusty, dusty relic of a bygone era. Are these assertions true or a myth?

In the Federalist papers, those astute founding fathers James Madison, Alexander Hamilton, and John Jay—defined the role of the Senate. I quote, "The necessity of a Senate is not less indicated by the propensity of all single and numerous assemblies to yield to the impulse of sudden and violent passions, and to be seduced by factious leaders into intemperate and pernicious resolutions." We have put this principle into practice as the world's greatest deliberative body—a flattering, sometimes accurate description of today's Senate.

Is television consistent with this fundamental principle of the Senate? Consider two recent examples of television coverage—the Mexico City earthquake and the World Series.

Television covered the tragedy in Mexico City like a cat after a mouse. The anchormen donned their casual clothes and flew off. The Nation watched in fascination as they reported on dogs sniffing the rubble, searching for survivors. We witnessed miraculous rescues, and equally moving tragedies.

Then, as if the cat had become bored with the mouse, it all dropped from sight. How many people died—who knows? Were the destroyed buildings improperly constructed?—another unanswered question. What lessons should we learn?—the silence is deafening. Once the drama ceased, and the hard, deliberative work began, television blinked and rushed off after the charming Mrs. Gorbachev in Paris.

Even on the great, American pastime—baseball—television's influence has been profound. Television has made it possible for ballplayers who barely hit their weight to earn more than the President of the United States. their hair is blow-dried and their uniforms are double-knit. They play on artificial grass, under artificial lights, and in ballparks where summer breezes are manufactured by air-conditioning companies.

The game has become theater, as carefully staged as any situation comedy. And the pressures to jazz it up, to change its deliberative nature, are growing.

This same type of pressure will push the Senate away from deliberation, toward drama. That means more speeches, more argument, more confrontation. Would this be good for the Senate? Let me answer this by posing a question—have you ever tried to deliberate in the middle of a passionate argument in front of a television camera?

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the tansaction of routine morning business, not to extend beyond the hour of 9:30, with statements limited therein to 5 minutes each.

VISIT OF DR. SIAKA STEVENS, PRESIDENT OF THE REPUBLIC OF SIERRA LEONE, TO WEST MEMPHIS, AR

Mr. BUMPERS. Mr. President, I rise today to join with the city of West Memphis, AR, in welcoming the distinguished President of the Republic of Sierra Leone, Dr. Siaka Probyn Stevens, to that fine city on November 2.

Dr. Stevens is on a trade mission to the United States, and will be the guest of the Honorable Leo Chitman, mayor of West Memphis. Dr. Stevens is on one of the last such missions of his 18-year Presidency. He seeks to foster even greater economic ties with the United States and I am hopeful that his intercourse with the leaders of the West Memphis community will work toward that end. Economic development is the vital goal that links the interests of West Memphis and Sierra Leone. I, too, am committed to this goal, and I know that Mayor Chitman is doing all he can to further the economic interests of the West Memphis area.

Sierra Leonean relations with the United States are cordial and continue to improve. This is clearly a result of the good will of President Stevens and his receptive understanding of U.S. goals and interests. It is hopeful that Dr. Stevens' successor, Maj. Gen. Joseph Momo, will continue this tradition of cooperation.

Once again, Mr. President, I extend my welcome to Dr. Stevens on his visit to West Memphis, and I want to commend Mayor Chitman for inviting him. I am confident that he, Mayor Chitman, and other city officials and business leaders will form the bonds of friendship that can only help lead toward prosperous development through mutually beneficial trade.

TRIBUTE TO BEN MARCUS AND STEVE MARCUS

Mr. KASTEN. Mr. President, I rise today to salute two outstanding business and civic leaders who have contributed a great deal to the city of Milwaukee and to our State of Wisconsin. Ben and Steve Marcus are excellent examples of the heritage of Wisconsin's entrepreneurial spirit.

The company which they lead, the Marcus Corp., turns 50 in November and is a leader in the hotel, restaurant, and movie theater business.

They have developed two of Milwaukee's fine hotels—the Marc Plaza and the Pfister Hotel—and have built a chain of 44 Budgetel motels located throughout the Midwest and the South.

The Marcuses have also developed an excellent chain of steakhouses and restaurants situated in four States.

Opening their first theater in Ripon in 1935, the Marcus Corp. has been in the forefront of quality theaters in Wisconsin for many years. Today, the firm has 114 movie screens in Wisconsin and six more under construction. The Marc Cinemas have become the largest independent theater chain in Wisconsin.

Ben and Steve Marcus have been a part of important economic expansion in a host of Wisconsin communities. They have been willing to risk their capital and serve as catalysts to other key projects throughout the State.

The Marcuses are an important part of Wisconsin's economy. We are fortunate to have them making such an excellent contribution to our business community.

Mr. President, I ask for unanimous consent that a Milwaukee Journal article from October 8, 1985, be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Milwaukee Journal, Oct. 8, 1985]

THE DREAM REALIZED: MARCUSES KEEP ADDING CHAPTERS TO A CLASSIC SUCCESS STORY

(By Tina Daniell)

This is a story about good business sense and hard work, about opportunity and hard work, about intelligence and hard work, about tradition and hard work.

This is also the story of a father-and-son team that has built an eminently successful company, the Marcus Corp., with operations in the movie theater, restaurant and lodging industries.

Father-and-son teams are tricky propositions. But Ben and Steve Marcus seem to have one that works. The company they run, as chairman and president, respectively, marks its golden anniversary next month.

The Marcus business grew from one movie theater in Ripon, Wis., to a company that operates 114 movie screens in Wisconsin, with six more under construction. It also operates more than 100 restaurants, primarily Big Boy franchises, in four states and 44 hotels and motels. It employs 8,000 people. Company revenues hit $131.8 million in fiscal 1985 and profits topped $8 million.

Born in Poland, he arrived in America in 1925 at the age of 14, not speaking a word of English. His family settled in Minneapolis, Minn., where his father, who was a fruit broker in Poland and had emigrated 10 years before his family, had built a small meat-packing business.

Within two months, Ben had learned English and enrolled in public school. In another four years, he had completed both junior high and high school, graduating as a member of the National Honor Society.

He dropped out of the University of Minnesota after four semesters, shifting all his attention to a job selling ads at the Minneapolis Journal. But it was the movie business that attracted him. He drove throughout Minnesota and Wisconsin in his free time, looking for a likely city in which to open a movie theater.

He found it in Ripon, and borrowed money to buy and convert an abandoned department store into the city's only movie house, the Campus Theater. The year was 1935. He was 24.

Ben's explanation of his business' growth sounds deceptively simple in retrospect. When television was born, he looked for a way to diversify his theater business and became an early franchisee of Big Boy restaurants. He bought the bankrupt Pfister in 1962.

You don't get a sense of the keen intelligence behind those moves because he is genuinely self-effacing. And he doesn't look the part of a ruthless tycoon.

Genial, white-haired, puffing on a pipe, he seems typecast to play Santa Claus at Macy's. But the intelligence is there in both father and son, associates say.

By no means are Ben and Steve carbon copies of each other. They don't look alike. They don't talk alike—Steve, who was raised in the Midwest, and Ben, whose voice retains a slight imprint of his early years in Poland. When you talk to Ben, he pauses frequently to fill and relight his pipe. When you talk to Steve, he pauses to sip a Diet Pepsi. Old world and new.

What they share, though, is a common philosophy on how to run their business. It's a conscientious, hard-working, hands-on management style. Ben still works 10 to 11 hours a day. Steve, who is 50, outdoes him, putting in 12 to 13 hours a day.

After a busy weekend at the Pfister, Ben is likely to show up Monday morning just to see that everything is in order, said one former employe. On Sunday, the one day Steve Marcus usually does not go down to the company's offices, he tries to go to a Big Boy or Captain's, another Marcus operation, for brunch or lunch, and always winds up taking notes.

"They really know what's going on in all parts of their business," said one former employe.

Ask Ben Marcus about his company's success and he'll give credit to luck at hiring and keeping good employes. "I discovered early in my career that a business' most valuable asset is people, not money. You can always borrow that," he observed.

Clearly, one of the people he relies on is Steve. Steve, however, wasn't always sure that he would join his family's business.

"I imagine like any child growing up in that situation, there were times I thought that naturally, I would go into the business and other periods when I wanted to strike out on my own," he said.

That is what he did after graduating from the University of Michigan Law School in 1960. Always interested in real estate, Steve got a job with a real-estate developer in San Francisco. Then he came back to Milwaukee and did legal work and leasing in what was then a very hot area, discount-store development.

The work gave him confidence in his own abilities, Steve said.

After 1½ years of that work, Steve said he saw there was a lot of legal work ahead in his father's company, and decided he wanted to help.

"I was self-assured enough to go into the business then, and I knew I was not in the position of being handed something that was not deserved, which was very important to me," he said.

There's no doubt about how pleased Ben was by Steve's decision.

"I was very, very thrilled when my son decided to come in. And I was more thrilled when I found he was capable of doing a good job. He's doing a better job than his father did," Ben said.

"People who say Steven is just riding his father's coattails don't know what they're talking about," said one former Marcus Corp. employe. "A lot of the company's accomplishments can be credited to him. It's tough on Steve. He'll always be the kid."

It was Steve who forsaw the segmentation of the lodging industry and came up with the idea for Marcus Corp.'s very successful Budgetel chain, which offers modestly priced accommodations for business and family travelers. The first Budgetel was opened in 1974. There are now 22 open and 22 more are being built in an area that stretches throughout the Midwest to Georgia, Florida and Alabama.

Marcus Corp.'s lodging division, which includes the Pfister, the Marc Plaza and the Sheraton Mayfair here, is the company's most profitable unit. Its revenues in 1985 were a little more than half of the larger restaurant division's, but profits of $7.2 million were one-third higher, amounting to more than 50% of total operating profits.

Now, the company's focus is on the national expansion of Budgetel. But for years, Marcus Corp. gave much of its attention to Milwaukee's Downtown.

Marcus said he bought the bankrupt Pfister Hotel in 1962 as a gamble. But he seemed to have always been willing to gamble on Milwaukee. The company moved its headquarters from Whitefish Bay to its current address at 212 W. Wisconsin Ave. in 1963, a time when many other firms were migrating in the opposite direction. The Marcuses bought the old Sheraton Schroeder in 1972, before there were any concrete plans for a revitalized Downtown, and converted it to the Marc Plaza.

"The made some singularly dramatic investments in Downtown," said Stephen Dragos, who for years was executive vice president of Milwaukee Redevelopment Corp. and now holds a similar position with a group in Phoenix, Ariz.

"They were some of the earliest supporters of Downtown redevelopment, and they had their money in some of the riskiest places. Anybody would tell you not to invest in old hotels, restaurants and theaters, even when redevelopment is being planned," Dragos said.

Sometimes Milwaukee's redevelopment hasn't moved in the direction the Marcuses wanted, notably when the Hyatt Regency Milwaukee was planned. Both Ben and Steve were outspoken in their opposition. They said occupancy at existing hotels Downtown meant the Hyatt's construction wasn't warranted.

But the hotel got built, and the Marcuses didn't pull up stakes in a snit and move elsewhere. That's not their style, said Kevin O'Connor, who was Downtown alderman from 1974 to 1983.

"They are the most genuinely civic-minded people you could find in the country," said O'Connor, now assistant vice president of First Wisconsin National Bank.

Steve, who has three sons, 15, 18 and 21, says he is officially neutral on the question of whether his children should join the company.

"I've neither discouraged or encouraged that," he said.

Ben, on the other hand, said unabashedly that he would like to see his grandchildren eventually get involved with the company. A daughter, Diane Marcus Gershowitz, who has never been directly involved with the business, has just been nominated to join its board of directors.

Both Steve and Ben agree that keeping Marcus Corp. a family business and in Milwaukee are top priorities. Though attractively positioned in the service sector, where much growth is expected to take place in the future, Ben Marcus said he was not worried about the company being a takeover candidate because it has been structured to keep the majority of stock in family hands. The financial rewards of a takeover hold little appeal.

BLAIR LEE III

Mr. MATHIAS. Mr. President, the State of Maryland and the Nation have lost one of their most objective public servants with the death of Blair Lee III.

Blair Lee served as the acting Governor of Maryland, a unique experience in the history of our State. He served, of course, in many other public offices. I had the personal pleasure of having entered public life with him, since we both became members of the Maryland House of Delegates at the same time.

Blair Lee had an interesting capacity for distilling the lessons of history and applying them to the politics of today. He attempted to take the best from the past and make it into the best of the future, and his whole political career was an exposition of this theme.

I remember how dedicated he was to transmitting the traditions of history to future generations. In 1976, during the Bicentennial of American independence, I thought about what we could do in our own family so that our children would remember the Bicentennial of American independence as a special event in their lives. I concluded that one of the most interesting and educational things we could do would be to visit, on the Fourth of July, 1976, the graves of the four Marylanders who had signed the Declaration of Independence on July 4, 1776. So we planned that day to visit the graves of Thomas Stone, of Samuel Chase, of Charles Carrollton, and of William Paca, all located in different parts of Maryland.

I was interested and pleased, but not surprised, to find, on that pilgrimage to the graves of these signers of the Declaration of Independence, that Blair Lee had preceded me at each stop.

He had an impulse to want to identify himself with the best of the past so that he could project it into the future.

We have suffered a personal loss in the death of Blair Lee, and we have suffered a public loss.

Mrs. Mathias joins me in extending our sympathy to Mrs. Lee and to members of her family.

Mr. President, I ask unanimous consent to have printed in the RECORD an editorial published in the Washington Post yesterday on the subject of Mr. Lee's contributions to Maryland.

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

BLAIR LEE III

Blair Lee III was a professional politician in the more elevated sense of the term. What interested him was the way Maryland's turbulent democracy works, and he set about learning to know the state and its government with the same precision that a surgeon learns anatomy. Like a surgeon, his purpose was to make the thing work better. In 1977-78 he served briefly as acting governor, and that is the tag usually attached to his name. But there was a great deal more to his long career than that.

He was born into one of Maryland's great political families and entered Montgomery County's Democratic politics at a time, shortly after World War II, when the party was fiercely divided between the old country-style machine and the increasingly well-organized suburbs. The enduring vice of Montgomery politics is an addiction to a narrow and zealous factionalism that was never worse than in those years. Mr. Lee's father, E. Brooke Lee, was the dominant figure in the old organization, while by age, education and outlook the younger Mr. Lee had much in common with the new wave of suburban voters who were determined to seize control. He chose to be a broker, valued by each side for his assured knowledge and his detached good judgment—but that detachment always made him slightly suspect within the party. He retained that talent for detachment throughout his life, it protected his integrity, but it probably set a limit to his success in election campaigns.

He served in both houses of the General Assembly, then became lieutenant governor under Marvin Mandel and, after Mr. Mandel's conviction on charges of corruption, replaced him. The aura of scandal vanished from the governor's office under Mr. Lee, but whether because of the Mandel connection or his own cool and ironic manner, he lost when he ran for a full term in his own right.

Among the many useful things that he accomplished for the state, the most important were in the field of education. Coming from the richest county in the state, he improved and strengthened the formula for distribution of state funds, limiting the disparity between the quality of schools in the most and least wealthy communities. It was a characteristically inconspicuous and important contribution to equality of opportunity. After leaving the governorship he served on the board of regents of the University of Maryland, and persuaded the General Assembly to set up the fund to augment the salaries of outstanding faculty there.

Maryland politics is a paradox. The most visible side of it has repeatedly been spectacularly tawdry, and yet the state is notably well run and provides fine schools for its children. If you are looking for an explanation, you might usefully begin by considering the career of Mr. Lee, who died last Friday at his home in Silver Spring.

TWENTIETH ANNIVERSARY OF THE FOSTER GRANDPARENT PROGRAM

Mr. CRANSTON. Mr. President, 1985 marks the 20th anniversary of the establishment of one of the Federal Government's finest, most successful domestic volunteer programs—the Foster Grandparent Program. I join the many Americans who have been enriched by this program in applauding the Foster Grandparent Program on its 20th anniversary.

I have been closely associated with the Foster Grandparent Program throughout my service in the U.S. Senate. As chairman for a number of years of the Senate subcommittee with jurisdiction over the program, I had the privilege of authoring much of the legislation relating to the Foster Grandparent Program that came before the Senate during that period. I was pleased earlier this year to join with 40 of my colleagues in cosponsoring Senate Joint Resolution 92, a resolution designating October 1985 as the "National Foster Grandparent Month." That resolution was unanimously approved by the Senate on May 3, 1985, and signed by the President on October 28, 1985.

Mr. President, in 1965, the Foster Grandparent Program was launched as part of President Johnson's anti-poverty crusade. At its beginning, approximately 800 low-income older Americans participated in 21 Foster Grandparent projects. Since that time, the program has grown to 19,000 foster grandparents who work on behalf of approximately 66,000 children in 249 projects across the Nation.

The Foster Grandparent Program, which is operated through the ACTION agency which administers the Federal domestic volunteer programs, provides men and women of age 60 or older who possess the public spirit, but not the financial means, a modest stipend to enable them to volunteer in part-time positions assisting children with emotional, mental, or physical disabilities. Foster Grandparents volunteer in a variety of institutions including schools, day-care centers, hospitals, and within programs for abused and neglected children. In addition to an hourly stipend, they receive an annual physical examination, insurance benefits, and meals, when serving as volunteers.

For some children, a foster grandparent is the first person in their lives to show concern and to provide warmth and guidance to them. The many relationships that grow as a result of this contact enrich their lives in ways that defy any meaningful statistical measure. The benefits of this program extend beyond the actual

participants, and without question, vastly outweigh its relatively small cost.

The success of the Foster Grandparent Program stems from the dedication, hard work, and good will of the thousands of Americans who have designed, administered, and participated in the program over the last 20 years. I am proud to honor their efforts and join in celebrating the 20th anniversary of this remarkable program.

EIGHTH ANNIVERSARY OF "AHORA"

Mr. BRADLEY. Mr. President, on October 30 of this year, "Ahora," the Hispanic supplement to the Dispatch newspaper in Union City in my home State of New Jersey, will celebrate its eighth anniversary.

I want to take this opportunity to congratulate "Ahora" and the Dispatch for 8 years of fine writing and information they have offered New Jersey and our Hispanic residents.

"Ahora" has contributed a great deal to the cultural diversity of New Jersey. It is a newspaper that reflects the pride that Americans have in their heritage.

I am sure that my colleagues in the Senate join me in wishing "Ahora" many more years of success.

LEGISLATIVE BRANCH APPROPRIATIONS, 1986—CONFERENCE REPORT

Mr. DOMENICI. Mr. President, last evening just prior to recess, the Senate agreed to the conference report on H.R. 2942, the legislative branch appropriation bill, 1986.

Mr. President, I support the conference agreement on the legislative branch appropriation bill.

I would like to commend the members of the conference for producing a bill that is consistent with the subcommittee's section 302(b) allocation under the budget resolution.

H.R. 2942 provides $1.6 billion in budget authority and $1.4 billion in outlays in fiscal year 1986 for the activities of the U.S. Congress and related agencies.

With outlays from prior-year budget authority and other adjustments taken into account, the bill is under the subcommittee's 302(b) allocation by less than $50 million in budget authority and over the allocation by less than $50 million in outlays.

Mr. President, I ask unanimous consent that tables showing the relationship of the bill to the subcommittee's 302(b) allocation, the President's request, the House-passed level, and the Senate-passed level, and a summary of total appropriations action to date, be printed in the RECORD at the conclusion of my remarks.

Again, Mr. President, I support this conference agreement and commend the Appropriations Committee and conferees for producing a legislative branch appropriation bill consistent with the budget resolution levels for the President's signature.

There being no objection, the tables were ordered to be printed in the RECORD, as follows:

CALIFORNIA CLINICAL LABORATORY ASSOCIATION

Mr. CRANSTON. Mr. President, on October 17, the California Clinical Laboratory Association [CCLA] held its annual meeting in Newport Beach, CA.

The CCLA represents independent hospital-based laboratories as well as those that are locally owned and operated. These laboratories play an important role in patient care, carrying the responsibility for conducting many analyses and tests that are essential for accurate diagnosis and treatment of diseases.

Mr. President, I would like to take this opportunity to make special note of the leadership provided to CCLA by Mr. Fred Struve of San Jose, CA, who is nearing the close of his tenure as president of this fine organization.

Mr. Struve has brought to his position many years of experience in the medical laboratory field and has twice been named Medical Technologist of the Year in California.

I want to extend my warmest wishes to Fred Struve and the CCLA for many future successes.

INVOCATION DELIVERED BY BISHOP F.C. JAMES, CHAIRMAN OF THE BOARD OF ALLEN UNIVERSITY IN COLUMBIA, SC

Mr. THURMOND. Mr. President, on October 2, 1985, I hosted a Federal Procurement Conference in Columbia, SC, to better inform small businessmen and women in my State how to do business with the Federal Government.

More than 700 people gathered to hear two special guest speakers, Mr. Terence Golden, Administrator of the General Services Administration; and Dr. James Wade, Assistant Secretary of Defense for Acquistion and Logistics; and to receive individual counseling from highly qualified Government procurement experts and prime contractor representatives.

Although a business conference, one of the highlights of the day's activities was the invocation delivered by Bishop Frederick (F.C.) James, chairman of the board of Allen University, an historically black college in Columbia. Numerous participants at the conference enjoyed the highly inspirational prayer delivered by Bishop James and subsequently asked him for a copy of the invocation for their personal use.

Mr. President, I ask unanimous consent that a copy of the prayer delivered by Bishop F.C. James be included in the RECORD so that I may share this motivational invocation with my colleagues.

There being no objection, the prayer was ordered to be printed in the RECORD, as follows:

PRAYER

(By Bishop F.C. James)

Eternal God Our Father,

As we gather to break bread together, accept the praise we bring.

For the life we live, the food we eat, the liberty we share and the privilege to dare, we return our thanks, Dear Lord.

We are thankful for our citizenship in this Nation and State. Bless us that we may be blessings—each to the other.

Continue to bless the Leadership of our Senator J. Strom Thurmond. May his diligence be ever matched with success.

Remind us to "Be Not Slothful in Business" Therefore,

May the younger among us—wake-up;
May the older among us—step-up;
May the idle among us—sign-up;
May the angry among us—wise-up;
May the able among us—stand-up;
May the smart among us—think-up;
May the strong among us—link-up;
May the successful among us—count-up;
May the believers among us—mount-up;

And take wings as the Eagles that you meant for us to be.

We shall be careful to give to you the Glory—as we ask all in Your Name. Amen

THE SUGAR PRICE SUPPORT PROGRAM

Mr. INOUYE. Mr. President, it was with dismay that I read my mail this week to discover first, that a former senior White House official was receiving $300,000 from CBI nations to lobby the President for increased access to U.S. sugar markets, and second, that the State Department had entered the fray over the proposed Bradley-Gorton amendment to reduce the sugar price support program contained in the 1985 farm bill.

Congress and the administration alike are concerned about the current cost of our Nation's commodity programs. But I do not understand why the Secretary of State sent my colleagues a letter dated October 11 which urges, in essence, that we export American jobs and worsen our trade deficit by putting our domestic sugar industry out of business. The history of the 1981 farm bill shows that the sugar program can and should operate at no cost to the American taxpayer, and I do not see why we should sacrifice American sugar cane, sugar beet, and corn growers for the sake of foreign sugar producers.

Mr. President, I wish to debunk the notion that the Bradley-Gorton amendment will provide immediate relief for CBI countries. I thus ask unanimous consent that a table prepared by the Hawaiian Sugar Planters Association on CBI revenues be printed in the RECORD. I would also like to know how it is that the Secretary of State entered the sugar debate—on the side of foreign producers and to the detriment of hard-pressed American farmers. As such, I also ask unanimous consent that the full text of my letter to Secretary Shultz be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CARIBBEAN AND CENTRAL AMERICAN SUGAR PRODUCING NATIONS REVENUE FROM SALES OF SUGAR TO THE UNITED STATES (FISCAL YEARS 1986–91)

Country	Committee bill	Bradley/ Gorton	Bradley/Gorton Revenue loss
Dominican Republic	$912,900,000	$686,200,000	−$226,700,000
Guatemala	248,900,000	187,100,000	−61,800,000
El Salvador	151,100,000	113,600,000	−37,500,000
Panama	150,400,000	113,000,000	−37,400,000
Costa Rica	104,900,000	77,900,000	−27,000,000
Honduras	98,900,000	74,300,000	−24,600,000
All other Central American and Caribbean nations	362,300,000	272,300,000	−90,400,000
Total Bradley/ Gorton revenue loss			505,400,000

The above information is based upon the estimate of the U.S. Department of Agriculture that the Bradley/Gorton amendment would result in a reduction in the sugar price support of 6 cents (a price support cut of 3 cents per pound phased-in over the life of the bill plus the elimination of the 3 cents per pound transportation factor). The data reflects the incremental reduction that the Bradley/Gorton amendment would achieve each year. The data assumes a continuation of the current quota and allocation among Central American and Caribbean nations.

Summary: Under the Bradley/Gorton amendment, the sugar revenues of Central American and Caribbean nations would be cut by $505,400,000 over the life of the farm bill as a consequence of the amendment's price support reduction.

U.S. SENATE,
Washington, DC, October 28, 1985.

Hon. GEORGE SHULTZ,
Secretary, Department of State, Washington, DC.

DEAR MR. SECRETARY: One sometimes hears the call for an "American Desk" at the Department of State. Your letter of October 11th to Senator Bradley, endorsing the Bradley-Gorton amendment to the sugar title contained in the 1985 Farm Bill, certainly adds fuel to those demands.

The Bradley-Gorton amendment is of benefit primarily to the big industrial users of sugar. It can increase the earnings of sugar-exporting nations only if there is a collapse of a major share of our nation's sugar production. It also favors foreign producers over American growers and demonstrates greater concern for the debts owed by foreign nations to large international banks than it does the money owed by domestic farmers to small rural banks.

The proposed amendment calls for reduction of six cents per pound in the price of sugar landed in New York by 1989. This means $120 less per short ton for sugar sold in the United States by both domestic and foreign producers. The resulting loss of revenue for countries exporting sugar to our market would amount to $280 million (at FY 1986 import levels) and could only be replaced by a substantial decline in U.S. production. At current depressed world market prices, exporting nations would have to ship an additional 1,550,000 tons to our market just to break even. More than one-fourth of American's sugar producers would have to go out of business before sugar exporting nations would earn an additional dollar (see enclosure).

When did it become the policy of the United States Government to drive our own farmers and processors out of business in order to deliver our markets to foreign producers? And when did it become the policy of this Administration to worsen rather than improve our trade deficits by becoming dependent on imported sugar? Such a policy is even more difficult to understand since our farmers produce sugar at about the average world cost of production—despite our much higher wages. Indeed, five of the CBI countries are higher cost producers than the United States, according to a recent Library of Congress study (Report No. 85-144 ENR). If the Caribbean countries you identify in your letter are in such desperate economic straits, how can they afford to pay a former senior White House official $300,000 in order to increase their share of the U.S. sugar market (as reported in the WASHINGTON POST on October 27th)?

Your letter inaccurately claims that current sugar exports to the United States are less than half what they were in 1981. I would point out that in December 1981, a million tons of sugar were exported to the United States in order to avoid the fees that were imposed starting in 1982. As a result, our 1981 imports reached 5,025,000 tons. The fact that they dropped to 2,964,000 tons in 1982, despite a 421,000 ton decline in U.S.

production and a similar decline in consumption, is clear proof of unusual sugar imports in 1981.

The demand for sugar in the United States has declined during the past decade with the advent of high fructose corn syrup (HFCS), which now dominates the soft drink market. As a result, imports and domestic production of sugar have declined. Is it the position of the Department of State that HFCS, the lowest cost liquid sweetener produced anywhere in the world, should be permitted on the U.S. market only if it replaces domestically produced sucrose? Given the size of domestic corn surpluses and the economic distress of our farmers, I find such a position—if true—incredible and contrary to our national interest.

Because of my great concern in this matter, may I ask that you advise me about your reasons for endorsing the Bradley-Gorton amendment and why the State Department would endorse legislation that will put American farmers out of work?

Thank you for your time and consideration in this matter. I look forward to hearing from you at the earliest opportunity.

Aloha,

DANIEL K. INOUYE,
U.S. Senator.

CONCLUSION OF ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Morning business is now concluded.

AGRICULTURE, FOOD, TRADE, AND CONSERVATION ACT OF 1985

The PRESIDING OFFICER. The Senate will now resume consideration of the unfinished business, S. 1714, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 1714) to expand export markets for United States agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, continue food assistance to low-income households, and for other purposes.

The Senate resumed consideration of the bill.

Pending:

(1) Stevens Amendment No. 914, to establish shipment requirements for exports sponsored by the Department of Agriculture.

(2) Cochran Amendment No. 915 (to Amendment No. 914), of a perfecting nature:

(3) Inouye Amendment No. 916, of a perfecting nature.

The PRESIDING OFFICER. The pending amendment is amendment No. 916.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I am almost tempted to call for third reading, but I will not do that just yet. That might excite some of the brethren and ladies who make up this august body. But here we are at a quarter to 10, and one Senator is on the floor in addition to the distinguished Presiding Officer.

As I count them, we have, at a minimum, 60 amendments to consider. Of course, I am speaking in a hopeful way to those who may be listening on their little squawk boxes in their offices, when I say that we want to move this bill along. We have a pending amendment, and soon we will see a rollcall vote on it.

There is no point in Senators facing the singing of "Jingle Bells" in this Chamber or even "Auld Lang Syne," when we could begin our work on the bill, conclude it, and move on to other things, such as the reconciliation, the debt ceiling, appropriations bills.

So, with all sincerity and friendliness, I do implore all Senators to come to the floor and begin work today on the farm bill.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from North Carolina is recognized.

Mr. HELMS. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. HELMS. What is the pending business?

The PRESIDING OFFICER. The pending business is amendment 916.

Mr. HELMS. Mr. President, I ask unanimous consent that that amendment be laid aside so that the distinguished Senator from Illinois may call up an amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Illinois is recognized.

Mr. DIXON. Mr. President, and Members of the Senate, as you know, we continue to address the problem of the use of American-flag vessels in connection with the transport of agricultural commodities.

One of the things that some of us feel would help to improve the quality of this legislation is to require that all agricultural commodities be shipped according to the lowest landed cost at whatever port might be used.

AMENDMENT NO. 926

Mr. DIXON. At this time, Mr. President, I send to the desk an amendment and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Illinois [Mr. DIXON] proposes an amendment numbered 926.

At the end of the pending amendment (No. 916) insert the following new section and renumber succeeding sections accordingly:

"SEC. . The requirement for United States flag transportation imposed by subsection (a) herein shall be subject to the same terms and conditions as provided in section 901(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. subsection 1241(b)) provided that agricultural commodities or the products thereof shall be shipped at the lowest landed cost (as provided in part 1496 of Title 7 of the Code of Federal Regulations)."

Mr. DIXON. Mr. President, the amendment is self-explanatory.

For all in the Senate who would like to see the agricultural products of America shipped at the most reasonable rate, and keeping in mind the impositions that we have—by our own votes here—permitted to have placed on the bill by the adoption of a stricter cargo preference rule, I believe that most Senators would think that this amendment is desirable, that it will at least require that the shipping of agricultural products on American bottoms must be at the lowest landed cost.

Mr. President, I ask for the yeas and nays on this amendment.

The PRESIDING OFFICER (Mr. DENTON). Is there a sufficient second? There is not a sufficient second.

Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. DIXON. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DIXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. Mr. President, with the acquiescence of the distinguished chairman of the Agriculture Committee, I ask unanimous consent that the Inouye amendment be reinstated and that my amendment presently at the desk be considered at this point.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. The yeas and nays are already ordered.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, recently I had an opportunity to read in the papers in my State references to a study put out by, I presume, the Senate Agriculture Committee, because it refers to Chairman HELMS in terms of Senator HELMS' paper, stating that commercial size farmers last year netted $35,273, on the average.

I have not had a chance to look at that paper. I do not know, in the continuing debate on the farm bill, the extent to which everyone will have a chance to study it. I do not question its legitimacy at this point. I do not have any reason to think I should ever question the legitimacy of the study.

I just wonder about what it takes into consideration in figuring average income. I think the impression here that people want to leave is that in considering average income of nonfarm families in the United States, that must surely be a pretty good income.

I think we need to take into consideration that the family farm, as a sole proprietorship, does not have the benefit of having before tax deductions of health care and insurance costs, like many of its urban counterpart might have.

There are a few farms that are incorporated and through incorporation pay some of these expenditures. But most family farmers are sole proprietorships and they do not have that benefit.

In the unionized industries, like car manufacturing and farm machinery manufacturing, a lot of fringe benefits are calculated at about 20 to 30 percent of total pay. That is a benefit that the family farmer does not have.

The other thing that I would like to raise question about this figure of $36,273 relates to whether or not it takes into consideration the low incomes paid for farm laborers, and also what is the definition of farmer in this particular instance.

If it did not take into consideration the return on labor, then, of course, the figure should not be considered very accurate in the sense of its comparison to city dwellers. If, in fact, it does take income into consideration, obviously that income that would be taken into consideration would be a lower income. I think that is something that everybody needs to be aware of.

Second, I think we need to think in terms of longer hours in agriculture labor, particularly the self-employed individual as opposed to somebody who is working by the hour, week, or month. Hourly wages are generally lower in farm income mostly because longer hours are put in, particularly as it relates to livestock producers and dairy producers, who obviously have an obligation 365 days of the year. Farming requires more attention and there is more responsibility. Because of longer hours it seems to me not very fair to compare agriculture with nonagriculture in the sense of length of time put in.

I would suggest that there are a lot of other issues that I am going to address later on in paper form for my colleagues, some statements about the present farm program distributes too many Government subsidies for the farmers; the payments are misdirected or poorly utilized and, therefore, the farm economy has been weakened.

Also, another accusation about past and present farm programs have resulted in lower net income for farmers and yet direct payments have been greatly increased; therefore, U.S. farm programs have contributed to a weakened farm economy. That is not the case. That is an accusation that we definitely have to address head-on and dispute in the RECORD.

Another argument is that U.S. farm income is geared to produce for the export market and foreign farmers realize this by undercutting our prices in the marketplace through planning according to our farm programs.

Also, the argument is made that only 30 percent of the value of U.S. products is covered by farm programs, so why have any farm program at all because livestock and perishable commodities, and a lot of other commodities that make up the other 70 or 80 percent, are not covered.

That does not take into consideration the fact that there has been a lot of protection for fruits and vegetables through their control of the marketplace and the marking orders that they have used.

There are several other issues that in some fashion we are going to be addressing as we deal with most of the issues of the farm bill.

I would appreciate my colleagues' attention to this $36,273 figure so that they understand the difficult issues that have to be considered when comparing nonfarm income with farm income.

Mr. HELMS. Does the Senator yield the floor?

Mr. GRASSLEY. Yes.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

Mr. COCHRAN. Mr. President, will the Senator withhold?

Mr. HELMS. Yes.

Mr. COCHRAN. Mr. President, we have the Dixon amendment pending. It would be my intention, after Senators who want to be heard on the amendment have spoken, to move to table the Dixon amendment and ask for the yeas and nays so we can have a vote on it. I hope that Senators will continue this morning to support the compromise that has already been approved, in effect, by the Senate.

I do not know of any Senators who want to speak on this particular subject. If there are none, it is my hope that we can get to a motion to table and get to a vote.

I understand the Senator from Alabama wants to be heard. If there are others, I hope their staffs will advise us so we can proceed to a vote on a motion to table the Dixon amendment.
